Section 16.1 **Employees**. Within five (5) days of the Execution Date, Seller shall provide to Purchaser a list (the " **Employee List**") of all employees of Seller directly engaged in the operation of the Assets (collectively, the "**Employees**"). The Employee List shall include for each Employee the current job title, work location, email, service date or hire date (if different), leave status, hourly or salaried (i.e., exempt or non-exempt) along with current compensation and equity, if applicable, and special pay programs. Seller shall update the Employee List as necessary at any time prior to twenty-three (23) days before the Closing to reflect any and all employment changes. Purchaser shall extend offers of employment to each of the Employees no later than twenty (20) days prior to Closing. Purchaser shall provide Seller with an update on job acceptances and declines no later than five (5) days prior to Closing. Seller will inform the Employees that their employment with Seller will terminate upon Closing, whether or not they accept the offer of employment from Purchaser.

Section 16.2 **Retirement Eligible Subject Employees**. Notwithstanding any language in this Agreement to the contrary, the Employees listed in Part B of the Employee List are within three years of retirement eligibility under Seller's benefit plans ("**Near Retirement Eligible Employees**"). Purchaser shall make an offer of employment to all Near Retirement Eligible Employees, which offer will include initial salary or wages that will be reasonably comparable, when taking into account Purchaser's salary structure and pay mix for the same or similar job, to such Employee's job, salary or wages immediately prior to the Closing. For any Near Retirement Eligible Employees who accept an employment offer from Purchaser, Purchaser shall maintain the employment (other than for prohibited conduct as determined under Purchaser's written personnel policies, a voluntary resignation, or death) of any such Near Retirement Eligible Employees at least until each such Near Retirement Eligible Employee meets the eligibility requirements of Seller's benefit plans (at least fifty-five (55) years old with at least fifteen (15) years of service with Seller and its affiliates and Purchaser and its affiliates).

Section 16.3 **Subject Employees Hired by Purchaser**. In connection with an Employee who accepts Purchaser's offer of employment, Purchaser covenants that the initial salary or wages of any such Employee will be reasonably comparable, when taking into account Purchaser's salary structure and pay mix for the same or similar job, to such Employees' salary or wages immediately prior to the Closing Date, and the Purchaser will not reduce the salary or wages during the twelve-month period after any such Employee commences employment with Purchaser. The Purchaser agrees to recognize and grant credit for service with Seller for benefit programs including vacation accrual under the Purchaser's vacation program. In addition, if the Purchaser separates any Employee during the twelve-month period after the Closing Date (other than for prohibited conduct as determined under Purchaser's written personnel policies, a voluntary resignation, or death), they will provide the Employee with a severance payment equal to or greater than the Seller's severance program would have provided the Employee.

Section 16.4 **No Solicitation**. For any Employee that elects not to accept the employment offer from Purchaser, then Purchaser (or any of its affiliates), for a period of six (6) months after the Closing Date, shall not employ or make an offer of employment to any such Employee.

ARTICLE XVII
MISCELLANEOUS

Section 17.1 **Entire Agreement**. This Agreement, including all Schedules and Exhibits attached hereto, constitutes the entire agreement between the Parties as to the subject matter of this Agreement and supersedes all prior agreements, understandings, negotiations and discussions of the Parties, whether oral or written. No supplement, amendment, alteration, modification or waiver of this Agreement shall be binding unless executed in writing by the Parties.

Section 17.2 **References and Rules of Construction**. All references in this Agreement to Exhibits, Schedules, Articles, Appendices, Sections and other subdivisions refer to the corresponding Exhibits, Schedules, Articles, Appendices, Sections and other subdivisions of or to this Agreement unless expressly provided otherwise. Titles appearing at the beginning of any such subdivisions are for convenience only and shall be disregarded in construing the language hereof. The words "this Agreement," "herein," "hereby," "hereunder" and "hereof," and words of similar import, refer to this Agreement as a whole and not to any particular subdivision unless expressly so limited. Pronouns in masculine, feminine, and neuter genders shall be construed to include any other gender, and words in the singular form shall be construed to include the plural and vice versa, unless the context otherwise requires. Derivatives and other forms of the terms defined in this Agreement shall have meanings consistent with the definitions herein provided. The term "including" (or "included") shall be deemed to be followed by the phrase "but not limited to." Unless otherwise expressly provided herein, any reference herein to a "day" shall refer to a calendar day. All references to "$" or "dollars" shall be deemed references to United States dollars. The words "shall" and "will" are used interchangeably throughout this Agreement and shall accordingly be given the same meaning, regardless of which word is used.

Section 17.3 **Assignment**. This Agreement may not be assigned by Purchaser without the prior written consent of Seller. In the event that Seller consents to any such assignment, such assignment shall not relieve Purchaser of any of its obligations and responsibilities hereunder. Any assignment or other

transfer by Purchaser or its successors and assigns of any of the Assets shall not relieve Purchaser or its successors or assigns of any of their obligations (including indemnity obligations) hereunder, as to the Assets so assigned or transferred. Without limiting the foregoing, Purchaser may assign the right to receive any of the Assets at Closing to one or more of its Affiliates by providing written notice to Seller that (a) sets forth the name of the Affiliate(s) that is to receive the right to receive such Asset(s), (b) acknowledges that such Affiliate(s) assumes the obligations under this Agreement with respect to such Assets, and (c) Purchaser remains responsible under this Agreement with respect to such Asset(s).

Section 17.4 **Waiver**. No waiver of any of the provisions of this Agreement shall be deemed or shall constitute a waiver of any other provisions of this Agreement (whether or not similar), nor shall such waiver constitute a continuing waiver unless otherwise expressly provided.

Section 17.5 **Conflict of Law Jurisdiction, Venue**. **THIS AGREEMENT AND THE LEGAL RELATIONS AMONG SELLER AND PURCHASER SHALL BE GOVERNED AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, EXCLUDING ANY CONFLICTS OF LAW RULE OR PRINCIPLE THAT WOULD REQUIRE THE APPLICATION OF ANY OTHER LAW. EACH OF SELLER AND PURCHASER CONSENT TO THE EXERCISE OF JURISDICTION IN PERSONAM BY THE COURTS OF THE STATE OF TEXAS FOR ANY ACTION ARISING OUT OF THIS AGREEMENT, THE OTHER TRANSACTION DOCUMENTS OR THE TRANSACTIONS CONTEMPLATED HEREBY. ALL ACTIONS OR PROCEEDINGS WITH RESPECT TO, ARISING DIRECTLY OR INDIRECTLY IN CONNECTION WITH, OUT OF, RELATED TO OR FROM THIS AGREEMENT OR THE OTHER TRANSACTION DOCUMENTS SHALL BE EXCLUSIVELY LITIGATED IN COURTS HAVING SITES IN HOUSTON, HARRIS COUNTY, TEXAS.**

Section 17.6 **Notices**. All notices and communications required or permitted to be given hereunder shall be in writing and shall be delivered personally, by email (provided that confirmation of receipt of such email is requested and received, which confirmation shall be provided reasonably promptly following receipt) or sent by bonded overnight courier, or mailed by U.S. Express Mail or by certified or registered United States Mail with all postage fully prepaid, addressed to Seller or Purchaser, as appropriate, at the address for such Person shown below or at such other address as Seller or Purchaser shall have theretofore designated by written notice delivered to the other Parties:

If to Seller:

XTO Energy Inc.
22777 Springwoods Village Parkway, Loc. 115
Spring, Texas 77389
Attention: Land Acquisition and Divestment Manager

With a copy to (which shall not constitute notice to Seller):

XTO Energy Inc.
22777 Springwoods Village Parkway, Loc. 119
Spring, Texas 77389
Attention: UOG Unconventional Divestment Manager

If to Purchaser:

BKV North Texas, LLC
BKV Midstream, LLC
1200 17th Street, Suite 2100
Denver, CO 80202
Attention: Mr. Christopher Kalnin, CEO
Email: [***]

With a copy to (which shall not constitute notice to Purchaser):

BKV North Texas, LLC
BKV Midstream, LLC
1200 17th Street, Suite 2100
Denver, CO 80202
Attention: General Counsel
Email: [***]

Any notice given in accordance herewith shall be deemed to have been given been given as of the date of receipt by the intended Party.

Section 17.7 **Timing**. Timing is of the essence for performance of the Parties' respective obligations hereunder; provided that if the date specified in this Agreement for giving any notice or taking any action under this Agreement is not a Business Day (or if the period during which any notice is required to be given or any action taken expires on a date which is not a Business Day), then the date for giving such notice or taking such action (or the expiration date of such period during which notice is required to be given or action taken) shall be the next day which is a Business Day.

Section 17.8 **Confidentiality**. Any information concerning the Assets (including any information discovered as a result of Purchaser's Environmental Assessment) or any aspect of the transactions contemplated by this Agreement shall be subject to the terms of the Confidentiality Agreement. This obligation shall terminate on the earlier to occur of (a) the Closing, or (b) such time as the information and data in question becomes generally available to the oil and gas

industry other than through the breach these obligations by Purchaser or its officers, employees or representatives.

Section 17.9 **Publicity**. Neither Seller nor Purchaser shall issue any media or other similar releases concerning this Agreement and the transactions contemplated hereby without the prior written consent of the other Party, except as required to be issued by a Party pursuant to applicable Law including the applicable rules or regulations of any governmental authority or stock exchange; provided that, to the extent any disclosure is required by applicable Law or stock exchange rule, the Party intending to make such disclosure shall first consult with the other Party with respect to the content thereof.

Section 17.10 **Use of Seller's Names**. Purchaser agrees that, as soon as practicable after the Closing, but in no event longer than sixty (60) days after Closing, it will remove or cause to be removed the names and marks used by Seller and all variations and derivatives thereof and logos relating thereto from the Assets and Purchaser will not make any use whatsoever of such names, marks and logos.

Section 17.11 **Severability**. If any term or other provision of this Agreement is invalid, illegal or incapable of being enforced by any rule of law or public policy, all other conditions and provisions of this Agreement shall nevertheless remain in full force and effect so long as the economic or legal substance of the contemplated transactions is not affected in any material adverse manner to either Party. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner to the end that the contemplated transactions are fulfilled to the extent possible.

Section 17.12 **Parties in Interest**. The terms and provisions of this Agreement shall be binding upon and inure to the benefit of the Parties and their respective successors and permitted assigns. Notwithstanding anything contained in this Agreement to the contrary, nothing in this Agreement, expressed or implied, is intended to confer on any Person other than Seller and Purchaser and their respective successors and permitted assigns, or the Parties' respective related Indemnified Parties hereunder, any rights, remedies, obligations or liabilities under or by reason of this Agreement, provided that only a Party and its respective successors and permitted assigns will have the right to enforce the provisions of this Agreement on its own behalf or on behalf of any of its related Indemnified Parties.

Section 17.13 **Amendment of Schedules; Disclosure**. Purchaser agrees that, with respect to the representations and warranties of Seller contained in this Agreement, Seller shall have the continuing right until six (6) Business Days prior to Closing to add, supplement or amend the Schedules to its representations and warranties with respect to any matter hereafter arising or discovered which, if existing or known at the Execution Date or thereafter, would have been required to be set forth or described in such Schedules. For purposes of determining whether the conditions set forth in Article VIII have been fulfilled, the Schedules to Seller's representations and warranties contained in this Agreement shall be deemed to include only that information contained therein on the Execution Date and shall be deemed to exclude all information contained in any addition, supplement or amendment thereto; provided, however, that if the Closing shall occur, then all matters disclosed pursuant to any such addition, supplement or amendment at or prior to the Closing shall be waived and Purchaser shall not be entitled to make a claim with respect thereto pursuant to the terms of this Agreement or otherwise. Matters reflected in any disclosure with respect to a Section of this Agreement are not necessarily limited to matters required by this Agreement to be so reflected. Such additional matters are set forth for informational purposes and do not necessarily include other matters of a similar nature. In no event shall the listing of items or matters in a Schedule be deemed or interpreted to broaden, or otherwise expand the scope of, the representations and warranties or covenants and agreements contained in this Agreement.

Section 17.14 **Conspicuousness. PURCHASER ACKNOWLEDGES THAT THE PROVISIONS OF THIS AGREEMENT THAT ARE PRINTED IN THE SAME MANNER AS THIS SECTION ARE CONSPICUOUS.**

Section 17.15 **Execution in Counterparts**. This Agreement may be executed in counterparts, and each such counterpart shall be deemed to be an original instrument, but all such counterparts together shall constitute for all purposes one agreement. Facsimiles or other electronic copies (e.g., PDFs) of executed counterparts shall be deemed to be original instruments.

Section 17.16 **Exclusivity**. From and after the Execution Date until the earlier to occur of the Closing or June 1, 2022, and only to the extent Purchaser is diligently performing all obligations, agreements, and covenants to consummate the transaction provided for herein in accordance with terms hereof, Seller shall not (a) enter into any agreement (binding or nonbinding) or negotiate with any Person (other than Purchaser) with respect to any transaction related to the sale (whether by merger, stock or asset sale or any other similar acquisition, consolidation or combination of any of the foregoing, other than, for purposes of clarity, any such transaction resulting in a change of control of Seller's ultimate parent entity) of any of the Assets (other than as permitted by Section 7.1(b)(iii)) or (b) assist or encourage any effort or attempt by any Person (other than Purchaser) to attempt to do or seek to do any of the foregoing. Notwithstanding the foregoing sentence of this Section 17.16, Seller and its representatives shall have the limited right to state in response to third party inquiries about the Assets that Seller is subject to the terms and conditions of a purchase and sale agreement with respect to the Assets.

EXECUTION VERSION

IN WITNESS WHEREOF, Purchaser and Seller have executed and delivered this Agreement effective as of the Effective Time.

Appendix A
Defined Terms

Capitalized terms used in this Agreement have the following meanings:

"**2023 Henry Hub Price**" has the meaning set forth in Section 3.5(a).

"**2023 Henry Hub Threshold**" has the meaning set forth in Section 3.5(a).

"**2024 Henry Hub Price**" has the meaning set forth in Section 3.5(b).

"**2024 Henry Hub Threshold**" has the meaning set forth in Section 3.5(b).

"**Adjusted Purchase Price**" has the meaning set forth in Section 3.4.

"**AFE**" has the meaning set forth in Section 5.10.

"**Affiliate**" means with respect to any Person, a Person that, directly or indirectly, through one or more entities, controls, is controlled by or is under common control with the Person specified. For the purpose of the immediately preceding sentence, the term "**control**" and its syntactical variants mean the power, direct or indirect, to direct or cause the direction of the management of such Person, whether through the ownership of voting securities, by contract, agency or otherwise.

"**Aggregate Environmental Defect Deductible**" has the meaning set forth in Section 4.12.

"**Aggregate Title Defect Deductible**" has the meaning set forth in Section 4.6.

"**Agreed Accounting Firm**" means KPMG, LLC, or if KPMG, LLC does not agree to serve as the Agreed Accounting Firm, then such other nationally-recognized independent accounting firm as mutually agreed to by Purchaser and Seller; provided that if the Parties cannot so agree within fourteen (14) days following the notification by KPMG, LLC that it does not agree to serve as the Agreed Accounting Firm, then either Party can request that the Houston, Texas office of the American Arbitration Association appoint such Agreed Accounting Firm.

"**Agreement**" has the meaning set forth in the Preamble.

"**Allocated Value**" has the meaning set forth in Section 3.1.

"**Asset Taxes**" means all Property Taxes and all Severance Taxes.

"**Assets**" has the meaning set forth in Section 2.2.

"**Assigned Surface**" has the meaning set forth in Section 2.2(f).

"**Assignment**" shall mean the Assignment and Bill of Sale from Seller to Purchaser pertaining to the Assets and substantially in the form of Exhibit E.

"**Assumed Obligations**" has the meaning set forth in Section 11.1.

"**Business Day**" means a day (other than a Saturday or Sunday) on which commercial banks in Texas are generally open for business.

"**Captives**" has the meaning set forth in Section 11.12.

"**Casualty Loss**" means an event where any of the Assets are (a) taken in condemnation or under the right of eminent domain, or (b) damaged or destroyed by fire or other casualty or act of God.

"**Claim Notice**" has the meaning set forth in Section 11.7.

"**Closing**" has the meaning set forth in Section 10.1.

"**Closing Date**" means the date upon which Closing occurs (or should occur assuming the conditions to Closing have been satisfied or waived by the applicable Party).

"**Confidentiality Agreement**" means the Confidentiality Agreement, dated as of November 18, 2021, among Seller and Purchaser.

"**Credit Support**" has the meaning set forth in Section 5.18.

"**Customary Post-Closing Consents**" means those consents and approvals from governmental authorities for the assignment of the Assets to Purchaser that are customarily obtained after such assignment of properties similar to the Assets.

"**Defect Notice Date**" has the meaning set forth in Section 4.3.

"**Defensible Title**" shall mean such title of Seller to the Wells that, as of the Effective Time and immediately prior to the Closing and subject to Permitted Encumbrances:

(a) with respect to the currently producing formation for a Well, entitles Seller to receive during the entirety of the productive life of such Well not less than the Net Revenue Interest for such Well as set forth in Exhibit B, except for (i) decreases in connection with those operations in which Seller or its successors or assigns may from and after the Execution Date be a non-consenting co-owner, (ii) decreases resulting from the establishment or amendment from and after the Execution Date of pools or units, (iii) decreases required to allow other Working Interest owners to make up past underproduction or pipelines to make up past under deliveries, and (iv) as otherwise expressly set forth in Exhibit B;

(b) with respect to the currently producing formation for a Well, obligates Seller to bear during the entirety of the productive life of such Well not more than the Working Interest for such Well as set forth in Exhibit B, except (i) increases resulting from contribution requirements with respect to defaulting co-owners under applicable operating agreements, (ii) increases to the extent that they are accompanied by a proportionate increase in Seller's Net Revenue Interest in such Well, (iii) increases resulting from the establishment or amendment from and after the Execution Date of pools or units, and (iv) as otherwise expressly set forth in Exhibit B; and

(c) is free and clear of all Encumbrances.

"**Deposit**" means an amount equal to ten percent (10%) of the Purchase Price.

"**Dispute Notice**" has the meaning set forth in Section 12.1(a).

"**Effective Time**" means 12:00:01 a.m. (Houston time) on February 1, 2022.

"**Employee List**" has the meaning set forth in Section 16.1.

"**Employees**" has the meaning set forth in Section 16.1.

"**Encumbrance**" means any lien, security interest, pledge, charge, defect or similar encumbrance.

"**Environmental Defect**" means a condition with respect to the air, land, soil, surface, subsurface strata, surface water, ground water or sediments that (a) constitutes a violation of Environmental Laws in effect as of the Effective Time in the jurisdiction to which the affected Assets are subject, or (b) constitutes a physical condition that requires, if known, or will require, once sufficiently discovered, reporting to a governmental authority, investigation, monitoring, removal, cleanup, remediation, restoration or correction under Environmental Laws. For the avoidance of doubt, (i) the fact that a Well is no longer capable of producing sufficient quantities of oil or gas to continue to be classified as a "producing well" or that such a Well should be temporarily abandoned or permanently plugged and abandoned shall not, in each case, form the basis of an Environmental Defect, (ii) the fact that a pipe is temporarily not in use shall not form the basis of an Environmental Defect, and (iii) except with respect to equipment (A) that causes or has caused any environmental pollution, contamination or degradation where Remediation is presently required (or if known or confirmed, would be presently required) under Environmental Laws or (B) the use or condition of which is a violation of Environmental Law in effect as of the Effective Time, the physical condition of any surface or subsurface production equipment, including water or oil tanks, separators or other ancillary equipment, shall not form the basis of an Environmental Defect.

"**Environmental Defect Notice**" has the meaning set forth in Section 4.10.

"**Environmental Defect Property**" has the meaning set forth in Section 4.10.

"**Environmental Law**" means any Laws pertaining to safety, health or conservation or protection of the environment, wildlife, or natural resources in effect in any and all jurisdictions in which the Assets are located, including the Clean Air Act, as amended, the Federal Water Pollution Control Act, as amended,

the Safe Drinking Water Act, as amended, the Comprehensive Environmental Response, Compensation and Liability Act, as amended ("**CERCLA**"), the Superfund Amendments and Reauthorization Act of 1986, as amended, the Resource Conservation and Recovery Act, as amended ("**RCRA**"), the Hazardous and Solid Waste Amendments Act of 1984, as amended, the Toxic Substances Control Act, as amended, the Occupational Safety and Health Act, as amended, and any applicable state, tribal, or local counterparts, but shall not include any applicable Law associated with plugging and abandonment of any well. The terms "hazardous substance", "release", and "threatened release" shall have the meanings specified in CERCLA; provided, however, that to the extent the Laws of the state in which the Assets are located are applicable and have established a meaning for "hazardous substance", "release", "threatened release", "solid waste", "hazardous waste", and "disposal" that is broader than that specified in CERCLA or RCRA, such broader meaning shall apply with respect to the matters covered by such Laws..

"**Excluded Assets**" has the meaning set forth in Section 2.3.

"**Execution Date**" has the meaning set forth in the Preamble.

"**Existing Contracts**" means, except for any Excluded Asset, all contracts, agreements and instruments by which any of the Leases, Wells or other Assets are bound, or to which any of the Leases, Wells or other Assets are subject (but in each case only to the extent applicable to such Leases, Wells or other Assets and not to other properties of Seller or its Affiliates not included in the Assets), including operating agreements, unitization, pooling and communitization agreements, declarations and orders, joint venture agreements, farmin and farmout agreements, water rights agreements, exploration agreements, area of mutual interest agreements, participation agreements, exchange agreements, transportation or gathering agreements, agreements for the sale and purchase of Hydrocarbons and processing agreements; provided, that "Existing Contracts" shall exclude (a) any master service agreements, blanket agreements and similar contracts, (b) all of the instruments constituting the Leases, Rights-of-Way or creating or assigning any real property interest, and (c) any Existing Contract between Seller and any Affiliates of Seller (including any Existing Contract between the entities comprising Seller, except for those certain inter-affiliate agreements identified in Schedule 1.1(b)); provided, such Existing Contract is not binding on Purchaser from and after Closing and is released of record, if applicable, prior to Closing.

"**ExxonMobil Policies**" has the meaning set forth in Section 11.12.

"**Final Payment Date**" has the meaning set forth in Section 12.1(a).

"**Final Price**" has the meaning set forth in Section 12.1(a).

"**Final Settlement Date**" has the meaning set forth in Section 12.1(a).

"**Final Settlement Statement**" has the meaning set forth in Section 12.1(a).

"**First Contingent Payment**" has the meaning set forth in Section 3.5(a).

"**GAAP**" means generally accepted accounting principles in the United States, consistently applied.

"**HSR Act**" means the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and the rules and regulations thereunder.

"**Hydrocarbons**" means all oil and gas and all other hydrocarbons produced or processed in association therewith.

"**Imbalance**" means any Pipeline Imbalance or Well Imbalance.

"**Indemnity Deductible**" has the meaning set forth in Section 11.5(a).

"**Individual Environmental Defect Threshold**" has the meaning set forth in Section 4.12.

"**Individual Title Defect Threshold**" has the meaning set forth in Section 4.6.

"**Indemnified Party**" has the meaning set forth in Section 11.7.

"**Indemnifying Party**" has the meaning set forth in Section 11.7.

"**Interim Period**" means the period from and after the Execution Date up until the Closing.

"**Knowledge**" or "**Seller's Knowledge**" means with respect to Seller, the actual knowledge (without investigation) of the Persons set forth on Schedule 1.1(a).

"**Law**" means any applicable law, statute, regulation, ordinance, order, code, ruling, writ, injunction, decree or other act of or by any governmental authority (including any administrative, executive, judicial, legislative, regulatory or taxing authority).

"**Leases**" has the meaning set forth in Section 2.2(a).

"**Longstop Date**" has the meaning set forth in Section 10.1.

"**Losses**" means any and all claims, causes of action, proceedings, hearings, payments, charges, judgments, injunctions, orders, decrees, assessments, liabilities, losses, damages, penalties, fines, obligations, deficiencies, debts or costs and expenses, including any attorneys' fees, legal or other expenses incurred in connection therewith and including liabilities, costs, losses and damages for personal injury or death or property damage or environmental damage or Remediation.

"**Material Adverse Effect**" means with respect to Seller, any event, result, occurrence, condition or circumstance that, individually or in the aggregate (whether foreseeable or not and whether covered by insurance or not), results in a material adverse effect on the (a) ownership or operation of the Assets and as currently operated as of the Execution Date, or (b) ability of any Seller to consummate the transactions contemplated by this Agreement and perform its obligations hereunder; provided, however, that a Material Adverse Effect shall not include any material adverse effects resulting from: (i) entering into this Agreement or the announcement of the transactions contemplated by this Agreement; (ii) changes in general market, economic, financial or political conditions (including changes in commodity prices (including Hydrocarbons), fuel supply or transportation markets, interest or rates) in the area in which the Assets are located, the United States or worldwide; (iii) conditions (or changes in such conditions) generally affecting the oil and gas and/or gathering, processing or transportation industry whether as a whole or specifically in any area or areas where the Assets are located; (iv) acts of God, including storms or meteorological events; (v) orders, actions or failures to act of governmental authorities; (vi) civil unrest or similar disorder, the outbreak of hostilities, terrorist acts or war; (vii) any actions taken or omitted to be taken (A) by or at the written request or with the prior written consent of Purchaser or (B) as expressly permitted or prescribed hereunder; (viii) matters that are cured or no longer exist by the earlier of the Closing and the termination of this Agreement; (ix) any Casualty Loss; (x) a change in Laws or in GAAP interpretation from and after the Execution Date; (xi) reclassification or recalculation of reserves in the ordinary course of business; and (xii) natural declines in well performance.

"**Material Contracts**" has the meaning set forth in Section 5.13(a).

"**Mineral Interests**" has the meaning set forth in Section 2.2(c).

"**Midstream Assets**" means the gathering and transportation system that is part of the Assets, including Rights-of-Way.

"**Near Retirement Eligible Employees**" has the meaning set forth in Section 16.2.

"**Net Revenue Interest**" means with respect to any Well, the interest in and to all Hydrocarbons produced, saved and sold from or allocated to such Well, after giving effect to all royalties, overriding royalties, production payments, carried interests, net profits interests, reversionary interests and other burdens upon, measured by or payable out of production therefrom.

"**NORM**" means naturally occurring radioactive material.

"**Parties**" and "**Party**" has the meaning set forth in the Preamble.

"**Performance Bond**" has the meaning set forth in Section 7.4.

"**Permit**" means all permits, licenses, authorizations, registrations, consents or approvals (in each case) granted or issued by any governmental authority.

"**Permitted Encumbrances**" means with respect to any Asset, any of the following:

(a) the terms and conditions of all Leases and all lessor's royalties, non-participating royalties, overriding royalties, reversionary interests and similar burdens upon, measured by or payable out of production if the net cumulative effect of such Leases and burdens does not operate to reduce the Net Revenue Interest of Seller in any Well below the Net Revenue Interest as set forth in Exhibit B (as to the applicable formation) for such Well and does not operate to increase the Working Interest of Seller in such Well (as to the applicable formation) above the Working Interest for such Well as set forth in Exhibit B (as to the applicable formation) for such Well (unless the Net Revenue Interest for such Well is greater than the Net Revenue Interest for such Well as set forth in Exhibit B in the same proportion as any increase in such Working Interest);

(b) Preferential Rights and consents (including Required Consents) to assignment and similar transfer restrictions or requirements;

(c) liens for taxes or assessments not yet delinquent or, if delinquent, that are being contested in good faith in the normal course of business;

(d) materialman's, mechanic's, repairman's, employee's, contractor's, operator's, and other similar liens or charges arising in the ordinary course of business (i) if they have not been filed pursuant to Law, or (ii) if filed, they have not yet become due and payable;

(e) the loss of lease acreage between the Effective Time and Closing because the lease term expires;

(f) Customary Post-Closing Consents and any required notices to, or filings with, governmental authorities in connection with the consummation of the transactions contemplated by this Agreement;

(g) rights of reassignment arising upon final intention to abandon or release the Assets, or any of them;

(h) the Rights-of-Way and, to the extent that they do not materially interfere with the operation of the Assets (as currently operated), all other easements, rights-of-way, servitudes, Permits, surface leases and other rights relating to surface operations. facilities, pipelines, transmission lines, transportation lines, distribution lines and other like purposes;

(i) all other charges, encumbrances, contracts, agreements, instruments, obligations, defects and irregularities affecting the Assets which individually or in the aggregate are not such as to materially interfere with the operation of any of the Assets (as currently operated), do not reduce the Net Revenue Interest of Seller in any Well below the Net Revenue Interest set forth on Exhibit B (as to the applicable formation) for such Well, and do not increase the Working Interest of Seller in such Well (as to the applicable formation) above the Working Interest set forth in Exhibit B (as to the applicable formation) for such Well (unless the Net Revenue Interest for such Well is greater than the Net Revenue Interest for such Well as set forth in Exhibit B in the same proportion as any increase in such Working Interest);

(j) all rights reserved to or vested in any governmental authority to control or regulate any of the Assets in any manner, and all applicable Permits and Laws;

(k) rights of a common owner of any interest in Rights-of-Way or Permits held by Seller and such common owner as tenants in common or through common ownership;

(l) liens created under Leases or Rights-of-Way included in the Assets and/or operating agreements or production sales contracts or by operation of Law in respect of obligations that are not yet due or delinquent or, if delinquent, which are being contested in good faith by appropriate procedures by or on behalf of Seller;

(m) any Encumbrance affecting the Assets that is discharged by Seller at or prior to Closing;

(n) any Title Defects that Purchaser may have expressly waived in writing or which are deemed to have been waived under Section 4.4, or that do not meet the Individual Title Defect Threshold or Aggregate Title Defect Deductible as set forth in Section 4.6;

(o) the terms and conditions of the Existing Contracts to the extent that they do not, individually or in the aggregate to (i) reduce the Net Revenue Interest of Seller in any Well below the Net Revenue Interest as set forth in Exhibit B (as to the applicable formation) for such Well, (ii) does not operate to increase the Working Interest of Seller in such Well (as to the applicable formation) above the Working Interest for such Well as set forth in Exhibit B (as to the applicable formation) for such Well (unless the Net Revenue Interest for such Well is greater than the Net Revenue Interest for such Well as set forth in Exhibit B in the same proportion as any increase in such Working Interest) or (iii) impair in any material respect the prudent or current ownership and/or operation of any of the Assets by Seller (or by Purchaser as Seller's successor-in-interest from and after Closing);

(p) the terms and conditions of this Agreement;

(q) all Imbalances;

(r) the litigation, suits and proceedings set forth in Schedule 5.9; and

(s) any matter that would not constitute a Title Defect under the terms of this Agreement.

"**Person**" means an individual, corporation, partnership, association, trust, limited liability company or any other entity or organization, including government or political subdivisions or an agency, unit or instrumentality thereof.

"**Pipeline Imbalance**" means any marketing imbalance between the quantity of Hydrocarbons attributable to the Assets required to be delivered by any Seller under any contract or Law relating to the purchase and sale, gathering, transportation, storage, processing or marketing of such Hydrocarbons and the quantity of Hydrocarbons attributable to the Assets actually delivered by Seller pursuant to the relevant contract or at Law, together with any appurtenant rights and obligations concerning production balancing at the delivery point into the relevant sale, gathering, transportation, storage or processing facility.

"**Plugging and Abandonment Obligations**" has the meaning set forth in Section 11.1(b).

"**Preferential Rights**" has the meaning set forth in Section 4.8.

"**Preliminary Settlement Statement**" has the meaning set forth in Section 10.2.

"**Property Expenses**" means all operating expenses (including Property Taxes and all insurance premiums or any other costs of insurance attributable to Seller's and/or its Affiliates' insurance and to coverage periods from and after the Effective Time but excluding in all cases, all costs and expenses of bonds, letters of credit or other surety instruments) and all capital expenditures (in each case) incurred in the ownership and operation of the Assets in the ordinary course of business and, where applicable, in accordance with the relevant operating or unit agreement, if any, and overhead costs charged to the Assets under the relevant operating agreement or unit agreement, if any, or otherwise allocable to the Assets, but excluding all Losses attributable to (i) personal injury or death, property damage or violation of any Law, (ii) Plugging and Abandonment Obligations, (iii) the Remediation of any environmental condition under applicable Environmental Laws, (iv) obligations with respect to Imbalances, or (v) obligations to pay Working Interest owners, royalties, overriding royalties or other interest owners revenues or proceeds attributable to sales of Hydrocarbons relating to the Assets, including those held in suspense.

"**Property Taxes**" means all ad valorem taxes, real property taxes, personal property taxes, and similar obligations relating to the Assets.

"**Purchase Price**" has the meaning set forth in Section 3.1.

"**Purchaser**" has the meaning set forth in the Preamble.

"**Purchaser Group**" means Purchaser and its Affiliates and each of their respective officers, directors, employees, agents and representatives.

"**Purchaser's Environmental Assessment**" has the meaning set forth in Section 4.9.

"**Records**" has the meaning set forth in Section 12.4(a).

"**Remediation**" means with respect to an environmental condition or Environmental Defect, the response required or allowed under Environmental Laws that completely addresses (for current and future use in the same manner as being currently used) the identified environmental condition or Environmental Defect at the lowest cost (considered as a whole) as compared to any other response that is required or allowed under Environmental Laws. "Remediation" may consist of or include taking no action, leaving the condition unaddressed, periodic monitoring, the use of institutional controls or the recording of notices in lieu of remediation, in each case, if such response is allowed under Environmental Laws and completely addresses and resolves (for current and future use in the same manner as being currently used) the identified environmental condition or Environmental Defect.

"**Remediation Amount**" means with respect to an Environmental Defect, the present value as of the Closing Date of the cost (net to Seller's interest) of the Remediation of such defect; provided, however, that "Remediation Amount" shall not include (a) the costs of Purchaser's and/or its Affiliate's employees, or, if Seller is conducting the Remediation, Purchaser's project manager(s) or attorneys, (b) expenses for matters that are ordinary costs of doing business regardless of the presence of an environmental condition (e.g., those costs that would ordinarily be incurred in the day-to-day operations of the Assets or in connection with Permit renewal/amendment activities), (c) overhead costs of Purchaser and/or its Affiliates, (d) costs and expenses that would not have been required under Environmental Laws as they exist on the Closing Date or, if prior to the Closing Date, the date on which the Remediation action is being undertaken, or (e) any costs or expenses relating to the assessment, remediation, removal, abatement, transportation and disposal of any asbestos, asbestos-containing materials or NORM unless required to address a violation of Environmental Law. Notwithstanding anything to the contrary in this Agreement, the aggregate Remediation Amounts attributable to the effects of all Environmental Defects upon any Environmental Defect Property shall not exceed the Allocated Value of such Environmental Defect Property.

"**Required Consent**" means any consent for which the failure to obtain such consent (or waiver in writing by the holder thereof) would cause (a) the assignment, conveyance or transfer of the Assets affected thereby to Purchaser to be void, voidable, invalid, unenforceable and/or nullified; or (b) the termination of or right to terminate any Lease or an Existing Contract, in each case, under the express terms of the underlying Lease or Existing Contract containing such consent.

"**Rights-of-Way**" means, except for any Excluded Asset, all permits, licenses, servitudes, easements, fee surface, surface leases, surface use agreements and rights-of-way primarily used or held for use in connection with the ownership or operation of the Assets, other than Permits.

"Sale Area" means all assets and rights of Seller that are located within the red outline identified on Exhibit C, containing all of Bosque, Dallas, Denton, Ellis, Erath, Hill, Hood, Jack, Johnson, Montague, Palo Pinto, Parker, Somervell, Tarrant, Wise, and a portion of Cooke County, Texas.

"**Scheduled Closing Date**" has the meaning set forth in Section 10.1.

"**Second Contingent Payment**" has the meaning set forth in Section 3.5(b).

"**Seller**" has the meaning set forth in the Preamble.

"**Seller Group**" means Seller and its Affiliates and each of their respective directors, officers, employees, agents and representatives.

"**Severance Taxes**" means all severance, production or other taxes measured by hydrocarbon production from the Assets, or the receipt of proceeds therefrom.

"**Surface Fee Deed**" shall mean the Surface Fee Deed from Seller to Purchaser pertaining to the Assigned Surface and substantially in the form of Exhibit K.

"**Suspense Funds**" has the meaning set forth in Section 12.2.

"**Target Settlement Date"** has the meaning set forth in Section 12.1(a).

"**Title Benefit**" has the meaning set forth in Section 4.7.

"**Title Benefit Amount**" has the meaning set forth in Section 4.7.

"**Title Defect**" means any Encumbrance, defect or other matter that causes Seller not to have Defensible Title; provided that the following shall not be considered Title Defects:

(a) defects arising out of lack of corporate or other entity authorization or defects consisting of the failure to recite marital status in a document or omissions of successions of heirship or estate proceedings, (in each case) unless Purchaser provides affirmative evidence that such corporate or other entity

action was not authorized and has resulted, or such failure or omission (in either case) has resulted, in another Person's superior claim of title to the relevant Asset;

(b) defects based on a gap in Seller's chain of title in the applicable county records, unless such gap is affirmatively shown to exist in such records by an abstract of title, title opinion or landman's title chain or run sheet which documents shall be included in a Title Defect Notice and has resulted in another Person's superior claim of title to the relevant Asset;

(c) defects based upon the failure to record any federal, state or tribal Lease or Right-of-Way included in the Assets, or any assignments of interests in such Leases or Rights-of-Way included in the Assets, in the applicable county records, unless such failure has resulted in another Person's superior claim of title to the relevant Asset;

(d) defects arising from any prior oil and gas lease relating to the lands covered by the Leases or Units not being surrendered of record, unless Purchaser provides affirmative evidence that such prior oil and gas lease is still in effect and has resulted in another Person's actual and superior claim of title to the relevant Lease or Well;

(e) defects that affect only which Person has the right to receive payments of royalties or other burdens on production and that do not affect the validity of the underlying Lease (subject to Purchaser's right to indemnity under Section 11.3(c));

(f) defects based solely on: (i) lack of information in Seller's files, (ii) references to an unrecorded document to which neither Seller nor any Affiliate of Seller is a party and which document is dated earlier than January 1, 1960; or (iii) any tax assessment, tax payment or similar records or the absence of such activities or records;

(g) any Encumbrance or loss of title resulting from Seller's conduct of business in compliance with this Agreement;

(h) defects as a consequence of cessation of production, insufficient production or failure to conduct operations during any period after the completion of a well capable of production in paying quantities on any of the Leases held by production, or lands pooled or unitized therewith, except to the extent a claims is pending with respect thereto or the cessation of production is affirmatively shown to have occurred within the past seven years and it will give rise to a right of the lessor or other third party to terminate the underlying Lease, which documentation shall be provided by Purchaser to Seller in a Title Defect Notice;

(i) Encumbrances created under deeds of trust, mortgages and similar instruments by the lessor under a Lease covering the lessor's interests in the land covered thereby that would customarily be accepted in taking or purchasing such Leases and for which a reasonably prudent lessee would not customarily seek a subordination of such Encumbrance to the oil and gas leasehold estate prior to conducting drilling activities on the Lease;

(j) all defects or irregularities that have been cured or remedied by applicable statutes of limitation or statutes of prescription;

(k) all defects or irregularities resulting from lack of survey unless such survey is required by applicable Law;

(l) all defects or irregularities resulting from the failure to record releases of liens, production payments or mortgages that have expired on their own terms or the enforcement of which are barred by applicable statute of limitations;

(m) Encumbrances created under deeds of trust, mortgages and similar instruments by the grantor under a Right-of-Way that would customarily be accepted by a reasonably prudent oil and gas operator or reasonably prudent pipeline owner in taking or purchasing such Rights-of-Way;

(n) defects arising as a result of actions taken by Purchaser or Purchaser's failure to consent to any action pursuant to Section 7.1 below;

(o) defects arising as a result of a change in applicable Law after the Effective Time; and

(p) any Encumbrance or loss of title affecting ownership interests in formations other than the currently producing formation for the affected Well.

"**Third Party Claim**" has the meaning set forth in Section 11.7.

"**Title Defect Amount**" has the meaning set forth in Section 4.5.

"**Title Defect Notice**" has the meaning set forth in Section 4.3.

"**Title Defect Property**" has the meaning set forth in Section 4.3.

"**Total Purchase Price**" has the meaning set forth in Section 3.1.

"**Transaction Documents**" means those documents executed and delivered pursuant to or in connection with this Agreement.

"Transferred Vehicles" shall mean (i) those certain vehicles (or vehicle leases, to the extent permitted to be transferred by the applicable vehicle leasing company) that are directly associated with the transferred Employees and (ii) any other vehicles that Seller and Purchaser mutually agree shall be

transferred from Seller to Purchaser.

"Transition Services Agreement" has the meaning set forth in Section 10.4(j).

"**Units**" has the meaning set forth in Section 2.2(d).

"**Wells**" has the meaning set forth in Section 2.2(b).

"**Well Imbalance**" means any imbalance at the wellhead between the amount of Hydrocarbons produced from a Well and allocable to the interests of Seller therein and the shares of production from the relevant Well to which Seller is entitled, together with any appurtenant rights and obligations concerning future in kind and/or cash balancing at the wellhead.

"**Willful Breach**" means with respect to any Party, such Party knowingly and intentionally breaches in any material respect (by refusing to perform or taking an action prohibited) any material covenant applicable to such Party.

"**Working Interest**" means with respect to any Well, the interest in and to such Well that is burdened with the obligation to bear and pay costs and expenses of maintenance, development and operations on or in connection with such Well, but without regard to the effect of any royalties, overriding royalties, production payments, net profits interests and other similar burdens upon, measured by or payable out of production therefrom.

Exhibit 3.1

AMENDED AND RESTATED

CERTIFICATE OF INCORPORATION

OF

BKV CORPORATION

EFFECTIVE AS OF DECEMBER 15, 2020

BKV Corporation, a corporation organized and existing under and by virtue of the provisions of the General Corporation Law of the State of Delaware (the "**DGCL**"), hereby certifies as follows:

1. The name of this corporation is BKV Corporation, and that this corporation was originally incorporated pursuant to the DGCL on May 1, 2020.

2. That the Board of Directors duly adopted resolutions proposing to amend and restate the Certificate of Incorporation of this corporation, declaring said amendment and restatement to be advisable and in the best interests of this corporation and its stockholders, which resolution setting forth the proposed amendment and restatement is as follows:

RESOLVED, that the Certificate of Incorporation of this corporation be amended and restated in its entirety to read as follows (this " **Certificate of Incorporation**"):

FIRST: The name of the corporation is BKV Corporation (the " **Corporation**").

SECOND: The address of the registered office of the Corporation in the State of Delaware is 251 Little Falls Drive, Wilmington, New Castle County, Delaware 19808. The name of the registered agent of the Corporation at such address is Corporation Service Company.

THIRD: The nature of the business or purposes to be conducted or promoted by the Corporation is to engage in any lawful act or activity for which corporations may be organized under the DGCL.

FOURTH: The total number of shares of all classes of stock which the Corporation is authorized to issue is 380,000,000, consisting of (i)300,000,000 shares of Common Stock, $0.01 par value per share (the "**Common Stock**"), and (ii)80,000,000 shares of Preferred Stock, $10.00 par value per share (the "**Preferred Stock**").

The following is a statement of the designations and the powers, privileges and rights, and the qualifications, limitations or restrictions thereof in respect of each class of capital stock of the Corporation.

A. COMMON STOCK

1. General. The voting, dividend and liquidation rights of the holders of the Common Stock are subject to and qualified by the rights, limitations, powers and preferences set forth in this Certificate of Incorporation, any Preferred Stock Designation (as defined below) and the Investor Rights Agreement (as defined below).

---

2. Voting. The holders of the Common Stock are entitled to one (1)vote for each share of Common Stock held of record by such holders on all matters on which stockholders generally are entitled to vote; provided, however, that, except as otherwise required by law, this Certificate of Incorporation or pursuant to any Preferred Stock Designation, holders of Common Stock, as such, shall not be entitled to vote on any amendment to (i)the Certificate of Incorporation or any amendment to any Preferred Stock Designation that relates solely to the terms of one or more outstanding series of Preferred Stock, if the holders of such affected series are entitled, either separately or together with the holders of one or more other such series, to vote thereon pursuant to the Certificate of Incorporation, any Preferred Stock Designation or the DGCL or (ii) the Investor Rights Agreement.

B. PREFERRED STOCK

1. General. Subject to the to the terms of the Certificate of Incorporation, any Preferred Stock Designation and the Investor Rights Agreement, shares of Preferred Stock may be issued in one or more series from time to time, with each such series to consist of such number of shares and to have such par value, voting powers, full or limited, or no voting powers, and such designations, preferences and relative, participating, optional or other special rights, and the qualifications, limitations or restrictions thereof, as shall be stated in the resolution or resolutions providing for the issuance of such series adopted by the Board of Directors of the Corporation (the" **Board of Directors**") and included in a certificate of designations (any such certificate, and including the SeriesA Preferred Stock Designation (as defined below), a "**Preferred Stock Designation**") filed pursuant to the DGCL, and the Board of Directors is hereby expressly vested with the authority, to the full extent now or hereafter provided by law, to adopt any such resolution or resolutions.

2. Series A Preferred Stock; Issuance of New Preferred Stock Upon Conversion . 9,900,000 shares of the authorized and unissued Preferred Stock of the Corporation, $10.00 par value per share, are hereby designated "**SeriesA Preferred Stock** ." The relative rights, preferences and limitations of such SeriesA Preferred Stock shall be as set forth in the Certificate of Designations of the SeriesA Preferred Stock, dated as December15, 2020 (the " **Series A Preferred Stock Designation**"). In accordance with the SeriesA Preferred Stock Designation, the Corporation shall at all times be authorized to issue to the holders of the SeriesA Preferred Stock and shall reserve for issuance, as a new series of Preferred Stock (the " **SeriesA Conversion Preferred** "), the number of shares of Preferred Stock that such holders are entitled to receive upon the exercise of the Holder Conversion Right (as defined in the SeriesA Preferred

Stock Designation), which new series of Preferred Stock shall have the relative rights, preferences and limitations as described in Section7 of the SeriesA Preferred Stock Designation.

FIFTH: Unless and except to the extent that the bylaws of the Corporation (the " **Bylaws**") shall so require, the election of directors of the Corporation need not be by written ballot.

SIXTH: Subject to any additional vote, consent or approval required by this Certificate of Incorporation, any Preferred Stock Designation, the Investor Rights Agreement or the Bylaws, the number of directors of the Corporation shall be determined in the manner set forth in the Bylaws of the Corporation.

SEVENTH: To the fullest extent permitted by law and except in the case of fraud or willful misconduct, a director of the Corporation shall not be personally liable to the Corporation or to its stockholders for monetary damages for any breach of fiduciary duty as a director. If the DGCL or any other law of the State of Delaware is amended after approval of this seventh paragraph to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent permitted by the DGCL as so amended. No amendment to, modification of or repeal of this seventh paragraph shall apply to or have any effect on the liability or alleged liability of any director of the Corporation for or with respect to any acts or omissions of such director occurring prior to such amendment.

EIGHTH: Subject to any additional vote, consent or approval required by the Certificate of Incorporation, any Preferred Stock Designation, the Investor Rights Agreement or the Bylaws, in furtherance and not in limitation of the powers conferred by statute, the Board of Directors is expressly authorized to adopt, amend or repeal the Bylaws or adopt new Bylaws without any action on the part of the stockholders; provided that subject to the foregoing votes, consents or approvals, any Bylaw adopted or amended by the Board of Directors, and any powers thereby conferred, may be amended, altered or repealed by the stockholders.

NINTH: The Corporation shall have the right, subject to any additional vote, consent or approval or express provisions or restrictions contained in the Certificate of Incorporation, any Preferred Stock Designation, the Investor Rights Agreement or the Bylaws, from time to time, to amend, alter or repeal any provision of the Certificate of Incorporation in any manner now or hereafter provided by law, and all rights and powers of any kind conferred upon a director or stockholder of the Corporation by the Certificate of Incorporation or any amendment thereof are conferred subject to such right.

TENTH: Unless the Corporation consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware shall, to the fullest extent permitted by law, be the sole and exclusive forum for: (i)any derivative action or proceeding brought on behalf of the Corporation, (ii)any action asserting a claim for breach of a fiduciary duty owed by any director, officer, employee or agent of the Corporation to the Corporation or the Corporation's stockholders, (iii)any action asserting a claim arising pursuant to any provision of the DGCL, the Certificate of Incorporation or the Bylaws or (iv)any action asserting a claim governed by the internal affairs doctrine, in each case subject to said Court of Chancery having personal jurisdiction over the indispensable parties named as defendants therein. If any provision or provisions of this tenth paragraph shall be held to be invalid, illegal or unenforceable as applied to any person or entity or circumstance for any reason whatsoever, then, to the fullest extent permitted by law, the validity, legality and enforceability of such provisions in any other circumstance and of the remaining provisions of this tenth paragraph (including, without limitation, each portion of any sentence of this tenth paragraph containing any such provision held to be invalid, illegal or unenforceable that is not itself held to be invalid, illegal or unenforceable) and the application of such provision to other persons or entities and circumstances shall not in any way be affected or impaired thereby.

ELEVENTH: Notwithstanding anything to the contrary, for so long as the Investor Rights Agreement, dated as of December 15, 2020, by and among the Corporation, OCM BKV Holdings, LLC, a Delaware limited liability company, Banpu North America Corporation, a Delaware corporation and each other person from time to time party thereto (as may be amended from time to time in accordance therewith, the "**Investor Rights Agreement**") is in effect, the provisions of the Investor Rights Agreement shall be incorporated by reference into the relevant provisions hereof (including the approvals required by Section4.04 of the Investor Rights Agreement for the authorization or taking by the Corporation or its subsidiaries of the actions specified therein), and all such provisions hereof shall be interpreted and applied in a manner consistent with the terms of the Investor Rights Agreement.

TWELFTH: Meetings of stockholders may be held within or without the State of Delaware, as the Bylaws of the Corporation may provide. The books of the Corporation may be kept outside the State of Delaware at such place or places as may be designated from time to time by the Board of Directors or in the Bylaws of the Corporation.

THIRTEENTH: To the fullest extent permitted by applicable law, the Corporation is authorized to provide indemnification of (and advancement of expenses to) directors, officers and agents of the Corporation (and any other persons to which the DGCL permits the Corporation to provide indemnification) through Bylaw provisions, agreements with such agents or other persons, vote of stockholders or disinterested directors or otherwise, in excess of the indemnification and advancement otherwise permitted by Section145 of the DGCL. Any amendment, repeal or modification of the foregoing provisions of this thirteenth paragraph shall not (a)adversely affect any right or protection of any director, officer or other agent of the Corporation existing at the time of such amendment, repeal or modification or (b)increase the liability of any director of the Corporation with respect to any acts or omissions of such director, officer or agent occurring prior to, such amendment, repeal or modification.

FOURTEENTH: This Certificate of Incorporation shall be effective as of December 15, 2020.

* * *

3. That the foregoing amendment and restatement was approved by the holders of the requisite number of shares of this corporation in accordance with Section 228 of the DGCL.

4. That this Certificate of Incorporation, which restates and integrates and further amends the provisions of this corporation's Certificate of Incorporation, has been duly adopted in accordance with Sections 242 and 245 of the DGCL.

[Signature Page Follows]

IN WITNESS WHEREOF, this Amended and Restated Certificate of Incorporation has been executed by a duly authorized officer of this corporation on this 15th day of December, 2020.

Name: Christopher Kalnin
Title: Chief Executive Officer

Exhibit 3.2

BYLAWS

OF

BKV CORPORATION

TABLE OF CONTENTS

BYLAWS

OF

BKV CORPORATION (the "Corporation")

ARTICLE I - DEFINITIONS

In these by-laws (including Schedule 1 hereto) (the "**Bylaws**") in both the singular and plural forms, the following terms shall have the meanings ascribed to them herein below:

"**Additional Securities**" has the meaning set out in Section 5 of ARTICLE VI;

"**Advancement of Expenses**" has the meaning set out in Section 2 of ARTICLE IX;

"**Associated Person**" means, in relation to a person, any holding company or subsidiary of such person or any other subsidiary of any such holding company, from time to time. In this definition, a company is a "**subsidiary**" of another company (its "**holding company**") if that other company, directly or indirectly, through one or more subsidiaries: (a)holds a majority of the voting rights in it; (b)is stockholder or shareholder of it and has the right to appoint or remove a majority of its board of directors or equivalent managing body; (c)is stockholder or shareholder of it and controls alone, or pursuant to an agreement with other stockholders or members, a majority of the voting rights in it; or (d)has the right to exercise a dominant influence over it, for example by having the right to give directions with respect to its operating and financial policies, with which directions its directors are obliged to comply;

"**Audited Accounts**" means the auditor's report and audited accounts of the Corporation and of any Group Company and the audited consolidated accounts of the Group (if any) for the relevant Financial Year;

"**Auditors**" means PricewaterhouseCoopers LLP, or such other firm of independent certified public accountants which is appointed by the Board of Directors as auditor of the Corporation from time to time;

"**Audit Committee**" has the meaning set out in Section 3 of ARTICLE IV;

"**Banpu Group**" means Banpu Public Company Limited, a public limited company incorporated in and existing under the laws of Thailand, and all its Associated Persons from time to time;

"**BNAC**" means BANPU NORTH AMERICA CORPORATION, a corporation incorporated in and existing under the laws of Delaware, whose registered office is at Corporation Service Company, 2711 Centerville Road, Suite 400, Wilmington, DE 19808, U.S.A.;

"**Board of Directors**" means the board of Directors of the Corporation;

"**Board Reserved Matters**" the matters set forth in Schedule 1 hereto;

"**Budget**" means the annual budget for the Group approved and/or amended from time to time by the Board of Directors;

"**Business Day**" means a day which is not a Saturday, a Sunday or a state or federal holiday in Colorado, the United States, and is not a Saturday, a Sunday or a public holiday in Bangkok, Thailand;

"**Business Plan**" means the rolling business plan for the Group updated annually in respect of the forthcoming five-year period setting out details of the Group's strategic planning in respect of market growth, capital expenditure, financing, tax, and contingency planning and compared against the applicable Budget, as approved and/or amended from time to time by the Board of Directors;

"**CEO**" means the chief executive officer of the Corporation from time to time;

"**Certificate of Incorporation**" means the certificate of incorporation of the Corporation;

"**CFO**" means the chief financial officer of the Corporation from time to time;

"**Chairman**" means the chairman of the Board of Directors from time to time;

"**Compensation Committee**" has the meaning set out in Section 4 of ARTICLE IV;

"**Director**" means any director of the Corporation elected in accordance with the terms of these Bylaws;

"**FCPA**" means the United States Foreign Corrupt Practices Act of 1977, as amended, or any successor federal statute, and the rulesand regulations promulgated thereunder, in each case as in effect from time to time;

"**Final Adjudication**" has the meaning set out in Section 2 of ARTICLE IX;

"**Financial Year**" has the meaning set out in Section 5 of ARTICLE VIII;

"**Group**" means, collectively, the Corporation and the Group Companies;

"**Group Companies**" means the subsidiaries of the Corporation from time to time, including BKV Oil& Gas Capital Partners, L.P., Kalnin Ventures, BKV Chaffee, BKV Chelsea, BKV Operating and BKV Barnett, and "**Group Company**" means each and any one of them;

"**Indemnitee**" has the meaning set out in Section 1 of ARTICLE IX;

"**IPO**" means the admission of all or any part of the common stock capital or depository receipts (or equivalent) representing common stock, of the Corporation to a United States securities exchange;

"**Management Team**" means those management employees of the Corporation (other than the CEO and Senior Management), who report directly to the CEO and Senior Management;

"**Proceeding**" has the meaning set out in Section 1 of ARTICLE IX;

"**SEC**" means the United States Securities and Exchange Commission;

"**Secretary**" means the secretary of the Corporation;

"**Securities Act**" means the United States Securities Act of 1933, as amended, or any successor federal statute, and the rulesand regulations promulgated thereunder, in each case as in effect from time to time;

"**Senior Management**" means, in addition to the CEO, the four (4) employees of the Corporation reasonably likely to receive the four (4) highest compensation during the next Financial Year (excluding the compensation of the CEO), provided that, for the first and second Financial Years, such employees shall be the Chief Financial Officer, the Chief Operating Officer, the Vice President of Corporate Development, and the Vice President and General Counsel;

"**Stock**" means a common stock in the issued share capital of the Corporation from time to time;

"**Stockholders**" means any holder of any Stock from time to time;

"**Stockholders Agreement**" means the Stockholders Agreement between the Corporation, BNAC and the other Stockholders dated as of May 1, 2020 as may be amended from time to time, copies of which are on file at the registered office of the Corporation; and

"**Undertaking**" has the meaning set out in Section 2 of ARTICLE IX.

ARTICLE II - STOCKHOLDERS

Section 1. Annual Meeting. An annual meeting of the Stockholders shall be held at least once per Financial Year at such venue, on such date, and at such time as the Board of Directors shall each year determine which is no later than one hundred and eighty (180) days after the end of the Financial Year in accordance with the applicable laws.

Section 2. Special Meetings. Special meetings of the Stockholders, for any purpose or purposes prescribed in the notice of the meeting, may be called by the Board of Directors, the Chairman or the CEO and shall be held at such venue, on such date, and at such time as they or he or she shall determine.

Section 3. Venue of Meetings.

(a) The Board of Directors, the Chairman or the CEO may designate any venue, either within or outside of the State of Colorado, as the venue of meeting for any annual meeting or for any special meeting. If no designation is made, or if a special meeting be otherwise called, the venue of meeting shall be the principal office of the Corporation in the State of Colorado.

(b) The meeting of Stockholders may be held by video and other electronic conferencing means and the persons convening the meetings shall use reasonable efforts to ensure they are held at locations reasonably convenient for all Stockholders.

Section 4. Notice of Meetings.

(a) Notice of the venue, if any, date, and time of all meetings of the Stockholders, the means of remote communications, if any, by which Stockholders and proxyholders may be deemed to be present in person and vote at such meeting, and the record date for determining the Stockholders entitled to vote at the meeting, if such date is different from the record date for determining Stockholders entitled to notice of the meeting, shall be given, not less than ten (10)nor more than sixty (60) days before the date on which the meeting is to be held to each Stockholder entitled to vote at such meeting as of the record date for determining the Stockholders entitled to notice of the meeting, except as otherwise provided herein or required by applicable laws. Notice of any meeting need not be given to any Stockholder who shall, either before or after the meeting, submit a waiver of notice or who shall attend such meeting without receiving such notice, except when the Stockholder attends for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened. Any Stockholder so waiving notice of the meeting shall be bound by the proceedings of the meeting in all respects as if due notice thereof had been given.

(b) The notice of meeting of Stockholders shall set out an agenda identifying in reasonable detail the matters to be discussed.

Section 5. Quorum.

(a) No action of the Corporation shall be taken at any meeting of the Stockholders unless a quorum of Stockholders is present at the beginning and throughout the meeting. Other than as required under applicable laws, the quorum for all meetings of Stockholders shall be any two (2)or more Stockholders holding more than fifty per cent. (50%) of the total issued and outstanding Stocks (each present personally or by representative, attorney or proxy or, if the meeting is held by video and other electronic conferencing means, by video or such other electronic conferencing means), unless or except to the extent that the presence of a larger number may be required by applicable law, one of whom shall be Christopher Kalnin or his representative, attorney or proxy.

(b) If, within an hour from the time appointed for holding the meeting of Stockholders, such quorum is not present, a new meeting of Stockholders must be called where the same quorum set out in Section 5(a) of this ARTICLE II will be required.

(c) When a meeting is adjourned to another time or venue, a written notice shall be given of the adjourned meeting to each Stockholder pursuant to Section4 of this ARTICLEII. The agenda and matters put forth at any adjourned meeting shall include only those matters put forth as the agenda for the original meeting.

(d) If, such quorum under Section5(b)of this ARTICLEII is still not present within an hour of the time appointed for holding a new meeting of Stockholders, another new meeting of Stockholders must be called where a quorum of any Stockholder(s)holding more than fifty per cent. (50%) of the total issued and outstanding Stocks (each present personally or by representative, attorney or proxy or, if the meeting is held by video and other electronic conferencing means, by video or such other electronic conferencing means) will be required and a written notice shall be given of the adjourned meeting to each Stockholder pursuant to Section4 of this ARTICLEII. The agenda and matters put forth at any adjourned meeting shall include only those matters put forth as the agenda for the original meeting.

Section 6. Organization. Such person as the Board of Directors may have designated or, in the absence of such a person, the Chairman or, in his or her absence, such person as may be chosen by the holders of a majority of the Stocks entitled to vote who are present, in person or by proxy, shall act as chairman of the meeting of the Stockholders. The Secretary shall act as the secretary of the meeting of the Stockholders. In the absence of the Secretary, the secretary of the meeting shall be such person as the chairman of the meeting appoints.

Section 7. Conduct of Business. The chairman of any meeting of Stockholders shall determine the order of business and the procedure at the meeting, including such regulation of the manner of voting and the conduct of discussion as seem to him or her in order. The date and time for each matter

upon which the Stockholders will vote at the meeting shall be announced at the meeting.

Section 8. Proxies and Voting.

(a) At any meeting of the Stockholders, every Stockholder entitled to vote may vote in person or by proxy authorized by an instrument in writing or by a transmission permitted by law filed in accordance with the procedure established for the meeting. Proxies for use at any meeting of Stockholders shall be filed with the Secretary, or such other officer as the Board of Directors may from time to time determine by resolution, before or at the time of the meeting. All proxies shall be received and taken charge of and ballots shall be received and canvassed by the secretary of the meeting who shall decide all questions touching upon the qualification of voters, the validity of proxies, and the acceptance or rejection of votes unless an inspector or inspectors shall have been appointed by the chairman of the meeting in which event such inspector or inspectors shall decide all such questions. Any copy, facsimile telecommunication or other reliable reproduction of the writing or transmission created pursuant to this subsection (a)may be substituted or used in lieu of the original writing or transmission for any and all purposes for which the original writing or transmission could be used, provided that such copy, facsimile telecommunication or other reproduction shall be a complete reproduction of the entire original writing or transmission.

(b) No proxy shall be valid after three (3)years from its date unless the proxy provides for a longer period. Each proxy shall be revocable unless expressly provided therein to be irrevocable and coupled with an interest sufficient in law to support an irrevocable power. Should a proxy designate two (2)or more persons to act as proxies, unless such instrument shall provide to the contrary, a majority of such persons present at any meeting at which their powers thereunder are to be exercised shall have and may exercise all the powers of voting or giving consents thereby conferred, or if only one is present, then such powers may be exercised by that one; or, if an even number attend and a majority do not agree on any particular issue, each proxy so attending shall be entitled to exercise such powers in respect of the same portion of the Stocks as he or she is of the proxies representing such Stocks.

(c) At any meeting at which a vote is taken by ballots, the chairman of the meeting, may, and to the extent required by law, shall, in advance of any meeting of Stockholders, appoint one or more inspectors, to act at the meeting and make a written report thereof. The Corporation may designate one or more alternate inspectors to replace any inspector who fails to act. If no inspector or alternate is able to act at a meeting of Stockholders, the person presiding at the meeting may, and to the extent required by law, shall, appoint one or more inspector(s)to act at the meeting. Each inspector, before entering upon the discharge of his or her duties, shall take and sign an oath faithfully to execute the duties of inspector with strict impartiality and according to the best of his or her ability. Every vote taken by ballots shall be counted by an inspector or inspectors appointed by the chairman of the meeting.

(d) Unless otherwise required by law or provided in the Certificate of Incorporation, each Stockholder shall have one (1)vote for each Stock entitled to vote which is registered in his or her name on the record date for the meeting. Voting of the Stockholders shall be determined based on the number of Stocks that voted for or against, or abstained from voting on, a matter and not by a show of hands. Stocks registered in the name of another corporation, domestic or foreign, may be voted by such officer, agent or proxy as the bylaw (or comparable instrument) of such corporation may prescribe, or in the absence of such provision, as the board of directors (or comparable body) of such corporation may determine. Stocks registered in the name of a deceased person may be voted by his or her executor or administrator, either in person or by proxy. All matters, other than otherwise required by law, shall be determined by a majority of the votes cast affirmatively or negatively.

Section 9. Stock List.

(a) The officer who has charge of the stock ledger of the Corporation shall, at least ten (10)days before every meeting of Stockholders, prepare and make a complete list of Stockholders entitled to vote at any meeting of Stockholders, provided, however, if the record date for determining the Stockholders entitled to vote is less than ten (10)days before the meeting date, the list shall reflect the Stockholders entitled to vote as of the tenth (10^{th}) day before the meeting date, arranged in alphabetical order and showing the address of each such Stockholder and the number of Stocks registered in his or her name. Such list shall be open to the examination of any Stockholder, for any purpose germane to the meeting, for a period of at least ten (10) days prior to the meeting either on a reasonably accessible electronic network provide that the information required to gain access to the list is provided with the notice of the meeting or during ordinary business hours, at the principal place of business of the Corporation.

(b) A Stock list shall also be open to the examination of any Stockholder during the whole time of the meeting as provided by law. This list shall presumptively determine (i)the identity of the Stockholders entitled to examine such Stock list and to vote at the meeting and (ii)the number of Stocks held by each of them.

Section 10. Consent of Stockholders in Lieu of Meeting.

(a) Any action required to be taken at any annual or special meeting of Stockholders of the Corporation, or any action which may be taken at any annual or special meeting of the Stockholders, may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed all Stockholders and shall be delivered to the Corporation by delivery to its registered office in Delaware, its principal place of business, or an officer or agent of the Corporation having custody of the book in which proceedings of meetings of Stockholders are recorded. Delivery made to the Corporation's registered office shall be made by hand or by certified or registered mail, return receipt requested.

(b) Every written consent shall bear the date of signature of each Stockholder who signs the consent and no written consent shall be effective to take the corporate action referred to therein unless, within sixty (60) days of the earliest dated consent delivered to the Corporation, a written consent or consents signed by a sufficient number of Stockholders to take action are delivered to the Corporation in the manner prescribed in subsection (a)of this Section10. An electronic transmission consenting to an action to be taken and transmitted by a Stockholder or proxyholder, or by a person or persons authorized to act for a Stockholder or proxyholder, shall be deemed to be written, signed and dated for the purposes of this Section10 to the extent permitted by law. Any such consent shall be delivered in accordance with Section 228(d)(1) of the Delaware General Corporation Law.

(c) Any copy, facsimile or other reliable reproduction of a consent in writing may be substituted or used in lieu of the original writing for any and all purposes for which the original writing could be used, provided that such copy, facsimile or other reproduction shall be a complete reproduction of the entire original writing.

ARTICLE III - BOARD OF DIRECTORS

Section 1. Number and Term of Office. The number of Directors who shall constitute the whole Board of Directors shall be eight (8)or such other number as may be determined from time to time by the unanimous vote of the Directors present and entitled to vote at a duly convened meeting of the Board of Directors, provided that: (a) for so long as BNAC (or other members of the Banpu Group) holds Stocks, five (5) individuals nominated by BNAC shall be elected as Directors; (b)for so long as Christopher Kalnin holds Stocks, two (2)individuals nominated by Christopher Kalnin shall be elected as Directors; and (c)one (1)independent individual, who is not a member of the Senior Management or the Management Team or an employee of the Group or an employee of the Banpu Group, nominated by at least a simple majority of the votes of the Board of Directors present and entitled to vote at a duly convened meeting of the Board of Directors shall be elected as a Director. Each Director shall serve a term of up to three (3)years as determined by the Board of Directors. A Director whose term has expired may be nominated for re-election in accordance with this Section 1, except as otherwise provided herein or required by law.

Section 2. Vacancies. If the office of any Director becomes vacant by reason of death, resignation, disqualification, removal or other cause prior to the expiration of his or her term, a majority of the directors remaining in office, although less than a quorum, may elect a successor for the unexpired term and until his or her successor is elected and qualified pursuant to Section 1 of this ARTICLE III.

Section 3. Regular Meetings. The Board of Directors shall decide how often the meetings of the Board of Directors shall take place, provided that:

(a) they are held monthly on the third (3rd) week of each month, unless at least a simple majority of the Board of Directors agrees otherwise; and

(b) any Director may propose to convene a meeting of the Board of Directors at any time.

Section 4. Special Meetings. Special meetings of the Board of Directors may be called by one-third of the directors then in office (rounded up to the nearest whole number), by the Chairman or by the CEO and shall be held at such venue, on such date, and at such time as they or he or she shall fix. Notice of the venue, date, and time of each such special meeting shall be given to each director by whom notice is not waived by mailing written notice not less than three (3)days before the meeting or by facsimile or electronic transmission of the same not less than twenty-four (24) hours before the meeting. Unless otherwise indicated in the notice thereof, any and all business may be transacted at a special meeting.

Section 5. Venue of Meetings. The Board of Directors may designate any venue, either within or outside of the State of Colorado, as the venue for any meeting of the Board of Directors. If no designation is made, or if a special meeting be otherwise called, the venue of such meeting shall be the principal office of the Corporation in the State of Colorado.

Section 6. Notice of Meetings.

(a) At least five (5)Business Days' prior written notice, by hand, email, courier or registered mail, shall be given to each of the Directors of all meetings of the Board of Directors, except where a meeting of Board of Directors is adjourned under subsection (b)of Section7 of this ARTICLEIII or a shorter notice period has been agreed in writing by all of the Directors; provided, however, that attendance by a Director at a meeting of the Board of Directors without receiving any notice shall constitute waiver by him or her of the notice required for such meeting of the Board of Directors under this Section 6. Such notice shall contain a reasonably detailed agenda and shall be accompanied by any relevant papers.

(b) Any Stockholder or any Director may propose an item for inclusion in the agenda together with a related resolution to be proposed at such meeting of the Board of Directors.

Section 7. Quorum.

(a) Subject to the following subsections of this Section7, the quorum at a meeting of the Board of Directors shall be at least a simple majority of the Board of Directors which shall include one (1) Director nominated by Christopher Kalnin.

(b) If a quorum is not present within half an hour of the time appointed for the meeting or if a quorum ceases to be present during the course of the meeting, the Director(s)present shall adjourn the meeting of the Board of Directors to a specified place and time not less than three (3)Business Days after the date of such meeting of the Board of Directors where the same quorum shall be required.

(c) If such quorum set forth in subsection (b)of this Section7 is still not present within half an hour of the time appointed for such adjourned meeting of the Board of Directors or if such quorum ceases to be present during the course of such adjourned meeting of the Board of Directors, the Director(s)present shall again adjourn the meeting of the Board of Directors to a specified place and time not less than three (3)Business Days after the date of such adjourned meeting of the Board of Directors, where the quorum shall be at least a simple majority of the Board of Directors.

(d) Notice of any adjourned meeting of the Board of Directors shall be given to all of the Directors.

Section 8. Participation in Meetings By Conference Telephone. Any Director shall be entitled to participate in a meeting of the Board of Directors of which he or she is a member, at which he or she is not physically present, using any technology, including telephone or video conference or similar electronic means consented to by all the Directors. A meeting called and/or held by means of a telephone conference or a video conference or any similar communication equipment is deemed to be held at the venue agreed upon by the Directors attending the meeting. The Chairman shall ensure that the Board of Directors' resolutions and observations (if any) are duly recorded in the minutes of such meeting.

Section 9. Conduct of Business. At any meeting of the Board of Directors, business shall be transacted in such order and manner as the Board of Directors may from time to time determine, and all matters shall be determined by the vote of a majority of the Directors present, except as otherwise provided herein or required by law. Action may be taken by the Board of Directors without a meeting if all members thereof consent thereto in writing or by electronic transmission, and the writing or writings or electronic transmission or transmissions are filed with the minutes of proceedings of the Board of Directors. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

Section 10. Compensation of Directors. The Corporation shall cause each Director promptly to be reimbursed for all reasonable and documented out-of-pocket costs and expenses incurred by him or her in connection with attending meetings of the Board of Directors and other meetings and events attended on behalf of the Corporation and serving as a member of the Board of Directors.

Section 11. Chairman.

(a) The Chairman shall chair all meetings of the Board of Directors at which he/she is present but shall not have a casting vote. The Chairman shall ensure that all relevant papers for any meeting of the Board of Directors are properly circulated in advance and that all such meetings of the Board of Directors are quorate.

(b) The Chairman of the Board of Directors shall be elected from one of the BNAC-nominated Directors by at least a simple majority of the votes of the Directors present and entitled to vote at a duly convened meeting of the Board of Directors.

(c) If the Chairman is not present at any meeting of the Board of Directors, the Directors present may select any Director to act as Chairman for the purpose of such meeting.

(d) If the Chairman ceases to hold office as a Director during his/her term, BNAC shall nominate one of its nominated Directors to be elected as the Chairman for the remainder of the term of the Chairman who ceased to hold the office.

ARTICLE IV - COMMITTEES

Section 1. Committees of the Board of Directors. A majority of the Board of Directors may from time to time create one or more committees and appoint members of the Board of Directors to serve on the committee or committees. Each committee shall have one or more members, who serve at the pleasure of the Board of Directors. The Board of Directors shall designate one member of each committee to be chairman of the committee. The Board of Directors shall designate a secretary of each committee who may be, but need not be, a member of the committee or the Board of Directors.

Section 2. Conduct of Business. Each committee may determine the procedural rulesfor meeting and conducting its business and shall act in accordance therewith, except as otherwise provided herein or required by law. Adequate provision shall be made for notice to members of all meetings; one-third of the members shall constitute a quorum unless the committee shall consist of one or two members, in which event one member shall constitute a quorum; and all matters shall be determined by a majority vote of the members present. Action may be taken by any committee without a meeting if all members thereof consent thereto in writing or by electronic transmission, and the writing or writings or electronic transmission or transmissions are filed with the minutes of the proceedings of such committee. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

Section 3. Audit Committee.

(a) The Board of Directors shall establish an audit committee (the " **Audit Committee**"). The CFO shall propose the agendas for and, subject to subsection (b)of this Section3, be involved in the meetings of the Audit Committee in order to present performance and recommend parameters and framework to the Audit Committee to be approved for further recommendation to the Board of Directors. The CFO may not be a member of the Audit Committee.

(b) The CFO shall recuse himself/herself from meetings of the Audit Committee to the extent he/she has a conflict of interest in the matter to be considered by the Audit Committee or to the extent the matter to be considered by the Audit Committee involves reviewing the work and performance of the CFO.

(c) The composition of the Audit Committee and the quorum and voting of a meeting of the Audit Committee, prior to an IPO, shall be determined by the Board of Directors. Unless agreed otherwise by the Board of Directors, a meeting of the Audit Committee shall take place at least once every quarter. The composition of the Audit Committee and the quorum and voting of a meeting of the Audit Committee, following the IPO, shall be determined by the Board of Directors in compliance with applicable SEC rulesand regulations and applicable listing standards of the securities exchange on which the Stocks of the Corporation are listed.

(d) The function of the Audit Committee shall be to oversee all significant financial matters of the Group in accordance with standard

United States board practice, including, but not limited to:

(i) reviewing the Audited Accounts and discussing with the Auditors the accounting policies to be adopted; and

(ii) providing assurance and recommendations (as applicable) to the Board of Directors in relation to:

(1) the Group's compliance with the laws, the Stockholders Agreement, the Bylaws and any business policies that the Board of Directors may establish;

(2) the adoption of and compliance with corporate governance procedures;

(3) risk management;

(4) the internal audit and integrity of production of financial statements and interim reports, if any, to Stockholders;

(5) the internal financial controls and management systems;

(6) the effectiveness of the external audit process; and

(7) the terms and conditions of engagement of external auditors for the provision of audit and non-audit services.

(e) The Parties agree that, prior to an IPO of the Corporation, the Board of Directors may transfer the risk management function of the Audit Committee to a new independent sub-committee under the Board of Directors, subject to applicable SEC rulesand regulations and applicable listing standards of the securities exchange on which the Stocks of the Corporation are listed.

Section 4. Compensation Committee.

(a) The Board of Directors shall establish a compensation committee (the " **Compensation Committee**"). The CEO shall propose the agendas for and, subject to subsection (b)of this Section4, be involved in the Compensation Committee meetings in order to present performance and recommend parameters and framework for the compensation for the Management Team and other employees (excluding the CEO and the Senior Management) to the Compensation Committee to be approved for further recommendation to the Board of Directors. The CEO may not be a member of the Compensation Committee.

(b) The CEO shall recuse himself/herself from meetings of the Compensation Committee to the extent he/she has a conflict of interest in the matter to be considered by the Compensation Committee or to the extent any matter to be considered by the Compensation Committee involves reviewing the performance and compensation of the CEO.

(c) The composition of the Compensation Committee and the quorum and voting of a meeting of the Compensation Committee, prior to an IPO, shall be determined by the Board of Directors. Unless agreed otherwise by the Board of Directors, a meeting of the Compensation Committee shall take place at least once every quarter. The composition of the Compensation Committee and the quorum and voting of a meeting of the Compensation Committee, following an IPO, shall be determined by the Board of Directors in compliance with applicable SEC rulesand regulations and applicable listing standards of the securities exchange on which the Stocks of the Corporation are listed.

(d) The function of the Compensation Committee shall be to:

(i) recommend the appointment, remuneration, compensation packages (salary and equity) and termination of the CEO and the Senior Management for approval by the Board of Directors and relevant approved amounts to be reflected in the Budget approved by the Board of Directors;

(ii) recommend broad parameters for compensation of the Management Team, and such parameters to be approved by the Board of Directors and relevant approved amounts to be reflected in the Budget approved by the Board of Directors; and

(iii) review the performance of the CEO and the Senior Management against the targets agreed in their relevant performance packages and to recommend annual performance rewards to be approved by the Board of Directors and relevant approved amounts to be reflected in the Budget approved by the Board of Directors.

ARTICLE V - OFFICERS

Section 1. Generally. The officers of the Corporation shall consist of a CEO and the Senior Management. The CEO and each member of the Senior Management shall be elected by the Board of Directors. The CEO and the Senior Management shall hold office until his or her successor is elected and qualified or until his or her earlier resignation or removal.

Section 2. CEO.

(a) Subject to the Board Reserved Matters and the Stockholders Agreement, the CEO shall have the power to manage and

administer the business and affairs of the Corporation and the Group Companies in accordance with:

(i) the approved Business Plan and Budget; and

(ii) his or her fiduciary duties and the interests of the Stockholders collectively so as to maximize the Corporation's equity value, without regard to his or her personal interests or the individual interests of any Stockholders.

(b) The CEO shall be the focal point for, and shall be accountable to, the Board of Directors. Subject to subsection (a)of this Section2, the CEO shall have full authority to decide, agree, consent to, approve, perform, enter into, delegate or otherwise undertake any activity that does not violate applicable laws for and on behalf the Corporation which does not fall within the scope of the Board Reserved Matters, unless it is legally required that such activity requires the prior approval of the Board of Directors and/or the Stockholders.

(c) The CEO may delegate certain (but not all) authority for delivery against the approved Business Plan and Budget to the Senior Management and the Management Team as the CEO deems appropriate, provided the CEO shall retain supervision of the Senior Management and the Management Team and shall remain accountable to the Board of Directors for such delivery.

(d) The CEO shall have the right to engage, appoint, remove or dismiss the Management Team as the CEO considers appropriate without obtaining the approval of the Board of Directors, but subject to the broad parameters for compensation of the Management Team which has been approved by the Board of Directors from time to time and reflected in the approved Budget.

(e) The CEO is entitled to make all hiring decisions and compensation decisions and enter into any agreements relating to the remuneration of the Management Team and other employees without obtaining an approval from the Board of Directors, but subject to compliance with the broad parameters for compensation for the Management Team and other employees which have been approved by the Board of Directors from time to time and reflected in the Budget.

Section 3. Treasurer. The CFO shall be a treasurer of the Corporation and shall have the responsibility for maintaining the financial records of the Corporation. He or she shall make such disbursements of the funds of the Corporation as are authorized and shall render from time to time an account of all such transactions and of the financial condition of the Corporation. The CFO shall also perform such other duties as the Board of Directors may from time to time prescribe.

Section 4. Secretary. The Secretary shall issue all authorized notices for, and shall keep minutes of, all meetings of the Stockholders and the Board of Directors. He or she shall have charge of the corporate books and shall perform such other duties as the Board of Directors may from time to time prescribe.

Section 5. Removal. If, at any time after the date of these Bylaws, the CEO wishes to dismiss a member of the Senior Management and/or nominate a new member of the Senior Management or to change the size of the Senior Management or to change the positions that constitute the Senior Management, he shall make such recommendation to the Board of Directors for approval, and the Board of Directors may resolve to dismiss or appoint such member of the Senior Management as it sees fit after having considered the CEO's recommendation.

Section 6. Action with Respect to Securities of Other Corporations . Unless otherwise directed by the Board of Directors or otherwise reserved for prior decision of the Board of Director by the Board Reserved Matters, and subject to the Stockholders Agreement, the CEO or any officer of the Corporation authorized by both the CEO and the Board of Directors shall have power to vote and otherwise act on behalf of the Corporation, in person or by proxy, at any meeting of stockholders of or with respect to any action of stockholders of any other corporation in which this Corporation may hold securities and otherwise to exercise any and all rights and powers which this Corporation may possess by reason of its ownership of securities in such other corporation, provided that the CEO or such other authorized officer of the Corporation must at all times exercise in good faith and act in the best interest of the Corporation and its Stockholders as a whole and comply with the applicable provisions of the Stockholders Agreement.

Section 7. Remuneration of the CEO and the Senior Management .

(a) The hiring, remuneration packages (including salary and equity) and the key performance indicators of the CEO and the Senior Management shall be approved by the Board of Directors.

(b) All approved compensation of the CEO, the Senior Management and the Management Team will be reflected in the approved Budget.

ARTICLE VI - STOCK

Section 1. Certificates of Stock.

(a) Each holder of Stock represented by certificates shall be entitled to a certificate signed by, or in the name of the Corporation by, the CEO and the Secretary certifying the number of Stocks owned by him or her and shall bear the following legends:

(i) "THE SECURITIES REPRESENTED BY THIS CERTIFICATE HAVE NOT BEEN REGISTERED PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT OF 1933, AS AMENDED, AND MAYNOT BE TRANSFERRED, SOLD, PLEDGED, HYPOTHECATED OR OTHERWISE DISPOSED OF UNLESS (i)(A)SUCH DISPOSITION IS PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT OF 1933, AS AMENDED, (B)THE HOLDER HEREOF SHALL HAVE DELIVERED TO THE CORPORATION AN OPINION OF COUNSEL, WHICH OPINION AND COUNSEL SHALL BE REASONABLY SATISFACTORY TO THE CORPORATION, TO THE EFFECT THAT SUCH DISPOSITION IS EXEMPT FROM THE PROVISIONS OF SECTION5 OF SUCH ACT OR (C)A NO-ACTION LETTER FROM THE SECURITIES AND EXCHANGE COMMISSION, REASONABLY SATISFACTORY TO COUNSEL FOR THE CORPORATION, SHALL HAVE BEEN OBTAINED WITH

RESPECT TO SUCH DISPOSITION AND (ii)SUCH DISPOSITION IS PURSUANT TO REGISTRATION UNDER ANY APPLICABLE STATE SECURITIES LAWS OR AN EXEMPTION THEREFROM";

(ii) "THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO TRANSFER, VOTING AND OTHER RESTRICTIONS SET FORTH IN A STOCKHOLDERS AGREEMENT, DATED AS OF MAY1, 2020 AS MAYBE AMENDED FROM TIME TO TIME, COPIES OF WHICH ARE ON FILE AT THE REGISTERED OFFICE OF THE CORPORATION"; and

(iii) any legends required by applicable laws.

(b) When any Stock has been registered under the Securities Act, and such Stock has been sold pursuant to such registration or pursuant to Rule144 under the Securities Act or is eligible to be sold pursuant to paragraph (k)of such Rule, the Stockholder shall be entitled to exchange the certificate representing such Stocks for a certificate not bearing the legend required by this Section 1.

(c) Each Stockholder agrees that, in addition to complying with the restrictions on transfer set forth elsewhere in these Bylaws, such Stockholder will not directly or indirectly transfer any Stock (or solicit any offers to buy, purchase or otherwise acquire or take a pledge of any Stock) in violation of the Securities Act, applicable state securities or "blue sky" laws or any rulesor regulations thereunder, and such Stockholder will not transfer any Stock unless the conditions set forth in the legend required by this Section 1 are satisfied.

(d) If any Stock ceases to be subject to these Bylaws, the holder of such Stock shall be entitled to exchange the certificate representing such Stock for a certificate not bearing the legend required by this Section 1.

(e) Certificates representing Stocks may be issued electronically via Carta.

Section 2. Record Date.

(a) In order that the Corporation may determine the Stockholders entitled to notice of any meeting of Stockholders or any adjournment thereof, the Board of Directors may, except as otherwise required by law, fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which record date shall not be more than sixty (60) nor less than ten (10)days before the date of such meeting. If the Board of Directors so fixes a date, such date shall also be the record date for determining the Stockholders entitled to vote at such meeting unless the Board of Directors determines, at the time it fixes such record date, that a later date on or before the date of the meeting shall be the date for making such determination. If no record date is fixed by the Board of Directors, the record date for determining Stockholders entitled to notice of and to vote at a meeting of Stockholders shall be at the close of business on the day next preceding the day on which notice is given or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held. A determination of Stockholders of record entitled to notice of or to vote at a meeting of Stockholders shall apply to any adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for determination of Stockholders entitled to vote at the adjourned meeting, and in such case shall also fix as the record date for Stockholders entitled to notice of such adjourned meeting the same or an earlier date as that fixed for determination of Stockholders entitled to vote in accordance with the foregoing provisions of this Section 2 at the adjourned meeting.

(b) In order that the Corporation may determine the Stockholders entitled to receive payment of any dividend or other distribution or allotment of any rights or the Stockholders entitled to exercise any rights in respect of any change, conversion or exchange of stock, or for the purpose of any other lawful action, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted, and which record date shall be not more than sixty (60) days prior to such action. If no record date is fixed, the record date for determining Stockholders for any such purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution relating thereto.

(c) In order that the Corporation may determine the Stockholders entitled to consent to corporate action without a meeting, (including by electronic transmission as permitted by law), the Board of Directors may fix a record date, which shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which record date shall be not more than ten days after the date upon which the resolution fixing the record date is adopted. If no record date has been fixed by the Board of Directors and no prior action by the Board of Directors is required by the Delaware General Corporation Law, the record date shall be the first date on which a consent setting forth the action taken or proposed to be taken is delivered to the Corporation in the manner prescribed by Section 9 of ARTICLE II hereof. If no record date has been fixed by the Board of Directors and prior action by the Board of Directors is required by the Delaware General Corporation Law with respect to the proposed action by consent of the Stockholders without a meeting, the record date for determining Stockholders entitled to consent to corporate action without a meeting shall be at the close of business on the day on which the Board of Directors adopts the resolution taking such prior action.

Section 3. Lost, Stolen or Destroyed Certificates. In the event of the loss, theft or destruction of any certificate of Stock, another may be issued in its place pursuant to such regulations as the Board of Directors may establish concerning proof of such loss, theft or destruction and concerning the giving of a satisfactory bond or bonds of indemnity.

Section 4. Regulations. The issue, transfer, conversion and registration of certificates of Stock shall be governed by such other regulations as the Board of Directors may establish.

Section 5. Pre-Emptive Right. Any allotment of new Stocks or other equity securities proposed to be made by the Corporation (such Stock or other equity securities being called, "**Additional Securities**") shall first be offered for issuance and subscription to the each Stockholder in the proportion that the number of Stocks for the time being held by such Stockholder bears to the total number of issued and outstanding Stocks. Such offer shall be made by notice in writing specifying the number of Additional Securities to which the relevant Stockholder is entitled and the price per Stock and other terms and conditions of such offer (which must be the same for all Stockholders), and limiting a time (being not less than ten (10)days) within which the offer (if not accepted) shall be deemed to have been declined. Such offers are not assignable or otherwise transferable, may not be encumbered, split or consolidated and can be accepted in full or in part. The Corporation may offer any Additional Securities that was offered to but declined (or deemed declined) or otherwise not accepted by any Stockholder pursuant to this Section5 for issuance to and subscription by any person for the same price per Stock and on the same terms and conditions as those previously offered to the Stockholders.

ARTICLE VII - NOTICES

Section 1. Notices. If mailed, notice to Stockholders shall be deemed given when deposited in the mail, postage prepaid, directed to the Stockholder at such Stockholder's address as it appears on the records of the Corporation. Without limiting the manner by which notice otherwise may be given effectively to Stockholders, any notice to Stockholders may be given by electronic transmission in the manner provided in Section232 of the Delaware General Corporation Law.

Section 2. Waivers. A written waiver of any notice, signed by a Stockholder or Director, or waiver by electronic transmission by such person, whether given before or after the time of the event for which notice is to be given, shall be deemed equivalent to the notice required to be given to such person. Neither the business nor the purpose of any meeting need be specified in such a waiver.

ARTICLE VIII - MISCELLANEOUS

Section 1. Facsimile Signatures. In addition to the provisions for use of facsimile signatures elsewhere specifically authorized in these Bylaws, facsimile signatures of any officer or officers of the Corporation may be used whenever and as authorized by the Board of Directors or a committee thereof.

Section 2. Corporate Seal. The Board of Directors may provide a suitable seal, containing the name of the Corporation, which seal shall be in the charge of the Secretary. If and when so directed by the Board of Directors or a committee thereof, duplicates of the seal may be kept and used by the CFO.

Section 3. Information.

(a) The Corporation shall prepare, or procure the preparation of, and shall submit to each Stockholder, provided that such Stockholder continues to hold a Stock: (i)the financial information and (ii)such information as any Stockholders may reasonably require relating to the business or financial condition of the Corporation or of any Group Company within a reasonable period.

(b) A Stockholder may, at its own expense, upon prior written notice to the Corporation and at reasonable times during business hours, access the premises of the Corporation to inspect and make copies of all books, records, accounts and documents relating to the Stockholder's ownership of Stock(s) and the affairs of the Corporation.

(c) All information provided in accordance with this Section3 shall be held in confidence by each receiving Stockholder. Notwithstanding anything in this Section3 to the contrary, the Corporation shall not be required to provide any confidential proprietary information to any Stockholder that is a competitor or that, in the opinion of the Board of Directors, is reasonably likely to become a competitor of the Corporation or any of its Group Companies, except to the extent required by law.

Section 4. Reliance upon Books, Reports and Records . Each director, each member of any committee designated by the Board of Directors, and each officer of the Corporation shall, in the performance of his or her duties, be fully protected in relying in good faith upon the books of account or other records of the Corporation and upon such information, opinions, reports or statements presented to the Corporation by any of its officers or employees, or committees of the Board of Directors so designated, or by any other person as to matters which such director or committee member reasonably believes are within such other person's professional or expert competence and who has been selected with reasonable care by or on behalf of the Corporation.

Section 5. Financial Year. The financial year of the Corporation (other than in the case of the first Financial Year of the Corporation) shall commence on 1st Januaryand end on 31 st December(the " **Financial Year**"), provided that the first Financial Year of the Corporation shall be deemed to have commenced on 1st May 2020 and end on 31 st December 2020.

Section 6. Time Periods. In applying any provision of these Bylaws which requires that an act be done or not be done a specified number of days prior to an event or that an act be done during a period of a specified number of days prior to an event, calendar days shall be used, the day of the doing of the act shall be excluded, and the day of the event shall be included.

ARTICLE IX - INDEMNIFICATION OF DIRECTORS AND OFFICERS

Section 1. Right to Indemnification. Subject to Section5 of this ARTICLEIX, each person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (hereinafter a "**Proceeding**") by reason of the fact that he or she is or was a director or an officer of the Corporation or is or was serving at the request of the Corporation as a director, officer, or trustee of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (such person solely in any such capacity, hereinafter, an "**Indemnitee**") shall be indemnified and held harmless by the Corporation to the fullest extent permitted by law, as the same exists or may hereafter be amended, against all expenses (including attorneys' fees), judgments, fines, ERISA excise taxes or penalties, and amounts paid in settlement actually and reasonably incurred or suffered by such Indemnitee in connection therewith if the Indemnitee acted in good faith and in a manner that the Indemnitee reasonably believed to be in and not opposed to the best interests of the Corporation and, with respect to any criminal action or proceeding, the Indemnitee had no reasonable cause to believe the Indemnitee's conduct was unlawful; provided, however, that: (a)except as provided in Section3 of this ARTICLEIX with respect to proceedings to enforce rights to indemnification, the Corporation shall indemnify any such Indemnitee in connection with a Proceeding (or part thereof) initiated by such Indemnitee only if, and only to the extent, such Proceeding (or part thereof) was authorized by the Board of Directors; and (b)with respect to Proceedings by the Corporation, no indemnification for expenses (including attorneys' fees) shall be made in respect of any claim, issue or matter as to which any Indemnitee shall have been adjudged to be liable to the Corporation unless, and only to the extent that, the court in which such Proceeding was brought shall determine upon application that, despite the adjudication of liability but in view of all circumstances of the case, such Indemnitee is fairly and reasonably entitled to indemnity for such expenses which such court shall deem proper.

Section 2. Right to Advancement of Expenses. In addition to the right to indemnification conferred in Section1 of this ARTICLEIX, but subject to Section5 of this ARTICLEIX, an Indemnitee shall also have the right to be paid by the Corporation the expenses (including attorney's fees) actually and reasonably incurred in defending any such Proceeding that the Indemnitee is entitled to indemnification under Section1 of this ARTICLEIX in advance of its final disposition (hereinafter an "**Advancement of Expenses**"); provided, however, that, an Advancement of Expenses actually and reasonably incurred by an Indemnitee shall be made only upon delivery to the Corporation of an undertaking (hereinafter an "**Undertaking**"), by or on behalf of such Indemnitee, to promptly repay the Corporation all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right for such Indemnitee to appeal or in respect of which the such Indemnitee waives all rights to appeal (hereinafter a "**Final Adjudication**") that such indemnitee is not entitled to be indemnified for such expenses under this Section 2 or otherwise.

Section 3. Right of Indemnitee to Bring Suit. If a claim under Section1 or Section2 of this ARTICLEIX is not paid in full by the Corporation within sixty (60) days after a written claim has been received by the Corporation, except in the case of a claim for an Advancement of Expenses, in which case the applicable period shall be twenty (20) days, the Indemnitee may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim. To the fullest extent permitted by law, if successful in whole or in part in any such suit, or in a suit brought by the Corporation to recover an Advancement of Expenses pursuant to the terms of an Undertaking, the Indemnitee shall be entitled to be paid also the expense of prosecuting or defending such suit to the extent such expense relates to the Indemnitee's successful prosecution or defense. In (a) any suit brought by the Indemnitee to enforce a right to indemnification hereunder (but not in a suit brought by the Indemnitee to enforce a right to an Advancement of Expenses) it shall be a defense that, and (b)any suit brought by the Corporation to recover an Advancement of Expenses pursuant to the terms of an Undertaking, the Corporation shall be entitled to recover such expenses upon a Final Adjudication that, the Indemnitee has not met any applicable standard for indemnification set forth in the Delaware General Corporation Law. Neither the failure of the Corporation (including its Directors who are not parties to such action, a committee of such directors, independent legal counsel, or its Stockholders) to have made a determination prior to the commencement of such suit that indemnification of the Indemnitee is proper in the circumstances because the Indemnitee has met the applicable standard of conduct set forth in the Delaware General Corporation Law, nor an actual determination by the Corporation (including its Directors who are not parties to such action, a committee of such directors, independent legal counsel, or its Stockholders) that the Indemnitee has not met such applicable standard of conduct, shall create a presumption that the Indemnitee has not met the applicable standard of conduct or, in the case of such a suit brought by the Indemnitee, be a defense to such suit.

Section 4. Non-Exclusivity of Rights. The rights to indemnification and to the Advancement of Expenses conferred in this ARTICLEIX shall not be exclusive of any other right which any Indemnitee may have or hereafter acquire under any statute, the Corporation's Certificate of Incorporation, Bylaws, agreement, vote of Stockholders or disinterested directors or otherwise.

Section 5. Proceedings by the Stockholders, the Corporation or the Group Companies. Notwithstanding any provision in these Bylaws to the contrary, the Corporation shall not be obligated to indemnify, reimburse, advance or otherwise pay any expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid in settlement) incurred or suffered by any Indemnitee in connection with any claim or Proceeding: (a)brought by or against such Indemnitee as a Stockholder or in his or her personal or any other capacity that is not expressly set forth in Section1 of this ARTICLEIX; or (b)by the Corporation or any of its Group Companies against such Indemnitee for fraud or willful misconduct of such Indemnitee or such Indemnitee's violation of the FCPA, unless and until the Corporation or the applicable Group Company is determined by final judicial decision from which there is no further right for the Corporation or the applicable Group Company to appeal (or in respect of which the Corporation or the applicable Group Company waives all rights to appeal) to be unsuccessful in such claim or Proceeding, in which case the Corporation shall, or shall procure the applicable Group Company to, indemnify such Indemnitee in accordance with Section1 of this ARTICLEIX for the expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid in settlement) actually and reasonably incurred or suffered by such Indemnitee in connection with such unsuccessful claim or Proceeding.Notwithstanding any provision in these Bylaws to the contrary, the Corporation shall not be obligated to make any Advancement of Expenses to any Indemnitee in connection with any claim or Proceeding by or against such Indemnitee described in this Section 5.

Section 6 Insurance.

a. The Corporation may, to the extent authorized from time to time by the Board of Directors, maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise against

any expense, liability or loss to the fullest extent permissible under applicable law, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the Delaware General Corporation Law.

b. The Corporation shall maintain directors' and officers' liability insurance for the benefit of the Directors and its officers with a reputable insurer for the benefit of any person who is (or was) a Director (including insurance against, subject to applicable laws, any losses incurred by or attaching to a Director in respect of any act or omission in the actual or purported exercise of his/her powers and/or otherwise in relation to his/her duties, powers or offices, provided such directors' and officers' liability insurance shall (i) meet the United States market standards for the oil and gas industry and (ii) be appropriate for the Directors and officers of the Corporation.

Section 7. Indemnification of Employees and Agents of the Corporation . The Corporation may, to the extent authorized from time to time by the Board of Directors, grant rights to indemnification and to the advancement of expenses to any employee or agent of the Corporation to the fullest extent of the provisions of this ARTICLE IX with respect to the indemnification and advancement of expenses of directors and officers of the Corporation.

Section 8. Nature of Rights. The rights conferred upon indemnitees in this ARTICLEIX shall be contract rights and such rights shall continue as to an Indemnitee who has ceased to be a director, officer or trustee and shall inure to the benefit of the indemnitee's heirs, executors and administrators. Any amendment, alteration or repeal of this ARTICLEIX that adversely affects any right of an Indemnitee or its successors shall be prospective only and shall not limit, eliminate, or impair any such right with respect to any proceeding involving any occurrence or alleged occurrence of any action or omission to act that took place prior to such amendment, alteration or repeal.

ARTICLE X - AMENDMENTS

The Board of Directors shall have the power to adopt, amend and repeal from time to time bylaws of the Corporation subject to the right of Stockholders entitled to vote with respect thereto to amend or repeal such bylaws as adopted or amended by the Board of Directors.

FORM OF
SECOND AMENDED AND RESTATED CERTIFICATE OF INCORPORATION
OF
BKV CORPORATION

BKV Corporation, a corporation organized and existing under the laws of the State of Delaware, pursuant to Sections 242 and 245 of the General Corporation Law of the State of Delaware, hereby certifies as follows:

1.The present name of the corporation is BKV Corporation. The corporation was incorporated under the name "BKV Corporation" by the filing of its original Certificate of Incorporation, effective as of May 1, 2020, with the Secretary of State of the State of Delaware on April 28, 2020. The original Certificate of Incorporation was amended and restated on December 15, 2020 (as amended and restated, the "**Original Certificate of Incorporation**").

2. This Second Amended and Restated Certificate of Incorporation (this " **Amended and Restated Certificate of Incorporation** "), which amends, restates and integrates the provisions of the Original Certificate of Incorporation, was duly adopted in accordance with the provisions of Sections 242 and 245 of the General Corporation Law of the State of Delaware by the directors and stockholders of the corporation.

3. The Original Certificate of Incorporation is hereby amended and restated to read in its entirety as follows:

ARTICLE I

Section 1.1 **Name**. The name of the Corporation is BKV Corporation (the " **Corporation**").

ARTICLE II

Section 2.1 **Address**. The registered office of the Corporation in the State of Delaware is 251 Little Falls Drive, Wilmington, New Castle County, Delaware 19808; and the name of the Corporation's registered agent at such address is Corporation Service Company.

ARTICLE III

Section 3.1 **Purpose**. The purpose of the Corporation is to engage in any lawful act or activity for which corporations may now or hereafter be organized under the General Corporation Law of the State of Delaware (the "**DGCL**").

ARTICLE IV

Section 4.1 **Capitalization**. The total number of shares of all classes of stock that the Corporation is authorized to issue is 580,000,000 shares, consisting of (i) 80,000,000 shares of Preferred Stock, par value $0.01 per share ("**Preferred Stock**"), and (ii) 500,000,000 shares of Common Stock, par value $0.01 per share ("**Common Stock**"). The number of authorized shares of Common Stock or Preferred Stock may be increased or decreased (but not below the number of shares thereof then outstanding) by the affirmative vote of the holders of a majority in voting power of the stock of the Corporation entitled to vote thereon irrespective of the provisions of Section 242(b)(2) of the DGCL (or any successor provision thereto), and no vote of the holders of Common Stock or Preferred Stock voting separately as a class shall be required therefor, unless a vote of any such holder is required pursuant to this Amended and Restated Certificate of Incorporation (including any certificate of designation relating to any series of Preferred Stock).

Section 4.2 **Preferred Stock**.

(A) The Board of Directors of the Corporation (the " **Board**") is hereby expressly authorized, by resolution or resolutions, at any time and from time to time, to provide, out of the unissued shares of Preferred Stock, for one or more series of Preferred Stock and, with respect to each such series, to fix the number of shares constituting such series and the designation of such series, the voting powers (if any) of the shares of such series, and the powers, preferences and relative, participating, optional or other special rights, if any, and any qualifications, limitations or restrictions thereof, of the shares of such series and to cause to be filed with the Secretary of State of the State of Delaware a certificate of designation with respect thereto. The powers, preferences and relative, participating, optional and other special rights of each series of Preferred Stock, and the qualifications, limitations or restrictions thereof, if any, may differ from those of any and all other series at any time outstanding.

(B) Except as otherwise required by law, holders of a series of Preferred Stock, as such, shall be entitled only to such voting rights, if any, as shall expressly be granted thereto by this Amended and Restated Certificate of Incorporation (including any certificate of designation relating to such series of Preferred Stock).

Section 4.3 **Common Stock**.

(A) **Voting Rights**.

(i)Each holder of Common Stock, as such, shall be entitled to one vote for each share of Common Stock held of record by such holder on all matters on which stockholders of the Corporation generally are entitled to vote.

(ii)Notwithstanding the foregoing, to the fullest extent permitted by law, holders of Common Stock, as such, shall have no voting power with respect to, and shall not be entitled to vote on, any amendment to this Amended and Restated Certificate of Incorporation (including any certificate of designation relating to any series of Preferred Stock) that relates solely to the terms of one or more outstanding series of Preferred Stock if the holders of

such affected series are entitled, either separately or together with the holders of one or more other such series, to vote thereon pursuant to this Amended and Restated Certificate of Incorporation (including any certificate of designation relating to any series of Preferred Stock) or pursuant to the DGCL.

(B) **Dividends and Distributions**. Subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Stock or any class or series of stock having a preference over or the right to participate with the Common Stock with respect to the payment of dividends and other distributions in cash, property of the Corporation or shares of the Corporation's capital stock, such dividends and other distributions may be declared and paid ratably on the Common Stock out of the assets of the Corporation that are by law available therefor at such times and in such amounts as the Board in its discretion shall determine.

(C) **Liquidation, Dissolution or Winding Up**. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Corporation, after payment or provision for payment of the debts and other liabilities of the Corporation and subject to the rights, if any, of the holders of Preferred Stock or any class or series of stock having a preference over or the right to participate with the Common Stock as to distributions upon dissolution or liquidation or winding up, the holders of all outstanding shares of Common Stock shall be entitled to receive the remaining assets of the Corporation available for distribution ratably in proportion to the number of shares held by each such stockholder.

(D) **No Preemptive Rights**. No holder of Common Stock shall have any preemptive, conversion or other rights to subscribe for additional shares with respect to the Common Stock or any other securities of the Corporation, or to any obligations convertible (directly or indirectly) into securities of the Corporation, whether now or hereafter authorized.

ARTICLE V

Section 5.1 **Amendment of Certificate of Incorporation**. Notwithstanding anything to the contrary contained in this Amended and Restated Certificate of Incorporation, in addition to any vote required by this Amended and Restated Certificate of Incorporation, the bylaws of the Corporation (as in effect from time to time, the "**Bylaws**") or applicable law or securities exchange rule or regulation, the following provisions in this Amended and Restated Certificate of Incorporation may be amended, altered, repealed or rescinded, in whole or in part, or any provision inconsistent therewith or herewith may be adopted, only by the affirmative vote of the holders of at least sixty-six and two-thirds percent (66 2/3%) in voting power of all the then-outstanding shares of stock of the Corporation entitled to vote thereon, voting together as a single class: this Article V, Article VI, Article VII, Article VIII, Article IX and Article X (the "**Specified Provisions**"); provided, however, that, in the case of any proposed amendment, alteration, repeal or rescission of, or adoption of any provision inconsistent with, a Specified Provision, (A) as to which the DGCL does not require the consent or vote of the stockholders or (B) that is approved by at least sixty percent (60%) of the Board, then only the affirmative vote of the holders of a majority in voting power of all the then-outstanding shares of stock of the Corporation entitled to vote thereon, voting together as a single class (in addition to any vote required by this Amended and Restated Certificate of Incorporation, the Bylaws or applicable law or securities exchange rule or regulation), shall be required to amend, alter, repeal or rescind, or adopt any provision inconsistent with, a Specified Provision.

Section 5.2 **Amendment of Bylaws**. The Board is expressly authorized to make, repeal, alter, amend and rescind, in whole or in part, the Bylaws by the affirmative vote of a majority of the total number of directors then in office, without the assent or vote of the stockholders in any manner not inconsistent with the laws of the State of Delaware or this Amended and Restated Certificate of Incorporation. Notwithstanding anything to the contrary contained in this Amended and Restated Certificate of Incorporation or the Bylaws or any provision of law that might otherwise permit a lesser vote of the stockholders, in addition to any vote of the holders of any class or series of capital stock of the Corporation required by this Amended and Restated Certificate of Incorporation (including any certificate of designation relating to any series of Preferred Stock), the Bylaws or applicable law or securities exchange rule or regulation, the affirmative vote of the holders of at least sixty-six and two-thirds percent (66 2/3%) in voting power of all the then-outstanding shares of stock of the Corporation entitled to vote thereon, voting together as a single class, shall be required in order for the stockholders of the Corporation to alter, amend, repeal or rescind, in whole or in part, any provision of the Bylaws or to adopt any provision inconsistent therewith.

ARTICLE VI

Section 6.1 **Board of Directors**.

(A) Except as provided in this Amended and Restated Certificate of Incorporation and the DGCL, the business and affairs of the Corporation shall be managed by or under the direction of the Board. Except as otherwise provided for or fixed pursuant to the provisions of Article IV (including any certificate of designation with respect to any series of Preferred Stock) and this Article VI relating to the rights of the holders of any series of Preferred Stock to elect additional directors, the total number of directors shall be determined from time to time by the affirmative vote of a majority of the total number of directors then in office. The directors (other than those directors elected by the holders of any series of Preferred Stock, voting separately as a series or together with one or more other such series, as the case may be) shall be divided into three classes designated Class I, Class II and Class III. Each class shall consist, as nearly as possible, of one-third of the total number of such directors. Class I directors shall initially serve for a term expiring at the first annual meeting of stockholders following the initial closing of the registered initial underwritten public offering of the Common Stock (the "**IPO Date**"), Class II directors shall initially serve for a term expiring at the second annual meeting of stockholders following the IPO Date and Class III directors shall initially serve for a term expiring at the third annual meeting of stockholders following the IPO Date. Commencing with the first annual meeting of stockholders following the IPO Date, the directors of the class to be elected at each annual meeting shall be elected for a three-year term. If the number of such directors is changed, any increase or decrease shall be apportioned among the classes so as to maintain the number of directors in each class as nearly equal as possible, and any such additional director of any class elected to fill a newly created directorship resulting from an increase in such class shall hold office for a term that shall coincide with the remaining term of that class, but in no case shall a decrease in the number of directors remove or shorten the term of any incumbent director. Any such director shall hold office until the annual meeting at which his or her term expires and until his or her successor shall be elected and qualified, or his or her death, resignation, retirement, disqualification or removal from office. The Board is authorized to assign members of the Board already in office to their respective class.

(B) Subject to the rights granted to the holders of any one or more series of Preferred Stock then outstanding or the rights granted pursuant to the Stockholders' Agreement, expected to be dated on or about the IPO Date (the "**Stockholders' Agreement**"), by and between the Corporation and Banpu North America Corporation (together with its affiliates, subsidiaries, successors and assigns, but excluding the Corporation and its subsidiaries, collectively, "**Banpu**"), any newly created directorship on the Board that results from an increase in the number of directors and any vacancy occurring in the Board (whether by death,

resignation, retirement, disqualification, removal or other cause) shall be filled by a majority of the total number of directors then in office, although less than a quorum, or by a sole remaining director, and not by the stockholders. Any director elected to fill a vacancy or newly created directorship shall hold office until the next election of the class for which such director shall have been chosen and until his or her successor shall be elected and qualified, or until his or her earlier death, resignation, retirement, disqualification or removal.

(C) Any or all of the directors (other than the directors elected by the holders of any series of Preferred Stock, voting separately as a series or together with one or more other such series, as the case may be) may be removed only for cause and only by the affirmative vote of the holders of at least sixty percent (60%) in voting power of all the then-outstanding shares of stock of the Corporation entitled to vote thereon, voting together as a single class.

(D) During any period when the holders of any series of Preferred Stock, voting separately as a series or together with one or more series, have the right to elect additional directors, then upon commencement and for the duration of the period during which such right continues: (i) the then otherwise total authorized number of directors of the Corporation shall automatically be increased by such specified number of directors, and the holders of such Preferred Stock shall be entitled to elect the additional directors so provided for or fixed pursuant to said provisions, and (ii) each such additional director shall serve until such director's successor shall have been duly elected and qualified, or until such director's right to hold such office terminates pursuant to said provisions, whichever occurs earlier, subject to his or her earlier death, resignation, retirement, disqualification or removal. Except as otherwise provided by the Board in the resolution or resolutions establishing such series, whenever the holders of any series of Preferred Stock having such right to elect additional directors are divested of such right pursuant to the provisions of such stock, the terms of office of all such additional directors elected by the holders of such stock, or elected to fill any vacancies resulting from the death, resignation, disqualification or removal of such additional directors, shall forthwith terminate and the total authorized number of directors of the Corporation shall be reduced accordingly.

(E) Elections of directors need not be by written ballot unless the Bylaws shall so provide.

ARTICLE VII

Section 7.1 **Limitation on Liability of Directors and Officers**. To the fullest extent permitted by the DGCL as it now exists or may hereafter be amended and except as otherwise provided in the Bylaws, a director or officer of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty owed to the Corporation or its stockholders.

Section 7.2 **Indemnification and Advancement of Expenses**.

(A) Each person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (a "**Proceeding**"), by reason of the fact that he or she is or was a director or an officer of the Corporation or, while a director or officer of the Corporation, is or was serving at the request of the Corporation as a director, officer, employee, agent or trustee of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (such person solely in any such capacity, an "**Indemnitee**"), shall be indemnified and held harmless by the Corporation to the fullest extent permitted by the DGCL as it now exists or may hereafter be amended, subject to the terms and conditions set forth in the Bylaws.

(B) In addition to the right to indemnification conferred in Section 7.2(A), an Indemnitee shall also have the right to be paid by the Corporation the expenses incurred in connection with any such Proceeding in advance of its final disposition to the fullest extent permitted by the DGCL as it now exists or may hereafter be amended, subject to the terms and conditions set forth in the Bylaws.

Section 7.3 **Applicability**. Neither the amendment nor repeal of this Article VII, nor the adoption of any provision of this Amended and Restated Certificate of Incorporation, nor, to the fullest extent permitted by the DGCL, any modification of law shall eliminate, reduce or otherwise adversely affect any right or protection of a current or former director or officer of the Corporation existing at the time of such amendment, repeal, adoption or modification. If the DGCL is subsequently amended to authorize corporate action further eliminating or limiting the personal liability of directors or officers, then the liability of a director or officer, as applicable, to the Corporation shall be eliminated or limited to the fullest extent permitted by the DGCL as so amended.

ARTICLE VIII

Section 8.1 **Consent of Stockholders in Lieu of Meeting**. At any time when Banpu beneficially owns, in the aggregate, at least thirty-five percent (35%) in voting power of the stock of the Corporation entitled to vote generally in the election of directors, any action required or permitted to be taken at any annual or special meeting of stockholders of the Corporation may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted and shall be delivered to the Corporation by delivery to its registered office in the State of Delaware, its principal place of business, or an officer or agent of the Corporation having custody of the books in which proceedings of meetings of stockholders are recorded. Delivery made to the Corporation's registered office shall be made by hand or by certified or registered mail, return receipt requested. At any time when Banpu beneficially owns, in the aggregate, less than thirty-five percent (35%) in voting power of the stock of the Corporation entitled to vote generally in the election of directors, any action required or permitted to be taken by the stockholders of the Corporation must be effected at a duly called annual or special meeting of such holders and may not be effected by any consent in writing by such holders; provided, however, that any action required or permitted to be taken by the holders of Preferred Stock, voting separately as a series or separately as a class with one or more other such series, may be taken without a meeting, without prior notice and without a vote, to the extent expressly so provided by the applicable certificate of designation relating to such series of Preferred Stock. For the purposes of this Amended and Restated Certificate of Incorporation, beneficial ownership of shares shall be determined in accordance with Rule 13d-3 promulgated under the Securities Exchange Act of 1934, as amended (the "**Exchange Act**").

Section 8.2 **Special Meetings of the Stockholders**. Except as otherwise required by law and subject to the rights of the holders of any series of Preferred Stock, special meetings of the stockholders of the Corporation for any purpose or purposes may be called at any time only by or at the direction of the Board by the affirmative vote of a majority of the total number of directors then in office, the Chairman of the Board or the Chief Executive Officer of the Corporation, and may not be called by any other person or persons.

Section 8.3 **Annual Meetings of the Stockholders**. An annual meeting of stockholders for the election of directors to succeed those whose terms expire and for the transaction of such other business as may properly come before the meeting, shall be held at such place, if any, on such date, and at such time as shall be fixed exclusively by resolution of the Board or a duly authorized committee thereof.

ARTICLE IX

Section 9.1 **Competition and Corporate Opportunities**.

(A) In recognition and anticipation that (i) certain directors, principals, officers, employees and/or other representatives of Banpu and its Affiliates (as defined below) may serve as directors, officers or agents of the Corporation, (ii) Banpu and its Affiliates may now engage and may continue to engage in the same or similar activities or related lines of business as those in which the Corporation, directly or indirectly, may engage and/or other business activities that overlap with or compete with those in which the Corporation, directly or indirectly, may engage, and (iii) members of the Board who are not employees of the Corporation (the "**Non-Employee Directors**") and their respective Affiliates may now engage and may continue to engage in the same or similar activities or related lines of business as those in which the Corporation, directly or indirectly, may engage and/or other business activities that overlap with or compete with those in which the Corporation, directly or indirectly, may engage, the provisions of this Article IX are set forth to regulate and define the conduct of certain affairs of the Corporation with respect to certain classes or categories of business opportunities as they may involve Banpu, the Non-Employee Directors or their respective Affiliates and the powers, rights, duties and liabilities of the Corporation and its directors, officers and stockholders in connection therewith.

(B) None of (i) Banpu or any of its Affiliates or (ii) any Non-Employee Director (including any Non-Employee Director who serves as an officer of the Corporation in both his or her director and officer capacities) or his or her Affiliates (the Persons (as defined below) identified in (i) and (ii) above being referred to, collectively, as "**Identified Persons**" and, individually, as an "**Identified Person**") shall, to the fullest extent permitted by law, have any duty to refrain from directly or indirectly (1) engaging in the same or similar business activities or lines of business in which the Corporation or any of its Affiliates now engages or proposes to engage or (2) otherwise competing with the Corporation or any of its Affiliates, and, to the fullest extent permitted by law, no Identified Person shall be liable to the Corporation or its stockholders or to any Affiliate of the Corporation for breach of any fiduciary duty solely by reason of the fact that such Identified Person engages in any such activities. To the fullest extent permitted by law, the Corporation hereby renounces any interest or expectancy in, or right to be offered an opportunity to participate in, any business opportunity that may be a corporate opportunity for an Identified Person and the Corporation or any of its Affiliates, except as provided in Section 9.1(C). Subject to Section 9.1(C), in the event that any Identified Person acquires knowledge of a potential transaction or other business opportunity that may be a corporate opportunity for itself, herself or himself and the Corporation or any of its Affiliates, such Identified Person shall, to the fullest extent permitted by law, have no duty to communicate or offer such transaction or other business opportunity to the Corporation or any of its Affiliates and, to the fullest extent permitted by law, shall not be liable to the Corporation or its stockholders or to any Affiliate of the Corporation for breach of any fiduciary duty as a stockholder, director or officer of the Corporation solely by reason of the fact that such Identified Person pursues or acquires such corporate opportunity for itself, herself or himself, or offers or directs such corporate opportunity to another Person.

(C) The Corporation does not renounce its interest in any corporate opportunity offered to any Non-Employee Director (including any Non-Employee Director who serves as an officer of this Corporation) if such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of the Corporation, and the provisions of Section 9.1(B) shall not apply to any such corporate opportunity.

(D) In addition to and notwithstanding the foregoing provisions of this Article IX, a corporate opportunity shall not be deemed to be a potential corporate opportunity for the Corporation if it is a business opportunity that (i) the Corporation is neither financially or legally able, nor contractually permitted to undertake, (ii) from its nature, is not in the line of the Corporation's business or is of no practical advantage to the Corporation or (iii) is one in which the Corporation has no interest or reasonable expectancy.

(E) For purposes of this Article IX, (i) "**Affiliate**" shall mean (a) in respect of Banpu, any Person that, directly or indirectly, is controlled by Banpu, controls Banpu or is under common control with Banpu and shall include any principal, member, director, partner, stockholder, officer, employee or other representative of any of the foregoing (other than the Corporation and any entity that is controlled by the Corporation), (b) in respect of a Non-Employee Director, any Person that, directly or indirectly, is controlled by such Non-Employee Director (other than the Corporation and any entity that is controlled by the Corporation) and (c) in respect of the Corporation, any Person that, directly or indirectly, is controlled by the Corporation; and (ii) "**Person**" shall mean any individual, corporation, general or limited partnership, limited liability company, joint venture, trust, association or any other entity.

(F) To the fullest extent permitted by law, any Person purchasing or otherwise acquiring any interest in any shares of capital stock of the Corporation shall be deemed to have notice of and to have consented to the provisions of this Article IX.

ARTICLE X

Section 10.1 **Severability.** If any provision or provisions of this Amended and Restated Certificate of Incorporation shall be held to be invalid, illegal or unenforceable as applied to any circumstance for any reason whatsoever: (i) the validity, legality and enforceability of such provisions in any other circumstance and of the remaining provisions of this Amended and Restated Certificate of Incorporation (including, without limitation, each portion of any paragraph of this Amended and Restated Certificate of Incorporation containing any such provision held to be invalid, illegal or unenforceable that is not itself held to be invalid, illegal or unenforceable) shall not, to the fullest extent permitted by applicable law, in any way be affected or impaired thereby and (ii) to the fullest extent permitted by applicable law, the provisions of this Amended and Restated Certificate of Incorporation (including, without limitation, each such portion of any paragraph of this Amended and Restated Certificate of Incorporation containing any such provision held to be invalid, illegal or unenforceable) shall be construed so as to permit the Corporation to protect its directors, officers, employees and agents from personal liability in respect of their good faith service to or for the benefit of the Corporation to the fullest extent permitted by law.

Section 10.2 **Forum**.

(A) Unless the Corporation consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware shall, to the fullest extent permitted by law, be the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of the Corporation, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer or employee of the Corporation to the Corporation or the Corporation's stockholders, (iii) any action asserting a claim against the Corporation or any director or officer of the Corporation arising pursuant to any provision of the DGCL or this Amended and Restated Certificate of Incorporation or the Bylaws (as either may be amended and/or restated from time to time), or (iv) any action asserting a claim against the Corporation or any director, officer or employee of the Corporation, which claim is governed by the internal affairs doctrine.

(B) Unless the Corporation consents in writing to the selection of an alternative forum, the federal district courts of the United States of America shall be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act of 1933, as amended, or the Exchange Act.

(C) To the fullest extent permitted by law, any person purchasing or otherwise acquiring any interest in shares of capital stock of the Corporation shall be deemed to have notice of and consented to the provisions of this Section 10.2.

FORM OF

AMENDED AND RESTATED

BYLAWS

OF

BKV CORPORATION

Date of Adoption:

[ ], 2022

ARTICLE I

Offices

Section 1.01 Registered Office. The registered office and registered agent of BKV Corporation (the " *Corporation*") in the State of Delaware shall be as set forth in the Amended and Restated Certificate of Incorporation (as defined below). The Corporation may also have offices in such other places in the United States or elsewhere (and may change the Corporation's registered agent) as the Board of Directors of the Corporation (the "*Board*") may, from time to time, determine or as the business of the Corporation may require as determined by any officer of the Corporation.

ARTICLE II

Meetings of Stockholders

Section 2.01 Annual Meetings. Annual meetings of stockholders may be held at such place, if any, either within or without the State of Delaware, and at such time and date as the Board or a duly authorized committee thereof shall determine and state in the notice of meeting. The Board or a duly authorized committee thereof may, in its sole discretion, determine that annual meetings of stockholders shall not be held at any place, but may instead be held solely by means of remote communication as described in Section 2.11 in accordance with Section 211(a)(2) of the General Corporation Law of the State of Delaware (the "*DGCL*"). The Board or a duly authorized committee thereof may postpone, reschedule or cancel any annual meeting of stockholders previously scheduled by the Board or a duly authorized committee thereof.

Section 2.02 Special Meetings. Special meetings of the stockholders may only be called in the manner provided in the Corporation's certificate of incorporation as then in effect (as the same may be amended and/or restated from time to time, the "*Amended and Restated Certificate of Incorporation*") and may be held at such place, if any, either within or without the State of Delaware, and at such time and date as the Board or the Chairman of the Board or the Chief Executive Officer of the Corporation (the "*Chief Executive Officer*") shall determine and state in the notice of such meeting. The Board may, in its sole discretion, determine that special meetings of the stockholders shall not be held at any place, but may instead be held solely by means of remote communication as described in Section 2.11 of these Bylaws in accordance with Section 211(a)(2) of the DGCL. The Board may postpone, reschedule or cancel any special meeting of stockholders previously scheduled by the Board or the Chairman of the Board or the Chief Executive Officer.

Section 2.03 Notice of Stockholder Business and Nominations .

(A) Annual Meetings of Stockholders.

(1) Nominations of persons for election to the Board and the proposal of other business to be considered by the stockholders may be made at an annual meeting of stockholders only (a) as provided in the Stockholders' Agreement, dated on or about the date hereof (the "*Stockholders' Agreement*"), by and between the Corporation and Banpu North America Corporation (together with its affiliates, subsidiaries, successors and assigns, but excluding the Corporation and its subsidiaries, collectively, "*Banpu*") (with respect to nominations of persons for election to the Board only), (b) pursuant to the Corporation's notice of meeting (or any supplement thereto) delivered pursuant to Section 2.04, (c) by or at the direction of the Board or any authorized committee thereof or (d) by any stockholder of the Corporation who (i) is entitled to vote at the meeting, (ii) subject to paragraph (C)(4) of this Section 2.03, complied with the notice procedures set forth in paragraph (A)(2) and paragraph (A)(3) of this Section 2.03 and (iii) was a stockholder of record at the time such notice is delivered to the Secretary of the Corporation, on the record date for the determination of stockholders of the Corporation and at the time of the meeting. Clause (d) of this Section 2.03(A)(1) shall be the exclusive means for a stockholder to make nominations (other than pursuant to clause (a) of this Section 2.03(A)(1)) or submit other business before an annual meeting of stockholders (other than pursuant to Rule 14a-8 under the Securities Exchange Act of 1934, as amended (the "*Exchange Act*").

---

(2) For nominations or other business to be properly brought before an annual meeting by a stockholder pursuant to clause (d) of paragraph (A)(1) of this Section 2.03, the stockholder must have given timely notice thereof in writing to the Secretary of the Corporation, and, in the case of business other than nominations of persons for election to the Board, such other business must constitute a proper matter for stockholder action. To be timely, a stockholder's notice shall be delivered to the Secretary of the Corporation at the principal executive offices of the Corporation not later than the close of business

(as defined below) on the ninetieth (90th) day nor earlier than the close of business on the one hundred and twentieth (120th) day prior to the first anniversary of the preceding year's annual meeting (which date shall, for purposes of the Corporation's first annual meeting of stockholders after its shares of Common Stock (as defined in the Amended and Restated Certificate of Incorporation) are first publicly traded, be deemed to have occurred on [ ]); *provided, however*, that in the event that the date of the annual meeting is advanced by more than thirty (30) days, or delayed by more than seventy (70) days, from the anniversary date of the previous year's meeting, or, following the Corporation's first annual meeting of stockholders after shares of its Common Stock are first publicly traded, if no annual meeting was held in the preceding year, notice by the stockholder to be timely must be so delivered not earlier than the close of business on the one hundred and twentieth (120th) day prior to such annual meeting and not later than the close of business on the later of the ninetieth (90th) day prior to such annual meeting or the tenth (10th) day following the day on which public announcement (as defined below) of the date of such meeting is first made by the Corporation. In no event shall the public announcement of an adjournment or postponement of an annual meeting commence a new time period (or extend any time period) for the giving of a stockholder's notice as described above. Notwithstanding anything in this Section 2.03(A)(2) to the contrary, if the number of directors to be elected to the Board at an annual meeting is increased, and there is no public announcement by the Corporation naming all of the nominees for director or specifying the size of the increased Board at least one hundred (100) calendar days prior to the first anniversary of the prior year's annual meeting of stockholders, then a stockholder's notice required by this Section 2.03 shall be considered timely, but only with respect to nominees for any new positions created by such increase, if it is received by the Secretary of the Corporation not later than the close of business on the tenth (10th) calendar day following the day on which such public announcement is first made by the Corporation. For the avoidance of doubt, a stockholder shall not be entitled to make additional or substitute nominations following the expiration of the time periods set forth in these Bylaws.

(3) A stockholder's notice delivered pursuant to this Section 2.03 shall set forth:

(a) as to each person whom the stockholder proposes to nominate for election or re-election as a director (i) the name, age, business address and residence address of such person, (ii) the principal occupation or employment of such person (present and for the past five (5) years), (iii) the Ownership Information (as defined below) for such person and any member of the immediate family of such person, or any Affiliate or Associate (each as defined below) of such person, or any person acting in concert therewith, (iv) all information relating to such person that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors in a contested election pursuant to the Exchange Act, and the rules and regulations promulgated thereunder (including such person's written consent to being named in the Corporation's proxy statement as a nominee of the stockholder and to serving as a director if elected), (v) a complete and accurate description of all direct and indirect compensation and other material monetary agreements, arrangements and understandings (whether written or oral) during the past three years, and any other material relationships, between or among each Holder (as defined below) and any Stockholder Associated Person (as defined below), on the one hand, and each proposed nominee and any member of the immediate family of such proposed nominee, and his or her respective Affiliates and Associates, or others acting in concert therewith, on the other hand, including, without limitation, all biographical and related party transaction and other information that would be required to be disclosed pursuant to the federal and state securities laws, including Rule 404 promulgated under Regulation S-K under the Securities Act of 1933, as amended (or any successor provision), if any Holder and any Stockholder Associated Person were the "registrant" for purposes of such rule and the nominee were a director or executive officer of such registrant, and (vi) a completed and signed questionnaire, representation and agreement and any and all other information required by paragraph (D) of this Section 2.03;

(b) as to any other business that the stockholder proposes to bring before the meeting, a brief description of the business desired to be brought before the meeting, the text of the proposal or business (including the text of any resolutions proposed for consideration and, in the event that such business includes a proposal to amend these Bylaws, the language of the proposed amendment), the reasons for conducting such business at the meeting and any material interest in such business of such stockholder and the beneficial owner, if any, on whose behalf the proposal is made;

(c) set forth, as to the stockholder giving the notice (the " *Noticing Stockholder*") and the beneficial owner, if any, on whose behalf the nomination or proposal is made (collectively with the Noticing Stockholder, the "*Holders*" and each, a "*Holder*"): (i) the name and address as they appear on the Corporation's books of each Holder and the name and address of any Stockholder Associated Person, (ii)(A) the class or series and number of shares of the Corporation which are, directly or indirectly, owned beneficially and of record by each Holder and any Stockholder Associated Person (*provided, however*, that for purposes of this Section 2.03(A)(3), any such person shall in all events be deemed to beneficially own any shares of the Corporation as to which such person has a right to acquire beneficial ownership of at any time in the future), (B) any option, warrant, convertible security, stock appreciation right, or similar right with an exercise or conversion privilege or a settlement payment or mechanism at a price related to any class or series of shares of the Corporation or with a value derived, in whole or in part, from the value of any class or series of shares of the Corporation, whether or not such instrument or right shall be subject to settlement in the underlying class or series of capital stock of the Corporation or otherwise (a "*Derivative Instrument*") directly or indirectly owned beneficially by each Holder and any Stockholder Associated Person and any other direct or indirect opportunity to profit or share in any profit derived from any increase or decrease in the value of shares of the Corporation, (C) any proxy, contract, arrangement, understanding or relationship pursuant to which each Holder and any Stockholder Associated Person has a right to vote or has granted a right to vote any shares of any security of the Corporation, (D) any Short Interest held by each Holder and any Stockholder Associated Person presently or within the last 12 months in any security of the Corporation (for purposes of this Section 2.03, a person shall be deemed to have a "*Short Interest*" in a security if such person, directly or indirectly, through any contract, arrangement, understanding, relationship or otherwise, has the opportunity to profit or share in any profit derived from any decrease in the value of the subject security), (E) any agreement, arrangement or understanding (including any contract to purchase or sell, acquisition or grant of any option, right or warrant to purchase or sell, swap or other instrument) between and among each Holder, any Stockholder Associated Person, on the one hand, and any person acting in concert with any such person, on the other hand, with the intent or effect of which may be to transfer to or from any such person, in whole or in part, any of the economic consequences of ownership of any security of the Corporation or to increase or decrease the voting power of any such person with respect to any security of the Corporation, (F) any direct or indirect legal, economic or financial interest (including Short Interest) of each Holder and any Stockholder Associated Person in the outcome of any vote to be taken (x) at any annual or special meeting of stockholders of the Corporation or (y) any other entity with respect to any matter that is related, directly or indirectly, to any nomination or business proposed by any Holder under this Section 2.03, (G) any rights to dividends on the shares of the Corporation owned beneficially by each Holder and any Stockholder Associated Person that are separated or separable from the underlying shares of the Corporation, (H) any proportionate interest in shares of the Corporation or Derivative Instruments held, directly or indirectly, by a general or limited partnership or limited liability company or similar entity in which any Holder and any Stockholder Associated Person is a general partner or, directly or indirectly, beneficially owns any interest in a general partner or is the manager or managing member or, directly or indirectly, beneficially owns any interest in the manager or managing member of a limited liability company or similar entity, (I) any direct or indirect legal, economic or financial interest (including Short Interest) in any principal competitor of the Corporation held by each Holder and any Stockholder Associated Person and (J) any performance-related fees (other than an asset-based fee) that each Holder and any Stockholder Associated Person is entitled to based on any increase or decrease in the value of shares of the Corporation or

Derivative Instruments, if any, as of the date of such notice (Sub-clauses (A) through (J) above of this Section 2.03(A)(3)(c)(ii) shall be referred, collectively, as the "*Ownership Information*"), (iii) a representation by the Noticing Stockholder that such stockholder is a holder of record of stock of the Corporation entitled to vote at such meeting, will continue to be a stockholder of record of the Corporation entitled to vote at such meeting through the date of such meeting and intends to appear in person or by proxy at the meeting to propose such business or nomination, (iv) a representation whether any Holder and/or any Stockholder Associated Person intends or is part of a group which intends (A) to deliver a proxy statement and/or form of proxy to holders of at least the percentage of the Corporation's outstanding capital stock required to approve or adopt the proposal or elect the nominee and/or (B) otherwise to solicit proxies from stockholders in support of such proposal or nomination, (v) a certification that each Holder and any Stockholder Associated Person has complied with all applicable federal, state and other legal requirements in connection with its acquisition of shares or other securities of the Corporation and such person's acts or omissions as a stockholder of the Corporation, and (vi) a representation as to the accuracy of the information set forth in the notice;

(d) a description of any agreement, arrangement or understanding with respect to the nomination or proposal and/or the voting of shares of any class or series of stock of the Corporation between or among the Holders and any Stockholder Associated Person, on whose behalf the nomination or proposal is made, any of their respective affiliates or associates and/or any others acting in concert with any of the foregoing (collectively, "*proponent persons*"); and

(4) A Noticing Stockholder shall update and supplement such notice from time to time to the extent necessary so that the information provided or required to be provided in such notice shall be true and correct (a) as of the record date for determining the stockholders entitled to notice of the meeting and (b) as of the date that is fifteen (15) days prior to the meeting or any adjournment or postponement thereof; provided that if the record date for determining the stockholders entitled to vote at the meeting is less than fifteen (15) days prior to the meeting or any adjournment or postponement thereof, the information shall be supplemented and updated as of such later date. Any such update and supplement shall be delivered in writing to the Secretary of the Corporation at the principal executive offices of the Corporation not later than five (5) days after the record date for determining the stockholders entitled to notice of the meeting (in the case of any update and supplement required to be made as of the record date for determining the stockholders entitled to notice of the meeting), not later than ten (10) days prior to the date for the meeting or any adjournment or postponement thereof (in the case of any update or supplement required to be made as of fifteen (15) days prior to the meeting or adjournment or postponement thereof) and not later than five (5) days after the record date for determining the stockholders entitled to vote at the meeting, but no later than the day prior to the meeting or any adjournment or postponement thereof (in the case of any update and supplement required to be made as of a date less than fifteen (15) days prior the date of the meeting or any adjournment or postponement thereof).

(5) The Corporation may also, as a condition to any such nomination or business being deemed properly brought before an annual meeting, require any Holder or any proposed nominee to deliver to the Secretary of the Corporation, within five (5) Business Days (as defined below) of any such request, such other information as may reasonably be requested by the Corporation, including such other information as may be reasonably required by the Board, in its sole discretion, to determine (a) the eligibility of such proposed nominee to serve as a director of the Corporation, (b) whether such nominee qualifies as an "independent director" or "audit committee financial expert" under applicable law, securities exchange rule or regulation, or any publicly disclosed corporate governance guideline or committee charter of the Corporation and (c) such other information that the Board determines, in its sole discretion, could be material to a reasonable stockholder's understanding of the independence or lack thereof.

(B) **Special Meetings of Stockholders**. Only such business (including the election of specific individuals to fill vacancies or newly created directorships on the Board) shall be conducted at a special meeting of stockholders as shall have been brought before the meeting pursuant to the Corporation's notice of meeting. At any time that stockholders are not prohibited from filling vacancies or newly created directorships on the Board, nominations of persons for the election to the Board may be made at a special meeting of stockholders at which directors are to be elected pursuant to the Corporation's notice of meeting (1) as provided in the Stockholders' Agreement, (2) by or at the direction of the Board or any committee thereof or (3) provided that the Board has determined that directors shall be elected at such meeting, by any stockholder of the Corporation who (a) is entitled to vote at the meeting, (b) (subject to paragraph (C)(4) of this Section 2.03) complies with the notice procedures set forth in this Section 2.03 and (c) is a stockholder of record at the time such notice provided for in this Section 2.03 is delivered to the Secretary of the Corporation on the record date for the determination of stockholders entitled to vote at the meeting, and at the time of the meeting. In the event the Corporation calls a special meeting of stockholders for the purpose of electing one or more directors to the Board, any such stockholder entitled to vote in such election of directors may nominate a person or persons (as the case may be) for election to such position(s) as specified in the Corporation's notice of meeting if the stockholder's notice as required by paragraph (A)(2) of this Section 2.03 shall be delivered to the Secretary not earlier than the close of business on the one hundred and twentieth (120th) day prior to such special meeting and not later than the close of business on the later of the ninetieth (90th) day prior to such special meeting or the tenth (10th) day following the day on which a public announcement is first made of the date of the special meeting and of the nominees proposed by the Board to be elected at such meeting. In no event shall the public announcement of an adjournment or postponement of a special meeting commence a new time period (or extend any time period) for the giving of a stockholder's notice as described above.

(C) **General**.

(1) Except as provided in paragraph (C)(4) of this Section 2.03, only such persons who are nominated in accordance with the procedures set forth in this Section 2.03 or the Stockholders' Agreement shall be eligible to serve as directors and only such business shall be conducted at an annual or special meeting of stockholders as shall have been brought before the meeting in accordance with the procedures set forth in this Section 2.03. Except as otherwise provided by the DGCL, the Amended and Restated Certificate of Incorporation or these Bylaws, the chairman of the meeting shall, in addition to making any other determination that may be appropriate for the conduct of the meeting, have the power and duty to determine whether a nomination or any business proposed to be brought before the meeting was made or proposed, as the case may be, in accordance with the procedures set forth in these Bylaws and, if any proposed nomination or business is not in compliance with these Bylaws, to declare that such defective proposal or nomination shall be disregarded. The date and time of the opening and the closing of the polls for each matter upon which the stockholders will vote at a meeting shall be announced at the meeting by the chairman of the meeting. The Board may adopt by resolution such rules and regulations for the conduct of the meeting of stockholders as it shall

deem appropriate.

Except to the extent inconsistent with such rules and regulations as adopted by the Board, the chairman of the meeting shall have the right and authority to convene and (for any or no reason) to recess and/or adjourn the meeting, to prescribe such rules, regulations and procedures and to do all such acts as, in the judgment of such chairman, are appropriate for the proper conduct of the meeting. Such rules, regulations or procedures, whether adopted by the Board or prescribed by the chairman of the meeting, may include, without limitation, the following: (a) the establishment of an agenda or order of business for the meeting; (b) rules and procedures for maintaining order at the meeting and the safety of those present; (c) limitations on attendance at or participation in the meeting to stockholders entitled to vote at the meeting, their duly authorized and constituted proxies or such other persons as the chairman of the meeting shall determine; (d) restrictions on entry to the meeting after the time fixed for the commencement thereof; (e) limitations on the time allotted to questions or comments by participants and on shareholder approvals; and (f) restricting the use of cell phones, audio or video recording devices and similar devices at the meeting. Notwithstanding the foregoing provisions of this Section 2.03, unless otherwise required by the DGCL, if the stockholder (or a qualified representative of the stockholder) does not appear at the annual or special meeting of stockholders of the Corporation to present a nomination or business, such nomination shall be disregarded and such proposed business shall not be transacted, notwithstanding that proxies in respect of such vote may have been received by the Corporation. For purposes of this Section 2.03, to be considered a qualified representative of the stockholder, a person must be a duly authorized officer, manager or partner of such stockholder or must be authorized by a writing executed by such stockholder or an electronic transmission delivered by such stockholder to act for such stockholder as proxy at the meeting of stockholders and such person must produce such writing or electronic transmission, or a reliable reproduction of the writing or electronic transmission, at the meeting of stockholders. Unless and to the extent determined by the Board or the chairman of the meeting, the meeting of stockholders shall not be required to be held in accordance with the rules of parliamentary procedure.

(2) Whenever used in these Bylaws:

(a) "*Affiliate(s)*" and "*Associate(s)*" shall have the meanings attributed to such terms in Rule 12b-2 under the Exchange Act and the rules and regulations promulgated thereunder.

(b) "*Business Day*" shall mean each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in New York, NY are authorized or obligated by law or executive order to close.

(c) "*close of business*" shall mean 5:00 p.m. local time at the principal executive offices of the Corporation, and if an applicable deadline falls on the close of business on a day that is not a Business Day, then the applicable deadline shall be deemed to be the close of business on the immediately preceding Business Day.

(d) "*public announcement*" shall mean disclosure (i) in a press release released by the Corporation, provided such press release is released by the Corporation following its customary procedures, is reported by the Dow Jones News Service, Associated Press or comparable national news service, or is generally available on internet news sites, or (ii) in a document publicly filed by the Corporation with the Securities and Exchange Commission pursuant to Section 13, 14 or 15(d) of the Exchange Act and the rules and regulations promulgated thereunder.

(e) "*Stockholder Associated Person*" shall mean as to any Holder (i) any person acting in concert with such Holder, (ii) any person controlling, controlled by or under common control with such Holder or any of their respective Affiliates and Associates, or person acting in concert therewith and (iii) any member of the immediate family of such Holder or an affiliate or associate of such Holder.

(3) Notwithstanding the foregoing provisions of this Section 2.03, a stockholder shall also comply with all applicable requirements of the Exchange Act and the rules and regulations promulgated thereunder with respect to the matters set forth in this Section 2.03; *provided, however*, that, to the fullest extent permitted by law, any references in these Bylaws to the Exchange Act or the rules and regulations promulgated thereunder are not intended to and shall not limit any requirements applicable to nominations or proposals as to any other business to be considered pursuant to these Bylaws (including paragraph (A)(1)(d) and paragraph (B) of this Section 2.03), and compliance with paragraph (A)(1)(d) and paragraph (B) of this Section 2.03 of these Bylaws shall be the exclusive means for a stockholder to make nominations or submit other business. Nothing in these Bylaws shall be deemed to affect any rights of the holders of any class or series of stock having a preference over the Common Stock as to dividends or upon liquidation to elect directors under specified circumstances.

(4) Notwithstanding anything to the contrary contained in this Section 2.03, for as long as the Stockholders' Agreement remains in effect with respect to Banpu, Banpu (to the extent then subject to the Stockholders' Agreement) shall not be subject to the notice procedures set forth in paragraph (A)(2), paragraph (A)(3) or paragraph (B) of this Section 2.03 with respect to any annual or special meeting of stockholders.

(D) **Submission of Questionnaire**. To be eligible to be a nominee for election as a director of the Corporation pursuant to this Section 2.03, a proposed nominee must deliver in writing (in accordance with the time periods prescribed for delivery of notice under this Section 2.03) to the Secretary (1) a written questionnaire with respect to the background and qualification of such person and the background of any other person or entity on whose behalf the nomination is being made (which questionnaire shall be provided by the Secretary upon written request of any stockholder of record identified by name within five (5) Business Days of such written request), (2) an irrevocable, contingent resignation to the Board, in a form acceptable to the Board, and (3) a written representation and agreement (in the form provided by the Secretary upon written request of any stockholder of record identified by name within five (5) Business Days of such request) that such person (a) is not and will not become a party to (i) any agreement, arrangement or understanding (whether written or oral) with, and has not given any commitment or assurance to, any person or entity as to how such person, if elected as a director of the Corporation, will act or vote on any issue or question (a "*Voting Commitment*") that has not been disclosed to the Corporation or (ii) any Voting Commitment that could limit or interfere with such person's ability to comply, if elected as a director of the Corporation, with such person's fiduciary duties under applicable law, (b) is not and will not become a party to any agreement, arrangement or understanding with any person or entity other than the Corporation with respect to any direct or indirect compensation, reimbursement or indemnification in connection with service or action as a director that has not been disclosed therein, (c) in such person's individual capacity and on behalf of any person or entity on whose behalf the nomination is being made, would be in compliance, if elected as a director of the Corporation, and will comply with all applicable rules of the exchanges upon which the securities of the Corporation are listed and all applicable publicly disclosed corporate governance, conflict of interest, confidentiality and stock ownership and trading policies and guidelines of the Corporation and (d) in such person's individual capacity and on behalf of any Holder on whose behalf the nomination is being made, intends to serve a full term if elected as a director of the Corporation.

Section 2.04 Notice of Meetings. Whenever stockholders are required or permitted to take any action at a meeting, a timely notice in writing or by electronic transmission, in the manner provided in Section 232 of the DGCL, of the meeting, which shall state the place, if any, date and time of the meeting, the means of remote communications, if any, by which stockholders and proxyholders may be deemed to be present in person and vote at such meeting, the record date for determining the stockholders entitled to vote at the meeting, if such date is different from the record date for determining stockholders entitled to notice of the meeting, and, in the case of a special meeting, the purposes for which the meeting is called, shall be mailed to or transmitted electronically by the Secretary of the Corporation to each stockholder of record entitled to vote thereat as of the record date for determining the stockholders entitled to notice of the meeting. Unless otherwise provided by law, the Amended and Restated Certificate of Incorporation or these Bylaws, the notice of any meeting shall be given not less than ten (10) nor more than sixty (60) days before the date of the meeting to each stockholder entitled to vote at such meeting as of the record date for determining the stockholders entitled to notice of the meeting.

Section 2.05 Quorum. Unless otherwise required by law, the Amended and Restated Certificate of Incorporation or the rules of any stock exchange upon which the Corporation's securities are listed, the holders of record of a majority of the voting power of the issued and outstanding shares of capital stock of the Corporation entitled to vote thereat, present in person or represented by proxy, shall constitute a quorum for the transaction of business at all meetings of stockholders. Notwithstanding the foregoing, where a separate vote by a class or series or classes or series is required, a majority in voting power of the outstanding shares of such class or series or classes or series entitled to vote, present in person or represented by proxy, shall constitute a quorum entitled to take action with respect to the vote on that matter. Once a quorum is present to organize a meeting, it shall not be broken by the subsequent withdrawal of any stockholders.

Section 2.06 Voting. Except as otherwise provided by or pursuant to the provisions of the Amended and Restated Certificate of Incorporation, each stockholder entitled to vote at any meeting of the stockholders shall be entitled to one vote for each share of stock held by such stockholder that has voting power upon the matters in question. Each stockholder entitled to vote at a meeting of the stockholders or to express consent to corporate action in writing without a meeting may authorize another person or persons to act for such stockholder by proxy in any manner provided under Section 212(c) of the DGCL or as otherwise provided under applicable law, but no such proxy shall be voted or acted upon after three years from its date, unless the proxy provides for a longer period. A proxy shall be irrevocable if it states that it is irrevocable and if, and only as long as, it is coupled with an interest sufficient in law to support an irrevocable power. A stockholder may revoke any proxy that is not irrevocable by attending the meeting and voting in person or by delivering to the Secretary of the Corporation a revocation of the proxy or a new proxy bearing a later date. Unless required by the Amended and Restated Certificate of Incorporation or applicable law, or determined by the chairman of the meeting to be advisable, the vote on any question need not be by ballot. On a vote by ballot, each ballot shall be signed by the stockholder voting, or by such stockholder's proxy, if there be such proxy. When a quorum is present or represented at any meeting, the vote of the holders of a majority of the voting power of the shares of stock present in person or represented by proxy at the meeting and entitled to vote on the subject matter shall decide any question brought before such meeting, unless the question is one upon which, by express provision of applicable law, of the rules or regulations of any stock exchange applicable to the Corporation, of any regulation applicable to the Corporation or its securities, of the Amended and Restated Certificate of Incorporation or of these Bylaws, a different vote is required, in which case such express provision shall govern and control the decision of such question. Notwithstanding the foregoing sentence and subject to the Amended and Restated Certificate of Incorporation, all elections of directors shall be determined by a plurality of the votes cast in respect of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors.

Section 2.07 Chairman of Meetings. The Chairman of the Board, if one is designated or elected, as applicable, or, in the absence or inability to act of the Chairman of the Board, the Chief Executive Officer, or in the absence of the Chairman of the Board and the Chief Executive Officer, a person designated by the Board shall be the chairman of the meeting and, as such, preside at all meetings of the stockholders.

Section 2.08 Secretary of Meetings. The Secretary of the Corporation shall act as secretary at all meetings of the stockholders. In the absence or inability to act of the Secretary of the Corporation, the Chairman of the Board or the Chief Executive Officer shall appoint a person to act as Secretary at such meetings.

Section 2.09 Consent of Stockholders in Lieu of Meeting. Any action required or permitted to be taken at any annual or special meeting of stockholders of the Corporation may be taken without a meeting, without prior notice and without a vote only to the extent permitted by and in the manner provided in the Amended and Restated Certificate of Incorporation and in accordance with applicable law.

Section 2.10 Adjournment. At any meeting of stockholders of the Corporation, if less than a quorum be present, the chairman of the meeting or stockholders holding a majority in voting power of the shares of stock of the Corporation, present in person or by proxy at the meeting and entitled to vote thereat, shall have the power to adjourn the meeting from time to time without notice other than announcement at the meeting until a quorum shall be present. Any business may be transacted at the adjourned meeting that might have been transacted at the meeting originally noticed. If the adjournment is for more than thirty (30) days, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting. If after the adjournment a new record date for determination of stockholders entitled to vote is fixed for the adjourned meeting, the Board shall fix as the record date for determining stockholders entitled to notice of such adjourned meeting the same or an earlier date as that fixed for determination of stockholders entitled to vote at the adjourned meeting, and shall give notice of the adjourned meeting to each stockholder of record entitled to vote at such adjourned meeting as of the record date so fixed for notice of such adjourned meeting.

Section 2.11 Remote Communication. If authorized by the Board in its sole discretion, and subject to such guidelines and procedures as the Board may adopt, stockholders and proxyholders not physically present at a meeting of stockholders may, by means of remote communication:

(A) participate in a meeting of stockholders; and

(B) be deemed present in person and vote at a meeting of stockholders whether such meeting is to be held at a designated place or solely by means of remote communication; provided that:

(1) the Corporation shall implement reasonable measures to verify that each person deemed present and permitted to vote at the meeting by means of remote communication is a stockholder or proxyholder;

(2) the Corporation shall implement reasonable measures to provide such stockholders and proxyholders a reasonable opportunity to participate in the meeting and to vote on matters submitted to the stockholders, including an opportunity to read or hear the proceedings of the meeting substantially concurrently with such proceedings; and

(3) if any stockholder or proxyholder votes or takes other action at the meeting by means of remote communication, a record of such vote or other action shall be maintained by the Corporation.

Section 2.12 Inspectors of Election. The Corporation may, and shall if required by law, in advance of any meeting of stockholders, appoint one or more inspectors of election, who may be employees of the Corporation, to act at the meeting or any adjournment thereof and to make a written report thereof. The Corporation may designate one or more persons as alternate inspectors to replace any inspector who fails to act. In the event that no inspector so appointed or designated is able to act at a meeting of stockholders, the chairman of the meeting shall appoint one or more inspectors to act at the meeting. Each inspector, before entering upon the discharge of his or her duties, shall take and sign an oath to execute faithfully the duties of inspector with strict impartiality and according to the best of his or her ability. The inspector or inspectors so appointed or designated shall (A) ascertain the number of shares of capital stock of the Corporation outstanding and the voting power of each such share, (B) determine the shares of capital stock of the Corporation represented at the meeting and the validity of proxies and ballots, (C) count all votes and ballots, (D) determine and retain for a reasonable period a record of the disposition of any challenges made to any determination by the inspectors and (E) certify their determination of the number of shares of capital stock of the Corporation represented at the meeting and such inspectors' count of all votes and ballots. Such certification and report shall specify such other information as may be required by law. In determining the validity and counting of proxies and ballots cast at any meeting of stockholders of the Corporation, the inspectors may consider such information as is permitted by applicable law. No person who is a candidate for an office at an election may serve as an inspector at such election.

ARTICLE III

Board of Directors

Section 3.01 Powers. Except as otherwise provided by the Amended and Restated Certificate of Incorporation or the DGCL, the business and affairs of the Corporation shall be managed by or under the direction of its Board. The Board may exercise all such authority and powers of the Corporation and do all such lawful acts and things as are not by the DGCL or the Amended and Restated Certificate of Incorporation directed or required to be exercised or done by the stockholders.

Section 3.02 Number and Term; Chairman. The number of directors shall be determined as set forth in Section 6.1(A) of the Amended and Restated Certificate of Incorporation. Directors shall be elected by the stockholders at their annual meeting, and the term of each director shall be as set forth in the Amended and Restated Certificate of Incorporation. Directors need not be stockholders. The Chairman of the Board, who shall have the powers and perform such duties as provided in these Bylaws and as the Board may from time to time prescribe, shall be a director (A) designated by Banpu pursuant to the rights granted to it under the Stockholders' Agreement or (B) at any time that Banpu does not have the right to designate the Chairman of the Board under the Stockholders' Agreement, elected by the Board. The Chairman of the Board shall preside at all meetings of the Board at which he or she is present. If the Chairman of the Board is not present at a meeting of the Board, the Chief Executive Officer (if the Chief Executive Officer is a director and is not also the Chairman of the Board) shall preside at such meeting, and, if the Chief Executive Officer is not present at such meeting or is not a director, a majority of the directors present at such meeting shall elect one (1) such director to preside over such meeting.

Section 3.03 Resignations. Any director may resign at any time upon notice given in writing or by electronic transmission to the Board, the Chairman of the Board, the Chief Executive Officer or the Secretary of the Corporation. The resignation shall take effect at the time or upon the happening of any event specified therein, and if no specification is so made, at the time of its receipt. The acceptance of a resignation shall not be necessary to make it effective unless otherwise expressly provided in the resignation.

Section 3.04 Removal. Directors of the Corporation may be removed in the manner provided in the Amended and Restated Certificate of Incorporation and applicable law.

Section 3.05 Vacancies and Newly Created Directorships. Except as otherwise provided by law and subject to the Stockholders' Agreement, vacancies occurring in any directorship (whether by death, resignation, retirement, disqualification, removal or other cause) and newly created directorships resulting from any increase in the number of directors shall be filled in accordance with the Amended and Restated Certificate of Incorporation. Any director elected to fill a vacancy or newly created directorship shall hold office until the next election of the class for which such director shall have been chosen and until his or her successor shall be elected and qualified, or until his or her earlier death, resignation, retirement, disqualification or removal.

Section 3.06 Meetings. Regular meetings of the Board may be held at such places and times as shall be determined from time to time by the Board. Special meetings of the Board may be called by the Chief Executive Officer or the Chairman of the Board, and shall be called by the Chief Executive Officer or the Secretary of the Corporation if directed by a majority of the Board and shall be at such places and times as they or he or she shall fix. Notice need not be given of regular meetings of the Board. At least twenty-four (24) hours before each special meeting of the Board, either written notice, notice by electronic transmission or oral notice (either in person or by telephone) of the time, date and place of the meeting shall be given to each director; *provided, however*, that if written notice is given only by United States mail, such notice be deposited in the United States mail, postage prepaid at least five (5) days before such special meeting of the Board. Unless otherwise indicated in the notice thereof, any and all business may be transacted at a special meeting. On or prior to December 1 of each calendar year, the Board shall approve a schedule of regular meetings of the Board to be held in the next calendar year.

Section 3.07 Quorum, Voting and Adjournment. Unless otherwise provided by the Amended and Restated Certificate of Incorporation, a majority of

the total number of directors shall constitute a quorum for the transaction of business. Unless otherwise provided in the Amended and Restated Certificate of Incorporation, cumulative voting for the election of directors shall be prohibited. Except as otherwise provided by law, the Amended and Restated Certificate of Incorporation or these Bylaws, the act of a majority of the directors present at a meeting at which a quorum is present shall be the act of the Board. In the absence of a quorum, a majority of the directors present thereat may adjourn such meeting to another time and place. Notice of such adjourned meeting need not be given if the time and place of such adjourned meeting are announced at the meeting so adjourned.

Section 3.08 Committees; Committee Rules. The Board may designate one or more committees, including but not limited to an Audit Committee, a Compensation Committee and a Corporate Governance and Nominating Committee, each such committee to consist of one or more of the directors of the Corporation. The Board may designate one or more directors as alternate members of any committee to replace any absent or disqualified member at any meeting of the committee. Any such committee, to the extent provided in the resolution of the Board establishing such committee, shall have and may exercise all the powers and authority of the Board in the management of the business and affairs of the Corporation, and may authorize the seal of the Corporation to be affixed to all papers that may require it; provided that no such committee shall have the power or authority in reference to the following matters: (A) approving or adopting, or recommending to the stockholders, any action or matter (other than the election or removal of directors) expressly required by the DGCL to be submitted to stockholders for approval or (B) adopting, amending or repealing these Bylaws. Each committee of the Board may fix its own rules of procedure and shall hold its meetings as provided by such rules, except as may otherwise be provided by a resolution of the Board designating such committee. Unless otherwise provided in such a resolution, the presence of at least a majority of the members of the committee shall be necessary to constitute a quorum; and all matters shall be determined by a majority vote of the members present at a meeting of the committee at which a quorum is present. Unless otherwise provided in such a resolution, in the event that a member and that member's alternate, if alternates are designated by the Board, of such committee is or are absent or disqualified, the member or members thereof present at any meeting and not disqualified from voting, whether or not such member or members constitute a quorum, may unanimously appoint another member of the Board to act at the meeting in place of any such absent or disqualified member.

Section 3.09 Action Without a Meeting. Unless otherwise restricted by the Amended and Restated Certificate of Incorporation, any action required or permitted to be taken at any meeting of the Board or of any committee thereof may be taken without a meeting if the number of members of the Board or any committee thereof, as the case may be, required to take such action consent thereto in writing or by electronic transmission. After an action is taken, the consent or consents relating thereto shall be filed in the minutes of proceedings of the Board. Such filing shall be in paper form if the minutes are maintained in paper form or shall be in electronic form if the minutes are maintained in electronic form.

Section 3.10 Remote Meeting. Unless otherwise restricted by the Amended and Restated Certificate of Incorporation, members of the Board, or any committee designated by the Board, may participate in a meeting by means of conference telephone or other communications equipment in which all persons participating in the meeting can hear each other. Participation in a meeting by means of conference telephone or other communications equipment shall constitute presence in person at such meeting.

Section 3.11 Compensation. The Board shall have the authority to fix, by resolution adopted by a majority of the total number of directors then in office, the compensation, including fees, of directors for services to the Corporation in any capacity. In addition, the Corporation shall cause each director to be promptly reimbursed for all reasonable and documented out-of-pocket costs and expenses incurred by him or her in connection with (A) attending meetings of the Board or any committee thereof and other meetings and events attended on behalf of the Corporation and (B) serving as a member of the Board.

Section 3.12 Reliance on Books and Records. A member of the Board, or a member of any committee designated by the Board, shall, in the performance of such person's duties, be fully protected in relying in good faith upon records of the Corporation and upon such information, opinions, reports or statements presented to the Corporation by any of the Corporation's officers or employees, or committees of the Board, or by any other person as to matters the member reasonably believes are within such other person's professional or expert competence and who has been selected with reasonable care by or on behalf of the Corporation.

ARTICLE IV

Officers

Section 4.01 General. The officers of the Corporation shall include a Chief Executive Officer and a Secretary, each of whom shall be elected from time to time (but no less frequently than annually) by the Board and who shall hold office for such terms as shall be determined by the Board and until their successors are elected and qualified, or until their earlier death, resignation or removal. In addition, the Board may elect one or more Vice Presidents, including one or more Executive Vice Presidents, Senior Vice Presidents, a Treasurer and one or more Assistant Treasurers and one or more Assistant Secretaries, who shall hold their office for such terms as shall be determined from time to time by the Board and until their successors are elected and qualified, or until their earlier death, resignation or removal, and shall exercise such powers and perform such duties as shall be determined from time to time by the Board. Any number of offices may be held by the same person.

Section 4.02 Other Officers and Agents. The Board may elect such other officers and agents as it deems advisable, who shall hold their office for such terms and shall exercise such powers and perform such duties as shall be determined from time to time by the Board.

Section 4.03 Chief Executive Officer. The Chief Executive Officer, subject to any contrary determination by the Board and any limitations set forth in the Stockholders' Agreement, shall have general executive charge, management and control of the properties and operations of the Corporation in the ordinary course of its business, with all such powers with respect to such properties and operations as may be reasonably incident to such responsibilities. If the Chairman of the Board has not been designated or elected, as applicable, or in the absence or inability to act of the Chairman of the Board, the Chief Executive Officer shall exercise all of the powers and discharge all of the duties of the Chairman of the Board, but only if the Chief Executive Officer is a director of the Corporation.

Section 4.04 Vice Presidents. Each Vice President, if any are elected, of whom one or more may be designated an Executive Vice President or Senior Vice President, shall have such powers and shall perform such duties as shall be assigned to him or her by the Chief Executive Officer or the Board.

Section 4.05 Treasurer. The Treasurer, if any, shall have custody of the corporate funds, securities, evidences of indebtedness and other valuables of the Corporation and shall keep full and accurate accounts of receipts and disbursements in books belonging to the Corporation. The Treasurer shall deposit all moneys and other valuables in the name and to the credit of the Corporation in such depositories as may be designated by the Board or its designees selected for such purposes. The Treasurer shall disburse the funds of the Corporation, taking proper vouchers therefor. The Treasurer shall render to the Chief Executive Officer and the Board, upon their request, a report of the financial condition of the Corporation. If required by the Board, the Treasurer shall give the Corporation a bond for the faithful discharge of his or her duties in such amount and with such surety as the Board shall prescribe. In addition, the Treasurer shall have such further powers and perform such other duties incident to the office of Treasurer as from time to time are assigned to him or her by the Chief Executive Officer or the Board.

Section 4.06 Secretary. The Secretary shall: (A) cause minutes of all meetings of the stockholders and directors to be recorded and kept properly; (B) cause all notices required by these Bylaws or otherwise to be given properly; (C) see that the minute books, stock books and other nonfinancial books, records and papers of the Corporation are kept properly; and (D) cause all reports, statements, returns, certificates and other documents to be prepared and filed when and as required. In addition, the Secretary shall have such further powers and perform such other duties as from time to time are assigned to him or her by the Chief Executive Officer or the Board.

Section 4.07 Assistant Treasurers and Assistant Secretaries. Each Assistant Treasurer and each Assistant Secretary, if any are elected, shall be vested with all the powers and shall perform all the duties of the Treasurer and Secretary, respectively, in the absence or inability to act of such officer, unless or until the Chief Executive Officer or the Board shall otherwise determine. In addition, Assistant Treasurers and Assistant Secretaries shall have such powers and shall perform such duties as shall be assigned to them by the Chief Executive Officer or the Board.

Section 4.08 Corporate Funds and Checks. The funds of the Corporation shall be kept in such depositories as shall from time to time be prescribed by the Board or its designees selected for such purposes. All checks or other orders for the payment of money shall be signed by the Chief Executive Officer, a Vice President, the Treasurer or the Secretary or such other person or agent as may from time to time be authorized and with such countersignature, if any, as may be required by the Board.

Section 4.09 Contracts and Other Documents. The Chief Executive Officer and the Secretary, or such other officer or officers as may from time to time be authorized by the Board or any other committee given specific authority in the premises by the Board during the intervals between the meetings of the Board, shall have power to sign and execute on behalf of the Corporation deeds, conveyances and contracts, and any and all other documents requiring execution by the Corporation.

Section 4.10 Ownership of Equity Interests or other Securities of Another Entity. Unless otherwise directed by the Board, the Chief Executive Officer, a Vice President, the Treasurer or the Secretary, or such other officer or agent as shall be authorized by the Board, shall have the power and authority, on behalf of the Corporation, to attend and to vote at any meeting of securityholders of any entity in which the Corporation holds securities or equity interests and may exercise, on behalf of the Corporation, any and all of the rights and powers incident to the ownership of such securities or equity interests at any such meeting, including the authority to execute and deliver proxies and consents on behalf of the Corporation.

Section 4.11 Delegation of Duties. In the absence, inability to act or refusal of any officer to exercise and perform his or her duties, the Board may delegate to another officer such powers or duties.

Section 4.12 Resignation and Removal. Any officer of the Corporation may be removed from office for or without cause at any time by the Board. Any officer may resign at any time in the same manner prescribed under Section 3.03 of these Bylaws.

Section 4.13 Vacancies. The Board shall have the power to fill vacancies occurring in any office.

ARTICLE V

Stock

Section 5.01 Certificated Shares. Unless the Board shall provide by resolution or resolutions otherwise in respect of some or all of any or all classes or series of the stock of the Corporation, the shares of stock of the Corporation shall be uncertificated. To the extent that shares of stock of the Corporation are represented by certificates, every holder of stock in the Corporation represented by certificates shall be entitled to have such certificate signed by, or in the name of the Corporation by, any two authorized officers of the Corporation (it being understood that each of the Chairman of the Board or the Vice Chairman of the Board, or the Chief Executive Officer or a Vice President, and by the Treasurer or an Assistant Treasurer or the Secretary or an Assistant Secretary of the Corporation shall be an authorized officer for such purpose), certifying the number and class of shares of stock of the Corporation owned by such holder. Any or all of the signatures on the certificate may be a facsimile. The Board shall have the power to appoint one or more transfer agents and/or registrars for the transfer or registration of certificates of stock of any class, and may require stock certificates to be countersigned or registered by one or more of such transfer agents and/or registrars.

Section 5.02 Uncertificated Shares. If required by the DGCL, within a reasonable time after the issue or transfer of uncertificated shares, a written statement of the information required by the DGCL shall be sent by or on behalf of the Corporation to stockholders entitled to such uncertificated shares. The Corporation may adopt a system of issuance, recordation and transfer of its shares of stock by electronic or other means not involving the issuance of certificates; provided that the use of such system by the Corporation is permitted by applicable law.

Section 5.03 Transfer of Shares. Shares of stock of the Corporation represented by certificates shall be transferable upon its books by the holders thereof, in person or by their duly authorized attorneys or legal representatives, upon surrender to the Corporation by delivery thereof (to the extent evidenced by

a physical stock certificate) to the person in charge of the stock and transfer books and ledgers. Certificates representing such shares, if any, shall be cancelled and new certificates, if the shares are to be certificated, shall thereupon be issued. Shares of stock of the Corporation that are not represented by a certificate shall be transferred in accordance with any procedures adopted by the Corporation or its agents and applicable law. A record shall be made of each transfer. Whenever any transfer of shares shall be made for collateral security, and not absolutely, it shall be so expressed in the entry of the transfer if, when the certificates are presented to the Corporation for transfer or uncertificated shares are requested to be transferred, both the transferor and transferee request the Corporation do so. The Corporation shall have power and authority to make such rules and regulations as it may deem necessary or proper concerning the issue, transfer and registration of certificates representing shares of stock of the Corporation and uncertificated shares.

Section 5.04 Lost, Stolen, Destroyed or Mutilated Certificates. A new certificate of stock or uncertificated shares may be issued in the place of any certificate previously issued by the Corporation alleged to have been lost, stolen or destroyed, and the Corporation may, in its discretion, require the owner of such lost, stolen or destroyed certificate, or his or her legal representative, to give the Corporation a bond, in such sum as the Corporation may direct, in order to indemnify the Corporation against any claims that may be made against it in connection therewith. A new certificate or uncertificated shares of stock may be issued in the place of any certificate previously issued by the Corporation that has become mutilated upon the surrender by such owner of such mutilated certificate and, if required by the Corporation, the posting of a bond by such owner in an amount sufficient to indemnify the Corporation against any claim that may be made against it in connection therewith.

Section 5.05 List of Stockholders Entitled to Vote. The officer who has charge of the stock ledger shall prepare and make, at least ten (10) days before every meeting of stockholders, a complete list of the stockholders entitled to vote at the meeting (*provided, however*, if the record date for determining the stockholders entitled to vote is less than ten (10) days before the date of the meeting, the list shall reflect the stockholders entitled to vote as of the tenth (10th) day before the meeting date), arranged in alphabetical order, and showing the address of each stockholder and the number of shares registered in the name of each stockholder. Such list shall be open to the examination of any stockholder, for any purpose germane to the meeting at least ten (10) days prior to the meeting (A) on a reasonably accessible electronic network, provided that the information required to gain access to such list is provided with the notice of the meeting, or (B) during ordinary business hours at the principal place of business of the Corporation. In the event that the Corporation determines to make the list available on an electronic network, the Corporation may take reasonable steps to ensure that such information is available only to stockholders of the Corporation. If the meeting is to be held at a place, then a list of stockholders entitled to vote at the meeting shall be produced and kept at the time and place of the meeting during the whole time thereof and may be examined by any stockholder who is present. If the meeting is to be held solely by means of remote communication, then the list shall also be open to the examination of any stockholder during the whole time of the meeting on a reasonably accessible electronic network, and the information required to access such list shall be provided with the notice of the meeting. Except as otherwise provided by law, the stock ledger shall be the only evidence as to who are the stockholders entitled to examine the list of stockholders required by this Section 5.05 or to vote in person or by proxy at any meeting of stockholders.

Section 5.06 Fixing Date for Determination of Stockholders of Record.

(A) In order that the Corporation may determine the stockholders entitled to notice of any meeting of stockholders or any adjournment thereof, the Board may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board, and which record date shall, unless otherwise required by law, not be more than sixty (60) nor less than ten (10) days before the date of such meeting. If the Board so fixes a date, such date shall also be the record date for determining the stockholders entitled to vote at such meeting unless the Board determines, at the time it fixes such record date, that a later date on or before the date of the meeting shall be the date for making such determination. If no record date is fixed by the Board, the record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given, or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held. A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; *provided, however*, that the Board may fix a new record date for determination of stockholders entitled to vote at the adjourned meeting, and in such case shall also fix as the record date for stockholders entitled to notice of such adjourned meeting the same or an earlier date as that fixed for determination of stockholders entitled to vote in accordance herewith at the adjourned meeting.

(B) In order that the Corporation may determine the stockholders entitled to receive payment of any dividend or other distribution or allotment of any rights, or entitled to exercise any rights in respect of any change, conversion or exchange of stock or for the purpose of any other lawful action, the Board may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted, and which record date shall not be more than sixty (60) days prior to such action. If no such record date is fixed, the record date for determining stockholders for any such purpose shall be at the close of business on the day on which the Board adopts the resolution relating thereto.

(C) Unless otherwise restricted by the Amended and Restated Certificate of Incorporation, in order that the Corporation may determine the stockholders entitled to express consent to corporate action in writing without a meeting, the Board may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board, and which record date shall not be more than ten (10) days after the date upon which the resolution fixing the record date is adopted by the Board. If no record date for determining stockholders entitled to express consent to corporate action in writing without a meeting is fixed by the Board, (1) when no prior action of the Board is required by law, the record date for such purpose shall be the first date on which a signed written consent setting forth the action taken or proposed to be taken is delivered to the Corporation in accordance with applicable law, and (2) if prior action by the Board is required by law, the record date for such purpose shall be at the close of business on the day on which the Board adopts the resolution taking such prior action.

Section 5.07 Registered Stockholders. Prior to the surrender to the Corporation of the certificate or certificates for a share or shares of stock or notification to the Corporation of the transfer of uncertificated shares with a request to record the transfer of such share or shares, the Corporation may treat the registered owner of such share or shares as the person entitled to receive dividends, to vote, to receive notifications and otherwise to exercise all the rights and powers of an owner of such share or shares. To the fullest extent permitted by law, the Corporation shall not be bound to recognize any equitable or other claim

to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof.

ARTICLE VI

Notice and Waiver of Notice

Section 6.01 Notice. If mailed, notice to stockholders shall be deemed given when deposited in the United States mail, postage prepaid, directed to the stockholder at such stockholder's address as it appears on the records of the Corporation, and if given by any other form, including any form of electronic transmission permitted by the DGCL shall be deemed given as provided in the DGCL. Without limiting the manner by which notice otherwise may be given effectively to stockholders, any notice to stockholders may be given by electronic transmission in the manner provided in Section 232 of the DGCL.

Section 6.02 Waiver of Notice. A written waiver of any notice, signed by a stockholder or director, or waiver by electronic transmission by such person, whether given before or after the time of the event for which notice is to be given, shall be deemed equivalent to the notice required to be given to such person. Neither the business nor the purpose of any meeting need be specified in such a waiver. Attendance at any meeting (in person or by remote communication) shall constitute waiver of notice except attendance for the express purpose of objecting at the beginning of the meeting to the transaction of any business because the meeting is not lawfully called or convened.

ARTICLE VII

Indemnification

Section 7.01 Right to Indemnification. Each person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (hereinafter a "*proceeding*"), by reason of the fact that he or she is or was a director or an officer of the Corporation or, while a director or officer of the Corporation, is or was serving at the request of the Corporation as a director, officer, employee, agent or trustee of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (such person solely in any such capacity, hereinafter an "*indemnitee*"), whether the basis of such proceeding is alleged action in an official capacity as a director, officer, employee, agent or trustee or in any other capacity while serving as a director, officer, employee, agent or trustee, shall be indemnified and held harmless by the Corporation to the fullest extent permitted by Delaware law, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights than such law permitted the Corporation to provide prior to such amendment), against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid in settlement) reasonably incurred or suffered by such indemnitee in connection therewith; *provided, however*, that, except as provided in Section 7.03 with respect to proceedings to enforce rights to indemnification or advancement of expenses or with respect to any compulsory counterclaim brought by such indemnitee, the Corporation shall indemnify any such indemnitee in connection with a proceeding (or part thereof) initiated by such indemnitee only if such proceeding (or part thereof) was authorized by the Board.

Section 7.02 Right to Advancement of Expenses. In addition to the right to indemnification conferred in Section 7.01, an indemnitee shall also have the right to be paid by the Corporation the expenses (including attorney's fees) incurred in appearing at, participating in or defending any such proceeding in advance of its final disposition or in connection with a proceeding brought to establish or enforce a right to indemnification or advancement of expenses under this Article VII (which shall be governed by Section 7.03) (hereinafter an "*advancement of expenses*"); *provided, however*, that, if the DGCL requires or in the case of an advance made in a proceeding brought to establish or enforce a right to indemnification or advancement, an advancement of expenses incurred by an indemnitee in his or her capacity as a director or officer of the Corporation (and not in any other capacity in which service was or is rendered by such indemnitee, including, without limitation, service to an employee benefit plan) shall be made solely upon delivery to the Corporation of an undertaking (hereinafter an "*undertaking*"), by or on behalf of such indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal (hereinafter a "*final adjudication*") that such indemnitee is not entitled to be indemnified or entitled to advancement of expenses under Section 7.01 and this Section 7.02 or otherwise.

Section 7.03 Right of Indemnitee to Bring Suit. If a claim under Section 7.01 or Section 7.02 is not paid in full by the Corporation within (A) sixty (60) days after a written claim for indemnification has been received by the Corporation or (B) twenty (20) days after a claim for an advancement of expenses has been received by the Corporation, the indemnitee may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim or to obtain advancement of expenses, as applicable. To the fullest extent permitted by law, if the indemnitee is successful in whole or in part in any such suit, or in a suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the indemnitee shall be entitled to be paid also the expense of prosecuting or defending such suit. In (1) any suit brought by the indemnitee to enforce a right to indemnification hereunder (but not in a suit brought by the indemnitee to enforce a right to an advancement of expenses) it shall be a defense that, and (2) any suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the Corporation shall be entitled to recover such expenses upon a final adjudication that, the indemnitee has not met any applicable standard for indemnification set forth in the DGCL. Neither the failure of the Corporation (including by its directors who are not parties to such action, a committee of such directors, independent legal counsel or its stockholders) to have made a determination prior to the commencement of such suit that indemnification of the indemnitee is proper in the circumstances because the indemnitee has met the applicable standard of conduct set forth in the DGCL, nor an actual determination by the Corporation (including by its directors who are not parties to such action, a committee of such directors, independent legal counsel or its stockholders) that the indemnitee has not met such applicable standard of conduct, shall create a presumption that the indemnitee has not met the applicable standard of conduct or, in the case of such a suit brought by the indemnitee, be a defense to such suit. In any suit brought by the indemnitee to enforce a right to indemnification or to an advancement of expenses hereunder, or brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the burden of proving that the indemnitee is not entitled to be indemnified, or to such advancement of expenses, under this Article VII or otherwise shall be on the Corporation.

Section 7.04 Indemnification Not Exclusive.

(A) The provision of indemnification to or the advancement of expenses and costs to any indemnitee under this Article VII, or the entitlement of any indemnitee to indemnification or advancement of expenses and costs under this Article VII, shall not limit or restrict in any way the power of the Corporation to indemnify or advance expenses and costs to such indemnitee in any other way permitted by law or be deemed exclusive of, or invalidate, any right to which

any indemnitee seeking indemnification or advancement of expenses and costs may be entitled under any law, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such indemnitee's capacity as an officer, director, employee or agent of the Corporation and as to action in any other capacity.

(1) Given that certain jointly indemnifiable claims (as defined below) may arise due to the service of the indemnitee as a director and/or officer of the Corporation at the request of the indemnitee-related entities (as defined below), the Corporation shall be fully and primarily responsible for the payment to the indemnitee in respect of indemnification or advancement of expenses in connection with any such jointly indemnifiable claims, pursuant to and in accordance with the terms of this Article VII, irrespective of any right of recovery the indemnitee may have from the indemnitee-related entities. Under no circumstance shall the Corporation be entitled to any right of subrogation or contribution by the indemnitee-related entities and no right of advancement or recovery the indemnitee may have from the indemnitee-related entities shall reduce or otherwise alter the rights of the indemnitee or the obligations of the Corporation hereunder. In the event that any of the indemnitee-related entities shall make any payment to the indemnitee in respect of indemnification or advancement of expenses with respect to any jointly indemnifiable claim, the indemnitee-related entity making such payment shall be subrogated to the extent of such payment to all of the rights of recovery of the indemnitee against the Corporation, and the indemnitee shall execute all papers reasonably required and shall do all things that may be reasonably necessary to secure such rights, including the execution of such documents as may be necessary to enable the indemnitee-related entities effectively to bring suit to enforce such rights. Each of the indemnitee-related entities shall be third-party beneficiaries with respect to this Section 7.04(A), entitled to enforce this Section 7.04(A).

(2) For purposes of this Section 7.04(A), the following terms shall have the following meanings:

(a) The term "*indemnitee-related entities*" means any corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise (other than the Corporation or any other corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise for which the indemnitee has agreed, on behalf of the Corporation or at the Corporation's request, to serve as a director, officer, employee or agent and which service is covered by the indemnity described herein) from whom an indemnitee may be entitled to indemnification or advancement of expenses with respect to which, in whole or in part, the Corporation may also have an indemnification or advancement obligation.

(b) The term "*jointly indemnifiable claims*" shall be broadly construed and shall include, without limitation, any action, suit or proceeding for which the indemnitee shall be entitled to indemnification or advancement of expenses from both the indemnitee-related entities and the Corporation pursuant to applicable law, any agreement, certificate of incorporation, bylaws, partnership agreement, operating agreement, certificate of formation, certificate of limited partnership or comparable organizational documents of the Corporation or the indemnitee-related entities, as applicable.

Section 7.05 Nature of Rights. The rights conferred upon indemnitees in this Article VII shall be contract rights and such rights shall continue as to an indemnitee who has ceased to be a director or officer and shall inure to the benefit of the indemnitee's heirs, executors and administrators. Any amendment, alteration or repeal of this Article VII that adversely affects any right of an indemnitee or its successors shall be prospective only and shall not limit, eliminate or impair any such right with respect to any proceeding involving any occurrence or alleged occurrence of any action or omission to act that took place prior to such amendment or repeal.

Section 7.06 Insurance. The Corporation may purchase and maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the DGCL.

Section 7.07 Indemnification of Employees and Agents of the Corporation. The Corporation may, to the extent authorized from time to time by the Board, grant rights to indemnification and to the advancement of expenses to any employee or agent of the Corporation to the fullest extent of the provisions of this Article VII with respect to the indemnification and advancement of expenses of directors and officers of the Corporation.

ARTICLE VIII

Miscellaneous

Section 8.01 Electronic Transmission. For purposes of these Bylaws, "*electronic transmission*" means any form of communication, not directly involving the physical transmission of paper, including the use of, or participation in, one or more electronic networks or databases (including one or more distributed electronic networks or databases), that creates a record that may be retained, retrieved and reviewed by a recipient thereof, and that may be directly reproduced in paper form by such a recipient through an automated process.

Section 8.02 Corporate Seal. The Board may provide a suitable seal, containing the name of the Corporation, which seal shall be in the charge of the Secretary. If and when so directed by the Board or a committee thereof, duplicates of the seal may be kept and used by the Treasurer or by an Assistant Secretary or Assistant Treasurer.

Section 8.03 Fiscal Year. The fiscal year of the Corporation shall begin on the first day of January and end on the thirty-first day of December of each year.

Section 8.04 Section Headings. Section headings in these Bylaws are for convenience of reference only and shall not be given any substantive effect in limiting or otherwise construing any provision herein.

Section 8.05 Inconsistent Provisions. In the event that any provision of these Bylaws is or becomes inconsistent with any provision of the Amended

and Restated Certificate of Incorporation, the DGCL or any other applicable law, such provision of these Bylaws shall not be given any effect to the extent of such inconsistency but shall otherwise be given full force and effect.

ARTICLE IX

Amendments

Section 9.01 Amendments. These Bylaws may be made, repealed, altered, amended and rescinded as set forth in Section 5.2 of the Amended and Restated Certificate of Incorporation.

CREDIT AGREEMENT (this "Agreement") dated as of June 16, 2022 among BKV CORPORATION, as Borrower, the LENDERS from time to time party hereto and BANGKOK BANK PUBLIC COMPANY LIMITED, NEW YORK BRANCH , as Administrative Agent.

The parties hereto agree as follows:

ARTICLE I

Definitions

SECTION 1.01. Defined Terms. As used in this Agreement, the following terms have the meanings specified below:

"ABR", when used in reference to any Term Loan or Borrowing, refers to whether such Loan, or the Term Loans comprising such Borrowing, bears interest at a rate determined by reference to the Alternate Base Rate.

"ABR Term Loan" means a Term Loan that bears interest at a rate based on the ABR.

"Acreage Swap" means any concurrent purchase and sale or exchange of Oil and Gas Properties between any Loan Party and another Person.

"Adjusted Daily Simple RFR" means with respect to any RFR Borrowing, an interest rate per annum equal to (a) the Daily Simple RFR, plus (b) 0.10 %; *provided* that if the Adjusted Daily Simple RFR as so determined would be less than the Floor, such rate shall be deemed to be equal to the Floor for the purposes of this Agreement.

"Adjusted Stockholders' Equity" means stockholders' equity of the Borrower and its Consolidated Subsidiaries as determined pursuant to GAAP, adjusted to exclude in the calculation thereof any accumulated change in the fair market value of unrealized earnout obligations consisting of the Subject Payments and accumulated net unrealized gain or loss (after any offset) resulting from Swap Agreements and the application of Accounting Standards Codification Topic No. 815, Derivatives and Hedging.

"Adjusted Term SOFR Rate" means, for any Interest Period, an interest rate per annum equal to (a) the Term SOFR Rate for such Interest Period, plus (b) 0.10%; *provided* that if the Adjusted Term SOFR Rate as so determined would be less than the Floor, such rate shall be deemed to be the Floor for the purposes of this Agreement.

"Administrative Agent" means Bangkok Bank Public Company Limited, New York Branch, in its capacity as administrative agent for the Lenders hereunder, and any successor in such capacity pursuant to Article 8.05.

"Administrative Questionnaire" means an Administrative Questionnaire in a form supplied by the Administrative Agent.

"Affected Financial Institution" means (a) any EEA Financial Institution or (b) any UK Financial Institution.

"Affiliate" means, with respect to a specified Person, another Person that directly, or indirectly through one or more intermediaries, Controls or is Controlled by or is under common Control with the Person specified. "Affiliated" shall have a corresponding meaning.

"Agency Fee Letter" means that certain fee letter dated as of the Effective Date by and between the Borrower and the Administrative Agent.

"Agreement" has the meaning assigned to such term in the preamble hereto.

"Alternate Base Rate" means, for any day, a rate per annum equal to the greatest of (a) the Prime Rate in effect on such day, (b) the NYFRB Rate in effect on such day plus 0.50% and (c) the Adjusted Term SOFR Rate for a six-month Interest Period as published two U.S. Government Securities Business Days prior to such day (or if such day is not a Business Day, the immediately preceding Business Day) plus 1.00%; *provided* that, for the purpose of this definition, the Adjusted Term SOFR Rate for any day shall be based on the Term SOFR Reference Rate at approximately 6:00 a.m. New York time on such day (or any amended publication time for the Term SOFR Reference Rate, as specified by the CME Term SOFR Administrator in the Term SOFR Reference Rate methodology). Any change in the Alternate Base Rate due to a change in the Prime Rate, the NYFRB Rate or the Adjusted Term SOFR Rate shall be effective from and including the effective date of such change in the Prime Rate, the NYFRB Rate or the Adjusted Term SOFR Rate, respectively. If the Alternate Base Rate is being used as an alternate rate of interest pursuant to Section 2.11 (for the avoidance of doubt, only until the Benchmark Replacement has been determined pursuant to Section 2.11(b)), then the Alternate Base Rate shall be the greater of clauses (a) and (b) above and shall be determined without reference to clause (c) above. For the avoidance of doubt, if the Alternate Base Rate as determined pursuant to the foregoing would be less than 1.00%, such rate shall be deemed to be 1.00% for purposes of this Agreement.

"Amended and Restated Shareholder Loans" means the loans incurred by the Borrower pursuant to the Amended and Restated Shareholder Loan Agreements (including the XTO Acquisition Subordinated Shareholder Loans).

"Amended and Restated Shareholder Loan Agreements" means (a) that certain Amended and Restated Loan Agreement, dated as of June 15, 2022, by and between Banpu North America, as lender, and the Borrower, as borrower, pursuant to which Banpu North America made a term loan in the aggregate principal amount of $116,000,000 and (b) the XTO Acquisition Subordinated Shareholder Loan Agreement.

"Amortization Base Amount" has the meaning assigned to such term in Section 2.07(a).

"Ancillary Document" has the meaning assigned to such term in Section 9.06.

"Annual Payment Date" means each anniversary of the Initial Funding Date occurring on or prior to the Maturity Date.

"Anti-Corruption Laws" means all Requirements of Law of any jurisdiction applicable to the Borrower or any of its Subsidiaries from time to time concerning or relating to bribery or corruption, (including, without limitation, the FCPA).

"Anti-Terrorism Laws" means all Requirements of Law of any jurisdiction related to terrorism financing or money laundering, including the Patriot Act, The Currency and Foreign Transactions Reporting Act (also known as the "Bank Secrecy Act", 31 U.S.C. §§ 5311-5330 and 12 U.S.C. §§ 1818(s), 1820(b) and 1951-1959) and Executive Order 13224 (effective September 24, 2001).

"Applicable Percentage" means, with respect to any Lender at any time , a percentage (carried out to the ninth decimal place) equal to a fraction (a) the numerator of which is an amount equal to such Lender's Credit Exposure at such time and (b) the denominator of which is an amount equal to the Credit Exposures of all Lenders at such time; provided that, in each case, when a Defaulting Lender shall exist, "Applicable Percentage" shall disregard any Defaulting Lender's Credit Exposure.

"Applicable Prepayment Premium" means, with respect to any Term Loans being prepaid or repaid (i) as a result of an acceleration of the Term Loans pursuant to Section 7.01, (ii) at the Borrower's option pursuant to Section 2.08(a) (subject to the exceptions set forth in such Section 2.08(a)), (iii) as required pursuant to Section 2.08(b), or (iv) if any Lender's rights are assigned or delegated at the election of the Borrower pursuant to Section 2.16(b), a fee (expressed as a percentage of the principal amount of the Term Loan being prepaid or repaid) equal to 2.00%.

"Applicable Rate" means 4.75% per annum.

"Approved Electronic Platform" has the meaning assigned to such term in Section 8.03(a).

"Approved Petroleum Engineers" means (a) Ryder Scott Company, L.P. and (b) any other independent petroleum engineers reasonably acceptable to the Administrative Agent.

"Approved Swap Counterparty" means (a) any Person whose (or whose credit support provider's) long term senior unsecured debt rating or issuer rating at the time the relevant Swap Agreement is entered into is A- or higher by S&P or A3 or higher by Moody's (or their equivalent) or (b) any counterparty to a Swap Agreement with the Borrower or any Subsidiary of the Borrower that is acceptable to the Administrative Agent at the time such Swap Agreement is entered into.

"Asset Coverage Ratio" means, as of any date, the ratio of (a) Total Proved PV-10 as of such date to (b) Specified Total Indebtedness as of such date.

"Assignment and Assumption" means an assignment and assumption agreement entered into by a Lender and an assignee (with the consent of any party whose consent is required by Section 9.04), and accepted by the Administrative Agent, substantially in the form of Exhibit B, or any other form (including electronic records generated by the use of an electronic platform) approved by the Administrative Agent.

"Available Cash" means, as of any date of determination, all cash and Cash Equivalents of the Borrower or any of its Subsidiaries as of such date, other than any such cash or Cash Equivalents that would appear as "restricted" on a consolidated balance sheet of the Borrower or any of its Subsidiaries.

"Available Tenor" means, as of any date of determination and with respect to the then-current Benchmark, as applicable, any tenor for such Benchmark (or component thereof) or payment period for interest calculated with reference to such Benchmark (or component thereof), as applicable, that is or may be used for determining the length of an interest period for any term rate or otherwise, for determining any frequency of making payments of interest calculated pursuant to this Agreement as of such date and not including, for the avoidance of doubt, any tenor for such Benchmark that is then-removed from the definition of "Interest Period" pursuant to clause (e) of Section 2.11.

"Bail-In Action" means the exercise of any Write-Down and Conversion Powers by the applicable Resolution Authority in respect of any liability of an Affected Financial Institution.

"Bail-In Legislation" means (a) with respect to any EEA Member Country implementing Article 55 of Directive 2014/59/EU of the European Parliament and of the Council of the European Union, the implementing law, regulation, rule or requirement for such EEA Member Country from time to time which is described in the EU Bail-In Legislation Schedule and (b) with respect to the United Kingdom, Part I of the United Kingdom Banking Act 2009 (as

amended from time to time) and any other law, regulation or rule applicable in the United Kingdom relating to the resolution of unsound or failing banks, investment firms or other financial institutions or their affiliates (other than through liquidation, administration or other insolvency proceedings).

"Bankruptcy Event" means, with respect to any Person, such Person becomes the subject of a bankruptcy or insolvency proceeding, or has had a receiver, conservator, trustee, administrator, custodian, assignee for the benefit of creditors or similar Person charged with the reorganization or liquidation of its business appointed for it, or has taken any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any such proceeding or appointment, provided that a Bankruptcy Event shall not result solely by virtue of any ownership interest, or the acquisition of any ownership interest, in such Person by a Governmental Authority or instrumentality thereof, unless such ownership interest results in or provides such Person with immunity from the jurisdiction of courts within the United States or from the enforcement of judgments or writs of attachment on its assets or permits such Person (or such Governmental Authority or instrumentality) to reject, repudiate, disavow or disaffirm any contracts or agreements made by such Person.

"Banpu" means Banpu Public Company Limited, a public company registered in Thailand.

"Banpu North America" means Banpu North America Corporation, a Delaware corporation.

"Benchmark" means, initially, (a) with respect to any Term Benchmark Loan, the Term SOFR Rate and (b) with respect to any RFR Term Loan, the Adjusted Daily Simple RFR; *provided* that if a Benchmark Transition Event and the related Benchmark Replacement Date have occurred with respect to the Term SOFR Rate, the Adjusted Daily Simple RFR or the then-current Benchmark, then "Benchmark" means the applicable Benchmark Replacement to the extent that such Benchmark Replacement has replaced such prior benchmark rate pursuant to Section 2.11(b).

"Benchmark Replacement" means, with respect to any Benchmark Transition Event, for any Available Tenor, the first alternative set forth in the order below that can be determined by the Administrative Agent for the applicable Benchmark Replacement Date:

(1) the Adjusted Daily Simple RFR;

(2)the sum of: (a) the alternate benchmark rate that has been selected by the Administrative Agent and the Borrower as the replacement for the then-current Benchmark for the applicable Corresponding Tenor giving due consideration to (i) any selection or recommendation of a replacement benchmark rate or the mechanism for determining such a rate by the Relevant Governmental Body or (ii) any evolving or then-prevailing market convention for determining a benchmark rate as a replacement for the then-current Benchmark for Dollar-denominated syndicated credit facilities at such time in the United States and (b) the related Benchmark Replacement Adjustment.

If the Benchmark Replacement as determined pursuant to clause (1) or (2) above would be less than the Floor, the Benchmark Replacement will be deemed to be the Floor for the purposes of this Agreement and the other Loan Documents.

"Benchmark Replacement Adjustment" means, with respect to any replacement of the then-current Benchmark with an Unadjusted Benchmark Replacement for any applicable interest period and Available Tenor for any setting of such Unadjusted Benchmark Replacement, the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected by the Administrative Agent and the Borrower for the applicable Corresponding Tenor giving due consideration to (i) any selection or recommendation of a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement by the Relevant Governmental Body on the applicable Benchmark Replacement Date and/or (ii) any evolving or then-prevailing market convention for determining a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement for syndicated credit facilities denominated in Dollars at such time.

"Benchmark Replacement Conforming Changes" means, with respect to Term SOFR and/or any Benchmark Replacement, any technical, administrative or operational changes (including changes to the definition of "Alternate Base Rate," the definition of "Business Day", the definition of "U.S. Government Securities Business Day", the definition of "Interest Period," the definition of "Interest Payment Date", timing and frequency of determining rates and making payments of interest, timing of borrowing requests or prepayment, conversion or continuation notices, length of lookback periods, the applicability of breakage provisions, changes to Section 2.05 to reflect one interest rate applicable to all Term Loans, and other technical, administrative or operational matters) that the Administrative Agent (in consultation with the Borrower) decides may be appropriate to reflect the adoption and implementation of such Benchmark Replacement and to permit the administration thereof by the Administrative Agent in a manner substantially consistent with market practice (or, if the Administrative Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Administrative Agent determines that no market practice for the administration of such Benchmark Replacement exists, in such other manner of administration as the Administrative Agent (in consultation with the Borrower) decides is reasonably necessary in connection with the administration of this Agreement and the other Loan Documents).

"Benchmark Replacement Date" means, with respect to any Benchmark, the earliest to occur of the following events with respect to such then-current Benchmark:

(1)in the case of clause (1) or (2) of the definition of "Benchmark Transition Event," the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of such Benchmark (or the published component used in the calculation thereof) permanently or indefinitely ceases to provide all Available Tenors of such Benchmark (or such component thereof); or

(2)in the case of clause (3) of the definition of "Benchmark Transition Event," the first date on which such Benchmark (or the published component used in the calculation thereof) has been determined and announced by the regulatory supervisor for the administrator of such Benchmark (or such component thereof) to be no longer representative; *provided* that such non-representativeness will be determined by reference to the most recent statement or publication referenced in such clause (3) and even if any Available Tenor of such Benchmark (or such component thereof) continues to be provided on such date.

For the avoidance of doubt, (i) if the event giving rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such

determination and (ii) the "Benchmark Replacement Date" will be deemed to have occurred in the case of clause (1) or (2) with respect to any Benchmark upon the occurrence of the applicable event or events set forth therein with respect to all then-current Available Tenors of such Benchmark (or the published component used in the calculation thereof).

"Benchmark Transition Event" means, with respect to any Benchmark, the occurrence of one or more of the following events with respect to such then-current Benchmark:

(1)a public statement or publication of information by or on behalf of the administrator of such Benchmark (or the published component used in the calculation thereof) announcing that such administrator has ceased or will cease to provide all Available Tenors of such Benchmark (or such component thereof), permanently or indefinitely; *provided* that, at the time of such statement or publication, there is no successor administrator that will continue to provide any Available Tenor of such Benchmark (or such component thereof);

(2)a public statement or publication of information by the regulatory supervisor for the administrator of such Benchmark (or the published component used in the calculation thereof), the Federal Reserve Board, the NYFRB, the CME Term SOFR Administrator, an insolvency official with jurisdiction over the administrator for such Benchmark (or such component), a resolution authority with jurisdiction over the administrator for such Benchmark (or such component), or a court or an entity with similar insolvency or resolution authority over the administrator for such Benchmark (or such component), in each case which states that the administrator of such Benchmark (or such component) has ceased or will cease to provide all Available Tenors of such Benchmark (or such component thereof) permanently or indefinitely; *provided* that, at the time of such statement or publication, there is no successor administrator that will continue to provide any Available Tenor of such Benchmark (or such component thereof); or

(3)a public statement or publication of information by the regulatory supervisor for the administrator of such Benchmark (or the published component used in the calculation thereof) announcing that all Available Tenors of such Benchmark (or such component thereof) are no longer, or as of a specified future date will no longer be, representative.

For the avoidance of doubt, a "Benchmark Transition Event" will be deemed to have occurred with respect to any Benchmark if a public statement or publication of information set forth above has occurred with respect to each then-current Available Tenor of such Benchmark (or the published component used in the calculation thereof).

"Benchmark Unavailability Period" means, with respect to any Benchmark, the period (if any) (x) beginning at the time that a Benchmark Replacement Date pursuant to clauses (1) or (2) of that definition has occurred if, at such time, no Benchmark Replacement has replaced such then-current Benchmark for all purposes hereunder and under any Loan Document in accordance with Section 2.11 and (y) ending at the time that a Benchmark Replacement has replaced such then-current Benchmark for all purposes hereunder and under any Loan Document in accordance with Section 2.11.

"Beneficial Ownership Certification" means a certification regarding beneficial ownership as required by the Beneficial Ownership Regulation.

"Beneficial Ownership Regulation" means 31 CFR § 1010.230.

"BKV-BPP" means BKV-BPP Power, LLC, a Delaware limited liability company.

"BKV-Temple Loan Agreement" means that certain Loan Agreement, dated as of December 23, 2021, by and among the Borrower and Temple Generation I LLC.

"Board" means the Board of Governors of the Federal Reserve System of the United States of America.

"Borrower" means BKV Corporation, a Delaware corporation.

"Borrowing" means Term Loans made, converted or continued on the same date.

"Borrowing Request" means a written request by the Borrower for a Borrowing in accordance with Section 2.03, which shall be substantially in the form attached hereto as Exhibit D-1 or any other form approved by the Administrative Agent.

"Budget" means a budget of the Borrower and its Consolidated Subsidiaries, in form and detail acceptable to the Administrative Agent (including reasonably detailed information regarding any gas discounts, transportation costs, general and administrative expenses and hedging information).

"Business Day" means any day that is not a Saturday, Sunday or other day on which commercial banks in New York City (and, solely for purposes of Article II, Bangkok, Thailand), are authorized or required by law to remain closed; *provided* that, when used in connection with a Term Benchmark Loan or RFR Term Loan, the term "Business Day" shall also exclude any day that is not a U.S. Government Securities Business Day.

"Capital Expenditures" means, with respect to any Person for any period, any expenditure in respect of the purchase or other acquisition or improvement of any fixed or capital asset (excluding normal replacements and maintenance which are properly charged to current operations) classified and accounted for as a capital expenditure on the statement of cash flow of such Person in accordance with GAAP, but excluding any payments made as consideration for any merger or consolidation with any other Person or any acquisition of the Equity Interests in any other Person.

"Capital Lease Obligations" of any Person means, subject to Section 1.03, the obligations of such Person to pay rent or other amounts under

any lease of (or other arrangement conveying the right to use) real or personal property, or a combination thereof, which obligations are required to be classified and accounted for as capital lease obligations on a balance sheet of such Person under GAAP, and the amount of such obligations shall be the capitalized amount thereof determined in accordance with GAAP.

"Cash Equivalents" means, as at any date of determination, any of the following: (a) marketable securities (i) issued or directly and unconditionally guaranteed as to interest and principal by the United States Government or (ii) issued by any agency of the United States the obligations of which are backed by the full faith and credit of the United States, in each case maturing within one year after such date; (b) marketable direct obligations issued by any state of the United States of America or any political subdivision of any such state or any public instrumentality thereof, in each case maturing within one year after such date and having, at the time of the acquisition thereof, a rating of at least A-1 from S&P or at least P-1 from Moody's; (c) commercial paper having, at the time of the acquisition thereof, a rating of at least A-1 from S&P or at least P-1 from Moody's; (d) deposits maturing within one year from the date of creation thereof with, including certificates of deposit issued by, any Lender or any office located in the United States of any other bank or trust company which is organized under the laws of the United States or any state thereof, has capital, surplus and undivided profits aggregating at least $100,000,000 (as of the date of such bank or trust company's most recent financial reports) and has a short term deposit rating of no lower than A-2 or P-2, as such rating is set forth from time to time, by S&P or Moody's, respectively; and (e) deposits in money market funds investing exclusively in Investments described in clauses (b), (c) or (d) above.

"Cash Reforecast" has the meaning assigned to such term in Section 5.01(e).

"Casualty Event" means any loss, casualty or other insured damage to, or any nationalization, taking under power of eminent domain or by condemnation or similar proceeding of, any property or asset of the Borrower or any Subsidiary and, with respect to Section 2.08(b) and clause (b) of the definition of "Prepayment Event", to the extent that the cost to the Borrower or such Subsidiary to replace, rebuild or repair such property or asset would be equal to or greater than $1,000,000.

"CERCLA" means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, state and local analogs, and all rules and regulations and requirements thereunder in each case as now or hereafter in effect.

"Change in Control" means an event or series of events by which:

(a) at any time prior to the consummation of a Qualified IPO, the Permitted Holders collectively shall cease to directly or indirectly own, or cease to have the power to vote or direct the voting of, Equity Interests of the Borrower representing at least 75% of the aggregate ordinary voting power represented by the issued and outstanding Equity Interests of the Borrower on a fully-diluted basis;

(b) at any time after the consummation of a Qualified IPO, the Permitted Holders collectively shall cease to directly or indirectly own, or cease to have the power to vote or direct the voting of, Equity Interests of the Borrower representing at least 51% of the aggregate ordinary voting power represented by the issued and outstanding Equity Interests of the Borrower on a fully-diluted basis; or

(c) any of the Equity Interests of the Borrower owned by any Permitted Holder becomes subject to any Lien (other than Liens securing the Obligations).

"Change in Law" means the occurrence, after the date of this Agreement, of any of the following: (a) the adoption or taking effect of any law, rule, regulation or treaty, (b) any change in any law, rule, regulation or treaty or in the administration, interpretation, implementation or application thereof by any Governmental Authority or (c) the making or issuance of any request, rule, guideline, requirement or directive (whether or not having the force of law) by any Governmental Authority; provided however, that notwithstanding anything herein to the contrary, (i) the Dodd-Frank Wall Street Reform and Consumer Protection Act and all requests, rules, guidelines, requirements and directives thereunder, issued in connection therewith or in implementation thereof, and (ii) all requests, rules, guidelines, requirements and directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or the United States or foreign regulatory authorities, in each case pursuant to Basel III, shall in each case be deemed to be a "Change in Law" regardless of the date enacted, adopted, issued or implemented.

"Charges" has the meaning assigned to such term in Section 9.15.

"CME Term SOFR Administrator" means CME Group Benchmark Administration Limited as administrator of the forward-looking term SOFR (or a successor administrator).

"Code" means the Internal Revenue Code of 1986, as amended.

"Commitment" means a Term Loan Commitment.

"Commitment Expiration Date" means the last day of the Term Loan Availability Period.

"Commodity Exchange Act" means the Commodity Exchange Act (7 U.S.C. § 1 et seq.), as amended from time to time, and any successor statute.

"Communications" means, collectively, any notice, demand, communication, information, document or other material provided by or on behalf of any Loan Party pursuant to any Loan Document or the transactions contemplated therein which is distributed by the Administrative Agent, any Lender or any

Issuing Bank by means of electronic communications pursuant to Section 8.03(c), including through an Approved Electronic Platform.

"Compliance Certificate" means a certificate of a Financial Officer of the Borrower substantially in the form attached hereto as Exhibit E.

"Connection Income Taxes" means Other Connection Taxes that are imposed on or measured by net income (however denominated) or that are franchise Taxes or branch profits Taxes.

"Consolidated EBITDA" means, with reference to any period, the sum of the following: (a) Consolidated Net Income for such period plus (b) without duplication and to the extent deducted from revenues in determining Consolidated Net Income for such period, (i) Consolidated Interest Expense, (ii) expense for income, margin, franchise and similar taxes paid or accrued, (iii) depreciation, (iv) depletion, (v) amortization and (vi) other non-cash charges (except to the extent that such non-cash charges are reserved for cash charges to be taken in the future), minus (c) to the extent included in Consolidated Net Income for such period, (i) interest income, (ii) income tax credits and refunds (to the extent not netted from income tax expense) and (iii) non-cash gains and other non-cash items increasing Consolidated Net Income (other than any such non-cash gains on items to the extent representing the reversal of an accrual or reserve for a potential cash charge in any prior period), all calculated for the Borrower and its Subsidiaries in accordance with GAAP on a consolidated basis. For purposes of calculating Consolidated EBITDA for any period, if at any time during such period the Borrower or any of its Subsidiaries shall have made any Material Disposition or Material Acquisition, Consolidated EBITDA for such period shall be calculated giving pro forma effect thereto as if such Material Disposition or Material Acquisition had occurred on the first day of such period (such pro forma effect to be determined without giving effect to any anticipated or proposed change in operations, revenues, expenses or other items included in the calculation of Consolidated EBITDA, except with the consent of the Administrative Agent), and such pro forma effect shall be determined in a manner otherwise acceptable to the Administrative Agent and with supporting documentation acceptable to the Administrative Agent.

"Consolidated Fixed Charge Coverage Ratio" means, as of the last day of any Test Period, the ratio, determined on a consolidated basis for the Borrower and its Subsidiaries for such Test Period, of (a) (i) Consolidated EBITDA for such Test Period *plus* (ii) cash held by the Borrower and its Subsidiaries as of the commencement of such Test Period *minus* (iii) the sum of (without duplication) (A) the current portion of any Indebtedness of the Borrower and its Subsidiaries as of such date (other than the current portion of any Term Loans and any current contingent Indebtedness), (B) the aggregate principal amount of any Indebtedness incurred pursuant to Section 6.01(i) and outstanding as of such date and (C) the aggregate amount of the Subject Payments and any other contingent Indebtedness and/or earnout obligations incurred by the Borrower or its Subsidiaries in connection with any Investment (other than any current contingent Indebtedness) to (b) Consolidated Fixed Charges for such Test Period.

"Consolidated Fixed Charges" means, with respect to any Test Period, the sum of (a) Consolidated Interest Expense for such Test Period, (b) scheduled principal payments of borrowed money (including the Term Loans) made during such Test Period, (c) Capital Expenditures made during such Test Period, (d) any federal and state income taxes paid in cash for such Test Period, and (e) cash payments in respect of Capital Lease Obligations made during such Test Period.

"Consolidated Interest Expense" means, with reference to any period, the interest expense (including interest expense under Capital Lease Obligations that is treated as interest in accordance with GAAP) of the Borrower and its Subsidiaries calculated on a consolidated basis for such period with respect to all outstanding Indebtedness of the Borrower and its Subsidiaries allocable to such period in accordance with GAAP (including, without limitation, all commissions, discounts and other fees and charges owed with respect to letters of credit and bankers acceptance financing and net costs under interest rate Swap Agreements to the extent such net costs are allocable to such period in accordance with GAAP). In the event that the Borrower or any of its Subsidiaries shall have completed a Material Acquisition or a Material Disposition since the beginning of the relevant period, Consolidated Interest Expense shall be determined for such period on a pro forma basis as if such acquisition or Disposition, and any related incurrence or repayment of Indebtedness, had occurred at the beginning of such period.

"Consolidated Net Income" means, with reference to any period, the net income (or loss) of the Borrower and its Subsidiaries for such period, determined on a consolidated basis in accordance with GAAP; provided that there shall be excluded from such net income (to the extent otherwise included therein) the following: (a) the net income of any Person in which the Borrower or any of its Subsidiaries has an interest (which interest does not cause the net income of such other Person to be consolidated with the net income of the Borrower and its Subsidiaries in accordance with GAAP), except to the extent of the amount of dividends or distributions actually paid in cash during such period by such Other Person to the Borrower or a Subsidiary; (b) the undistributed earnings during such period of any Subsidiary of the Borrower to the extent that the declaration or payment of dividends or similar distributions or transfers or loans by that Subsidiary is not at the time permitted by operation of the terms of its charter or any agreement, instrument or Governmental Requirement applicable to such Subsidiary or is otherwise restricted or prohibited; (c) the net income (or loss) of any Person acquired in a pooling of interests transaction for any period prior to the date of such transaction; (d) any extraordinary or non-recurring gains or losses during such period; (e) any gains or losses attributable to write-ups or writedowns of assets (including ceiling test writedowns); and (f) any net unrealized gain or loss (after any offset) resulting in such period from Swap Agreements and the application of Accounting Standards Codification Topic No. 815, Derivatives and Hedging.

"Consolidated Subsidiaries" means each Subsidiary of the Borrower (whether now existing or hereafter created or acquired) the financial statements of which shall be (or should have been) consolidated with the financial statements of the Borrower in accordance with GAAP.

"Consolidated Total Assets" means the total assets of the Borrower and its Subsidiaries, determined on a consolidated basis in accordance with GAAP, as shown on the most recent consolidated balance sheet of the Borrower.

"Control" means the possession, directly or indirectly, of (i) the power to direct or cause the direction of the management or policies of a Person, whether through the ability to exercise voting power, by contract or otherwise or (ii) the power to vote or direct the voting of Equity Interests representing ten percent (10%) or more of the aggregate ordinary voting power represented by the issued and outstanding Equity Interests of a Person on a fully-diluted basis. The terms "Controlling" and "Controlled" have meanings correlative thereto.

"Corresponding Tenor", with respect to any Available Tenor, means, as applicable, either a tenor (including overnight) or an interest payment period having approximately the same length (disregarding business day adjustment) as such Available Tenor.

"Credit Exposure" means, as to any Lender at any time, an amount equal to the sum of (a) the unused Commitment of such Lender at such time plus (b) the aggregate principal amount of such Lender's Term Loans outstanding at such time.

"Credit Party" means the Administrative Agent or any other Lender.

"Cure Election Period" has the meaning assigned to such term in Section 7.02(a).

"Cure Period" has the meaning assigned to such term in Section 7.02.

"Cure Period Start Date" means, with respect to any Cure Quarter the first day following the end of such Cure Quarter.

"Cure Quarter" has the meaning assigned to such term in Section 7.02.

"Cure Right" has the meaning assigned to such term in Section 7.02.

"Daily Simple RFR" means for any day, an interest rate per annum equal to, for any RFR Term Loan, Daily Simple SOFR.

"Daily Simple SOFR" means, for any day (a "SOFR Rate Day"), a rate per annum equal to SOFR for the day that is five (5) U.S. Government Securities Business Days (with observation shift) prior to (i) if such SOFR Rate Day is a U.S. Government Securities Business Day, such SOFR Rate Day or (ii) if such SOFR Rate Day is not a U.S. Government Securities Business Day, the U.S. Government Securities Business Day immediately preceding such SOFR Rate Day, in each case, as such SOFR is published by the SOFR Administrator on the SOFR Administrator's Website. Any change in Daily Simple SOFR due to a change in SOFR shall be effective from and including the effective date of such change in SOFR without notice to the Borrower.

"Default" means any event or condition which constitutes an Event of Default or which upon notice, lapse of time or both would, unless cured or waived, become an Event of Default.

"Defaulting Lender" means any Lender that (a) has failed, within two Business Days of the date required to be funded or paid, to (i) fund any portion of its Term Loans or (ii) pay over to any Credit Party any other amount required to be paid by it hereunder, unless, in the case of clause (i) above, such Lender notifies the Administrative Agent in writing that such failure is the result of such Lender's good faith determination that a condition precedent to funding (specifically identified and including the particular default, if any) has not been satisfied, (b) has notified the Borrower or any Credit Party in writing, or has made a public statement to the effect, that it does not intend or expect to comply with any of its funding obligations under this Agreement (unless such writing or public statement indicates that such position is based on such Lender's good faith determination that a condition precedent (specifically identified and including the particular default, if any) to funding a Term Loan under this Agreement cannot be satisfied) or generally under other agreements in which it commits to extend credit, (c) has failed, within three Business Days after request by a Credit Party or the Borrower, acting in good faith, to provide a certification in writing from an authorized officer of such Lender that it will comply with its obligations (and is financially able to meet such obligations) to fund prospective Term Loans under this Agreement, provided that such Lender shall cease to be a Defaulting Lender pursuant to this clause (c) upon such Credit Party's receipt of such certification in form and substance satisfactory to it, (d) has become the subject of a Bankruptcy Event or (e) has become the subject of a Bail-in Action.

"Devon Earn-Out Obligations" means the earnout obligations described in Section 3.1 of that certain Purchase and Sale Agreement between Devon Energy Production Company, L.P. and BKV Barnett, LLC dated December 17, 2019, as amended by that certain First Amendment to Purchase and Sale Agreement dated April 13, 2020.

"Disposition" or "Dispose" means the sale, transfer, exchange, license, lease or other disposition (in one transaction or in a series of transactions and whether effected pursuant to a Division or otherwise) of any property by any Person (including any Sale and Leaseback Transaction and any issuance of Equity Interests by a subsidiary of such Person), including (a) any sale, assignment, transfer or other disposal, with or without recourse, of any notes or accounts receivable or any rights and claims associated therewith and (b) any sale of Equity Interests held by such Person.

"Disqualified Equity Interests" means any Equity Interests that, by their terms (or by the terms of any security or other Equity Interest into which they are convertible or for which they are exchangeable) or upon the happening of any event or condition, (a) mature (excluding any maturity as a result of an optional redemption by the issuer thereof) or are mandatorily redeemable (other than solely for Qualified Equity Interests and immaterial amounts of cash in lieu of fractional shares), pursuant to a sinking fund obligation or otherwise (except as a result of a change of control or asset sale so long as any rights of the holders thereof upon the occurrence of a change of control or asset sale event shall be subject to Payment in Full), (b) are redeemable at the option of the holder thereof (other than solely for Qualified Equity Interests and immaterial amounts of cash in lieu of fractional shares) (except as a result of a change of control or asset sale so long as any rights of the holders thereof upon the occurrence of a change of control or asset sale event shall be subject to Payment in Full), in whole or in part, or (c) are or become convertible into or exchangeable for Indebtedness or any other Equity Interests that would constitute Disqualified Equity Interests, in each case, prior to the date that is 91 days after the Maturity Date; provided, that, if such Equity Interests are issued pursuant to a plan for the benefit of employees of any Loan Party or by any such plan to such employees, such Equity Interests shall not constitute Disqualified Equity Interests solely because they may be required to be repurchased by such Loan Party in order to satisfy applicable statutory or regulatory obligations or as a result of such employee's death, disability or termination.

"Division" means, with respect to any Person, a division of or by such Person into two or more Persons pursuant to the laws of the jurisdiction of any such Person's organization.

"Dollar-Denominated Production Payment" means a production payment obligation recorded as a liability in accordance with GAAP, together with all undertakings and obligations in connection therewith.

"Dollars" or "$" refers to lawful money of the United States of America.

"EEA Financial Institution" means (a) any credit institution or investment firm established in any EEA Member Country which is subject to the supervision of an EEA Resolution Authority, (b) any entity established in an EEA Member Country which is a parent of an institution described in clause (a) of this definition, or (c) any financial institution established in an EEA Member Country which is a subsidiary of an institution described in clauses (a) or (b) of this definition and is subject to consolidated supervision with its parent.

"EEA Member Country" means any of the member states of the European Union, Iceland, Liechtenstein, and Norway.

"EEA Resolution Authority" means any public administrative authority or any person entrusted with public administrative authority of any EEA Member Country (including any delegee) having responsibility for the resolution of any EEA Financial Institution.

"Effective Date" means the date on which the conditions specified in Section 4.01 are satisfied (or waived in accordance with Section 9.02), which date is June 16, 2022.

"Electronic Signature" means an electronic sound, symbol, or process attached to, or associated with, a contract or other record and adopted by a Person with the intent to sign, authenticate or accept such contract or record.

"Electronic System" means any electronic system, including e-mail, e-fax, Intralinks®, ClearPar®, Debt Domain, Syndtrak and any other Internet or extranet-based site, whether such electronic system is owned, operated or hosted by the Administrative Agent, any of its sub-agents, any of its Related Parties or any other Person, providing for access to data protected by passcodes or other security system.

"Environmental Laws" means all laws, rules, regulations, codes, ordinances, orders, decrees, judgments, injunctions, notices or binding agreements issued, promulgated or entered into by any Governmental Authority, relating in any way to the environment, preservation or reclamation of natural resources, the or to health and safety matters (to the extent relating to human exposure to Hazardous Materials), including requirements pertaining to the manufacture, processing, distribution, use, treatment, storage, disposal, transportation, handling, reporting, licensing, permitting, investigation or remediation of any Hazardous Material. Environmental Laws include the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. § 9601 et seq.), the Hazardous Material Transportation Act (49 U.S.C. § 331 et seq.), the Resource Conservation and Recovery Act (42 U.S.C. § 6901 et seq.), the Federal Water Pollution Control Act (33 U.S.C. § 1251 et seq.), the Clean Air Act (42 U.S.C. § 7401 et seq.), the Toxic Substances Control Act (15 U.S.C. § 2601 et seq.), the Safe Drinking Water Act (42 U.S.C. § 300, et seq.), the Environmental Protection Agency's regulations relating to underground storage tanks (40 C.F.R. Parts 280 and 281) and the rules and regulations thereunder, each as amended or supplemented from time to time.

"Environmental Liability" means any liability, contingent or otherwise (including any liability for damages, costs of environmental remediation, fines, penalties or indemnities), of Borrower or any of its Subsidiaries directly or indirectly resulting from or based upon (a) violation of any Environmental Law, (b) the generation, use, handling, transportation, storage, treatment or disposal of any Hazardous Materials, (c) exposure to any Hazardous Materials, (d) the release or threatened release of any Hazardous Materials into the environment or (e) any contract, agreement or other consensual arrangement pursuant to which liability is assumed or imposed with respect to any of the foregoing.

"Environmental Permit" means any permit, registration, license, approval, consent, exemption, variance, or other authorization required under or issued pursuant to applicable Environmental Laws.

"Equity Interests" means shares of capital stock, partnership interests, membership interests in a limited liability company, beneficial interests in a trust or other equity ownership interests in a Person, and any warrants, options or other rights entitling the holder thereof to purchase or acquire any of the foregoing.

"ERISA" means the Employee Retirement Income Security Act of 1974, as amended from time to time.

"ERISA Affiliate" means any trade or business (whether or not incorporated) that, together with any Loan Party, is treated as a single employer under Section 414(b) or (c) of the Code or, solely for purposes of Section 302 of ERISA and Section 412 of the Code, is treated as a single employer under Section 414 of the Code.

"ERISA Event" means (i) any "reportable event", as defined in Section 4043 of ERISA or the regulations issued thereunder with respect to a Plan (other than an event for which the 30-day notice period is waived); (ii) the failure to satisfy the "minimum funding standard" (as defined in Section 412 of the Code or Section 302 of ERISA), whether or not waived; (iii) the filing pursuant to Section 412(c) of the Code or Section 302(c) of ERISA of an application for a waiver of the minimum funding standard with respect to any Plan; (iv) the incurrence by the Borrower, any of its Subsidiaries or any ERISA Affiliate of any liability under Title IV of ERISA with respect to the termination of any Plan; (v) the receipt by the Borrower, any of its Subsidiaries or any ERISA Affiliate from the PBGC or a plan administrator of any notice relating to an intention to terminate any Plan or to appoint a trustee to administer any Plan; (vi) the incurrence by the Borrower, any of its Subsidiaries or any ERISA Affiliate of any liability with respect to the withdrawal or partial withdrawal from any Plan or Multiemployer Plan; or (vii) the receipt by the Borrower, any of its Subsidiaries or any ERISA Affiliate of any notice, or the receipt by any Multiemployer Plan from the Borrower, any of its Subsidiaries or any ERISA Affiliate of any notice, concerning the imposition upon the Borrower, any of its Subsidiaries or any ERISA Affiliate of Withdrawal Liability or a determination that a Multiemployer Plan is, or is expected to be, insolvent, within the meaning of Title IV of ERISA.

person), as in effect from time to time.

"Event of Default" has the meaning assigned to such term in Section 7.01.

"Excluded Taxes" means any of the following Taxes imposed on or with respect to a Recipient or required to be withheld or deducted from a payment to a Recipient: (a) Taxes imposed on or measured by net income (however denominated), franchise Taxes and branch profits Taxes, in each case, (i) imposed as a result of such Recipient being organized under the laws of, or having its principal office or, in the case of any Lender, its applicable lending office located in, the jurisdiction imposing such Tax (or any political subdivision thereof) or (ii) that are Other Connection Taxes, (b) Taxes attributable to such Recipient's failure to comply with Section 2.16(b) or, in the case of the Administrative Agent, Section 2.16(b) and (c) any withholding Taxes imposed under FATCA.

"FATCA" means Sections 1471 through 1474 of the Code, as of the date of this Agreement (or any amended or successor version that is substantively comparable and not materially more onerous to comply with), any current or future regulations or official interpretations thereof and any agreement entered into pursuant to Section 1471(b)(1) of the Code.

"FCPA" means the Foreign Corrupt Practices Act of 1977, as amended.

"Federal Funds Effective Rate" means, for any day, the rate calculated by the NYFRB based on such day's federal funds transactions by depository institutions, as determined in such manner as shall be set forth on the NYFRB's Website from time to time, and published on the next succeeding Business Day by the NYFRB as the effective federal funds rate; *provided* that if the Federal Funds Effective Rate as so determined would be less than zero, such rate shall be deemed to be zero for the purposes of this Agreement.

"Federal Reserve Bank of New York's Website" or "NYFRB's Website" means the website of the NYFRB at http://www.newyorkfed.org, or any successor source.

"Fee Letter" means that certain fee letter dated as of the Effective Date by and between the Borrower, the Administrative Agent and each Lender party thereto.

"Financial Model" has the meaning given to such term in Section 4.01(f)(ii).

"Financial Officer" means, with respect to any Person, the chief financial officer, principal accounting officer, principal financial officer, treasurer or controller of such Person.

"Fiscal Quarter" means a fiscal quarter of any Fiscal Year.

"Fiscal Year" means a fiscal year of the Borrower ending on December 31st of any calendar year.

"Five-Year Strip Price" means, as of any date, (a) for the 60-month period commencing with the month in which such date occurs, as quoted on the New York Mercantile Exchange (the "NYMEX") and published in a nationally recognized publication for such pricing reasonably acceptable to the Administrative Agent (as such prices may be corrected or revised from time to time by the NYMEX in accordance with its rules and regulations), the corresponding monthly quoted futures contract price for months 0–60 and (b) for periods after such 60 month period, the average corresponding monthly quoted futures contract price for months 49–60; provided, however, in the event that the NYMEX no longer provides futures contract price quotes for 60 month periods, the longest period of quotes of less than 60 months shall be used to determine the strip period and held constant thereafter based on the average of contract prices for the last twelve months of such period, and, if the NYMEX no longer provides such futures contract quotes or has ceased to operate, the Administrative Agent shall designate another nationally recognized commodities exchange to replace the NYMEX for purposes of the references to the NYMEX in this definition.

"Floor" means the benchmark rate floor, if any, provided in this Agreement initially (as of the execution of this Agreement, the modification, amendment or renewal of this Agreement or otherwise) with respect to the Adjusted Term SOFR Rate or the Adjusted Daily Simple RFR, as applicable. For the avoidance of doubt, the initial Floor for each of the Adjusted Term SOFR Rate and the Adjusted Daily Simple RFR shall be 0.00%.

"Foreign Lender" means a Lender that is not a U.S. Person.

"Funding Date" means any date of which Term Loans are funded to the Borrower pursuant to Section 2.02 (including the Initial Funding Date).

"Funds Flow Memorandum" means a memorandum setting forth the flow of funds for the Transactions to occur on the Initial Funding Date, in form and substance satisfactory to the Administrative Agent.

"GAAP" means generally accepted accounting principles in the United States of America, consistently applied.

"Governmental Authority" means the government of the United States of America, the government of the Kingdom of Thailand (and, in each case, any other nation or any political subdivision thereof, whether state or local) and any agency, authority, instrumentality, regulatory body, court, central bank or other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any self-regulatory authority, such as the National Association of Insurance Commissioners, and any supra-national bodies, such as the European Union or the European Central Bank).

"Governmental Requirement" means any law, statute, code, ordinance, order, determination, rule, regulation, judgment, decree, injunction, franchise, permit, certificate, license, rules of common law, authorization or other directive or requirement, whether now or hereinafter in effect, of any Governmental Authority.

"Guarantee" of or by any Person (the "guarantor") means any obligation, contingent or otherwise, of the guarantor guaranteeing or having the economic effect of guaranteeing any Indebtedness or other obligation of any other Person (the "primary obligor") in any manner, whether directly or indirectly, and including any obligation of the guarantor, direct or indirect, (a) to purchase or pay (or advance or supply funds for the purchase or payment of) such Indebtedness or other obligation or to purchase (or to advance or supply funds for the purchase of) any security for the payment thereof, (b) to purchase or lease property, securities or services for the purpose of assuring the owner of such Indebtedness or other obligation of the payment thereof, (c) to maintain working capital, equity capital or any other financial statement condition or liquidity of the primary obligor so as to enable the primary obligor to pay such Indebtedness or other obligation or (d) as an account party in respect of any letter of credit or letter of guaranty issued to support such Indebtedness or obligation; provided, that the term "Guarantee" shall not include endorsements for collection or deposit in the ordinary course of business.

"Guarantor" means a Subsidiary Guarantor.

"Guaranty Agreement" means that certain Guaranty Agreement (including any and all supplements thereto), to be dated as of the Initial Availability Date, among the Guarantors and the Administrative Agent.

"Hazardous Materials" means all explosive or radioactive substances or wastes and all hazardous or toxic substances, wastes or other pollutants, including petroleum or petroleum distillates, asbestos or asbestos containing materials, polychlorinated biphenyls, radon gas, infectious or medical wastes and all other substances or wastes of any nature regulated pursuant to any Environmental Law, including materials listed in 49 C.F.R. § 172.101, materials defined as hazardous pursuant to § 101(14) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended.

"Hydrocarbon Interests" means all rights, titles, interests and estates now or hereafter acquired in and to oil and gas leases, oil, gas and mineral leases, or other liquid or gaseous hydrocarbon leases, fee interests, mineral fee interests, overriding royalty and royalty interests, net profit interests and production payment interests, including any reserved or residual interests of whatever nature and all rents, profits, proceeds, products, revenues and other incomes from or attributable to any of the foregoing interests. Unless otherwise expressly provided herein, all references in this Agreement to "Hydrocarbon Interests" refer to Hydrocarbon Interests owned at the time in question by the Loan Parties.

"Hydrocarbons" means all oil, gas, casinghead gas, drip gasoline, natural gasoline, condensate, distillate, liquid hydrocarbons, gaseous hydrocarbons and all constituents, elements or compounds thereof and all products refined or separated therefrom and all other minerals which may be produced and saved from or attributable to the Oil and Gas Properties of any Person, including all oil in tanks.

"Immaterial Title Deficiencies" means minor defects or deficiencies in title which do not diminish by more than 5% the total value of the Proved Oil and Gas Properties evaluated in the Reserve Report most recently delivered pursuant to the terms of this Agreement.

"Indebtedness" of any Person means, without duplication, (a) all obligations of such Person for borrowed money, (b) all obligations of such Person evidenced by bonds, debentures, notes or similar instruments, (c) all obligations of such Person in respect of Disqualified Equity Interests, (d) all obligations of such Person under conditional sale or other title retention agreements relating to property acquired by such Person, (e) all obligations of such Person in respect of the deferred purchase price of property or services (excluding accounts payable incurred in the ordinary course of business that are either (x) not overdue by more than ninety (90) days or (y) are being contested in good faith by appropriate action and for which adequate reserves are maintained in accordance with GAAP (to the extent required by GAAP)), (f) all Indebtedness of others secured by (or for which the holder of such Indebtedness has an existing right, contingent or otherwise, to be secured by) any Lien on property owned or acquired by such Person, whether or not the Indebtedness secured thereby has been assumed (but to the extent such Indebtedness is limited in recourse with respect to such Person, the amount of such Indebtedness shall be limited to the greater of (i) the fair market value of such Property subject to such Lien and (ii) the principal amount of the obligations or liability with respect to which recourse exists to such Person), (g) all Guarantees by such Person of Indebtedness of others to the extent of the lesser of the amount of such Indebtedness and the maximum stated amount of such Guarantee, (h) all Capital Lease Obligations of such Person, (i) all obligations, contingent or otherwise, of such Person as an account party in respect of letters of credit and letters of guaranty, (j) all obligations, contingent or otherwise, of such Person in respect of bankers' acceptances, (k) obligations to deliver commodities, goods or services, including Hydrocarbons, in consideration of one or more advance payments, made more than one month in advance of the month in which the commodities, goods or services are to be delivered, other than Swap Agreements and obligations relating to gas balancing arrangements in the ordinary course of business, (l) the undischarged balance of any Production Payment created by such Person and (m) any other preferential arrangement in circumstances where the arrangement or transaction is entered into primarily as a method of raising Indebtedness or of financing the acquisition of an asset. The Indebtedness of any Person shall include the Indebtedness of any other entity (including any partnership in which such Person is a general partner) to the extent such Person is liable therefor as a result of such Person's ownership interest in or other relationship with such entity, except to the extent the terms of such Indebtedness provide that such Person is not liable therefor. Indebtedness shall not include (i) liabilities resulting from endorsements of negotiable instruments for collection in the ordinary course of business, (ii) obligations in respect of Swap Agreements, (iii) earnout obligations unless such obligations become a liability on the balance sheet of such Person in accordance with GAAP or (iv) any liabilities associated with minimum revenue commitments or minimum volume commitments.

"Indemnified Taxes" means (a) Taxes, other than Excluded Taxes, imposed on or with respect to any payment made by or on account of any obligation of any Loan Party under any Loan Document and (b) to the extent not otherwise described in clause (a) hereof, Other Taxes.

"Indemnitee" has the meaning assigned to such term in Section 9.03(b).

"Ineligible Institution" has the meaning assigned to such term in Section 9.04(b).

"Initial Availability Date" means the date on which the conditions specified in Section 4.02 are satisfied (or waived in accordance with Section 9.02).

"Initial Funding Date" means the initial Funding Date under this Agreement.

"Initial Funding Date Account" has the meaning assigned to such term in Section 2.03.

"Initial Reserve Reports" means, collectively, (a) the engineering report prepared by the Borrower and audited by Ryder Scott Company, L.P. in form reasonably acceptable to the Administrative Agent, setting forth, as of December 31, 2021, the oil and gas reserves attributable to the Proved Oil and Gas Properties of the Borrower and its Subsidiaries and (b) the engineering report prepared by the Borrower and audited by Ryder Scott Company, L.P. in form reasonably acceptable to the Administrative Agent, setting forth, as of February 1, 2022, the oil and gas reserves attributable to the XTO Acquired Assets, in each case, together with a projection of the rate of production and future net income, taxes, operating expenses and capital expenditures with respect thereto as of such date, based upon economic assumptions reasonably acceptable to the Administrative Agent.

"Interest Payment Date" means (a) with respect to any ABR Term Loan, the last Business Day of each March, June, September and December, (b) with respect to any Term Benchmark Loan, the last day of the Interest Period applicable to the Borrowing of which such Loan is a part and (c) the Maturity Date.

"Interest Period" means, for any Term Benchmark Borrowing, the period commencing on the date of such Borrowing and ending on the numerically corresponding day in the calendar month that is six (6) months thereafter (in each case, subject to the availability of the Benchmark applicable to the relevant Term Loan); *provided* that (i) if any Interest Period would end on a day other than a Business Day, such Interest Period shall be extended to the next succeeding Business Day unless such next succeeding Business Day would fall in the next calendar month, in which case such Interest Period shall end on the next preceding Business Day, (ii) any Interest Period that commences on the last Business Day of a calendar month (or on a day for which there is no numerically corresponding day in the last calendar month of such Interest Period) shall end on the last Business Day of the last calendar month of such Interest Period and (iii) no tenor that has been removed from this definition pursuant to Section 2.11(e) shall be available for specification in any Borrowing Request. For purposes hereof, the date of a Borrowing initially shall be the date on which such Borrowing is made and thereafter shall be the effective date of the most recent conversion or continuation of such Borrowing.

"Investment" means, as applied to any Person, any direct or indirect (a) purchase or other acquisition (including pursuant to any merger or consolidation with any Person) of any Equity Interests, evidences of Indebtedness or other securities of any other Person, (b) loan or advance made by such Person to any other Person, (c) Guarantee, assumption or other incurrence of liability by such Person of or for any Indebtedness or other obligations of any other Person, (d) capital contribution or other investment by such Person in any other Person or (e) purchase or other acquisition (in one transaction or a series of transactions) of any Oil and Gas Properties or midstream, downstream, carbon capture, utilization and storage (CCUS), or solar properties of another Person or any other assets of any other Person constituting a business unit.

"IRS" means the United States Internal Revenue Service.

"Lender Parent" means, with respect to any Lender, any Person as to which such Lender is, directly or indirectly, a subsidiary.

"Lenders" means the Term Lenders.

"Lien" means, with respect to any asset, (a) any mortgage, deed of trust, lien, pledge, hypothecation, encumbrance, charge in the nature of a security interest or other security interest in, on or of such asset, (b) the interest of a vendor or a lessor under any conditional sale agreement, capital lease or title retention agreement (or any financing lease having substantially the same economic effect as any of the foregoing) relating to such asset, (c) in the case of securities, any purchase option, call or similar right of a third party with respect to such securities and (d) any arrangement under which money for the benefit of a bank or other account may be applied, set-off or made subject to a combination of accounts.

"Loan Documents" means this Agreement, any Notes, the Guaranty Agreement, the Agency Fee Letter, the Fee Letter, the Borrowing Request, the Funds Flow Memorandum, the Utilization Receipt, the Subordination Agreement, all other agreements, instruments, documents and certificates executed and delivered by or on behalf of any of the Loan Parties or any of their respective Subsidiaries to, or in favor of, the Administrative Agent or any Lenders in connection with this Agreement or the transactions contemplated hereby and any other document designated in writing as a "Loan Document" by the Borrower and the Administrative Agent. Any reference in this Agreement or any other Loan Document to a Loan Document shall include all appendices, exhibits or schedules thereto, and all amendments, restatements, amendments and restatements, supplements or other modifications thereto, and shall refer to this Agreement or such Loan Document as the same may be in effect at any and all times such reference becomes operative.

"Loan Parties" means, collectively, the Borrower and the Guarantors.

"Material Acquisition" means any acquisition of property or series of related acquisitions of property (including by way of merger or consolidation) that involves the payment by the Borrower or any Subsidiary of the Borrower of consideration in excess of $25,000,000.

"Material Adverse Effect" means a material adverse effect on, or a material adverse change in, (i) the business, operations, properties, liabilities, financial or other condition of the Borrower and its Subsidiaries, taken as a whole, (ii) the ability of any of the Loan Parties to perform its obligations under any Loan Document to which it is a party, (iii) the validity or enforceability against any of the Loan Parties of any Loan Document to which it is a party or (iv) the rights and remedies of the Administrative Agent or any Lender under any of the Loan Documents.

"Material Contract" means any contract or agreement (excluding any Loan Document) of any Loan Party (a) involving monetary liability of or to

such Loan Party in any year in excess of $5,000,000, or (b) the breach, non-performance, cancellation or failure to renew of which could reasonably be expected to have a Material Adverse Effect.

"Material Disposition" means any Disposition that involves the receipt by the Borrower or any Subsidiary of the Borrower of consideration in excess of $25,000,000.

"Material Indebtedness" means (a) the Subordinated Shareholder Loans, (b) the Indebtedness incurred under any Uncommitted Credit Facility Agreement and (c) Indebtedness (other than the Term Loans), or obligations in respect of one or more Swap Agreements, of any one or more of the Borrower and its Subsidiaries in an aggregate principal amount (including undrawn committed or available amounts) exceeding $10,000,000. For purposes of determining Material Indebtedness, the "principal amount" of the obligations of the Borrower or any Subsidiary of the Borrower in respect of any Swap Agreement at any time shall be the maximum aggregate amount (giving effect to any netting agreements) that the Borrower or such Subsidiary would be required to pay if such Swap Agreement were terminated at such time.

"Maturity Date" means the fifth anniversary of the Initial Funding Date .

"Maximum Rate" has the meaning assigned to such term is Section 9.16.

"Maximum Term Loan Amount" means $600,000,000.

"Midstream Properties" means the gathering and transportation system that is part of the XTO Acquired Assets, including Rights-of-Way.

"Moody's" means Moody's Investors Service, Inc.

"Multiemployer Plan" means a multiemployer plan as defined in Section 4001(a)(3) of ERISA.

"Net Proceeds" means, with respect to any event, (a) the cash proceeds received in respect of such event, including (i) any cash received in respect of any non-cash proceeds (including any cash payments received by way of deferred payment of principal pursuant to a note or installment receivable or purchase price adjustment receivable or otherwise, but excluding any interest payments), but only as and when received, (ii) in the case of a casualty, insurance proceeds and (iii) in the case of a condemnation or similar event, condemnation awards and similar payments, net of (b) the sum of (i) all fees and out-of-pocket expenses paid to third parties (other than Affiliates) in connection with such event, (ii) in the case of a Disposition of an asset (including pursuant to a casualty or a condemnation or similar proceeding), the amount of all payments required to be made as a result of such event to repay Indebtedness (other than Term Loans) secured by such asset or otherwise subject to mandatory prepayment as a result of such event and (iii) the amount of all Taxes paid (or reasonably estimated to be payable) and the amount of any reserves established to fund contingent liabilities reasonably estimated to be payable that are directly attributable to such event (as determined reasonably and in good faith by a Financial Officer).

"Non-Consenting Lender" has the meaning assigned to such term is Section 9.02(d).

"Note" means a promissory note made by the Borrower in favor of a Lender which has requested promissory notes pursuant to Section 2.07(f) evidencing the Term Loans made by such Lender, substantially in the forms attached as Exhibit A and any substitutes therefor, and any replacements, restatements, renewals or extension thereof, in whole or in part.

"NYFRB" means the Federal Reserve Bank of New York.

"NYFRB Rate" means, for any day, the greater of (a) the Federal Funds Effective Rate in effect on such day and (b) the Overnight Bank Funding Rate in effect on such day (or for any day that is not a Business Day, for the immediately preceding Business Day); *provided* that, if none of such rates are published for any day that is a Business Day, the term "NYFRB Rate" means the rate for a federal funds transaction quoted at 11:00 a.m. on such day received by the Administrative Agent from a federal funds broker of recognized standing selected by it; *provided further* that if any of the aforesaid rates as so determined shall be less than 0.00%, such rate shall be deemed to be 0.00% for purposes of this Agreement.

"Obligations" means all unpaid principal of and accrued and unpaid interest on the Term Loans, all accrued and unpaid fees and all expenses, reimbursements, indemnities and other obligations and indebtedness (including interest and fees accruing during the pendency of any bankruptcy, insolvency, receivership or other similar proceeding, regardless of whether allowed or allowable in such proceeding), obligations and liabilities of any of the Borrower and the other Loan Parties to any of the Lenders, the Administrative Agent or any indemnified party, individually or collectively, existing on the Effective Date or arising thereafter, direct or indirect, joint or several, absolute or contingent, matured or unmatured, liquidated or unliquidated, secured or unsecured, arising by contract, operation of law or otherwise, arising or incurred under this Agreement or any of the other Loan Documents or in respect of any of the Term Loans made or other obligations incurred or other instruments at any time evidencing any thereof.

"OFAC" means the Office of Foreign Assets Control of the U.S. Department of the Treasury.

"Oil and Gas Properties" means (a) Hydrocarbon Interests; (b) the properties now or hereafter pooled or unitized with Hydrocarbon Interests; (c) all presently existing or future unitization, communitization, pooling agreements and declarations of pooled units and the units created thereby (including all units created under orders, regulations and rules of any Governmental Authority) which may affect all or any portion of the Hydrocarbon Interests; (d) all operating agreements, production sales or other contracts, farmout agreements, farm-in agreements, area of mutual interest agreements, equipment leases and other agreements which relate to any of the Hydrocarbon Interests or any interests therein or to the production, sale, purchase, exchange, processing, handling,

storage, transporting or marketing of the Hydrocarbons from or attributable to such Hydrocarbon Interests; (e) all Hydrocarbons; (f) all tenements, hereditaments, appurtenances and properties in any manner appertaining, belonging, affixed or incidental to the Hydrocarbon Interests, including all compressor sites, settling ponds and equipment or pipe yards; and (g) all properties, rights, titles, interests and estates whether now owned or hereinafter acquired, that are situated upon, used or held for use in connection with the interests described or referred to above, or the operating, working or development of any of such Hydrocarbon Interests or property (excluding drilling rigs, automotive equipment, rental equipment or other personal property which may be on such premises for the purpose of drilling a well or for other similar temporary uses) including any and all oil wells, gas wells, injection wells or other wells, structures, fuel separators, liquid extraction plants, plant compressors, pumps, pumping units, pipelines, sales and flow lines, gathering systems, field gathering systems, salt water disposal facilities, tanks and tank batteries, fixtures, valves, fittings, machinery and parts, engines, boilers, steam generation facilities, meters, apparatus, equipment, appliances, tools, implements, cables, wires, towers, casing, tubing and rods, surface leases, rights-of-way, easements, servitudes, licenses and other surface and subsurface rights, together with all additions, substitutions, replacements, accessions and attachments to any and all of the foregoing. Unless otherwise expressly provided herein, all references in this Agreement to "Oil and Gas Properties" refer to Oil and Gas Properties owned at the time in question by the Loan Parties.

"Organizational Documents" means (a) with respect to any corporation, the certificate or articles of incorporation and bylaws (or equivalent or comparable constitutive documents with respect to such corporation's jurisdiction) of such corporation; (b) with respect to any limited liability company, the certificate or articles of formation or organization and operating agreement of such limited liability company; and (c) with respect to any partnership, joint venture, trust or other form of business entity, the partnership, joint venture or other applicable agreement of formation or organization of such entity and any agreement, instrument, filing or notice with respect thereto filed in connection with its formation or organization with the applicable Governmental Authority in the jurisdiction of its formation or organization and, if applicable, any certificate or articles of formation or organization of such entity.

"Other Connection Taxes" means, with respect to any Recipient, Taxes imposed as a result of a present or former connection between such Recipient and the jurisdiction imposing such Tax (other than connections arising from such Recipient having executed, delivered, become a party to, performed its obligations under, received payments under, received or perfected a security interest under, engaged in any other transaction pursuant to or enforced any Loan Document, or sold or assigned an interest in any Term Loan or Loan Document).

"Other Taxes" means all present or future stamp, court or documentary, intangible, recording, filing or similar Taxes that arise from any payment made under, from the execution, delivery, performance, enforcement or registration of, from the receipt or perfection of a security interest under, or otherwise with respect to, any Loan Document, except any such Taxes that are Other Connection Taxes imposed with respect to an assignment (other than an assignment made pursuant to Section 2.16).

"Overnight Bank Funding Rate" means, for any day, the rate comprised of both overnight federal funds and overnight eurodollar transactions denominated in Dollars by U.S.-managed banking offices of depository institutions, as such composite rate shall be determined by the NYFRB as set forth on the NYFRB's Website from time to time, and published on the next succeeding Business Day by the NYFRB as an overnight bank funding rate.

"Participant" has the meaning assigned to such term in Section 9.04(c).

"Participant Register" has the meaning assigned to such term in Section 9.04(c).

"Payment Conditions" means, with respect to any Restricted Payment or Restricted Debt Payment:

(a) after giving pro forma effect to such Restricted Payment or Restricted Debt Payment, no Default or Event of Default shall have occurred and be continuing;

(b) no Restricted Payment or Restricted Debt Payment shall be made during any Fiscal Year except (i) with respect to Fiscal Year 2022, on a date that is before November 1, 2022 and (ii) with respect to subsequent Fiscal Years, on a date that is within the Specified Amount Payment Period for such Fiscal Year;

(c) after giving pro forma effect to such Restricted Payment or Restricted Debt Payment, the aggregate amount of Available Cash of the Borrower and the Subsidiaries at the beginning of the related Specified Amount Payment Period is greater than $100,000,000;

(d) after giving pro forma effect to such Restricted Payment or Restricted Debt Payment, the Specified Amount shall be greater than $0;

(e) at the time of such Restricted Payment or Restricted Debt Payment, the Adjusted Stockholders' Equity of the Borrower is not less than $800,000,000 (as reflected in the financial statements delivered pursuant to Section 5.01(b) with respect to the applicable Fiscal Quarter ending June 30); and

(f) the projected cash flow of the Borrower and its Subsidiaries in the Budget or Cash Reforecast most recently delivered pursuant to Section 5.01(e) (or, solely for any Restricted Payment or Restricted Debt Payment made prior to November 1, 2022, the Financial Model) reflects sufficient free cash flow to make the required payments of principal and interest on the Term Loans through the next succeeding Annual Payment Date.

"Payment in Full" or "Paid in Full" means the Commitments have expired or been terminated and the principal of and interest on each Term Loan and all fees payable hereunder and all other amounts payable under the Loan Documents (other than contingent indemnification obligations as to which no claim has been received by any Loan Party) shall have been paid in full in cash.

"PBGC" means the Pension Benefit Guaranty Corporation referred to and defined in ERISA and any successor entity performing similar functions.

"Permits" means the collective reference to any and all franchises, licenses, leases, permits, approvals, consents, notifications, certifications, registrations, authorizations, exemptions, variances, qualifications, easements and rights of way of any Governmental Authority or third party.

"Permitted Encumbrances" means:

(a)Liens for Taxes, assessments or other governmental charges or levies that are not yet due or are being contested in good faith by appropriate action and for which adequate reserves are maintained in accordance with GAAP (to the extent required by GAAP);

(b)carriers', warehousemen's, mechanics', materialmen's, repairmen's, landlord's, operators' and other like Liens imposed by law, arising in the ordinary course of business or incident to the exploration, development, operation and maintenance of Oil and Gas Properties and securing obligations that are not overdue by more than thirty (30) days or are being contested in good faith by appropriate action and for which adequate reserves are maintained in accordance with GAAP (to the extent required by GAAP); provided that any such Lien referred to in this clause (b) does not materially impair the use of the Property covered by such Lien for the purposes for which such Property is held by any Loan Party or materially impair the value of such Property subject thereto;

(c)Liens in connection with workers' compensation, unemployment insurance or other social security, old age pension or public liability obligations which are not delinquent or which are being contested in good faith by appropriate action and for which adequate reserves are maintained in accordance with GAAP (to the extent required by GAAP);

(d)deposits to secure the performance of bids, trade contracts, government contracts, leases, statutory obligations, regulatory obligations, tenders, surety and appeal bonds, performance bonds and other obligations of a like nature, in each case in the ordinary course of business or in the ordinary course in the oil and gas business generally and not in connection with the borrowing of money;

(e) judgment Liens in respect of judgments that do not constitute an Event of Default under Section 7.01(k);

(f) zoning and land use requirements, easements, restrictions, servitudes, Permits, conditions, covenants, exceptions or reservations in any Property of any Loan Party for the purpose of roads, pipelines, transmission lines, transportation lines, distribution lines for the removal of gas, oil, coal or other minerals or timber, and other like purposes, or for the joint or common use of real estate, rights of way, facilities and equipment, that do not secure any monetary obligations and that in the aggregate do not materially impair the value of the assets encumbered thereby or materially impair the ability of any Loan Party to use such assets in its business;

(g)title and ownership interests of lessors (including sub-lessors) of Property leased by such lessors to any Loan Party, Liens and encumbrances encumbering such lessors' titles and interests in such property and to which the applicable Loan Party's leasehold interests may be subject or subordinate, in each case whether or not evidenced by Uniform Commercial Code financing statement filings or other documents of record; provided that such Liens do not secure Indebtedness of any Loan Party and do not encumber Property of any Loan Party other than the Property that is the subject of such leases and items located thereon; provided further that any such Lien referred to in this clause does not materially impair the use of the Property covered by such Lien for the purposes for which such Property is held by the applicable Loan Party or materially impair the value of such Property subject thereto;

(h) Liens arising solely by virtue of any statutory or common law provision or customary deposit account terms relating to banker's liens, rights of set-off or similar rights and remedies and burdening only deposit accounts or other funds maintained with a creditor depository institution; provided that no such deposit account is a dedicated cash collateral account or is subject to restrictions against access by the depositor in excess of those set forth by regulations promulgated by the Board and no such deposit account is intended by any Loan Party to provide collateral to the depository institution;

(i)Liens arising solely from precautionary Uniform Commercial Code financing statement filings with respect to operating leases or consignment arrangements otherwise permitted under this Agreement;

(j)Liens which arise in the ordinary course of business under operating agreements, joint venture agreements, oil and gas partnership agreements, oil and gas leases, farm-out agreements, participation agreements, division orders, contracts for the sale, transportation, gathering, or exchange of oil and natural gas, unitization and pooling declarations and agreements, area of mutual interest agreements, overriding royalty agreements, reversionary interests, marketing agreements, processing agreements, net profits agreements, development agreements, service agreements, supply agreements, gas balancing or deferred production agreements, injection, repressuring and recycling agreements, salt water or other disposal agreements, seismic or other geophysical permits or agreements, and other agreements which are usual and customary in the oil and gas business including, without limitation, all lessors' royalties, overriding royalties, net profits interests, carried interests, reversionary interests and other burdens on, or deductions from, the proceeds of production with respect to each Property (in each case) that do not operate to reduce the net revenue interest for such Property as reflected in any Reserve Report or increase the working interest for such Oil and Gas Property as reflected in any Reserve Report without a corresponding increase in the corresponding net revenue interest and that do not secure Indebtedness for borrowed money and, in each case, are for claims which are not more than 30 days delinquent or which are being contested in good faith by appropriate action and for which adequate reserves are maintained in accordance with GAAP (to the extent required by GAAP);

(k)minor defects or other irregularities in title or zoning and other restrictions that do not secure any Indebtedness and which in the aggregate do not materially impair the use of such Property for the purposes of which such Property is held by any Loan Party or Subsidiary of the Borrower or materially impair the value of such Property subject thereto;

(l)consents to assignment and similar contractual provisions affecting an Oil and Gas Property, including customary preferential rights to

purchase and calls on production by sellers relating to Hydrocarbon Interests acquired by any Loan Party or Subsidiary of the Borrower;

(m)Liens (other than the granting of a security interest) pursuant to merger agreements, stock purchase agreements, asset sale agreements and similar agreements (1) limiting the transfer of properties and assets pending the consummation of the subject transaction, or (2) in respect of earnest money deposits, good faith deposits, purchase price adjustment and indemnity escrows and similar deposit or escrow arrangements made or established thereunder; and

(n)Liens, titles and interests of licensors of software and other intangible personal Property licensed by such licensors to any Loan Party or any Subsidiary of the Borrower, restrictions and prohibitions on encumbrances and transferability with respect to such Property and such Loan Party's or Subsidiary's interests therein imposed by such licenses, and Liens and encumbrances encumbering such licensors' titles and interests in such Property and to which such Loan Party's or Subsidiary's license interests may be subject or subordinate, in each case, whether or not evidenced by UCC financing statement filings or other documents of record; provided that such Liens do not secure Indebtedness of any Loan Party or any Subsidiary of the Borrower and do not encumber Property of any Loan Party or any Subsidiary of the Borrower other than the Property that is the subject of such licenses;

provided, that (i) Liens described in clauses (a), (b), (c), (h) and (j) shall remain "Permitted Encumbrances" only for so long as no action to enforce such Lien has been commenced (ii) the term "Permitted Encumbrance" shall not include any Lien securing Indebtedness for borrowed money.

"Permitted Holders" means, collectively, Banpu and any wholly-owned subsidiaries of Banpu.

"Permitted Liens" means Liens expressly permitted pursuant to Section 6.02.

"Person" means any natural person, corporation, limited liability company, trust, joint venture, association, company, partnership, Governmental Authority or other entity.

"Petroleum Industry Standards" means the Definitions for Oil and Gas Reserves promulgated by the Society of Petroleum Engineers (or any generally recognized successor) as in effect at the time in question.

"Plan" means any employee pension benefit plan (other than a Multiemployer Plan) subject to the provisions of Title IV of ERISA or Section 412 of the Code or Section 302 of ERISA, and in respect of which the Borrower, any of its Subsidiaries or any ERISA Affiliate (i) is (or, if such plan were terminated, would under Section 4069 of ERISA be deemed to be) an "employer" as defined in Section 3(5) of ERISA or (ii) otherwise has any liability.

"Platform" means Debt Domain, Intralinks, Syndtrak or a substantially similar electronic transmission system.

"Prepayment Event" means:

(a)any Disposition of any property or asset of the Borrower or any of its Subsidiaries (whether in one transaction or in a series of transactions) with a fair market value in excess of $1,000,000 other than Dispositions described in clauses (a), (b), (c), (e), (f), (g), (i) and (j) of Section 6.04; or

(b) any Casualty Event; or

(c) the incurrence by the Borrower or any of its Subsidiaries of any Indebtedness, other than Indebtedness permitted un der Section 6.01.

"Prime Rate" means, as of any day, the rate last quoted by The Wall Street Journal as the "Prime Rate" in the United States or, if The Wall Street Journal ceases to quote such rate, the highest per annum interest rate published by the Federal Reserve Board in Federal Reserve Statistical Release H.15 (519) (Selected Interest Rates) as the "bank prime loan" rate or, if such rate is no longer quoted therein, any similar rate quoted therein (as reasonably determined by the Administrative Agent) or any similar release by the Federal Reserve Board (as reasonably determined by the Administrative Agent).

"Production Payment" means a Dollar-Denominated Production Payment or a Volumetric Production Payment.

"Property" means any interest in any kind of property or asset, whether real, personal or mixed, or tangible or intangible, including cash, securities, accounts and contract rights, including any Oil and Gas Property.

"Proved Oil and Gas Properties" means Oil and Gas Properties of the Loan Parties to which Proved Reserves are attributed in the Reserve Report most recently delivered at the time in question.

"Proved Reserves" means oil and gas reserves that, in accordance with the Petroleum Industry Standards, are defined and classified as "Proved Reserves", which include the following: (a) "Proved Developed Producing Reserves", (b) "Proved Developed Non-Producing Reserves" (consisting of proved developed shut-in oil and gas reserves and proved developed behind pipe oil and gas reserves) and (c) "Proved Undeveloped Reserves".

"PTE" means a prohibited transaction class exemption issued by the U.S. Department of Labor, as any such exemption may be amended from time to time

"Qualified Equity Interests" means any Equity Interests that are not Disqualified Equity Interests.

"Qualified IPO" means any transaction or series of transactions that results in any of the common Equity Interests of the Borrower or any direct or indirect parent company of the Borrower being publicly traded on any United States national securities exchange or over-the-counter market, or any analogous exchange or any recognized securities exchange in Canada, the United Kingdom or any country of the European Union; *provided* that a Qualified IPO shall not include a public offering pursuant to a registration statement on Form S-8.

"Qualifying Benefit Plans" means any stock option plans or other benefit plans for the benefit of employees, management and directors of the Borrower which are or have become customary in the business industry of the Borrower and which such plans have been approved in good faith by the Borrower's compensation committee (or equivalent body of the Borrower responsible for compensation).

"Recipient" means (a) the Administrative Agent and (b) any Lender, as applicable.

"Reference Time" with respect to any setting of the then-current Benchmark means (1) if such Benchmark is the Term SOFR Rate, 6:00 a.m. (New York time) on the day that is two Business Days preceding the date of such setting, (2) if the RFR for such Benchmark is Daily Simple SOFR, then two Business Days prior to such setting or (3) if such Benchmark is none of Term SOFR Rate or Daily Simple SOFR, the time determined by the Administrative Agent in its reasonable discretion.

"Register" has the meaning assigned to such term in Section 9.04(b).

"Related Parties" means, with respect to any specified Person, such Person's Affiliates and the respective directors, officers, employees, agents, third party advisors and representatives of such Person and such Person's Affiliates.

"Release" has the meaning set forth in CERCLA or under any other Environmental Law.

"Relevant Governmental Body" means the Federal Reserve Board and/or the NYFRB, the CME Term SOFR Administrator, as applicable, or a committee officially endorsed or convened by the Federal Reserve Board or the NYFRB or, in each case, any successor thereto.

"Relevant Rate" means (a) with respect to any Term Benchmark Borrowing, the Adjusted Term SOFR Rate or (b) with respect to any RFR Borrowing, the Adjusted Daily Simple RFR, as applicable.

"Remedial Work" has the meaning set forth in Section 5.07.

"Required Lenders" means, subject to Section 2.17, (x) if there are three or more Lenders, at least two or more Lenders having Credit Exposures representing more than 66.666666667% of the sum of the Credit Exposures of all Lenders at such time and (y) if there are fewer than three Lenders, at least one or more Lenders having Credit Exposures representing more than 66.666666667% of the sum of the Credit Exposures of all Lenders at such time. For purposes of this definition, any Lenders that are Affiliated shall be deemed to be a single Lender.

"Requirement of Law" means as to any Person, any law, treaty, rule or regulation or determination of an arbitrator or a court or other Governmental Authority, in each case applicable to or binding upon such Person or any of its property or to which such Person or any of its property is subject.

"Reserve Report" means, collectively, (a) the Initial Reserve Reports and (b) each other report, in form and detail reasonably satisfactory to the Administrative Agent, setting forth, as of the dates set forth in Section 5.14(a), Section 5.14(b) or as otherwise indicated in this Agreement, the Proved Reserves attributable to the Oil and Gas Properties of the Borrower and the other Loan Parties located in the United States of America, together with a projection of the rate of production and future net income, taxes, operating expenses and capital expenditures with respect thereto as of such date, based upon economic assumptions reasonably acceptable to the Administrative Agent.

"Reserve Report Certificate" has the meaning set forth in Section 5.14(d).

"Reserve Report Supporting Materials" shall mean, with respect to any Reserve Report, (i) a summary of the economic assumptions contained therein and any material changes from the Reserve Report most recently delivered prior to such Reserve Report, (ii) files containing the then-current ARIES database of the Loan Parties' Oil and Gas Properties and (iii) any other supporting materials as the Administrative Agent may reasonably request used to prepare such Reserve Report.

"Resolution Authority" means an EEA Resolution Authority or, with respect to any UK Financial Institution, a UK Resolution Authority.

"Responsible Officer" means, as to any Person, the chief executive officer, president, chief financial officer, principal accounting officer, principal financial officer, chief operating officer, controller, treasurer or assistant treasurer, or any vice president, of such Person or, in the case of a Loan Party, any other officer of such Loan Party or other authorized individual designated in writing by such Loan Party and reasonably acceptable to the Administrative Agent. Any document delivered hereunder or under any other Loan Document that is signed by a Responsible Officer of a Person shall be conclusively presumed to have been authorized by all necessary corporate, partnership and/or other action on the part of such Person and such Responsible Officer shall be conclusively presumed to have acted on behalf of such Person.

"Restricted Debt Payment" has the meaning given to such term in Section 6.18(a).

"Restricted Payment" means (a) any dividend or other distribution (whether in cash, securities or other property) with respect to any Equity Interests in the Borrower or any of its Subsidiaries, (b) any payment (whether in cash, securities or other property), including any sinking fund or similar deposit, on account of the purchase, redemption, retirement, acquisition, cancellation or termination of any Equity Interests in the Borrower or any of its Subsidiaries and (c) any payment of management fees, advisory fees or similar fees by any Loan Party to any holders of Equity Interests of the Borrower.

"RFR" means for any RFR Term Loan, Daily Simple SOFR.

"RFR Term Loan" means a Term Loan that bears interest at a rate based on the Adjusted Daily Simple RFR.

"Rights-of-Way" means all permits, licenses, servitudes, easements, fee surface, surface leases, surface use agreements and rights-of-way primarily used or held for use in connection with the ownership or operation of the XTO Acquired Assets, other than permits.

"S&P" means Standard & Poor's Ratings Services, a Standard & Poor's Financial Services LLC business.

"Sale and Leaseback Transaction" means any sale or other transfer of any property or asset by any Person with the intent to lease such property or asset as lessee.

"Sanctioned Country" means, at any time, a country, region or territory which is itself the subject or target of any Sanctions (at the time of this Agreement, the so-called Donetsk People's Republic, the so-called Luhansk People's Republic, the Crimea Region of Ukraine, Cuba, Iran, North Korea and Syria).

"Sanctioned Person" means, at any time, (a) any Person that is the subject or target of any Sanctions administered or enforced by OFAC, the U.S. Department of State, the United Nations Security Council, the European Union, any European Union member state, Her Majesty's Treasury of the United Kingdom, or any other relevant sanctions authority, (b) any Person operating, organized or resident in a Sanctioned Country or (c) any Person owned or controlled by any such Person or Persons described in the foregoing clauses (a) or (b).

"Sanctions" means economic or financial sanctions or trade embargoes imposed, administered or enforced from time to time by (a) the U.S. government, including those administered by OFAC or the U.S. Department of State, (b) the United Nations Security Council, the European Union, any European Union member state, Her Majesty's Treasury of the United Kingdom, or any other relevant sanctions authority, (c) the sanctions authority of the Kingdom of Thailand or (d) the sanctions authority of the Republic of Singapore.

"SEC" means the United States Securities and Exchange Commission.

"Securities Act" means the United States Securities Act of 1933.

"SOFR" means a rate per annum equal to the secured overnight financing rate as administered by the SOFR Administrator.

"SOFR Administrator" means the NYFRB (or a successor administrator of the secured overnight financing rate).

"SOFR Administrator's Website" means the NYFRB's website, currently at http://www.newyorkfed.org, or any successor source for the secured overnight financing rate identified as such by the SOFR Administrator from time to time.

"SOFR Rate Day" has the meaning specified in the definition of "Daily Simple SOFR".

"Solvent" means, in reference to any Person, (i) the fair value of the assets of such Person, at a fair valuation, will exceed its debts and liabilities, subordinated, contingent or otherwise; (ii) the present fair saleable value of the property of such Person will be greater than the amount that will be required to pay the probable liability of its debts and other liabilities, subordinated, contingent or otherwise, as such debts and other liabilities become absolute and matured; (iii) such Person will be able to pay its debts and liabilities, subordinated, contingent or otherwise, as such debts and liabilities become absolute and matured; and (iv) such Person will not have unreasonably small capital with which to conduct the business in which it is engaged as such business is now conducted and is proposed to be conducted after the Effective Date.

"Specified Amount" means, as of any date, an amount (which shall not be less than zero) equal to (without duplication):

(a) Consolidated EBITDA, determined on a consolidated basis for the Borrower and its Subsidiaries for the Test Period most recently ended for which financial statements of the Borrower have been delivered pursuant to Section 5.01(a) or 5.01(b), *plus* cash held by the Borrower and its Subsidiaries as of the commencement of such Test Period *minus* the aggregate sum of (without duplication) (i) the current portion of any Indebtedness of the Borrower and its Subsidiaries as of such date (other than the current portion of any Term Loans and any current contingent Indebtedness), (ii) the aggregate principal amount of any Indebtedness incurred pursuant to Section 6.01(i) and outstanding as of such date, and (iii) the aggregate amount of the Subject Payments and any other contingent Indebtedness and/or earnout obligations incurred by the Borrower or its Subsidiaries in connection with any Investment (other than any current contingent Indebtedness) *minus*

(b) the Consolidated Fixed Charges for the Test Period most recently ended for which financial statements of the Borrower have been delivered pursuant to Section 5.01(a) or 5.01(b), *minus*

(c) any Specified Amount Utilization.

"Specified Amount Utilization" means the sum of, without duplication, the aggregate amount of Restricted Payments and Restricted Debt Payments made in reliance on Section 6.08(d) and Section 6.18(a)(ii) respectively during the period starting from the first day of the Test Period most recently ended for which financial statements of the Borrower have been delivered pursuant to Section 5.01(a) or 5.01(b) and ending on such date.

"Specified Amount Payment Period" means, for any Fiscal Year, the period beginning the date that financial statements are delivered pursuant to Section 5.01(b) with respect to the Fiscal Quarter ending June 30 of such Fiscal Year and ending the date that is 90 days after June 30 of such Fiscal Year.

"Specified Contribution" means at any time, without duplication, the amount of cash proceeds received by the Borrower from (x) an issuance of Equity Interests (other than Disqualified Equity Interests), (y) a cash capital contribution or (z) the incurrence of Subordinated Shareholder PIK Loans (such cash proceeds not to be less than the principal amount of such Subordinated Shareholder PIK Loans), which is made for the exclusive purpose of curing a failure to comply with Section 6.11(b) or Section 6.11(c) that would otherwise occur, but for the exercise of a Cure Right pursuant to Section 7.02. For the avoidance of doubt, the XTO Acquisition Contribution shall not constitute a Specified Contribution.

"Specified Disposition" has the meaning assigned to such term in Section 2.08(b).

"Specified Funds" means, collectively, the following:

(a)cash generated from ordinary business operations of the Borrower or any of its Subsidiaries and not constituting (i) the proceeds of any Indebtedness, (ii) the proceeds of any issuance of Equity Interests of the Borrower (or any parent entity thereof), (iii) casualty proceeds, (iv) condemnation proceeds or (v) other proceeds that would not be included in Consolidated Net Income; and

(b) Net Proceeds from any Disposition referred to in clauses (a), (b), (c), (e), (f), (g), (i) and (j) of Section 6.04.

"Specified Total Indebtedness" means the aggregate principal amount of all Indebtedness of the Borrower and its Subsidiaries referred to in clauses (a), (b), (c), (e) (but only in respect of earn-out obligations to the extent due and payable), (f) (to the extent such Lien secures Indebtedness that is of the type that would otherwise constitute Specified Total Indebtedness), (g) (to the extent such Guarantee covers Indebtedness that is of the type that would otherwise constitute Specified Total Indebtedness), (h), (i) (to the extent consisting of non-contingent reimbursement obligations in respect of letters of credit and letters of guaranty that have been drawn or funded and not reimbursed), (j) (to the extent consisting of non-contingent reimbursement obligations in respect of bankers' acceptances that have been funded and not reimbursed) of the definition of "Indebtedness" on such date, determined on a consolidated basis in accordance with GAAP and (k) all Indebtedness of the types referred to in clauses (a) through (j) above of any partnership or joint venture in which any Borrower or a Subsidiary is a general partner or joint venturer, unless such Indebtedness is expressly made non-recourse to such Borrower or such Subsidiary.

"Subject Payments" means, collectively, the Devon Earn-Out Obligations, the First Contingent Payment (as defined in the XTO Acquisition Agreement) and the Second Contingent Payment (as defined in the XTO Acquisition Agreement).

"Subordination Agreement" means that certain Subordination Agreement, dated as of the Initial Availability Date, by and among Banpu North America Corporation, the Administrative Agent and each other Person party thereto, as may be amended, restated, amended and restated, supplemented or otherwise modified from time to time.

"Subordinated Shareholder Loan" means (a) any loan made to the Borrower by Banpu North America which (i) has a maturity date no earlier than ninety-one (91) days after the Maturity Date, (ii) is subordinated to the Obligations as to priority of payment pursuant to a subordination agreement in form and substance satisfactory to the Administrative Agent, (iii) is unsecured, (iv) provides for an all-in-yield no greater than Term SOFR plus 5.25%, (b) any Subordinated Shareholder PIK Loan and (c) the Amended and Restated Shareholder Loans.

"Subordinated Shareholder PIK Loan" means any loan made to the Borrower by Banpu North America which (a) has a maturity date no earlier than ninety-one (91) days after the Maturity Date, (b) is subordinated to the Obligations as to priority of payment pursuant to a subordination agreement in form and substance satisfactory to the Administrative Agent, (c) is unsecured, (d) provides for an all-in-yield no greater than Term SOFR plus 5.25%, and (e) which bears interest that is payable solely in kind by adding the amount of such interest to the outstanding principal amount of the Subordinated Shareholder Loan, which shall thereafter be deemed principal bearing interest.

"subsidiary" means, with respect to any Person (the "parent") at any date, any corporation, limited liability company, partnership, joint venture, association or other entity the accounts of which would be consolidated with those of the parent in the parent's consolidated financial statements if such financial statements were prepared in accordance with GAAP as of such date, as well as any other corporation, limited liability company, partnership, association or other entity of which securities or other ownership interests representing more than 50% of the equity or more than 50% of the ordinary voting power or, in the case of a partnership, more than 50% of the general partnership interests are, as of such date, owned, Controlled or held.

"Subsidiary" means any subsidiary of the Borrower.

"Subsidiary Guarantor" means each Subsidiary of the Borrower that is a party to the Guaranty Agreement (excluding any Subsidiary released from its obligations under the Guaranty Agreement). The Subsidiary Guarantors as of the Initial Availability Date are identified as such in Schedule 3.01.

"Swap Agreement" means any agreement with respect to any collar, swap, forward, future or derivative transaction or option or similar agreement involving, or settled by reference to, one or more rates, currencies, commodities, equity or debt instruments or securities, or economic, financial or pricing indices or measures of economic, financial or pricing risk or value or any similar transaction or any combination of these transactions; provided that no phantom stock or similar plan providing for payments only on account of services provided by current or former directors, officers, employees or consultants of the Borrower or its Subsidiaries shall be a Swap Agreement.

"Taxes" means all present or future taxes, levies, imposts, duties, deductions, withholdings (including backup withholding), assessments, fees

or other charges imposed by any Governmental Authority, including any interest, additions to tax or penalties applicable thereto.

"Term Benchmark", when used in reference to any Term Loan or Borrowing, refers to whether such Term Loan, or the Term Loans comprising such Borrowing, bears interest at a rate determined by reference to the Adjusted Term SOFR Rate.

"Term Benchmark Loan" means a Term Loan that bears interest at a rate based on the Term Benchmark.

"Term Lender" means, as of any date of determination, each Lender having a Term Loan Commitment or that holds Term Loans.

"Term Loan Availability Period" means the period commencing on the Effective Date and ending six (6) months thereafter.

"Term Loan Commitment" means, as to any Term Lender, the commitment of such Term Lender to make a Term Loan in the principal amount set forth on Schedule 2.01 or in the most recent Assignment and Assumption or other documentation contemplated hereby executed by such Term Lender. The aggregate amount of the Term Loan Commitments of the Term Lenders as of the Effective Date is $600,000,000.

"Term Loans" means, collectively, the loans made pursuant to Section 2.01.

"Test Period" means any period of four consecutive Fiscal Quarters.

"Term SOFR Determination Day" has the meaning assigned to such term under the definition of "Term SOFR Reference Rate."

"Term SOFR Rate" means, with respect to any Term Benchmark Borrowing and for any tenor equal to the applicable Interest Period, the Term SOFR Reference Rate at approximately 6:00 a.m., New York time, two U.S. Government Securities Business Days prior to the commencement of such tenor comparable to the applicable Interest Period, as such rate is published by the CME Term SOFR Administrator.

"Term SOFR Reference Rate" means, for any day and time (such day, the " Term SOFR Determination Day"), with respect to any Term Benchmark Borrowing for any tenor comparable to the applicable Interest Period, the rate per annum determined by the Administrative Agent as the forward-looking term rate based on SOFR. If by 5:00 p.m. (New York time) on such Term SOFR Determination Day, the "Term SOFR Reference Rate" for the applicable tenor has not been published by the CME Term SOFR Administrator and a Benchmark Replacement Date with respect to the Term SOFR Rate has not occurred, then the Term SOFR Reference Rate for such Term SOFR Determination Day will be the Term SOFR Reference Rate as published in respect of the first preceding U.S. Government Securities Business Day for which such Term SOFR Reference Rate was published by the CME Term SOFR Administrator, so long as such first preceding Business Day is not more than five (5) Business Days prior to such Term SOFR Determination Day.

"Total Net Indebtedness" means, as of any date of determination, (a) Specified Total Indebtedness as of such date minus (b) the lesser of (i) the aggregate amount of Available Cash as of such date and (ii) $100,000,000.

"Total Net Leverage Ratio" means, as of the last day of any Test Period, the ratio of (a) Total Net Indebtedness as of such date to (b) Consolidated EBITDA for such Test Period.

"Total Proved PV-10" means, as of any date of determination, the sum of (i) the estimated market value of the Loan Parties' hedge position, discounted using an annual discount rate of 10% and (ii) the present value of estimated future revenues to be realized from the production of Hydrocarbons from the Oil and Gas Properties of the Loan Parties to which Proved Reserves are attributed as set forth in the most recent Reserve Report delivered pursuant hereto, with appropriate deductions for take or pay and other prepayments, severance and ad valorem taxes, operating, gathering, transportation and marketing expenses, and capital expenditures (including capitalized workover expenses) and plugging and abandonment costs. Each calculation of such estimated future revenues shall be made (a) using the Five-Year Strip Price, adjusted in a manner reasonably acceptable to the Administrative Agent for (i) any basis differential between the actual delivery location and the reference price delivery location and price differential between the actual product delivered and the reference product, in each case, using in each case using methodology consistent with past practices and in good faith based on observable differentials (which utilized differentials shall be, volume weighted on the basis of current and expected future arrangements for the sale of production, the lesser of (A) the average actual differentials for the last twelve months and (B) those future differentials which may be hedged by contract); and (ii) quality and gravity, (b) using costs as of the date of estimation without future escalation and without giving effect to non-property related expenses such as general and administrative expenses, debt service, future income tax expense and depreciation, depletion and amortization, (c) discounted using an annual discount rate of 10% and (d) to the extent not otherwise specified in the preceding clauses of this sentence, using reasonable economic assumptions consistent with such clauses. Total Proved PV-10 shall be calculated on a pro forma basis, giving effect to (i) acquisitions and Dispositions of Oil and Gas Properties consummated by the Borrower and the other Loan Parties since the date of the Reserve Report most recently delivered pursuant hereto (provided that, in the case of any acquisition of Oil and Gas Properties, the Administrative Agent shall have received a Reserve Report, in form and substance reasonably satisfactory to it, evaluating the Proved Reserves attributable thereto) and (ii) the unwind, monetization or termination of any Swap Agreement to which a Loan Party is a party, in each case occurring since the date of the Reserve Report most recently delivered pursuant hereto.

"Transactions" means (a) the execution, delivery and performance by the Loan Parties of this Agreement and the other Loan Documents, (b) the borrowing of Term Loans and the use of the proceeds thereof, (c) the consummation of the XTO Acquisition and (d) any other transaction relating to or entered into in connection with any of the foregoing.

"Type" when used in reference to any Term Loan or Borrowing, refers to whether the rate of interest on such Term Loan, or on the Term Loans comprising such Borrowing, is determined by reference to the Adjusted Term SOFR Rate, the Adjusted Daily Simple RFR or the Alternate Base Rate.

"U.S. Government Securities Business Day" means any day except for (a) a Saturday, (b) a Sunday or (c) a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in United States government securities.

"U.S. Person" means a "United States person" within the meaning of Section 7701(a)(30) of the Code.

"U.S. Tax Compliance Certificate" has the meaning assigned to such term in Section 2.14(f)(i)(B)(3).

"USA PATRIOT Act" means The Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (Title III of Pub. L. No. 107-56 (signed into law October 26, 2001)) and the rules and regulations promulgated thereunder from time to time in effect.

"UCC" means the Uniform Commercial Code as in effect from time to time in the State of New York or any other state the laws of which are required to be applied in connection with the issue of perfection of security interests.

"UK Financial Institutions" means any BRRD Undertaking (as such term is defined under the PRA Rulebook (as amended from time to time) promulgated by the United Kingdom Prudential Regulation Authority) or any person falling within IFPRU 11.6 of the FCA Handbook (as amended from time to time) promulgated by the United Kingdom Financial Conduct Authority, which includes certain credit institutions and investment firms, and certain affiliates of such credit institutions or investment firms.

"UK Resolution Authority" means the Bank of England or any other public administrative authority having responsibility for the resolution of any UK Financial Institution.

"Unadjusted Benchmark Replacement" means the applicable Benchmark Replacement excluding the related Benchmark Replacement Adjustment.

"Uncommitted Credit Facility Agreements" means (a) that certain Uncommitted Specific Advance Facility Letter, dated as of December 22, 2021, by and among the Borrower and Oversea-Chinese Banking Corporation Limited, Los Angeles Agency, (b) that certain Uncommitted Continuing Agreement for Standby Letters of Credit, dated as of December 22, 2021, by and among the Borrower and Oversea-Chinese Banking Corporation Limited, Los Angeles Agency, (c) that certain Facility Letter (Uncommitted), dated as of February 7, 2022, by and among Standard Chartered Bank, the Borrower, BKV Chaffee Corners, LLC, BKV Chelsea, LLC, BKV Operating, LLC and BKV Barnett, LLC and (d) that certain Promissory Note, dated as of March 11, 2022, made by the Borrower, BKV Chaffee Corners, LLC, BKV Chelsea, LLC, BKV Operating, LLC and BKV Barnett, LLC in favor of Standard Chartered Bank.

"Utilization Receipt" means documentary evidence of the Borrower's receipt of the proceeds of the Term Loans funded on any Funding Date to the deposit account provided by the Borrower in the Borrowing Request, which shall be substantially in the form attached hereto as Exhibit D-2 or any other form approved by the Administrative Agent.

"Volumetric Production Payment" means a production payment obligation recorded as deferred revenue in accordance with GAAP, together with all undertakings and obligations in connection therewith.

"Weighted Average Life to Maturity" means, when applied to any Indebtedness at any date, the number of years obtained by dividing: (a) the sum of the products obtained by multiplying (i) the amount of each then remaining installment, sinking fund, serial maturity or other required payments of principal, including payment at final maturity, in respect thereof, by (ii) the number of years (calculated to the nearest one-twelfth) that will elapse between such date and the making of such payment; by (b) the then outstanding principal amount of such Indebtedness.

"Wholly Owned Subsidiary" means, as to any Person, any other Person all of the Equity Interests of which (other than directors' qualifying shares required by law) is owned by such Person directly and/or through other Wholly Owned Subsidiaries.

"Withdrawal Liability" means liability to a Multiemployer Plan as a result of a complete or partial withdrawal from such Multiemployer Plan, as such terms are defined in Part 1 of Subtitle E of Title IV of ERISA.

"Withholding Agent" means any Loan Party.

"Write-Down and Conversion Powers" means, (a) with respect to any EEA Resolution Authority, the write-down and conversion powers of such EEA Resolution Authority from time to time under the Bail-In Legislation for the applicable EEA Member Country, which write-down and conversion powers are described in the EU Bail-In Legislation Schedule, and (b) with respect to the United Kingdom, any powers of the applicable Resolution Authority under the Bail-In Legislation to cancel, reduce, modify or change the form of a liability of any UK Financial Institution or any contract or instrument under which that liability arises, to convert all or part of that liability into shares, securities or obligations of that person or any other person, to provide that any such contract or instrument is to have effect as if a right had been exercised under it or to suspend any obligation in respect of that liability or any of the powers under that Bail-In Legislation that are related to or ancillary to any of those powers.

"XTO Acquired Assets" means the "Assets" (as defined in the XTO Acquisition Agreement).

"XTO Acquisition Agreement" means that certain Purchase and Sale Agreement, dated as of May 18, 2022, among XTO Energy, Inc., a Delaware corporation, and Barnett Gathering, LLC, a Texas limited liability company, on the one hand, collectively, as seller (the "XTO Sellers"), and BKV North Texas, LLC, a Delaware limited liability company, and BKV Midstream, LLC, a Delaware limited liability company, on the other hand, collectively, as purchaser.

"XTO Acquisition Assignments" has the meaning assigned to such term in Section 5.18(a)(iv)

"XTO Acquisition Contribution" has the meaning assigned to such term in Section 5.18(a)(ii).

"XTO Acquisition Releases" has the meaning assigned to such term in Section 5.18(a)(iv).

"XTO Acquisition Subordinated Shareholder Loan" means the loans incurred by the Borrower pursuant to the XTO Subordinated Shareholder Loan Agreement.

"XTO Acquisition Subordinated Shareholder Loan Agreement" means that certain Amended and Restated Loan Agreement, dated as of June 15, 2022, by and between Banpu North America, as lender, and the Borrower, as borrower, pursuant to which Banpu North America made a term loan in the aggregate principal amount of $75,000,000 to the Borrower.

"XTO Acquisition Termination Date" has the meaning assign to such term in Section 2.08(e).

"XTO Sellers" has the meaning assigned to such term in the definition of "XTO Acquisition Agreement".

SECTION 1.02. Terms Generally. The definitions of terms herein shall apply equally to the singular and plural forms of the terms defined. Whenever the context may require, any pronoun shall include the corresponding masculine, feminine and neuter forms. The words "include", "includes" and "including" shall be deemed to be followed by the phrase "without limitation". The word "will" shall be construed to have the same meaning and effect as the word "shall". The word "law" shall be construed as referring to all statutes, rules, regulations, codes and other laws (including official rulings and interpretations thereunder having the force of law or with which affected Persons customarily comply), and all judgments, orders and decrees, of all Governmental Authorities. Unless the context requires otherwise, (a) any definition of or reference to any agreement, instrument or other document herein shall be construed as referring to such agreement, instrument or other document as from time to time amended, restated, supplemented or otherwise modified (subject to any restrictions on such amendments, restatements, supplements or modifications set forth herein), (b) any definition of or reference to any statute, rule or regulation shall be construed as referring thereto as from time to time amended, supplemented or otherwise modified (including by succession of comparable successor laws), (c) any reference herein to any Person shall be construed to include such Person's successors and assigns (subject to any restrictions on assignment set forth herein) and, in the case of any Governmental Authority, any other Governmental Authority that shall have succeeded to any or all functions thereof, (d) the words "herein", "hereof" and "hereunder", and words of similar import, shall be construed to refer to this Agreement in its entirety and not to any particular provision hereof, (e) with respect to the determination of any time period, the word "from" means "from and including", the words "to" and "until" mean "to but excluding", and the word "through" means "to and including", (f) all references herein to Articles, Sections, Exhibits and Schedules shall be construed to refer to Articles and Sections of, and Exhibits and Schedules to, this Agreement and (g) the words "asset" and "property" shall be construed to have the same meaning and effect and to refer to any and all tangible and intangible assets and properties, including cash, securities, accounts and contract rights.

SECTION 1.03. Accounting Terms; GAAP; Pro Forma Calculations.

(a) Except as otherwise expressly provided herein, all terms of an accounting or financial nature shall be construed in accordance with GAAP, as in effect from time to time; provided that, if the Borrower notifies the Administrative Agent that the Borrower requests an amendment to any provision hereof to eliminate the effect of any change occurring after the date hereof in GAAP or in the application thereof on the operation of such provision (or if the Administrative Agent notifies the Borrower that the Required Lenders request an amendment to any provision hereof for such purpose), regardless of whether any such notice is given before or after such change in GAAP or in the application thereof, then such provision shall be interpreted on the basis of GAAP as in effect and applied immediately before such change shall have become effective until such notice shall have been withdrawn or such provision amended in accordance herewith.

(b) Notwithstanding any other provision contained herein, all terms of an accounting or financial nature used herein shall be construed, and all computations of amounts and ratios referred to herein shall be made (i) without giving effect to any election under Accounting Standards Codification 825-10-25 (or any other Accounting Standards Codification or Financial Accounting Standard having a similar result or effect) to value any Indebtedness or other liabilities of the Borrower or any Subsidiary of the Borrower at "fair value", as defined therein, and (ii) without giving effect to any treatment of Indebtedness in respect of convertible debt instruments under Accounting Standards Codification 470-20 (or any other Accounting Standards Codification or Financial Accounting Standard having a similar result or effect) to value any such Indebtedness in a reduced or bifurcated manner as described therein, and such Indebtedness shall at all times be valued at the full stated principal amount thereof.

(c) Except as otherwise expressly provided herein, all pro forma computations required to be made hereunder giving effect to any acquisition or Disposition, or issuance, incurrence or assumption of Indebtedness, or other transaction shall in each case be calculated giving pro forma effect thereto (and, in the case of any pro forma computation made hereunder to determine whether such acquisition or Disposition, or issuance, incurrence or assumption of Indebtedness, or other transaction is permitted to be consummated hereunder, to any other such transaction consummated since the first day of the period covered by any component of such pro forma computation and on or prior to the date of such computation) as if such transaction had occurred on the first day of the period of four consecutive Fiscal Quarters ending with the most recent Fiscal Quarter for which financial statements shall have been delivered pursuant to Section 5.01(a) or 5.01(b) (or, prior to the delivery of any such financial statements, ending with the last Fiscal Quarter included in the financial statements referred to in Section 3.04(a) and (b)), and, to the extent applicable, to the historical earnings and cash flows associated with the assets acquired or Disposed of (but without giving effect to any synergies or cost savings) and any related incurrence or reduction of Indebtedness, all in accordance with Article 11 of Regulation S-X under the Securities Act. If any Indebtedness bears a floating rate of interest and is being given pro forma effect, the interest on such Indebtedness shall be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Swap Agreement applicable to such Indebtedness).

(d) Notwithstanding anything to the contrary contained in Section 1.03(a) or in the definition of "Capital Lease Obligations," for purposes of calculations made pursuant to the terms of this Agreement or any other Loan Document, GAAP will be deemed to treat leases (whether or not such leases were in effect on such date) that would have been classified as operating leases in accordance with GAAP as in effect on December 31, 2018 in a manner consistent with the treatment of such leases under GAAP as in effect on December 31, 2018, notwithstanding any modifications or interpretive changes thereto that may occur thereafter.

SECTION 1.04. Interest Rates; Benchmark Notification. The interest rate on a Term Loan may be derived from an interest rate benchmark that may be discontinued or is, or may in the future become, the subject of regulatory reform. Upon the occurrence of a Benchmark Transition Event, Section 2.11(b) provides a mechanism for determining an alternative rate of interest. The Administrative Agent does not warrant or accept any responsibility for, and shall not have any liability with respect to, the administration, submission, performance or any other matter related to any interest rate used in this Agreement, or with respect to any alternative or successor rate thereto, or replacement rate thereof, including without limitation, whether the composition or characteristics of any such alternative, successor or replacement reference rate will be similar to, or produce the same value or economic equivalence of, the existing interest rate being replaced or have the same volume or liquidity as did any existing interest rate prior to its discontinuance or unavailability. The Administrative Agent and its affiliates and/or other related entities may engage in transactions that affect the calculation of any interest rate used in this Agreement or any alternative, successor or alternative rate (including any Benchmark Replacement) and/or any relevant adjustments thereto, in each case, in a manner adverse to the Borrower. The Administrative Agent may select information sources or services in its reasonable discretion to ascertain any interest rate used in this Agreement, any component thereof, or rates referenced in the definition thereof, in each case pursuant to the terms of this Agreement, and shall have no liability to the Borrower, any Lender or any other person or entity for damages of any kind, including direct or indirect, special, punitive, incidental or consequential damages, costs, losses or expenses (whether in tort, contract or otherwise and whether at law or in equity), for any error or calculation of any such rate (or component thereof) provided by any such information source or service.

SECTION 1.05. Divisions. For all purposes under the Loan Documents, in connection with any division or plan of division under Delaware law (or any comparable event under a different jurisdiction's laws): (a) if any asset, right, obligation or liability of any Person becomes the asset, right, obligation or liability of a different Person, then it shall be deemed to have been transferred from the original Person to the subsequent person, and (b) if any new Person comes into existence, such new Person shall be deemed to have been organized and acquired on the first date of its existence by the holders of its Equity Interests at such time.

ARTICLE II

The Credits

SECTION 2.01. Commitments. Subject to the terms and conditions set forth herein, each Term Lender (severally and not jointly) agrees to make Term Loans to the Borrower in Dollars from time to time on any Business Day during the Term Loan Availability Period; provided that (a) the principal amount of any Term Loan made by any Term Lender on any Funding Date shall not exceed the then-available Term Loan Commitment of such Lender (immediately prior to giving effect to the making of such Term Loan) and (b) the aggregate principal amount of all Term Loans made by the Term Lenders during the Term Loan Availability Period shall not exceed the Maximum Term Loan Amount. Amounts repaid or prepaid in respect of the Term Loans may not be reborrowed.

SECTION 2.02. Loans and Borrowings.

(a) Each Term Loan shall be made as part of a Borrowing consisting entirely of Term Benchmark Loans as the Borrower may request in accordance herewith made by the applicable Lenders ratably in accordance with their respective Term Loan Commitments. The failure of any Lender to make any Term Loan required to be made by it shall not relieve any other Lender of its obligations hereunder; provided that the Commitments of the Lenders are several and no Lender shall be responsible for any other Lender's failure to make Term Loans as required.

(b) Subject to Section 2.11, each Borrowing shall be comprised entirely of Term Benchmark Loans as the Borrower may request in accordance herewith. Each Lender at its option may make any Term Loan by causing any domestic or foreign branch or Affiliate of such Lender to make such Term Loan (and in the case of an Affiliate, the provisions of Sections 2.12 and 2.14 shall apply to such Affiliate to the same extent as to such Lender); provided that any exercise of such option shall not affect the obligation of the Borrower to repay such Term Loan in accordance with the terms of this Agreement.

(c) Each Borrowing of Term Loans shall be in an aggregate amount that is an integral multiple of $1,000,000 and not less than $5,000,000.

(d) Notwithstanding any other provision of this Agreement, the Borrower shall not be entitled to request, or to elect to convert or continue, any Borrowing if the Interest Period requested with respect thereto would end after the Maturity Date.

SECTION 2.03. Requests for Borrowings. To request a Borrowing, the Borrower shall notify the Administrative Agent of such request by delivering to the Administrative Agent a Borrowing Request signed by the Borrower not later than 11:00 a.m., New York City time three (3) Business Days before the date of the proposed Borrowing (or such later time as may be otherwise approved by the Administrative Agent in its sole discretion); provided that, notwithstanding anything to the contrary herein, no Borrowing Request may be delivered prior to the Initial Availability Date. Each such written Borrowing Request shall be irrevocable and shall specify the following information in compliance with Section 2.02:

(i) the aggregate principal amount of the requested Borrowing, which shall comply with the requirements of Section 2.02(c);

(ii) the date of such Borrowing, which shall be a Business Day; and

(iii) the location and number of the Borrower's account or such other account or accounts to which funds are to be disbursed (provided that the proceeds of Term Loans made on the Initial Funding Date shall be deposited into an account of the Borrower held at the Administrative Agent) (such account, the "Initial Funding Date Account").

Promptly following receipt of a Borrowing Request in accordance with this Section, the Administrative Agent shall advise each applicable Lender of the details thereof and of the amount of such Lender's Term Loan to be made as part of the requested Borrowing.

SECTION 2.04. Funding of Borrowings.

(a) Each Lender shall make each Term Loan to be made by it hereunder on the relevant Funding Date thereof by wire transfer of immediately available funds by 12:00 noon, New York City time, to the account of the Administrative Agent most recently designated by it for such purpose by notice to the Lenders. The Administrative Agent will make such Term Loans available to the Borrower by promptly wiring the amounts of all requested funds so received, in like funds, to an account of the Borrower (or to such other account) designated by the Borrower in the applicable Borrowing Request on the applicable Funding Date.

(b) Unless the Administrative Agent shall have received notice from a Lender prior to the proposed date of any Borrowing that such Lender will not make available to the Administrative Agent such Lender's share of such Borrowing, the Administrative Agent may assume that such Lender has made such share available on such date in accordance with paragraph (a) of this Section and may (but shall have no obligation to do so), in reliance upon such assumption, make available to the Borrower a corresponding amount. In such event, if a Lender has not in fact made its share of the applicable Borrowing available to the Administrative Agent, then the applicable Lender and the Borrower severally agree to pay to the Administrative Agent forthwith on demand such corresponding amount with interest thereon, for each day from and including the date such amount is made available to the Borrower to but excluding the date of payment to the Administrative Agent, at (i) in the case of such Lender, the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation or (ii) in the case of the Borrower, the interest rate applicable to the Term Loans comprising such Borrowing. If such Lender pays such amount to the Administrative Agent, then such amount shall constitute such Lender's Term Loan included in such Borrowing.

SECTION 2.05. Interest Rate.

(a) Each Borrowing shall be a Term Benchmark Borrowing and shall have an Interest Period of six (6) months. There shall be no more than five (5) Term Benchmark Borrowings at any time.

(b) At the end of each Interest Period, each Borrowing shall be continued as a Term Benchmark Borrowing, with a new Interest Period immediately beginning at the end of the prior Interest Period.

SECTION 2.06. Termination and Reduction of Term Loan Commitments .

(a) The Term Loan Commitments shall be permanently reduced on any Funding Date by the principal amount of Term Loans made on such Funding Date, such reduction to be effective immediately after the funding of such Term Loans. Unless previously terminated, the Term Loan Commitments shall terminate on the earlier of (a) the Commitment Expiration Date and (b) if the XTO Acquisition is not consummated on or prior to the date that is four (4) Business Days after the Initial Funding Date, the XTO Acquisition Termination Date.

(b) The Borrower may at any time terminate, or from time to time reduce, the Term Loan Commitments; provided that each partial reduction of the Term Loan Commitments shall be in an amount that is an integral multiple of $1,000,000 and not less than $5,000,000.

(c) The Borrower shall notify the Administrative Agent in writing of any election to terminate or reduce the Term Loan Commitments under paragraph (b) of this Section by 12:00 p.m., New York City time, at least three (3) Business Days prior to the effective date of such termination or reduction, specifying such election and the effective date thereof. Promptly following receipt of any such notice, the Administrative Agent shall advise the applicable Lenders of the contents thereof. Each notice delivered by the Borrower pursuant to this paragraph (c) shall be irrevocable; provided that a notice of termination of the Term Loan Commitments delivered by the Borrower may state that such notice is conditioned upon the effectiveness of other credit facilities or other transactions specified therein, in which case such notice may be revoked by the Borrower (by notice to the Administrative Agent on or prior to the specified effective date) if such condition is not satisfied. Any termination or reduction of the Term Loan Commitments shall be permanent. Each reduction of the Term Loan Commitments shall be made ratably among the Term Lenders in accordance with their respective Term Loan Commitments.

(d) Without limiting any other obligation to pay fees and expenses hereunder, any commitment fees accrued pursuant to Section 2.09 until the effective date of any termination of Term Loan Commitments shall be paid on the effective date of such termination.

SECTION 2.07. Repayment of Loans; Evidence of Debt.

(a) On each Annual Payment Date, the Borrower shall repay the Term Loans in an amount equal to 20.0% of the aggregate principal amount of the Term Loans outstanding at the end of the Commitment Expiration Date (such aggregate principal amount, the "Amortization Base Amount"), with each installment due on any such Annual Payment Date subject to adjustment as a result of any prepayment pursuant to Section 2.08 as provided therein. The Applicable Prepayment Premium shall not apply to repayment of the Term Loans pursuant to this Section 2.07(a).

(b) To the extent not previously repaid, the outstanding principal amount of the Term Loans shall be paid in full in Dollars by the Borrower on the Maturity Date.

(c) Each Lender shall maintain in accordance with its usual practice an account or accounts evidencing the indebtedness of the Borrower to such Lender resulting from each Term Loan made by such Lender, including the amounts of principal and interest payable and paid to such Lender from time to time hereunder.

(d) The Administrative Agent shall maintain accounts in which it shall record (i) the amount of each Term Loan made hereunder, the Type thereof and the Interest Period applicable thereto, (ii) the amount of any principal or interest due and payable or to become due and payable from the Borrower to each Lender hereunder and (iii) the amount of any sum received by the Administrative Agent hereunder for the account of the Lenders and each Lender's share thereof.

(e) The Register and the corresponding entries made in the accounts maintained pursuant to paragraph (c) or (d) of this Section shall be prima facie evidence of the existence and amounts of the obligations recorded therein; provided that the failure of any Lender or the Administrative Agent to maintain such accounts or any error therein shall not in any manner affect the Obligations. If any conflict exists between the accounts and records maintained by any Lender and the accounts and records of the Administrative Agent in respect of such matters, the accounts and records of Administrative Agent shall control in the absence of manifest error.

(f) Any Lender may request that Term Loans made by it be evidenced by a Note or Notes. In such event, the Borrower shall prepare, execute and deliver to such Lender a Note or Notes payable to such Lender or its registered assigns and substantially in the form of Exhibit A. Thereafter, the Term Loans evidenced by such Note and interest thereon shall at all times (including after assignment pursuant to Section 9.04) be represented by one or more Notes in such form payable to the payee or its registered assigns.

SECTION 2.08. Prepayment of Loans.

(a) Voluntary Prepayments. The Borrower shall have the right at any time and from time to time to prepay any Borrowing in whole or in part, subject to prior written notice in accordance with the provisions of this Section 2.08(a). The Borrower shall notify the Administrative Agent by written notice of any prepayment hereunder not later than 1:00 p.m., New York City time, fifteen (15) Business Days before the date of prepayment. Each such notice shall be irrevocable and shall specify the prepayment date and the principal amount of each Borrowing or portion thereof to be prepaid; provided that a notice of voluntary prepayment of all Loans then outstanding at any time delivered by the Borrower may state that such notice is conditioned upon the effectiveness of other credit facilities or other transactions specified therein, in which case such notice may be revoked by the Borrower (by written notice to the Administrative Agent on or prior to the specified effective date) if such condition is not satisfied. Promptly following receipt of any such notice relating to a voluntary prepayment of a Borrowing, the Administrative Agent shall advise the applicable Lenders of the contents thereof. Each partial prepayment of any Term Loans shall be an integral multiple of $1,000,000 and not less than $5,000,000. Each voluntary prepayment of a Borrowing pursuant to this Section 2.08(a) shall be applied ratably to the Term Loans included in the prepaid Borrowing in inverse order of maturity. Each voluntary prepayment shall be accompanied by the Applicable Prepayment Premium; provided that the Applicable Prepayment Premium shall not apply to any portion of any such voluntary prepayment made with Specified Funds.

(b) Mandatory Prepayments (Prepayment Events). In the event and on each occasion that any Net Proceeds are received by the Borrower or any of its Subsidiaries in respect of any Prepayment Event, the Borrower shall, on the same day that such Net Proceeds are received in the case of a Prepayment Event described in clause (c) of the definition thereof and within three (3) Business Days after such Net Proceeds are received in the case of all other Prepayment Events, prepay the Term Loans in an aggregate amount equal to 100% of such Net Proceeds; provided that, (i) in the case of any Disposition or other Prepayment Event described in clause (a) or (b) of the definition of the term "Prepayment Event" (each, a "Specified Disposition"), no such prepayment shall be required unless the consideration received by the Borrower and its Subsidiaries in respect of such Disposition, together with all other Specified Dispositions consummated since the Effective Date, exceeds $25,000,000. Each prepayment pursuant to this Section 2.08(b) shall be applied ratably to the Term Loans. Each prepayment pursuant to this Section 2.08(b) shall be accompanied by, in the case of a prepayment resulting from an event of the type described in clauses (a) and (c) of the definition of "Prepayment Event", the Applicable Prepayment Premium. Each prepayment of Term Loans made pursuant to this Section 2.08(b) shall be applied against the remaining scheduled installments of principal due in respect of such Term Loans in inverse order of maturity.

(c) Mandatory Prepayments (Illegality). If, in any applicable jurisdiction, it becomes unlawful under any Law (or any Governmental Authority has asserted that it is unlawful) for any Lender to perform any of its obligations as contemplated by this Agreement or to fund or maintain any Term Loan:

(i) such Lender shall promptly notify the Administrative Agent upon becoming aware of that event (and the Administrative Agent shall promptly notify the Borrower in writing); and

(ii) upon the Administrative Agent notifying the Borrower, (i) the Commitments of such Lender will be immediately terminated; and (ii) the Borrower shall prepay all Loans of such Lender either on the last day of the Interest Period thereof, if such Lender may lawfully continue to maintain such Loan, or immediately, if such Lender may not lawfully continue to maintain such Loan.

(d) Mandatory Prepayments (Specified Contributions). In the event and on each occasion that the Borrower receives any Specified Contribution, the Borrower shall, no later than the Business Day after such Specified Contribution is received by the Borrower, prepay the Term Loans in an aggregate amount equal to 100% of such Specified Contribution. For the avoidance of doubt, the Applicable Prepayment Premium shall not apply to any mandatory prepayments made under this Section 2.08(d). Each prepayment pursuant to this Section 2.08(d) shall be applied ratably to the Term Loans. Each prepayment of Term Loans made pursuant to this Section 2.08(d) shall be applied against the remaining scheduled installments of principal due in respect of such Term Loans in inverse order of maturity.

(e) Mandatory Prepayments (Failure of XTO Acquisition to Occur). In the event that the XTO Acquisition is not consummated on or prior to the date that is four (4) Business Days after the Initial Funding Date, the Borrower shall, on the date is that five (5) Business Days after the Initial Funding Date

(the "XTO Acquisition Termination Date"), prepay all then-outstanding Term Loans and any other Obligations owing hereunder shall be Paid in Full by the Borrower.

(f) Notice of Prepayment. The Borrower shall notify the Administrative Agent in writing of any prepayment under Section 2.08 (other than under Section 2.08(e)) not later than 1:00 p.m. New York City time, fifteen (15) Business Days (or, in respect of a prepayment as a result of an event described in clause (c) of the definition of "Prepayment Event", one (1) Business Day) prior to the date of prepayment (including, with respect to any prepayment under Section 2.08(c), reasonably detailed calculations of the Asset Coverage Ratio, the Fixed Charge Coverage Ratio or the Total Leverage Ratio, as applicable, as of such date after giving effect to such prepayment). Each such notice shall specify the prepayment date, the principal amount of each Borrowing or portion thereof to be prepaid and a reasonably detailed calculation of the amount of such prepayment.

(g) Interest; Breakfunding. All prepayments, whether voluntary or mandatory, pursuant to this Section 2.08 shall be accompanied by accrued interest to the extent required by Section 2.10(d) and any break funding payments required by Section 2.18.

SECTION 2.09. Fees.

(a) Agency Fees. The Borrower agrees to pay to the Administrative Agent, for its own account, fees payable in the amounts and at the times separately agreed upon between the Borrower and the Administrative Agent, including pursuant to the Agency Fee Letter.

(b) Lender Fees. The Borrower agrees to pay to the Administrative Agent for the account of each Lender fees payable pursuant to the Fee Letter.

SECTION 2.10. Interest.

(a) The Term Loans shall bear interest at a rate per annum equal to the Adjusted Term SOFR Rate for the Interest Period in effect for such Borrowing plus the Applicable Rate, but in no event to exceed the Maximum Rate.

(b) Reserved.

(c) Notwithstanding the foregoing, during the occurrence and continuance of any Event of Default, all Term Loans and other amounts outstanding hereunder shall bear interest, after as well as before judgment, at a rate per annum equal to (i) in the case of principal of any Term Loan outstanding hereunder, 2.0% plus the rate otherwise applicable to such Term Loan as provided in the preceding paragraphs of this Section or (ii) in the case of any other amount, 2.0% plus the rate applicable to Term Benchmark Loans as provided in Section 2.10(a), but in no event to exceed the Maximum Rate.

(d) Accrued interest on each Term Loan shall be payable in arrears on each Interest Payment Date for such Term Loan and on the Maturity Date; provided that (i) interest accrued pursuant to paragraph (c) of this Section shall be payable on demand and (ii) in the event of any repayment or prepayment of any Term Loan, accrued interest on the principal amount repaid or prepaid shall be payable on the date of such repayment or prepayment

(e) All interest hereunder shall be computed on the basis of a year of 360 days, except that interest computed by reference to the Alternate Base Rate at times when the Alternate Base Rate is based on the Prime Rate shall be computed on the basis of a year of 365 days (or 366 days in a leap year), and in each case shall be payable for the actual number of days elapsed (including the first day but excluding the last day). The applicable Alternate Base Rate, Adjusted Term SOFR Rate, Adjusted Daily Simple RFR or Daily Simple SOFR shall be determined by the Administrative Agent, and such determination shall be conclusive absent manifest error.

SECTION 2.11. Alternate Rate of Interest.

(a) Subject to clauses (b), (c), (d), (e) and (f) of this Section 2.11, if:

(i) the Administrative Agent determines (which determination shall be conclusive and binding absent manifest error) (A) prior to the commencement of any Interest Period for a Term Benchmark Borrowing that adequate and reasonable means do not exist for ascertaining the Adjusted Term SOFR Rate or the Term SOFR Rate (including, without limitation, because the Term SOFR Reference Rate is not available or published on a current basis), for such Interest Period or (B) at any time, that adequate and reasonable means do not exist for ascertaining the applicable Adjusted Daily Simple RFR or Daily Simple SOFR for an RFR Term Loan;

(ii) the Administrative Agent is advised by the Required Lenders that (A) prior to the commencement of any Interest Period for a Term Benchmark Borrowing that the Adjusted Term SOFR Rate for the applicable Interest Period will not adequately and fairly reflect the cost to such Lenders of making or maintaining their Loans included in such Borrowing for such Interest Period, or (B) at any time, the applicable Adjusted Daily Simple RFR for an RFR Term Loan will not adequately and fairly reflect the cost to such Lenders of making or maintaining their Term Loans included in such Borrowing;

then the Administrative Agent shall give notice thereof to the Borrower and the Lenders through any Electronic System as provided in Section 9.01 as promptly as practicable thereafter and, until the Administrative Agent notifies the Borrower and the Lenders that the circumstances giving rise to such notice no longer exist with respect to the relevant Benchmark, (1) any Term Benchmark Loan shall on the last day of the Interest Period applicable to such Loan (or the next succeeding Business Day if such day is not a Business Day), be converted by the Administrative Agent to, and shall constitute, (x) an RFR Borrowing so long as the Adjusted Daily Simple RFR is not also the subject of Section 2.11(a)(i) or (ii) above or (y) an ABR Loan if the Adjusted Daily Simple RFR also is the subject of Section 2.11(a)(i) or (ii) above, on such day, and (2) any RFR Term Loan shall on and from such day be

converted by the Administrative Agent to, and shall constitute an ABR Term Loan.

(b) Notwithstanding anything to the contrary herein or in any other Loan Document, if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any setting of the then-current Benchmark, then (x) if a Benchmark Replacement is determined in accordance with clause (1) of the definition of "Benchmark Replacement" for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Loan Document in respect of such Benchmark setting and subsequent Benchmark settings without any amendment to, or further action or consent of any other party to, this Agreement or any other Loan Document and (y) if a Benchmark Replacement is determined in accordance with clause (2) of the definition of "Benchmark Replacement" for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Loan Document in respect of any Benchmark setting at or after 5:00 p.m. (New York City time) on the fifth (5th) Business Day after the date notice of such Benchmark Replacement is provided to the Lenders without any amendment to, or further action or consent of any other party to, this Agreement or any other Loan Document so long as the Administrative Agent has not received, by such time, written notice of objection to such Benchmark Replacement from Lenders comprising the Required Lenders.

(c) Notwithstanding anything to the contrary herein or in any other Loan Document, in connection with the implementation of any Benchmark Replacement, the Administrative Agent (in consultation with the Borrower) will have the right to make Benchmark Replacement Conforming Changes from time to time and, notwithstanding anything to the contrary herein or in any other Loan Document, any amendments implementing such Benchmark Replacement Conforming Changes will become effective without any further action by or consent of any other party to this Agreement or any other Loan Document.

(d) The Administrative Agent will promptly notify the Borrower and the Lenders of (i) any occurrence of a Benchmark Transition Event, (ii) the implementation of any Benchmark Replacement, (iii) the effectiveness of any Benchmark Replacement Conforming Changes, (iv) the removal or reinstatement of any tenor of a Benchmark pursuant to clause (e) below and (v) the commencement or conclusion of any Benchmark Unavailability Period. Any determination, decision or election that may be made by the Administrative Agent or, if applicable, any Lender (or group of Lenders) pursuant to this Section 2.11, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error and may be made in its or their sole discretion and without consent from any other party to this Agreement or any other Loan Document, except, in each case, as expressly required pursuant to this Section 1 or in any related definitions.

(e) Notwithstanding anything to the contrary herein or in any other Loan Document, at any time (including in connection with the implementation of a Benchmark Replacement), (i) if the then-current Benchmark is a term rate (including the Term SOFR Rate) and either (A) any tenor for such Benchmark is not displayed on a screen or other information service that publishes such rate from time to time as selected by the Administrative Agent in its reasonable discretion or (B) the regulatory supervisor for the administrator of such Benchmark has provided a public statement or publication of information announcing that any tenor for such Benchmark is or will be no longer representative, then the Administrative Agent may modify the definition of "Interest Period" for any Benchmark settings at or after such time to remove such unavailable or non-representative tenor and (ii) if a tenor that was removed pursuant to clause (i) above either (A) is subsequently displayed on a screen or information service for a Benchmark (including a Benchmark Replacement) or (B) is not, or is no longer, subject to an announcement that it is or will no longer be representative for a Benchmark (including a Benchmark Replacement), then the Administrative Agent may modify the definition of "Interest Period" for all Benchmark settings at or after such time to reinstate such previously removed tenor.

(f) Upon the Borrower's receipt of notice of the commencement of a Benchmark Unavailability Period, the Borrower may revoke any request for a Term Benchmark Borrowing or RFR Borrowing and any conversion to or continuation of Term Benchmark Loans to be made, converted or continued during any Benchmark Unavailability Period and, failing that, the Borrower will be deemed to have converted any such request into a request for a Borrowing of or conversion to (i) with respect to any Term Benchmark Borrowing, an RFR Borrowing so long as the Adjusted Daily Simple RFR is not the subject of a Benchmark Transition Event or (ii) an ABR Borrowing if the Adjusted Daily Simple RFR is the subject of a Benchmark Transition Event. During any Benchmark Unavailability Period or at any time that a tenor for the then-current Benchmark is not an Available Tenor, the component of ABR based upon the then-current Benchmark or such tenor for such Benchmark, as applicable, will not be used in any determination of ABR. Furthermore, if any Term Benchmark Loan or RFR Term Loan is outstanding on the date of the Borrower's receipt of notice of the commencement of a Benchmark Unavailability Period with respect to a Relevant Rate applicable to such Term Benchmark Loan or RFR Term Loan, then until such time as a Benchmark Replacement is implemented pursuant to this Section 2.11, (1) any Term Benchmark Loan shall on the last day of the Interest Period applicable to such Loan (or the next succeeding Business Day if such day is not a Business Day), be converted by the Administrative Agent to, and shall constitute, (x) an RFR Borrowing so long as the Adjusted Daily Simple RFR is not the subject of a Benchmark Transition Event or (y) an ABR Loan if the Adjusted Daily Simple RFR is the subject of a Benchmark Transition Event, on such day and (2) any RFR Term Loan shall on and from such day be converted by the Administrative Agent to, and shall constitute an ABR Term Loan.

SECTION 2.12. Increased Costs.

(a) If any Change in Law shall:

(i) impose, modify or deem applicable any reserve, special deposit, liquidity or similar requirement (including any compulsory loan requirement, insurance charge or other assessment) against assets of, deposits with or for the account of, or credit extended by, any Lender;

(ii) impose on any Lender or the relevant interbank market any other condition, cost or expense (in each case, other than Taxes) affecting this Agreement or Term Loans made by such Lender; or

(iii) subject any Recipient to any Taxes (other than (A) Indemnified Taxes, (B) Taxes described in clauses (b) through (c) of the definition of Excluded Taxes and (C) Connection Income Taxes) on its loans, loan principal, letters of credit, commitments, or other obligations, or its deposits,

reserves, other liabilities or capital attributable thereto;

and the result of any of the foregoing shall be to increase the cost to such Lender or such other Recipient of making, continuing, converting into or maintaining any Term Loan or of maintaining its obligation to make any such Term Loan or to reduce the amount of any sum received or receivable by such Lender or such other Recipient hereunder, whether of principal, interest or otherwise, then the Borrower will pay to such Lender or such other Recipient, as the case may be, such additional amount or amounts as will compensate such Lender or such other Recipient, as the case may be, for such additional costs incurred or reduction suffered.

(b) If any Lender determines that any Change in Law regarding capital or liquidity requirements has or would have the effect of reducing the rate of return on such Lender's capital or on the capital of such Lender's holding company, if any, as a consequence of this Agreement or the Term Loans made by such Lender to a level below that which such Lender or such Lender's holding company could have achieved but for such Change in Law (taking into consideration such Lender's policies and the policies of such Lender's holding company with respect to capital adequacy and liquidity), then from time to time the Borrower will pay to such Lender, such additional amount or amounts as will compensate such Lender or such Lender's holding company for any such reduction suffered.

(c) A certificate of a Lender setting forth the amount or amounts necessary to compensate such Lender or its holding company, as the case may be, as specified in paragraph (a) or (b) of this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within ten (10) days after receipt thereof.

(d) Failure or delay on the part of any Lender to demand compensation pursuant to this Section shall not constitute a waiver of such Lender's right to demand such compensation; provided that the Borrower shall not be required to compensate a Lender pursuant to this Section for any increased costs or reductions incurred more than 180 days prior to the date that such Lender notifies the Borrower of the Change in Law giving rise to such increased costs or reductions and of such Lender's intention to claim compensation therefor; provided further that, if the Change in Law giving rise to such increased costs or reductions is retroactive, then the 180-day period referred to above shall be extended to include the period of retroactive effect thereof.

SECTION 2.13. Reserved.

SECTION 2.14. Taxes.

(a) Payments Free of Taxes. Any and all payments by or on account of any obligation of any Loan Party under any Loan Document shall be made without deduction or withholding for any Taxes, except as required by applicable law. If any applicable law (as determined in the good faith discretion of an applicable Withholding Agent) requires the deduction or withholding of any Tax from any such payment by a Withholding Agent, then the applicable Withholding Agent shall be entitled to make such deduction or withholding and shall timely pay the full amount deducted or withheld to the relevant Governmental Authority in accordance with applicable law and, if such Tax is an Indemnified Tax, then the sum payable by the applicable Loan Party shall be increased as necessary so that after such deduction or withholding has been made (including such deductions and withholdings of Indemnified Taxes applicable to additional sums payable under this Section 2.14) the applicable Recipient receives an amount equal to the sum it would have received had no such deduction or withholding been made.

(b) Payment of Other Taxes by the Borrower. The Borrower shall timely pay to the relevant Governmental Authority in accordance with applicable law, or at the option of the Administrative Agent timely reimburse it for, Other Taxes.

(c) Evidence of Payments. As soon as practicable after any payment of Taxes by any Loan Party to a Governmental Authority pursuant to this Section 2.14, such Loan Party shall deliver to the Administrative Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to the Administrative Agent. On or prior to the last Business Day in February of each calendar year, Borrower shall deliver to the Administrative Agent (for distribution to Lenders) a duly completed IRS Form 1042-S (Copies B, C and D marked for recipient) or any amended or successor version of such form, together with a copy of IRS Form 1042-S (Copy A marked for United States Internal Revenue Service) or any amended or successor version of such form, as filed with the United States Internal Revenue Service by Borrower, stamped as received by the United States Internal Revenue Service or certified as a true copy by an officer of Borrower, and such other supporting documentation evidencing the withholding Tax paid by any Loan Party for the immediately preceding calendar year that Administrative Agent and Lenders may reasonably require to claim a tax credit (including any further certification by an officer of Borrower). Each such IRS Form 1042-S (or any amended or successor version of such form) and other supporting documentation, as applicable, shall specify at least the following information: (A) the name of the taxpayer, (B) the particulars of the income for such immediately preceding calendar year, and (C) the amount of the withholding Tax paid for such immediately preceding calendar year.

(d) Indemnification by the Loan Parties. The Loan Parties shall jointly and severally indemnify each Recipient, within ten (10) days after demand therefor, for the full amount of any Indemnified Taxes (including Indemnified Taxes imposed or asserted on or attributable to amounts payable under this Section) payable or paid by such Recipient or required to be withheld or deducted from a payment to such Recipient and any reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to the Borrower by a Lender (with a copy to the Administrative Agent), or by the Administrative Agent on its own behalf or on behalf of a Lender, shall be conclusive absent manifest error.

(e) Indemnification by the Lenders. Each Lender shall severally indemnify the Administrative Agent, within ten (10) days after demand therefor, for (i) any Indemnified Taxes attributable to such Lender (but only to the extent that any Loan Party has not already indemnified the Administrative Agent for such Indemnified Taxes and without limiting the obligation of the Loan Parties to do so), (ii) any Taxes attributable to such Lender's failure to comply with the provisions of Section 9.04(c) relating to the maintenance of a Participant Register and (iii) any Excluded Taxes attributable to such Lender, in each case, that are payable or paid by the Administrative Agent in connection with any Loan Document, and any reasonable expenses arising therefrom or with respect thereto, whether or not such Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to any Lender by the Administrative Agent shall be conclusive absent manifest error. Each Lender hereby authorizes the Administrative Agent to set off and apply any and all amounts at any time owing to such Lender under any Loan Document or otherwise payable by the

Administrative Agent to the Lender from any other source against any amount due to the Administrative Agent under this paragraph (e).

(f) Status of Lenders. Any Lender that is entitled to an exemption from or reduction of withholding Tax with respect to payments made under any Loan Document shall deliver to the Borrower and the Administrative Agent, at the time or times reasonably requested by the Borrower or the Administrative Agent, such properly completed and executed documentation reasonably requested by the Borrower or the Administrative Agent as will permit such payments to be made without withholding or at a reduced rate of withholding. In addition, any Lender, if reasonably requested by the Borrower or the Administrative Agent, shall deliver such other documentation prescribed by applicable law or reasonably requested by the Borrower or the Administrative Agent as will enable the Borrower or the Administrative Agent to determine whether or not such Lender is subject to backup withholding or information reporting requirements. Notwithstanding anything to the contrary in the preceding two sentences, the completion, execution and submission of such documentation (other than such documentation set forth in Section 2.14(f)(i)(A), 2.14(f)(i)(B) and 2.14(f)(i)(D) below) shall not be required if in the Lender's reasonable judgment such completion, execution or submission would subject such Lender to any material unreimbursed cost or expense or would materially prejudice the legal or commercial position of such Lender.

(ii) Without limiting the generality of the foregoing:

(A) any Lender that is a U.S. Person shall deliver to the Borrower and the Administrative Agent on or prior to the date on which such Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower or the Administrative Agent), executed originals of IRS Form W-9 certifying that such Lender is exempt from U.S. Federal backup withholding tax;

(B) any Foreign Lender shall, to the extent it is legally entitled to do so, deliver to the Borrower and the Administrative Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Foreign Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower or the Administrative Agent), whichever of the following is applicable:

(1) in the case of a Foreign Lender claiming the benefits of an income tax treaty to which the United States is a party (x) with respect to payments of interest under any Loan Document, executed originals of IRS Form W-8BEN or IRS Form W-8BEN-E establishing an exemption from, or reduction of, U.S. Federal withholding Tax pursuant to the "interest" article of such tax treaty and (y) with respect to any other applicable payments under any Loan Document, IRS Form W-8BEN or IRS Form W-8BEN-E establishing an exemption from, or reduction of, U.S. Federal withholding Tax pursuant to the "business profits" or "other income" article of such tax treaty;

(2) in the case of a Foreign Lender claiming that its extension of credit will generate U.S. effectively connected income, executed originals of IRS Form W-8ECI;

(3) in the case of a Foreign Lender claiming the benefits of the exemption for portfolio interest under Section 881(c) of the Code, (x) a certificate substantially in the form of Exhibit C-1 to the effect that such Foreign Lender is not a "bank" within the meaning of Section 881(c)(3)(A) of the Code, a "10 percent shareholder" of the Borrower within the meaning of Section 881(c)(3)(B) of the Code, or a "controlled foreign corporation" described in Section 881(c)(3)(C) of the Code (a "U.S. Tax Compliance Certificate") and (y) executed originals of IRS Form W-8BEN or IRS Form W-8BEN-E; or

(4) to the extent a Foreign Lender is not the beneficial owner, executed originals of IRS Form W-8IMY, accompanied by IRS Form W-8ECI, IRS Form W-8BEN or IRS Form W-8BEN-E, a U.S. Tax Compliance Certificate substantially in the form of Exhibit C-2 or Exhibit C-3, IRS Form W-9, and/or other certification documents from each beneficial owner, as applicable; provided that if the Foreign Lender is a partnership and one or more direct or indirect partners of such Foreign Lender are claiming the portfolio interest exemption, such Foreign Lender may provide a U.S. Tax Compliance Certificate substantially in the form of Exhibit C-4 on behalf of each such direct and indirect partner;

(C) any Foreign Lender shall, to the extent it is legally entitled to do so, deliver to the Borrower and the Administrative Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Foreign Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower or the Administrative Agent), executed originals of any other form prescribed by applicable law as a basis for claiming exemption from or a reduction in U.S. Federal withholding Tax, duly completed, together with such supplementary documentation as may be prescribed by applicable law to permit the Borrower or the Administrative Agent to determine the withholding or deduction required to be made; and

(D) if a payment made to a Lender under any Loan Document would be subject to U.S. Federal withholding Tax imposed by FATCA if such Lender were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such Lender shall deliver to the Borrower and the Administrative Agent at the time or times prescribed by law and at such time or times reasonably requested by the Borrower or the Administrative Agent such documentation prescribed by applicable law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by the Borrower or the Administrative Agent as may be necessary for the Borrower and the Administrative Agent to comply with their obligations under FATCA and to determine that such Lender has complied with such Lender's obligations under FATCA or to determine the amount to deduct and withhold from such payment. Solely for purposes of this clause (D), "FATCA" shall include any amendments made to FATCA after the date of this Agreement.

Each Lender agrees that if any form or certification it previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such form or certification or promptly notify the Borrower and the Administrative Agent in writing of its legal inability to do so.

(g) Treatment of Certain Refunds. If any party determines, in its sole discretion exercised in good faith, that it has received a refund of any Taxes as to which it has been indemnified pursuant to this Section 2.14 (including by the payment of additional amounts pursuant to this Section 2.14), it shall pay to the indemnifying party an amount equal to such refund (but only to the extent of indemnity payments made under this Section 2.14 with respect to the Taxes giving rise to such refund), net of all out-of-pocket expenses (including Taxes) of such indemnified party and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund). Such indemnifying party, upon the request of such indemnified party, shall repay to such indemnified party the amount paid over pursuant to this paragraph (h) (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) in the event that such indemnified party is required to repay such refund to such Governmental Authority. Notwithstanding anything to the contrary in this paragraph (h), in no event will the indemnified party be required to pay any amount to an indemnifying party pursuant to this paragraph (h) the payment of which would place the indemnified party in a less favorable net after-Tax position than the indemnified party would have been in if the Tax subject to indemnification and giving rise to such refund had not been deducted, withheld or otherwise imposed and the indemnification payments or additional amounts with respect to such Tax had never been paid. This paragraph shall not be construed to require any indemnified party to make available its Tax returns (or any other information relating to its Taxes that it deems confidential) to the indemnifying party or any other Person.

(h) Survival. Each party's obligations under this Section 2.14 shall survive the resignation or replacement of the Administrative Agent or any assignment of rights by, or the replacement of, a Lender, the termination of the Commitments and the repayment, satisfaction or discharge of all obligations under any Loan Document.

(i) Defined Terms. For purposes of this Section 2.14, the term "applicable law" includes FATCA.

SECTION 2.15. Payments Generally; Allocations of Proceeds; Pro Rata Treatment; Sharing of Set-offs .

(a) The Borrower shall make each payment required to be made by it hereunder (whether of principal, interest or fees, or of amounts payable under Section 2.12 or 2.14, or otherwise) prior to 12:00 noon, New York City time, on the date when due, in immediately available funds, without set-off or counterclaim. Any amounts received after such time on any date may, in the discretion of the Administrative Agent, be deemed to have been received on the next succeeding Business Day for purposes of calculating interest thereon. All such payments shall be made to the Administrative Agent's account most recently designated by it to the Borrower, except that payments pursuant to Sections 2.08(c), 2.12, 2.14 and 9.03 shall be made directly to the Persons entitled thereto. The Administrative Agent shall distribute any such payments received by it for the account of any other Person to the appropriate recipient promptly following receipt thereof. If any payment hereunder shall be due on a day that is not a Business Day, the date for payment shall be extended to the next succeeding Business Day, and, in the case of any payment accruing interest and fees, interest and fees thereon shall be payable for the period of such extension. All payments hereunder shall be made in Dollars.

(b) If at any time insufficient funds are received by and available to the Administrative Agent to pay fully all amounts of principal, interest and fees then due, and expenses then reimbursable, hereunder, such funds shall be applied towards payment of the amounts then so due or reimbursable as follows:

(i) first, to payment or reimbursement of that portion of the Obligations constituting fees, expenses, indemnities and other amounts payable to the Administrative Agent in its capacity as such;

(ii) second, ratably to payment or reimbursement of that portion of the Obligations constituting fees, expenses, indemnities and other amounts (other than principal, interest and premium) payable to the Lenders;

(iii) third, ratably to payment of accrued interest on the Term Loans;

(iv) fourth, ratably to payment of principal on the Term Loans and the Applicable Prepayment Premium;

(v) fifth, ratably to the payment of any other Obligations.

(c) If any Lender shall, by exercising any right of set-off or counterclaim or otherwise, obtain payment in respect of any principal of or interest on any of its Term Loans resulting in such Lender receiving payment of a greater proportion of the aggregate amount of its Term Loans and accrued interest thereon than the proportion received by any other similarly situated Lender, then the Lender receiving such greater proportion shall purchase (for cash at face value) participations in the Term Loans of other Lenders to the extent necessary so that the benefit of all such payments shall be shared by all such Lenders ratably in accordance with the aggregate amount of principal of and accrued interest on their respective Term Loans; provided that (i) if any such participations are purchased and all or any portion of the payment giving rise thereto is recovered, such participations shall be rescinded and the purchase price restored to the extent of such recovery, without interest, and (ii) the provisions of this paragraph shall not be construed to apply to any payment made by the Borrower pursuant to and in accordance with the express terms of this Agreement or any payment obtained by a Lender as consideration for the assignment of or sale of a participation in any of its Term Loans to any assignee or participant, other than to the Borrower or any Subsidiary or Affiliate thereof (as to which the provisions of this paragraph shall apply). The Borrower consents to the foregoing and agrees, to the extent it may effectively do so under applicable law, that any Lender acquiring a participation pursuant to the foregoing arrangements may exercise against the Borrower rights of set-off and counterclaim with respect to such participation as fully as if such Lender were a direct creditor of the Borrower in the amount of such participation.

(d) Unless the Administrative Agent shall have received written notice from the Borrower prior to the date on which any payment is due to the Administrative Agent for the account of the relevant Lenders hereunder that the Borrower will not make such payment, the Administrative Agent may

assume that the Borrower has made such payment on such date in accordance herewith and may (but will not be obligated to), in reliance upon such assumption, distribute to the relevant Lenders the amount due. In such event, if the Borrower has not in fact made such payment, then each of the relevant Lenders severally agrees to repay to the Administrative Agent forthwith on demand the amount so distributed to such Lender with interest thereon, for each day from and including the date such amount is distributed to it to but excluding the date of payment to the Administrative Agent, at the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation.

(e) If any Lender shall fail to make any payment required to be made by it pursuant to Section 2.04(b), 2.15(d) or 9.03(c), then the Administrative Agent may, in its discretion (notwithstanding any contrary provision hereof), (i) apply any amounts thereafter received by the Administrative Agent for the account of such Lender and for the benefit of the Administrative Agent to satisfy such Lender's obligations to it under such Section until all such unsatisfied obligations are fully paid and/or (ii) hold any such amounts in a segregated account over which the Administrative Agent shall have exclusive control as cash collateral for, and application to, any future funding obligations of such Lender under any such Section; in the case of each of clauses (i) and (ii) above, in any order as determined by the Administrative Agent in its discretion.

SECTION 2.16. Mitigation Obligations; Replacement of Lenders .

(a) If any Lender requests compensation under Section 2.12, or the Borrower is required to pay any Indemnified Taxes or additional amounts to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.14, then such Lender shall (at the request of the Borrower) use reasonable efforts to designate a different lending office for funding or booking its Term Loans hereunder or to assign its rights and obligations hereunder to another of its offices, branches or Affiliates, if, in the judgment of such Lender, such designation or assignment (i) would eliminate or reduce amounts payable pursuant to Section 2.12 or 2.14, as the case may be, in the future and (ii) would not subject such Lender to any unreimbursed cost or expense and would not otherwise be disadvantageous to such Lender. The Borrower hereby agrees to pay all reasonable costs and expenses incurred by any Lender in connection with any such designation or assignment.

(b) If any Lender is a Defaulting Lender or a Non-Consenting Lender, then the Borrower may, at its sole expense and effort, upon notice to such Lender and the Administrative Agent, require such Lender to assign and delegate, without recourse (in accordance with and subject to the restrictions contained in Section 9.04), all of its interests, rights (other than its existing rights to payments pursuant to Sections 2.12 or 2.14) and obligations under the Loan Documents to an assignee that shall assume such obligations (which assignee may be another Lender, if a Lender accepts such assignment); provided that (i) the Borrower shall have received the prior written consent of the Administrative Agent, which consent shall not unreasonably be withheld, (ii) the Borrower shall have paid to the Administrative Agent the assignment fee (if any) specified in Section 9.04(b)(ii)(C), (iii) such Lender shall have received payment of an amount equal to the outstanding principal of its Term Loans, accrued interest thereon, accrued fees and all other amounts payable to it hereunder (including, for the avoidance of doubt, any Prepayment Premium) and under the other Loan Documents, from the assignee (to the extent of such outstanding principal and accrued interest and fees) or the Borrower (in the case of all other amounts), (iv) such assignment does not conflict with applicable law, and (v) in the case of any assignment resulting from a Lender becoming a Non-Consenting Lender, the applicable assignee shall have consented to the applicable amendment, waiver or consent. A Lender shall not be required to make any such assignment and delegation if, prior thereto, as a result of a waiver by such Lender or otherwise, the circumstances entitling the Borrower to require such assignment and delegation cease to apply. Notwithstanding anything in this Section 2.16 to the contrary, the Lender that acts as the Administrative Agent may not be replaced hereunder except in accordance with the terms of Section 8.05.

SECTION 2.17. Defaulting Lenders. Notwithstanding any provision of this Agreement to the contrary, if any Lender becomes a Defaulting Lender, then the following provisions shall apply for so long as such Lender is a Defaulting Lender:

(a) the Credit Exposure of such Defaulting Lender shall not be included in determining whether the Required Lenders have taken or may take any action hereunder (including any consent to any amendment, waiver or other modification pursuant to Section 9.02); provided that, except as otherwise provided in Section 9.02, this clause (a) shall not apply to the vote of a Defaulting Lender in the case of an amendment, waiver or other modification requiring the consent of such Lender or each Lender directly affected thereby; and

(b) any payment of principal, interest, fees or other amounts received by the Administrative Agent for the account of such Defaulting Lender (whether voluntary or mandatory, at maturity, pursuant to Article VII or otherwise) or received by the Administrative Agent from a Defaulting Lender pursuant to Section 9.08 shall be applied at such time or times as may be determined by the Administrative Agent as follows: *first*, to the payment of any amounts owing by such Defaulting Lender to the Administrative Agent hereunder; *second*, as the Borrower may request (so long as no Default or Event of Default exists), to the funding of any Term Loan in respect of which such Defaulting Lender has failed to fund its portion thereof as required by this Agreement, as determined by the Administrative Agent; *third*, if so determined by the Administrative Agent and the Borrower, to be held in a deposit account and released pro rata in order to satisfy such Defaulting Lender's potential future funding obligations with respect to Term Loans under this Agreement; *fourth*, to the payment of any amounts owing to the Lenders as a result of any judgment of a court of competent jurisdiction obtained by any Lender against such Defaulting Lender as a result of such Defaulting Lender's breach of its obligations under this Agreement; *fifth*, so long as no Default or Event of Default exists, to the payment of any amounts owing to the Borrower as a result of any judgment of a court of competent jurisdiction obtained by the Borrower against such Defaulting Lender as a result of such Defaulting Lender's breach of its obligations under this Agreement; and *sixth*, to such Defaulting Lender or as otherwise directed by a court of competent jurisdiction; provided that if (x) such payment is a payment of the principal amount of any Term Loans in respect of which such Defaulting Lender has not fully funded its appropriate share, and (y) such Term Loans were made at a time when the conditions set forth in Section 4.03 or Section 4.04 were satisfied or waived, such payment shall be applied solely to pay the Term Loans of all Non-Defaulting Lenders on a pro rata basis prior to being applied to the payment of any Term Loans of such Defaulting Lender until such time as all Term Loans are held by the Lenders pro rata in accordance with the Commitments. Any payments, prepayments or other amounts paid or payable to a Defaulting Lender that are applied (or held) to pay amounts owed by a Defaulting Lender pursuant to this Section shall be deemed paid to and redirected by such Defaulting Lender, and each Lender irrevocably consents hereto.

If the Borrower and the Administrative Agent agree in writing that a Lender is no longer a Defaulting Lender, the Administrative Agent will so notify the parties

hereto, whereupon as of the effective date specified in such notice and subject to any conditions set forth therein, that Lender will, to the extent applicable, purchase at par that portion of outstanding Term Loans of the other Lenders or take such other actions as the Administrative Agent may determine to be necessary to cause the Term Loans to be held pro rata by the Lenders in accordance with the Commitments, whereupon, such Lender will cease to be a Defaulting Lender; provided that no adjustments will be made retroactively with respect to fees accrued or payments made by or on behalf of the Borrower while that Lender was a Defaulting Lender; and provided, further, that except to the extent otherwise expressly agreed by the affected parties, no change hereunder from Defaulting Lender to Lender will constitute a waiver or release of any claim of any party hereunder arising from that Lender's having been a Defaulting Lender.

SECTION 2.18. Break Funding Payments. In the event of (a) the payment of any principal of any Term Benchmark Loan other than on the last day of an Interest Period applicable thereto (including as a result of an Event of Default or an optional or mandatory prepayment of Term Loans), (b) the conversion of any Term Benchmark Loan other than on the last day of the Interest Period applicable thereto, (c) the failure to borrow, convert, continue or prepay any Term Benchmark Loan on the date specified in any notice delivered pursuant hereto (regardless of whether such notice may be revoked under Section 2.08 and is revoked in accordance therewith), or (d) the assignment of any Term Benchmark Loan other than on the last day of the Interest Period applicable thereto as a result of a request by the Borrower pursuant to Section 2.16 then, in any such event, the Borrower shall compensate each Lender for the loss, cost and expense attributable to such event. A certificate of any Lender setting forth any amount or amounts that such Lender is entitled to receive pursuant to this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within 10 days after receipt thereof.

ARTICLE III

Representations and Warranties

The Borrower represents and warrants to the Lenders that:

SECTION 3.01. Organization; Powers; Subsidiaries. The Borrower and its Subsidiaries are duly organized, validly existing and in good standing under the laws of the jurisdiction of their organization, have all requisite power and authority to carry on their business as now conducted and, except where the failure to do so, individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect, is qualified to do business in, and is in good standing in, every jurisdiction where such qualification is required. As of the Effective Date, Schedule 3.01 hereto identifies the Borrower and each Subsidiary of the Borrower, the jurisdiction of its incorporation or organization, as the case may be, the percentage of issued and outstanding shares of each class of its capital stock or other equity interests owned by the equity holders of the Borrower, the Borrower and the other Subsidiaries of the Borrower and, if such percentage is not 100% (excluding directors' qualifying shares as required by law), a description of each class issued and outstanding. All of the outstanding shares of capital stock and other equity interests of the Borrower and each Subsidiary of the Borrower are validly issued and outstanding and fully paid and nonassessable and, as of the Effective Date, all such shares and other equity interests indicated on Schedule 3.01 as owned by the equity holders of the Borrower, the Borrower or another Subsidiary of the Borrower are owned, beneficially and of record, by such equity holders of the Borrower, the Borrower or such Subsidiary free and clear of all Liens. As of the Initial Availability Date, each Subsidiary of the Borrower is a Guarantor.

SECTION 3.02. Authorization; Enforceability. (a) The Transactions are within each Loan Party's organizational powers and (b) the Loan Documents are admissible in evidence in each court with proper jurisdiction over the relevant Loan Parties, and each of the foregoing clauses (a) and (b) have been duly authorized by all necessary organizational actions and, if required, actions by equity holders. The Loan Documents to which each Loan Party is a party have been duly executed and delivered by such Loan Party and constitute a legal, valid and binding obligation of such Loan Party, enforceable in accordance with its terms, subject to applicable bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights generally and subject to general principles of equity, regardless of whether considered in a proceeding in equity or at law.

SECTION 3.03. Governmental Approvals; No Conflicts. The Transactions (a) do not require any consent or approval of, registration or filing with, or any other material action by, any Governmental Authority, except such as have been obtained or made and are in full force and effect (b) will not violate any applicable material Governmental Requirement or the Organizational Documents of the Borrower or any of its Subsidiaries, (c) will not violate or result in a default under any indenture, agreement or other instrument in respect of any Material Indebtedness binding upon the Borrower or any of its Subsidiaries or its assets (other than the Loan Documents), or give rise to a right thereunder to require any payment to be made by the Borrower or any of its Subsidiaries, and (d) will not result in the creation or imposition of any Lien on any asset of the Borrower or any of its Subsidiaries.

SECTION 3.04. Financial Condition; No Material Adverse Change.

(a) All financial statements present fairly, in all material respects, the financial position and results of operations and cash flows of the Borrower and its Consolidated Subsidiaries as of such dates and for such periods in accordance with GAAP.

(b) Since December 31, 2021, there has been no material adverse change in the business, operations, Properties, liabilities or financial condition of the Borrower and its Subsidiaries, taken as a whole.

(c) The Financial Model was prepared in good faith on the basis of the assumptions stated therein, which assumptions were believed by management of the Borrower to be reasonable at the time made and at the time so furnished (it being recognized that the Financial Model is not to be viewed as facts and is subject to significant uncertainties and contingencies many of which are beyond the Borrower's control, that no assurance can be given that any particular financial projections (including the base case financial model) will be realized, that actual results may differ from projected results and that such differences may be material).

SECTION 3.05. Maintenance of Properties. Except for such acts or failures to act as could not reasonably be expected to have a Material Adverse Effect, with respect to the Proved Oil and Gas Properties (and Properties unitized therewith) of the Loan Parties (a) operated by the Borrower or any of its Subsidiaries, such Properties have been maintained, operated and developed in a good and workmanlike manner and in conformity with all Governmental Requirements and in conformity with the provisions of all leases, subleases or other contracts comprising a part of the Hydrocarbon Interests and other contracts and agreements forming a part of such Oil and Gas Properties or (b) operated by any third party, the Borrower and each other Loan Party have used their respective commercially reasonable efforts to cause such Properties to be so maintained, operated and developed. Specifically in connection with the foregoing, except for those as could not be reasonably expected to have a Material Adverse Effect, (i) none of such Oil and Gas Properties of the Loan Parties is subject to having allowable production reduced below the full and regular allowable (including the maximum permissible tolerance) because of any overproduction (whether or not the same was permissible at the time) and (ii) no well comprising a part of such Oil and Gas Properties (or Properties unitized therewith) of the Loan Parties is in violation of applicable Governmental Requirements, and such wells are producing from, and the well bores are wholly within, such Oil and Gas Properties (or in the case of wells located on Properties unitized therewith, such unitized Properties). All pipelines, wells, gas processing plants, platforms and other material improvements, fixtures and equipment owned in whole or in part by the Loan Parties that are necessary to conduct normal operations are being, or in the case of such pipelines, wells, gas processing plants, platforms and other material improvements, fixtures and equipment the maintenance of which is performed by a third-party operator, the Borrower and each other Loan Party is using commercially reasonable efforts to cause such items to be, and to the Borrower's knowledge such items are, maintained in a state adequate to conduct normal operations (other than those the failure of which to maintain in accordance with this Section 3.05, individually or in the aggregate, could not reasonably be expected to have a Material Adverse Effect).

SECTION 3.06. Litigation and Environmental Matters.

(a) There are no investigations by or before any arbitrator or Governmental Authority pending against, actions, suits, proceedings or, to the knowledge of the Borrower, threatened in writing against or affecting the Borrower or any of its Subsidiaries (i) that could reasonably be expected, individually or in the aggregate, to result in a Material Adverse Effect, (ii) that challenge the validity of any of the Loan Documents or (iii) that could affect a material portion of the Properties of Borrower or any of its Subsidiaries when taken as a whole.

(b) Except for such matters as set forth on Schedule 3.06 or that, individually or in the aggregate, could not reasonably be expected to have a Material Adverse Effect:

(i) the Properties of the Borrower and its Subsidiaries are in compliance with all applicable Environmental Laws, the Borrower and its Subsidiaries have operated their respective Properties in compliance with all applicable Environmental Laws, and to the knowledge of the Borrower, such Properties were operated in compliance with applicable Environmental Laws prior to the acquisition thereof by the Borrower or the applicable Subsidiary;

(ii) the Borrower and its Subsidiaries have obtained all Environmental Permits required for their respective operations and each of their Properties, with all such Environmental Permits being currently in full force and effect, and none of Borrower or any other Subsidiary has received any written notice or otherwise has knowledge that any such existing Environmental Permit will be revoked or that any application for any new Environmental Permit or renewal of any existing Environmental Permit will be protested or denied;

(iii) there are no claims, written demands, suits, orders, investigations, requests for information by a Governmental Authority or proceedings concerning any violation of, or any liability (including as a potentially responsible party) under, any applicable Environmental Law that is pending or, to the knowledge of the Borrower, threatened against the Borrower or any of its Subsidiaries arising from the ownership or operation of their respective Properties, and to the knowledge of the Borrower, there are no conditions or circumstances that are reasonably expected to result in the receipt of such claims, written demands, suits, orders, investigations, requests for information or proceedings;

(iv) to the knowledge of the Borrower, none of the Properties of the Borrower or any Subsidiary contain any: (i) regulated underground storage tanks; (ii) friable asbestos-containing materials; (iii) landfills or dumps; (iv) hazardous waste management units as defined pursuant to the Resource Conservation and Recovery Act of 1976 or any comparable state law; or (v) sites on or nominated for the National Priority List promulgated pursuant to CERCLA or any state remedial priority list promulgated or published pursuant to any comparable state law;

(v) since the acquisition by the Borrower or any Subsidiary of any Property, or to the knowledge of the Borrower prior to such acquisition, there has been no Release or threatened Release at any of the Properties of the Borrower and its Subsidiaries that would reasonably be expected to result in liability to, or require Remedial Work by, the Borrower or any of its Subsidiaries at any such Properties pursuant to applicable Environmental Law; and there is no on-going Remedial Work at any of such Properties;

(vi) neither the Borrower nor any of its Subsidiaries has received any written notice asserting the alleged liability or obligation of the Borrower or any of its Subsidiaries under any applicable Environmental Laws with respect to the presence of Hazardous Materials at, under or Released or threatened to be Released from any Properties offsite the Properties of the Borrower and its Subsidiaries; and

(vii) to the knowledge of the Borrower, there has been no exposure of any Person or Property to any Hazardous Materials as a result of the operations of any of the Properties of the Borrower and its Subsidiaries that would reasonably be expected to result in damages or compensation against the Borrower or any of its Subsidiaries.

(c) Except as individually or in the aggregate would not reasonably be expected to have a Material Adverse Effect, there are no strikes, lockouts or slowdowns against the Borrower or any of its Subsidiaries pending or, to their knowledge, threatened in writing. Except as individually or in the aggregate would not reasonably be expected to have a Material Adverse Effect, the hours worked by and payments made to employees of the Borrower and its Subsidiaries have not been in violation of the Fair Labor Standards Act or any other applicable Federal, state, local or foreign law relating to such matters.

Except as individually or in the aggregate would not reasonably be expected to have a Material Adverse Effect, all payments due from the Borrower or any of its Subsidiaries, or for which any claim may be made against the Borrower or any of its Subsidiaries, on account of wages and employee health and welfare insurance and other benefits, have been paid or accrued as liabilities on the books of the Borrower or such Subsidiary. The consummation of the Transactions will not give rise to any right of termination or right of renegotiation on the part of any union under any collective bargaining agreement under which the Borrower or any of its Subsidiaries is bound except as individually or in the aggregate would not reasonably be expected to have a Material Adverse Effect.

SECTION 3.07. Compliance with Laws and Agreements. Each of the Borrower and its Subsidiaries is in compliance with all Governmental Requirements applicable to it or its Property and all indentures, agreements and other instruments binding upon it or its Property, and possesses all licenses, permits, franchises, exemptions, approvals and other governmental authorizations necessary for the ownership of its Property and the conduct of its business, except in each case where the failure to do so, individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect.

SECTION 3.08. Investment Company Status. Neither the Borrower nor any of its Subsidiaries is an "investment company" as defined in, or subject to regulation under, the Investment Company Act of 1940.

SECTION 3.09. Taxes.

(a) Each of the Borrower and its Subsidiaries has timely filed or caused to be filed all material Tax returns and reports required to have been filed and has paid or caused to be paid all material Taxes required to have been paid by it except Taxes that are being contested in good faith by appropriate proceedings and for which the Borrower or such Subsidiary, as applicable, has set aside on its books adequate reserves in accordance with GAAP (to the extent required by GAAP).

(b) Under the laws of the country of Thailand, it is not necessary that any of the Loan Documents be filed, recorded or enrolled with any court or other authority in that jurisdiction or that any stamp, registration or similar tax be paid on or in relation the Loan Documents other than a stamp duty of Baht 10,000 payable on an executed copy of this Agreement (and a stamp duty of Baht 5 for each counterparty thereof) which must be paid within fifteen (15) days of execution if executed in Thailand or within 30 days of the original being taken into Thailand if executed outside Thailand.

SECTION 3.10. ERISA. No ERISA Event has occurred or is reasonably expected to occur that, when taken together with all other such ERISA Events, could reasonably be expected to result in a Material Adverse Effect.

SECTION 3.11. Disclosure. None of the reports, financial statements, certificates or other written information (other than information of a general economic or industry specific nature) furnished by or on behalf of the Borrower or any of its Subsidiaries to the Administrative Agent or any Lender in connection with the negotiation of this Agreement or delivered hereunder or under any other Loan Document (as modified or supplemented by other information so furnished), taken as a whole, contains any material misstatement of fact or omits to state any material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not materially misleading; provided that, with respect to projected financial information, geological and geophysical data, engineering projections and other forward looking information, the Borrower represents only that such information was prepared in good faith based upon assumptions believed to be reasonable at the time (it being understood that such projections are as to future events and are not to be viewed as facts and are subject to significant uncertainties and contingencies, many of which are beyond the Borrower's control, and that no assurance can be given that such projections will be realized and actual results during the period or periods covered by any such projections may differ significantly from the projected results and such differences may be material and it being further understood that projections concerning volumes attributable to the Oil and Gas Properties of the Loan Parties and production and cost estimates contained in each Reserve Report are necessarily based upon professional opinions, estimates and projections and that the Loan Parties do not warrant that such opinions, estimates and projections will ultimately prove to have been accurate).

SECTION 3.12. Federal Reserve Regulations. No part of the proceeds of any Term Loan have been used or will be used, whether directly or indirectly, for any purpose that entails a violation of any of the Regulations of the Board, including Regulations T, U and X.

SECTION 3.13. Liens. There are no Liens on any of the Properties of the Borrower or any of its Subsidiaries except for Liens permitted by Section 6.02.

SECTION 3.14. No Default. No Default or Event of Default has occurred and is continuing.

SECTION 3.15. Indebtedness with Banpu. As of the Effective Date and the Initial Funding Date, there does not exist any Indebtedness owing to Banpu or any Affiliate thereof (including Banpu North America, but excluding the Borrower or any Subsidiary thereof) by the Borrower or any other Loan Party, other than (a) the Amended and Restated Shareholder Loans and (b) the loans made under the BKV-Temple Loan Agreement.

SECTION 3.16. Solvency. Immediately after the consummation of the Transactions to occur on the Effective Date and the Initial Availability Date and on the date of any Borrowing hereunder, the Borrower individually and the Borrower and its Subsidiaries, on a consolidated basis, are Solvent.

SECTION 3.17. Insurance. The Borrower maintains, and has caused each of its Subsidiaries to maintain, with financially sound and reputable insurance companies, insurance as required by Section 5.12 on all of their Property in such amounts, subject to such deductibles and self-insurance retentions and covering such Properties and risks as are adequate and customarily maintained by companies engaged in the same or similar businesses operating in the same or similar locations.

SECTION 3.18. Pari Passu Ranking. The obligations of each Loan Party under the Loan Documents to which it is a party rank at least equally with all of the unsecured and unsubordinated Indebtedness of such Loan Party, except liabilities mandatorily (and not consensually) preferred by law, and ahead of all subordinated indebtedness, if any, of such Loan Party.

SECTION 3.19. Anti-Corruption Laws; USA PATRIOT Act; Anti-Terrorism Laws and Sanctions.

(a) The Borrower has implemented and maintains in effect policies and procedures designed to ensure compliance by the Borrower, the

Subsidiaries, BKV-BPP and their respective directors, officers, employees and agents with applicable Anti-Corruption Laws and applicable Sanctions.

(b) The Borrower, the Subsidiaries, BKV-BPP, their respective officers and employees and, to the knowledge of the Borrower, their respective directors and agents are in compliance with Anti-Corruption Laws and applicable Sanctions in all material respects and are not engaged in any activity that would reasonably be expected to result in any of the Borrower, the Subsidiaries or BKV-BPP being designated as a Sanctioned Person.

(c) None of (x) the Borrower, any Subsidiary, BKV-BPP or any of their respective directors, officers or employees, or (y) to the knowledge of the Borrower, any agent of the Borrower that will act in any capacity in connection with or benefit from the credit facility established hereby, is a Sanctioned Person. The Borrower will not directly or indirectly use the proceeds from the Term Loans or lend, contribute or otherwise make available such proceeds to the Borrower, any Subsidiary, BKV-BPP, joint venture partner or other Person, for the purpose of financing the activities of any Person subject to any applicable Sanctions.

SECTION 3.20. Use of Proceeds. The Borrower will use the proceeds of the Term Loans solely to finance the XTO Acquisition (including all costs and expenses in connection therewith). No part of the proceeds of any Term Loan will be used, whether directly or indirectly, (x) for any purpose that entails a violation of any of the Regulations of the Board, including Regulations T, U and X or (y) to repay any Subordinated Shareholder Loan.

SECTION 3.21. Material Contracts. No Loan Party is in breach of any Material Contracts. Each Material Contract is enforceable in accordance with its terms, subject to applicable bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights generally and subject to general principles of equity, regardless of whether considered in a proceeding in equity or at law.

SECTION 3.22. Properties; Title; Etc.

(a) Each of the Loan Parties has defensible title (subject to Immaterial Title Deficiencies) to the Proved Oil and Gas Properties evaluated in the most recently delivered Reserve Report (except for those Properties that have been Disposed of since the date of such Reserve Report in accordance with this Agreement or leases which have expired in accordance with their terms). Each of the Loan Parties has good title to, or valid leasehold interests in, licenses of, or rights to use, all of its material personal Properties (except for those Properties that have been Disposed of from time to time after the Effective Date in accordance with this Agreement and any leases which have expired in accordance with their terms), free and clear of all Liens except for Permitted Liens. After giving full effect to such Permitted Liens, Immaterial Title Deficiencies, any Dispositions of Properties made after the Effective Date in accordance with this Agreement and any leases which have expired in accordance with their terms, the Loan Party specified as the owner owns the net interests in production attributable to the Hydrocarbon Interests as reflected in the most recently delivered Reserve Report (except for those Properties that have been Disposed of since the date of such Reserve Report in accordance with this Agreement or leases which have expired in accordance with their terms), and except as otherwise provided by statute, regulation or the provisions of any applicable joint operating agreement, unitization agreement or other similar agreement, the ownership of such Properties shall not in any material respect obligate such Loan Party to bear the costs and expenses relating to the maintenance, development and operations of each such Property in an amount in excess of the working interest of such Property set forth in the most recently delivered Reserve Report that is not offset by a corresponding proportionate increase in such Loan Party's net revenue interest in such Property.

(b) Except for matters that could not reasonably be expected to have a Material Adverse Effect, (i) all leases and agreements necessary for the conduct of the business of the Loan Parties are valid and subsisting and in full force and effect and (ii) there exists no default or event or circumstance which with the giving of notice or the passage of time or both would give rise to a default under any such lease or leases.

(c) Each Loan Party owns, or is licensed to use, all trademarks, tradenames, copyrights, patents and other intellectual Property used in its business except where any such failure to own or be licensed to use (including the granting of licenses), individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect, and the use thereof by such Loan Party does not infringe upon the rights of any other Person, except for any such infringements that, individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect. The Loan Parties either own or have valid licenses or other rights to use all databases, geological data, geophysical data, engineering data, seismic data, maps, interpretations and other technical information used in their businesses as presently conducted, subject to the limitations contained in the agreements governing the use of the same, which limitations are customary for companies engaged in the business of the exploration and production of Hydrocarbons, with such exceptions as could not reasonably be expected to have a Material Adverse Effect.

(d) All of the Properties of the Borrower and its Subsidiaries which are reasonably necessary for the operation of their businesses are in good working condition (ordinary wear and tear and casualty events excepted) and are maintained in accordance with prudent business standards.

SECTION 3.23. Gas Imbalances; Prepayments. On a net basis there are no gas imbalances, take-or-pay or other prepayments with respect to the Proved Oil and Gas Properties of the Loan Parties which would require any Loan Party to deliver Hydrocarbons either generally or produced from Oil and Gas Properties at some future date with a value of $5,000,000 or more, which, in the case of imbalances would be satisfied no later than forty five (45) days after being incurred.

SECTION3.24. Marketing of Production. Except for contracts listed and in effect on the date hereof on Schedule 3.24, or thereafter either disclosed in writing to the Administrative Agent or included in the most recently delivered Reserve Report (with respect to all of which contracts the Borrower represents that it or another Loan Party is receiving a price for all production sold thereunder which is computed substantially in accordance with the terms of the relevant contract and are not having deliveries curtailed substantially below the Property's delivery capacity), no Loan Party is a party to a material agreement that is not cancelable on sixty (60)days' notice or less without penalty or detriment for the sale of production from the Loan Parties' Hydrocarbons (including calls on or other rights to purchase, production, whether or not the same are currently being exercised) that (a)pertains to the sale of production at a

fixed price (excluding a fixed differential) and (b)has a maturity or expiry date of longer than six (6)months from the date of such disclosure or the date of such Reserve Report, as applicable.

SECTION 3.25. Swap Agreements. Schedule 3.25 sets forth a true and complete list of all Swap Agreements of the Loan Parties in effect as of the Effective Date, the material terms thereof (including the type, effective date, term or termination date and notional amounts or volumes), the estimated net mark to market value thereof, all credit support agreements relating thereto (including any margin required or supplied) and the counterparty to each such agreement, which such counterparty is an Approved Swap Counterparty.

SECTION 3.26. Ad Valorem and Severance Taxes. Except to the extent that the failure to pay or discharge would not reasonably be expected to result in a loss or forfeiture of any material Oil and Gas Property of the Loan Parties, each of the Loan Parties has paid and discharged all ad valorem Taxes that are payable and have been assessed against its Oil and Gas Properties or any part thereof and all production, severance and other Taxes that are payable and have been assessed against, or measured by, the production or the value, or proceeds, of the production therefrom, other than Taxes that are being contested in accordance with the provisions of Section 5.04.

SECTION3.27. Beneficial Ownership Certification. As of the Effective Date, all of the information included in the Beneficial Ownership Certification, if applicable, is true and correct in all respects.

ARTICLE IV

Conditions

SECTION 4.01. Effective Date. This Agreement shall not become effective until the date on which each of the following conditions is satisfied (or waived in accordance with Section 9.02):

(a) Credit Agreement. The Administrative Agent shall have received from each party hereto counterparts (in such number as may be requested by the Administrative Agent) of this Agreement signed on behalf of such party.

(b) Closing Certificates. The Administrative Agent shall have received each of the following in form and substance satisfactory to the Administrative Agent:

(i) Officer's Certificate. A certificate from a Responsible Officer of the Borrower, certifying that the conditions specified in Sections 4.01(c) have been satisfied.

(ii) Secretary's Certificate. A certificate from the secretary of the Borrower (or if the Borrower does not have a secretary, a Responsible Officer) certifying as to the incumbency and genuineness of the signature of each Responsible Officer of the Borrower executing Loan Documents to which it is a party and certifying that attached thereto is a true, correct and complete copy of (A) the articles or certificate of incorporation (or equivalent) of the Borrower and all amendments thereto, certified as of a recent date by the appropriate Governmental Authority (to the extent available) in its jurisdiction of incorporation (or equivalent), (B)the bylaws or other governing document of the Borrower as in effect on the Effective Date (including all amendments thereto and such amendments as reasonably requested by the Administrative Agent), (C)resolutions duly adopted by the board of directors (or other governing body) of the Borrower authorizing and approving the transactions contemplated hereunder and the execution, delivery and performance of this Agreement and the other Loan Documents to which it is or will be a party, and (D) each certificate required to be delivered pursuant to Section 4.01(b)(iii).

(iii) Certificates of Good Standing. To the extent available, certificates as of a recent date as to the good standing of the Borrower under the laws of its jurisdiction of incorporation, (or equivalent) and, to the extent requested by the Administrative Agent, each other jurisdiction where the Borrower owns Oil and Gas Properties or is qualified to do business and, to the extent available, a certificate of the relevant taxing authorities of such jurisdictions certifying that the Borrower has filed required tax returns and owes no delinquent taxes.

(c) Representations and Warranties; Defaults; Material Adverse Effect.

(i) The representations and warranties of the Borrower and the other Loan Parties set forth in this Agreement and the other Loan Documents shall be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) on and as of the Effective Date (although any representations and warranties which expressly relate to an earlier date shall be required only to be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) as of the specified earlier date).

(ii) At the time of and immediately after giving effect to the Transactions to occur on the Effective Date, no Default or Event of Default shall have occurred and be continuing.

(iii) Since December31, 2021, there has not occurred any event, development or circumstance that has had, or could reasonably be expected to have, a Material Adverse Effect.

(d) Fee Letters. The Administration Agent shall have received a fully executed Fee Letter and a fully executed Agency Fee Letter.

(e) Miscellaneous.

(i) USA PATRIOT Act, Etc. Each Loan Party shall have provided to the Administrative Agent and the Lenders at least five (5)Business Days prior to the Effective Date the documentation and other information requested by the Administrative Agent or any Lender in order to comply with requirements of the USA PATRIOT Act and applicable "know your customer" and anti-money laundering rulesand regulations, including but not limited to the Borrower's FormW-9. If the Borrower qualifies as a "legal entity customer" under the Beneficial Ownership Regulation, it shall have delivered to the Administrative Agent and directly to any Lender requesting the same, a Beneficial Ownership Certification at least ten Business Days prior to the Effective Date.

(ii) Payment of Fees; Expense Reimbursement. The Administrative Agent and the Lenders shall have received payment of all fees and other amounts due and payable on or prior to the Effective Date, including, to the extent invoiced at least one Business Day prior to the Effective Date (or otherwise set forth in a funds flow or similar statement approved by the Borrower), reimbursement or payment of all out-of-pocket expenses required to be reimbursed or paid by the Loan Parties hereunder (including payment of the invoiced and reasonable documented fees, charges and out-of-pocket expenses of outside counsel to the Administrative Agent, plus such additional amounts of such fees, charges and disbursements as shall constitute its reasonable estimate of such fees, charges and disbursements incurred or to be incurred by it through the closing proceedings (provided that such estimate shall not thereafter preclude a final settling of accounts between the Borrower and the Administrative Agent)).

(iii) Due Diligence. The Administrative Agent and each Lender shall have completed its business due diligence investigation (including the receipt of any requested due diligence reports), and each Lender and the Administrative Agent and its counsel shall have completed all legal due diligence, in each case the results of which shall be satisfactory to each Lender and the Administrative Agent.

Without limiting the generality of the provisions of Article VIII, for purposes of determining compliance with the conditions specified in this Section 4.01, the Administrative Agent and each Lender that has signed this Agreement shall be deemed to have consented to, approved or accepted or to be satisfied with, each document or other matter required thereunder to be consented to or approved by or acceptable or satisfactory to a Lender unless the Administrative Agent shall have received notice from such Lender prior to the Effective Date specifying its objection thereto.

SECTION 4.02. Initial Availability Date. The occurrence of the Initial Availability Date is subject to the satisfaction (or wavier in accordance with Section 9.02) of the following conditions:

(a) Additional Loan Documents. The Administrative Agent shall have received:

(i) Notes executed by the Borrower in favor of each Lender, if any, which has requested Notes pursuant to Section 2.07(f), duly completed and dated the Effective Date; and

(ii) from each party thereto, counterparts (in such number as may be requested by the Administrative Agent) of the Guaranty Agreement signed on behalf of such party.

(b) Closing Certificates. The Administrative Agent shall have received each of the following in form and substance satisfactory to the Administrative Agent:

(i) Officer's Certificate. A certificate from a Responsible Officer of the Borrower, certifying (A)that the conditions specified in Sections 4.02(g)have been satisfied, (B)that either (i)all governmental, shareholder and third party consents, licenses and approvals required pursuant to Section 4.02(h)(i)have been received by the Loan Parties and are in full force and effect, or (ii)no such consents, licenses or approvals are so required and (C) as to the matters set forth in Section 4.02(h)(ii).

(ii) Secretary's Certificate. A certificate from the secretary of each Loan Party (or if such Loan Party does not have a secretary, a Responsible Officer) certifying as to the incumbency and genuineness of the signature of each Responsible Officer of such Loan Party executing Loan Documents to which it is a party and certifying that attached thereto is a true, correct and complete copy of (A)the articles or certificate of incorporation or formation (or equivalent), as applicable, of such Loan Party and all amendments thereto, certified as of a recent date by the appropriate Governmental Authority (to the extent available) in its jurisdiction of incorporation, organization or formation (or equivalent), as applicable, (B)the bylaws, partnership agreement, limited liability company agreement or other governing document of such Loan Party as in effect on the Initial Availability Date (including all amendments thereto and such amendments as reasonably requested by the Administrative Agent), (C)resolutions duly adopted by the board of directors (or other governing body) of such Loan Party authorizing and approving the transactions contemplated hereunder and the execution, delivery and performance of this Agreement and the other Loan Documents to which it is a party, and (D)each certificate required to be delivered pursuant to Section 4.02(b)(iii).

(iii) Certificates of Good Standing. To the extent available, certificates as of a recent date as to the good standing of each Loan Party under the laws of its jurisdiction of incorporation, organization or formation (or equivalent), as applicable, and, to the extent requested by the Administrative Agent, each other jurisdiction where such Loan Party owns Oil and Gas Properties or is qualified to do business and, to the extent available, a certificate of the relevant taxing authorities of such jurisdictions certifying that such Loan Party has filed required tax returns and owes no delinquent taxes.

(c) Opinions. The Administrative Agent shall have received (i)a favorable opinion of counsel from Fox Rothschild LLP, special counsel to the Loan Parties and (ii)a favorable opinion of counsel from Sidley Austin LLP, special counsel to the Administrative Agent, in each case in form and substance satisfactory to the Administrative Agent. Each such opinion shall be addressed to the Administrative Agent and the Lenders and shall expressly permit reliance by the permitted successors and assigns of the Administrative Agent and the Lenders.

(d) Lien Searches and Environmental Assessments.

(i) Lien Searches. The Administrative Agent shall have received the results of a recent Lien search (including a search as to judgments, bankruptcy and tax matters), in form and substance reasonably satisfactory to the Administrative Agent, in each of the jurisdictions or offices in which UCC financing statements or other filings or recordations (including mortgages) should be made to evidence or perfect security interests in the assets of each of the Loan Parties, indicating among other things that the assets of each such Loan Party are free and clear of any Lien (except for Permitted Liens).

(ii) Environmental Assessments. The Administrative Agent shall be satisfied with the environmental condition of the XTO Acquired Assets and the Oil and Gas Properties of the Loan Parties and shall have received copies of all existing environmental assessments and other environmental reports relating thereto.

(e) Property and Liability Insurance. The Administrative Agent shall have received, in each case in form and substance reasonably satisfactory to the Administrative Agent, evidence of property and liability insurance covering each Loan Party (with appropriate endorsements naming the Administrative Agent as "additional insured" on all policies for liability insurance) and the properties of the Loan Parties satisfying the requirements of Section 5.12, evidence of payment of all insurance premiums for the current policy year of each such policy, and if requested by the Administrative Agent, copies of such insurance policies.

(f) Financial Matters.

(i) Financial Statements. The Administrative Agent shall have received the audited consolidated balance sheet and statements of income or operations, stockholders' equity and cash flows of the Borrower and its Consolidated Subsidiaries as of and for the Fiscal Year ended December31, 2021, reported on by PricewaterhouseCoopers, independent public accountants.

(ii) Model. The Administrative Agent shall have received a base case financial model (the "Financial Model") for the Borrower and its Subsidiaries for the succeeding five year period, in form and substance, and as of a date, reasonably acceptable to the Administrative Agent and the Lenders. Such model shall demonstrate compliance with the financial covenants set forth in Section 6.11 (it being understood that such financial model shall be a good faith projection).

(g) Representations and Warranties; Defaults; Material Adverse Effect.

(i) The representations and warranties of the Borrower and the other Loan Parties set forth in this Agreement and the other Loan Documents shall be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) on and as of the Initial Availability Date (although any representations and warranties which expressly relate to an earlier date shall be required only to be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) as of the specified earlier date).

(ii) At the time of and immediately after giving effect to the Transactions to occur on the Initial Availability Date, (i)no Default or Event of Default shall have occurred and be continuing and (ii)the Borrower shall be in pro forma compliance with each of the financial covenants set forth in Section 6.11.

(iii) Since December31, 2021, there has not occurred any event, development or circumstance that has had, or could reasonably be expected to have, a Material Adverse Effect.

(h) Consents; Proceedings.

(i) Governmental and Third Party Approvals. The Loan Parties shall have received all governmental, shareholder and third party consents, licenses and approvals necessary in connection with the transactions contemplated by this Agreement and the other Loan Documents, other than the Hart-Scott-Rodino Act and any other governmental, shareholder and third party consents, licenses and approvals necessary in connection with the XTO Acquisition that would not result in a Material Adverse Effect.

(ii) No Injunction, Etc. No action, proceeding or investigation shall have been instituted, threatened or proposed before any Governmental Authority to enjoin, restrain or prohibit the execution and delivery by the Loan Parties of this Agreement or the other Loan Documents or the consummation of the transactions contemplated hereby or thereby.

(i) Initial Reserve Reports. The Administrative Agent shall have received the Initial Reserve Reports.

(j) Title. The Administrative Agent shall have received title information in form and substance reasonably satisfactory to the Administrative Agent setting forth the status of title to at least (i)75% of Midstream Properties (as determined by the Administrative Agent) and 75% of the Total Proved PV-10 of the Oil and Gas Properties of the Loan Parties other than the XTO Acquired Assets.

(k) Amended and Restated Shareholder Loan Agreements. The Administrative Agent shall have received true and correct copies of duly executed Amended and Restated Shareholder Loan Agreements, each in form and substance satisfactory to the Administrative Agent.

(l) Subordination Agreement. The Administrative Agent shall have received from each party thereto, fully executed counterparts of the Subordination Agreement.

(m) Miscellaneous.

(i) Other Documents. All opinions, certificates and other instruments and all proceedings in connection with the transactions contemplated by this Agreement shall be satisfactory in form and substance to the Administrative Agent. The Administrative Agent and the Lenders shall have received copies of all other documents, certificates and instruments reasonably requested thereby with respect to the transactions contemplated by this Agreement.

(ii) Payment of Fees; Expense Reimbursement. The Administrative Agent and the Lenders shall have received payment of all fees and other amounts due and payable on or prior to the Initial Availability Date, including, to the extent invoiced at least one Business Day prior to the Initial Availability Date (or otherwise set forth in a funds flow or similar statement approved by the Borrower), reimbursement or payment of all out-of-pocket expenses required to be reimbursed or paid by the Loan Parties hereunder (including payment of the invoiced and reasonable documented fees, charges and out-of-pocket expenses of outside counsel to the Administrative Agent, plus such additional amounts of such fees, charges and disbursements as shall constitute its reasonable estimate of such fees, charges and disbursements incurred or to be incurred by it through the closing proceedings (provided that such estimate shall not thereafter preclude a final settling of accounts between the Borrower and the Administrative Agent)).

SECTION4.03. Initial Funding Date. The obligation of each Lender to make a Term Loan on the Initial Funding Date is subject to the satisfaction of the following conditions:

(a) Anticipated Closing of XTO Acquisition. The Administrative Agent shall have received a certificate from a Responsible Officer of the Borrower, dated as of the Initial Funding Date, certifying that (i)the Borrower expects the XTO Acquisition to be consummated on or before the date that is four (4)Business Days after the Initial Funding Date and (ii)all conditions precedent to the XTO Acquisition under the XTO Acquisition Agreement (other than funding of the Purchase Price (as defined in the XTO Acquisition Agreement) to the XTO Sellers) have been met.

(b) Solvency Certificate. The Borrower shall have delivered to the Administrative Agent a certificate in the form of Exhibit G; and

(c) Funds Flow Memorandum. The Administrative Agent shall have received a certificate from a Responsible Officer of the Borrower, dated as of the Initial Funding Date, attaching a certified copy of the Funds Flow Memorandum.

SECTION 4.04. Other Conditions to Each Funding Date. The obligation of each Lender to make a Term Loan on each Funding Date (including the Initial Funding Date) is subject to the satisfaction of the following additional conditions:

(a) The representations and warranties of the Borrower and the other Loan Parties set forth in this Agreement and the other Loan Documents shall be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) on and as of the date of such Borrowing (although any representations and warranties which expressly relate to an earlier date shall be required only to be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) as of the specified earlier date);

(b) At the time of and immediately after giving effect to such Borrowing, (i)no Default or Event of Default shall have occurred and be continuing and (ii) the Borrower shall be in pro forma compliance with each of the financial covenants set forth in Section 6.11; and

(c) The Administrative Agent shall have received a Borrowing Request in accordance with Section 2.03.

Each Borrowing shall be deemed to constitute a representation and warranty by the Borrower and the other Loan Parties on the date thereof as to the matters specified in paragraphs (a) and (b) of this Section 4.03.

ARTICLE V

Affirmative Covenants

From the Effective Date until Payment in Full, the Borrower covenants and agrees with the Lenders that:

SECTION5.01. Financial Statements and Other Information. The Borrower will furnish to the Administrative Agent (for distribution to each Lender):

(a) within ninety (90)days after the end of each Fiscal Year of the Borrower (or, after a Qualified IPO, if earlier, by the date that the Annual Report on Form10-K of the Borrower for such fiscal year would be required to be filed under the rulesand regulations of the SEC, giving effect to any automatic extension available thereunder for the filing of such form) (commencing with the Fiscal Year ending December31, 2022), (i)the audited consolidated balance sheet of the Borrower and its Consolidated Subsidiaries as of the end of such Fiscal Year and the related consolidated statements of income or operations, stockholders' equity and cash flows of the Borrower and its Consolidated Subsidiaries for such Fiscal Year, setting forth in each case in comparative form the figures for the previous Fiscal Year, all reported on by PricewaterhouseCoopers or other independent public accountants of recognized national standing or otherwise acceptable to the Administrative Agent (without a "going concern" or like qualification or exception and without any qualification or exception as to the scope of such audit) to the effect that such consolidated financial statements present fairly in all material respects the financial condition of the Borrower and its Consolidated Subsidiaries on a consolidated basis as of such date and the results of operations of the Borrower and its Consolidated Subsidiaries on a consolidated basis for such Fiscal Year, in each case in accordance with GAAP consistently applied and (ii)a narrative management discussion and analysis of the financial condition and results of operations of the Borrower and its Consolidated Subsidiaries for such Fiscal Year;

(b) within forty-five (45)days after the end of each of the first three Fiscal Quarters of each Fiscal Year of the Borrower (or, after a Qualified IPO, if earlier, by the date that the Quarterly Report on Form10-Q of the Borrower for such fiscal quarter would be required to be filed under the rulesand regulations of the SEC, giving effect to any automatic extension available thereunder for the filing of such form) (commencing with the Fiscal Quarter ending June 30, 2022), the unaudited consolidated balance sheet of the Borrower and its Consolidated Subsidiaries as of the end of such Fiscal Quarter and the related statements of income or operations, stockholders' equity and cash flows as of the end of and for such Fiscal Quarter and the then-elapsed portion of the then-current Fiscal Year, setting forth in each case in comparative form the figures for the corresponding period or periods of (or, in the case of the balance sheet, as of the end of) the previous Fiscal Year, all certified by a Financial Officer of the Borrower as presenting fairly in all material respects the financial condition of the Borrower and its Consolidated Subsidiaries on a consolidated basis as of such date and the results of operations of the Borrower and its Consolidated Subsidiaries on a consolidated basis for the period or periods then ended, in each case in accordance with GAAP consistently applied, subject to normal year-end audit adjustments and the absence of footnotes;

(c) concurrently with any delivery of financial statements under clauses (a) or (b) of this Section 5.01, a Compliance Certificate (i)certifying as to whether a Default has occurred and, if a Default has occurred, specifying the details thereof and any action taken or proposed to be taken with respect thereto and (ii) setting forth reasonably detailed calculations of the financial covenants contained in Section 6.11 (to the extent required to be tested as of the last day of the fiscal period covered by such financial statements);

(d) promptly following the written request of the Administrative Agent, certificates of insurance coverage and endorsements with respect to the insurance required by Section 5.12, in form and substance reasonably satisfactory to the Administrative Agent, and, if requested by the Administrative Agent, all copies of the applicable policies;

(e) (i)not later than ninety (90) days prior to the end of each Fiscal Year (beginning the Fiscal Year ending December31, 2022), a draft unapproved Budget for the following Fiscal Year, which shall be subject to review by the Administrative Agent, (ii)not later than thirty (30) days prior to the end of each Fiscal Year (beginning the Fiscal Year ending December31, 2022), a copy of a Budget for the following Fiscal Year that has been approved by the Administrative Agent, and (iii)within 45 days after the end of each Fiscal Quarter (beginning the Fiscal Quarter ending March31, 2023) a cash forecast for the succeeding 12-month period in form and substance acceptable to the Administrative Agent (the "Cash Reforecast"); provided that, if the Borrower makes any Restricted Payment or Restricted Debt Payment after the Fiscal Year ending December31, 2022, the Cash Reforecast to be delivered within 45 days after the end of the Fiscal Quarter ending June30 must be delivered to the Administrative Agent prior to the date of such Restricted Payment or Restricted Debt Payment;

(f) concurrently with the delivery of any draft unapproved Budget pursuant to Section 5.01(e)(i)or any approved Budget pursuant to Section 5.01(e)(ii), a forecast of the volume of production and forecasted sales attributable to production (and the forecasted prices at which such sales are to be made and the projected revenues derived from such sales) from Oil and Gas Properties for the related Fiscal Year covered by such Budget, including setting forth the related projected ad valorem, severance and production taxes and lease operating expenses attributable thereto and projected to be incurred for each month during such Fiscal Year (all in form and substance acceptable to the Administrative Agent);

(g) promptly following the written request of the Administrative Agent, copies of any Material Contract and any amendments, modifications, waivers, or supplements thereto;

(h) promptly following the written request of the Administrative Agent, a list of all Persons purchasing Hydrocarbons from the Borrower or any of its Subsidiaries under contracts with a term exceeding one month (or, with respect to Oil and Gas Properties that are not operated by the Borrower or any of its Subsidiaries, a list of the operators of such properties);

(i) within forty-five (45) days after the end of each Fiscal Quarter, a report setting forth, for each calendar month such Fiscal Quarter, the volume of production and sales attributable to production for which cash activity has been recorded (and the prices at which such sales were made and the revenues derived from such sales) from the Oil and Gas Properties, and setting forth the related ad valorem, severance and production taxes and lease operating expenses attributable thereto and incurred for each such calendar month;

(j) within forty-five(45) days after the end of each Fiscal Quarter, a report setting forth the Capital Expenditures made by the Borrower and its Subsidiaries during such Fiscal Quarter, in reasonable detail;

(k) within forty-five(45) days after the end of each Fiscal Quarter, (i)a report setting forth, as of the last day of such Fiscal Quarter, a summary of all outstanding Swap Agreements (including the type, strike price and notional amounts or volumes), any credit support documents relating thereto, any margin required or supplied under any credit support document, the counterparty to each such Swap Agreement and (ii)demonstrating compliance with the requirements of Section 5.16(b)with respect to Swap Agreements to be entered into or maintained within fourteen (14) days after the end of the Fiscal Quarter most recently ended;

(l) not less than three (3)Business Days' prior to making a Restricted Payment pursuant to Section 6.08(d)or Restricted Debt Payments pursuant to Section 6.18(a)(ii), a certificate of a Financial Officer in substantially the form of ExhibitF hereto setting forth (i)the Specified Amount, including the calculation thereof, as of the date of delivery of such certificate and (ii)the Specified Amount immediately after giving effect to such Restricted Payment or Restricted Debt Payment;

(m) within ten (10)days after the receipt of any filed-stamped copies of any XTO Acquisition Assignment or XTO Acquisition Release, the Borrower shall deliver copies of such XTO Acquisition Assignment or XTO Acquisition Release to the counsel of the Administrative Agent;

(n) promptly following the written request of the Administrative Agent, such other information regarding the operations, business affairs and financial condition of the Borrower or any Subsidiary of the Borrower, or compliance with the terms of this Agreement, as the Administrative Agent or any Lender (through the Administrative Agent) may reasonably request; and

(o) promptly following the written request of the Administrative Agent, all documentation and other information that such Lender or the Administrative Agent reasonably requests in order to comply with its ongoing obligations under applicable "know your customer" and anti-money laundering rules and regulations, including the USA PATRIOT Act and the Beneficial Ownership Regulation.

SECTION 5.02. Notices of Material Events. The Borrower will furnish to the Administrative Agent (for distribution to each Lender) the following:

(a) promptly, and in any event within five (5)Business Days after a Responsible Officer of the Borrower or any of its Subsidiaries obtains knowledge of the occurrence thereof, written notice of the occurrence of any Default;

(b) promptly, and in any event within five (5)Business Days after a Responsible Officer of the Borrower or any of its Subsidiaries obtains knowledge thereof, the filing or commencement of any action, suit or proceeding by or before any arbitrator or Governmental Authority against or affecting the Borrower or any of its Subsidiaries that could reasonably be expected to result in the imposition of liability in excess of $10,000,000 to the extent not covered by insurance, subject to normal deductibles;

(c) promptly, and in any event within five (5)Business Days after a Responsible Officer of the Borrower or any of its Subsidiaries obtains knowledge thereof, the occurrence of any ERISA Event that, alone or together with any other ERISA Events that have occurred, could reasonably be expected to result in the imposition of liability in excess of $10,000,000;

(d) promptly upon the receipt thereof, or the acquisition of knowledge by a Responsible Officer of a Loan Party, a copy of any form of request, claim, complaint, order, notice, summons or citation received from any Governmental Authority or any other Person (i)concerning violations or alleged violations of Environmental Laws that seek to impose liability therefor in excess of $10,000,000, or (ii)concerning any action or omission on the part of any of such Loan Party in connection with Hazardous Materials that could reasonably result in the imposition of liability in excess of $10,000,000 or requiring that action be taken to respond to or clean up a Release of Hazardous Materials into the environment and such action or clean-up could reasonably be expected to exceed $10,000,000, including without limitation any information request related to, or notice of, potential responsibility under CERCLA;

(e) promptly after a Responsible Officer of the Borrower or any of its Subsidiaries obtains knowledge thereof, the occurrence of any Casualty Event with respect to Property of the Borrower or any of its Subsidiaries with a fair market value in excess of $10,000,000 or the commencement of any action of proceeding that could reasonably be expected to result in such a Casualty Event, together with a reasonably detailed description thereof;

(f) promptly after a Responsible Officer of the Borrower or any of its Subsidiaries obtains knowledge thereof, any other development that results in, or could reasonably be expected to result in, a Material Adverse Effect;

(g) promptly, and in any event within ten (10)Business Days after a Responsible Officer of Borrower or any of its Subsidiaries obtains knowledge thereof, written notice of the receipt by Borrower or any of its Subsidiaries of any written default notices under or with respect to any Material Contract; and

(h) prior to any Disposition under Section 6.04 anticipated to generate in excess of $5,000,000 in Net Proceeds, prior written notice of such Disposition, which notice shall (i)describe such Disposition and the nature and material terms and conditions of such transaction and (ii)state the estimated Net Proceeds anticipated to be received by any Loan Party from such Disposition.

Each notice delivered under clauses (a) through (g) of this Section shall be accompanied by a statement of a Responsible Officer or other executive officer of the Borrower setting forth the details of the event or development requiring such notice and any action taken or proposed to be taken with respect thereto.

After the occurrence of a Qualified IPO, documents required to be delivered pursuant to Section5.01(a)or (b)(to the extent any such documents are included in materials otherwise filed with the SEC) may be delivered electronically and, if so delivered, shall be deemed to have been delivered on the date (i) on which such materials are publicly available as posted on the Electronic Data Gathering, Analysis and Retrieval system (EDGAR); or (ii)on which such documents are posted on the Borrower's behalf on an Internet or intranet website, if any, to which each Lender and the Administrative Agent have access (whether a commercial, third-party website or whether made available by the Administrative Agent); provided that: (A)upon written request by the Administrative Agent (or any Lender through the Administrative Agent) to the Borrower, the Borrower shall deliver paper copies of such documents to the Administrative Agent or such Lender until a written request to cease delivering paper copies is given by the Administrative Agent or such Lender and (B)the Borrower shall notify the Administrative Agent and each Lender (by telecopier or electronic mail) of the posting of any such documents and provide to the Administrative Agent by electronic mail electronic versions (i.e., soft copies) of such documents The Administrative Agent shall have no obligation to request the delivery of or to maintain paper copies of the documents referred to above, and in any event shall have no responsibility to monitor compliance by the Borrower with any such request by a Lender for delivery, and each Lender shall be solely responsible for timely accessing posted documents or requesting delivery of paper copies of such document to it and maintaining its copies of such documents.

SECTION 5.03. Existence; Conduct of Business. The Borrower will, and will cause each of its Subsidiaries to, do or cause to be done all things necessary to preserve, renew and keep in full force and effect its legal existence and the rights, licenses, permits, privileges and franchises material to the conduct of its business and maintain, if necessary, its qualification to do business in each jurisdiction in which its Oil and Gas Properties are located or the ownership of its Properties require such qualification, in each case (other than with respect to the preservation of existence of any Loan Party) except where the failure to do so would not reasonably be expected to result in a Material Adverse Effect; provided that the foregoing shall not prohibit any merger, consolidation, liquidation or dissolution permitted under Section 6.03.

SECTION 5.04. Payment of Obligations. The Borrower will, and will cause each of its Subsidiaries to, pay its obligations, including Tax liabilities

that, if not paid, could result in a Material Adverse Effect before the same shall become delinquent or in default, except with respect to any Tax liabilities where (a)the validity or amount thereof is being contested in good faith by appropriate proceedings andthe Borrower or such Subsidiary has set aside on its books adequate reserves with respect thereto in accordance with GAAP (to the extent required under GAAP) or (b)the failure to make payment could not reasonably be expected to result in a Material Adverse Effect or result in the seizure or levy of any Proved Oil and Gas Properties with an aggregate fair market value in excess of $5,000,000.

SECTION 5.05. Maintenance of Properties. The Borrower will, and will cause each of its Subsidiaries to:

(a) operate its Oil and Gas Properties, or cause such Oil and Gas Properties to be operated, in a reasonably prudent manner in accordance with the customary practices of the industry and in compliance with all applicable contracts and agreements and in compliance with all applicable Governmental Requirements, including applicable proration requirements and Environmental Laws, and all applicable laws, rulesand regulations of every other Governmental Authority from time to time constituted to regulate the development and operation of such Oil and Gas Properties and the production and sale of Hydrocarbons and other minerals therefrom, except, in each case, where the failure to comply could not reasonably be expected to have a Material Adverse Effect;

(a) maintain and keep in good repair, working order and efficiency (ordinary wear and tear excepted) all of its Oil and Gas Properties and other Properties material to the operation thereof, including all equipment, machinery and facilities, except, in each case, where the failure to do so could not reasonably be expected to have a Material Adverse Effect;

(b) promptly pay and discharge, or make reasonable and customary efforts to cause to be paid and discharged, all material delay rentals, royalties, expenses and indebtedness accruing under the leases or other agreements affecting or pertaining to its Oil and Gas Properties (except wherethe validity or amount thereof is being contested in good faith by appropriate proceedings and the applicable Loan Party has set aside on its books adequate reserves with respect thereto in accordance with GAAP (to the extent required by GAAP)) and will do all other things necessary, in accordance with industry standards, to keep unimpaired its rights with respect thereto and prevent any forfeiture thereof or default thereunder, except, in each case, where the failure to do so could not reasonably be expected to have a Material Adverse Effect;

(c) promptly perform or make reasonable and customary efforts to cause to be performed, in accordance with industry standards, the obligations required by each and all of the assignments, deeds, leases, sub-leases, contracts and agreements affecting its interests in its Oil and Gas Properties and other Properties material to the operation thereof, except, in each case, where the failure to do so could not reasonably be expected to result in a Material Adverse Effect;

(d) operate its Oil and Gas Properties and other Properties material to the operation thereof, or make reasonable and customary efforts to cause such Oil and Gas Properties and other material Properties to be operated, in accordance with the practices of the industry and in compliance with all applicable contracts and agreements and in compliance with all Governmental Requirements, except, in each case, where the failure to do so could not reasonably be expected to result in a Material Adverse Effect; and

(e) to the extent that neither the Borrower nor any Subsidiary of the Borrower is the operator of any Property, use commercially reasonable efforts to cause the operator to comply with the requirements of this Section 5.05.

SECTION5.06. Books and Records; Inspection Rights. The Borrower will, and will cause each of its Subsidiaries to, keep proper books of record and account in which entries that are full, true and correct entries in all material respects are made of all dealings and transactions in relation to its business and activities. The Borrower will, and will cause each of its Subsidiaries to, permit any representatives designated by the Administrative Agent or any Lender, upon reasonable prior notice, to visit and inspect its Properties, to examine and make extracts from its books and records and to discuss its affairs, finances and condition with its officers and independent accountants, all at reasonable times during normal business hours; provided that, excluding any such visits and inspections during the continuation of any Event of Default, only the Administrative Agent (or any of its representatives or independent contractors) on behalf of the Lenders may exercise the rights of the Administrative Agent and the Lenders under this Section 5.06 and, unless an Event of Default shall have occurred and be continuing, the Borrower shall only be responsible for the costs and expenses of one such visit and inspection per calendar year. The Administrative Agent shall give the Borrower the opportunity to participate in any discussions with the Borrower's independent accountants. Notwithstanding anything to the contrary in this Section 5.06, none of the Borrower nor any Subsidiary shall be required to disclose, permit the inspection, examination or making copies or abstracts of, or discussion of, any document, information or other matter that (i)constitutes non-financial trade secrets or non-financial proprietary information, (ii)in respect of which disclosure to the Administrative Agent or any Lender (or their respective representatives or contractors) is prohibited by applicable law or any material binding agreement between the Borrower or any of the Subsidiaries and a Person that is not the Borrower or any of the Subsidiaries and not entered into in contemplation of preventing such disclosure, inspection or examination or (iii)is subject to attorney-client or similar privilege or constitutes attorney work-product.

SECTION 5.07. Environmental Laws. The Borrower shall, at its sole expense: (i)comply, and shall cause its real property and operations and each of its Subsidiaries and each of its Subsidiaries' real property and operations to comply, with applicable Environmental Laws, the breach of which, individually or in the aggregate, could reasonably be expected to have a Material Adverse Effect; (ii) not Release or threaten to Release, and shall cause each of its Subsidiaries not to Release or threaten to Release, any Hazardous Material on, under, about or from any Properties of the Borrower or any of its Subsidiaries or any other Property offsite the Property to the extent caused by the operations of the Borrower or any of its Subsidiaries except in compliance with applicable Environmental Laws, if and to the extent that the Release or threatened Release of such Hazardous Materials, individually or in the aggregate, could reasonably be expected to have a Material Adverse Effect; (iii)timely obtain or file, and shall cause each of its Subsidiaries to timely obtain or file, all Environmental Permits to be obtained or filed in connection with the operation or use of any Properties of the Borrower or any of its Subsidiaries, if and to the extent that the failure to obtain or file such Environmental Permits, individually or in the aggregate, could reasonably be expected to have a Material Adverse Effect; (iv)promptly commence and diligently prosecute to completion, and shall cause each of its Subsidiaries to promptly commence and diligently prosecute to completion, any

assessment, evaluation, investigation, monitoring, containment, cleanup, removal, repair, restoration, remediation or other remedial obligations (collectively, the "Remedial Work") in the event such Remedial Work is required or is reasonably necessary under applicable Environmental Laws because of or in connection with the actual or suspected past, present or future Release or threatened Release of Hazardous Material on, under, about or from any real property of the Borrower or any of its Subsidiaries, if and to the extent that failure to commence and diligently prosecute to completion such Remedial Work, individually or in the aggregate, could reasonably be expected to have a Material Adverse Effect; (v)conduct, and cause each Subsidiary to conduct, their respective operations and businesses in a manner that will not expose any Property or Person to Hazardous Materials that could reasonably be expected to form the basis for a claim for damages or compensation which claim could reasonably be expected to have a Material Adverse Effect; and (vi)establish and implement, and shall cause each Subsidiary to establish and implement, such procedures as may be necessary to continuously determine and assure that the Borrower's and the other Subsidiaries' obligations under this Section 5.07 are timely and fully satisfied, to the extent the failure to establish and implement such procedures could reasonably be expected to have a Material Adverse Effect. To the extent that neither the Borrower nor any Subsidiary is the operator of any Oil and Gas Property, the Borrower and the Subsidiaries shall use commercially reasonable efforts to cause the operator to comply with the requirements of this Section 5.07.

SECTION 5.08. Compliance with Laws. The Borrower will, and will cause each of its Subsidiaries to, comply with all laws, rules, regulations and orders of any Governmental Authority applicable to it or its Property, in each case except where the failure to do so, individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect. The Borrower will maintain in effect and enforce policies and procedures designed to ensure compliance by the Borrower, its Subsidiaries and their respective directors, officers, employees and agents with Anti-Corruption Laws and applicable Sanctions.

SECTION 5.09. Use of Proceeds. The Borrower will use the proceeds of the Term Loans only for the purposes set forth in Section 3.20. The Borrower will not request any Borrowing and shall not use, and shall procure that its Subsidiaries and its and their respective directors, officers, employees and agents shall not use, directly or indirectly, the proceeds of any Borrowing (i)in furtherance of an offer, payment, promise to pay, or authorization of the payment or giving of money, or anything else of value, to any Person in violation of any Anti-Corruption Laws, (ii)for the purpose of funding, financing or facilitating any activities, business or transaction of or with any Sanctioned Person, or in any Sanctioned Country or (iii)in any manner that would result in the violation, by any Person, of any Sanctions or other anti-money laundering rules and regulations applicable to any party hereto.

SECTION 5.10. Compliance with ERISA. In addition to and without limiting the generality of Section 5.08, the Borrower shall, and shall cause each of its Subsidiaries and each ERISA Affiliate to, (a)except where the failure to so comply could not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect, (i)comply with applicable provisions of ERISA, the Code and the regulations and interpretations thereunder with respect to all Plans and other employee benefit plans, (ii)not take any action or fail to take action the result of which could reasonably be expected to result in a liability to the PBGC or to a Multiemployer Plan, (iii)not participate in any prohibited transaction that could result in any civil penalty under ERISA or tax under the Code and (iv)operate each employee benefit welfare plan (as defined in Section3(1)of ERISA) in such a manner that will not result in any tax liability under Section4980B of the Code or any liability to any qualified beneficiary as defined in Section4980B of the Code and (b)furnish to the Administrative Agent upon the Administrative Agent's request such additional information about any Plan or other employee benefit plan as may be reasonably requested by the Administrative Agent or the Required Lenders.

SECTION 5.11. Subsidiary Guarantors; Further Assurances .

(a) In the event that, at any time after the Effective Date, any Person becomes a Subsidiary of the Borrower, whether pursuant to formation, acquisition or otherwise, the Borrower shall promptly (and, in any event, within thirty (30)days after such formation, acquisition or otherwise, as such time period may be extended by the Administrative Agent in its sole discretion) (i)cause such Subsidiary to (A)become a Guarantor by delivering to the Administrative Agent a duly executed supplement to the Guaranty Agreement or such other document as the Administrative Agent shall deem reasonably appropriate for such purpose and (B)deliver to the Administrative Agent such opinions, documents and certificates referred to in Section 4.01 as may be reasonably requested by the Administrative Agent.

(b) The Borrower and each Subsidiary will, at its sole expense, promptly execute and deliver to each Agent all such other documents, agreements and instruments reasonably requested by such Agent to comply with, cure any defects or accomplish the conditions precedent, covenants and agreements of any Loan Party, as the case may be, in the Loan Documents or to correct any omissions in this Agreement, or to make any recordings, file any notices or obtain any consents, all as such Agent may deem necessary or advisable in its reasonable discretion.

SECTION 5.12. Insurance. The Borrower will, and will cause each of its Subsidiaries tomaintain with financially sound and reputable carriers insurance in such amounts and against such risks as are customarily maintained by companies of established repute engaged in the same or similar businesses operating in the same or similar locations and as may be required by applicable material Governmental Requirements. The Borrower will furnish to the Lenders, upon the request of the Administrative Agent, information in reasonable detail as to the insurance so maintained.

SECTION5.13. Management of BKV-BPP. The Borrower will cause the management, business and affairs of each of the Borrower and its Subsidiaries to be conducted in such a manner (including, without limitation, by keeping separate books of account, furnishing separate financial statements of BKV-BPP to creditors thereof and by not permitting assets of the Borrower and its Subsidiaries to be commingled with those of BKV-BPP) so that BKV-BPP will be treated as an entity separate and distinct from the Borrower and each Subsidiary.

SECTION 5.14. Reserve Reports.

(a) Within sixty (60)days after the end of each Fiscal Year of the Borrower (commencing with the Fiscal Year ending December31, 2022), the Borrower shall furnish to the Administrative Agent (for distribution to the Lenders) (i) a Reserve Report prepared by the Borrower and audited by one or more Approved Petroleum Engineers (each, an "Approved Petroleum Engineer Reserve Report") evaluating the Oil and Gas Properties of the Borrower and the other

Loan Parties to which Proved Reserves are attributable as of December31st of such Fiscal Year and (ii)with respect to such Reserve Report, related Reserve Report Supporting Materials.

(b) Within forty-five (45) days after the end of each Fiscal Quarter ending on June30th of each Fiscal Year (commencing with June30, 2023), the Borrower shall furnish to the Administrative Agent (for distribution to the Lenders) (i)a Reserve Report evaluating the Oil and Gas Properties of the Borrower and the other Loan Parties to which Proved Reserves are attributable as of June30th of such Fiscal Year, such Reserve Report to be prepared internally by or under the supervision of the chief petroleum engineer of the Borrower, who shall certify such Reserve Report to be true and accurate in all material respects and, except as otherwise specified therein, to have been prepared in accordance with the procedures used in the immediately preceding Approved Petroleum Engineer Reserve Report and (ii) with respect to any such Reserve Report, related Reserve Report Supporting Materials.

(c) Reserved.

(d) With the delivery of each Reserve Report, the Borrower shall provide to the Administrative Agent (for distribution to the Lenders) a certificate (the "Reserve Report Certificate") from a Responsible Officer certifying on behalf of the Borrower that in all material respects: (i)the information furnished by the Loan Parties to the applicable petroleum engineers in connection with the preparation of such Reserve Report is true and correct in all material respects, it being understood that projections concerning volumes attributable to the Oil and Gas Properties of the Borrower and the other Loan Parties and production and cost estimates contained in the Reserve Report are necessarily based upon professional opinions, estimates and projections and that the Borrower does not warrant that such opinions, estimates and projections will ultimately prove to have been accurate, (ii)each of the Borrower and the other Loan Parties has defensible title (subject to Immaterial Title Deficiencies) to the Proved Oil and Gas Properties evaluated in the related Reserve Report (except for those Properties that have been Disposed of since the date of such Reserve Report in accordance with this Agreement or leases which have expired in accordance with their terms), (iii)except as set forth on an exhibit to the certificate, on a net basis there are no gas imbalances, take-or-pay or other prepayments in excess of the threshold specified in Section 3.23 with respect to its Oil and Gas Properties evaluated in such Reserve Report which would require the Borrower or any other Loan Party to deliver Hydrocarbons either generally or produced from such Oil and Gas Properties at some future time without then or thereafter receiving full payment therefor, (iv)none of the Loan Parties' Proved Oil and Gas Properties have been sold (other than Hydrocarbons sold in the ordinary course of business) since the date of the previous Reserve Report except as set forth on an exhibit to the certificate, which exhibit shall list all of such Proved Oil and Gas Properties sold and in such detail as reasonably required by the Administrative Agent and (v)attached to the certificate is a list of all marketing agreements entered into by a Loan Party subsequent to the later of the date hereof or the most recently delivered Reserve Report which the Borrower could reasonably be expected to have been obligated to list on Schedule 3.24 had such agreement been in effect on the date hereof.

SECTION5.15. Title Information. Upon any request of the Administrative Agent, the Borrower shall promptly supply the Administrative Agent with any reasonably requested title information with respect to the Loan Parties' Oil and Gas Properties.

SECTION 5.16. Required Commodity Hedging. After the end of each Fiscal Quarter (beginning the Fiscal Quarter ending June30, 2023), the Borrower and one or more Approved Swap Counterparties shall enter into Swap Agreements reasonably satisfactory to the Administrative Agent (or maintain Swap Agreements reasonably satisfactory to the Administrative Agent, entered into with Approved Swap Counterparties):

(i) hedging notional volumes not less than 50% of the reasonably anticipated projected production of crude oil, natural gas and natural gas liquids, calculated in the aggregate, from the Loan Parties' Oil and Gas Properties that constitute Proved Developed Producing Reserves (as reflected in the most recently delivered Reserve Report) for a period of not less than twelve (12) months from the end of such Fiscal Quarter; and

(ii) hedging notional volumes not less than 25% of the reasonably anticipated projected production of crude oil, natural gas and natural gas liquids, calculated in the aggregate, from the Loan Parties' Oil and Gas Properties that constitute Proved Developed Producing Reserves (as reflected in the most recently delivered Reserve Report) for a period beginning thirteen (13) months from the end of such Fiscal Quarter and ending twenty-four (24) months from the end of such Fiscal Quarter.

SECTION5.17. Ranking of Obligations. The Borrower will, and will cause each Loan Party to, take all such actions as shall be necessary to ensure that the Obligations of the Borrower or such Loan Party rank at least equally with all other unsecured and unsubordinated obligations of such Loan Party, except obligations mandatorily (and not consensually) preferred by applicable law, and ahead of all subordinated Indebtedness, if any, of such Loan Party.

SECTION 5.18. Post-Effective Date and Post-Initial Funding Date Covenants.

(a) On or prior to the date that is five (5) Business Days after the Initial Funding Date:

(i) the XTO Acquisition shall have been consummated pursuant to the terms of the XTO Acquisition Agreement.

(ii) the Administrative Agent shall have received evidence satisfactory to it that the Borrower has directly or indirectly received any combination of (a)cash equity contributions (with all such contributions to the common equity capital of the Borrower) and (b)net proceeds from the XTO Acquisition Subordinated Shareholder Loan, in each case, in connection with the XTO Acquisition in an aggregate amount not less than $75,000,000 (the "XTO Acquisition Contribution"), together with a certificate from a Responsible Officer of the Borrower certifying that the proceeds of the XTO Acquisition Contribution were applied (or will be applied substantially concurrently with the consummation of the XTO Acquisition) solely to the Purchase Price (as defined in the XTO Acquisition Agreement);

(iii) the Administrative Agent shall have received evidence satisfactory to it that the XTO Acquisition Contribution, together with the Borrowing of the Term Loans on the Initial Funding Date, shall be sufficient to fund the entire consideration due to the XTO Sellers under the XTO Acquisition

Agreement for the XTO Acquisition; and

(iv) the Administrative Agent (or its counsel) shall have received electronic executed copies (which such copies may be provided in a data room made available to the Administrative Agent and its counsel) of (i)real property assignments from the XTO Sellers with respect to the XTO Acquired Assets (the "XTO Acquisition Assignments") and (ii)lien releases from the lenders of the XTO Sellers under any debt instruments and/or mortgages securing the XTO Sellers' credit facilities to the extent burdening the XTO Acquired Assets (the "XTO Acquisition Releases").

(b) Within thirty (30) days after the Initial Funding Date (or such later date acceptable to the Administrative Agent in its sole discretion), the Borrower shall have delivered to the Administrative Agent evidence reasonably satisfactory to the Administrative Agent that the XTO Acquisition Assignments and XTO Acquisition Releases have been duly sent for filing in the applicable counties in the State of Texas.

(c) As soon as possible, but in no event later than one (1)day after the Borrower's receipt of the proceeds of Term Loans funded on any Funding Date, the Borrower shall deliver to Administrative Agent a Utilization Receipt.

(d) Within thirty (30) days after the Initial Funding Date (or such later date acceptable to the Administrative Agent in its sole discretion), the Borrower shall deliver a Reserve Report prepared by the Borrower and audited by one or more Approved Petroleum Engineers evaluating the oil and gas reserves of the XTO Acquired Assets.

(e) Within forty-five (45) days after the Effective Date (or such later date acceptable to the Administrative Agent in its sole discretion), the Administrative Agent shall have received the unaudited consolidated balance sheets and statements of income or operations, stockholders' equity and cash flows of the Borrower and its Consolidated Subsidiaries as of and for the Fiscal Quarter ended March31, 2022. Such financial statements shall present fairly, in all material respects, the financial position and results of operations and cash flows of the Borrower and its Consolidated Subsidiaries as of such date and for such period in accordance with GAAP and be in form and detail acceptable to the Administrative Agent.

(f) Within thirty (30) days after the Initial Funding Date (or such later date acceptable to the Administrative Agent in its sole discretion), the Borrower shall deliver to the Administrative Agent title information in form and substance reasonably satisfactory to the Administrative Agent setting forth the status of title to at least 75% of the Total Proved PV-10 of the Oil and Gas Properties attributable to the XTO Acquired Assets as evaluated in the engineering report prepared by the Borrower and audited by Ryder Scott Company L.P. as of February 1, 2022.

SECTION5.19. Material Contracts. The Borrower will maintain in force all Material Contracts except amendments, supplements, or other modifications that could not reasonably be expected to cause a Material Adverse Effect and or materially impair the Loans Parties' respective businesses and operations.

SECTION 5.20. Solvency. At all times, the Borrower shall individually be, and the Borrower and its Subsidiaries shall on a consolidated basis be, Solvent.

SECTION 5.21. Anti-Corruption Laws; USA PATRIOT Act; Anti-Terrorism Laws and Sanctions .

(a) The Borrower will maintain in effect policies and procedures designed to ensure compliance by the Borrower, the Subsidiaries, BKV-BPP and their respective directors, officers, employees and agents with applicable Anti-Corruption Laws and applicable Sanctions.

(b) The Borrower, the Subsidiaries, BKV-BPP, their respective officers and employees and, to the knowledge of the Borrower, their respective directors and agents shall at all times be in compliance with Anti-Corruption Laws and applicable Sanctions in all material respects and shall not engage in any activity that would reasonably be expected to result in any of the Borrower, the Subsidiaries or BKV-BPP being designated as a Sanctioned Person.

(c) None of (x) the Borrower, any Subsidiary, BKV-BPP or any of their respective directors, officers or employees, or (y) to the knowledge of the Borrower, any agent of the Borrower that will act in any capacity in connection with or benefit from the credit facility established hereby, shall be a Sanctioned Person.

ARTICLE VI

Negative Covenants

From the Effective Date until Payment in Full, the Borrower covenants and agrees with the Lenders that:

SECTION 6.01. Indebtedness. The Borrower will not, and will not permit any of its Subsidiaries to, create, incur, assume or permit to exist any Indebtedness, except:

(a) Indebtedness existing on the date hereof and set forth on Schedule 6.01;

(b) Indebtedness of any Loan Party owing to any other Loan Party;

(c) Reserved;

(d) Indebtedness of the Borrower or any Subsidiary of the Borrower incurred to finance the acquisition, construction or improvement of any fixed or capital assets, including Capital Lease Obligations, and extensions, renewals and replacements of any such Indebtedness; provided that (i)such Indebtedness is incurred prior to or within 180 days after such acquisition or the completion of such construction or improvement and (ii)the aggregate principal amount of Indebtedness incurred pursuant to this Section 6.01(d) shall not exceed $5,000,000 at any time outstanding;

(e) Indebtedness incurred to finance insurance premiums in an aggregate principal amount not to exceed the amount of such insurance premiums;

(f) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument inadvertently (except in the case of daylight overdrafts) drawn against insufficient funds in the ordinary course of business;

(g) to the extent constituting Indebtedness,Indebtedness associated with workers' compensation claims, performance, bid, surety or similar bonds or surety obligations required by Governmental Requirements or third parties in the ordinary course of business in connection with the operation of the Oil and Gas Properties;

(h) (i)earnout obligations consisting of the Subject Payments, (ii)Indebtedness in the form of indemnification, incentive, non-compete, consulting or other similar arrangements in respect of any Investments permitted hereunder and (iii)Indebtedness arising from agreements providing for indemnification related to sales of goods or adjustment of purchase price or similar obligations in any case incurred in connection with the sale or other disposition of any business, assets or Subsidiary permitted hereunder;

(i) unsecured Indebtedness incurred (A)under the Uncommitted Credit Facility Agreements in an amount not to exceed $65,000,000 or (B) otherwise for working capital purposes; provided that (1) the aggregate amount of Indebtedness incurred pursuant to this clause (i) shall not exceed (x) at any time prior to the consummation of a Qualified IPO, an amount equal to $150,000,000 or (y)on or after the consummation of a Qualified IPO, an amount equal to $200,000,000, (2)such Indebtedness, if not incurred under any Uncommitted Credit Facility Agreement, shall not mature earlier than 91 days after the Maturity Date, (3)such Indebtedness shall rank pari passu or junior in right of payment to the Term Loans, and if junior, shall be subject to customary subordination terms reasonably acceptable to the Administrative Agent and (4)the proceeds of any such Indebtedness incurred pursuant to this clause (i)may not be used to prepay any Subordinated Shareholder Loans; and

(j) Indebtedness of the Borrower owing to Banpu North America arising from Subordinated Shareholder Loans; and

(k) unsecured Indebtedness of the Borrower or any Subsidiary Guarantor incurred in respect of letters of credit issued in the ordinary course of business.

SECTION 6.02. Liens. The Borrower will not, and will not permit any Subsidiary of the Borrower to, create, incur, assume or permit to exist any Lien on any property or asset now owned or hereafter acquired by it, except:

(a) Permitted Encumbrances;

(b) any Lien on any property or asset of the Borrower or any Subsidiary of the Borrower existing on the date hereof and set forth in Schedule 6.02; provided that (i) such Lien shall not apply to any other Property or asset of the Borrower or any Subsidiary of the Borrower and (ii) such Lien shall secure only those obligations which it secures on the date hereof and extensions, renewals and replacements thereof that do not increase the original outstanding principal amount thereof unless such increased amount is otherwise permitted hereunder (plus the amount of any capitalized fees and expenses incurred in connection with such extension, renewal or replacement);

(c) Liens existing on any property or asset prior to the acquisition thereof by the Borrower or any Subsidiary or existing on any property or asset of any Person that becomes a Subsidiary of the Borrower after the Effective Date prior to the time such Person becomes a Subsidiary; provided that (i)such Liens are not created in contemplation of or in connection with such acquisition or such Person becoming a Subsidiary, as the case may be, (ii)such Liens shall not apply to any other property or assets of the Borrower or any Subsidiary and (iii)such Liens shall secure only those obligations which they secure on the date of such acquisition or the date such Person becomes a Subsidiary, as the case may be; provided further that any such Liens shall only be permitted in connection with any such acquisition or such Person becoming a Subsidiary until the date that is two (2)months after the date of such acquisition or such Person becoming a Subsidiary, as the case may be;

(d) Liens securing Indebtedness incurred pursuant to Section 6.01(d); provided that (i)such Liens are created prior to or within sixty (60) days after such acquisition or the completion of such construction or improvement, (ii)the Indebtedness secured thereby does not exceed the cost of acquiring, constructing or improving such fixed or capital assets and (iii)such Liens do not encumber any other property or assets of the Borrower or any Subsidiary of the Borrower (other than improvements, accessions, proceeds and assets fixed or appurtenant thereto and except that individual financings by a lender may be cross-collateralized to other financings by such lender or its Affiliate);

(e) Liens on insurance policies and the proceeds thereof securing the financing of the related insurance premiums permitted under Section 6.01(e);

(f) Liens on property of any Loan Party securing obligations of such Loan Party owing to any other Loan Party;

(g) Liens securing the Obligations;

(h) Liens encumbering Properties of the Borrower and its Subsidiaries (other than Equity Interests in Subsidiaries of the Borrower) having an aggregate value, when aggregated with the aggregate value of all Oil and Gas Properties Disposed of pursuant to Section 6.04(d), not to exceed $25,000,000 (after giving effect to the incurrence of any such new Liens); and

(i) other Liens as may be agreed in writing by the Required Lenders in their sole discretion.

SECTION 6.03. Fundamental Changes; Nature of Business .

(a) The Borrower will not, and will not permit any of its Subsidiaries to, merge into or consolidate with any other Person, or permit any other Person to merge into or consolidate with it, or Dispose of all or substantially all of its Property (whether in a single transaction or a series of transactions), or liquidate or dissolve, including, in each case, pursuant to a Division, except:

(i) any Subsidiary of the Borrower may merge into the Borrower or a Subsidiary Guarantor in a transaction in which the surviving entity is the Borrower or a Subsidiary Guarantor (provided that any such merger involving the Borrower must result in the Borrower as the surviving entity);

(ii) any Subsidiary of the Borrower may Dispose of all or substantially all of its assets to the Borrower or any Subsidiary Guarantor;

(iii) any Subsidiary of the Borrower may liquidate or dissolve if the Borrower determines in good faith that such liquidation or dissolution is in the best interests of the Borrower and is not materially disadvantageous to the Lenders (provided that all assets and property of such Subsidiary are distributed to a Loan Party in connection with such liquidation or dissolution);

(iv) if at the time thereof and immediately after giving effect thereto no Default shall have occurred and be continuing, any Person (other than the Borrower or a Subsidiary) may participate in a merger or consolidation with a Subsidiary of the Borrower in connection with any Investment permitted under Section 6.05 (provided that, if such merger or consolidation involves a Subsidiary Guarantor, a Subsidiary Guarantor shall be the continuing or surviving entity); and

(v) any Subsidiary of the Borrower may effect a merger, dissolution, liquidation or consolidation to effect a Disposition permitted pursuant to Section 6.04 or an Investment permitted pursuant to Section 6.05.

(b) The Borrower will not, and will not permit any of its Subsidiaries to, (i)engage in any business other than the exploration, development, production and sale of Hydrocarbons, midstream, downstream, carbon capture, utilization and storage (CCUS), solar and activities reasonably incidental or related thereto or (ii)acquire or make any other expenditure (whether such expenditure is capital, operating or otherwise) in or related to, any Oil and Gas Properties not located within the geographical boundaries of Canada, the United States or Mexico.

(c) The Borrower will not, nor will it permit any of its Subsidiaries to, change its Fiscal Year from the basis in effect on the Effective Date.

SECTION 6.04. Asset Sales. The Borrower shall not, nor shall it permit any of its Subsidiaries to, Dispose of any of its assets (including any of the Equity Interests of any of its Subsidiaries), whether now owned or hereafter acquired, including pursuant to a Division, except that the Borrower and its Subsidiaries may:

(a) sell Hydrocarbons, seismic data or Cash Equivalents in the ordinary course of business;

(b) enter into (i)Acreage Swaps and (ii)farmouts of undeveloped acreage or undrilled depths, in each case, to which no Proved Reserves are attributed and assignments in connection with such farmouts;

(c) Dispose of equipment and other personal property that is obsolete, worn out or uneconomic and Disposed of in the ordinary course of business or no longer necessary for the business of the Borrower or such Subsidiary of the Borrower or is replaced by equipment or other personal property of at least comparable value and use;

(d) Dispose of any Oil and Gas Property or any interest therein (including any Equity Interests in any Subsidiary that owns Oil and Gas Properties); provided that:

(i) except with respect to Casualty Events, no Default or Event of Default shall have occurred and be continuing at the time of such Disposition,

(ii) at least 75% of the consideration (other than environmental or other liabilities associated with such property and assumed by the purchaser or its Affiliates) received in respect of such Disposition shall be cash or Cash Equivalents,

(iii) the consideration received in respect of such Disposition shall be equal to or greater than the fair market value of the Oil and Gas Properties or interest therein (or Equity Interests) subject of such Disposition (as reasonably determined by a Responsible Officer of the Borrower and if requested by the Administrative Agent, the Borrower shall deliver a certificate of a Responsible Officer of the Borrower certifying to the foregoing),

(iv) the Borrower shall make all mandatory prepayments required by, and within the time periods set forth in, Section 2.08 in connection with such Disposition, and

(v) the total value of all Oil and Gas Properties Disposed of under this clause (d), when aggregated with the total aggregate value of the Properties of the Borrower and its Subsidiaries subject to Liens incurred pursuant to Section 6.02(h), shall not exceed $25,000,000 (after giving effect to

such Disposition);

(e) enter into licenses of technology in the ordinary course of business;

(f) enter into leases or subleases of real or personal property and grant easements, rights-of-way, permits, licenses, restrictions or the like with respect to real or personal property, in each case, which do not interfere in any material respect with the ordinary course of business of the Borrower and its Subsidiaries;

(g) Dispose of Property to a Loan Party or among Loan Parties;

(h) unwind, monetize or terminate any Swap Agreement (including as may be necessary to comply with Section 6.06(a)), so long as, immediately after giving effect to such unwind, monetization or termination, the Borrower shall be in compliance with the minimum hedging requirements of Section 5.16, provided that in connection therewith, the Borrower shall make all mandatory prepayments required by, and within the time periods set forth in, Section 2.08;

(i) license, sublicense, abandon or otherwise Dispose of intellectual property rights in the ordinary course of business; and

(j) sell or discount without recourse accounts receivable in the ordinary course of business in connection with the compromise or collection thereof.

SECTION 6.05. Investments, Loans, Advances, Guarantees and Acquisitions . The Borrower will not, and will not permit any of its Subsidiaries to, make any Investment in any Person, except:

(a) Investments in Cash Equivalents;

(b) Investments by the Borrower and its Subsidiaries existing on the date hereof in the Equity Interests of its Subsidiaries;

(c) Investments made by any Loan Party in or to any other Loan Party;

(d) Guarantees constituting Indebtedness permitted by Section 6.01;

(e) any guarantees by the Borrower and its Subsidiaries of the operating or commercial obligations (to the extent not constituting Indebtedness) of the Borrower or any of its Subsidiaries incurred in the ordinary course of business;

(f) Investments consisting of extensions of credit in the nature of accounts receivable or notes receivable arising from the granting of trade credit in the ordinary course of business, and Investments received in satisfaction or partial satisfaction thereof from financially troubled account debtors to the extent reasonably necessary in order to prevent or limit loss;

(g) deposits made in the ordinary course of business to secure the performance of leases or other obligations as permitted by Section 6.02;

(h) Reserved;

(i) loans made by the Borrower to Temple Generation I LLC pursuant to the BKV-Temple Loan Agreement in an aggregate principal amount not to exceed $15,000,000 at any time outstanding;

(j) Investments in direct ownership interests in additional Oil and Gas Properties and Properties related to oil and gas exploration and production activities, midstream, downstream, carbon capture, utilization and storage (CCUS), solar and any other related businesses located within the geographic boundaries of Canada, the United States and Mexico so long as after giving pro forma effect thereto no Default or Event of Default shall have occurred and be continuing;

(k) any other Investment (other than acquisitions) not otherwise permitted by this Section 6.05, so long as (i) at the time of such Investment and immediately after giving effect thereto, no Default or Event of Default shall have occurred and be continuing and (ii)the aggregate amount of all such Investments made pursuant to this clause (k) does not exceed $5,000,000 at any time outstanding;

(l) Investments in the form of Swap Agreements not prohibited under Section 6.06;

(m) Investments in the ordinary course of business consisting of (x)endorsements for collection or deposit and customary trade arrangements with customers and (y) deposits, prepayments and/or other credits to suppliers, vendors or other trade counterparties;

(n) promissory notes and other non-cash consideration received by the Borrower, the Borrower or any Subsidiary in connection with any Disposition permitted hereunder; and

(o) the acquisition of the XTO Acquired Assets pursuant to the XTO Acquisition Agreement.

SECTION 6.06. Swap Agreements.

(a) The Borrower will not, and will not permit any of its Subsidiaries to, enter into any Swap Agreements in respect of commodities with any Person other than Swap Agreements in respect of commodities (i)with an Approved Swap Counterparty, (ii)the tenor of which does not exceed five (5)years and (iii)the notional volumes for which (other than for (x)basis differential swaps on volumes hedged pursuant to other Swap Agreements and (y)Swap

Agreements providing for floors), when aggregated with all other commodity Swap Agreements then in effect (other than for (x)basis differential swaps on volumes hedged pursuant to other Swap Agreements and (y)Swap Agreements providing for floors) do not exceed on a monthly basis (determined, in the case of contracts that are not settled on a monthly basis, by a monthly proration acceptable to the Administrative Agent), as of the date the latest hedging transaction is entered into under any such Swap Agreement, ninety percent (90%) of the reasonably anticipated projected production of crude oil, natural gas and natural gas liquids, calculated in the aggregate, attributable to Proved Developed Producing Reserves of the Loan Parties evaluated in the most recently delivered Reserve Report.

(b) No Swap Agreement shall be entered into for speculative purposes.

(c) For purposes of entering into or maintaining Swap Agreement trades or transactions under this Section 6.06, forecasts of reasonably anticipated production from the Proved Oil and Gas Properties of the Borrower and its Subsidiaries as set forth on the most recent Reserve Report delivered pursuant to the terms of this Agreement shall, at the option of the Borrower, be deemed to be updated to account for any increase or decrease therein anticipated because of information obtained by the Borrower or any of its Subsidiaries and delivered to the Administrative Agent subsequent to the publication of such Reserve Report including, without limitation, the internal forecasts of the Borrower and its Subsidiaries of production decline rates for existing wells, additions to or deletions from anticipated future production from new wells, completed dispositions, and completed acquisitions coming on stream or failing to come on stream; provided that any such supplemental information shall be provided to the Administrative Agent and be reasonably satisfactory to the Administrative Agent and if any such supplemental information is delivered, such information shall be presented on a net basis (*i.e.*, it shall take into account both increases and decreases in anticipated production subsequent to publication of the most recent Reserve Report).

SECTION 6.07. Transactions with Affiliates. The Borrower will not, and will not permit any of its Subsidiaries to, enter into or permit to exist any transaction (including the purchase, sale, lease or exchange of any property or the rendering of any service) with any Affiliate of, or officer or director of, the Borrower or any Subsidiary of the Borrower, except at prices and on terms and conditions that are no less favorable to the Borrower or such Subsidiary, as the case may be, than those that could be obtained at the time from a Person who is not an officer, director or Affiliate of the Borrower or any Subsidiary of the Borrower; provided that the foregoing restriction shall not apply to (a)any transaction solely between or among the Loan Parties not involving any other Affiliate, (b) fees and compensation to, reimbursement of expenses of, and indemnity provided on behalf of, officers, directors and employees of the Borrower or any of its Subsidiaries in their capacity as such, to the extent such fees and compensation are customary, (c)any Restricted Payment permitted by Section 6.08 and Investments permitted by Section 6.05, (d)issuances of Equity Interests of the Borrower not prohibited by this Agreement, and (e)the performance of employment, equity award, equity option or equity appreciation agreements, plans or similar compensation or benefit plans or arrangements (including vacation plans, health and insurance plans, deferred compensation plans and retirement or savings plans); provided, further, that in no event shall the Borrower or any of its Subsidiaries enter into any transaction providing financial support to any Permitted Holder.

SECTION 6.08. Restricted Payments. The Borrower will not, and will not permit any of its Subsidiaries to, declare or make, or agree to pay or make, directly or indirectly, any Restricted Payment, except:

(a) the Borrower may declare and pay dividends with respect to its Qualified Equity Interests payable solely in additional units or shares of its Equity Interests (other than Disqualified Equity Interests);

(b) Subsidiaries may declare and pay dividends to the Borrower and other Subsidiaries ratably with respect to their Equity Interests;

(c) the Borrower may redeem, acquire, retire or repurchase, for cash, shares of Equity Interests (other than Disqualified Equity Interests) of the Borrower held by an present or former officer, manager, director or employee of the Borrower or any of its Subsidiaries upon the death, disability, retirement or termination of employment of any such person or otherwise make Restricted Payments pursuant to Qualifying Benefit Plans so long as, in each case, no Default or Event of Default exists at the time of such payment or results therefrom; and

(d) the Borrower may make Restricted Payments in an aggregate amount not to exceed the Specified Amount so long as the Payment Conditions have been met.

SECTION 6.09. Reduction in Share Capital. The Borrower will not, and will not permit any of its Subsidiaries or any other Person to, redeem, purchase or otherwise reduce any of the Borrower's or any Subsidiary's authorized or outstanding Equity Interests or the share capital of the Borrower or its Subsidiaries, except in each case as permitted by Section 6.08.

SECTION 6.10. Sale and Leaseback Transactions. The Borrower will not, nor will it permit any of its Subsidiaries to, consummate any Sale and Leaseback Transaction.

SECTION 6.11. Financial Covenants.

(a) Minimum Asset Coverage Ratio. The Borrower will not, as of December31 and June30 of any Fiscal Year (beginning June30, 2022), permit the Asset Coverage Ratio to be less than 2.00 to 1.00.

(b) Maximum Total Net Leverage Ratio. The Borrower will not, as of the last day of any Fiscal Quarter (commencing with the Fiscal Quarter ending June 30, 2022), permit the Total Net Leverage Ratio to be greater than 2.50 to 1.00.

(c) Minimum Consolidated Fixed Charge Coverage Ratio. The Borrower will not, as of the last day of any Fiscal Quarter (commencing with the Fiscal Quarter ending June 30, 2022), permit the Consolidated Fixed Charge Coverage Ratio to be less than 1.30 to 1.00.

SECTION 6.12. Amendments to Organizational Documents. The Borrower shall not, nor shall it permit any of its Subsidiaries to amend, modify, waive or supplement (or permit any modification, amendment, waiver or supplement of) any of the terms or provisions of its Organizational Documents in any manner that is materially adverse to the interests of the Lenders;

SECTION 6.13. Sale or Discount of Receivables. Except for the settlement of joint interest billing accounts in the ordinary course of business or discounts granted to settle collection of accounts receivable or the sale of defaulted accounts arising in the ordinary course of business in connection with the compromise or collection thereof and not in connection with any financing transaction, the Borrower will not, and will not permit any of its Subsidiaries to, discount or sell (with or without recourse) any of its notes receivable or accounts receivable.

SECTION 6.14. Foreign Subsidiaries. The Borrower shall not, nor shall it permit any of its Subsidiaries to, create, acquire or permit to exist any Subsidiary which is not organized under the laws of a jurisdiction located in the United States of America.

SECTION 6.15. Proceeds of Loans. The Borrower and each Subsidiary of the Borrower will not permit the proceeds of the Term Loans to be used for any purpose other than those permitted by Section 3.20. The Borrower shall not issue a Borrowing Request and the Borrower shall not use, and shall procure that its directors, officers, employees and agents shall not use, the proceeds of the Term Loans (i)in furtherance of an offer, payment, promise to pay, or authorization of the payment or giving of money, or anything else of value, to any Person in violation of any Anti-Corruption Laws, (ii)for the purpose of funding, financing or facilitating any activities, business or transaction of or with any Sanctioned Person, or in any Sanctioned Country to the extent such activities, business or transaction would be prohibited by Sanctions if conducted by a corporation incorporated in the United States, or (iii)in any manner that would result in the violation of any Sanctions applicable to any party hereto.

SECTION 6.16. Take-or-Pay or Other Prepayments. Except as set forth on Schedule 3.23 or in the most recent certificate delivered pursuant to Section 5.14(d), the Borrower will not, and will not permit any of its Subsidiaries to, allow, on a net basis, gas imbalances, take-or-pay or other prepayments with respect to the Proved Oil and Gas Properties of the Loan Parties that would require any Loan Party to deliver Hydrocarbons either generally or produced from Oil and Gas Properties at some future date with a value of $5,000,000 or more, which in the case of imbalances, would be satisfied no later than forty five (45) days after being occurred.

SECTION 6.17. Marketing Activities. The Borrower will not, and will not permit any of its Subsidiaries to, engage in marketing activities for any Hydrocarbons or enter into any contracts related thereto other than (i)contracts for the sale of Hydrocarbons scheduled or reasonably estimated to be produced from their Proved Oil and Gas Properties during the period of such contract and (ii)contracts for the sale of Hydrocarbons scheduled or reasonably estimated to be produced from Proved Oil and Gas Properties of third parties during the period of such contract associated with the Oil and Gas Properties of the Borrower or any Subsidiary that the Borrower or such Subsidiary has the right to market pursuant to joint operating agreements, unitization agreements or other similar contracts that are usual and customary in the oil and gas business.

SECTION 6.18. Prepayment of Subordinated Shareholder Loans; Amendments to Subordinated Shareholder Loan Documents.

(a) The Borrower shall not, nor shall the Borrower permit any of its Subsidiaries to, prepay, redeem, purchase, defease or otherwise satisfy prior to the scheduled maturity thereof in any manner any Subordinated Shareholder Loan, (ii)make any cash payment of interest on any Subordinated Shareholder Loans ((i)and (ii), each, a " Restricted Debt Payment"), or (iii)make any payment in violation of any subordination terms of any Subordinated Shareholder Loans, except:

(i) the refinancing thereof with the net proceeds of, or in exchange for, any Indebtedness permitted to be incurred pursuant to Section 6.01; and

(ii) any Restricted Debt Payments in an amount not to exceed the Specified Amount so long as the Payment Conditions are met.

(b) The Borrower shall not, nor shall it permit any of its Subsidiaries to, amend, modify or change any agreement governing any Subordinated Shareholder Loans (including the Amended and Restated Shareholder Loan Agreements) in a manner materially adverse to the interests of the Lenders without the prior written consent of the Administrative Agent (provided that, for the avoidance of doubt, any amendment which would (x)increase the rate of interest applicable to any Subordinated Shareholder Loan, (y)make any Subordinated Shareholder Loan secured, or (z)make the principal amount of any Subordinated Shareholder Loan due and payable at an earlier time than prior to giving effect to such amendment shall be considered materially adverse to the interests of the Lenders).

SECTION 6.19. Withdrawal of Proceeds of Term Loans Made on the Initial Funding Date. The Borrower shall not withdraw the proceeds of the Term Loans made on the Initial Funding Date from the Initial Funding Date Account until it has provided the Administrative Agent (a)written notice that the XTO Acquisition is being consummated on the date of (and substantially concurrently with) such withdrawal and (b)any other information reasonably necessary to facilitate the wire transfer of the proceeds of the Term Loans made on the Initial Funding Date from the Initial Funding Date Account to the XTO Sellers or their assigns.

SECTION 6.20. Amendments to Uncommitted Credit Facility Agreements

SECTION6.21. . The Borrower shall not, nor shall it permit any of its Subsidiaries to, amend, modify or change any Uncommitted Credit Facility Agreement in a manner materially adverse to the interests of the Lenders without the prior written consent of the Administrative Agent.

ARTICLE VII

Events of Default

SECTION 7.01. Events of Default. If any of the following events (each, an "Event of Default") shall occur:

(a) the principal of any Term Loan shall not be paid when such payment is due, whether at the due date thereof or at a date fixed for prepayment thereof or otherwise;

(b) any interest on any Term Loan, any fee or any other amount (other than an amount referred to in clause(a)of this Section 7.01) payable under this Agreement or any other Loan Document shall not be paid when the same shall become due and payable and such failure shall continue unremedied for a period of (i)with respect to interest, two (2)Business Days solely to the extent such failure is as a result of a technical or administrative error and (ii) for any fee or any other amount (other than an amount referred to in clause (a) or (b)(i) of this Section 7.01), two (2) Business Days;

(c) any representation or warranty made or deemed made by or on behalf of the Borrower or any other Loan Party in or in connection with this Agreement or any other Loan Document or any amendment or modification hereof or thereof or waiver hereunder or thereunder, or in any report, certificate, financial statement or other document furnished pursuant to or in connection with this Agreement or any other Loan Document or any amendment or modification thereof or waiver thereunder, shall prove to have been incorrect in any material respect when made or deemed made (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in any respect);

(d) any Loan Party shall fail to observe or perform any covenant, condition or agreement contained in Section 5.02, 5.03 (with respect to the Borrower's existence), 5.04, 5.11, 5.14, 5.18 or in Article VI;

(e) (i) any Loan Party shall fail to observe or perform any covenant, condition or agreement contained in Section 5.01(a), Section 5.01(b) or Section 5.01(c), and such failure shall continue unremedied for a period of ten (10)Business Days or (ii)the Borrower or any other Loan Party, as applicable, shall fail to observe or perform any covenant, condition or agreement contained in this Agreement (other than those specified in clause(a), (b), (d)or (e)(i)of this Article) or any other Loan Document, and such failure shall continue unremedied for a period of thirty (30)days after the earlier of (A)notice thereof from the Administrative Agent to the Borrower or (B) a Responsible Officer of the Borrower or any other Loan Party becoming aware of such default;

(f) the Borrower or any Subsidiary of the Borrower shall fail to make any payment (whether of principal or interest and regardless of amount) in respect of any Material Indebtedness, when and as the same shall become due and payable (after giving effect to any applicable grace periods);

(g) other than as specified in clause (f)of this Article, any Loan Party defaults under any Material Indebtedness (other than, with respect to Material Indebtedness consisting of a Swap Agreement, termination events or equivalent events pursuant to the terms of such Swap Agreement not arising as a result of a default by any Loan Party thereunder) that results in any Material Indebtedness becoming due prior to its scheduled maturity or that enables or permits (with or without the giving of notice) the holder or holders of any Material Indebtedness or any trustee or agent on its or their behalf to cause any Material Indebtedness to become due, or to require the prepayment, repurchase, redemption or defeasance thereof, prior to its scheduled maturity;

(h) an involuntary proceeding shall be commenced or an involuntary petition shall be filed seeking (i)liquidation, reorganization or other relief in respect of the Borrower or any Subsidiary of the Borrower or its debts, or of a substantial part of its assets, under any Federal, state or foreign bankruptcy, insolvency, receivership or similar law now or hereafter in effect or (ii)the appointment of a receiver, trustee, custodian, sequestrator, conservator or similar official for the Borrower or any Subsidiary of the Borrower or for a substantial part of its assets, and, in any such case, such proceeding or petition shall continue undismissed for sixty (60) days or an order or decree approving or ordering any of the foregoing shall be entered;

(i) the Borrower or any Subsidiary of the Borrower shall (i)voluntarily commence any proceeding or file any petition seeking liquidation, reorganization or other relief under any Federal, state or foreign bankruptcy, insolvency, receivership or similar law now or hereafter in effect, (ii)consent to the institution of, or fail to contest in a timely and appropriate manner, any proceeding or petition described in clause(h)of this Section 7.01, (iii)apply for or consent to the appointment of a receiver, trustee, custodian, sequestrator, conservator or similar official for the Borrower or any Subsidiary of the Borrower or for a substantial part of its assets, (iv)file an answer admitting the material allegations of a petition filed against it in any such proceeding, or (v)make a general assignment for the benefit of creditors;

(j) the Borrower or any Subsidiary of the Borrower shall admit in writing its inability or fail generally to pay its debts as they become due;

(k) one or more final judgments for the payment of money in an aggregate amount in excess of $10,000,000 shall be rendered against the Borrower or any Subsidiary of the Borrower or any combination thereof (to the extent not covered by independent third-party insurance as to which the insurer does not dispute coverage) and the same shall remain undischarged for a period of sixty (60)consecutive days during which execution shall not be effectively stayed, or any action shall be legally taken by a judgment creditor to attach or levy upon any assets of the Borrower or any Subsidiary of the Borrower to enforce any such judgment;

(l) an ERISA Event shall have occurred that, in the opinion of the Administrative Agent, when taken together with all other ERISA Events that have occurred, could reasonably be expected to result in liability of the Loan Parties in an aggregate amount exceeding $10,000,000;

(m) a Change in Control shall occur;

(n) the occurrence of a material adverse change in the business, operations, properties, liabilities or financial condition of the Borrower and its Subsidiaries, taken as a whole;

(o) the Borrower and its Subsidiaries, taken as a whole, shall cease normal business operations;

(p) any Loan Party shall cease, suspend or Dispose of its core business without the consent of the Required Lenders;

(q) any material provision of any Loan Document for any reason ceases to be valid, binding and enforceable in accordance with its terms (or any Loan Party shall challenge the enforceability of any Loan Document or shall assert in writing, or engage in any action or inaction based on any such assertion, that any provision of any of the Loan Documents has ceased to be or otherwise is not valid, binding and enforceable in accordance with its terms);

then, and in every such event (other than an event with respect to any of the Loan Parties described in clause(h)or (i)of this Section 7.01), and at any time thereafter during the continuance of such event, the Administrative Agent may, and at the request of the Required Lenders shall, by notice to the Borrower, take either or both of the following actions, at the same or different times: (i)terminate the Commitments (if not already terminated), and thereupon the Commitments shall terminate immediately, and (ii)declare the Term Loans then outstanding to be due and payable in whole (or in part, in which case any principal not so declared to be due and payable may thereafter be declared to be due and payable), and thereupon the principal of the Term Loans so declared to be due and payable, together with accrued interest thereon, the Applicable Prepayment Premium with respect thereto and all fees and other Obligations accrued hereunder and under the other Loan Documents, shall become due and payable immediately, without presentment, demand, protest or other notice of any kind, all of which are hereby waived by each Loan Party; and in case of any event described in clause(h)or (i)of this Section 7.01, the Commitments shall automatically terminate and the principal of the Term Loans then outstanding, together with accrued interest thereon, the Applicable Prepayment Premium, any break funding payments required by Section 2.18 with respect thereto and all fees and other Obligations accrued hereunder and under the other Loan Documents, shall automatically become due and payable, without presentment, demand, protest or other notice of any kind, all of which are hereby waived by each Loan Party. Upon the occurrence and during the continuance of an Event of Default, the Administrative Agent may, and at the request of the Required Lenders shall (subject to its rights and protections under Article VIII), exercise any rights and remedies provided to the Administrative Agent, as applicable, under the Loan Documents or at law or equity, including all remedies provided under the UCC.

SECTION7.02. Right to Cure Financial Covenant Defaults. In the event that the Borrower fails to comply with Section6.11(b)or Section6.11(c)as of the last day of any Fiscal Quarter (a " Cure Quarter") then during the period beginning on the Cure Period Start Date and ending ten (10)Business Days after the date the Compliance Certificate for such Cure Date is required to be delivered pursuant to Section5.01(d)(the " Cure Period"), the Borrower shall be permitted to cure such failure to comply by receiving a Specified Contribution and by recalculating the financial covenant in Section6.11(b)of Section6.11(c)by increasing Consolidated EBITDA for such Cure Date by an amount up to the amount of the Specified Contribution received by the Borrower during the Cure Period (the "Cure Right"). If, after giving effect to the foregoing recalculations, the Borrower shall then be in compliance with the requirements of Section6.11(b)or Section6.11(c), the Borrower shall be deemed to have satisfied the requirements of Section6.11(b)or Section6.11(c)as of the last day of the applicable Cure Date with the same effect as though there had been no failure to comply with Section 6.11(b) or Section 6.11(c) on such date, and the applicable Default or Event of Default with respect to Section6.11(b)or Section6.11(c)and the Cure Date that had occurred shall be deemed not to have occurred for purposes of this Agreement and the other Loan Documents; provided, however, that:

(a) the Borrower shall notify the Administrative Agent in writing during the period beginning on the Cure Period Start Date and ending five (5)Business Days after the date the Compliance Certificate for such Cure Date is required to be delivered pursuant to Section 5.01(d)(the "Cure Election Period") that the Borrower intends to exercise the Cure Right in respect of the applicable Cure Date;

(b) in each period of four consecutive Cure Quarters there shall be at least two Cure Quarters in which no Cure Right is exercised;

(c) the Cure Right shall not be exercised more than five times during the term of this Agreement;

(d) the amount of each Specified Contribution that may be applied to increase Consolidated EBITDA for the applicable Cure Date shall not exceed the amount required to cause the Borrower to be in compliance with Section 6.11(b) with respect to such Cure Date;

(e) all proceeds of any Specified Contribution shall for the purposes of this Section 7.02 be treated as increases to Consolidated EBITDA rather than as decreases in Indebtedness (except if such Specified Contribution is in the form of a Subordinated Shareholder PIK Loan, in which case such Specified Contribution shall also be treated as a decrease in Indebtedness as a result of the related mandatory prepayment of Loans required by Section 2.08(d));

(f) the amount of any Specified Contribution used to increase Consolidated EBITDA shall be credited to the applicable Cure Date and such amount may be included in the calculation of Consolidated EBITDA for any consecutive four Fiscal Quarter period that includes such Cure Date; and

(g) Consolidated EBITDA shall be increased solely for the purpose of recalculating and complying with the financial covenant in Section 6.11(b) or Section 6.11(c) in accordance with this Section 7.02 and not for the purpose of calculating Consolidated EBITDA for any other purpose.

Upon receipt by the Administrative Agent of written notice from the Borrower, on or prior to the expiration of the Cure Election Period, that the Borrower intends to exercise a Cure Right in respect of a Fiscal Quarter, the Lenders shall not be permitted to accelerate payment of any Obligations owed to them or to exercise remedies, in each case, on the basis of a failure to comply with the requirements of Section6.11(b)or Section6.11(c)as of the end of such Fiscal Quarter, unless such failure is not cured pursuant to the exercise of the Cure Right on or prior to the expiration of the Cure Period; provided, however, that (i)the Cure Right shall not affect in any way the rights and remedies of the Lenders or the Administrative Agent with respect to any other Default or Event of Default and (ii) for the avoidance of doubt, unless and until (x) such failure to comply is cured pursuant to the exercise of the Cure Right and (y) the Borrower has delivered a certificate to the Administrative Agent certifying that the proceeds of the Specified Contribution were used exclusively to prepay any Loan in accordance with Section2.08(d), in each case, on or prior to the expiration of the Cure Period, the Borrower and its Subsidiaries shall be prohibited from taking any action that is prohibited under the Loan Documents from being taken while a Default or Event of Default exists. The Administrative Agent shall not be responsible for determining whether a Cure Right has been properly exercised in accordance with the terms of this Section 7.02. The proceeds of any Specified

Contribution received by the Borrower shall be used to prepay any Loans then outstanding in accordance with Section 2.08(d).

ARTICLE VIII

The Agents

SECTION 8.01. Appointment and Authorization.

(a) Each Lender hereby irrevocably appoints the entity named as Administrative Agent in the heading of this Agreement and its successors and assigns to serve as the administrative agent under the Loan Documents and each Lender and each Issuing Bank authorizes the Administrative Agent to take such actions as agent on its behalf and to exercise such powers under this Agreement and the other Loan Documents as are delegated to the Administrative Agent under such agreements and to exercise such powers as are reasonably incidental thereto. Without limiting the foregoing, each Lender hereby authorizes the Administrative Agent to execute and deliver, and to perform its obligations under, each of the Loan Documents to which the Administrative Agent is a party, to exercise all rights, powers and remedies that the Administrative Agent may have under such Loan Documents.

(b) As to any matters not expressly provided for herein and in the other Loan Documents (including enforcement or collection), the Administrative Agent shall not be required to exercise any discretion or take any action, but shall be required to act or to refrain from acting (and shall be fully protected in so acting or refraining from acting) upon the written instructions of the Required Lenders, as applicable (or such other number or percentage of the Lenders as shall be necessary, pursuant to the terms in the Loan Documents), and, unless and until revoked in writing, such instructions shall be binding upon each Lender; *provided, however*, that the Administrative Agent shall not be required to take any action that (i)the Administrative Agent in good faith believes exposes it to liability unless the Administrative Agent receives an indemnification satisfactory to it from the Lenders with respect to such action or (ii)is contrary to this Agreement or any other Loan Document or applicable Requirements of Law, including any action that may be in violation of the automatic stay under any requirement of law relating to bankruptcy, insolvency or reorganization or relief of debtors or that may effect a forfeiture, modification or termination of property of a Defaulting Lender in violation of any requirement of law relating to bankruptcy, insolvency or reorganization or relief of debtors; *provided further* that the Administrative Agent may seek clarification or direction from the Required Lenders, as applicable, prior to the exercise of any such instructed action and may refrain from acting until such clarification or direction has been provided. Except as expressly set forth in the Loan Documents, the Administrative Agent shall not have any duty to disclose, and shall not be liable for the failure to disclose, any information relating to the Borrower, any Subsidiary or any Affiliate of any of the foregoing that is communicated to or obtained by the Person serving as Administrative Agent or any of its Affiliates in any capacity. Nothing in this Agreement shall require the Administrative Agent to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder or in the exercise of any of its rights or powers if it shall have reasonable grounds for believing that repayment of such funds or adequate indemnity against such risk or liability is not reasonably assured to it.

(c) In performing its functions and duties hereunder and under the other Loan Documents, the Administrative Agent is acting solely on behalf of the Lenders (except in limited circumstances expressly provided for herein relating to the maintenance of the Register), and its duties are entirely mechanical and administrative in nature. Without limiting the generality of the foregoing:

(i) the Administrative Agent does not assume and shall not be deemed to have assumed any obligation or duty or any other relationship as the agent, fiduciary or trustee of or for any Lender or holder of any other obligation other than as expressly set forth herein and in the other Loan Documents, regardless of whether a Default or an Event of Default has occurred and is continuing (and it is understood and agreed that the use of the term “agent” (or any similar term) herein or in any other Loan Document with reference to the Administrative Agent is not intended to connote any fiduciary duty or other implied (or express) obligations arising under agency doctrine of any applicable Requirements of Law, and that such term is used as a matter of market custom and is intended to create or reflect only an administrative relationship between contracting parties); additionally, each Lender agrees that it will not assert any claim against the Administrative Agent based on an alleged breach of fiduciary duty by the Administrative Agent in connection with this Agreement and the transactions contemplated hereby;

(ii) nothing in this Agreement or any Loan Document shall require the Administrative Agent to account to any Lender for any sum or the profit element of any sum received by the Administrative Agent for its own account;

(d) The Administrative Agent may perform any of its duties and exercise its rights and powers hereunder or under any other Loan Document by or through any one or more sub-agents appointed by the Administrative Agent. The Administrative Agent and any such sub-agent may perform any of their respective duties and exercise their respective rights and powers through their respective Related Parties. The exculpatory provisions of this Article shall apply to any such sub-agent and to the Related Parties of the Administrative Agent and any such sub-agent, and shall apply to their respective activities pursuant to this Agreement. The Administrative Agent shall not be responsible for the negligence or misconduct of any sub-agent except to the extent that a court of competent jurisdiction determines in a final and nonappealable judgment that the Administrative Agent acted with gross negligence or willful misconduct in the selection of such sub-agent.

(e) Reserved.

(f) In case of the pendency of any proceeding with respect to any Loan Party under any Federal, state or foreign bankruptcy, insolvency, receivership or similar law now or hereafter in effect, the Administrative Agent (irrespective of whether the principal of any Term Loan or any Obligation shall then be due and payable as herein expressed or by declaration or otherwise and irrespective of whether the Administrative Agent shall have made any demand on the Borrower) shall be entitled and empowered (but not obligated) by intervention in such proceeding or otherwise:

(i) to file and prove a claim for the whole amount of the principal and interest owing and unpaid in respect of the Term Loans and all other Obligations that are owing and unpaid and to file such other documents as may be necessary or advisable in order to have the claims of the Lenders and the Administrative Agent (including any claim under Sections 2.09, 2.10, 2.12, 2.14 and 9.03) allowed in such judicial proceeding; and

(ii) to collect and receive any monies or other property payable or deliverable on any such claims and to distribute the same;

and any custodian, receiver, assignee, trustee, liquidator, sequestrator or other similar official in any such proceeding is hereby authorized by each Lender and each other Credit Party to make such payments to the Administrative Agent and, in the event that the Administrative Agent shall consent to the making of such payments directly to the Lenders or the other Credit Parties, to pay to the Administrative Agent any amount due to it, in its capacity as the Administrative Agent, under the Loan Documents (including under Section 9.03). Nothing contained herein shall be deemed to authorize the Administrative Agent to authorize or consent to or accept or adopt on behalf of any Lender any plan of reorganization, arrangement, adjustment or composition affecting the Obligations or the rights of any Lender or to authorize the Administrative Agent to vote in respect of the claim of any Lender in any such proceeding.

(g) The provisions of this Article are solely for the benefit of the Administrative Agent, the Lenders, and, except solely to the extent of the Borrower's rights to consent pursuant to and subject to the conditions set forth in this Article, none of the Borrower or any Subsidiary, or any of their respective Affiliates, shall have any rights as a third party beneficiary under any such provisions. Each Credit Party, whether or not a party hereto, will be deemed, by its acceptance of the benefits of the Guarantees of the Obligations provided under the Loan Documents, to have agreed to the provisions of this Article.

SECTION 8.02. Administrative Agent's Reliance, Indentification, Etc.

(a) Neither the Administrative Agent nor any of its Related Parties shall be (i) liable for any action taken or omitted to be taken by it under or in connection with this Agreement or the other Loan Documents (x) with the consent of or at the request of the Required Lenders, as applicable, (or such other number or percentage of the Lenders as shall be necessary, or as the Administrative Agent shall believe in good faith to be necessary, under the circumstances as provided in the Loan Documents) or (y) in the absence of its own gross negligence or willful misconduct (such absence to be presumed unless otherwise determined by a court of competent jurisdiction by a final and nonappealable judgment) or (ii) responsible in any manner to any of the Lenders for any recitals, statements, representations or warranties made by any Loan Party or any officer thereof contained in this Agreement or any other Loan Document or in any certificate, report, statement or other document referred to or provided for in, or received by the Administrative Agent under or in connection with, this Agreement or any other Loan Document or for the value, validity, effectiveness, genuineness, enforceability or sufficiency of this Agreement or any other Loan Document or for any failure of any Loan Party to perform its obligations hereunder or thereunder.

(b) The Administrative Agent shall be deemed not to have knowledge of any Default unless and until written notice thereof (stating that it is a "notice of default") is given to the Administrative Agent by the Borrower, a Lender and the Administrative Agent shall not be responsible for or have any duty to ascertain or inquire into (i) any statement, warranty or representation made in or in connection with any Loan Document, (ii) the contents of any certificate, report or other document delivered thereunder or in connection therewith, (iii) the performance or observance of any of the covenants, agreements or other terms or conditions set forth in any Loan Document or the occurrence of any Default, (iv) the sufficiency, validity, enforceability, effectiveness or genuineness of any Loan Document or any other agreement, instrument or document, (v) the satisfaction of any condition set forth in Article IV or elsewhere in any Loan Document, other than to confirm receipt of items expressly required to be delivered to the Administrative Agent or satisfaction of any condition that expressly refers to the matters described therein being acceptable or satisfactory to the Administrative Agent, or (vi) the creation, perfection or priority of Liens on any collateral.

(c) Without limiting the foregoing, the Administrative Agent (i) may treat the payee of any promissory note as its holder until such promissory note has been assigned in accordance with Section 9.04, (ii) may rely on the Register to the extent set forth in Section 9.04(b), (iii) may consult with legal counsel (including counsel to the Borrower), independent public accountants and other experts selected by it, and shall not be liable for any action taken or omitted to be taken in good faith by it in accordance with the advice of such counsel, accountants or experts, (iv) makes no warranty or representation to any Lender and shall not be responsible to any Lender for any statements, warranties or representations made by or on behalf of any Loan Party in connection with this Agreement or any other Loan Document, (v) in determining compliance with any condition hereunder to the making of a Term Loan that by its terms must be fulfilled to the satisfaction of a Lender, may presume that such condition is satisfactory to such Lender unless the Administrative Agent shall have received notice to the contrary from such Lender sufficiently in advance of the making of such Term Loan and (vi) shall be entitled to rely on, and shall incur no liability under or in respect of this Agreement or any other Loan Document by acting upon, any notice, consent, certificate or other instrument or writing (which writing may be a fax, any electronic message, Internet or intranet website posting or other distribution) or any statement made to it orally or by telephone and believed by it to be genuine and signed or sent or otherwise authenticated by the proper party or parties (whether or not such Person in fact meets the requirements set forth in the Loan Documents for being the maker thereof).

SECTION 8.03. Posting of Communications.

(a) The Borrower agrees that the Administrative Agent may, but shall not be obligated to, make any Communications available to the Lenders by posting the Communications on IntraLinks™, DebtDomain, SyndTrak, ClearPar or any other electronic platform chosen by the Administrative Agent to be its electronic transmission system (the "Approved Electronic Platform").

(b) Although the Approved Electronic Platform and its primary web portal are secured with generally-applicable security procedures and policies implemented or modified by the Administrative Agent from time to time (including, as of the Effective Date, a user ID/password authorization system) and the Approved Electronic Platform is secured through a per-deal authorization method whereby each user may access the Approved Electronic Platform only on a deal-by-deal basis, each of the Lenders Banks and the Borrower acknowledges and agrees that the distribution of material through an electronic medium is not necessarily secure and that there are confidentiality and other risks associated with such distribution. Each of the Lenders and the Borrower

hereby approves distribution of the Communications through the Approved Electronic Platform and understands and assumes the risks of such distribution.

(c) THE APPROVED ELECTRONIC PLATFORM AND THE COMMUNICATIONS ARE PROVIDED "AS IS" AND "AS AVAILABLE". THE APPLICABLE PARTIES (AS DEFINED BELOW) DO NOT WARRANT THE ACCURACY OR COMPLETENESS OF THE COMMUNICATIONS, OR THE ADEQUACY OF THE APPROVED ELECTRONIC PLATFORM AND EXPRESSLY DISCLAIM LIABILITY FOR ERRORS OR OMISSIONS IN THE APPROVED ELECTRONIC PLATFORM AND THE COMMUNICATIONS. NO WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR STATUTORY, INCLUDING ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT OF THIRD PARTY RIGHTS OR FREEDOM FROM VIRUSES OR OTHER CODE DEFECTS, IS MADE BY THE APPLICABLE PARTIES IN CONNECTION WITH THE COMMUNICATIONS OR THE APPROVED ELECTRONIC PLATFORM. IN NO EVENT SHALL THE ADMINISTRATIVE AGENT OR ANY OF ITS RELATED PARTIES (COLLECTIVELY, "APPLICABLE PARTIES") HAVE ANY LIABILITY TO ANY LOAN PARTY, ANY LENDER OR ANY OTHER PERSON OR ENTITY FOR DAMAGES OF ANY KIND, INCLUDING DIRECT OR INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, LOSSES OR EXPENSES (WHETHER IN TORT, CONTRACT OR OTHERWISE) ARISING OUT OF ANY LOAN PARTY'S OR THE ADMINISTRATIVE AGENT'S TRANSMISSION OF COMMUNICATIONS THROUGH THE INTERNET OR THE APPROVED ELECTRONIC PLATFORM IN THE ABSENCE OF ITS OWN GROSS NEGLIGENCE OR WILLFUL MISCONDUCT (SUCH ABSENCE TO BE PRESUMED UNLESS OTHERWISE DETERMINED BY A COURT OF COMPETENT JURISDICTION BY A FINAL AND NONAPPEALABLE JUDGMENT).

(d) Each Lender agrees that notice to it (as provided in the next sentence) specifying that Communications have been posted to the Approved Electronic Platform shall constitute effective delivery of the Communications to such Lender for purposes of the Loan Documents. Each Lender agrees (i) to notify the Administrative Agent in writing (which could be in the form of electronic communication) from time to time of such Lender's email address to which the foregoing notice may be sent by electronic transmission and (ii) that the foregoing notice may be sent to such email address.

(e) Each of the Lenders and the Borrower agrees that the Administrative Agent may, but (except as may be required by applicable Requirements of Law) shall not be obligated to, store the Communications on the Approved Electronic Platform in accordance with the Administrative Agent's generally applicable document retention procedures and policies.

(f) Nothing herein shall prejudice the right of the Administrative Agent, any Lender to give any notice or other communication pursuant to any Loan Document in any other manner specified in such Loan Document.

SECTION 8.04. The Administrative Agent Individually . With respect to its Commitment and Term Loans, the Person serving as the Administrative Agent shall have and may exercise the same rights and powers hereunder and is subject to the same obligations and liabilities as and to the extent set forth herein for any other Lender, as the case may be. The terms "Lenders", "Required Lenders" and any similar terms shall, unless the context clearly otherwise indicates, include the Administrative Agent in its individual capacity as a Lender or as one of the Required Lenders, as applicable. The Person serving as the Administrative Agent and its Affiliates may accept deposits from, lend money to, own securities of, act as the financial advisor or in any other advisory capacity for and generally engage in any kind of banking, trust or other business with, the Borrower, any Subsidiary or any Affiliate of any of the foregoing as if such Person was not acting as the Administrative Agent and without any duty to account therefor to the Lenders.

SECTION 8.05. Successor Administrative Agent .

(a) The Administrative Agent may resign at any time by giving 30 days' prior written notice thereof to the Lenders and the Borrower, whether or not a successor Administrative Agent has been appointed. Upon any such resignation, the Required Lenders shall have the right (with, so long as no Event of Default exists, the consent of the Borrower, which shall not be unreasonably withheld or delayed) to appoint a successor Administrative Agent. If no successor Administrative Agent shall have been so appointed by the Required Lenders, and shall have accepted such appointment, within 30 days after the retiring Administrative Agent's giving of notice of resignation, then the retiring Administrative Agent may, on behalf of the Lenders, appoint a successor Administrative Agent, which shall be a bank with an office in New York, New York or an Affiliate of any such bank. In either case, such appointment shall be subject to the prior written approval of the Borrower (which approval may not be unreasonably withheld and shall not be required while an Event of Default has occurred and is continuing). Upon the acceptance of any appointment as Administrative Agent by a successor Administrative Agent, such successor Administrative Agent shall succeed to, and become vested with, all the rights, powers, privileges and duties of the retiring Administrative Agent. Upon the acceptance of appointment as Administrative Agent by a successor Administrative Agent, the retiring Administrative Agent shall be discharged from its duties and obligations under this Agreement and the other Loan Documents. Prior to any retiring Administrative Agent's resignation hereunder as Administrative Agent, the retiring Administrative Agent shall take such action as may be reasonably necessary to assign to the successor Administrative Agent its rights as Administrative Agent under the Loan Documents.

(b) Notwithstanding paragraph (a) of this Section, in the event no successor Administrative Agent shall have been so appointed and shall have accepted such appointment within 30 days after the retiring Administrative Agent gives notice of its intent to resign, the retiring Administrative Agent may give notice of the effectiveness of its resignation to the Lenders and the Borrower, whereupon, on the date of effectiveness of such resignation stated in such notice, (i) the retiring Administrative Agent shall be discharged from its duties and obligations hereunder and under the other Loan Documents and (ii) the Required Lenders shall succeed to and become vested with all the rights, powers, privileges and duties of the retiring Administrative Agent; *provided* that (A) all payments required to be made hereunder or under any other Loan Document to the Administrative Agent for the account of any Person other than the Administrative Agent shall be made directly to such Person and (B) all notices and other communications required or contemplated to be given or made to the Administrative Agent shall directly be given or made to each Lender. Following the effectiveness of the Administrative Agent's resignation from its capacity as such, the provisions of this Article and Section 9.03, as well as any exculpatory, reimbursement and indemnification provisions set forth in any other Loan Document, shall continue in effect for the benefit of such retiring Administrative Agent, its sub-agents and their respective Related Parties in respect of any actions taken or omitted to be taken by any of them while the retiring Administrative Agent was acting as Administrative Agent and in respect of the matters referred to in the proviso under clause (i) above.

SECTION 8.06. Acknowledgment of Lenders.

(a) Each Lender represents that it is engaged in making, acquiring or holding commercial loans in the ordinary course of its business and that it has, independently and without reliance upon the Administrative Agent or any other Lender, or any of the Related Parties of any of the foregoing, and based on such documents and information as it has deemed appropriate, made its own credit analysis and decision to enter into this Agreement as a Lender, and to make, acquire or hold Term Loans hereunder. Each Lender also acknowledges that it will, independently and without reliance upon the Administrative Agent or any other Lender, or any of the Related Parties of any of the foregoing, and based on such documents and information (which may contain material, non-public information within the meaning of the United States securities laws concerning the Borrower and its Affiliates) as it shall from time to time deem appropriate, continue to make its own decisions in taking or not taking action under or based upon this Agreement, any other Loan Document or any related agreement or any document furnished hereunder or thereunder.

(b) Each Lender, by delivering its signature page to this Agreement on the Effective Date, or delivering its signature page to an Assignment and Assumption or any other Loan Document pursuant to which it shall become a Lender hereunder, shall be deemed to have acknowledged receipt of, and consented to and approved, each Loan Document and each other document required to be delivered to, or be approved by or satisfactory to, the Administrative Agent or the Lenders on the Effective Date.

(c) Each Lender hereby agrees that (x) if the Administrative Agent notifies such Lender that the Administrative Agent has determined in its sole discretion that any funds received by such Lender from the Administrative Agent or any of its Affiliates (whether as a payment, prepayment or repayment of principal, interest, fees or otherwise; individually and collectively, a "Payment") were erroneously transmitted to such Lender (whether or not known to such Person), and demands the return of such Payment (or a portion thereof), such Lender shall promptly, but in no event later than one Business Day thereafter, return to the Administrative Agent the amount of any such Payment (or portion thereof) as to which such a demand was made in same day funds, together with interest thereon in respect of each day from and including the date such Payment (or portion thereof) was received by such Lender to the date such amount is repaid to the Administrative Agent at the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation from time to time in effect, and (y) to the extent permitted by applicable law, such Lender shall not assert, and hereby waives, as to the Administrative Agent, any claim, counterclaim, defense or right of set-off or recoupment with respect to any demand, claim or counterclaim by the Administrative Agent for the return of any Payments received, including without limitation any defense based on "discharge for value" or any similar doctrine. A notice of the Administrative Agent to any Lender under this Section 8.06(c) shall be conclusive, absent manifest error.

(i) Each Lender hereby further agrees that if it receives a Payment from the Administrative Agent or any of its Affiliates (x) that is in a different amount than, or on a different date from, that specified in a notice of payment sent by the Administrative Agent (or any of its Affiliates) with respect to such Payment (a "Payment Notice") or (y) that was not preceded or accompanied by a Payment Notice, it shall be on notice, in each such case, that an error has been made with respect to such Payment. Each Lender agrees that, in each such case, or if it otherwise becomes aware a Payment (or portion thereof) may have been sent in error, such Lender shall promptly notify the Administrative Agent of such occurrence and, upon demand from the Administrative Agent, it shall promptly, but in no event later than one Business Day thereafter, return to the Administrative Agent the amount of any such Payment (or portion thereof) as to which such a demand was made in same day funds, together with interest thereon in respect of each day from and including the date such Payment (or portion thereof) was received by such Lender to the date such amount is repaid to the Administrative Agent at the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation from time to time in effect.

(ii) The Borrower and each other Loan Party hereby agrees that (x) in the event an erroneous Payment (or portion thereof) are not recovered from any Lender that has received such Payment (or portion thereof) for any reason, the Administrative Agent shall be subrogated to all the rights of such Lender with respect to such amount and (y) an erroneous Payment shall not pay, prepay, repay, discharge or otherwise satisfy any Obligations owed by the Borrower or any other Loan Party, except, in each case, to the extent such erroneous Payment is, and solely with respect to the amount of such erroneous Payment that is, comprised of funds received by the Administrative Agent from the Borrower or any other Loan Party for the purpose of satisfying such Obligations.

(iii) Each party's obligations under this Section 8.06(c) shall survive the resignation or replacement of the Administrative Agent or any transfer of rights or obligations by, or the replacement of, a Lender, the termination of the Commitments or the repayment, satisfaction or discharge of all Obligations under any Loan Document.

SECTION 8.07. Certain ERISA Matters.

(a) Each Lender (x) represents and warrants, as of the date such Person became a Lender party hereto, to, and (y) covenants, from the date such Person became a Lender party hereto to the date such Person ceases being a Lender party hereto, for the benefit of, the Administrative Agent and its Affiliates, and not, for the avoidance of doubt, to or for the benefit of the Borrower or any other Loan Party, that at least one of the following is and will be true:

(i) such Lender is not using "plan assets" (within the meaning of the Plan Asset Regulations) of one or more Benefit Plans in connection with the Term Loans or the Commitments,

(ii) the transaction exemption set forth in one or more PTEs, such as PTE 84-14 (a class exemption for certain transactions determined by independent qualified professional asset managers), PTE 95-60 (a class exemption for certain transactions involving insurance company general accounts), PTE 90-1 (a class exemption for certain transactions involving insurance company pooled separate accounts), PTE 91-38 (a class exemption for certain transactions involving bank collective investment funds) or PTE 96-23 (a class exemption for certain transactions determined by in-house asset managers), is applicable with respect to such Lender's entrance into, participation in, administration of and performance of the Term Loans, the Commitments and this Agreement, and the conditions for exemptive relief thereunder are and will continue to be satisfied in connection therewith,

(iii) (A) such Lender is an investment fund managed by a "Qualified Professional Asset Manager" (within the meaning of Part VI of PTE 84-14), (B) such Qualified Professional Asset Manager made the investment decision on behalf of such Lender to enter into, participate in, administer and

perform the Term Loans, the Commitments and this Agreement, (C) the entrance into, participation in, administration of and performance of the Term Loans, the Commitments and this Agreement satisfies the requirements of sub-sections (b) through (g) of Part I of PTE 84-14 and (D) to the best knowledge of such Lender, the requirements of subsection (a) of Part I of PTE 84-14 are satisfied with respect to such Lender's entrance into, participation in, administration of and performance of the Term Loans, the Commitments and this Agreement, or

(iv) such other representation, warranty and covenant as may be agreed in writing between the Administrative Agent, in its sole discretion, and such Lender.

(b) In addition, unless sub-clause (i) in the immediately preceding clause (a) is true with respect to a Lender or such Lender has not provided another representation, warranty and covenant as provided in sub-clause (iv) in the immediately preceding clause (a), such Lender further (x) represents and warrants, as of the date such Person became a Lender party hereto, to, and (y) covenants, from the date such Person became a Lender party hereto to the date such Person ceases being a Lender party hereto, for the benefit of, the Administrative Agent and its Affiliates, and not, for the avoidance of doubt, to or for the benefit of the Borrower or any other Loan Party, that:

(i) none of the Administrative Agent or its Affiliates is a fiduciary with respect to the assets of such Lender (including in connection with the reservation or exercise of any rights by the Administrative Agent under this Agreement, any Loan Document or any documents related to hereto or thereto),

(ii) the Person making the investment decision on behalf of such Lender with respect to the entrance into, participation in, administration of and performance of the Term Loans, the Commitments and this Agreement is independent (within the meaning of 29 CFR § 2510.3-21) and is a bank, an insurance carrier, an investment adviser, a broker-dealer or other person that holds, or has under management or control, total assets of at least $50 million, in each case as described in 29 CFR § 2510.3-21(c)(1)(i)(A)-(E),

(iii) the Person making the investment decision on behalf of such Lender with respect to the entrance into, participation in, administration of and performance of the Term Loans, the Commitments and this Agreement is capable of evaluating investment risks independently, both in general and with regard to particular transactions and investment strategies (including in respect of the Obligations),

(iv) the Person making the investment decision on behalf of such Lender with respect to the entrance into, participation in, administration of and performance of the Term Loans, the Commitments and this Agreement is a fiduciary under ERISA or the Code, or both, with respect to the Term Loans, the Commitments and this Agreement and is responsible for exercising independent judgment in evaluating the transactions hereunder, and

(v) no fee or other compensation is being paid directly to the Administrative Agent or any its Affiliates for investment advice (as opposed to other services) in connection with the Term Loans, the Commitments or this Agreement.

(c) The Administrative Agent hereby informs the Lenders that each such Person is not undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity, in connection with the transactions contemplated hereby, and that such Person has a financial interest in the transactions contemplated hereby in that such Person or an Affiliate thereof (i) may receive interest or other payments with respect to the Term Loans, the Commitments and this Agreement, (ii) may recognize a gain if it extended the Term Loans or the Commitments for an amount less than the amount being paid for an interest in the Term Loans or the Commitments by such Lender or (iii) may receive fees or other payments in connection with the transactions contemplated hereby, the Loan Documents or otherwise, including structuring fees, commitment fees, arrangement fees, facility fees, upfront fees, underwriting fees, ticking fees, agency fees, administrative agent, utilization fees, minimum usage fees, letter of credit fees, fronting fees, deal-away or alternate transaction fees, amendment fees, processing fees, term out premiums, banker's acceptance fees, breakage or other early termination fees or fees similar to the foregoing.

SECTION 8.08. Administrative Agent May File Proof of Claim . In case of the pendency of any receivership, insolvency, liquidation, bankruptcy, reorganization, arrangement, adjustment, composition or other judicial proceeding relative to the Borrower or any Subsidiary of the Borrower, the Administrative Agent (irrespective of whether the principal of any Term Loan shall then be due and payable as herein expressed or by declaration or otherwise and irrespective of whether the Administrative Agent shall have made any demand on the Borrower) shall be entitled and empowered, by intervention in such proceeding or otherwise:

(a) to file and prove a claim for the whole amount of the principal and interest owing and unpaid in respect of the Term Loans and all other Obligations that are owing and unpaid and to file such other documents as may be necessary or advisable in order to have the claims of the Lenders, the Administrative Agent (including any claim for the reasonable compensation, expenses, disbursements and advances of the Lenders, the Administrative Agent and their respective agents and counsel and all other amounts due the Lenders, the Administrative Agent under Section 9.03) allowed in such judicial proceeding;

(b) to collect and receive any monies or other property payable or deliverable on any such claims and to distribute the same; and

(c) any custodian, receiver, assignee, trustee, liquidator, sequestrator or other similar official in any such judicial proceeding is hereby authorized by each Lender to make such payments to the Administrative Agent and, in the event that the Administrative Agent shall consent to the making of such payments directly to the Lenders, to pay to the Administrative Agent any amount due for compensation, expenses, disbursements and advances of the Administrative Agent and its agents and counsel, and any other amounts due the Administrative Agent under Section 9.03. Nothing contained herein shall be deemed to authorize the Administrative Agent to authorize or consent to or accept or adopt on behalf of any Lender any plan of reorganization, arrangement, adjustment or composition affecting the Indebtedness or the rights of any Lender or to authorize the Administrative Agent to vote in respect of the claim of any Lender in any such proceeding.

SECTION 8.09. Data Protection. The Borrower acknowledges the purposes and details with respect to the Administrative Agent's collection, use and disclosure of personal data as well as the rights of the data subject as stated in the Privacy Notice and the Written Request for Consent Relating to the Collection, Use, and Disclosure of Personal Data (copies of which have been distributed to the Borrower prior to the Effective Date). The Borrower hereby confirms to the Administrative Agent that (1) the Borrower has notified details of the Privacy Notice of the Administrative Agent to the person(s) whose personal data has been provided by the Borrower to the Administrative Agent and such person is informed of details as stated in the Privacy Notice of the Administrative Agent, and (2) the Borrower has legitimate rights to disclose any information of any other person(s) whose personal data has been provided by the Borrower to the Administrative Agent. The Borrower accepts and agrees that the Administrative Agent is entitled to collect and use the information which the Borrower has provided to the Administrative Agent or which derives from the use of the service under this agreement and other information related to the use of the service under this agreement or other information which the Administrative Agent has received or obtained from other sources, and is entitled to send, transfer or disclose such information to companies within the Administrative Agent's financial group, business partners, outsource service providers, agents of the Administrative Agent, assignees of the Administrative Agent's rights or obligations, assignees of the Administrative Agent's claims, advisors, other financial institutions, credit rating agencies, external auditors, agencies or any Persons related to the business operation of the Administrative Agent, both domestic and overseas, for the purposes stated in the Privacy Notice of the Administrative Agent, including (a) for compliance with its obligations under this Agreement or any other Loan Document or in connection with this Agreement or any other Loan Document, including for compliance with any agreement or contract entered into between the Administrative Agent and any other Person related to or in connection with the provision of service under this Agreement or any other Loan Document, (b) for notification, communication, examination or response to any inquiries or complaints related to the use of the service under this Agreement or any other Loan Document at the request of the Borrower or any other Person related to the provision of service under this Agreement or any other Loan Document, (c) for analysis, processing, management or use of information obtained from the utilization of the Administrative Agent's or any Lender's products or services in order to facilitate such utilization by the Borrower and for advertisement, granting or offering privileges, benefits, rewards and products or services likely to be suitable to, or meet requirements of, the Borrower, as well as for assessment, development and improvement of the products and services of the Administrative Agent or any Lender, (d) for operations relating to information technology, (e) for compliance, risk management and any audit related to the service provision of the Administrative Agent including business management of the Administrative Agent, companies within the Administrative Agent's financial group and the Administrative Agent's affiliates or business partners and (f) for compliance with laws, regulations, orders or procedures prescribed by government agencies or regulatory authorities as well as for debt collection, exercise of claims or enforcement of legal rights.

ARTICLE IX

Miscellaneous

SECTION 9.01. Notices.

(a) Except in the case of notices and other communications expressly permitted to be given by telephone (and subject to paragraph (b) below), all notices and other communications provided for herein shall be in writing and shall be delivered by hand or overnight courier service, mailed by certified or registered mail or sent by electronic mail, as follows:

(i) if to the Borrower, to

BKV Corporation
1200 17th Street, Suite 2100
Denver CO 80202
Attention: Chief Executive Officer
Email: [***]

With a copy to:

BKV Corporation
1200 17th Street, Suite 2100
Denver CO 80202
Attention: General Counsel
Email: [***]

With a copy to (which copy shall not constitute notice):

Fox Rothschild, LLP
1225 17th Street, Suite 2200
Denver, CO 80202
Attn: Gregory Brown
Email: [***]

(ii) if to the Administrative Agent, to

Bangkok Bank Public Company Limited (New York Branch)
Address: 29 Broadway, Suite #19

New York, NY 10016
Attention: Sirivan Chuaypradit
Email: [***]

With a copy to (which copy shall not constitute notice):

Sidley Austin LLP
1000 Louisiana, Suite 5900
Houston, TX 77002
Attn: Herschel T. Hamner III
Email: [***]

(iii) if to any other Lender, to it at its address or e-mail address set forth in its Administrative Questionnaire.

Notices sent by hand or overnight courier service, or mailed by certified or registered mail, shall be deemed to have been given when received. Notices delivered through Electronic Systems, to the extent provided in paragraph (b) below, shall be effective as provided in said paragraph (b).

(b) Notices and other communications to the Lenders hereunder may be delivered or furnished by using Electronic Systems pursuant to procedures approved by the Administrative Agent; provided that the foregoing shall not apply to notices pursuant to Article II unless otherwise agreed by the Administrative Agent and the applicable Lender. Each of the Administrative Agent and the Borrower may, in its discretion, agree to accept notices and other communications to it hereunder by electronic communications pursuant to procedures approved by it; provided that approval of such procedures may be limited to particular notices or communications.

Unless the Administrative Agent otherwise prescribes, (i) notices and other communications sent to an e-mail address shall be deemed received upon the sender's receipt of an acknowledgement from the intended recipient (such as by the "return receipt requested" function, as available, return e-mail or other written acknowledgement), and (ii) notices or communications posted to an Internet or intranet website shall be deemed received upon the deemed receipt by the intended recipient, at its e-mail address as described in the foregoing clause (i), of notification that such notice or communication is available and identifying the website address therefor; provided that, for both clauses (i) and (ii) above, if such notice, email or other communication is not sent during the normal business hours of the recipient, such notice or communication shall be deemed to have been sent at the opening of business on the next Business Day for the recipient.

(c) Any party hereto may change its address or e-mail address for notices and other communications hereunder by notice to the other parties hereto.

SECTION 9.02. Waivers; Amendments.

(a) No failure or delay by the Administrative Agent or any Lender in exercising any right or power hereunder or under any other Loan Document shall operate as a waiver thereof, nor shall any single or partial exercise of any such right or power, or any abandonment or discontinuance of steps to enforce such a right or power, preclude any other or further exercise thereof or the exercise of any other right or power. The rights and remedies of the Administrative Agent and the Lenders hereunder and under the other Loan Documents are cumulative and are not exclusive of any rights or remedies that they would otherwise have. No waiver of any provision of this Agreement or any other Loan Document or consent to any departure by any Loan Party therefrom shall in any event be effective unless the same shall be permitted by paragraph (b) of this Section, and then such waiver or consent shall be effective only in the specific instance and for the purpose for which given. Without limiting the generality of the foregoing, the making of a Term Loan shall not be construed as a waiver of any Default, regardless of whether the Administrative Agent or any Lender may have had notice or knowledge of such Default at the time.

(b) Neither this Agreement nor any provision hereof nor any other Loan Document nor any provision thereof may be waived, amended or modified except pursuant to an agreement or agreements in writing entered into by (x) in the case of this Agreement, the Borrower and the Required Lenders (with a copy to the Administrative Agent), the Borrower and the Administrative Agent with the consent of the Required Lenders, and (y) in the case of any other Loan Document, each Loan Party that is a party thereto and the Required Lenders, or each Loan Party that is a party thereto and the Administrative Agent with the consent of the Required Lenders; provided that no such agreement shall (i) increase the Commitment of any Lender without the written consent of such Lender, (ii) reduce the principal amount of any Term Loan or reduce the rate of interest thereon, or reduce any fees payable hereunder, without the written consent of each Lender directly affected thereby, (iii) postpone the scheduled date of payment of the principal amount of any Term Loan (including by way of extension of the Maturity Date), or any interest thereon, or any fees payable hereunder, or reduce the amount of, waive or excuse any such payment, or postpone the scheduled date of expiration of any Commitment, without the written consent of each Lender directly affected thereby, (iv) change Section 2.15(b) or 2.15(c) in a manner that would alter the pro rata sharing of payments required thereby, without the written consent of each Lender, (v) change any of the provisions of this Section or the definition of "Required Lenders" or any other provision hereof specifying the number or percentage of Lenders required to waive, amend or modify any rights hereunder or make any determination or grant any consent hereunder, without the written consent of each Lender, (vi) release all of substantially all of the Guarantors from their guarantee obligations under the Guaranty Agreement(other than as provided in Section 9.14 below) without the written consent of each Lender, (vii) release the Borrower from its obligations under the Loan Documents without the written consent of each Lender, (viii) contractually subordinate any Obligations in contractual right of payment to any other debt or other obligations, including any other Term Loans hereunder, without the consent of each Lender directly and adversely affected thereby (provided, however, in no event shall this clause (viii) restrict any "debtor in possession" financing) or (ix) waive any condition set forth in Section 4.01, 4.02, 4.03, or 4.04 without the written consent of each applicable Lender; provided further that no such agreement shall amend, modify or otherwise affect the rights or duties of the Administrative Agent hereunder without the prior written consent of the Administrative Agent. Notwithstanding the foregoing, no consent with respect to any amendment, waiver or other modification of this Agreement shall be required of any Defaulting Lender, except with respect to any amendment, waiver or other modification referred to in clause (i), (ii) or (iii) of the first proviso of this paragraph and then only in the event such Defaulting Lender shall be directly affected by such amendment, waiver or other modification.

(c) If, in connection with any proposed amendment, waiver or consent requiring the consent of "each Lender" or "each Lender directly affected thereby," the consent of the Required Lenders is obtained, but the consent of other necessary Lenders is not obtained (any such Lender whose

consent is necessary but not obtained being referred to herein as a "Non-Consenting Lender"), then the Borrower may elect to replace a Non-Consenting Lender as a Lender party to this Agreement in accordance with Section 2.16(b).

(d) Notwithstanding anything to the contrary herein, (i) the Administrative Agent may, with the consent of the Borrower only, amend, modify or supplement this Agreement or any of the other Loan Documents to cure any ambiguity, omission, mistake, defect or inconsistency and (ii) the Administrative Agent and the Borrower (or other applicable Loan Party) may enter into any amendment, modification or waiver of this Agreement or any other Loan Document or as required by any Governmental Requirement to give effect to, protect or otherwise enhance the rights or benefits of any Lender under the Loan Documents without the consent of any other party to this Agreement.

SECTION 9.03. Expenses; Indemnity; Damage Waiver.

(a) The Borrower shall pay (i) all reasonable and documented out-of-pocket expenses incurred by the Administrative Agent and its Affiliates, including the reasonable and documented fees, charges and disbursements of Sidley Austin LLP, counsel for the Administrative Agent, in connection with the syndication and distribution (including, without limitation, via the internet or through a service such as Intralinks) of the credit facilities provided for herein, the preparation, execution and delivery and administration of this Agreement and the other Loan Documents or any amendments, modifications or waivers of the provisions hereof or thereof (whether or not the transactions contemplated hereby or thereby shall be consummated) and (ii) all out-of-pocket expenses incurred by the Administrative Agent or any Lender, including the fees, charges and disbursements of any counsel for the Administrative Agent or any Lender, in connection with the enforcement or protection of its rights in connection with this Agreement and any other Loan Document, including its rights under this Section, or in connection with the Term Loans made hereunder, including all such out-of-pocket expenses incurred during any workout, restructuring or negotiations in respect of the Term Loans.

(b) THE BORROWER SHALL INDEMNIFY THE ADMINISTRATIVE AGENT, ANY SUB-AGENT OF THE ADMINISTRATIVE AGENT, EACH LENDER AND EACH RELATED PARTY OF ANY OF THE FOREGOING PERSONS (EACH SUCH PERSON BEING CALLED AN "INDEMNITEE") AGAINST, AND HOLD EACH INDEMNITEE HARMLESS FROM, ANY AND ALL LOSSES, CLAIMS, DAMAGES, LIABILITIES AND RELATED EXPENSES, INCLUDING THE FEES, CHARGES AND DISBURSEMENTS OF ANY COUNSEL FOR ANY INDEMNITEE, INCURRED BY OR ASSERTED AGAINST ANY INDEMNITEE ARISING OUT OF, IN CONNECTION WITH, OR AS A RESULT OF (I) THE EXECUTION OR DELIVERY OF ANY LOAN DOCUMENT OR ANY AGREEMENT OR INSTRUMENT CONTEMPLATED THEREBY, THE PERFORMANCE BY THE PARTIES HERETO OF THEIR RESPECTIVE OBLIGATIONS THEREUNDER OR THE CONSUMMATION OF THE TRANSACTIONS OR ANY OTHER TRANSACTIONS CONTEMPLATED HEREBY, (II) ANY LOAN OR THE USE OF THE PROCEEDS THEREFROM, (III) ANY ACTUAL OR ALLEGED PRESENCE OR RELEASE OF HAZARDOUS MATERIALS ON OR FROM ANY PROPERTY OWNED OR OPERATED BY THE BORROWER OR ANY OF ITS SUBSIDIARIES, OR ANY ENVIRONMENTAL LIABILITY RELATED IN ANY WAY TO THE BORROWER OR ANY OF ITS SUBSIDIARIES, OR (IV) ANY ACTUAL OR PROSPECTIVE CLAIM, LITIGATION, INVESTIGATION OR PROCEEDING RELATING TO ANY OF THE FOREGOING, WHETHER OR NOT SUCH CLAIM, LITIGATION, INVESTIGATION OR PROCEEDING IS BROUGHT BY THE BORROWER OR ANY OTHER LOAN PARTY OR ITS OR THEIR RESPECTIVE EQUITY HOLDERS, AFFILIATES, CREDITORS OR ANY OTHER THIRD PERSON AND WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY AND REGARDLESS OF WHETHER ANY INDEMNITEE IS A PARTY THERETO, AND TO REIMBURSE EACH INDEMNITEE WITHIN THIRTY (30) DAYS AFTER RECEIPT OF WRITTEN DEMAND FOR ANY REASONABLE AND DOCUMENTED OUT-OF-POCKET LEGAL OR OTHER EXPENSES INCURRED IN CONNECTION WITH INVESTIGATING OR DEFENDING ANY OF THE FOREGOING (BUT LIMITED, IN THE CASE OF LEGAL FEES AND EXPENSES, TO ONE EXTERNAL COUNSEL FOR THE INDEMNITEES, TAKEN AS A WHOLE, AND, IF REASONABLY NECESSARY (AS REASONABLY DETERMINED BY THE APPLICABLE INDEMNITEES), ONE FIRM OF LOCAL COUNSEL IN EACH RELEVANT JURISDICTION, AND, SOLELY IN THE CASE OF AN ACTUAL OR POTENTIAL CONFLICT OF INTEREST (AS REASONABLY DETERMINED BY ANY INDEMNITEE) WHERE THE AFFECTED INDEMNITEE INFORMS THE BORROWER OF SUCH CONFLICT, ONE ADDITIONAL EXTERNAL COUNSEL FOR ALL AFFECTED INDEMNITEES SIMILARLY SITUATED, TAKEN AS A WHOLE, AND, IF REASONABLY NECESSARY (AS REASONABLY DETERMINED BY THE AFFECTED INDEMNITEES SIMILARLY SITUATED), ONE FIRM OF LOCAL COUNSEL IN EACH RELEVANT JURISDICTION FOR THE AFFECTED INDEMNITEES SIMILARLY SITUATED, TAKEN AS A WHOLE); PROVIDED THAT SUCH INDEMNITY SHALL NOT, AS TO ANY INDEMNITEE, BE AVAILABLE TO THE EXTENT THAT SUCH LOSSES, CLAIMS, DAMAGES, LIABILITIES OR RELATED EXPENSES (X) ARE DETERMINED BY A COURT OF COMPETENT JURISDICTION BY FINAL AND NONAPPEALABLE JUDGMENT TO HAVE RESULTED FROM THE BAD FAITH, GROSS NEGLIGENCE OR WILLFUL MISCONDUCT OF SUCH INDEMNITEE OR (Y) HAVE NOT RESULTED FROM AN ACT OR OMISSION BY THE BORROWER OR ANY OF ITS AFFILIATES AND HAVE BEEN BROUGHT BY AN INDEMNITEE AGAINST ANY OTHER INDEMNITEE (OTHER THAN ANY CLAIMS AGAINST ANY INDEMNITEE IN ITS CAPACITY AS AGENT OR ANY SIMILAR ROLE HEREUNDER). THIS SECTION 9.03(b) SHALL NOT APPLY WITH RESPECT TO TAXES OTHER THAN ANY TAXES THAT REPRESENT LOSSES, CLAIMS OR DAMAGES ARISING FROM ANY NON-TAX CLAIM.

(c) Each Lender severally agrees to pay any amount required to be paid by the Borrower under paragraph (a) or (b) of this Section 9.03 to the Administrative Agent and each Related Party of the Administrative Agent (each, an "Agent Indemnitee") (to the extent not reimbursed by the Borrower and without limiting the obligation of the Borrower to do so), ratably according to their respective Applicable Percentage in effect on the date on which indemnification is sought under this Section (or, if indemnification is sought after the date upon which the Commitments shall have terminated and the Term Loans shall have been paid in full, ratably in accordance with such Applicable Percentage immediately prior to such date), from and against any and all losses, claims, damages, liabilities and related expenses, including the fees, charges and disbursements of any kind whatsoever that may at any time (whether before or after the payment of the Term Loans) be imposed on, incurred by or asserted against such Agent Indemnitee in any way relating to or arising out of the Commitments, this Agreement, any of the other Loan Documents or any documents contemplated by or referred to herein or therein or the transactions contemplated hereby or thereby or any action taken or omitted by such Agent Indemnitee under or in connection with any of the foregoing; *provided* that no Lender shall be liable for the payment of any portion of such liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements that are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from such Agent Indemnitee's gross negligence or willful misconduct. The agreements in this Section shall survive the termination of this Agreement and the payment of the Term Loans and all other amounts payable hereunder.

(d) To the extent permitted by applicable law, each party to this Agreement agrees not to assert, and hereby waives, any claim against any other party to this Agreement or any Indemnitee, on any theory of liability, for special, indirect, consequential or punitive damages (as opposed to direct or actual damages) arising out of, in connection with, or as a result of, this Agreement, any other Loan Document or any agreement or instrument contemplated hereby or thereby, the Transactions or any Loan or the use of the proceeds thereof; provided that nothing contained herein shall limit the obligation of the Borrower to indemnify any Indemnitee in accordance with this Section 9.03 against any such special, indirect, consequential or punitive damages that may be awarded to any third person against such Indemnitee. No Indemnitee shall be liable for any direct or indirect damages arising from the use by others of information or other materials obtained through telecommunications, electronic or other information transmission systems (including, without limitation, the Internet, email or similar electronic transmission systems); provided that this sentence shall not, as to any Indemnitee, apply to the extent that such losses, claims, damages, liabilities or related expenses are determined by a court of competent jurisdiction by final and nonappealable judgment to have resulted from the bad faith, gross negligence or willful misconduct of such Indemnitee.

(e) All amounts due under this Section shall be paid promptly (but in any event not later than thirty (30) days) after written demand therefor.

SECTION 9.04. Successors and Assigns.

(a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns permitted hereby, except that (i) the Borrower may not assign or otherwise transfer any of its rights or obligations hereunder without the prior written consent of each Lender (and any attempted assignment or transfer by the Borrower without such consent shall be null and void) and (ii) no Lender may assign or otherwise transfer its rights or obligations hereunder except in accordance with this Section. Nothing in this Agreement, expressed or implied, shall be construed to confer upon any Person (other than the parties hereto, their respective successors and assigns permitted hereby, Participants (to the extent provided in paragraph (c) of this Section) and, to the extent expressly contemplated hereby, the sub-agents and Related Parties of each of the Administrative Agent and the Lenders) any legal or equitable right, remedy or claim under or by reason of this Agreement.

(b) (i) Subject to the conditions set forth in paragraph (b)(ii) below, any Lender may assign to one or more Persons (other than an Ineligible Institution) all or a portion of its rights and obligations under this Agreement (including all or a portion of its Commitments and the Term Loans at the time owing to it) with the prior written consent (such consent not to be unreasonably withheld) of:

(A) the Borrower (provided that the Borrower shall be deemed to have consented to any such assignment unless it shall object thereto by written notice to the Administrative Agent within five (5) Business Days after having received notice thereof); provided that no consent of the Borrower shall be required for any assignment to a Lender, an Affiliate of a Lender, an Approved Fund or, if an Event of Default has occurred and is continuing, any other assignee; and

(B) the Administrative Agent.

(ii) Assignments shall be subject to the following additional conditions:

(A) except in the case of an assignment to a Lender or an Affiliate of a Lender or an Approved Fund or an assignment of the entire remaining amount of the assigning Lender's Commitments or Term Loans, the amount of the Commitments or Term Loans of the assigning Lender subject to each such assignment (determined as of the date the Assignment and Assumption with respect to such assignment is delivered to the Administrative Agent) shall not be less than $5,000,000 unless each of the Borrower and the Administrative Agent otherwise consent; provided that no such consent of the Borrower shall be required if an Event of Default has occurred and is continuing;

(B) each partial assignment shall be made as an assignment of a proportionate part of all the assigning Lender's rights and obligations under this Agreement; provided that this clause (B) shall not prohibit any Lender from assigning all or a proportionate part of its rights and obligations in respect of Commitments or Term Loans;

(C) the parties to each assignment shall execute and deliver to the Administrative Agent (x) an Assignment and Assumption or (y) to the extent applicable, an agreement incorporating an Assignment and Assumption by reference pursuant to a Platform as to which the Administrative Agent and the parties to the Assignment and Assumption are participants, together with a processing and recordation fee of $3,500, such fee to be paid by either the assigning Lender or the assignee Lender or shared between such Lenders; and

(D) the assignee, if it shall not be a Lender, shall deliver to the Administrative Agent all documentation and other information required by regulatory authorities under applicable "know your customer" and anti-money laundering rules and regulations, including, without limitation, the USA PATRIOT Act and an Administrative Questionnaire in which the assignee designates one or more credit contacts to whom all syndicate-level information (which may contain material non-public information about the Borrower and its Affiliates and their Related Parties or their respective securities) will be made available and who may receive such information in accordance with the assignee's compliance procedures and applicable laws, including Federal and state securities laws.

For the purposes of this Section 9.04(b), the terms "Approved Fund" and "Ineligible Institution" have the following meanings:

"Approved Fund" means any Person (other than a natural person) that is engaged in making, purchasing, holding or investing in commercial loans and similar extensions of credit in the ordinary course of its business and that is administered or managed by (a) a Lender, (b) an Affiliate of a Lender or

(c) an entity or an Affiliate of an entity that administers or manages a Lender.

"Ineligible Institution" means (a) a natural person, (b) a Defaulting Lender or its Lender Parent, (c) the Borrower, any of its Subsidiaries or any of its Affiliates, (d) any Permitted Holder or any portfolio company thereof or (e) a company, investment vehicle or trust for, or owned and operated for the primary benefit of, a natural person or relative(s) thereof. Notwithstanding anything to the contrary contained in this Agreement, (i) the Administrative Agent shall not be responsible or have any liability for, or have any duty to ascertain, inquire into, monitor or enforce, compliance with the provisions hereof relating to Ineligible Institutions and (ii) the Borrower (on behalf of itself and the other Loan Parties) and the Lenders acknowledge and agree that the Administrative Agent shall have no responsibility or obligation to determine whether any Lender or potential Lender is an Ineligible Institution and that the Administrative Agent shall have no liability with respect to any assignment or participation made to an Ineligible Institution.

(iii) Subject to acceptance and recording thereof pursuant to paragraph (b)(iv) of this Section, from and after the effective or recordation date specified in each Assignment and Assumption the assignee thereunder shall be a party hereto and, to the extent of the interest assigned by such Assignment and Assumption, have the rights and obligations of a Lender under this Agreement, and the assigning Lender thereunder shall, to the extent of the interest assigned by such Assignment and Assumption, be released from its obligations under this Agreement (and, in the case of an Assignment and Assumption covering all of the assigning Lender's rights and obligations under this Agreement, such Lender shall cease to be a party hereto but shall continue to be entitled to the benefits of Sections 2.12, 2.14 and 9.03). Any assignment or transfer by a Lender of rights or obligations under this Agreement that does not comply with this Section 9.04 shall be treated for purposes of this Agreement as a sale by such Lender of a participation in such rights and obligations in accordance with paragraph (c) of this Section.

(iv) The Administrative Agent, acting for this purpose as a non-fiduciary agent of the Borrower, shall maintain at one of its offices a copy of each Assignment and Assumption delivered to it and a register for the recordation of the names and addresses of the Lenders, and the Commitment of, and principal amount (and stated interest) of the Term Loans owing to, each Lender pursuant to the terms hereof from time to time (the "Register"). The entries in the Register shall be conclusive, and the Borrower, the Administrative Agent and the Lenders shall treat each Person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement, notwithstanding notice to the contrary. The Register shall be available for inspection by the Borrower and any Lender, at any reasonable time and from time to time upon reasonable prior written notice.

(v) Upon its receipt of (x) a duly completed Assignment and Assumption executed by an assigning Lender and an assignee or (y) to the extent applicable, an agreement incorporating an Assignment and Assumption by reference pursuant to a Platform as to which the Administrative Agent and the parties to the Assignment and Assumption are participants, the assignee's completed Administrative Questionnaire (unless the assignee shall already be a Lender hereunder), the processing and recordation fee referred to in paragraph (b) of this Section and any written consent to such assignment required by paragraph (b) of this Section, the Administrative Agent shall accept such Assignment and Assumption and record the information contained therein in the Register; provided that if either the assigning Lender or the assignee shall have failed to make any payment required to be made by it pursuant to Section 2.04(b), 2.15(e) or 9.03(c), the Administrative Agent shall have no obligation to accept such Assignment and Assumption and record the information therein in the Register unless and until such payment shall have been made in full, together with all accrued interest thereon. No assignment shall be effective for purposes of this Agreement unless it has been recorded in the Register as provided in this paragraph.

(c) Any Lender may, without the consent of the Borrower or the Administrative Agent, sell participations to one or more banks or other entities (a "Participant"), other than an Ineligible Institution, in all or a portion of such Lender's rights and obligations under this Agreement (including all or a portion of its Commitments and the Term Loans owing to it); provided that (A) such Lender's obligations under this Agreement shall remain unchanged; (B) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations; and (C) the Borrower, the Administrative Agent and the Lenders shall continue to deal solely and directly with such Lender in connection with such Lender's rights and obligations under this Agreement. Any agreement or instrument pursuant to which a Lender sells such a participation shall provide that such Lender shall retain the sole right to enforce this Agreement and to approve any amendment, modification or waiver of any provision of this Agreement; provided that such agreement or instrument may provide that such Lender will not, without the consent of the Participant, agree to any amendment, modification or waiver described in the first proviso to Section 9.02(b) that affects such Participant. The Borrower agrees that each Participant shall be entitled to the benefits of Sections 2.12 and 2.14 (subject to the requirements and limitations therein, including the requirements under Section 2.14(f) (it being understood that the documentation required under Section 2.14(f) shall be delivered to the participating Lender)) to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to paragraph (b) of this Section; provided that such Participant (A) agrees to be subject to the provisions of Sections 2.15 and 2.16 as if it were an assignee under paragraph (b) of this Section; and (B) shall not be entitled to receive any greater payment under Sections 2.12 or 2.14, with respect to any participation, than its participating Lender would have been entitled to receive, except to the extent such entitlement to receive a greater payment results from a Change in Law that occurs after the Participant acquired the applicable participation. Each Lender that sells a participation agrees, at the Borrower's request and expense, to use reasonable efforts to cooperate with the Borrower to effectuate the provisions of Section 2.16(b) with respect to any Participant. To the extent permitted by law, each Participant also shall be entitled to the benefits of Section 9.08 as though it were a Lender, provided such Participant agrees to be subject to Section 2.15(d) as though it were a Lender. Each Lender that sells a participation shall, acting solely for this purpose as a non-fiduciary agent of the Borrower, maintain a register on which it enters the name and address of each Participant and the principal amounts (and stated interest) of each Participant's interest in the Term Loans or other obligations under the Loan Documents (the "Participant Register"); provided that no Lender shall have any obligation to disclose all or any portion of the Participant Register (including the identity of any Participant or any information relating to a Participant's interest in any Commitments, Term Loans or its other obligations under any Loan Document) to any Person except to the extent that such disclosure is necessary to establish that such Commitment, Term Loan or other obligation is in registered form under Section 5f.103-1(c) of the United States Treasury Regulations or as necessary for the Borrower or the Administrative Agent to satisfy its obligations under FATCA. The entries in the Participant Register shall be conclusive absent manifest error, and such Lender shall treat each Person whose name is recorded in the Participant Register as the owner of such participation for all purposes of this Agreement notwithstanding any notice to the contrary. For the avoidance of doubt, the Administrative Agent (in its capacity as Administrative Agent) shall have no responsibility for maintaining a Participant Register.

(d) Any Lender may at any time pledge or assign a security interest in all or any portion of its rights under this Agreement to secure obligations of such Lender, including any pledge or assignment to secure obligations to a Federal Reserve Bank, and this Section shall not apply to any such pledge or assignment of a security interest; provided that no such pledge or assignment of a security interest shall release a Lender from any of its obligations hereunder or substitute any such pledgee or assignee for such Lender as a party hereto.

SECTION 9.05. Survival. All covenants, agreements, representations and warranties made by the Loan Parties in the Loan Documents and in the certificates or other instruments delivered in connection with or pursuant to this Agreement or any other Loan Document shall be considered to have been relied upon by the other parties hereto and shall survive the execution and delivery of the Loan Documents and the making of any Term Loans, regardless of any investigation made by any such other party or on its behalf and notwithstanding that the Administrative Agent or any Lender may have had notice or knowledge of any Default or incorrect representation or warranty at the time any credit is extended hereunder, and shall continue in full force and effect until Payment in Full. The provisions of Sections 2.12, 2.14, 9.03, 9.09, 9.10 and 9.16 and Section VIII shall survive and remain in full force and effect regardless of the consummation of the transactions contemplated hereby, the repayment of the Term Loans, the expiration or termination of the Commitments or the termination of this Agreement or any other Loan Document or any provision hereof or thereof.

SECTION 9.06. Counterparts; Integration; Effectiveness; Electronic Execution. This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall be deemed an original, but all of which when taken together shall constitute a single contract. This Agreement, the other Loan Documents and any separate letter agreements with respect to fees payable to the Administrative Agent constitute the entire contract among the parties relating to the subject matter hereof and supersede any and all previous agreements and understandings, oral or written, relating to the subject matter hereof. Except as provided in Section 4.01, this Agreement shall become effective when it shall have been executed by the Administrative Agent and when the Administrative Agent shall have received counterparts hereof which, when taken together, bear the signatures of each of the other parties hereto, and thereafter shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. Delivery of an executed counterpart of a signature page of (x) this Agreement, (y) any other Loan Document and/or (z) any document, amendment, approval, consent, information, notice (including, for the avoidance of doubt, any notice delivered pursuant to Section 9.01), certificate, request, statement, disclosure or authorization related to this Agreement, any other Loan Document and/or the transactions contemplated hereby and/or thereby (each an "Ancillary Document") that is an Electronic Signature transmitted by telecopy, emailed pdf. or any other electronic means that reproduces an image of an actual executed signature page shall be effective as delivery of a manually executed counterpart of this Agreement, such other Loan Document or such Ancillary Document, as applicable. The words "execution," "signed," "signature," "delivery," and words of like import in or relating to this Agreement, any other Loan Document and/or any Ancillary Document shall be deemed to include Electronic Signatures, deliveries or the keeping of records in any electronic form (including deliveries by telecopy, emailed pdf. or any other electronic means that reproduces an image of an actual executed signature page), each of which shall be of the same legal effect, validity or enforceability as a manually executed signature, physical delivery thereof or the use of a paper-based recordkeeping system, as the case may be; *provided* that nothing herein shall require the Administrative Agent to accept Electronic Signatures in any form or format without its prior written consent and pursuant to procedures approved by it; *provided further* without limiting the foregoing, (i) to the extent the Administrative Agent has agreed to accept any Electronic Signature, the Administrative Agent and each of the Lenders shall be entitled to rely on such Electronic Signature purportedly given by or on behalf of the Borrower or any other Loan Party without further verification thereof and without any obligation to review the appearance or form of any such Electronic signature and (ii) upon the request of the Administrative Agent or any Lender, any Electronic Signature shall be promptly followed by a manually executed counterpart. Without limiting the generality of the foregoing, the Borrower and each Loan Party hereby (i) agrees that, for all purposes, including without limitation, in connection with any workout, restructuring, enforcement of remedies, bankruptcy proceedings or litigation among the Administrative Agent, the Lenders, the Borrower and the Loan Parties, Electronic Signatures transmitted by telecopy, emailed pdf. or any other electronic means that reproduces an image of an actual executed signature page and/or any electronic images of this Agreement, any other Loan Document and/or any Ancillary Document shall have the same legal effect, validity and enforceability as any paper original, (ii) the Administrative Agent and each of the Lenders may, at its option, create one or more copies of this Agreement, any other Loan Document and/or any Ancillary Document in the form of an imaged electronic record in any format, which shall be deemed created in the ordinary course of such Person's business, and destroy the original paper document (and all such electronic records shall be considered an original for all purposes and shall have the same legal effect, validity and enforceability as a paper record), (iii) waives any argument, defense or right to contest the legal effect, validity or enforceability of this Agreement, any other Loan Document and/or any Ancillary Document based solely on the lack of paper original copies of this Agreement, such other Loan Document and/or such Ancillary Document, respectively, including with respect to any signature pages thereto and (iv) waives any claim against any Related Parties of any Lender for any Liabilities arising solely from the Administrative Agent's and/or any Lender's reliance on or use of Electronic Signatures and/or transmissions by telecopy, emailed pdf. or any other electronic means that reproduces an image of an actual executed signature page, including any Liabilities arising as a result of the failure of the Borrower and/or any Loan Party to use any available security measures in connection with the execution, delivery or transmission of any Electronic Signature.

SECTION 9.07. Severability. Any provision of any Loan Document held to be invalid, illegal or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such invalidity, illegality or unenforceability without affecting the validity, legality and enforceability of the remaining provisions thereof; and the invalidity of a particular provision in a particular jurisdiction shall not invalidate such provision in any other jurisdiction.

SECTION 9.08. Right of Setoff. If an Event of Default shall have occurred and be continuing, each Lender and each of its Affiliates is hereby authorized at any time and from time to time, to the fullest extent permitted by law, to set off and apply any and all deposits (general or special, time or demand, provisional or final and in whatever currency denominated) at any time held and other obligations at any time owing by such Lender or Affiliate to or for the credit or the account of the Borrower or any other Loan Party against any of and all of the Obligations held by such Lender, irrespective of whether or not such Lender shall have made any demand under the Loan Documents and although such obligations may be unmatured. The rights of each Lender under this Section are in addition to other rights and remedies (including other rights of setoff) which such Lender may have.

SECTION 9.09. Governing Law; Jurisdiction; Consent to Service of Process.

(a) This Agreement and any dispute, claim or controversy arising out of or relating to this Agreement (whether arising in contract, tort or otherwise) shall be construed in accordance with and governed by the law of the State of New York.

(b) Except as set forth in the immediately following sentence, each party hereto irrevocably and unconditionally agrees that it will not commence any action, litigation or proceeding of any kind or description, whether in law or equity, whether in contract or in tort or otherwise, against any other party hereto or any Related Party of any other party hereto in any way relating to this Agreement or any other Loan Document or the Transactions, in any forum other than the Supreme Court of the State of New York sitting in New York County, Borough of Manhattan, or the United States District Court for the Southern District of New York, and any appellate court from any thereof, and each of the parties hereto hereby irrevocably and unconditionally submits to the jurisdiction of such courts and agrees that all claims in respect of any such action, litigation or proceeding may (and any such claims, cross-claims or third party claims brought against the Administrative Agent or any of its Related Parties may only) be heard and determined in such New York State court or, to the extent permitted by applicable Requirements of Law, in such Federal court. Each of the parties hereto agrees that a final judgment in any such action, litigation or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this Agreement or in any other Loan Document shall affect any right that any Credit Party may otherwise have to bring any action or proceeding relating to this Agreement or any other Loan Document against any Loan Party or its Properties in the courts of any jurisdiction for the purposes of enforcing a judgment, or to the extent the courts referred to in the preceding sentence do not have jurisdiction over such legal action or proceeding or the parties or property subject thereto.

(c) Each party hereto hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement or any other Loan Document in any court referred to in the first sentence of paragraph (b) of this Section. Each of the parties hereto hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

(d) Each party to this Agreement irrevocably consents to service of process in the manner provided for notices in Section 9.01. Nothing in this Agreement or any other Loan Document will affect the right of any party to this Agreement to serve process in any other manner permitted by law.

SECTION 9.10. **WAIVER OF JURY TRIAL. EACH PARTY HERETO HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY LEGAL PROCEEDING DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THIS AGREEMENT, ANY OTHER LOAN DOCUMENT OR THE TRANSACTIONS CONTEMPLATED HEREBY OR THEREBY (WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY). EACH PARTY HERETO (A) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER AND (B) ACKNOWLEDGES THAT IT AND THE OTHER PARTIES HERETO HAVE BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION**.

SECTION 9.11. Headings. Article and Section headings and the Table of Contents used herein are for convenience of reference only, are not part of this Agreement and shall not affect the construction of, or be taken into consideration in interpreting, this Agreement.

SECTION 9.12. Confidentiality. Each of the Administrative Agent and the Lenders agrees to maintain the confidentiality of the Information (as defined below), except that Information may be disclosed (a) to its and its (i) Affiliates' directors, (ii) officers, (iii) employees and agents, including accountants, legal counsel and other advisors and (iv) any insurer, insurance broker, reinsurer or provider of security and their affiliated companies, auditors, advisors and service providers, in each case in this clause (iv) arising from or in connection with the provision of credit support or insurance, (it being understood that the Persons to whom such disclosure is made will be informed of the confidential nature of such Information and instructed to keep such Information confidential), (b) to the extent required or requested by any Governmental Authority (including any self-regulatory authority, such as the National Association of Insurance Commissioners), (c) to the extent required by applicable laws or regulations or by any subpoena or similar legal process (in which case the Administrative Agent or such Lender, as applicable, agrees to inform the Borrower promptly thereof (except with respect to any audit or examination conducted by bank accountants or any governmental bank regulatory or self-regulatory authority exercising examination or regulatory authority) to the extent practicable and not prohibited by law, rule or regulation and to only disclose that Information necessary to fulfill such legal requirement), (d) to any other party to this Agreement, (e) in connection with the exercise of any remedies under this Agreement or any other Loan Document or any suit, action or proceeding relating to this Agreement or any other Loan Document or the enforcement of rights hereunder or thereunder, (f) subject to an agreement containing provisions substantially the same as those of this Section, to (i) any assignee of or Participant in, or any prospective assignee of or Participant in, any of its rights or obligations under this Agreement or (ii) any actual or prospective counterparty (or its advisors) to any swap or derivative transaction relating to the Borrower and its obligations, (g) on a confidential basis to (i) any rating agency in connection with rating the Borrower or its Subsidiaries or the credit facilities provided for herein or (ii) the CUSIP Service Bureau or any similar agency in connection with the issuance and monitoring of CUSIP numbers with respect to the credit facilities provided for herein, (h) with the consent of the Borrower or (i) to the extent such Information (i) becomes publicly available other than as a result of a breach of this Section, (ii) becomes available to the Administrative Agent any Lender or any of their respective Affiliates on a nonconfidential basis from a source other than the Borrower or (iii) is independently developed by the Administrative Agent, or any such Lender without the use of Information. For the purposes of this Section, "Information" means all information received from the Borrower relating to the Borrower or its business, other than any such information that is available to the Administrative Agent or any Lender on a nonconfidential basis prior to disclosure by the Borrower and other than information pertaining to this Agreement routinely provided by arrangers to data service providers, including league table providers, that serve the lending industry. Any Person required to maintain the confidentiality of Information as provided in this Section shall be considered to have complied with its obligation to do so if such Person has exercised the same degree of care to maintain the confidentiality of such Information as such Person would accord to its own confidential information.

EACH LENDER ACKNOWLEDGES THAT INFORMATION AS DEFINED IN THE IMMEDIATELY PRECEDING PARAGRAPH FURNISHED TO IT PURSUANT TO THIS AGREEMENT MAY INCLUDE MATERIAL NON-PUBLIC INFORMATION CONCERNING THE BORROWER AND ITS RELATED PARTIES OR THEIR RESPECTIVE SECURITIES, AND CONFIRMS THAT IT HAS DEVELOPED COMPLIANCE PROCEDURES REGARDING THE USE OF MATERIAL NON-PUBLIC INFORMATION AND THAT IT WILL HANDLE SUCH MATERIAL NON-PUBLIC INFORMATION IN ACCORDANCE WITH THOSE PROCEDURES AND APPLICABLE LAW, INCLUDING FEDERAL AND STATE SECURITIES LAWS.

ALL INFORMATION, INCLUDING REQUESTS FOR WAIVERS AND AMENDMENTS, FURNISHED BY THE BORROWER OR THE ADMINISTRATIVE AGENT PURSUANT TO, OR IN THE COURSE OF ADMINISTERING, THIS AGREEMENT WILL BE SYNDICATE-LEVEL INFORMATION, WHICH MAY CONTAIN MATERIAL NON-PUBLIC INFORMATION ABOUT THE BORROWER, THE OTHER LOAN PARTIES AND THEIR RELATED PARTIES OR THEIR RESPECTIVE SECURITIES. ACCORDINGLY, EACH LENDER REPRESENTS TO THE BORROWER AND THE ADMINISTRATIVE AGENT THAT IT HAS IDENTIFIED IN ITS ADMINISTRATIVE QUESTIONNAIRE A CREDIT CONTACT WHO MAY RECEIVE INFORMATION THAT MAY CONTAIN MATERIAL NON-PUBLIC INFORMATION IN ACCORDANCE WITH ITS COMPLIANCE PROCEDURES AND APPLICABLE LAW.

SECTION 9.13. USA PATRIOT Act Notice. Each Lender and the Administrative Agent (for itself and not on behalf of any Lender) hereby notifies the Borrower that pursuant to the requirements of the USA PATRIOT Act, it is required to obtain, verify and record information that identifies the Borrower, which information includes the name and address of the Borrower and other information that will allow such Lender or the Administrative Agent, as applicable, to identify the Borrower in accordance with the USA PATRIOT Act.

SECTION 9.14. Releases of Guarantors.

(a) So long as no Default or Event of Default has occurred and is continuing (or would result from such release) any Subsidiary Guarantor shall be released from its obligations under the Guaranty Agreement and the other Loan Documents if all of the Equity Interests of a Subsidiary Guarantor that is owned by the Borrower or a Subsidiary is sold or otherwise Disposed of in a transaction or transactions permitted by this Agreement. In connection with any release pursuant to this Section, the Administrative Agent shall, promptly upon receipt of a written request therefor from the Borrower (together with an certificate of a Responsible Officer of the Borrower certifying that such transaction is permitted hereunder), execute and deliver all documents and take such other action as may reasonably be requested to evidence such release of such Subsidiary Guarantor. Any execution and delivery of documents pursuant to this Section shall be without recourse to or warranty by the Administrative Agent.

(b) Upon Payment in Full, the Guaranty Agreement and all obligations (other than those expressly stated to survive such termination) of each Guarantor thereunder shall automatically terminate, all without delivery of any instrument or performance of any act by any Person.

SECTION 9.15. Interest Rate Limitation. Notwithstanding anything herein to the contrary, if at any time the interest rate applicable to any Term Loan, together with all fees, charges and other amounts which are treated as interest on such Term Loan under applicable law (collectively the "Charges"), shall exceed the maximum lawful rate (the "Maximum Rate") which may be contracted for, charged, taken, received or reserved by the Lender holding such Term Loan in accordance with applicable law, the rate of interest payable in respect of such Term Loan hereunder, together with all Charges payable in respect thereof, shall be limited to the Maximum Rate and, to the extent lawful, the interest and Charges that would have been payable in respect of such Term Loan but were not payable as a result of the operation of this Section shall be cumulated and the interest and Charges payable to such Lender in respect of other Term Loans or periods shall be increased (but not above the Maximum Rate therefor) until such cumulated amount, together with interest thereon at the Federal Funds Effective Rate to the date of repayment, shall have been received by such Lender.

SECTION 9.16. No Advisory or Fiduciary Responsibility. In connection with all aspects of each transaction contemplated hereby (including in connection with any amendment, waiver or other modification hereof or of any other Loan Document), the Borrower acknowledges and agrees that: (i) (A) the arranging and other services regarding this Agreement provided by the Lenders are arm's-length commercial transactions between the Loan Parties and their respective Affiliates, on the one hand, and the Lenders and their Affiliates, on the other hand, (B) the Loan Parties have consulted their own legal, accounting, regulatory and tax advisors to the extent they have deemed appropriate, and (C) the Loan Parties are capable of evaluating, and understands and accepts, the terms, risks and conditions of the transactions contemplated hereby and by the other Loan Documents; (ii) (A) each of the Lenders and their Affiliates is and has been acting solely as a principal and, except as expressly agreed in writing by the relevant parties, has not been, is not, and will not be acting as an advisor, agent or fiduciary for any of the Loan Parties or their Affiliates, or any other Person and (B) no Lender nor any of its Affiliates has any obligation to any of the Loan Parties or their Affiliates with respect to the transactions contemplated hereby except, in the case of a Lender, those obligations expressly set forth herein and in the other Loan Documents; and (iii) each of the Lenders and their respective Affiliates may be engaged in a broad range of transactions that involve interests that differ from those of the Loan Parties and their Affiliates, and no Lender or any of its Affiliates has any obligation to disclose any of such interests to the Loan Parties or their Affiliates. To the fullest extent permitted by law, the Borrower hereby waives and releases any claims that it may have against each of the Lenders and their Affiliates with respect to any breach or alleged breach of agency or fiduciary duty in connection with any aspect of any transaction contemplated hereby.

SECTION 9.17. Acknowledgement and Consent to Bail-In of EEA Financial Institutions**.** Notwithstanding anything to the contrary in any Loan Document or in any other agreement, arrangement or understanding among any such parties, each party hereto acknowledges that any liability of any Affected Financial Institution arising under any Loan Document, to the extent such liability is unsecured, may be subject to the Write-Down and Conversion Powers of the applicable Resolution Authority and agrees and consents to, and acknowledges and agrees to be bound by:

(a) the application of any Write-Down and Conversion Powers by the applicable Resolution Authority to any such liabilities arising hereunder which may be payable to it by any party hereto that is an Affected Financial Institution; and

(b) the effects of any Bail-in Action on any such liability, including, if applicable

(i) a reduction in full or in part or cancellation of any such liability;

(ii) a conversion of all, or a portion of, such liability into shares or other instruments of ownership in such Affected Financial Institution, its parent undertaking, or a bridge institution that may be issued to it or otherwise conferred on it, and that such shares or other instruments of ownership will be accepted by it in lieu of any rights with respect to any such liability under this Agreement or any other Loan Document; or

(iii) the variation of the terms of such liability in connection with the exercise of the Write-Down and Conversion Powers of any applicable Resolution Authority.

Exhibit 10.2

Amended and Restated Loan Agreement

This Amended and Restated Loan Agreement (the "**Agreement**") is made and entered into on the 15th of June, 2022 by and between:

Parties:

1. **Banpu North America Corporation**, a company incorporated in the State of Delaware, and having its registered office at c/o Corporation Service Company, 2711 Centerville Road, Suite 400, City of Wilmington, County of New Castle, Delaware 19808, hereinafter referred to as the "**Lender**" of the one part; and

2. **BKV Corporation**, a company incorporated in the State of Delaware, and having its registered office at 1200, 17th Street, Tabor Center 1, 21st Floor, Suite 2100, City of Denver, Colorado 80202, hereinafter referred to as the "**Borrower**" of the other part.

The Lender and the Borrower each shall be individually referred to as the " **Party**" and collectively as the " **Parties**".

Whereas:

(i) The Borrower and the Lender previously entered into that certain Loan Agreement dated as of 14th October 2021, which provided for a term loan facility made available by the Lender to the Borrower (the "**Original Agreement**").

(ii) The Borrower has previously drawn down and received the Loan of USD 116,000,000 in accordance with the Original Agreement.

(iii) The Borrower plans to enter into the Bangkok Bank Facility (as defined below) and the Parties have agreed that the Loan hereof will be subordinated to the loan created under the Bangkok Bank Facility pursuant to a subordination agreement satisfactory to Bangkok Bank Public Company Limited, New York Branch in its capacity as administrative agent under the Bangkok Bank Facility.

NOW, THEREFORE, the Parties wish to amend and restate the Original Agreement by replacing it in its entirety with this Agreement from and on the Effective Date (as defined below) as follows:

Definitions:

"**Bangkok Bank Facility**" means a USD 600,000,000 term loan credit facility, substantially in the form attached hereto as Appendix 1, to be executed by and among the Borrower, the Senior Administrative Agent, and the lenders from time to time party thereto (as may be amended, restated, amended and restated, extended, supplemented, refinanced or otherwise modified in writing from time to time).

"**Business Day**" means the date which has not been declared as a public or bank holiday within the jurisdictions of incorporation of the Borrower and the Lender, including the date which is not declared as non-working day by either Party.

"**Credit Documents**" means this Agreement, and each other document, instrument and agreement executed and delivered pursuant to or in connection herewith or therewith.

"**Effective Date**" means the "Effective Date" as defined in the Bangkok Bank Facility.

"**Event of Default**" means events or circumstances described in clause 9.

"**Governmental Authority**" means any nation or government, any state or other political subdivision thereof and any department, commission, board, bureau, instrumentality, agency or other entity exercising legislative, judicial, regulatory or administrative functions of, or pertaining to, government.

"**IFRS**" means International Financial Reporting Standard as issued by the International Accounting Standards Board.

"**Interest**" has a meaning given in clause 4.

"**Interest Period**" has a meaning given in clause 4.1.

"**Interest Rate**" has a meaning given in clause 4.1.

"**Lien**" means any mortgage, deed of trust, pledge, hypothecation, assignment, deposit arrangement, lien (statutory or otherwise), security interest, charge or other encumbrance or security or preferential arrangement of any nature whatsoever.

"**Loan**" means the total principal amount drawn by the Borrower prior to the date hereof under the Loan Facility.

"**Loan Facility**" means the total amount which the Lender has, according to terms and condition of this Agreement, lent to the Borrower.

"**Material Adverse Effect**" means a material adverse effect of any of (a) the business, operations, property, or condition (financial or otherwise) of the Borrower and its subsidiaries (b) the ability of the Borrower to perform its obligations under any Credit Document to which it is a party, or (c) the validity, legality or enforceability of any Credit Document or any rights and remedies of the Lender under the Credit Documents.

"**Net Worth**" means, at any time, total assets minus total liabilities calculated in accordance with IFRS as of the end of each quarter excluding any outstanding unrealized gains or losses from hedges, options and other similar derivative arrangements or contracts.

"**One-year SOFR**" means in respect of any Loan or any Interest Period, the rate certified by the Lender as the daily secured overnight financing rate based on transactions in the Treasury repurchase market where investors offer banks overnight loans backed by the bond assets published by the SOFR Administrator on the SOFR Administrator's website of an amount comparable to that Loan or Interest for a period of one year and, if any such rate is below zero, SOFR will be deemed as zero.

"**Payment Conditions**" means "Payment Conditions" as defined in the Bangkok Bank Facility.

"**Purpose**" has a meaning given in clause 1.2.

"**Requirement of Law**" means, as to any person, any law, treaty, rule, restriction or regulation or determination of an arbitrator or a court or other Governmental Authority (including, without limitation, any federal, state or local environmental and employee benefit laws and regulations), in each case applicable to or binding upon such Person or any of its property or to which such Person or any of its property is subject.

"**SOFR Administrator**" means the Federal Reserve Bank of (or a successor administrator of the secured overnight financing rate).

"Specified Amount Payment Period" has the meaning ascribed thereto and defined in the Bangkok Bank Facility.

"**Term**" has a meaning given in clause 3.

"**Trailing Twelve Month Net Borrowings to EBITDAX**" means the past twelve consecutive months of the Borrower interesting-bearing debts to EBITDAX. Net borrowings mean the total book value of all long-term and short-term interest-bearing debts less cash and cash equivalents. EBITDAX means earnings before interest, taxes, depreciation, depletion, amortization and exploration expenses.

"**Senior Administrative Agent**" means Bangkok Bank Public Company Limited, New York Branch in its capacity as administrative agent under the Bangkok Bank Facility.

"**Subordination Agreement**" means a subordination agreement in form and substance satisfactory to the Senior Administrative Agent to be dated the effective date of the Bangkok Bank Facility by and among the Borrower, Banpu North America Corporation, the Senior Administrative Agent and each other party thereto, as may be amended, restated, amended, supplemented or otherwise modified from time to time.

"**Subsidiaries**" means in relation to a company or corporation (the "first-mentioned company"), any company or corporation:

(i) which is controlled, directly or indirectly, by the first-mentioned company; or

(ii) more than half of the issued share capital of which is beneficially owned, directly or indirectly, by the first-mentioned company or corporation,

and, for these purposes, a company or corporation shall be treated as being controlled by another company or corporation if that other company or corporation is able to direct its affairs and/or control the composition of its board of directors or equivalent body.

1. Loan Facility

1.1 Prior to the date hereof, the Lender made available to the Borrower the Loan Facility in a single drawdown of **USD 116,000,000.00** (**One Hundred and Sixteen Million United States Dollars**).

1.2 The Borrower agrees that the Loan provided under this Agreement shall be expended solely for the purpose of paying off the outstanding preferred and common stock owned by OCM BKV Holdings, LLC (the "**Purpose**").

2. [Reserved]

3. Term

This Agreement shall be effective as from the Effective Date and shall continue full force effect until December 31, 2027 (the " **Term**") and the Original Agreement shall thereafter be of no further force and effect; *provided that* the incurrence by the Borrower of the Loan has been assumed by the Borrower and shall continue to exist under and be evidenced by this Agreement and shall be paid and performed as and when due under this Agreement; *provided further that* this Agreement will be automatically terminated if the Bangkok Bank Facility is not entered into and executed by the parties thereof no later than September 30, 2022, and upon occurrence of such early termination, the Parties agree that the Original Agreement shall be reinstated as a binding contract between the Parties hereto as if this Agreement has never been provided and executed by the Parties.

4. Interest

4.1 The Borrower shall pay to the Lender interest calculated from the amount of the Loan as of the date on which the Borrower receives or is deemed to have received the Loan until the date such amount has been fully repaid. The interest rate shall be a sum of one-year SOFR plus 5.25% per annum (the "**Interest Rate**"). The Parties agree that the interest shall be payable annually during the Specified Amount Payment Period, subject to the negative covenant conditions set out in Clause 6.18 of the Bangkok Bank Facility (the "**Interest Period**"). Upon the expiration of the Repayment Date, the payable interest shall become due and be paid together with the outstanding amount of the Loan.

4.2 If such one-year SOFR rate is no longer widely used or acceptable as a reference rate in the financial market, the Lender, with mutual written agreement with the Borrower and following market practice may specify another page or service displaying the comparable rate with a maturity comparable to such Interest Period after consultation with the Borrower.

4.3 Where the due date falls on a holiday of commercial banks of the Lender's country of residence or a non-Business Day declared by the Lender, the Borrower shall pay the interest on the Business Day immediately preceding such holiday or such non-Business Day, as the case may be.

4.4 The Interest Rate may be adjusted upon the change of bank interest reference rate as set forth in Section 4.1 and 4.2 above which shall be notified to the Borrower in writing from time to time.

4.5 Any amount payable by the Borrower pursuant to this Agreement which is not paid when due shall bear interest, payable on demand, from the due date of such amount until paid at a rate per annum equal to 3.00% per annum in excess of the Interest Rate. The interest on overdue amounts shall be calculated for the actual number of days elapsed on the basis of a year of 360 days.

5. Repayment

5.1 The Borrower shall repay the Loan and the outstanding accrued interest in one bullet payment to the Lender on the earlier of (i) the expiration date of the Term or (ii) or otherwise acts in accordance with clause 5.3 ("**Repayment Date**"). Notwithstanding the foregoing, the Loan shall not be repaid at any time which would violate the terms of the Bangkok Bank Facility, and any expiration date of the Term occurring at such time shall be automatically extended until such time as such repayment is no longer prohibited by the Bangkok Bank Facility.

5.2 Where the due date falls on a holiday of commercial banks of the Lender's country of residence or a non-Business Day declared by the Lender, the Borrower shall repay the Loan on the Business Day immediately preceding such holiday or such non-Business Day, as the case may be.

5.3 The Borrower may, at its sole discretion and subject to negative covenant conditions set out in Clause 6.18 of the Bangkok Bank Facility, repay the Loan at any time prior to the Repayment Date without any fee or penalty, provided that the Borrower shall so notify the Lender at least 3 Business Days in advance of the intended payment date.

5.4 The due amount of the Loan and any interest thereof shall be repaid and paid to the Lender by money transfer to the Lender's bank account or in accordance with the Lender's instruction. The Lender shall be deemed to having received the payment of interest and/or the repayment of the Loan upon the time such amount of payment and/or repayment become good fund to the Lender.

6. Costs and Expenses

Any costs or expenses incurred in connection with the preparation, execution and performance of this Agreement including but not limited to stamp duties and specific business taxes shall be borne by the Borrower. In the event that the Lender has paid for such costs, expenses, duties and taxes, the Borrower shall reimburse the Lender for such amount in full within three (3) Business Days after being informed by the Lender in writing.

7. Withholding Tax

In the event that the interest due to the Lender under this Agreement is subject to any withholding or deduction in respect of taxation, the Lender agrees that such withholding or deduction shall apply and the Borrower shall provide the Lender with a certificate evidencing such withholding or deduction.

8. Event of Default

8.1 Each of the following events and circumstances shall be considered as an Event of Default:

(a) Failure to pay: The Borrower fails to pay any sum payable under this Agreement when due or otherwise in accordance with the provisions hereof, unless the failure to pay is the result of a remittance error which is not caused by any fault of the Borrower and the failure is remedied within 5 Business Days after the due date for payment.

(b) Execution: A creditor takes possession of all or any part of the business or assets of the Borrower, or any execution, attachment or other legal process is enforced against all or any part of the business or assets of the Borrower and is not discharged within 60 days, or any order is made against the Borrower and is not complied with or discharged within 60 days (unless the order is subject to appeal and is contested by the Borrower in good faith).

(c) Inability to pay debts: The Borrower stops or suspends payments to its creditors or any class of its creditors, or is unable or under applicable law is deemed to be unable or admits its inability to pay its debts as they fall due, or commences any process for the relief of debtors, or is declared or becomes insolvent or bankrupt.

(d) Insolvency proceedings: A petition is presented or a proceeding is commenced or an order is made or an effective resolution is passed or a notice is issued convening a meeting for the purpose of passing any resolution or any other step is taken for the winding-up, insolvency, bankruptcy, administration, reorganization or reconstruction of the Borrower or for the appointment of a liquidator, administrator, administrative receiver, receiver or similar officer of the Borrower or of all or any part of its business or assets.

(e) Analogous proceedings: Any event occurs in any jurisdiction which has an effect analogous to any of the events described in paragraphs (b) (*Execution*), (c) (*Inability to Pay Debts*) (d) (*Insolvency Proceedings*).

(f) Borrower's business: The Borrower ceases to carry on all or any substantial part of its business, or changes materially the nature or scope of its business, or disposes of all or any substantial part of its business or assets, or proposes to do any of the foregoing.

8.2 As a result of any Event of Default, any amount of the Loan, interest or any sum which are not due shall become due and payable immediately, and the Borrower agrees and accepts that the Lender may file a claim to seek immediate repayment and payment of any sum due hereunder without an advance notice to the Borrower.

9. Indemnity

9.1 General Indemnity

The Borrower shall indemnify the Lender against all losses, liabilities, damages, costs and expenses which the Lender may reasonably incur as a consequence of any Event of Default or any other breach by the Borrower of any of its obligations under this Agreement or any failure to drawdown the Loan in accordance with a drawdown notice or otherwise in connection with this Agreement (including any loss or expense incurred in liquidating or redeploying funds arranged or acquired for the purpose of advancing the Loan and any interest or fees incurred in funding any unpaid sum).

9.2 Currency Indemnity

(a) United States Dollar shall be the currency of account and payment in respect of sums payable by the Borrower under this Agreement. If any money is paid by the Borrower or received or recovered by the Lender under this Agreement in a currency other than the currency in which the indebtedness of or payment by the Borrower is due, then the Borrower shall pay such additional amount as may be necessary so that after conversion of all such money into the currency in which the relevant indebtedness or payment is due the Lender shall have net in hands an amount in that currency equal to that portion of the indebtedness then outstanding and due to the Lender.

(b) In the event that any judgment or order of any court of competent jurisdiction in any jurisdiction is given or made against the Borrower in respect of all or any part of money owing under this Agreement in a currency ("**Judgment Currency**") other than the currency in which the indebtedness of the Borrower is due ("**Contractual Currency**"), then the Borrower shall as a separate and independent liability indemnify and hold the Lender harmless against any deficiency resulting from any variation in rates of exchange between the Judgment Currency and Contractual Currency occurring between (i) the date as at which any money expressed in the Contractual Currency is converted, for the purpose of any such judgment or order, into an equivalent amount in the Judgment Currency and (ii) the date or dates of discharge of such money. If the amount of the Contractual Currency which the Lender is able to purchase by such Judgment Currency exceeds the sum originally due to the Lender, the Lender shall refund such excess to the Borrower.

10. Notice

10.1 Any notice required to be given by any Party hereto to any other shall be deemed validly served by hand delivery, electronic mail or by prepaid registered letter sent through the post (airmail if to an overseas address) or by facsimile transmission to its address given herein or such other address as may from time to time be notified for this purpose:

To the Lender: **Banpu North America Corporation**
1200, 17th Street, 21st Floor, Suite 2100,
Denver, Colorado 80202, United States of America
Attention: Mr. Thiti Mekavichai
Email: [***]

CC: 27th Floor, Thanapoom Tower
1550 New Petchburi Road,
Makkasan, Ratchathewi, Bangkok 10400,
Thailand Fax no. [***]

To the Borrower: **BKV Corporation**
1200, 17th Street, 21st Floor, Suite 2100,
Denver, Colorado 80202, United States of America
Attention: Mr. Chris Kalnin
Email: [***]

10.2 Any notice served by hand shall be deemed to have been served on delivery, or if served by facsimile transmission to have been served when sent, or if served by electronic mail to have been served when received with confirmation of receipt or if served by prepaid registered letter to have been served 48 hours (72 hours in the case of a letter sent by airmail to an address in another country) after the time at which it was posted. In proving the service by hand and prepaid registered letter, it shall be sufficient to prove if the notice was properly addressed and delivered or posted, as the case may be, and in the case of service by facsimile transmission to prove if the transmission was confirmed as sent by the original machine.

11. Change of Law or Circumstances

If it becomes, or it becomes apparent that it is or will be, unlawful or contrary to any requirement of any governmental, fiscal, monetary or other authority (whether or not having the force of law) for the Lender to give effect to its obligations under this Agreement or to fund the Loan or any part thereof in the Lender's country of incorporation's interbank market, the Lender shall so notify the Borrower. Upon such notification the Facility shall be cancelled. The Borrower shall forthwith repay the Loan in full together with any accumulated interest.

12. [Reserved]

13. Representations and Warranties

13.1 The Borrower and the Lender each represents and warrants to the other that it is a company duly incorporated with limited liability and validly existing under the laws of the State of Delaware respectively has full power, authority and legal right to own its assets and to carry on its business.

13.2 The Borrower and the Lender each represents and warrants to the other that it has full power, authority and legal right, and all necessary corporate action has been taken in order to authorize each of the Borrower and the Lender, to enter into and to exercise its rights and perform its obligations under this Agreement.

13.3 The Borrower represents and warrants to the Lender that no consent, approval, permit exemption, or authorization of, filing with, or other act by or in respect of any other person (including the partners and creditors of the Borrower) or any Governmental Authority, is required in connection with making of the Loan hereunder or with the execution, delivery, performance, validity or enforceability of this Agreement, except as may have been obtained or made and certified copies of which have been delivered to the Lender and each of which on the date of execution of this Agreement shall be in full force and effect.

13.4 The Borrower represents and warrants to the Lender that no Requirement of Law, contractual obligation, or judgment, decree or order of any Governmental Authority binding on the Borrower would be contravened by the execution, delivery, performance or enforcement of this Agreement. The execution, delivery and performance of this Agreement will not result in or require the creation of any lien or any properties owned by the Company.

13.5 There are no suits, actions, proceedings, claims or disputes pending or, to the knowledge of the Borrower, threatened against or affecting the Borrower or any of its subsidiaries or their respective properties, which, if adversely determined, could have a material adverse effect on the Borrower's business or condition (financial or otherwise), taking into effect financial reserves and insurance policies maintained by the Borrower.

13.6 The Borrower and its Subsidiaries is in compliance with all Requirements of Law (including, without limitation, environmental laws) and all orders, writs, injunctions and decrees applicable to it or its properties, except in such instances in which (a) such Requirement of Law or order, writ, injunction or decrees is being contested in good faith by appropriate proceedings diligently conducted or (b) the failure to so comply, either individually or in the aggregate, could not reasonably be expected to have Material Adverse Effect.

13.7 Neither the Borrower nor any of its Subsidiaries is in default in any material respect in the performance, observance or fulfillment of any obligation, covenant or condition in any agreement, document or instrument to which it is a party or by which it is bound. No default or Event of Default has occurred and is continuing and since the date of the most recent audited financial statements, no Material Adverse Effect has occurred and is continuing.

13.8 The Borrower and its Subsidiaries have filed or caused to be filed all tax returns required to be filed, and have paid, or have made adequate provision for the payment of, all due and payable taxes and assessments to the extent the failure to do so could be reasonably be expected to have a Material Adverse Effect, and no tax liens have been filed and no claims are being asserted with respect to such taxes which are required to be reflected in the financial statements, as these cases may be, and are not reflected therein.

13.9 The properties of the Borrower and its Subsidiaries are insured with financially sound and reputable insurance companies in such amounts with such deductibles and covering such risks as are customarily carried by companies engaged in similar businesses and owning similar Properties in localities where the Borrower and its subsidiaries are located.

14. Covenants

14.1 The Borrower shall, as promptly as possible, give written notice to the Lender of:

(a) The occurrence of any Event of Default and any event which, with the passage of time or the giving of notice or both, would become an Event of Default, specifying the nature and period of existence thereof and the action that the Borrower is taking and proposes to take with respect thereto.

(b) Any investigation, action, suit, proceeding before any Governmental Authority, or any litigation, legal proceeding, dispute, circumstance or other matter which has resulted or could reasonably be expected to result in an Event of Default or have a Material Adverse Effect.

(c) Occurrence of any event that reasonably could be expected to have a Material Adverse Effect.

14.2 The proceeds of the Loan shall be used solely for the Purpose specified hereunder. None of such proceeds shall be used, directly or indirectly, for other purposes.

14.3 The Borrower shall at all times comply with all Requirements of Laws (including, without limitation, environmental laws); provided, however, that the Borrower shall not be deemed in default of this clause if such non-compliances individually or in the aggregate have no Material Adverse Effect.

14.4 Without the prior written consent of the Lender, the Borrower shall not, nor will it permit any Subsidiaries to, create, incur or suffer to exist any Lien upon any of its property, assets or revenues, whether now owned or hereafter acquired.

14.5 The Borrower and its Subsidiaries shall not, without the prior written consent of the Lender, consummate any transaction of merger, amalgamation or consolidation, or liquidate, wind-up or dissolve (or suffer any liquidation or dissolution), or convey, sell, lease, license or otherwise dispose of, in one or a series of related transactions, all or substantially all of its property, or materially alter the nature of its business.

14.6 The Borrower will not, nor will it permit any Subsidiaries to, create, incur, assume or suffer to exist any indebtedness and guarantee (other than any indebtedness or guarantee created, incurred, assumed or suffered to exist in connection with the Bangkok Bank Facility or any other Loan Documents (as defined in the Bangkok Bank Facility)) unless granted a written consent of the Lender.

14.7 The Borrower shall not permit at any time the sum of Net Worth of the Borrower to be less than $800,000,000.

14.8 At all times after Effective Date, the Borrower shall not permit at any time the Trailing Twelve Month Net Borrowings to EBITDAX ratio to be greater than 3.0x.

14.9 Without the prior written consent of the Lender, the Borrower shall not, and shall not permit any Subsidiaries to, engage to any material extent in any business other than those businesses conducted by the Borrower and its subsidiaries on the date hereof or any business reasonably related or incidental thereto.

14.10 The Borrower shall, at least on semi-annual basis or upon the reasonable request by the Lender, submit the Lender the test result of the Payment Conditions in accordance with the terms and conditions set out in the Bangkok Bank Facility.

15. Miscellaneous

15.1 No failure or delay by the Lender in exercising its rights, powers, and privileges hereunder shall impair the same or operate as a waiver of the same, nor shall any single or partial exercise of any right, power or privilege preclude any further exercise thereof or the exercise of any other rights, powers or privileges.

15.2 This Agreement shall be governed by and construed in accordance with the laws of New York.

15.3 Each notice or other communication under this Agreement shall be in English. Any other documents required to be delivered under this Agreement shall be in English.

15.4 The Borrower may not assign any of its rights, benefits and obligations under this Agreement. The Lender may at any time assign to any one or more all or any part of its rights and benefits arising out of this Agreement.

15.5 Any amendment or waiver of any provision of this Agreement and any waiver of any default under this Agreement shall only be effective if made in writing and signed by the Parties.

15.6 If at any time any provision of this Agreement is or becomes illegal, invalid or unenforceable in any respect under the law of any jurisdiction, the legality, validity and enforceability of such provision under the law of any other jurisdiction, and of the remaining provisions of this Agreement, shall have full force and effect and will not be affected or impaired thereby.

APPENDIX 1

BANGKOK BANK FACILITY

Exhibit 10.3

Amended and Restated Loan Agreement

This Amended and Restated Loan Agreement (the "**Agreement**") is made and entered into on the 15th of June, 2022 by and between:

Parties:

1. **Banpu North America Corporation**, a company incorporated in the State of Delaware, and having its registered office at c/o Corporation Service Company, 2711 Centerville Road, Suite 400, City of Wilmington, County of New Castle, Delaware 19808, hereinafter referred to as the "**Lender**" of the one part; and

2. **BKV Corporation**, a company incorporated in the State of Delaware, and having its registered office at 1200, 17th Street, Tabor Center 1, 21st Floor, Suite 2100, City of Denver, Colorado 80202, hereinafter referred to as the "**Borrower**" of the other part.

The Lender and the Borrower each shall be individually referred to as the " **Party**" and collectively as the " **Parties**".

Whereas:

(i) The Borrower and the Lender previously entered into that certain Loan Agreement dated as of 10th March 2022, which provided for a term loan facility made available by the Lender to the Borrower (the "**Original Agreement**").

(ii) The Borrower has previously drawn down and received the Loan of USD 75,000,000 in accordance with the Original Agreement.

(iii) The Borrower plans to enter into the Bangkok Bank Facility (as defined below) and the Parties have agreed that the Loan hereof will be subordinated to the loan created under the Bangkok Bank Facility pursuant to a subordination agreement satisfactory to Bangkok Bank Public Company Limited, New York Branch in its capacity as administrative agent under the Bangkok Bank Facility.

NOW, THEREFORE, the Parties wish to amend and restate the Original Agreement by replacing it in its entirety with this Agreement from and on the Effective Date (as defined below) as follows:

Definitions:

"**Bangkok Bank Facility**" means a USD 600,000,000 term loan credit facility, substantially in the form attached hereto as Appendix 1, to be executed by and among the Borrower, the Senior Administrative Agent, and the lenders from time to time party thereto (as may be amended, restated, amended and restated, extended, supplemented, refinanced or otherwise modified in writing from time to time).

"**Business Day**" means the date which has not been declared as a public or bank holiday within the jurisdictions of incorporation of the Borrower and the Lender, including the date which is not declared as non-working day by either Party.

"**Credit Documents**" means this Agreement, and each other document, instrument and agreement executed and delivered pursuant to or in connection herewith or therewith.

"**Deposit**" means the deposit placed in accordance with the Sale and Purchase Agreement

"**Effective Date**" means the "Effective Date" as defined in the Bangkok Bank Facility.

"**Event of Default**" means events or circumstances described in clause 9.

"**Governmental Authority**" means any nation or government, any state or other political subdivision thereof and any department, commission, board, bureau, instrumentality, agency or other entity exercising legislative, judicial, regulatory or administrative functions of, or pertaining to, government.

"**IFRS**" means International Financial Reporting Standard as issued by the International Accounting Standards Board.

"**Interest**" has a meaning given in clause 4.

"**Interest Period**" has a meaning given in clause 4.1.

"**Interest Rate**" has a meaning given in clause 4.1.

"**Lien**" means any mortgage, deed of trust, pledge, hypothecation, assignment, deposit arrangement, lien (statutory or otherwise), security interest, charge or other encumbrance or security or preferential arrangement of any nature whatsoever.

"**Loan**" means the total principal amount drawn by the Borrower prior to the date hereof under the Loan Facility.

"**Loan Facility**" means the total amount which the Lender has, according to terms and condition of this Agreement, lent to the Borrower.

"**Material Adverse Effect**" means a material adverse effect of any of (a) the business, operations, property, or condition (financial or otherwise) of the Borrower

and its subsidiaries (b) the ability of the Borrower to perform its obligations under any Credit Document to which it is a party, or (c) the validity, legality or enforceability of any Credit Document or any rights and remedies of the Lender under the Credit Documents.

"**Net Worth**" means, at any time, total assets minus total liabilities calculated in accordance with IFRS as of the end of each quarter excluding any outstanding unrealized gains or losses from hedges, options and other similar derivative arrangements or contracts.

"**One-year SOFR**" means in respect of any Loan or any Interest Period, the rate certified by the Lender as the daily secured overnight financing rate based on transactions in the Treasury repurchase market where investors offer banks overnight loans backed by the bond assets published by the SOFR Administrator on the SOFR Administrator's website of an amount comparable to that Loan or Interest for a period of one year and, if any such rate is below zero, SOFR will be deemed as zero.

"**Payment Conditions**" means "Payment Conditions" as defined in the Bangkok Bank Facility.

"**Purpose**" has a meaning given in clause 1.2.

"**Purchaser**" means the purchaser to the Sale and Purchase Agreement.

"**Requirement of Law**" means, as to any person, any law, treaty, rule, restriction or regulation or determination of an arbitrator or a court or other Governmental Authority (including, without limitation, any federal, state or local environmental and employee benefit laws and regulations), in each case applicable to or binding upon such Person or any of its property or to which such Person or any of its property is subject.

"**Sale and Purchase Agreement**" means the sale and purchase agreement that will be execute or executed between BKV Corporation and XTO Energy Inc. for the acquisition of shale gas assets from XTO Energy Inc.

"**SOFR Administrator**" means the Federal Reserve Bank of (or a successor administrator of the secured overnight financing rate).

"Specified Amount Payment Period" has the meaning ascribed thereto and defined in the Bangkok Bank Facility.

"**Term**" has a meaning given in clause 3.

"**Trailing Twelve Month Net Borrowings to EBITDAX**" means the past twelve consecutive months of the Borrower interesting-bearing debts to EBITDAX. Net borrowings mean the total book value of all long-term and short-term interest-bearing debts less cash and cash equivalents. EBITDAX means earnings before interest, taxes, depreciation, depletion, amortization and exploration expenses.

"**Senior Administrative Agent**" means Bangkok Bank Public Company Limited, New York Branch in its capacity as administrative agent under the Bangkok Bank Facility.

"**Subordination Agreement**" means a subordination agreement in form and substance satisfactory to the Senior Administrative Agent to be dated the effective date of the Bangkok Bank Facility by and among the Borrower, Banpu North America Corporation, the Senior Administrative Agent and each other party thereto, as may be amended, restated, amended, supplemented or otherwise modified from time to time.

"**Subsidiaries**" means in relation to a company or corporation (the "first-mentioned company"), any company or corporation:

(i) which is controlled, directly or indirectly, by the first-mentioned company; or

(ii) more than half of the issued share capital of which is beneficially owned, directly or indirectly, by the first-mentioned company or corporation,

and, for these purposes, a company or corporation shall be treated as being controlled by another company or corporation if that other company or corporation is able to direct its affairs and/or control the composition of its board of directors or equivalent body.

1. Loan Facility

1.1 Prior to the date hereof, the Lender made available to the Borrower the Loan Facility in a single drawdown of **USD 75,000,000.00** (**Seventy Five Million United States Dollars**).

1.2 The Borrower agrees that the Loan provided under this Agreement shall be expended solely for the purpose of paying for the deposit to acquire shale gas assets from XTO Energy Inc. (the "**Purpose**").

2. [Reserved]

3. Term

This Agreement shall be effective as from the Effective Date and shall continue full force effect until December 31, 2027 (the " **Term**") and the Original Agreement shall thereafter be of no further force and effect; *provided that* the incurrence by the Borrower of the Loan has been assumed by the Borrower

and shall continue to exist under and be evidenced by this Agreement and shall be paid and performed as and when due under this Agreement; *provided further that* this Agreement will be automatically terminated if the Bangkok Bank Facility is not entered into and executed by the parties thereof no later than September 30, 2022, and upon occurrence of such early termination, the Parties agree that the Original Agreement shall be reinstated as a binding contract between the Parties hereto as if this Agreement has never been provided and executed by the Parties.

4. Interest

4.1 The Borrower shall pay to the Lender interest calculated from the amount of the Loan as of the date on which the Borrower receives or is deemed to have received the Loan until the date such amount has been fully repaid. The interest rate shall be a sum of one-year SOFR plus 5.25% per annum (the "**Interest Rate**"). The Parties agree that the interest shall be payable annually during the Specified Amount Payment Period, subject to the negative covenant conditions set out in Clause 6.18 of the Bangkok Bank Facility (the "**Interest Period**"). Upon the expiration of the Term, the payable interest shall become due and be paid together with the outstanding amount of the Loan.

4.2 If such one-year SOFR rate is no longer widely used or acceptable as a reference rate in the financial market, the Lender, with mutual written agreement with the Borrower and following market practice may specify another page or service displaying the comparable rate with a maturity comparable to such Interest Period after consultation with the Borrower.

4.3 Where the due date falls on a holiday of commercial banks of the Lender's country of residence or a non-Business Day declared by the Lender, the Borrower shall pay the interest on the Business Day immediately preceding such holiday or such non-Business Day, as the case may be.

4.4 Any amount payable by the Borrower pursuant to this Agreement which is not paid when due shall bear interest, payable on demand, from the due date of such amount until paid at a rate per annum equal to 3.00% per annum in excess of the Interest Rate. The interest on overdue amounts shall be calculated for the actual number of days elapsed on the basis of a year of 360 days.

5. Repayment

5.1 The Borrower shall repay the Loan, together with any outstanding and accrued interest, in one bullet payment to the Lender on the expiration date of the Term or otherwise acts in accordance with clause 5.3 ("**Repayment Date**"). Notwithstanding the foregoing, the Loan shall not be repaid at any time which would violate the terms of the Bangkok Bank Facility, and any expiration date of the Term occurring at such time shall be automatically extended until such time as such repayment is no longer prohibited by the Bangkok Bank Facility.

5.2 Where the due date falls on a holiday of commercial banks of the Lender's country of residence or a non-Business Day declared by the Lender, the Borrower shall repay the Loan on the Business Day immediately preceding such holiday or such non-Business Day, as the case may be.

5.3 The Borrower may, at its sole discretion and subject to negative covenant conditions set out in Clause 6.18 of the Bangkok Bank Facility, repay the Loan at any time prior to the Repayment Date without any fee or penalty, provided that the Borrower shall so notify the Lender at least 3 Business Days in advance of the intended payment date.

Notwithstanding the foregoing, but subject to Section 6.18 of the Bangkok Bank Facility, if, before the expiration of the Term, the Deposit has been returned to the Purchaser in accordance with the Sale and Purchase Agreement, the Borrower shall repay the Loan then outstanding and interest accrued thereon, within 15 (Fifteen) days after the date of the Purchaser's receipt of the Deposit or such earlier date as the Borrower (acting reasonably and in good faith) may agree with the Lender (being no earlier than the last day of any applicable grace period permitted by law).

5.4 The due amount of the Loan and any interest thereof shall be repaid and paid to the Lender by money transfer to the Lender's bank account or in accordance with the Lender's instruction. The Lender shall be deemed to having received the payment of interest and/or the repayment of the Loan upon the time such amount of payment and/or repayment become good fund to the Lender.

6. Costs and Expenses

Any costs or expenses incurred in connection with the preparation, execution and performance of this Agreement including but not limited to stamp duties and specific business taxes shall be borne by the Borrower. In the event that the Lender has paid for such costs, expenses, duties and taxes, the Borrower shall reimburse the Lender for such amount in full within three (3) Business Days after being informed by the Lender in writing.

7. Withholding Tax

In the event that the interest due to the Lender under this Agreement is subject to any withholding or deduction in respect of taxation, the Lender agrees that such withholding or deduction shall apply and the Borrower shall provide the Lender with a certificate evidencing such withholding or deduction.

8. Event of Default

8.1 Each of the following events and circumstances shall be considered as an Event of Default:

(a) Failure to pay: The Borrower fails to pay any sum payable under this Agreement when due or otherwise in accordance with the provisions hereof, unless the failure to pay is the result of a remittance error which is not caused by any fault of the Borrower and the failure is remedied within 5 Business Days after the due date for payment.

(b) Execution: A creditor takes possession of all or any part of the business or assets of the Borrower, or any execution, attachment or other legal process is enforced against all or any part of the business or assets of the Borrower and is not discharged within 60 days, or any order is made against the Borrower and is not complied with or discharged within 60 days (unless the order is subject to appeal and is contested by the Borrower in good faith).

(c) Inability to pay debts: The Borrower stops or suspends payments to its creditors or any class of its creditors, or is unable or under applicable law is deemed to be unable or admits its inability to pay its debts as they fall due, or commences any process for the relief of debtors, or is declared or becomes insolvent or bankrupt.

(d) Insolvency proceedings: A petition is presented or a proceeding is commenced or an order is made or an effective resolution is passed or a notice is issued convening a meeting for the purpose of passing any resolution or any other step is taken for the winding-up, insolvency, bankruptcy, administration, reorganization or reconstruction of the Borrower or for the appointment of a liquidator, administrator, administrative receiver, receiver or similar officer of the Borrower or of all or any part of its business or assets.

(e) Analogous proceedings: Any event occurs in any jurisdiction which has an effect analogous to any of the events described in paragraphs (b) (*Execution*), (c) (*Inability to Pay Debts*) (d) (*Insolvency Proceedings*).

(f) Borrower's business: The Borrower ceases to carry on all or any substantial part of its business, or changes materially the nature or scope of its business, or disposes of all or any substantial part of its business or assets, or proposes to do any of the foregoing.

8.2 As a result of any Event of Default, any amount of the Loan, interest or any sum which are not due shall become due and payable immediately, and the Borrower agrees and accepts that the Lender may file a claim to seek immediate repayment and payment of any sum due hereunder without an advance notice to the Borrower.

9. Indemnity

9.1 General Indemnity

The Borrower shall indemnify the Lender against all losses, liabilities, damages, costs and expenses which the Lender may reasonably incur as a consequence of any Event of Default or any other breach by the Borrower of any of its obligations under this Agreement or any failure to drawdown the Loan in accordance with a drawdown notice or otherwise in connection with this Agreement (including any loss or expense incurred in liquidating or redeploying funds arranged or acquired for the purpose of advancing the Loan and any interest or fees incurred in funding any unpaid sum).

9.2 Currency Indemnity

(a) United States Dollar shall be the currency of account and payment in respect of sums payable by the Borrower under this Agreement. If any money is paid by the Borrower or received or recovered by the Lender under this Agreement in a currency other than the currency in which the indebtedness of or payment by the Borrower is due, then the Borrower shall pay such additional amount as may be necessary so that after conversion of all such money into the currency in which the relevant indebtedness or payment is due the Lender shall have net in hands an amount in that currency equal to that portion of the indebtedness then outstanding and due to the Lender.

(b) In the event that any judgment or order of any court of competent jurisdiction in any jurisdiction is given or made against the Borrower in respect of all or any part of money owing under this Agreement in a currency ("**Judgment Currency**") other than the currency in which the indebtedness of the Borrower is due ("**Contractual Currency**"), then the Borrower shall as a separate and independent liability indemnify and hold the Lender harmless against any deficiency resulting from any variation in rates of exchange between the Judgment Currency and Contractual Currency occurring between (i) the date as at which any money expressed in the Contractual Currency is converted, for the purpose of any such judgment or order, into an equivalent amount in the Judgment Currency and (ii) the date or dates of discharge of such money. If the amount of the Contractual Currency which the Lender is able to purchase by such Judgment Currency exceeds the sum originally due to the Lender, the Lender shall refund such excess to the Borrower.

10. Notice

10.1 Any notice required to be given by any Party hereto to any other shall be deemed validly served by hand delivery, electronic mail or by prepaid registered letter sent through the post (airmail if to an overseas address) or by facsimile transmission to its address given herein or such other address as may from time to time be notified for this purpose:

To the Lender: **Banpu North America Corporation**
1200, 17th Street, 21st Floor, Suite 2100,
Denver, Colorado 80202, United States of America
Attention: Mr. Thiti Mekavichai
Email: [***]

CC: 27th Floor, Thanapoom Tower
1550 New Petchburi Road,
Makkasan, Ratchathewi, Bangkok 10400,
Thailand Fax no. [***]

To the Borrower: **BKV Corporation**
1200, 17th Street, 21st Floor, Suite 2100,
Denver, Colorado 80202, United States of America
Attention: Mr. Chris Kalnin
Email: [***]

10.2 Any notice served by hand shall be deemed to have been served on delivery, or if served by facsimile transmission to have been served when sent, or if served by electronic mail to have been served when received with confirmation of receipt or if served by prepaid registered letter to have been served 48 hours (72 hours in the case of a letter sent by airmail to an address in another country) after the time at which it was posted. In proving the service by hand and prepaid registered letter, it shall be sufficient to prove if the notice was properly addressed and delivered or posted, as the case may be, and in the case of service by facsimile transmission to prove if the transmission was confirmed as sent by the original machine.

11. Change of Law or Circumstances

If it becomes, or it becomes apparent that it is or will be, unlawful or contrary to any requirement of any governmental, fiscal, monetary or other authority (whether or not having the force of law) for the Lender to give effect to its obligations under this Agreement or to fund the Loan or any part thereof in the Lender's country of incorporation's interbank market, the Lender shall so notify the Borrower. Upon such notification the Facility shall be cancelled. The Borrower shall forthwith repay the Loan in full together with any accumulated interest.

12. [Reserved]

13. Representations and Warranties

13.1 The Borrower and the Lender each represents and warrants to the other that it is a company duly incorporated with limited liability and validly existing under the laws of the State of Delaware respectively has full power, authority and legal right to own its assets and to carry on its business.

13.2 The Borrower and the Lender each represents and warrants to the other that it has full power, authority and legal right, and all necessary corporate action has been taken in order to authorize each of the Borrower and the Lender, to enter into and to exercise its rights and perform its obligations under this Agreement.

13.3 The Borrower represents and warrants to the Lender that no consent, approval, permit exemption, or authorization of, filing with, or other act by or in respect of any other person (including the partners and creditors of the Borrower) or any Governmental Authority, is required in connection with making of the Loan hereunder or with the execution, delivery, performance, validity or enforceability of this Agreement, except as may have been obtained or made and certified copies of which have been delivered to the Lender and each of which on the date of execution of this Agreement shall be in full force and effect.

13.4 The Borrower represents and warrants to the Lender that no Requirement of Law, contractual obligation, or judgment, decree or order of any Governmental Authority binding on the Borrower would be contravened by the execution, delivery, performance or enforcement of this Agreement. The execution, delivery and performance of this Agreement will not result in or require the creation of any lien or any properties owned by the Company.

13.5 There are no suits, actions, proceedings, claims or disputes pending or, to the knowledge of the Borrower, threatened against or affecting the Borrower or any of its subsidiaries or their respective properties, which, if adversely determined, could have a material adverse effect on the Borrower's business or condition (financial or otherwise), taking into effect financial reserves and insurance policies maintained by the Borrower.

13.6 The Borrower and its Subsidiaries is in compliance with all Requirements of Law (including, without limitation, environmental laws) and all orders, writs, injunctions and decrees applicable to it or its properties, except in such instances in which (a) such Requirement of Law or order, writ, injunction or decrees is being contested in good faith by appropriate proceedings diligently conducted or (b) the failure to so comply, either individually or in the aggregate, could not reasonably be expected to have Material Adverse Effect.

13.7 Neither the Borrower nor any of its Subsidiaries is in default in any material respect in the performance, observance or fulfillment of any obligation, covenant or condition in any agreement, document or instrument to which it is a party or by which it is bound. No default or Event of Default has occurred and is continuing and since the date of the most recent audited financial statements, no Material Adverse Effect has occurred and is continuing.

13.8 The Borrower and its Subsidiaries have filed or caused to be filed all tax returns required to be filed, and have paid, or have made adequate provision for the payment of, all due and payable taxes and assessments to the extent the failure to do so could be reasonably be expected to have a Material Adverse Effect, and no tax liens have been filed and no claims are being asserted with respect to such taxes which are required to be reflected in the financial statements, as these cases may be, and are not reflected therein.

13.9 The properties of the Borrower and its Subsidiaries are insured with financially sound and reputable insurance companies in such amounts with such deductibles and covering such risks as are customarily carried by companies engaged in similar businesses and owning similar Properties in localities where the Borrower and its subsidiaries are located.

14. Covenants

14.1 The Borrower shall, as promptly as possible, give written notice to the Lender of:

(a) The occurrence of any Event of Default and any event which, with the passage of time or the giving of notice or both, would become an Event of Default, specifying the nature and period of existence thereof and the action that the Borrower is taking and proposes to take with respect thereto.

(b) Any investigation, action, suit, proceeding before any Governmental Authority, or any litigation, legal proceeding, dispute, circumstance or other matter which has resulted or could reasonably be expected to result in an Event of Default or have a Material Adverse Effect.

(c) Occurrence of any event that reasonably could be expected to have a Material Adverse Effect.

14.2 The proceeds of the Loan shall be used solely for the Purpose specified hereunder. None of such proceeds shall be used, directly or indirectly, for other purposes.

14.3 The Borrower shall at all times comply with all Requirements of Laws (including, without limitation, environmental laws); provided, however, that the Borrower shall not be deemed in default of this clause if such non-compliances individually or in the aggregate have no Material Adverse Effect.

14.4 Without the prior written consent of the Lender, the Borrower shall not, nor will it permit any Subsidiaries to, create, incur or suffer to exist any Lien upon any of its property, assets or revenues, whether now owned or hereafter acquired.

14.5 The Borrower and its Subsidiaries shall not, without the prior written consent of the Lender, consummate any transaction of merger, amalgamation or consolidation, or liquidate, wind-up or dissolve (or suffer any liquidation or dissolution), or convey, sell, lease, license or otherwise dispose of, in one or a series of related transactions, all or substantially all of its property, or materially alter the nature of its business.

14.6 The Borrower will not, nor will it permit any Subsidiaries to, create, incur, assume or suffer to exist any indebtedness and guarantee (other than any indebtedness or guarantee created, incurred, assumed or suffered to exist in connection with the Bangkok Bank Facility or any other Loan Documents (as defined in the Bangkok Bank Facility)) unless granted a written consent of the Lender.

14.7 The Borrower shall not permit at any time the sum of Net Worth of the Borrower to be less than $800,000,000.

14.8 At all times after Effective Date, the Borrower shall not permit at any time the Trailing Twelve Month Net Borrowings to EBITDAX ratio to be greater than 3.0x.

14.9 Without the prior written consent of the Lender, the Borrower shall not, and shall not permit any Subsidiaries to, engage to any material extent in any business other than those businesses conducted by the Borrower and its subsidiaries on the date hereof or any business reasonably related or incidental thereto.

14.10 The Borrower shall, at least on semi-annual basis or upon the reasonable request by the Lender, submit the Lender the test result of the Payment Conditions in accordance with the terms and conditions set out in the Bangkok Bank Facility.

15. Miscellaneous

15.1 No failure or delay by the Lender in exercising its rights, powers, and privileges hereunder shall impair the same or operate as a waiver of the same, nor shall any single or partial exercise of any right, power or privilege preclude any further exercise thereof or the exercise of any other rights, powers or privileges.

15.2 This Agreement shall be governed by and construed in accordance with the laws of New York.

15.3 Each notice or other communication under this Agreement shall be in English. Any other documents required to be delivered under this Agreement shall be in English.

15.4 The Borrower may not assign any of its rights, benefits and obligations under this Agreement. The Lender may at any time assign to any one or more all or any part of its rights and benefits arising out of this Agreement.

15.5 Any amendment or waiver of any provision of this Agreement and any waiver of any default under this Agreement shall only be effective if made in writing and signed by the Parties.

15.6 If at any time any provision of this Agreement is or becomes illegal, invalid or unenforceable in any respect under the law of any jurisdiction, the legality, validity and enforceability of such provision under the law of any other jurisdiction, and of the remaining provisions of this Agreement, shall have full force and effect and will not be affected or impaired thereby.

REVOLVING CREDIT AGREEMENT (this "Agreement") dated as of August 24, 2022 among BKV CORPORATION, as Borrower, the LENDERS from time to time party hereto and BANGKOK BANK PUBLIC COMPANY LIMITED, NEW YORK BRANCH, as Administrative Agent.

The parties hereto agree as follows:

ARTICLE I

Definitions

SECTION 1.01.Defined Terms. As used in this Agreement, the following terms have the meanings specified below:

"ABR", when used in reference to any Revolving Loan or Borrowing, refers to whether such Borrowing, or the Revolving Loans comprising such Borrowing, bears interest at a rate determined by reference to the Alternate Base Rate.

"ABR Revolving Loan" means a Revolving Loan that bears interest at a rate based on the ABR.

"Acreage Swap" means any concurrent purchase and sale or exchange of Oil and Gas Properties between any Loan Party and another Person.

"Adjusted Daily Simple RFR" means with respect to any RFR Borrowing, an interest rate per annum equal to (a) the Daily Simple RFR, plus (b) 0.10 %; *provided* that if the Adjusted Daily Simple RFR as so determined would be less than the Floor, such rate shall be deemed to be equal to the Floor for the purposes of this Agreement.

"Adjusted Stockholders' Equity" means stockholders' equity of the Borrower and its Consolidated Subsidiaries as determined pursuant to GAAP, adjusted to exclude in the calculation thereof any accumulated change in the fair market value of unrealized earnout obligations consisting of the Subject Payments and accumulated net unrealized gain or loss (after any offset) resulting from Swap Agreements and the application of Accounting Standards Codification Topic No. 815, Derivatives and Hedging.

"Adjusted Term SOFR Rate" means, for any Interest Period, an interest rate per annum equal to (a) the Term SOFR Rate for such Interest Period, plus (b) 0.10%; *provided* that if the Adjusted Term SOFR Rate as so determined would be less than the Floor, such rate shall be deemed to be the Floor for the purposes of this Agreement.

"Administrative Agent" means Bangkok Bank Public Company Limited, New York Branch, in its capacity as administrative agent for the Lenders hereunder, and any successor in such capacity pursuant to Article 8.05.

"Administrative Questionnaire" means an Administrative Questionnaire in a form supplied by the Administrative Agent.

"Affected Financial Institution" means (a) any EEA Financial Institution or (b) any UK Financial Institution.

"Affiliate" means, with respect to a specified Person, another Person that directly, or indirectly through one or more intermediaries, Controls or is Controlled by or is under common Control with the Person specified. "Affiliated" shall have a corresponding meaning.

"Agreement" has the meaning assigned to such term in the preamble hereto.

"Alternate Base Rate" means, for any day, a rate per annum equal to the greatest of (a) the Prime Rate in effect on such day, (b) the NYFRB Rate in effect on such day plus 0.50% and (c) the Adjusted Term SOFR Rate for a one-month Interest Period as published two U.S. Government Securities Business Days prior to such day (or if such day is not a Business Day, the immediately preceding Business Day) plus 1.00%; *provided* that, for the purpose of

this definition, the Adjusted Term SOFR Rate for any day shall be based on the Term SOFR Reference Rate at approximately 6:00 a.m. New York time on such day (or any amended publication time for the Term SOFR Reference Rate, as specified by the CME Term SOFR Administrator in the Term SOFR Reference Rate methodology). Any change in the Alternate Base Rate due to a change in the Prime Rate, the NYFRB Rate or the Adjusted Term SOFR Rate shall be effective from and including the effective date of such change in the Prime Rate, the NYFRB Rate or the Adjusted Term SOFR Rate, respectively. If the Alternate Base Rate is being used as an alternate rate of interest pursuant to Section 2.11 (for the avoidance of doubt, only until the Benchmark Replacement has been determined pursuant to Section 2.11(b)), then the Alternate Base Rate shall be the greater of clauses (a) and (b) above and shall be determined without reference to clause (c) above. For the avoidance of doubt, if the Alternate Base Rate as determined pursuant to the foregoing would be less than 1.00%, such rate shall be deemed to be 1.00% for purposes of this Agreement.

"Amended and Restated Shareholder Loan Agreements" means (a) that certain Amended and Restated Loan Agreement, dated as of June 15, 2022, by and between Banpu North America, as lender, and the Borrower, as borrower, pursuant to which Banpu North America made a term loan in the aggregate principal amount of $116,000,000 and (b) the XTO Acquisition Subordinated Shareholder Loan Agreement.

"Amended and Restated Shareholder Loans" means the loans incurred by the Borrower pursuant to the Amended and Restated Shareholder Loan Agreements (including the XTO Acquisition Subordinated Shareholder Loans).

"Ancillary Document" has the meaning assigned to such term in Section 9.06.

"Annual Payment Date" shall have the meaning assigned to such term in the Term Loan Credit Agreement.

"Anti-Corruption Laws" means all Requirements of Law of any jurisdiction applicable to the Borrower or any of its Subsidiaries from time to time concerning or relating to bribery or corruption, (including, without limitation, the FCPA).

"Anti-Terrorism Laws" means all Requirements of Law of any jurisdiction related to terrorism financing or money laundering, including the Patriot Act, The Currency and Foreign Transactions Reporting Act (also known as the "Bank Secrecy Act", 31 U.S.C. §§ 5311-5330 and 12 U.S.C. §§ 1818(s), 1820(b) and 1951-1959) and Executive Order 13224 (effective September 24, 2001).

"Applicable Percentage" means, with respect to any Lender at any time, a percentage (carried out to the ninth decimal place) equal to a fraction (a) the numerator of which is an amount equal to such Lender's Credit Exposure at such time and (b) the denominator of which is an amount equal to the Credit Exposures of all Lenders at such time; provided that, in each case, when a Defaulting Lender shall exist, "Applicable Percentage" shall disregard any Defaulting Lender's Credit Exposure.

"Applicable Rate" means 4.75% per annum.

"Approved Electronic Platform" has the meaning assigned to such term in Section 8.03(a).

"Approved Petroleum Engineers" means (a) Ryder Scott Company, L.P. and (b) any other independent petroleum engineers reasonably acceptable to the Administrative Agent.

"Approved Swap Counterparty" means (a) any Person whose (or whose credit support provider's) long term senior unsecured debt rating or issuer rating at the time the relevant Swap Agreement is entered into is A- or higher by S&P or A3 or higher by Moody's (or their equivalent) or (b) any counterparty to a Swap Agreement with the Borrower or any Subsidiary of the Borrower that is acceptable to the Administrative Agent at the time such Swap Agreement is entered into.

"Asset Coverage Ratio" means, as of any date, the ratio of (a) Total Proved PV-10 as of such date to (b) Specified Total Indebtedness as of such date.

"Assignment and Assumption" means an assignment and assumption agreement entered into by a Lender and an assignee (with the consent of any party whose consent is required by Section 9.04), and accepted by the Administrative Agent, substantially in the form of Exhibit B, or any other form (including electronic records generated by the use of an electronic platform) approved by the Administrative Agent.

"Available Cash" means, as of any date of determination, all cash and Cash Equivalents of the Borrower or any of its Subsidiaries as of such date, other than any such cash or Cash Equivalents that would appear as "restricted" on a consolidated balance sheet of the Borrower or any of its Subsidiaries.

"Available Tenor" means, as of any date of determination and with respect to the then- current Benchmark, as applicable, any tenor for such Benchmark (or component thereof) or payment period for interest calculated with reference to such Benchmark (or component thereof), as applicable, that is or may be used for determining the length of an interest period for any term rate or otherwise, for determining any frequency of making payments of interest calculated pursuant to this Agreement as of such date and not including, for the avoidance of doubt, any tenor for such Benchmark that is then-removed from the definition of "Interest Period" pursuant to clause (e) of Section 2.11.

"Bail-In Action" means the exercise of any Write-Down and Conversion Powers by the applicable Resolution Authority in respect of any liability of an Affected Financial Institution.

"Bail-In Legislation" means (a) with respect to any EEA Member Country implementing Article 55 of Directive 2014/59/EU of the European Parliament and of the Council of the European Union, the implementing law, regulation, rule or requirement for such EEA Member Country from time to time which is described in the EU Bail-In Legislation Schedule and (b) with respect to the United Kingdom, Part I of the United Kingdom Banking Act 2009 (as amended from time to time) and any other law, regulation or rule applicable in the United Kingdom relating to the resolution of unsound or failing banks, investment firms or other financial institutions or their affiliates (other than through liquidation, administration or other insolvency proceedings).

"Bankruptcy Event" means, with respect to any Person, such Person becomes the subject of a bankruptcy or insolvency proceeding, or has had a receiver, conservator, trustee, administrator, custodian, assignee for the benefit of creditors or similar Person charged with the reorganization or liquidation of its business appointed for it, or has taken any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any such proceeding or appointment, provided that a Bankruptcy Event shall not result solely by virtue of any ownership interest, or the acquisition of any ownership interest, in such Person by a Governmental Authority or instrumentality thereof, unless such ownership interest results in or provides such Person with immunity from the jurisdiction of courts within the United States or from the enforcement of judgments or writs of attachment on its assets or permits such Person (or such Governmental Authority or instrumentality) to reject, repudiate, disavow or disaffirm any contracts or agreements made by such Person.

"Banpu" means Banpu Public Company Limited, a public company registered in Thailand.

"Banpu North America" means Banpu North America Corporation, a Delaware corporation.

"Benchmark" means, initially, (a) with respect to any Term Benchmark Loan, the Term SOFR Rate and (b) with respect to any RFR Revolving Loan, the Adjusted Daily Simple RFR; *provided* that if a Benchmark Transition Event and the related Benchmark Replacement Date have occurred with respect to the Term SOFR Rate, the Adjusted Daily Simple RFR or the then-current Benchmark, then "Benchmark" means the applicable Benchmark Replacement to the extent that such Benchmark Replacement has replaced such prior benchmark rate pursuant to Section 2.11(b).

"Benchmark Replacement" means, with respect to any Benchmark Transition Event, for any Available Tenor, the first alternative set forth in the order below that can be determined by the Administrative Agent for the applicable Benchmark Replacement Date:

(1) the Adjusted Daily Simple RFR;

(2) the sum of: (a) the alternate benchmark rate that has been selected by the Administrative Agent and the Borrower as the replacement for the then-current Benchmark for the applicable Corresponding Tenor giving due consideration to (i) any selection or recommendation of a replacement benchmark rate or the mechanism for determining such a rate by the Relevant Governmental Body or (ii) any evolving or then-prevailing market convention for determining a benchmark rate as a replacement for the then-current Benchmark for Dollar-denominated syndicated credit facilities at such time in the United States and (b) the related Benchmark Replacement Adjustment.

If the Benchmark Replacement as determined pursuant to clause (1) or (2) above would be less than the Floor, the Benchmark Replacement will be deemed to be the Floor for the purposes of this Agreement and the other Loan Documents.

"Benchmark Replacement Adjustment" means, with respect to any replacement of the then-current Benchmark with an Unadjusted Benchmark Replacement for any applicable interest period and Available Tenor for any setting of such Unadjusted Benchmark Replacement, the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected by the Administrative Agent and the Borrower for the applicable Corresponding Tenor giving due consideration to (i) any selection or recommendation of a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement by the Relevant Governmental Body on the applicable Benchmark Replacement Date and/or (ii) any evolving or then-prevailing market convention for determining a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement for syndicated credit facilities denominated in Dollars at such time.

"Benchmark Replacement Conforming Changes" means, with respect to Term SOFR Rate and/or any Benchmark Replacement, any technical, administrative or operational changes (including changes to the definition of "Alternate Base Rate," the definition of "Business Day", the definition of "U.S. Government Securities Business Day", the definition of "Interest Period," the definition of "Interest Payment Date", timing and frequency of determining rates and making payments of interest, timing of borrowing requests or prepayment, conversion or continuation notices, length of lookback periods, the applicability of breakage provisions, changes to Section 2.05 to reflect one interest rate applicable to all Revolving Loans, and other technical, administrative or operational matters) that the Administrative Agent (in consultation with the Borrower) decides may be appropriate to reflect the adoption and implementation of such Benchmark Replacement and to permit the administration thereof by the Administrative Agent in a manner substantially consistent with market practice (or, if the Administrative Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Administrative Agent determines that no market practice for the administration of such Benchmark Replacement exists, in such other manner of administration as the Administrative Agent (in consultation with the Borrower) decides is reasonably necessary in connection with the administration of this Agreement and the other Loan Documents).

"Benchmark Replacement Date" means, with respect to any Benchmark, the earliest to occur of the following events with respect to such then-current Benchmark:

(1) in the case of clause (1) or (2) of the definition of "Benchmark Transition Event," the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of such Benchmark (or the published component used in the calculation thereof) permanently or indefinitely ceases to provide all Available Tenors of such Benchmark (or such component thereof); or

(2) in the case of clause (3) of the definition of "Benchmark Transition Event," the first date on which such Benchmark (or the published component used in the calculation thereof) has been determined and announced by the regulatory supervisor for the administrator of such Benchmark (or such component thereof) to be no longer representative; *provided* that such non-representativeness will be determined by reference to the most recent statement or publication referenced in such clause (3) and even if any Available Tenor of such Benchmark (or such component thereof) continues to be provided on such date.

For the avoidance of doubt, (i) if the event giving rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the

Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination and (ii) the "Benchmark Replacement Date" will be deemed to have occurred in the case of clause (1) or (2) with respect to any Benchmark upon the occurrence of the applicable event or events set forth therein with respect to all then-current Available Tenors of such Benchmark (or the published component used in the calculation thereof).

"Benchmark Transition Event" means, with respect to any Benchmark, the occurrence of one or more of the following events with respect to such then-current Benchmark:

(1) a public statement or publication of information by or on behalf of the administrator of such Benchmark (or the published component used in the calculation thereof) announcing that such administrator has ceased or will cease to provide all Available Tenors of such Benchmark (or such component thereof), permanently or indefinitely; *provided* that, at the time of such statement or publication, there is no successor administrator that will continue to provide any Available Tenor of such Benchmark (or such component thereof);

(2) a public statement or publication of information by the regulatory supervisor for the administrator of such Benchmark (or the published component used in the calculation thereof), the Federal Reserve Board, the NYFRB, the CME Term SOFR Administrator, an insolvency official with jurisdiction over the administrator for such Benchmark (or such component), a resolution authority with jurisdiction over the administrator for such Benchmark (or such component), or a court or an entity with similar insolvency or resolution authority over the administrator for such Benchmark (or such component), in each case which states that the administrator of such Benchmark (or such component) has ceased or will cease to provide all Available Tenors of such Benchmark (or such component thereof) permanently or indefinitely; *provided* that, at the time of such statement or publication, there is no successor administrator that will continue to provide any Available Tenor of such Benchmark (or such component thereof); or

(3) a public statement or publication of information by the regulatory supervisor for the administrator of such Benchmark (or the published component used in the calculation thereof) announcing that all Available Tenors of such Benchmark (or such component thereof) are no longer, or as of a specified future date will no longer be, representative.

For the avoidance of doubt, a "Benchmark Transition Event" will be deemed to have occurred with respect to any Benchmark if a public statement or publication of information set forth above has occurred with respect to each then-current Available Tenor of such Benchmark (or the published component used in the calculation thereof).

"Benchmark Unavailability Period" means, with respect to any Benchmark, the period (if any) (x) beginning at the time that a Benchmark Replacement Date pursuant to clauses (1) or (2) of that definition has occurred if, at such time, no Benchmark Replacement has replaced such then-current Benchmark for all purposes hereunder and under any Loan Document in accordance with Section 2.11 and (y) ending at the time that a Benchmark Replacement has replaced such then-current Benchmark for all purposes hereunder and under any Loan Document in accordance with Section 2.11.

"Beneficial Ownership Certification" means a certification regarding beneficial ownership as required by the Beneficial Ownership Regulation.

"Beneficial Ownership Regulation" means 31 CFR § 1010.230.

"BKV-BPP" means BKV-BPP Power, LLC, a Delaware limited liability company.

"BKV-Temple Loan Agreement" means that certain Loan Agreement, dated as of December 23, 2021, by and among the Borrower and Temple Generation I LLC.

"Board" means the Board of Governors of the Federal Reserve System of the United States of America.

"Borrower" means BKV Corporation, a Delaware corporation.

"Borrower Reimbursement Conditions" shall mean, with respect to any Borrowing:

(a) the Borrower shall have delivered to the Administrative Agent a certificate (in form and substance satisfactory to the Administrative Agent) (i) certifying that the amounts (the "Reimbursed Invoiced Amounts") owing to the applicable Payees (other than Specified Royalty Payments) in connection with such Borrowing have been paid to the respective Payees prior to the date of such Borrowing, (ii) certifying, and providing calculations showing, that the amount of the requested Borrowing does not exceed 110% of such Reimbursed Invoiced Amounts (for the avoidance of doubt, including any Specified Royalty Payments) and (iii) certifying that the Borrower will pay to the applicable Payees of any Specified Royalty Payment such Specified Royalty Payment on or prior to the last day of the month in which such Borrowing occurs; and

(b) the Administrative Agent shall in its sole discretion approve the direct disbursement of Revolving Loan proceeds to the Borrower instead of the applicable Payee(s).

"Borrowing" means Revolving Loans made on the same date.

"Borrowing Request" means a written request by the Borrower for a Borrowing in accordance with Section 2.03, which shall be substantially in the form attached hereto as Exhibit D or any other form approved by the Administrative Agent.

"Business Day" means any day that is not a Saturday, Sunday or other day on which commercial banks in New York City, are authorized or required by law to remain closed; *provided* that, when used in connection with a Term Benchmark Loan or RFR Revolving Loan, the term " Business Day" shall also exclude any day that is not a U.S. Government Securities Business Day.

"Capital Expenditures" means, with respect to any Person for any period, any expenditure in respect of the purchase or other acquisition or improvement of any fixed or capital asset (excluding normal replacements and maintenance which are properly charged to current operations) classified and accounted for as a capital expenditure on the statement of cash flow of such Person in accordance with GAAP, but excluding any payments made as consideration for any merger or consolidation with any other Person or any acquisition of the Equity Interests in any other Person.

"Capital Lease Obligations" of any Person means, subject to Section 1.03, the obligations of such Person to pay rent or other amounts under any lease of (or other arrangement conveying the right to use) real or personal property, or a combination thereof, which obligations are required to be classified and accounted for as capital lease obligations on a balance sheet of such Person under GAAP, and the amount of such obligations shall be the capitalized amount thereof determined in accordance with GAAP.

"Cash Equivalents" means, as at any date of determination, any of the following: (a) marketable securities (i) issued or directly and unconditionally guaranteed as to interest and principal by the United States Government or (ii) issued by any agency of the United States the obligations of which are backed by the full faith and credit of the United States, in each case maturing within one year after such date; (b) marketable direct obligations issued by any state of the United States of America or any political subdivision of any such state or any public instrumentality thereof, in each case maturing within one year after such date and having, at the time of the acquisition thereof, a rating of at least A-1 from S&P or at least P-1 from Moody's; (c) commercial paper having, at the time of the acquisition thereof, a rating of at least A-1 from S&P or at least P-1 from Moody's; (d) deposits maturing within one year from the date of creation thereof with, including certificates of deposit issued by, any Lender or any office located in the United States of any other bank or trust company which is organized under the laws of the United States or any state thereof, has capital, surplus and undivided profits aggregating at least $100,000,000 (as of the date of such bank or trust company's most recent financial reports) and has a short term deposit rating of no lower than A-2 or P-2, as such rating is set forth from time to time, by S&P or Moody's, respectively; and (e) deposits in money market funds investing exclusively in Investments described in clauses (b), (c) or (d) above.

"Cashflow Projection" means a projection of the cash flow of the Borrower and its Consolidated Subsidiaries, in form and detail acceptable to the Administrative Agent.

"Casualty Event" means any loss, casualty or other insured damage to, or any nationalization, taking under power of eminent domain or by condemnation or similar proceeding of, any property or asset of the Borrower or any Subsidiary.

"CERCLA" means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, state and local analogs, and all rules and regulations and requirements thereunder in each case as now or hereafter in effect.

"Change in Control" means an event or series of events by which:

(a) at any time prior to the consummation of a Qualified IPO, the Permitted Holders collectively shall cease to directly or indirectly own, or cease to have the power to vote or direct the voting of, Equity Interests of the Borrower representing at least 75% of the aggregate ordinary voting power represented by the issued and outstanding Equity Interests of the Borrower on a fully- diluted basis;

(b) at any time after the consummation of a Qualified IPO, the Permitted Holders collectively shall cease to directly or indirectly own, or cease to have the power to vote or direct the voting of, Equity Interests of the Borrower representing at least 51% of the aggregate ordinary voting power represented by the issued and outstanding Equity Interests of the Borrower on a fully- diluted basis; or

(c) any of the Equity Interests of the Borrower owned by any Permitted Holder becomes subject to any Lien (other than Liens securing the Obligations).

"Change in Law" means the occurrence, after the date of this Agreement, of any of the following: (a) the adoption or taking effect of any law, rule, regulation or treaty, (b) any change in any law, rule, regulation or treaty or in the administration, interpretation, implementation or application thereof by any Governmental Authority or (c) the making or issuance of any request, rule, guideline, requirement or directive (whether or not having the force of law) by any Governmental Authority; provided however, that notwithstanding anything herein to the contrary, (i) the Dodd-Frank Wall Street Reform and Consumer Protection Act and all requests, rules, guidelines, requirements and directives thereunder, issued in connection therewith or in implementation thereof, and (ii) all requests, rules, guidelines, requirements and directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or the United States or foreign regulatory authorities, in each case pursuant to Basel III, shall in each case be deemed to be a "Change in Law" regardless of the date enacted, adopted, issued or implemented.

"Charges" has the meaning assigned to such term in Section 9.15.

"CME Term SOFR Administrator" means CME Group Benchmark Administration Limited as administrator of the forward-looking term SOFR (or a successor administrator).

"Code" means the Internal Revenue Code of 1986, as amended.

"Commitment" means a Revolving Loan Commitment.

"Commodity Exchange Act" means the Commodity Exchange Act (7 U.S.C. § 1 et seq.), as amended from time to time, and any successor statute.

"Communications" means, collectively, any notice, demand, communication, information, document or other material provided by or on behalf of any Loan Party pursuant to any Loan Document or the transactions contemplated therein which is distributed by the Administrative Agent or any Lender by means of electronic communications pursuant to Section 8.03(c), including through an Approved Electronic Platform.

"Compliance Certificate" means a certificate of a Financial Officer of the Borrower substantially in the form attached hereto as Exhibit E.

"Concord" means Concord Energy, LLC.

"Connection Income Taxes" means Other Connection Taxes that are imposed on or measured by net income (however denominated) or that are franchise Taxes or branch profits Taxes.

"Consolidated EBITDA" means, with reference to any period, the sum of the following: (a) Consolidated Net Income for such period plus (b) without duplication and to the extent deducted from revenues in determining Consolidated Net Income for such period, (i) Consolidated Interest Expense, (ii) expense for income, margin, franchise and similar taxes paid or accrued, (iii) depreciation, (iv) depletion, (v) amortization and (vi) other non-cash charges (except to the extent that such non-cash charges are reserved for cash charges to be taken in the future), minus (c) to the extent included in Consolidated Net Income for such period, (i) interest income, (ii) income tax credits and refunds (to the extent not netted from income tax expense) and (iii) non-cash gains and other non-cash items increasing Consolidated Net Income (other than any such non-cash gains on items to the extent representing the reversal of an accrual or reserve for a potential cash charge in any prior period), all calculated for the Borrower and its Subsidiaries in accordance with GAAP on a consolidated basis. For purposes of calculating Consolidated EBITDA for any period, if at any time during such period the Borrower or any of its Subsidiaries shall have made any Material Disposition or Material Acquisition, Consolidated EBITDA for such period shall be calculated giving pro forma effect thereto as if such Material Disposition or Material Acquisition had occurred on the first day of such period (such pro forma effect to be determined without giving effect to any anticipated or proposed change in operations, revenues, expenses or other items included in the calculation of Consolidated EBITDA, except with the consent of the Administrative Agent), and such pro forma effect shall be determined in a manner otherwise acceptable to the Administrative Agent and with supporting documentation acceptable to the Administrative Agent.

"Consolidated Fixed Charge Coverage Ratio" means, as of the last day of any Test Period, the ratio, determined on a consolidated basis for the Borrower and its Subsidiaries for such Test Period, of (a) (i) Consolidated EBITDA for such Test Period *plus* (ii) cash held by the Borrower and its Subsidiaries as of the commencement of such Test Period *minus* (iii) the sum of (without duplication) (A) the current portion of any Indebtedness of the Borrower and its Subsidiaries as of such date (other than the current portion of any Term Loans and any current contingent Indebtedness), (B) the aggregate principal amount of any Indebtedness incurred pursuant to Section 6.01(j) and outstanding as of such date and (C) the aggregate amount of the Subject Payments and any other contingent Indebtedness and/or earnout obligations incurred by the Borrower or its Subsidiaries in connection with any Investment (other than any current contingent Indebtedness) to (b) Consolidated Fixed Charges for such Test Period.

"Consolidated Fixed Charges" means, with respect to any Test Period, the sum of (a) Consolidated Interest Expense for such Test Period, (b) scheduled principal payments of borrowed money (including the Term Loans) made during such Test Period, (c) Capital Expenditures made during such Test Period, (d) any federal and state income taxes paid in cash for such Test Period, and (e) cash payments in respect of Capital Lease Obligations made during such Test Period.

"Consolidated Interest Expense" means, with reference to any period, the interest expense (including interest expense under Capital Lease Obligations that is treated as interest in accordance with GAAP) of the Borrower and its Subsidiaries calculated on a consolidated basis for such period with respect to all outstanding Indebtedness of the Borrower and its Subsidiaries allocable to such period in accordance with GAAP (including, without limitation, all commissions, discounts and other fees and charges owed with respect to letters of credit and bankers acceptance financing and net costs under interest rate Swap Agreements to the extent such net costs are allocable to such period in accordance with GAAP). In the event that the Borrower or any of its Subsidiaries shall have completed a Material Acquisition or a Material Disposition since the beginning of the relevant period, Consolidated Interest Expense shall be determined for such period on a pro forma basis as if such acquisition or Disposition, and any related incurrence or repayment of Indebtedness, had occurred at the beginning of such period.

"Consolidated Net Income" means, with reference to any period, the net income (or loss) of the Borrower and its Subsidiaries for such period, determined on a consolidated basis in accordance with GAAP; provided that there shall be excluded from such net income (to the extent otherwise included therein) the following: (a) the net income of any Person in which the Borrower or any of its Subsidiaries has an interest (which interest does not cause the net income of such other Person to be consolidated with the net income of the Borrower and its Subsidiaries in accordance with GAAP), except to the extent of the amount of dividends or distributions actually paid in cash during such period by such other Person to the Borrower or a Subsidiary; (b) the undistributed earnings during such period of any Subsidiary of the Borrower to the extent that the declaration or payment of dividends or similar distributions or transfers or loans by that Subsidiary is not at the time permitted by operation of the terms of its charter or any agreement, instrument or Governmental Requirement applicable to such Subsidiary or is otherwise restricted or prohibited; (c) the net income (or loss) of any Person acquired in a pooling of interests transaction for any period prior to the date of such transaction; (d) any extraordinary or non-recurring gains or losses during such period; (e) any gains or losses attributable to write-ups or writedowns of assets (including ceiling test writedowns); and (f) any net unrealized gain or loss (after any offset) resulting in such period from Swap Agreements and the application of Accounting Standards Codification Topic No. 815, Derivatives and Hedging.

"Consolidated Subsidiaries" means each Subsidiary of the Borrower (whether now existing or hereafter created or acquired) the financial statements of which shall be (or should have been) consolidated with the financial statements of the Borrower in accordance with GAAP.

"Control" means the possession, directly or indirectly, of (i) the power to direct or cause the direction of the management or policies of a Person,

whether through the ability to exercise voting power, by contract or otherwise or (ii) the power to vote or direct the voting of Equity Interests representing ten percent (10%) or more of the aggregate ordinary voting power represented by the issued and outstanding Equity Interests of a Person on a fully-diluted basis. The terms "Controlling" and "Controlled" have meanings correlative thereto.

"Corresponding Tenor", with respect to any Available Tenor, means, as applicable, either a tenor (including overnight) or an interest payment period having approximately the same length (disregarding business day adjustment) as such Available Tenor.

"Credit Exposure" means, as to any Lender at any time, an amount equal to the sum of (a) the unused Commitment of such Lender at such time plus (b) the aggregate principal amount of such Lender's Revolving Loans outstanding at such time.

"Credit Party" means the Administrative Agent or any other Lender.

"Cure Election Period" has the meaning assigned to such term in Section 7.02(a)(i).

"Cure Month" has the meaning assigned to such term in Section 7.02(b).

"Cure Period" has the meaning assigned to such term in Section 7.02(a).

"Cure Period Start Date" means, with respect to any Cure Quarter, the first day following the end of such Cure Quarter.

"Cure Quarter" has the meaning assigned to such term in Section 7.02(a).

"Cure Right" has the meaning assigned to such term in Section 7.02(a).

"Daily Simple RFR" means for any day, an interest rate per annum equal to, for any RFR Revolving Loan, Daily Simple SOFR.

"Daily Simple SOFR" means, for any day (a "SOFR Rate Day"), a rate per annum equal to SOFR for the day that is five (5) U.S. Government Securities Business Days (with observation shift) prior to (i) if such SOFR Rate Day is a U.S. Government Securities Business Day, such SOFR Rate Day or (ii) if such SOFR Rate Day is not a U.S. Government Securities Business Day, the U.S. Government Securities Business Day immediately preceding such SOFR Rate Day, in each case, as such SOFR is published by the SOFR Administrator on the SOFR Administrator's Website. Any change in Daily Simple SOFR due to a change in SOFR shall be effective from and including the effective date of such change in SOFR without notice to the Borrower.

"Default" means any event or condition which constitutes an Event of Default or which upon notice, lapse of time or both would, unless cured or waived, become an Event of Default.

"Defaulting Lender" means any Lender that (a) has failed, within two Business Days of the date required to be funded or paid, to (i) fund any portion of its Revolving Loans or (ii) pay over to any Credit Party any other amount required to be paid by it hereunder, unless, in the case of clause (i) above, such Lender notifies the Administrative Agent in writing that such failure is the result of such Lender's good faith determination that a condition precedent to funding (specifically identified and including the particular default, if any) has not been satisfied, (b) has notified the Borrower or any Credit Party in writing, or has made a public statement to the effect, that it does not intend or expect to comply with any of its funding obligations under this Agreement (unless such writing or public statement indicates that such position is based on such Lender's good faith determination that a condition precedent (specifically identified and including the particular default, if any) to funding a Revolving Loan under this Agreement cannot be satisfied) or generally under other agreements in which it commits to extend credit, (c) has failed, within three Business Days after request by a Credit Party or the Borrower, acting in good faith, to provide a certification in writing from an authorized officer of such Lender that it will comply with its obligations (and is financially able to meet such obligations) to fund prospective Revolving Loans under this Agreement, provided that such Lender shall cease to be a Defaulting Lender pursuant to this clause (c) upon such Credit Party's receipt of such certification in form and substance satisfactory to it, (d) has become the subject of a Bankruptcy Event or (e) has become the subject of a Bail-in Action.

"Devon Earn-Out Obligations" means the earnout obligations described in Section 3.1 of that certain Purchase and Sale Agreement between Devon Energy Production Company, L.P. and BKV Barnett, LLC dated December 17, 2019, as amended by that certain First Amendment to Purchase and Sale Agreement dated April 13, 2020.

"Disposition" or "Dispose" means the sale, transfer, exchange, license, lease or other disposition (in one transaction or in a series of transactions and whether effected pursuant to a Division or otherwise) of any property by any Person (including any Sale and Leaseback Transaction and any issuance of Equity Interests by a subsidiary of such Person), including (a) any sale, assignment, transfer or other disposal, with or without recourse, of any notes or accounts receivable or any rights and claims associated therewith and (b) any sale of Equity Interests held by such Person.

"Disqualified Equity Interests" means any Equity Interests that, by their terms (or by the terms of any security or other Equity Interest into which they are convertible or for which they are exchangeable) or upon the happening of any event or condition, (a) mature (excluding any maturity as a result of an optional redemption by the issuer thereof) or are mandatorily redeemable (other than solely for Qualified Equity Interests and immaterial amounts of cash in lieu of fractional shares), pursuant to a sinking fund obligation or otherwise (except as a result of a change of control or asset sale so long as any rights of the holders thereof upon the occurrence of a change of control or asset sale event shall be subject to Payment in Full), (b) are redeemable at the option of the holder thereof (other than solely for Qualified Equity Interests and immaterial amounts of cash in lieu of fractional shares) (except as a result of a change of control or asset sale so long as any rights of the holders thereof upon the occurrence of a change of control or asset sale event shall be subject to Payment in

Full), in whole or in part, or (c) are or become convertible into or exchangeable for Indebtedness or any other Equity Interests that would constitute Disqualified Equity Interests, in each case, prior to the date that is 91 days after the Maturity Date; provided, that, if such Equity Interests are issued pursuant to a plan for the benefit of employees of any Loan Party or by any such plan to such employees, such Equity Interests shall not constitute Disqualified Equity Interests solely because they may be required to be repurchased by such Loan Party in order to satisfy applicable statutory or regulatory obligations or as a result of such employee's death, disability or termination.

"Division" means, with respect to any Person, a division of or by such Person into two or more Persons pursuant to the laws of the jurisdiction of any such Person's organization.

"Dollar-Denominated Production Payment" means a production payment obligation recorded as a liability in accordance with GAAP, together with all undertakings and obligations in connection therewith.

"Dollars" or "$" refers to lawful money of the United States of America.

"EEA Financial Institution" means (a) any credit institution or investment firm established in any EEA Member Country which is subject to the supervision of an EEA Resolution Authority, (b) any entity established in an EEA Member Country which is a parent of an institution described in clause (a) of this definition, or (c) any financial institution established in an EEA Member Country which is a subsidiary of an institution described in clauses (a) or (b) of this definition and is subject to consolidated supervision with its parent.

"EEA Member Country" means any of the member states of the European Union, Iceland, Liechtenstein, and Norway.

"EEA Resolution Authority" means any public administrative authority or any person entrusted with public administrative authority of any EEA Member Country (including any delegee) having responsibility for the resolution of any EEA Financial Institution.

"Effective Date" means the date on which the conditions specified in Section 4.01 are satisfied (or waived in accordance with Section 9.02), which date is August 24, 2022.

"Electronic Signature" means an electronic sound, symbol, or process attached to, or associated with, a contract or other record and adopted by a Person with the intent to sign, authenticate or accept such contract or record.

"Electronic System" means any electronic system, including e-mail, e-fax, Intralinks®, ClearPar®, Debt Domain, Syndtrak and any other Internet or extranet-based site, whether such electronic system is owned, operated or hosted by the Administrative Agent, any of its sub-agents, any of its Related Parties or any other Person, providing for access to data protected by passcodes or other security system.

"Environmental Laws" means all laws, rules, regulations, codes, ordinances, orders, decrees, judgments, injunctions, notices or binding agreements issued, promulgated or entered into by any Governmental Authority, relating in any way to the environment, preservation or reclamation of natural resources, the or to health and safety matters (to the extent relating to human exposure to Hazardous Materials), including requirements pertaining to the manufacture, processing, distribution, use, treatment, storage, disposal, transportation, handling, reporting, licensing, permitting, investigation or remediation of any Hazardous Material. Environmental Laws include the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. § 9601 et seq.), the Hazardous Material Transportation Act (49 U.S.C. § 331 et seq.), the Resource Conservation and Recovery Act (42 U.S.C. § 6901 et seq.), the Federal Water Pollution Control Act (33 U.S.C. § 1251 et seq.), the Clean Air Act (42 U.S.C. § 7401 et seq.), the Toxic Substances Control Act (15 U.S.C. § 2601 et seq.), the Safe Drinking Water Act (42 U.S.C. § 300, et seq.), the Environmental Protection Agency's regulations relating to underground storage tanks (40 C.F.R. Parts 280 and 281) and the rules and regulations thereunder, each as amended or supplemented from time to time.

"Environmental Liability" means any liability, contingent or otherwise (including any liability for damages, costs of environmental remediation, fines, penalties or indemnities), of Borrower or any of its Subsidiaries directly or indirectly resulting from or based upon (a) violation of any Environmental Law, (b) the generation, use, handling, transportation, storage, treatment or disposal of any Hazardous Materials, (c) exposure to any Hazardous Materials, (d) the release or threatened release of any Hazardous Materials into the environment or (e) any contract, agreement or other consensual arrangement pursuant to which liability is assumed or imposed with respect to any of the foregoing.

"Environmental Permit" means any permit, registration, license, approval, consent, exemption, variance, or other authorization required under or issued pursuant to applicable Environmental Laws.

"Equity Interests" means shares of capital stock, partnership interests, membership interests in a limited liability company, beneficial interests in a trust or other equity ownership interests in a Person, and any warrants, options or other rights entitling the holder thereof to purchase or acquire any of the foregoing.

"ERISA" means the Employee Retirement Income Security Act of 1974, as amended from time to time.

"ERISA Affiliate" means any trade or business (whether or not incorporated) that, together with any Loan Party, is treated as a single employer under Section 414(b) or (c) of the Code or, solely for purposes of Section 302 of ERISA and Section 412 of the Code, is treated as a single employer under Section 414 of the Code.

"ERISA Event" means (i) any "reportable event", as defined in Section 4043 of ERISA or the regulations issued thereunder with respect to a

Plan (other than an event for which the 30-day notice period is waived); (ii) the failure to satisfy the "minimum funding standard" (as defined in Section 412 of the Code or Section 302 of ERISA), whether or not waived; (iii) the filing pursuant to Section 412(c) of the Code or Section 302(c) of ERISA of an application for a waiver of the minimum funding standard with respect to any Plan; (iv) the incurrence by the Borrower, any of its Subsidiaries or any ERISA Affiliate of any liability under Title IV of ERISA with respect to the termination of any Plan; (v) the receipt by the Borrower, any of its Subsidiaries or any ERISA Affiliate from the PBGC or a plan administrator of any notice relating to an intention to terminate any Plan or to appoint a trustee to administer any Plan; (vi) the incurrence by the Borrower, any of its Subsidiaries or any ERISA Affiliate of any liability with respect to the withdrawal or partial withdrawal from any Plan or Multiemployer Plan; or (vii) the receipt by the Borrower, any of its Subsidiaries or any ERISA Affiliate of any notice, or the receipt by any Multiemployer Plan from the Borrower, any of its Subsidiaries or any ERISA Affiliate of any notice, concerning the imposition upon the Borrower, any of its Subsidiaries or any ERISA Affiliate of Withdrawal Liability or a determination that a Multiemployer Plan is, or is expected to be, insolvent, within the meaning of Title IV of ERISA.

"Estimated Marketer Receivables Amount" means, as of any date, (a) the last Marketer Receivables Amount certified to the Administrative Agent in the certificate delivered (or required to be delivered) pursuant to Section 5.01(m) *plus* (b) any additional amounts reasonably estimated to be payable to the Borrower or any other Loan Party from the Marketer that have accrued since the last day of the month covered by the certificate referenced in clause (a) *minus* (c) any amounts included in the Marketer Receivables Amount referred to in clause (a) that the Borrower reasonably estimates are no longer payable to the Borrower or any Loan Party from the Marketer.

"EU Bail-In Legislation Schedule" means the EU Bail-In Legislation Schedule published by the Loan Market Association (or any successor person), as in effect from time to time.

"Event of Default" has the meaning assigned to such term in Section 7.01.

"Excluded Taxes" means any of the following Taxes imposed on or with respect to a Recipient or required to be withheld or deducted from a payment to a Recipient: (a) Taxes imposed on or measured by net income (however denominated), franchise Taxes and branch profits Taxes, in each case, (i) imposed as a result of such Recipient being organized under the laws of, or having its principal office or, in the case of any Lender, its applicable lending office located in, the jurisdiction imposing such Tax (or any political subdivision thereof) or (ii) that are Other Connection Taxes, (b) Taxes attributable to such Recipient's failure to comply with Section 2.16(b) or, in the case of the Administrative Agent, Section 2.16(b) and (c) any withholding Taxes imposed under FATCA.

"FATCA" means Sections 1471 through 1474 of the Code, as of the date of this Agreement (or any amended or successor version that is substantively comparable and not materially more onerous to comply with), any current or future regulations or official interpretations thereof and any agreement entered into pursuant to Section 1471(b)(1) of the Code.

"FCPA" means the Foreign Corrupt Practices Act of 1977, as amended.

"Federal Funds Effective Rate" means, for any day, the rate calculated by the NYFRB based on such day's federal funds transactions by depository institutions, as determined in such manner as shall be set forth on the NYFRB's Website from time to time, and published on the next succeeding Business Day by the NYFRB as the effective federal funds rate; *provided* that if the Federal Funds Effective Rate as so determined would be less than zero, such rate shall be deemed to be zero for the purposes of this Agreement.

"Federal Reserve Bank of New York's Website" or "NYFRB's Website" means the website of the NYFRB at http://www.newyorkfed.org, or any successor source.

"Fee Letter" means that certain fee letter dated as of the Effective Date by and between the Borrower, the Administrative Agent and each Lender party thereto.

"Financial Officer" means, with respect to any Person, the chief financial officer, principal accounting officer, principal financial officer, treasurer or controller of such Person.

"Fiscal Quarter" means a fiscal quarter of any Fiscal Year.

"Fiscal Year" means a fiscal year of the Borrower ending on December 31st of any calendar year.

"Five-Year Strip Price" means, as of any date, (a) for the 60-month period commencing with the month in which such date occurs, as quoted on the New York Mercantile Exchange (the "NYMEX") and published in a nationally recognized publication for such pricing reasonably acceptable to the Administrative Agent (as such prices may be corrected or revised from time to time by the NYMEX in accordance with its rules and regulations), the corresponding monthly quoted futures contract price for months 0–60 and (b) for periods after such 60 month period, the average corresponding monthly quoted futures contract price for months 49–60; provided, however, in the event that the NYMEX no longer provides futures contract price quotes for 60 month periods, the longest period of quotes of less than 60 months shall be used to determine the strip period and held constant thereafter based on the average of contract prices for the last twelve months of such period, and, if the NYMEX no longer provides such futures contract quotes or has ceased to operate, the Administrative Agent shall designate another nationally recognized commodities exchange to replace the NYMEX for purposes of the references to the NYMEX in this definition.

"Floor" means the benchmark rate floor, if any, provided in this Agreement initially (as of the execution of this Agreement, the modification, amendment or renewal of this Agreement or otherwise) with respect to the Adjusted Term SOFR Rate or the Adjusted Daily Simple RFR, as applicable. For the avoidance of doubt, the initial Floor for each of the Adjusted Term SOFR Rate and the Adjusted Daily Simple RFR shall be *0.00%*.

"Foreign Lender" means a Lender that is not a U.S. Person.

"Funding Date" means any date of which Revolving Loans are funded to the Borrower pursuant to Section 2.02.

"GAAP" means generally accepted accounting principles in the United States of America, consistently applied.

"Governmental Authority" means the government of the United States of America, the government of the Kingdom of Thailand (and, in each case, any other nation or any political subdivision thereof, whether state or local) and any agency, authority, instrumentality, regulatory body, court, central bank or other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any self-regulatory authority, such as the National Association of Insurance Commissioners, and any supra-national bodies, such as the European Union or the European Central Bank).

"Governmental Requirement" means any law, statute, code, ordinance, order, determination, rule, regulation, judgment, decree, injunction, franchise, permit, certificate, license, rules of common law, authorization or other directive or requirement, whether now or hereinafter in effect, of any Governmental Authority.

"Guarantee" of or by any Person (the "guarantor") means any obligation, contingent or otherwise, of the guarantor guaranteeing or having the economic effect of guaranteeing any Indebtedness or other obligation of any other Person (the "primary obligor") in any manner, whether directly or indirectly, and including any obligation of the guarantor, direct or indirect, (a) to purchase or pay (or advance or supply funds for the purchase or payment of) such Indebtedness or other obligation or to purchase (or to advance or supply funds for the purchase of) any security for the payment thereof, (b) to purchase or lease property, securities or services for the purpose of assuring the owner of such Indebtedness or other obligation of the payment thereof, (c) to maintain working capital, equity capital or any other financial statement condition or liquidity of the primary obligor so as to enable the primary obligor to pay such Indebtedness or other obligation or (d) as an account party in respect of any letter of credit or letter of guaranty issued to support such Indebtedness or obligation; provided, that the term "Guarantee" shall not include endorsements for collection or deposit in the ordinary course of business.

"Guarantor" means a Subsidiary Guarantor.

"Guaranty Agreement" means that certain Guaranty Agreement (including any and all supplements thereto), to be dated as of the Effective Date, among the Guarantors and the Administrative Agent.

"Hazardous Materials" means all explosive or radioactive substances or wastes and all hazardous or toxic substances, wastes or other pollutants, including petroleum or petroleum distillates, asbestos or asbestos containing materials, polychlorinated biphenyls, radon gas, infectious or medical wastes and all other substances or wastes of any nature regulated pursuant to any Environmental Law, including materials listed in 49 C.F.R. § 172.101, materials defined as hazardous pursuant to § 101(14) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended.

"Hydrocarbon Interests" means all rights, titles, interests and estates now or hereafter acquired in and to oil and gas leases, oil, gas and mineral leases, or other liquid or gaseous hydrocarbon leases, fee interests, mineral fee interests, overriding royalty and royalty interests, net profit interests and production payment interests, including any reserved or residual interests of whatever nature and all rents, profits, proceeds, products, revenues and other incomes from or attributable to any of the foregoing interests. Unless otherwise expressly provided herein, all references in this Agreement to "Hydrocarbon Interests" refer to Hydrocarbon Interests owned at the time in question by the Loan Parties.

"Hydrocarbons" means all oil, gas, casinghead gas, drip gasoline, natural gasoline, condensate, distillate, liquid hydrocarbons, gaseous hydrocarbons and all constituents, elements or compounds thereof and all products refined or separated therefrom and all other minerals which may be produced and saved from or attributable to the Oil and Gas Properties of any Person, including all oil in tanks.

"Immaterial Title Deficiencies" means minor defects or deficiencies in title which do not diminish by more than 5% the total value of the Proved Oil and Gas Properties evaluated in the Reserve Report most recently delivered pursuant to the terms of this Agreement.

"Indebtedness" of any Person means, without duplication, (a) all obligations of such Person for borrowed money, (b) all obligations of such Person evidenced by bonds, debentures, notes or similar instruments, (c) all obligations of such Person in respect of Disqualified Equity Interests, (d) all obligations of such Person under conditional sale or other title retention agreements relating to property acquired by such Person, (e) all obligations of such Person in respect of the deferred purchase price of property or services (excluding accounts payable incurred in the ordinary course of business that are either (x) not overdue by more than ninety (90) days or (y) are being contested in good faith by appropriate action and for which adequate reserves are maintained in accordance with GAAP (to the extent required by GAAP)), (f) all Indebtedness of others secured by (or for which the holder of such Indebtedness has an existing right, contingent or otherwise, to be secured by) any Lien on property owned or acquired by such Person, whether or not the Indebtedness secured thereby has been assumed (but to the extent such Indebtedness is limited in recourse with respect to such Person, the amount of such Indebtedness shall be limited to the greater of (i) the fair market value of such Property subject to such Lien and (ii) the principal amount of the obligations or liability with respect to which recourse exists to such Person), (g) all Guarantees by such Person of Indebtedness of others to the extent of the lesser of the amount of such Indebtedness and the maximum stated amount of such Guarantee, (h) all Capital Lease Obligations of such Person, (i) all obligations, contingent or otherwise, of such Person as an account party in respect of letters of credit and letters of guaranty, (j) all obligations, contingent or otherwise, of such Person in respect of bankers' acceptances, (k) obligations to deliver commodities, goods or services, including Hydrocarbons, in consideration of one or more advance payments, made more than one month in advance of the month in which the commodities, goods or services are to be delivered, other than Swap Agreements and obligations relating to gas balancing arrangements in the ordinary course of business, (l) the undischarged balance of any Production Payment created by such Person and (m) any other preferential arrangement in circumstances where the arrangement or transaction is entered into primarily as a method of raising Indebtedness or of financing the acquisition of an asset. The Indebtedness of any Person shall include the Indebtedness of any other entity (including any partnership in which such Person is a general partner) to the extent such Person is liable therefor as a result of such Person's ownership interest in or other relationship with such entity, except to the extent the terms of such Indebtedness provide that such Person is not liable therefor. Indebtedness shall not include

(i) liabilities resulting from endorsements of negotiable instruments for collection in the ordinary course of business, (ii) obligations in respect of Swap Agreements, (iii) earnout obligations unless such obligations become a liability on the balance sheet of such Person in accordance with GAAP or (iv) any liabilities associated with minimum revenue commitments or minimum volume commitments.

"Indemnified Taxes" means (a) Taxes, other than Excluded Taxes, imposed on or with respect to any payment made by or on account of any obligation of any Loan Party under any Loan Document and (b) to the extent not otherwise described in clause (a) hereof, Other Taxes.

"Indemnitee" has the meaning assigned to such term in Section 9.03(b).

"Ineligible Institution" has the meaning assigned to such term in Section 9.04(b).

"Initial Reserve Report" means the engineering report prepared by the Borrower and audited by Ryder Scott Company, L.P. in form reasonably acceptable to the Administrative Agent, setting forth, as of June 30, 2022, certain oil and gas reserves attributable to the Proved Oil and Gas Properties of the Borrower and its Subsidiaries.

"Interest Payment Date" means (a) with respect to any ABR Revolving Loan, the last Business Day of each March, June, September and December, (b) with respect to any Term Benchmark Loan, the last day of the Interest Period applicable to the Borrowing of which such Revolving Loan is a part and (c) the Maturity Date.

"Interest Period" means, for any Term Benchmark Borrowing, the period commencing on the date of such Borrowing and ending on the numerically corresponding day in the calendar month that is one (1), three (3) or six (6) months thereafter (in each case, subject to the availability of the Benchmark applicable to the relevant Revolving Loan), as the Borrower may elect; *provided* that (i) if any Interest Period would end on a day other than a Business Day, such Interest Period shall be extended to the next succeeding Business Day unless such next succeeding Business Day would fall in the next calendar month, in which case such Interest Period shall end on the next preceding Business Day, (ii) any Interest Period that commences on the last Business Day of a calendar month (or on a day for which there is no numerically corresponding day in the last calendar month of such Interest Period) shall end on the last Business Day of the last calendar month of such Interest Period and (iii) no tenor that has been removed from this definition pursuant to Section 2.11(e) shall be available for specification in any Borrowing Request. For purposes hereof, the date of a Borrowing shall be the date on which such Borrowing is made.

"Investment" means, as applied to any Person, any direct or indirect (a) purchase or other acquisition (including pursuant to any merger or consolidation with any Person) of any Equity Interests, evidences of Indebtedness or other securities of any other Person, (b) loan or advance made by such Person to any other Person, (c) Guarantee, assumption or other incurrence of liability by such Person of or for any Indebtedness or other obligations of any other Person, (d) capital contribution or other investment by such Person in any other Person or (e) purchase or other acquisition (in one transaction or a series of transactions) of any Oil and Gas Properties or midstream, downstream, carbon capture, utilization and storage (CCUS), or solar properties of another Person or any other assets of any other Person constituting a business unit.

"IRS" means the United States Internal Revenue Service.

"Lender Parent" means, with respect to any Lender, any Person as to which such Lender is, directly or indirectly, a subsidiary.

"Lenders" means the Revolving Lenders.

"Lien" means, with respect to any asset, (a) any mortgage, deed of trust, lien, pledge, hypothecation, encumbrance, charge in the nature of a security interest or other security interest in, on or of such asset, (b) the interest of a vendor or a lessor under any conditional sale agreement, capital lease or title retention agreement (or any financing lease having substantially the same economic effect as any of the foregoing) relating to such asset, (c) in the case of securities, any purchase option, call or similar right of a third party with respect to such securities and (d) any arrangement under which money for the benefit of a bank or other account may be applied, set-off or made subject to a combination of accounts.

"Loan Documents" means this Agreement, any Notes, the Guaranty Agreement, the Fee Letter, the Borrowing Request, the Subordination Agreement, all other agreements, instruments, documents and certificates executed and delivered by or on behalf of any of the Loan Parties or any of their respective Subsidiaries to, or in favor of, the Administrative Agent or any Lenders in connection with this Agreement or the transactions contemplated hereby and any other document designated in writing as a "Loan Document" by the Borrower and the Administrative Agent. Any reference in this Agreement or any other Loan Document to a Loan Document shall include all appendices, exhibits or schedules thereto, and all amendments, restatements, amendments and restatements, supplements or other modifications thereto, and shall refer to this Agreement or such Loan Document as the same may be in effect at any and all times such reference becomes operative.

"Loan Parties" means, collectively, the Borrower and the Guarantors.

"Marketer" means (a) Concord or (b) any other Person acceptable to the Borrower and designated as "Marketer" hereunder.

"Marketer Receivables Amount" means, as of any date, the total amount payable to the Borrower and the other Loan Parties by the Marketer from the sale of Hydrocarbons produced from the Loan Parties' Oil and Gas Properties.

"Marketer Receivables Amount Shortfall" means, as of any date the covenant in Section 5.22 is tested, the amount by which the aggregate

principal amount of outstanding Revolving Loans exceeds the Marketer Receivables Amount as of such date.

"Material Acquisition" means any acquisition of property or series of related acquisitions of property (including by way of merger or consolidation) that involves the payment by the Borrower or any Subsidiary of the Borrower of consideration in excess of $25,000,000.

"Material Adverse Effect" means a material adverse effect on, or a material adverse change in, (i) the business, operations, properties, liabilities, financial or other condition of the Borrower and its Subsidiaries, taken as a whole, (ii) the ability of any of the Loan Parties to perform its obligations under any Loan Document to which it is a party, (iii) the validity or enforceability against any of the Loan Parties of any Loan Document to which it is a party or (iv) the rights and remedies of the Administrative Agent or any Lender under any of the Loan Documents.

"Material Contract" means (a) the Term Loan Credit Agreement and (b) any other contract or agreement (excluding any Loan Document) of any Loan Party (i) involving monetary liability of or to such Loan Party in any year in excess of $5,000,000, or (ii) the breach, non-performance, cancellation or failure to renew of which could reasonably be expected to have a Material Adverse Effect.

"Material Disposition" means any Disposition that involves the receipt by the Borrower or any Subsidiary of the Borrower of consideration in excess of $25,000,000.

"Material Indebtedness" means (a) the Subordinated Shareholder Loans, (b) the Indebtedness incurred under any Uncommitted Credit Facility Agreement and (c) Indebtedness (other than the Revolving Loans), or obligations in respect of one or more Swap Agreements, of any one or more of the Borrower and its Subsidiaries in an aggregate principal amount (including undrawn committed or available amounts) exceeding $10,000,000. For purposes of determining Material Indebtedness, the "principal amount" of the obligations of the Borrower or any Subsidiary of the Borrower in respect of any Swap Agreement at any time shall be the maximum aggregate amount (giving effect to any netting agreements) that the Borrower or such Subsidiary would be required to pay if such Swap Agreement were terminated at such time.

"Maturity Date" means September 30, 2027.

"Maximum Rate" has the meaning assigned to such term is Section 9.16.

"Moody's" means Moody's Investors Service, Inc.

"Multiemployer Plan" means a multiemployer plan as defined in Section 4001(a)(3) of ERISA.

"Net Proceeds" means, with respect to any event, (a) the cash proceeds received in respect of such event, including (i) any cash received in respect of any non-cash proceeds (including any cash payments received by way of deferred payment of principal pursuant to a note or installment receivable or purchase price adjustment receivable or otherwise, but excluding any interest payments), but only as and when received, (ii) in the case of a casualty, insurance proceeds and (iii) in the case of a condemnation or similar event, condemnation awards and similar payments, net of (b) the sum of (i) all fees and out-of- pocket expenses paid to third parties (other than Affiliates) in connection with such event, (ii) in the case of a Disposition of an asset (including pursuant to a casualty or a condemnation or similar proceeding), the amount of all payments required to be made as a result of such event to repay Indebtedness (other than Revolving Loans) secured by such asset or otherwise subject to mandatory prepayment as a result of such event and (iii) the amount of all Taxes paid (or reasonably estimated to be payable) and the amount of any reserves established to fund contingent liabilities reasonably estimated to be payable that are directly attributable to such event (as determined reasonably and in good faith by a Financial Officer).

"Non-Consenting Lender" has the meaning assigned to such term is Section 9.02(d).

"Note" means a promissory note made by the Borrower in favor of a Lender which has requested promissory notes pursuant to Section 2.07(e) evidencing the Revolving Loans made by such Lender, substantially in the forms attached as Exhibit A and any substitutes therefor, and any replacements, restatements, renewals or extension thereof, in whole or in part.

"NYFRB" means the Federal Reserve Bank of New York.

"NYFRB Rate" means, for any day, the greater of (a) the Federal Funds Effective Rate in effect on such day and (b) the Overnight Bank Funding Rate in effect on such day (or for any day that is not a Business Day, for the immediately preceding Business Day); *provided* that, if none of such rates are published for any day that is a Business Day, the term "NYFRB Rate" means the rate for a federal funds transaction quoted at 11:00 a.m. on such day received by the Administrative Agent from a federal funds broker of recognized standing selected by it; *provided further* that if any of the aforesaid rates as so determined shall be less than 0.00%, such rate shall be deemed to be 0.00% for purposes of this Agreement.

"Obligations" means all unpaid principal of and accrued and unpaid interest on the Revolving Loans, all accrued and unpaid fees and all expenses, reimbursements, indemnities and other obligations and indebtedness (including interest and fees accruing during the pendency of any bankruptcy, insolvency, receivership or other similar proceeding, regardless of whether allowed or allowable in such proceeding), obligations and liabilities of any of the Borrower and the other Loan Parties to any of the Lenders, the Administrative Agent or any indemnified party, individually or collectively, existing on the Effective Date or arising thereafter, direct or indirect, joint or several, absolute or contingent, matured or unmatured, liquidated or unliquidated, secured or unsecured, arising by contract, operation of law or otherwise, arising or incurred under this Agreement or any of the other Loan Documents or in respect of any of the Revolving Loans made or other obligations incurred or other instruments at any time evidencing any thereof.

"OFAC" means the Office of Foreign Assets Control of the U.S. Department of the Treasury.

"Oil and Gas Properties" means (a) Hydrocarbon Interests; (b) the properties now or hereafter pooled or unitized with Hydrocarbon Interests; (c) all presently existing or future unitization, communitization, pooling agreements and declarations of pooled units and the units created thereby (including all units created under orders, regulations and rules of any Governmental Authority) which may affect all or any portion of the Hydrocarbon Interests; (d) all operating agreements, production sales or other contracts, farmout agreements, farm-in agreements, area of mutual interest agreements, equipment leases and other agreements which relate to any of the Hydrocarbon Interests or any interests therein or to the production, sale, purchase, exchange, processing, handling, storage, transporting or marketing of the Hydrocarbons from or attributable to such Hydrocarbon Interests; (e) all Hydrocarbons; (f) all tenements, hereditaments, appurtenances and properties in any manner appertaining, belonging, affixed or incidental to the Hydrocarbon Interests, including all compressor sites, settling ponds and equipment or pipe yards; and (g) all properties, rights, titles, interests and estates whether now owned or hereinafter acquired, that are situated upon, used or held for use in connection with the interests described or referred to above, or the operating, working or development of any of such Hydrocarbon Interests or property (excluding drilling rigs, automotive equipment, rental equipment or other personal property which may be on such premises for the purpose of drilling a well or for other similar temporary uses) including any and all oil wells, gas wells, injection wells or other wells, structures, fuel separators, liquid extraction plants, plant compressors, pumps, pumping units, pipelines, sales and flow lines, gathering systems, field gathering systems, salt water disposal facilities, tanks and tank batteries, fixtures, valves, fittings, machinery and parts, engines, boilers, steam generation facilities, meters, apparatus, equipment, appliances, tools, implements, cables, wires, towers, casing, tubing and rods, surface leases, rights-of-way, easements, servitudes, licenses and other surface and subsurface rights, together with all additions, substitutions, replacements, accessions and attachments to any and all of the foregoing. Unless otherwise expressly provided herein, all references in this Agreement to "Oil and Gas Properties" refer to Oil and Gas Properties owned at the time in question by the Loan Parties.

"Organizational Documents" means (a) with respect to any corporation, the certificate or articles of incorporation and bylaws (or equivalent or comparable constitutive documents with respect to such corporation's jurisdiction) of such corporation; (b) with respect to any limited liability company, the certificate or articles of formation or organization and operating agreement of such limited liability company; and (c) with respect to any partnership, joint venture, trust or other form of business entity, the partnership, joint venture or other applicable agreement of formation or organization of such entity and any agreement, instrument, filing or notice with respect thereto filed in connection with its formation or organization with the applicable Governmental Authority in the jurisdiction of its formation or organization and, if applicable, any certificate or articles of formation or organization of such entity.

"Other Connection Taxes" means, with respect to any Recipient, Taxes imposed as a result of a present or former connection between such Recipient and the jurisdiction imposing such Tax (other than connections arising from such Recipient having executed, delivered, become a party to, performed its obligations under, received payments under, received or perfected a security interest under, engaged in any other transaction pursuant to or enforced any Loan Document, or sold or assigned an interest in any Revolving Loan or Loan Document).

"Other Taxes" means all present or future stamp, court or documentary, intangible, recording, filing or similar Taxes that arise from any payment made under, from the execution, delivery, performance, enforcement or registration of, from the receipt or perfection of a security interest under, or otherwise with respect to, any Loan Document, except any such Taxes that are Other Connection Taxes imposed with respect to an assignment (other than an assignment made pursuant to Section 2.16).

"Overnight Bank Funding Rate" means, for any day, the rate comprised of both overnight federal funds and overnight eurodollar transactions denominated in Dollars by U.S.-managed banking offices of depository institutions, as such composite rate shall be determined by the NYFRB as set forth on the NYFRB's Website from time to time, and published on the next succeeding Business Day by the NYFRB as an overnight bank funding rate.

"Participant" has the meaning assigned to such term in Section 9.04(c).

"Participant Register" has the meaning assigned to such term in Section 9.04(c).

"Payee" means, with respect to each Borrowing of Revolving Loans, the applicable payees of the obligations of the Borrower (including the payees named in the invoices and/or other documents delivered pursuant to Section 4.02(d) in connection with such Borrowing).

"Payment Conditions" means, with respect to any Restricted Payment or Restricted Debt Payment:

(a) after giving pro forma effect to such Restricted Payment or Restricted Debt Payment, no Default or Event of Default shall have occurred and be continuing;

(b) no Restricted Payment or Restricted Debt Payment shall be made during any Fiscal Year except (i) with respect to Fiscal Year 2022, on a date that is before November 1, 2022 and (ii) with respect to subsequent Fiscal Years, on a date that is within the Specified Amount Payment Period for such Fiscal Year;

(c) after giving pro forma effect to such Restricted Payment or Restricted Debt Payment, the aggregate amount of Available Cash of the Borrower and the Subsidiaries at the beginning of the related Specified Amount Payment Period is greater than $100,000,000;

(d) after giving pro forma effect to such Restricted Payment or Restricted Debt Payment, the Specified Amount shall be greater than $0;

(e) at the time of such Restricted Payment or Restricted Debt Payment, the Adjusted Stockholders' Equity of the Borrower is not less than $800,000,000 (as reflected in the financial statements delivered pursuant to Section 5.01(b) with respect to the applicable Fiscal Quarter ending June 30); and

(f) the projected cash flow of the Borrower and its Subsidiaries in the Cashflow Projection most recently delivered pursuant to Section 5.01(e) (or, solely for any Restricted Payment or Restricted Debt Payment made prior to November 1, 2022, the Financial Model (as defined in the Term Loan Credit Agreement)) reflects sufficient free cash flow to make the required payments of principal and interest on the Term Loans through the next succeeding Annual Payment Date.

"Payment in Full" or "Paid in Full" means the Commitments have expired or been terminated and the principal of and interest on each Revolving Loan and all fees payable hereunder and all other amounts payable under the Loan Documents (other than contingent indemnification obligations as to which no claim has been received by any Loan Party) shall have been paid in full in cash.

"PBGC" means the Pension Benefit Guaranty Corporation referred to and defined in ERISA and any successor entity performing similar functions.

"Permits" means the collective reference to any and all franchises, licenses, leases, permits, approvals, consents, notifications, certifications, registrations, authorizations, exemptions, variances, qualifications, easements and rights of way of any Governmental Authority or third party.

"Permitted Encumbrances" means:

(a) Liens for Taxes, assessments or other governmental charges or levies that are not yet due or are being contested in good faith by appropriate action and for which adequate reserves are maintained in accordance with GAAP (to the extent required by GAAP);

(b) carriers', warehousemen's, mechanics', materialmen's, repairmen's, landlord's, operators' and other like Liens imposed by law, arising in the ordinary course of business or incident to the exploration, development, operation and maintenance of Oil and Gas Properties and securing obligations that are not overdue by more than thirty (30) days or are being contested in good faith by appropriate action and for which adequate reserves are maintained in accordance with GAAP (to the extent required by GAAP); provided that any such Lien referred to in this clause (b) does not materially impair the use of the Property covered by such Lien for the purposes for which such Property is held by any Loan Party or materially impair the value of such Property subject thereto;

(c) Liens in connection with workers' compensation, unemployment insurance or other social security, old age pension or public liability obligations which are not delinquent or which are being contested in good faith by appropriate action and for which adequate reserves are maintained in accordance with GAAP (to the extent required by GAAP);

(d) deposits to secure the performance of bids, trade contracts, government contracts, leases, statutory obligations, regulatory obligations, tenders, surety and appeal bonds, performance bonds and other obligations of a like nature, in each case in the ordinary course of business or in the ordinary course in the oil and gas business generally and not in connection with the borrowing of money;

(e) judgment Liens in respect of judgments that do not constitute an Event of Default under Section 7.01(k);

(f) zoning and land use requirements, easements, restrictions, servitudes, Permits, conditions, covenants, exceptions or reservations in any Property of any Loan Party for the purpose of roads, pipelines, transmission lines, transportation lines, distribution lines for the removal of gas, oil, coal or other minerals or timber, and other like purposes, or for the joint or common use of real estate, rights of way, facilities and equipment, that do not secure any monetary obligations and that in the aggregate do not materially impair the value of the assets encumbered thereby or materially impair the ability of any Loan Party to use such assets in its business;

(g) title and ownership interests of lessors (including sub-lessors) of Property leased by such lessors to any Loan Party, Liens and encumbrances encumbering such lessors' titles and interests in such property and to which the applicable Loan Party's leasehold interests may be subject or subordinate, in each case whether or not evidenced by Uniform Commercial Code financing statement filings or other documents of record; provided that such Liens do not secure Indebtedness of any Loan Party and do not encumber Property of any Loan Party other than the Property that is the subject of such leases and items located thereon; provided further that any such Lien referred to in this clause does not materially impair the use of the Property covered by such Lien for the purposes for which such Property is held by the applicable Loan Party or materially impair the value of such Property subject thereto;

(h) Liens arising solely by virtue of any statutory or common law provision or customary deposit account terms relating to banker's liens, rights of set-off or similar rights and remedies and burdening only deposit accounts or other funds maintained with a creditor depository institution; provided that no such deposit account is a dedicated cash collateral account or is subject to restrictions against access by the depositor in excess of those set forth by regulations promulgated by the Board and no such deposit account is intended by any Loan Party to provide collateral to the depository institution;

(i) Liens arising solely from precautionary Uniform Commercial Code financing statement filings with respect to operating leases or consignment arrangements otherwise permitted under this Agreement;

(j) Liens which arise in the ordinary course of business under operating agreements, joint venture agreements, oil and gas partnership agreements, oil and gas leases, farm-out agreements, participation agreements, division orders, contracts for the sale, transportation, gathering, or exchange of oil and natural gas, unitization and pooling declarations and agreements, area of mutual interest agreements, overriding royalty agreements, reversionary interests, marketing agreements, processing agreements, net profits agreements, development agreements, service agreements, supply agreements, gas balancing or deferred production agreements, injection, repressuring and recycling agreements, salt water or other disposal agreements, seismic or other geophysical permits or agreements, and other agreements which are usual and customary in the oil and gas business including, without limitation, all lessors' royalties, overriding royalties, net profits interests, carried interests, reversionary interests and other burdens on, or deductions from, the proceeds of production with respect to each Property (in each case) that do not operate to reduce the net revenue interest for

such Property as reflected in any Reserve Report or increase the working interest for such Oil and Gas Property as reflected in any Reserve Report without a corresponding increase in the corresponding net revenue interest and that do not secure Indebtedness for borrowed money and, in each case, are for claims which are not more than 30 days delinquent or which are being contested in good faith by appropriate action and for which adequate reserves are maintained in accordance with GAAP (to the extent required by GAAP);

(k) minor defects or other irregularities in title or zoning and other restrictions that do not secure any Indebtedness and which in the aggregate do not materially impair the use of such Property for the purposes of which such Property is held by any Loan Party or Subsidiary of the Borrower or materially impair the value of such Property subject thereto;

(l) consents to assignment and similar contractual provisions affecting an Oil and Gas Property, including customary preferential rights to purchase and calls on production by sellers relating to Hydrocarbon Interests acquired by any Loan Party or Subsidiary of the Borrower;

(m) Liens (other than the granting of a security interest) pursuant to merger agreements, stock purchase agreements, asset sale agreements and similar agreements (1) limiting the transfer of properties and assets pending the consummation of the subject transaction, or (2) in respect of earnest money deposits, good faith deposits, purchase price adjustment and indemnity escrows and similar deposit or escrow arrangements made or established thereunder; and

(n) Liens, titles and interests of licensors of software and other intangible personal Property licensed by such licensors to any Loan Party or any Subsidiary of the Borrower, restrictions and prohibitions on encumbrances and transferability with respect to such Property and such Loan Party's or Subsidiary's interests therein imposed by such licenses, and Liens and encumbrances encumbering such licensors' titles and interests in such Property and to which such Loan Party's or Subsidiary's license interests may be subject or subordinate, in each case, whether or not evidenced by UCC financing statement filings or other documents of record; provided that such Liens do not secure Indebtedness of any Loan Party or any Subsidiary of the Borrower and do not encumber Property of any Loan Party or any Subsidiary of the Borrower other than the Property that is the subject of such licenses;

provided, that (i) Liens described in clauses (a), (b), (c), (h) and (j) shall remain "Permitted Encumbrances" only for so long as no action to enforce such Lien has been commenced (ii) the term "Permitted Encumbrance" shall not include any Lien securing Indebtedness for borrowed money.

"Permitted Holders" means, collectively, Banpu and any wholly-owned subsidiaries of Banpu.

"Permitted Liens" means Liens expressly permitted pursuant to Section 6.02.

"Person" means any natural person, corporation, limited liability company, trust, joint venture, association, company, partnership, Governmental Authority or other entity.

"Petroleum Industry Standards" means the Definitions for Oil and Gas Reserves promulgated by the Society of Petroleum Engineers (or any generally recognized successor) as in effect at the time in question.

"Plan" means any employee pension benefit plan (other than a Multiemployer Plan) subject to the provisions of Title IV of ERISA or Section 412 of the Code or Section 302 of ERISA, and in respect of which the Borrower, any of its Subsidiaries or any ERISA Affiliate (i) is (or, if such plan were terminated, would under Section 4069 of ERISA be deemed to be) an "employer" as defined in Section 3(5) of ERISA or (ii) otherwise has any liability.

"Plan Asset Regulations" means 29 C.F.R. §2510.3-101, et seq., as modified by Section 3(42) of ERISA, as amended from time to time.

"Platform" means Debt Domain, Intralinks, Syndtrak or a substantially similar electronic transmission system.

"Prime Rate" means, as of any day, the rate last quoted by The Wall Street Journal as the "Prime Rate" in the United States or, if The Wall Street Journal ceases to quote such rate, the highest per annum interest rate published by the Federal Reserve Board in Federal Reserve Statistical Release H.15 (519) (Selected Interest Rates) as the "bank prime loan" rate or, if such rate is no longer quoted therein, any similar rate quoted therein (as reasonably determined by the Administrative Agent) or any similar release by the Federal Reserve Board (as reasonably determined by the Administrative Agent).

"Production Payment" means a Dollar-Denominated Production Payment or a Volumetric Production Payment.

"Property" means any interest in any kind of property or asset, whether real, personal or mixed, or tangible or intangible, including cash, securities, accounts and contract rights, including any Oil and Gas Property.

"Proved Oil and Gas Properties" means Oil and Gas Properties of the Loan Parties to which Proved Reserves are attributed in the Reserve Report most recently delivered at the time in question.

"Proved Reserves" means oil and gas reserves that, in accordance with the Petroleum Industry Standards, are defined and classified as "Proved Reserves", which include the following: (a) "Proved Developed Producing Reserves", (b) "Proved Developed Non-Producing Reserves" (consisting of proved developed shut-in oil and gas reserves and proved developed behind pipe oil and gas reserves) and (c) "Proved Undeveloped Reserves".

"PTE" means a prohibited transaction class exemption issued by the U.S. Department of Labor, as any such exemption may be amended from

time to time

"Qualified Equity Interests" means any Equity Interests that are not Disqualified Equity Interests.

"Qualified IPO" means any transaction or series of transactions that results in any of the common Equity Interests of the Borrower or any direct or indirect parent company of the Borrower being publicly traded on any United States national securities exchange or over-the-counter market, or any analogous exchange or any recognized securities exchange in Canada, the United Kingdom or any country of the European Union; *provided* that a Qualified IPO shall not include a public offering pursuant to a registration statement on Form S-8.

"Qualifying Benefit Plans" means any stock option plans or other benefit plans for the benefit of employees, management and directors of the Borrower which are or have become customary in the business industry of the Borrower and which such plans have been approved in good faith by the Borrower's compensation committee (or equivalent body of the Borrower responsible for compensation).

"Recipient" means (a) the Administrative Agent and (b) any Lender, as applicable.

"Reference Time" with respect to any setting of the then-current Benchmark means (1) if such Benchmark is the Term SOFR Rate, 6:00 a.m. (New York time) on the day that is two Business Days preceding the date of such setting, (2) if the RFR for such Benchmark is Daily Simple SOFR, then two Business Days prior to such setting or (3) if such Benchmark is none of Term SOFR Rate or Daily Simple SOFR, the time determined by the Administrative Agent in its reasonable discretion.

"Register" has the meaning assigned to such term in Section 9.04(b).

"Related Parties" means, with respect to any specified Person, such Person's Affiliates and the respective directors, officers, employees, agents, third party advisors and representatives of such Person and such Person's Affiliates.

"Release" has the meaning set forth in CERCLA or under any other Environmental Law.

"Relevant Governmental Body" means the Federal Reserve Board and/or the NYFRB, the CME Term SOFR Administrator, as applicable, or a committee officially endorsed or convened by the Federal Reserve Board or the NYFRB or, in each case, any successor thereto.

"Relevant Rate" means (a) with respect to any Term Benchmark Borrowing, the Adjusted Term SOFR Rate or (b) with respect to any RFR Borrowing, the Adjusted Daily Simple RFR, as applicable.

"Remedial Work" has the meaning set forth in Section 5.07.

"Required Lenders" means, subject to Section 2.17, (x) if there are three or more Lenders, at least two or more Lenders having Credit Exposures representing more than 66.666666667% of the sum of the Credit Exposures of all Lenders at such time and (y) if there are fewer than three Lenders, at least one or more Lenders having Credit Exposures representing more than 66.666666667% of the sum of the Credit Exposures of all Lenders at such time. For purposes of this definition, any Lenders that are Affiliated shall be deemed to be a single Lender.

"Requirement of Law" means as to any Person, any law, treaty, rule or regulation or determination of an arbitrator or a court or other Governmental Authority, in each case applicable to or binding upon such Person or any of its property or to which such Person or any of its property is subject.

"Reserve Report" means, collectively, (a) the Initial Reserve Report and (b) each other report, in form and detail reasonably satisfactory to the Administrative Agent, setting forth, as of the dates set forth in Section 5.14(a), Section 5.14(b) or as otherwise indicated in this Agreement, the Proved Reserves attributable to the Oil and Gas Properties of the Borrower and the other Loan Parties located in the United States of America, together with a projection of the rate of production and future net income, taxes, operating expenses and capital expenditures with respect thereto as of such date, based upon economic assumptions reasonably acceptable to the Administrative Agent.

"Reserve Report Certificate" has the meaning set forth in Section 5.14(d).

"Reserve Report Supporting Materials" shall mean, with respect to any Reserve Report, (i) a summary of the economic assumptions contained therein and any material changes from the Reserve Report most recently delivered prior to such Reserve Report, (ii) files containing the then-current ARIES database of the Loan Parties' Oil and Gas Properties and (iii) any other supporting materials as the Administrative Agent may reasonably request used to prepare such Reserve Report.

"Resolution Authority" means an EEA Resolution Authority or, with respect to any UK Financial Institution, a UK Resolution Authority.

"Responsible Officer" means, as to any Person, the chief executive officer, president, chief financial officer, principal accounting officer, principal financial officer, chief operating officer, controller, treasurer or assistant treasurer, or any vice president, of such Person or, in the case of a Loan Party, any other officer of such Loan Party or other authorized individual designated in writing by such Loan Party and reasonably acceptable to the Administrative Agent. Any document delivered hereunder or under any other Loan Document that is signed by a Responsible Officer of a Person shall be conclusively presumed to have been authorized by all necessary corporate, partnership and/or other action on the part of such Person and such Responsible Officer shall be conclusively presumed to have acted on behalf of such Person.

"Restricted Debt Payment" has the meaning given to such term in Section 6.18(a).

"Restricted Payment" means (a) any dividend or other distribution (whether in cash, securities or other property) with respect to any Equity Interests in the Borrower or any of its Subsidiaries, (b) any payment (whether in cash, securities or other property), including any sinking fund or similar deposit,

on account of the purchase, redemption, retirement, acquisition, cancellation or termination of any Equity Interests in the Borrower or any of its Subsidiaries and (c) any payment of management fees, advisory fees or similar fees by any Loan Party to any holders of Equity Interests of the Borrower.

"Revolving Lender" means, as of any date of determination, each Lender having a Revolving Loan Commitment or that holds Revolving Loans.

"Revolving Loan Availability Period" means the period commencing on the Effective Date and ending the earlier of the Maturity Date and the date of termination of all Revolving Loan Commitments.

"Revolving Loan Commitment" means, as to any Revolving Lender, the commitment of such Revolving Lender to make a Revolving Loan in the principal amount set forth on Schedule 2.01 or in the most recent Assignment and Assumption or other documentation contemplated hereby executed by such Revolving Lender. The aggregate amount of the Revolving Loan Commitments of the Revolving Lenders as of the Effective Date is $100,000,000.

"Revolving Loans" means, collectively, the loans made pursuant to Section 2.01.

"RFR" means for any RFR Revolving Loan, Daily Simple SOFR.

"RFR Revolving Loan" means a Revolving Loan that bears interest at a rate based on the Adjusted Daily Simple RFR.

"S&P" means Standard & Poor's Ratings Services, a Standard & Poor's Financial Services LLC business.

"Sale and Leaseback Transaction" means any sale or other transfer of any property or asset by any Person with the intent to lease such property or asset as lessee.

"Sanctioned Country" means, at any time, a country, region or territory which is itself the subject or target of any Sanctions (at the time of this Agreement, the so-called Donetsk People's Republic, the so-called Luhansk People's Republic, the Crimea Region of Ukraine, Cuba, Iran, North Korea and Syria).

"Sanctioned Person" means, at any time, (a) any Person that is the subject or target of any Sanctions administered or enforced by OFAC, the U.S. Department of State, the United Nations Security Council, the European Union, any European Union member state, Her Majesty's Treasury of the United Kingdom, or any other relevant sanctions authority, (b) any Person operating, organized or resident in a Sanctioned Country or (c) any Person owned or controlled by any such Person or Persons described in the foregoing clauses (a) or (b).

"Sanctions" means economic or financial sanctions or trade embargoes imposed, administered or enforced from time to time by (a) the U.S. government, including those administered by OFAC or the U.S. Department of State, (b) the United Nations Security Council, the European Union, any European Union member state, Her Majesty's Treasury of the United Kingdom, or any other relevant sanctions authority, (c) the sanctions authority of the Kingdom of Thailand or (d) the sanctions authority of the Republic of Singapore.

"SEC" means the United States Securities and Exchange Commission.

"Securities Act" means the United States Securities Act of 1933.

"SOFR" means a rate per annum equal to the secured overnight financing rate as administered by the SOFR Administrator.

"SOFR Administrator" means the NYFRB (or a successor administrator of the secured overnight financing rate).

"SOFR Administrator's Website" means the NYFRB's website, currently at http://www.newyorkfed.org, or any successor source for the secured overnight financing rate identified as such by the SOFR Administrator from time to time.

"SOFR Rate Day" has the meaning specified in the definition of "Daily Simple SOFR".

"Solvent" means, in reference to any Person, (i) the fair value of the assets of such Person, at a fair valuation, will exceed its debts and liabilities, subordinated, contingent or otherwise; (ii) the present fair saleable value of the property of such Person will be greater than the amount that will be required to pay the probable liability of its debts and other liabilities, subordinated, contingent or otherwise, as such debts and other liabilities become absolute and matured; (iii) such Person will be able to pay its debts and liabilities, subordinated, contingent or otherwise, as such debts and liabilities become absolute and matured; and (iv) such Person will not have unreasonably small capital with which to conduct the business in which it is engaged as such business is now conducted and is proposed to be conducted after the Effective Date.

"Specified Amount" means, as of any date, an amount (which shall not be less than zero) equal to (without duplication):

(a) Consolidated EBITDA, determined on a consolidated basis for the Borrower and its Subsidiaries for the Test Period most recently ended for which financial statements of the Borrower have been delivered pursuant to Section 5.01(a) or 5.01(b), *plus* cash held by the Borrower and its Subsidiaries as of the commencement of such Test Period *minus* the aggregate sum of (without duplication) (i) the current portion of any Indebtedness of the Borrower and its Subsidiaries as of such date (other than the current portion of any Term Loans and any current contingent Indebtedness), (ii) the aggregate principal amount of any Indebtedness incurred pursuant to Section 6.01(j) and outstanding as of such date, and (iii) the aggregate amount of

the Subject Payments and any other contingent Indebtedness and/or earnout obligations incurred by the Borrower or its Subsidiaries in connection with any Investment (other than any current contingent Indebtedness) *minus*

(b) the Consolidated Fixed Charges for the Test Period most recently ended for which financial statements of the Borrower have been delivered pursuant to Section 5.01(a) or 5.01(b), *minus*

(c) any Specified Amount Utilization.

"Specified Amount Payment Period" means, for any Fiscal Year, the period beginning the date that financial statements are delivered pursuant to Section 5.01(b) with respect to the Fiscal Quarter ending June 30 of such Fiscal Year and ending the date that is 90 days after June 30 of such Fiscal Year.

"Specified Amount Utilization" means the sum of, without duplication, the aggregate amount of Restricted Payments and Restricted Debt Payments made in reliance on Section 6.08(d) and Section 6.18(a)(ii) respectively during the period starting from the first day of the Test Period most recently ended for which financial statements of the Borrower have been delivered pursuant to Section 5.01(a) or 5.01(b) and ending on such date.

"Specified Contribution" means at any time, without duplication, the amount of cash proceeds received by the Borrower from (x) an issuance of Equity Interests (other than Disqualified Equity Interests), (y) a cash capital contribution or (z) the incurrence of Subordinated Shareholder PIK Loans (such cash proceeds not to be less than the principal amount of such Subordinated Shareholder PIK Loans), which is made for the exclusive purpose of curing a failure to comply with Section 6.11(b) or Section 6.11(c) that would otherwise occur, but for the exercise of a Cure Right pursuant to Section 7.02(a).

"Specified Royalty Payments" means, with respect to any proposed Borrowing, royalty payments to be made by the Borrower or any other Loan Party to Payees after the date of such proposed Borrowing but on or prior to the last day of the month in which such proposed Borrowing occurs.

"Specified Total Indebtedness" means the aggregate principal amount of all Indebtedness of the Borrower and its Subsidiaries referred to in clauses (a), (b), (c), (e) (but only in respect of earn-out obligations to the extent due and payable), (f) (to the extent such Lien secures Indebtedness that is of the type that would otherwise constitute Specified Total Indebtedness), (g) (to the extent such Guarantee covers Indebtedness that is of the type that would otherwise constitute Specified Total Indebtedness), (h), (i) (to the extent consisting of non-contingent reimbursement obligations in respect of letters of credit and letters of guaranty that have been drawn or funded and not reimbursed), (j) (to the extent consisting of non- contingent reimbursement obligations in respect of bankers' acceptances that have been funded and not reimbursed) of the definition of "Indebtedness" on such date, determined on a consolidated basis in accordance with GAAP and (k) all Indebtedness of the types referred to in clauses (a) through (j) above of any partnership or joint venture in which any Borrower or a Subsidiary is a general partner or joint venturer, unless such Indebtedness is expressly made non-recourse to such Borrower or such Subsidiary.

"Subject Payments" means, collectively, the Devon Earn-Out Obligations, the First Contingent Payment (as defined in the XTO Acquisition Agreement) and the Second Contingent Payment (as defined in the XTO Acquisition Agreement).

"Subordinated Shareholder Loan" means (a) any loan made to the Borrower by Banpu North America which (i) has a maturity date no earlier than ninety-one (91) days after the Maturity Date, (ii) is subordinated to the Obligations as to priority of payment pursuant to a subordination agreement in form and substance satisfactory to the Administrative Agent, (iii) is unsecured, (iv) provides for an all-in- yield no greater than the Term SOFR Rate plus 5.25%, (b) any Subordinated Shareholder PIK Loan and (c) the Amended and Restated Shareholder Loans.

"Subordinated Shareholder PIK Loan" means any loan made to the Borrower by Banpu North America which (a) has a maturity date no earlier than ninety-one (91) days after the Maturity Date, (b) is subordinated to the Obligations as to priority of payment pursuant to a subordination agreement in form and substance satisfactory to the Administrative Agent, (c) is unsecured, (d) provides for an all-in- yield no greater than the Term SOFR Rate plus 5.25%, and (e) which bears interest that is payable solely in kind by adding the amount of such interest to the outstanding principal amount of the Subordinated Shareholder Loan, which shall thereafter be deemed principal bearing interest.

"Subordination Agreement" means that certain Subordination Agreement, dated as of the Effective Date, by and among Banpu North America Corporation, the Administrative Agent and each other Person party thereto, as may be amended, restated, amended and restated, supplemented or otherwise modified from time to time.

"subsidiary" means, with respect to any Person (the " parent") at any date, any corporation, limited liability company, partnership, joint venture, association or other entity the accounts of which would be consolidated with those of the parent in the parent's consolidated financial statements if such financial statements were prepared in accordance with GAAP as of such date, as well as any other corporation, limited liability company, partnership, association or other entity of which securities or other ownership interests representing more than 50% of the equity or more than 50% of the ordinary voting power or, in the case of a partnership, more than 50% of the general partnership interests are, as of such date, owned, Controlled or held.

"Subsidiary" means any subsidiary of the Borrower.

"Subsidiary Guarantor" means each Subsidiary of the Borrower that is a party to the Guaranty Agreement (excluding any Subsidiary released from its obligations under the Guaranty Agreement). The Subsidiary Guarantors as of the Effective Date are identified as such in Schedule 3.01.

"Swap Agreement" means any agreement with respect to any collar, swap, forward, future or derivative transaction or option or similar agreement involving, or settled by reference to, one or more rates, currencies, commodities, equity or debt instruments or securities, or economic, financial or pricing indices or measures of economic, financial or pricing risk or value or any similar transaction or any combination of these transactions; provided that no

phantom stock or similar plan providing for payments only on account of services provided by current or former directors, officers, employees or consultants of the Borrower or its Subsidiaries shall be a Swap Agreement.

"Taxes" means all present or future taxes, levies, imposts, duties, deductions, withholdings (including backup withholding), assessments, fees or other charges imposed by any Governmental Authority, including any interest, additions to tax or penalties applicable thereto.

"Term Benchmark", when used in reference to any Revolving Loan or Borrowing, refers to whether such Revolving Loan, or the Revolving Loans comprising such Borrowing, bears interest at a rate determined by reference to the Adjusted Term SOFR Rate.

"Term Benchmark Loan" means a Revolving Loan that bears interest at a rate based on the Term Benchmark.

"Term Loan" shall have the meaning assigned to the term "Term Loans" in the Term Loan Credit Agreement.

"Term Loan Credit Agreement" means that certain Credit Agreement, dated as of June 16, 2022, by and among the Borrower, the lenders party thereto, and Bangkok Bank Public Company Limited, New York Branch, as administrative agent.

"Term Loan Credit Agreement Obligations" has the meaning assigned to the term "Obligations" in the Term Loan Credit Agreement.

"Term SOFR Determination Day" has the meaning assigned to such term under the definition of "Term SOFR Reference Rate."

"Term SOFR Rate" means, with respect to any Term Benchmark Borrowing and for any tenor equal to the applicable Interest Period, the Term SOFR Reference Rate at approximately 6:00 a.m., New York time, two U.S. Government Securities Business Days prior to the commencement of such tenor comparable to the applicable Interest Period, as such rate is published by the CME Term SOFR Administrator.

"Term SOFR Reference Rate" means, for any day and time (such day, the " Term SOFR Determination Day"), with respect to any Term Benchmark Borrowing for any tenor comparable to the applicable Interest Period, the rate per annum determined by the Administrative Agent as the forward-looking term rate based on SOFR. If by 5:00 p.m. (New York time) on such Term SOFR Determination Day, the "Term SOFR Reference Rate" for the applicable tenor has not been published by the CME Term SOFR Administrator and a Benchmark Replacement Date with respect to the Term SOFR Rate has not occurred, then the Term SOFR Reference Rate for such Term SOFR Determination Day will be the Term SOFR Reference Rate as published in respect of the first preceding U.S. Government Securities Business Day for which such Term SOFR Reference Rate was published by the CME Term SOFR Administrator, so long as such first preceding Business Day is not more than five (5) Business Days prior to such Term SOFR Determination Day.

"Test Period" means any period of four consecutive Fiscal Quarters.

"Total Net Indebtedness" means, as of any date of determination, (a) Specified Total Indebtedness as of such date minus (b) the lesser of (i) the aggregate amount of Available Cash as of such date and (ii) $100,000,000.

"Total Net Leverage Ratio" means, as of the last day of any Test Period, the ratio of (a) Total Net Indebtedness as of such date to (b) Consolidated EBITDA for such Test Period.

"Total Proved PV-10" means, as of any date of determination, the sum of (i) the estimated market value of the Loan Parties' hedge position, discounted using an annual discount rate of 10% and (ii) the present value of estimated future revenues to be realized from the production of Hydrocarbons from the Oil and Gas Properties of the Loan Parties to which Proved Reserves are attributed as set forth in the most recent Reserve Report delivered pursuant hereto, with appropriate deductions for take or pay and other prepayments, severance and ad valorem taxes, operating, gathering, transportation and marketing expenses, and capital expenditures (including capitalized workover expenses) and plugging and abandonment costs. Each calculation of such estimated future revenues shall be made (a) using the Five-Year Strip Price, adjusted in a manner reasonably acceptable to the Administrative Agent for (i) any basis differential between the actual delivery location and the reference price delivery location and price differential between the actual product delivered and the reference product, in each case, using in each case using methodology consistent with past practices and in good faith based on observable differentials (which utilized differentials shall be, volume weighted on the basis of current and expected future arrangements for the sale of production, the lesser of (A) the average actual differentials for the last twelve months and (B) those future differentials which may be hedged by contract); and (ii) quality and gravity, (b) using costs as of the date of estimation without future escalation and without giving effect to non-property related expenses such as general and administrative expenses, debt service, future income tax expense and depreciation, depletion and amortization, (c) discounted using an annual discount rate of 10% and (d) to the extent not otherwise specified in the preceding clauses of this sentence, using reasonable economic assumptions consistent with such clauses. Total Proved PV-10 shall be calculated on a pro forma basis, giving effect to (i) acquisitions and Dispositions of Oil and Gas Properties consummated by the Borrower and the other Loan Parties since the date of the Reserve Report most recently delivered pursuant hereto (provided that, in the case of any acquisition of Oil and Gas Properties, the Administrative Agent shall have received a Reserve Report, in form and substance reasonably satisfactory to it, evaluating the Proved Reserves attributable thereto) and (ii) the unwind, monetization or termination of any Swap Agreement to which a Loan Party is a party, in each case occurring since the date of the Reserve Report most recently delivered pursuant hereto.

"Transactions" means (a) the execution, delivery and performance by the Loan Parties of this Agreement and the other Loan Documents, (b) the borrowing of Revolving Loans and the use of the proceeds thereof and (c) any other transaction relating to or entered into in connection with any of the foregoing.

"Type" when used in reference to any Revolving Loan or Borrowing, refers to whether the rate of interest on such Revolving Loan, or on the Revolving Loans comprising such Borrowing, is determined by reference to the Adjusted Term SOFR Rate, the Adjusted Daily Simple RFR or the Alternate Base Rate.

"U.S. Government Securities Business Day" means any day except for (a) a Saturday, (b) a Sunday or (c) a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in United States government securities.

"U.S. Person" means a "United States person" within the meaning of Section 7701(a)(30) of the Code.

"U.S. Tax Compliance Certificate" has the meaning assigned to such term in Section 2.14(f)(i)(B)(3).

"UCC" means the Uniform Commercial Code as in effect from time to time in the State of New York or any other state the laws of which are required to be applied in connection with the issue of perfection of security interests.

"UK Financial Institutions" means any BRRD Undertaking (as such term is defined under the PRA Rulebook (as amended from time to time) promulgated by the United Kingdom Prudential Regulation Authority) or any person falling within IFPRU 11.6 of the FCA Handbook (as amended from time to time) promulgated by the United Kingdom Financial Conduct Authority, which includes certain credit institutions and investment firms, and certain affiliates of such credit institutions or investment firms.

"UK Resolution Authority" means the Bank of England or any other public administrative authority having responsibility for the resolution of any UK Financial Institution.

"Unadjusted Benchmark Replacement" means the applicable Benchmark Replacement excluding the related Benchmark Replacement Adjustment.

"Uncommitted Credit Facility Agreements" means (a) that certain Uncommitted Specific Advance Facility Letter, dated as of December 22, 2021, by and among the Borrower and Oversea-Chinese Banking Corporation Limited, Los Angeles Agency, (b) that certain Uncommitted Continuing Agreement for Standby Letters of Credit, dated as of December 22, 2021, by and among the Borrower and Oversea- Chinese Banking Corporation Limited, Los Angeles Agency, (c) that certain Facility Letter (Uncommitted), dated as of February 7, 2022, by and among Standard Chartered Bank, the Borrower, BKV Chaffee Corners, LLC, BKV Chelsea, LLC, BKV Operating, LLC and BKV Barnett, LLC and (d) that certain Promissory Note, dated as of March 11, 2022, made by the Borrower, BKV Chaffee Corners, LLC, BKV Chelsea, LLC, BKV Operating, LLC and BKV Barnett, LLC in favor of Standard Chartered Bank.

"USA PATRIOT Act" means The Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (Title III of Pub. L. No. 107- 56 (signed into law October 26, 2001)) and the rules and regulations promulgated thereunder from time to time in effect.

"Volumetric Production Payment" means a production payment obligation recorded as deferred revenue in accordance with GAAP, together with all undertakings and obligations in connection therewith.

"Wholly Owned Subsidiary" means, as to any Person, any other Person all of the Equity Interests of which (other than directors' qualifying shares required by law) is owned by such Person directly and/or through other Wholly Owned Subsidiaries.

"Withdrawal Liability" means liability to a Multiemployer Plan as a result of a complete or partial withdrawal from such Multiemployer Plan, as such terms are defined in Part 1 of Subtitle E of Title IV of ERISA.

"Withholding Agent" means any Loan Party.

"Write-Down and Conversion Powers" means, (a) with respect to any EEA Resolution Authority, the write-down and conversion powers of such EEA Resolution Authority from time to time under the Bail-In Legislation for the applicable EEA Member Country, which write-down and conversion powers are described in the EU Bail-In Legislation Schedule, and (b) with respect to the United Kingdom, any powers of the applicable Resolution Authority under the Bail-In Legislation to cancel, reduce, modify or change the form of a liability of any UK Financial Institution or any contract or instrument under which that liability arises, to convert all or part of that liability into shares, securities or obligations of that person or any other person, to provide that any such contract or instrument is to have effect as if a right had been exercised under it or to suspend any obligation in respect of that liability or any of the powers under that Bail-In Legislation that are related to or ancillary to any of those powers.

"XTO Acquisition Agreement" means that certain Purchase and Sale Agreement, dated as of May 18, 2022, among XTO Energy, Inc., a Delaware corporation, and Barnett Gathering, LLC, a Texas limited liability company, on the one hand, collectively, as seller (the "XTO Sellers"), and BKV North Texas, LLC, a Delaware limited liability company, and BKV Midstream, LLC, a Delaware limited liability company, on the other hand, collectively, as purchaser.

"XTO Acquisition Subordinated Shareholder Loan" means the loans incurred by the Borrower pursuant to the XTO Subordinated Shareholder Loan Agreement.

"XTO Acquisition Subordinated Shareholder Loan Agreement" means that certain Amended and Restated Loan Agreement, dated as of June 15, 2022, by and between Banpu North America, as lender, and the Borrower, as borrower, pursuant to which Banpu North America made a term loan in the aggregate principal amount of $75,000,000 to the Borrower.

"XTO Sellers" has the meaning assigned to such term in the definition of "XTO Acquisition Agreement".

SECTION 1.02. Terms Generally. The definitions of terms herein shall apply equally to the singular and plural forms of the terms defined.

Whenever the context may require, any pronoun shall include the corresponding masculine, feminine and neuter forms. The words "include", "includes" and "including" shall be deemed to be followed by the phrase "without limitation". The word "will" shall be construed to have the same meaning and effect as the word "shall". The word "law" shall be construed as referring to all statutes, rules, regulations, codes and other laws (including official rulings and interpretations thereunder having the force of law or with which affected Persons customarily comply), and all judgments, orders and decrees, of all Governmental Authorities. Unless the context requires otherwise, (a) any definition of or reference to any agreement, instrument or other document herein shall be construed as referring to such agreement, instrument or other document as from time to time amended, restated, supplemented or otherwise modified (subject to any restrictions on such amendments, restatements, supplements or modifications set forth herein), (b) any definition of or reference to any statute, rule or regulation shall be construed as referring thereto as from time to time amended, supplemented or otherwise modified (including by succession of comparable successor laws), (c) any reference herein to any Person shall be construed to include such Person's successors and assigns (subject to any restrictions on assignment set forth herein) and, in the case of any Governmental Authority, any other Governmental Authority that shall have succeeded to any or all functions thereof, (d) the words "herein", "hereof" and "hereunder", and words of similar import, shall be construed to refer to this Agreement in its entirety and not to any particular provision hereof, (e) with respect to the determination of any time period, the word "from" means "from and including", the words "to" and "until" mean "to but excluding", and the word "through" means "to and including", (f) all references herein to Articles, Sections, Exhibits and Schedules shall be construed to refer to Articles and Sections of, and Exhibits and Schedules to, this Agreement and (g) the words "asset" and "property" shall be construed to have the same meaning and effect and to refer to any and all tangible and intangible assets and properties, including cash, securities, accounts and contract rights.

SECTION 1.03. Accounting Terms; GAAP; Pro Forma Calculations.

(a) Except as otherwise expressly provided herein, all terms of an accounting or financial nature shall be construed in accordance with GAAP, as in effect from time to time; provided that, if the Borrower notifies the Administrative Agent that the Borrower requests an amendment to any provision hereof to eliminate the effect of any change occurring after the date hereof in GAAP or in the application thereof on the operation of such provision (or if the Administrative Agent notifies the Borrower that the Required Lenders request an amendment to any provision hereof for such purpose), regardless of whether any such notice is given before or after such change in GAAP or in the application thereof, then such provision shall be interpreted on the basis of GAAP as in effect and applied immediately before such change shall have become effective until such notice shall have been withdrawn or such provision amended in accordance herewith.

(b) Notwithstanding any other provision contained herein, all terms of an accounting or financial nature used herein shall be construed, and all computations of amounts and ratios referred to herein shall be made (i) without giving effect to any election under Accounting Standards Codification 825-10-25 (or any other Accounting Standards Codification or Financial Accounting Standard having a similar result or effect) to value any Indebtedness or other liabilities of the Borrower or any Subsidiary of the Borrower at "fair value", as defined therein, and (ii) without giving effect to any treatment of Indebtedness in respect of convertible debt instruments under Accounting Standards Codification 470-20 (or any other Accounting Standards Codification or Financial Accounting Standard having a similar result or effect) to value any such Indebtedness in a reduced or bifurcated manner as described therein, and such Indebtedness shall at all times be valued at the full stated principal amount thereof.

(c) Except as otherwise expressly provided herein, all pro forma computations required to be made hereunder giving effect to any acquisition or Disposition, or issuance, incurrence or assumption of Indebtedness, or other transaction shall in each case be calculated giving pro forma effect thereto (and, in the case of any pro forma computation made hereunder to determine whether such acquisition or Disposition, or issuance, incurrence or assumption of Indebtedness, or other transaction is permitted to be consummated hereunder, to any other such transaction consummated since the first day of the period covered by any component of such pro forma computation and on or prior to the date of such computation) as if such transaction had occurred on the first day of the period of four consecutive Fiscal Quarters ending with the most recent Fiscal Quarter for which financial statements shall have been delivered pursuant to Section 5.01(a) or 5.01(b) (or, prior to the delivery of any such financial statements, ending with the last Fiscal Quarter included in the financial statements referred to in Section 3.04(a) and (b)), and, to the extent applicable, to the historical earnings and cash flows associated with the assets acquired or Disposed of (but without giving effect to any synergies or cost savings) and any related incurrence or reduction of Indebtedness, all in accordance with Article 11 of Regulation S-X under the Securities Act. If any Indebtedness bears a floating rate of interest and is being given pro forma effect, the interest on such Indebtedness shall be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Swap Agreement applicable to such Indebtedness).

(d) Notwithstanding anything to the contrary contained in Section 1.03(a) or in the definition of "Capital Lease Obligations," for purposes of calculations made pursuant to the terms of this Agreement or any other Loan Document, GAAP will be deemed to treat leases (whether or not such leases were in effect on such date) that would have been classified as operating leases in accordance with GAAP as in effect on December 31, 2018 in a manner consistent with the treatment of such leases under GAAP as in effect on December 31, 2018, notwithstanding any modifications or interpretive changes thereto that may occur thereafter.

SECTION 1.04. Interest Rates; Benchmark Notification. The interest rate on a Revolving Loan may be derived from an interest rate benchmark that may be discontinued or is, or may in the future become, the subject of regulatory reform. Upon the occurrence of a Benchmark Transition Event, Section 2.11(b) provides a mechanism for determining an alternative rate of interest. The Administrative Agent does not warrant or accept any responsibility for, and shall not have any liability with respect to, the administration, submission, performance or any other matter related to any interest rate used in this Agreement, or with respect to any alternative or successor rate thereto, or replacement rate thereof, including without limitation, whether the composition or characteristics of any such alternative, successor or replacement reference rate will be similar to, or produce the same value or economic equivalence of, the existing interest rate being replaced or have the same volume or liquidity as did any existing interest rate prior to its discontinuance or unavailability. The Administrative Agent and its affiliates and/or other related entities may engage in transactions that affect the calculation of any interest rate used in this Agreement or any alternative, successor or alternative rate (including any Benchmark Replacement) and/or any relevant adjustments thereto, in each case, in a manner adverse to the Borrower. The Administrative Agent may select information sources or services in its reasonable discretion to ascertain any interest rate used in this Agreement, any component thereof, or rates referenced in the definition thereof, in each case pursuant to the terms of this Agreement, and shall

have no liability to the Borrower, any Lender or any other person or entity for damages of any kind, including direct or indirect, special, punitive, incidental or consequential damages, costs, losses or expenses (whether in tort, contract or otherwise and whether at law or in equity), for any error or calculation of any such rate (or component thereof) provided by any such information source or service.

SECTION 1.05. Divisions. For all purposes under the Loan Documents, in connection with any division or plan of division under Delaware law (or any comparable event under a different jurisdiction's laws): (a) if any asset, right, obligation or liability of any Person becomes the asset, right, obligation or liability of a different Person, then it shall be deemed to have been transferred from the original Person to the subsequent person, and (b) if any new Person comes into existence, such new Person shall be deemed to have been organized and acquired on the first date of its existence by the holders of its Equity Interests at such time.

ARTICLE II

The Credits

SECTION 2.01.Commitments. Subject to the terms and conditions set forth herein, each Revolving Lender (severally and not jointly) agrees to make Revolving Loans to the Borrower in Dollars from time to time on any Business Day during the Revolving Loan Availability Period in an aggregate principal amount that will not result in (i) such Revolving Lender's aggregate principal amount of Revolving Loans exceeding such Revolving Lender's Revolving Loan Commitment, (ii) the aggregate principal amount of Revolving Loans of all Revolving Lenders exceeding the aggregate Revolving Loan Commitments of all Revolving Lenders or (iii) the Marketer Receivables Amount as of the proposed date of Borrowing failing to exceed the aggregate principal amount of Revolving Loans of all Revolving Lenders (including after giving effect to the requested Borrowing). Within the foregoing limits and subject to the terms and conditions set forth herein, the Borrower may borrow, repay and reborrow the Revolving Loans.

SECTION 2.02.Loans and Borrowings.

(a) Each Revolving Loan shall be made as part of a Borrowing consisting entirely of Term Benchmark Loans as the Borrower may request in accordance herewith made by the applicable Lenders ratably in accordance with their respective Revolving Loan Commitments. The failure of any Lender to make any Revolving Loan required to be made by it shall not relieve any other Lender of its obligations hereunder; provided that the Commitments of the Lenders are several and no Lender shall be responsible for any other Lender's failure to make Revolving Loans as required.

(b) Subject to Section 2.11, each Borrowing shall be comprised entirely of Term Benchmark Loans as the Borrower may request in accordance herewith. Each Lender at its option may make any Revolving Loan by causing any domestic or foreign branch or Affiliate of such Lender to make such Revolving Loan (and in the case of an Affiliate, the provisions of Sections 2.12 and 2.14 shall apply to such Affiliate to the same extent as to such Lender); provided that any exercise of such option shall not affect the obligation of the Borrower to repay such Revolving Loan in accordance with the terms of this Agreement.

(c) Each Borrowing of Revolving Loans shall be in an aggregate amount that is an integral multiple of $1,000,000 and not less than $3,000,000.

(d) Notwithstanding any other provision of this Agreement, the Borrower shall not be entitled to request any Borrowing if the Interest Period requested with respect thereto would end after the Maturity Date.

SECTION 2.03.Requests for Borrowings. To request a Borrowing, the Borrower shall notify the Administrative Agent of such request by delivering to the Administrative Agent a Borrowing Request signed by the Borrower not later than 11:00 a.m., New York City time three (3) Business Days before the date of the proposed Borrowing (or such later time as may be otherwise approved by the Administrative Agent in its sole discretion). Each such written Borrowing Request shall be irrevocable and shall specify the following information in compliance with Section 2.02:

(i) the aggregate principal amount of the requested Borrowing, which shall comply with the requirements of Section 2.02(c);

(ii) the date of such Borrowing, which shall be a Business Day;

(iii) the Interest Period with respect to such Borrowing;

(i v) the current aggregate principal amount of outstanding Revolving Loans of all Revolving Lenders (without regard to the requested Borrowing) and the pro forma aggregate outstanding principal amount of Revolving Loans of all Revolving Lenders (giving effect to the requested Borrowing); and

(v) if the Borrower Reimbursement Conditions are met, the location and number of the Borrower's account or such other account or accounts to which funds are to be disbursed; provided, however, the Borrower shall not be required to meet the Borrower Reimbursement Conditions if (i) the Reimbursed Invoiced Amounts associated with such draw of Loans are less than or equal to $1,000,000; and (ii) the Reimbursed Invoiced Amounts cover more than 90% of the aggregate principal amount of the requested Borrowing.

Promptly following receipt of a Borrowing Request in accordance with this Section, the Administrative Agent shall advise each applicable Lender of the details thereof and of the amount of such Lender's Revolving Loan to be made as part of the requested Borrowing.

SECTION 2.04.Funding of Borrowings.

(a) Each Lender shall make each Revolving Loan to be made by it hereunder on the relevant Funding Date thereof by wire transfer of immediately available funds by 12:00 noon, New York City time, to the account of the Administrative Agent most recently designated by it for such purpose by notice to the Lenders. The Administrative Agent will make such Revolving Loans available to the Borrower by promptly wiring the amounts of all requested funds so received, in like funds, to an account of the Borrower (or to such other account) designated by the Borrower in the applicable Borrowing Request on the applicable Funding Date.

(b) Unless the Administrative Agent shall have received notice from a Lender prior to the proposed date of any Borrowing that such Lender will not make available to the Administrative Agent such Lender's share of such Borrowing, the Administrative Agent may assume that such Lender has made such share available on such date in accordance with paragraph (a) of this Section and may (but shall have no obligation to do so), in reliance upon such assumption, make available to the Borrower a corresponding amount. In such event, if a Lender has not in fact made its share of the applicable Borrowing available to the Administrative Agent, then the applicable Lender and the Borrower severally agree to pay to the Administrative Agent forthwith on demand such corresponding amount with interest thereon, for each day from and including the date such amount is made available to the Borrower to but excluding the date of payment to the Administrative Agent, at (i) in the case of such Lender, the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation or (ii) in the case of the Borrower, the interest rate applicable to the Revolving Loans comprising such Borrowing. If such Lender pays such amount to the Administrative Agent, then such amount shall constitute such Lender's Revolving Loan included in such Borrowing.

SECTION 2.05.Interest Rate. Each Borrowing shall have the Interest Period as specified in such Borrowing Request. Thereafter, the Borrower may not continue such Borrowing or, on any subsequent Borrowing, may elect different Interest Periods therefor. There shall be no more than ten (10) Term Benchmark Borrowings at any time.

SECTION 2.06. Termination and Reduction of Revolving Loan Commitments.

(a) Unless previously terminated, the Revolving Loan Commitments shall terminate on the Maturity Date.

(b) The Borrower may at any time terminate, or from time to time reduce, the Revolving Loan Commitments; provided that (i) each partial reduction of the Revolving Loan Commitments shall be in an amount that is an integral multiple of $1,000,000 and not less than $3,000,000 and (ii) the Borrower shall not terminate or reduce the Revolving Loan Commitments if, after giving effect to any concurrent prepayment of the Revolving Loans in accordance with Section 2.08, the aggregate principal amount of Revolving Loans of all Revolving Lenders would exceed the aggregate Revolving Loan Commitments of all Revolving Lenders.

(c) The Borrower shall notify the Administrative Agent in writing of any election to terminate or reduce the Revolving Loan Commitments under paragraph (b) of this Section by 12:00 p.m., New York City time, at least three (3) Business Days prior to the effective date of such termination or reduction, specifying such election and the effective date thereof. Promptly following receipt of any such notice, the Administrative Agent shall advise the applicable Lenders of the contents thereof. Each notice delivered by the Borrower pursuant to this paragraph (c) shall be irrevocable; provided that a notice of termination of the Revolving Loan Commitments delivered by the Borrower may state that such notice is conditioned upon the effectiveness of other credit facilities or other transactions specified therein, in which case such notice may be revoked by the Borrower (by notice to the Administrative Agent on or prior to the specified effective date) if such condition is not satisfied. Any termination or reduction of the Revolving Loan Commitments shall be permanent. Each reduction of the Revolving Loan Commitments shall be made ratably among the Revolving Lenders in accordance with their respective Revolving Loan Commitments.

(d) Without limiting any other obligation to pay fees and expenses hereunder, any commitment fees accrued pursuant to Section 2.09 until the effective date of any termination of Revolving Loan Commitments shall be paid on the effective date of such termination.

SECTION 2.07. Repayment of Loans; Evidence of Debt.

(a) To the extent not previously repaid, the outstanding principal amount of the Revolving Loans shall be paid in full in Dollars by the Borrower on (i) the last day of the Interest Period with respect thereto and (ii) the Maturity Date.

(b) Each Lender shall maintain in accordance with its usual practice an account or accounts evidencing the indebtedness of the Borrower to such Lender resulting from each Revolving Loan made by such Lender, including the amounts of principal and interest payable and paid to such Lender from time to time hereunder.

(c) The Administrative Agent shall maintain accounts in which it shall record (i) the amount of each Revolving Loan made hereunder, the Type thereof and the Interest Period applicable thereto, (ii) the amount of any principal or interest due and payable or to become due and payable from the Borrower to each Lender hereunder and (iii) the amount of any sum received by the Administrative Agent hereunder for the account of the Lenders and each Lender's share thereof.

(d) The Register and the corresponding entries made in the accounts maintained pursuant to paragraph (b) or (c) of this Section shall be prima facie evidence of the existence and amounts of the obligations recorded therein; provided that the failure of any Lender or the Administrative Agent to maintain such accounts or any error therein shall not in any manner affect the Obligations. If any conflict exists between the accounts and records maintained by any Lender and the accounts and records of the Administrative Agent in respect of such matters, the accounts and records of Administrative Agent shall control in the absence of manifest error.

(e) Any Lender may request that Revolving Loans made by it be evidenced by a Note or Notes. In such event, the Borrower shall prepare, execute and deliver to such Lender a Note or Notes payable to such Lender or its registered assigns and substantially in the form of Exhibit A. Thereafter, the Revolving Loans evidenced by such Note and interest thereon shall at all times (including after assignment pursuant to Section 9.04) be

represented by one or more Notes in such form payable to the payee or its registered assigns.

SECTION 2.08. Prepayment of Loans.

(a) Voluntary Prepayments. Except as prohibited by the Term Loan Credit Agreement, the Borrower shall have the right at any time and from time to time to prepay any Borrowing in whole or in part, subject to prior written notice in accordance with the provisions of this Section 2.08(a). The Borrower shall notify the Administrative Agent by written notice of any prepayment hereunder not later than 1:00 p.m., New York City time, fifteen (15) Business Days before the date of prepayment. Each such notice shall be irrevocable and shall specify the prepayment date and the principal amount of each Borrowing or portion thereof to be prepaid; provided that a notice of voluntary prepayment of all Revolving Loans then outstanding at any time delivered by the Borrower may state that such notice is conditioned upon the effectiveness of other credit facilities or other transactions specified therein, in which case such notice may be revoked by the Borrower (by written notice to the Administrative Agent on or prior to the specified effective date) if such condition is not satisfied. Promptly following receipt of any such notice relating to a voluntary prepayment of a Borrowing, the Administrative Agent shall advise the applicable Lenders of the contents thereof. Each partial prepayment of any Revolving Loans shall be an integral multiple of $1,000,000 and not less than $3,000,000. Each voluntary prepayment of a Borrowing pursuant to this Section 2.08(a) shall be applied ratably to the Revolving Loans included in the prepaid Borrowing in inverse order of maturity.

(b) Mandatory Prepayments (Unauthorized Incurrence of Indebtedness). If any Net Proceeds are received by the Borrower or any of its Subsidiaries as a result of the incurrence by the Borrower or any of its Subsidiaries of any Indebtedness other than Indebtedness permitted under Section 6.01, the Borrower shall, on the same day that such Net Proceeds are received, prepay the Revolving Loans in an aggregate amount equal to 100% of such Net Proceeds. Each prepayment pursuant to this Section 2.08(b) shall be applied ratably to the Revolving Loans.

(c) Mandatory Prepayments (Illegality). If, in any applicable jurisdiction, it becomes unlawful under any law (or any Governmental Authority has asserted that it is unlawful) for any Lender to perform any of its obligations as contemplated by this Agreement or to fund or maintain any Revolving Loan:

(i) such Lender shall promptly notify the Administrative Agent upon becoming aware of that event (and the Administrative Agent shall promptly notify the Borrower in writing); and

(ii) upon the Administrative Agent notifying the Borrower, (i) the Commitments of such Lender will be immediately terminated; and (ii) the Borrower shall prepay all Revolving Loans of such Lender either on the last day of the Interest Period thereof, if such Lender may lawfully continue to maintain such Revolving Loan, or immediately, if such Lender may not lawfully continue to maintain such Revolving Loan.

(d) Mandatory Prepayments (Specified Contributions). In the event and on each occasion that the Borrower receives any Specified Contribution, the Borrower shall, no later than the Business Day after such Specified Contribution is received by the Borrower, prepay the Revolving Loans in an aggregate amount equal to 100% of such Specified Contribution; provided that, if, as a result of the receipt of such Specified Contribution, a prepayment of the Term Loans is required pursuant to the Term Loan Credit Agreement, then the Borrower may first make prepayments to the Term Loans using the proceeds of such Specified Contribution as required by the Term Loan Credit Agreement prior to using any excess proceeds to prepay the Revolving Loans as otherwise required by this clause (d). Each prepayment pursuant to this Section 2.08(c) shall be applied ratably to the Revolving Loans.

(e) Mandatory Prepayments (Breach of Minimum Marketer Receivables Amount Covenant). In the event and on each occasion that the Borrower is in violation of Section 5.22 as of the last day of any month, the Borrower shall, on or prior to the date that is three (3) Business Days after the date that the Borrower delivered (or was required to deliver) the certificate required pursuant to Section 5.01(m) showing such Marketer Receivables Amount Shortfall, prepay Borrowings of Revolving Loans in an aggregate amount equal to the applicable Marketer Receivables Amount Shortfall. Each prepayment pursuant to this Section 2.08(e) shall be applied ratably to the Revolving Loans.

(f) Mandatory Prepayments (Excess of Revolving Loans). In the event and on each occasion that the aggregate outstanding principal amount of Revolving Loans of all Revolving Lenders exceeds the aggregate Revolving Loan Commitments of all Revolving Lenders, the Borrower shall prepay the Revolving Loans in an aggregate amount equal to such excess within one (1) Business Day after notice thereof from the Administrative Agent. Each prepayment pursuant to this Section 2.08(d) shall be applied ratably to the Revolving Loans.

(g) Notice of Prepayment. The Borrower shall notify the Administrative Agent in writing of any prepayment under Section 2.08 (other than Section 2.08(f)) not later than 1:00 p.m. New York City time, fifteen (15) Business Days (or, in respect of a prepayment made pursuant to Section 2.08(e), one (1) Business Day) prior to the date of prepayment (including (i) with respect to any prepayment under Section 2.08(d), reasonably detailed calculations of the Asset Coverage Ratio, the Consolidated Fixed Charge Coverage Ratio or the Total Net Leverage Ratio, as applicable, as of such date after giving effect to such prepayment and (ii) with respect to any prepayment under Section 2.08(e), calculations of the Marketer Receivables Amount Shortfall in form and detail satisfactory to the Administrative Agent). Each such notice shall specify the prepayment date, the principal amount of each Borrowing or portion thereof to be prepaid and a reasonably detailed calculation of the amount of such prepayment.

(h) Interest; Breakfunding. All prepayments, whether voluntary or mandatory, pursuant to this Section 2.08 shall be accompanied by accrued interest to the extent required by Section 2.10(d) and any break funding payments required by Section 2.18.

SECTION 2.09.Fees.

(a) The Borrower agrees to pay to the Administrative Agent for the account of each Lender fees payable pursuant to the Fee Letter.

(b) The Borrower agrees to pay to the Administrative Agent for the account of each Revolving Lender (other than a Defaulting Lender) a commitment fee, which shall accrue at a rate per annum equal to 1.50% of the average daily amount of the undrawn portion of the Revolving Loan Commitment of such Lender during the Revolving Loan Availability Period. Accrued commitment fees shall be payable in arrears on the last Business Day of September, December, March and June of each year, commencing on the first such date to occur after the Effective Date, and on the last Business Day of the Revolving Loan Availability Period. All commitment fees under this Section 2.09(c) shall be computed on the basis of a year of 360 days and shall be payable for the actual number of days elapsed (including the first day but excluding the last day).

(c) All fees payable hereunder shall be paid on the dates due, in immediately available funds, to the Administrative Agent for distribution, in the case of commitment fees, to the applicable Lenders. Fees paid shall not be refundable under any circumstances.

SECTION 2.10.Interest.

(a) The Revolving Loans shall bear interest at a rate per annum equal to the Adjusted Term SOFR Rate for the Interest Period in effect for such Borrowing plus the Applicable Rate, but in no event to exceed the Maximum Rate.

(b) Reserved.

(c) Notwithstanding the foregoing, during the occurrence and continuance of any Event of Default, all Revolving Loans and other amounts outstanding hereunder shall bear interest, after as well as before judgment, at a rate per annum equal to (i) in the case of principal of any Revolving Loan outstanding hereunder, 2.0% plus the rate otherwise applicable to such Revolving Loan as provided in the preceding paragraphs of this Section or (ii) in the case of any other amount, 2.0% plus the rate applicable to Term Benchmark Loans as provided in Section 2.10(a), but in no event to exceed the Maximum Rate.

(d) Accrued interest on each Revolving Loan shall be payable in arrears on each Interest Payment Date for such Revolving Loan and on the Maturity Date; provided that (i) interest accrued pursuant to paragraph (c) of this Section shall be payable on demand and (ii) in the event of any repayment or prepayment of any Revolving Loan, accrued interest on the principal amount repaid or prepaid shall be payable on the date of such repayment or prepayment

(e) All interest hereunder shall be computed on the basis of a year of 360 days, except that interest computed by reference to the Alternate Base Rate at times when the Alternate Base Rate is based on the Prime Rate shall be computed on the basis of a year of 365 days (or 366 days in a leap year), and in each case shall be payable for the actual number of days elapsed (including the first day but excluding the last day). The applicable Alternate Base Rate, Adjusted Term SOFR Rate, Adjusted Daily Simple RFR or Daily Simple SOFR shall be determined by the Administrative Agent, and such determination shall be conclusive absent manifest error.

SECTION 2.11.Alternate Rate of Interest.

(a) Subject to clauses (b), (c), (d), (e) and (f) of this Section 2.11, if:

(i) the Administrative Agent determines (which determination shall be conclusive and binding absent manifest error) (A) prior to the commencement of any Interest Period for a Term Benchmark Borrowing that adequate and reasonable means do not exist for ascertaining the Adjusted Term SOFR Rate or the Term SOFR Rate (including, without limitation, because the Term SOFR Reference Rate is not available or published on a current basis), for such Interest Period or (B) at any time, that adequate and reasonable means do not exist for ascertaining the applicable Adjusted Daily Simple RFR or Daily Simple SOFR for an RFR Revolving Loan;

(ii) the Administrative Agent is advised by the Required Lenders that (A) prior to the commencement of any Interest Period for a Term Benchmark Borrowing that the Adjusted Term SOFR Rate for the applicable Interest Period will not adequately and fairly reflect the cost to such Lenders of making or maintaining their Revolving Loans included in such Borrowing for such Interest Period, or (B) at any time, the applicable Adjusted Daily Simple RFR for an RFR Revolving Loan will not adequately and fairly reflect the cost to such Lenders of making or maintaining their Revolving Loans included in such Borrowing;

then the Administrative Agent shall give notice thereof to the Borrower and the Lenders through any Electronic System as provided in Section 9.01 as promptly as practicable thereafter and, until the Administrative Agent notifies the Borrower and the Lenders that the circumstances giving rise to such notice no longer exist with respect to the relevant Benchmark, (1) any Term Benchmark Loan shall on the last day of the Interest Period applicable to such Revolving Loan (or the next succeeding Business Day if such day is not a Business Day), be converted by the Administrative Agent to, and shall constitute, (x) an RFR Borrowing so long as the Adjusted Daily Simple RFR is not also the subject of Section 2.11(a)(i) or (ii) above or (y) an ABR Revolving Loan if the Adjusted Daily Simple RFR also is the subject of Section 2.11(a)(i) or (ii) above, on such day, and (2) any RFR Revolving Loan shall on and from such day be converted by the Administrative Agent to, and shall constitute an ABR Revolving Loan.

(b) Notwithstanding anything to the contrary herein or in any other Loan Document, if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any setting of the then-current Benchmark, then (x) if a Benchmark Replacement is determined in accordance with clause (1) of the definition of “Benchmark Replacement” for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Loan Document in respect of such Benchmark setting and subsequent Benchmark settings without any amendment to, or further action or consent of any other party to, this Agreement or any other Loan Document and

(y) if a Benchmark Replacement is determined in accordance with clause (2) of the definition of "Benchmark Replacement" for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Loan Document in respect of any Benchmark setting at or after 5:00 p.m. (New York City time) on the fifth (5th) Business Day after the date notice of such Benchmark Replacement is provided to the Lenders without any amendment to, or further action or consent of any other party to, this Agreement or any other Loan Document so long as the Administrative Agent has not received, by such time, written notice of objection to such Benchmark Replacement from Lenders comprising the Required Lenders.

(c) Notwithstanding anything to the contrary herein or in any other Loan Document, in connection with the implementation of any Benchmark Replacement, the Administrative Agent (in consultation with the Borrower) will have the right to make Benchmark Replacement Conforming Changes from time to time and, notwithstanding anything to the contrary herein or in any other Loan Document, any amendments implementing such Benchmark Replacement Conforming Changes will become effective without any further action by or consent of any other party to this Agreement or any other Loan Document.

(d) The Administrative Agent will promptly notify the Borrower and the Lenders of (i) any occurrence of a Benchmark Transition Event, (ii) the implementation of any Benchmark Replacement, (iii) the effectiveness of any Benchmark Replacement Conforming Changes, (iv) the removal or reinstatement of any tenor of a Benchmark pursuant to clause (e) below and (v) the commencement or conclusion of any Benchmark Unavailability Period. Any determination, decision or election that may be made by the Administrative Agent or, if applicable, any Lender (or group of Lenders) pursuant to this Section 2.11, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error and may be made in its or their sole discretion and without consent from any other party to this Agreement or any other Loan Document, except, in each case, as expressly required pursuant to this Section 1 or in any related definitions.

(e) Notwithstanding anything to the contrary herein or in any other Loan Document, at any time (including in connection with the implementation of a Benchmark Replacement), (i) if the then- current Benchmark is a term rate (including the Term SOFR Rate) and either (A) any tenor for such Benchmark is not displayed on a screen or other information service that publishes such rate from time to time as selected by the Administrative Agent in its reasonable discretion or (B) the regulatory supervisor for the administrator of such Benchmark has provided a public statement or publication of information announcing that any tenor for such Benchmark is or will be no longer representative, then the Administrative Agent may modify the definition of "Interest Period" for any Benchmark settings at or after such time to remove such unavailable or non-representative tenor and (ii) if a tenor that was removed pursuant to clause (i) above either (A) is subsequently displayed on a screen or information service for a Benchmark (including a Benchmark Replacement) or (B) is not, or is no longer, subject to an announcement that it is or will no longer be representative for a Benchmark (including a Benchmark Replacement), then the Administrative Agent may modify the definition of "Interest Period" for all Benchmark settings at or after such time to reinstate such previously removed tenor.

(f) Upon the Borrower's receipt of notice of the commencement of a Benchmark Unavailability Period, the Borrower may revoke any request for a Term Benchmark Borrowing or RFR Borrowing and any conversion to or continuation of Term Benchmark Loans to be made, converted or continued during any Benchmark Unavailability Period and, failing that, the Borrower will be deemed to have converted any such request into a request for a Borrowing of or conversion to (i) with respect to any Term Benchmark Borrowing, an RFR Borrowing so long as the Adjusted Daily Simple RFR is not the subject of a Benchmark Transition Event or (ii) an ABR Borrowing if the Adjusted Daily Simple RFR is the subject of a Benchmark Transition Event. During any Benchmark Unavailability Period or at any time that a tenor for the then-current Benchmark is not an Available Tenor, the component of ABR based upon the then-current Benchmark or such tenor for such Benchmark, as applicable, will not be used in any determination of ABR. Furthermore, if any Term Benchmark Loan or RFR Revolving Loan is outstanding on the date of the Borrower's receipt of notice of the commencement of a Benchmark Unavailability Period with respect to a Relevant Rate applicable to such Term Benchmark Loan or RFR Revolving Loan, then until such time as a Benchmark Replacement is implemented pursuant to this Section 2.11, (1) any Term Benchmark Loan shall on the last day of the Interest Period applicable to such Revolving Loan (or the next succeeding Business Day if such day is not a Business Day), be converted by the Administrative Agent to, and shall constitute, (x) an RFR Borrowing so long as the Adjusted Daily Simple RFR is not the subject of a Benchmark Transition Event or (y) an ABR Revolving Loan if the Adjusted Daily Simple RFR is the subject of a Benchmark Transition Event, on such day and (2) any RFR Revolving Loan shall on and from such day be converted by the Administrative Agent to, and shall constitute an ABR Revolving Loan.

SECTION 2.12. Increased Costs.

(a) If any Change in Law shall:

(i) impose, modify or deem applicable any reserve, special deposit, liquidity or similar requirement (including any compulsory loan requirement, insurance charge or other assessment) against assets of, deposits with or for the account of, or credit extended by, any Lender;

(ii) impose on any Lender or the relevant interbank market any other condition, cost or expense (in each case, other than Taxes) affecting this Agreement or Revolving Loans made by such Lender; or

(iii) subject any Recipient to any Taxes (other than (A) Indemnified Taxes, (B) Taxes described in clauses (b) through (c) of the definition of Excluded Taxes and (C) Connection Income Taxes) on its loans, loan principal, letters of credit, commitments, or other obligations, or its deposits, reserves, other liabilities or capital attributable thereto;

and the result of any of the foregoing shall be to increase the cost to such Lender or such other Recipient of making, continuing, converting into or maintaining any Revolving Loan or of maintaining its obligation to make any such Revolving Loan or to reduce the amount of any sum received or receivable by such Lender or such other Recipient hereunder, whether of principal, interest or otherwise, then the Borrower will pay to such Lender or such other Recipient, as the case may be, such additional amount or amounts as will compensate such Lender or such other Recipient, as the case may be, for such additional costs incurred or reduction suffered.

(b) If any Lender determines that any Change in Law regarding capital or liquidity requirements has or would have the effect of reducing the rate of return on such Lender's capital or on the capital of such Lender's holding company, if any, as a consequence of this Agreement or the Revolving Loans made by such Lender to a level below that which such Lender or such Lender's holding company could have achieved but for such Change in Law (taking into consideration such Lender's policies and the policies of such Lender's holding company with respect to capital adequacy and liquidity), then from time to time the Borrower will pay to such Lender, such additional amount or amounts as will compensate such Lender or such Lender's holding company for any such reduction suffered.

(c) A certificate of a Lender setting forth the amount or amounts necessary to compensate such Lender or its holding company, as the case may be, as specified in paragraph (a) or (b) of this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within ten (10) days after receipt thereof.

(d) Failure or delay on the part of any Lender to demand compensation pursuant to this Section shall not constitute a waiver of such Lender's right to demand such compensation; provided that the Borrower shall not be required to compensate a Lender pursuant to this Section for any increased costs or reductions incurred more than 180 days prior to the date that such Lender notifies the Borrower of the Change in Law giving rise to such increased costs or reductions and of such Lender's intention to claim compensation therefor; provided further that, if the Change in Law giving rise to such increased costs or reductions is retroactive, then the 180-day period referred to above shall be extended to include the period of retroactive effect thereof.

SECTION 2.13. Reserved.

SECTION 2.14.Taxes.

(a) Payments Free of Taxes. Any and all payments by or on account of any obligation of any Loan Party under any Loan Document shall be made without deduction or withholding for any Taxes, except as required by applicable law. If any applicable law (as determined in the good faith discretion of an applicable Withholding Agent) requires the deduction or withholding of any Tax from any such payment by a Withholding Agent, then the applicable Withholding Agent shall be entitled to make such deduction or withholding and shall timely pay the full amount deducted or withheld to the relevant Governmental Authority in accordance with applicable law and, if such Tax is an Indemnified Tax, then the sum payable by the applicable Loan Party shall be increased as necessary so that after such deduction or withholding has been made (including such deductions and withholdings of Indemnified Taxes applicable to additional sums payable under this Section 2.14) the applicable Recipient receives an amount equal to the sum it would have received had no such deduction or withholding been made.

(b) Payment of Other Taxes by the Borrower. The Borrower shall timely pay to the relevant Governmental Authority in accordance with applicable law, or at the option of the Administrative Agent timely reimburse it for, Other Taxes.

(c) Evidence of Payments. As soon as practicable after any payment of Taxes by any Loan Party to a Governmental Authority pursuant to this Section 2.14, such Loan Party shall deliver to the Administrative Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to the Administrative Agent. On or prior to the last Business Day in February of each calendar year, Borrower shall deliver to the Administrative Agent (for distribution to Lenders) a duly completed IRS Form 1042-S (Copies B, C and D marked for recipient) or any amended or successor version of such form, together with a copy of IRS Form 1042-S (Copy A marked for United States Internal Revenue Service) or any amended or successor version of such form, as filed with the United States Internal Revenue Service by Borrower, stamped as received by the United States Internal Revenue Service or certified as a true copy by an officer of Borrower, and such other supporting documentation evidencing the withholding Tax paid by any Loan Party for the immediately preceding calendar year that Administrative Agent and Lenders may reasonably require to claim a tax credit (including any further certification by an officer of Borrower). Each such IRS Form 1042-S (or any amended or successor version of such form) and other supporting documentation, as applicable, shall specify at least the following information: (A) the name of the taxpayer, (B) the particulars of the income for such immediately preceding calendar year, and (C) the amount of the withholding Tax paid for such immediately preceding calendar year.

(d) Indemnification by the Loan Parties. The Loan Parties shall jointly and severally indemnify each Recipient, within ten (10) days after demand therefor, for the full amount of any Indemnified Taxes (including Indemnified Taxes imposed or asserted on or attributable to amounts payable under this Section) payable or paid by such Recipient or required to be withheld or deducted from a payment to such Recipient and any reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to the Borrower by a Lender (with a copy to the Administrative Agent), or by the Administrative Agent on its own behalf or on behalf of a Lender, shall be conclusive absent manifest error.

(e) Indemnification by the Lenders. Each Lender shall severally indemnify the Administrative Agent, within ten (10) days after demand therefor, for (i) any Indemnified Taxes attributable to such Lender (but only to the extent that any Loan Party has not already indemnified the Administrative Agent for such Indemnified Taxes and without limiting the obligation of the Loan Parties to do so), (ii) any Taxes attributable to such Lender's failure to comply with the provisions of Section 9.04(c) relating to the maintenance of a Participant Register and (iii) any Excluded Taxes attributable to such Lender, in each case, that are payable or paid by the Administrative Agent in connection with any Loan Document, and any reasonable expenses arising therefrom or with respect thereto, whether or not such Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to any Lender by the Administrative Agent shall be conclusive absent manifest error. Each Lender hereby authorizes the Administrative Agent to set off and apply any and all amounts at any time owing to such Lender under any Loan Document or otherwise payable by the Administrative Agent to the Lender from any other source against any amount due to the Administrative Agent under this paragraph (e).

(f) Status of Lenders. Any Lender that is entitled to an exemption from or reduction of withholding Tax with respect to payments made under any Loan Document shall deliver to the Borrower and the Administrative Agent, at the time or times reasonably requested by the Borrower or the Administrative Agent, such properly completed and executed documentation reasonably requested by the Borrower or the Administrative Agent as will permit such payments to be made without withholding or at a reduced rate of withholding. In addition, any Lender, if reasonably requested by the Borrower or the Administrative Agent, shall deliver such other documentation prescribed by applicable law or reasonably requested by the Borrower or the Administrative Agent as will enable the Borrower or the Administrative Agent to determine whether or not such Lender is subject to backup withholding or information reporting requirements. Notwithstanding anything to the contrary in the preceding two sentences, the completion, execution and submission of such documentation (other than such documentation set forth in Section 2.14(f)(i)(A), 2.14(f)(i)(B) and 2.14(f)(i)(D) below) shall not be required if in the Lender's reasonable judgment such completion, execution or submission would subject such Lender to any material unreimbursed cost or expense or would materially prejudice the legal or commercial position of such Lender.

(ii) Without limiting the generality of the foregoing:

(A) any Lender that is a U.S. Person shall deliver to the Borrower and the Administrative Agent on or prior to the date on which such Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower or the Administrative Agent), executed originals of IRS Form W-9 certifying that such Lender is exempt from U.S. Federal backup withholding tax;

(B) any Foreign Lender shall, to the extent it is legally entitled to do so, deliver to the Borrower and the Administrative Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Foreign Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower or the Administrative Agent), whichever of the following is applicable:

(1) in the case of a Foreign Lender claiming the benefits of an income tax treaty to which the United States is a party (x) with respect to payments of interest under any Loan Document, executed originals of IRS Form W- 8BEN or IRS Form W-8BEN-E establishing an exemption from, or reduction of, U.S. Federal withholding Tax pursuant to the "interest" article of such tax treaty and (y) with respect to any other applicable payments under any Loan Document, IRS Form W-8BEN or IRS Form W-8BEN-E establishing an exemption from, or reduction of, U.S. Federal withholding Tax pursuant to the "business profits" or "other income" article of such tax treaty;

(2) in the case of a Foreign Lender claiming that its extension of credit will generate U.S. effectively connected income, executed originals of IRS Form W-8ECI;

(3) in the case of a Foreign Lender claiming the benefits of the exemption for portfolio interest under Section 881(c) of the Code, (x) a certificate substantially in the form of Exhibit C-1 to the effect that such Foreign Lender is not a "bank" within the meaning of Section 881(c)(3)(A) of the Code, a "10 percent shareholder" of the Borrower within the meaning of Section 881(c)(3)(B) of the Code, or a "controlled foreign corporation" described in Section 881(c)(3)(C) of the Code (a "U.S. Tax Compliance Certificate") and (y) executed originals of IRS Form W-8BEN or IRS Form W-8BEN-E; or

(4) to the extent a Foreign Lender is not the beneficial owner, executed originals of IRS Form W-8IMY, accompanied by IRS Form W-8ECI, IRS Form W-8BEN or IRS Form W-8BEN-E, a U.S. Tax Compliance Certificate substantially in the form of Exhibit C-2 or Exhibit C-3, IRS Form W-9, and/or other certification documents from each beneficial owner, as applicable; provided that if the Foreign Lender is a partnership and one or more direct or indirect partners of such Foreign Lender are claiming the portfolio interest exemption, such Foreign Lender may provide a U.S. Tax Compliance Certificate substantially in the form of Exhibit C-4 on behalf of each such direct and indirect partner;

(C) any Foreign Lender shall, to the extent it is legally entitled to do so, deliver to the Borrower and the Administrative Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Foreign Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower or the Administrative Agent), executed originals of any other form prescribed by applicable law as a basis for claiming exemption from or a reduction in U.S. Federal withholding Tax, duly completed, together with such supplementary documentation as may be prescribed by applicable law to permit the Borrower or the Administrative Agent to determine the withholding or deduction required to be made; and

(D) if a payment made to a Lender under any Loan Document would be subject to U.S. Federal withholding Tax imposed by FATCA if such Lender were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such Lender shall deliver to the Borrower and the Administrative Agent at the time or times prescribed by law and at such time or times reasonably requested by the Borrower or the Administrative Agent such documentation prescribed by applicable law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by the Borrower or the Administrative Agent as may be necessary for the Borrower and the Administrative Agent to comply with their obligations under FATCA and to determine that such Lender has complied with such Lender's obligations under FATCA or to determine the amount to deduct and withhold from such payment. Solely for purposes of this clause (D), "FATCA" shall include any amendments made to FATCA after the date of this Agreement.

Each Lender agrees that if any form or certification it previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such form or certification or promptly notify the Borrower and the Administrative Agent in writing of its legal inability to do so.

(g) Treatment of Certain Refunds. If any party determines, in its sole discretion exercised in good faith, that it has received a refund of any Taxes as to which it has been indemnified pursuant to this Section 2.14 (including by the payment of additional amounts pursuant to this Section 2.14), it shall pay to the indemnifying party an amount equal to such refund (but only to the extent of indemnity payments made under this Section 2.14 with respect to

the Taxes giving rise to such refund), net of all out-of-pocket expenses (including Taxes) of such indemnified party and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund). Such indemnifying party, upon the request of such indemnified party, shall repay to such indemnified party the amount paid over pursuant to this paragraph (g) (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) in the event that such indemnified party is required to repay such refund to such Governmental Authority. Notwithstanding anything to the contrary in this paragraph (g), in no event will the indemnified party be required to pay any amount to an indemnifying party pursuant to this paragraph (g) the payment of which would place the indemnified party in a less favorable net after- Tax position than the indemnified party would have been in if the Tax subject to indemnification and giving rise to such refund had not been deducted, withheld or otherwise imposed and the indemnification payments or additional amounts with respect to such Tax had never been paid. This paragraph shall not be construed to require any indemnified party to make available its Tax returns (or any other information relating to its Taxes that it deems confidential) to the indemnifying party or any other Person.

(h) Survival. Each party's obligations under this Section 2.14 shall survive the resignation or replacement of the Administrative Agent or any assignment of rights by, or the replacement of, a Lender, the termination of the Commitments and the repayment, satisfaction or discharge of all obligations under any Loan Document.

(i) Defined Terms. For purposes of this Section 2.14, the term "applicable law" includes FATCA.

SECTION 2.15. Payments Generally; Allocations of Proceeds; Pro Rata Treatment; Sharing of Set-offs .

(a) The Borrower shall make each payment required to be made by it hereunder (whether of principal, interest or fees, or of amounts payable under Section 2.12 or 2.14, or otherwise) prior to 12:00 noon, New York City time, on the date when due, in immediately available funds, without set-off or counterclaim. Any amounts received after such time on any date may, in the discretion of the Administrative Agent, be deemed to have been received on the next succeeding Business Day for purposes of calculating interest thereon. All such payments shall be made to the Administrative Agent's account most recently designated by it to the Borrower, except that payments pursuant to Sections 2.08(c), 2.12, 2.14 and 9.03 shall be made directly to the Persons entitled thereto. The Administrative Agent shall distribute any such payments received by it for the account of any other Person to the appropriate recipient promptly following receipt thereof. If any payment hereunder shall be due on a day that is not a Business Day, the date for payment shall be extended to the next succeeding Business Day, and, in the case of any payment accruing interest and fees, interest and fees thereon shall be payable for the period of such extension. All payments hereunder shall be made in Dollars.

(b) If at any time insufficient funds are received by and available to the Administrative Agent to pay fully all amounts of principal, interest and fees then due, and expenses then reimbursable, hereunder, such funds shall be applied towards payment of the amounts then so due or reimbursable as follows:

(i) first, to payment or reimbursement of that portion of the Obligations constituting fees, expenses, indemnities and other amounts payable to the Administrative Agent in its capacity as such;

(ii) second, ratably to payment or reimbursement of that portion of the Obligations constituting fees, expenses, indemnities and other amounts (other than principal, interest and premium) payable to the Lenders;

(iii) third, ratably to payment of accrued interest on the Revolving Loans;

(iv) fourth, ratably to payment of principal on the Revolving Loans;

(v) fifth, ratably to the payment of any other Obligations.

(c) If any Lender shall, by exercising any right of set-off or counterclaim or otherwise, obtain payment in respect of any principal of or interest on any of its Revolving Loans resulting in such Lender receiving payment of a greater proportion of the aggregate amount of its Revolving Loans and accrued interest thereon than the proportion received by any other similarly situated Lender, then the Lender receiving such greater proportion shall purchase (for cash at face value) participations in the Revolving Loans of other Lenders to the extent necessary so that the benefit of all such payments shall be shared by all such Lenders ratably in accordance with the aggregate amount of principal of and accrued interest on their respective Revolving Loans; provided that (i) if any such participations are purchased and all or any portion of the payment giving rise thereto is recovered, such participations shall be rescinded and the purchase price restored to the extent of such recovery, without interest, and (ii) the provisions of this paragraph shall not be construed to apply to any payment made by the Borrower pursuant to and in accordance with the express terms of this Agreement or any payment obtained by a Lender as consideration for the assignment of or sale of a participation in any of its Revolving Loans to any assignee or participant, other than to the Borrower or any Subsidiary or Affiliate thereof (as to which the provisions of this paragraph shall apply). The Borrower consents to the foregoing and agrees, to the extent it may effectively do so under applicable law, that any Lender acquiring a participation pursuant to the foregoing arrangements may exercise against the Borrower rights of set-off and counterclaim with respect to such participation as fully as if such Lender were a direct creditor of the Borrower in the amount of such participation.

(d) Unless the Administrative Agent shall have received written notice from the Borrower prior to the date on which any payment is due to the Administrative Agent for the account of the relevant Lenders hereunder that the Borrower will not make such payment, the Administrative Agent may assume that the Borrower has made such payment on such date in accordance herewith and may (but will not be obligated to), in reliance upon such assumption, distribute to the relevant Lenders the amount due. In such event, if the Borrower has not in fact made such payment, then each of the relevant Lenders severally agrees to repay to the Administrative Agent forthwith on demand the amount so distributed to such Lender with interest thereon, for each day from and including the date such amount is distributed to it to but excluding the date of payment to the Administrative Agent, at the greater of the Federal

Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation.

(e) If any Lender shall fail to make any payment required to be made by it pursuant to Section 2.04(b), 2.15(d) or 9.03(c), then the Administrative Agent may, in its discretion (notwithstanding any contrary provision hereof), (i) apply any amounts thereafter received by the Administrative Agent for the account of such Lender and for the benefit of the Administrative Agent to satisfy such Lender's obligations to it under such Section until all such unsatisfied obligations are fully paid and/or (ii) hold any such amounts in a segregated account over which the Administrative Agent shall have exclusive control as cash collateral for, and application to, any future funding obligations of such Lender under any such Section; in the case of each of clauses (i) and (ii) above, in any order as determined by the Administrative Agent in its discretion.

SECTION 2.16. Mitigation Obligations; Replacement of Lenders.

(a) If any Lender requests compensation under Section 2.12, or the Borrower is required to pay any Indemnified Taxes or additional amounts to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.14, then such Lender shall (at the request of the Borrower) use reasonable efforts to designate a different lending office for funding or booking its Revolving Loans hereunder or to assign its rights and obligations hereunder to another of its offices, branches or Affiliates, if, in the judgment of such Lender, such designation or assignment (i) would eliminate or reduce amounts payable pursuant to Section 2.12 or 2.14, as the case may be, in the future and (ii) would not subject such Lender to any unreimbursed cost or expense and would not otherwise be disadvantageous to such Lender. The Borrower hereby agrees to pay all reasonable costs and expenses incurred by any Lender in connection with any such designation or assignment.

(b) If any Lender is a Defaulting Lender or a Non-Consenting Lender, then the Borrower may, at its sole expense and effort, upon notice to such Lender and the Administrative Agent, require such Lender to assign and delegate, without recourse (in accordance with and subject to the restrictions contained in Section 9.04), all of its interests, rights (other than its existing rights to payments pursuant to Sections 2.12 or 2.14) and obligations under the Loan Documents to an assignee that shall assume such obligations (which assignee may be another Lender, if a Lender accepts such assignment); provided that (i) the Borrower shall have received the prior written consent of the Administrative Agent, which consent shall not unreasonably be withheld, (ii) the Borrower shall have paid to the Administrative Agent the assignment fee (if any) specified in Section 9.04(b)(ii)(C), (iii) such Lender shall have received payment of an amount equal to the outstanding principal of its Revolving Loans, accrued interest thereon, accrued fees and all other amounts payable to it hereunder and under the other Loan Documents, from the assignee (to the extent of such outstanding principal and accrued interest and fees) or the Borrower (in the case of all other amounts), (iv) such assignment does not conflict with applicable law, and (v) in the case of any assignment resulting from a Lender becoming a Non-Consenting Lender, the applicable assignee shall have consented to the applicable amendment, waiver or consent. A Lender shall not be required to make any such assignment and delegation if, prior thereto, as a result of a waiver by such Lender or otherwise, the circumstances entitling the Borrower to require such assignment and delegation cease to apply. Notwithstanding anything in this Section 2.16 to the contrary, the Lender that acts as the Administrative Agent may not be replaced hereunder except in accordance with the terms of Section 8.05.

SECTION 2.17. Defaulting Lenders. Notwithstanding any provision of this Agreement to the contrary, if any Lender becomes a Defaulting Lender, then the following provisions shall apply for so long as such Lender is a Defaulting Lender:

(a) the Credit Exposure of such Defaulting Lender shall not be included in determining whether the Required Lenders have taken or may take any action hereunder (including any consent to any amendment, waiver or other modification pursuant to Section 9.02); provided that, except as otherwise provided in Section 9.02, this clause (a) shall not apply to the vote of a Defaulting Lender in the case of an amendment, waiver or other modification requiring the consent of such Lender or each Lender directly affected thereby; and

(b) any payment of principal, interest, fees or other amounts received by the Administrative Agent for the account of such Defaulting Lender (whether voluntary or mandatory, at maturity, pursuant to Article VII or otherwise) or received by the Administrative Agent from a Defaulting Lender pursuant to Section 9.08 shall be applied at such time or times as may be determined by the Administrative Agent as follows: *first*, to the payment of any amounts owing by such Defaulting Lender to the Administrative Agent hereunder; *second*, as the Borrower may request (so long as no Default or Event of Default exists), to the funding of any Revolving Loan in respect of which such Defaulting Lender has failed to fund its portion thereof as required by this Agreement, as determined by the Administrative Agent; *third*, if so determined by the Administrative Agent and the Borrower, to be held in a deposit account and released pro rata in order to satisfy such Defaulting Lender's potential future funding obligations with respect to Revolving Loans under this Agreement; *fourth*, to the payment of any amounts owing to the Lenders as a result of any judgment of a court of competent jurisdiction obtained by any Lender against such Defaulting Lender as a result of such Defaulting Lender's breach of its obligations under this Agreement; *fifth*, so long as no Default or Event of Default exists, to the payment of any amounts owing to the Borrower as a result of any judgment of a court of competent jurisdiction obtained by the Borrower against such Defaulting Lender as a result of such Defaulting Lender's breach of its obligations under this Agreement; and *sixth*, to such Defaulting Lender or as otherwise directed by a court of competent jurisdiction; provided that if (x) such payment is a payment of the principal amount of any Revolving Loans in respect of which such Defaulting Lender has not fully funded its appropriate share, and (y) such Revolving Loans were made at a time when the conditions set forth in Section 4.02 were satisfied or waived, such payment shall be applied solely to pay the Revolving Loans of all Non-Defaulting Lenders on a pro rata basis prior to being applied to the payment of any Revolving Loans of such Defaulting Lender until such time as all Revolving Loans are held by the Lenders pro rata in accordance with the Commitments. Any payments, prepayments or other amounts paid or payable to a Defaulting Lender that are applied (or held) to pay amounts owed by a Defaulting Lender pursuant to this Section shall be deemed paid to and redirected by such Defaulting Lender, and each Lender irrevocably consents hereto.

If the Borrower and the Administrative Agent agree in writing that a Lender is no longer a Defaulting Lender, the Administrative Agent will so notify the parties hereto, whereupon as of the effective date specified in such notice and subject to any conditions set forth therein, that Lender will, to the extent applicable, purchase at par that portion of outstanding Revolving Loans of the other Lenders or take such other actions as the Administrative Agent may determine to be necessary to cause the Revolving Loans to be held pro rata by the Lenders in accordance with the Commitments, whereupon, such Lender will cease to be a

Defaulting Lender; provided that no adjustments will be made retroactively with respect to fees accrued or payments made by or on behalf of the Borrower while that Lender was a Defaulting Lender; and provided, further, that except to the extent otherwise expressly agreed by the affected parties, no change hereunder from Defaulting Lender to Lender will constitute a waiver or release of any claim of any party hereunder arising from that Lender's having been a Defaulting Lender.

SECTION 2.18. Break Funding Payments. In the event of (a) the payment of any principal of any Term Benchmark Loan other than on the last day of an Interest Period applicable thereto (including as a result of an Event of Default or an optional or mandatory prepayment of Revolving Loans), (b) the conversion of any Term Benchmark Loan other than on the last day of the Interest Period applicable thereto, (c) the failure to borrow or prepay any Term Benchmark Loan on the date specified in any notice delivered pursuant hereto (regardless of whether such notice may be revoked under Section 2.08 and is revoked in accordance therewith), or (d) the assignment of any Term Benchmark Loan other than on the last day of the Interest Period applicable thereto as a result of a request by the Borrower pursuant to Section 2.16 then, in any such event, the Borrower shall compensate each Lender for the loss, cost and expense attributable to such event. A certificate of any Lender setting forth any amount or amounts that such Lender is entitled to receive pursuant to this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within 10 days after receipt thereof.

ARTICLE III

Representations and Warranties

The Borrower represents and warrants to the Lenders that:

SECTION 3.01. Organization; Powers; Subsidiaries. The Borrower and its Subsidiaries are duly organized, validly existing and in good standing under the laws of the jurisdiction of their organization, have all requisite power and authority to carry on their business as now conducted and, except where the failure to do so, individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect, is qualified to do business in, and is in good standing in, every jurisdiction where such qualification is required. As of the Effective Date, Schedule 3.01 hereto identifies the Borrower and each Subsidiary of the Borrower, the jurisdiction of its incorporation or organization, as the case may be, the percentage of issued and outstanding shares of each class of its capital stock or other equity interests owned by the equity holders of the Borrower, the Borrower and the other Subsidiaries of the Borrower and, if such percentage is not 100% (excluding directors' qualifying shares as required by law), a description of each class issued and outstanding. All of the outstanding shares of capital stock and other equity interests of the Borrower and each Subsidiary of the Borrower are validly issued and outstanding and fully paid and nonassessable and, as of the Effective Date, all such shares and other equity interests indicated on Schedule 3.01 as owned by the equity holders of the Borrower, the Borrower or another Subsidiary of the Borrower are owned, beneficially and of record, by such equity holders of the Borrower, the Borrower or such Subsidiary free and clear of all Liens. As of the Effective Date, each Subsidiary of the Borrower is a Guarantor.

SECTION 3.02. Authorization; Enforceability. (a) The Transactions are within each Loan Party's organizational powers and (b) the Loan Documents are admissible in evidence in each court with proper jurisdiction over the relevant Loan Parties, and each of the foregoing clauses (a) and (b) have been duly authorized by all necessary organizational actions and, if required, actions by equity holders. The Loan Documents to which each Loan Party is a party have been duly executed and delivered by such Loan Party and constitute a legal, valid and binding obligation of such Loan Party, enforceable in accordance with its terms, subject to applicable bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights generally and subject to general principles of equity, regardless of whether considered in a proceeding in equity or at law.

SECTION 3.03. Governmental Approvals; No Conflicts. The Transactions (a) do not require any consent or approval of, registration or filing with, or any other material action by, any Governmental Authority, except such as have been obtained or made and are in full force and effect (b) will not violate any applicable material Governmental Requirement or the Organizational Documents of the Borrower or any of its Subsidiaries, (c) will not violate or result in a default under any indenture, agreement or other instrument in respect of any Material Indebtedness binding upon the Borrower or any of its Subsidiaries or its assets (other than the Loan Documents), or give rise to a right thereunder to require any payment to be made by the Borrower or any of its Subsidiaries, and (d) will not result in the creation or imposition of any Lien on any asset of the Borrower or any of its Subsidiaries.

SECTION 3.04. Financial Condition; No Material Adverse Change.

(a) All financial statements present fairly, in all material respects, the financial position and results of operations and cash flows of the Borrower and its Consolidated Subsidiaries as of such dates and for such periods in accordance with GAAP.

(b) Since December 31, 2021, there has been no material adverse change in the business, operations, Properties, liabilities or financial condition of the Borrower and its Subsidiaries, taken as a whole.

SECTION 3.05.Maintenance of Properties. Except for such acts or failures to act as could not reasonably be expected to have a Material Adverse Effect, with respect to the Proved Oil and Gas Properties (and Properties unitized therewith) of the Loan Parties (a) operated by the Borrower or any of its Subsidiaries, such Properties have been maintained, operated and developed in a good and workmanlike manner and in conformity with all Governmental Requirements and in conformity with the provisions of all leases, subleases or other contracts comprising a part of the Hydrocarbon Interests and other contracts and agreements forming a part of such Oil and Gas Properties or (b) operated by any third party, the Borrower and each other Loan Party have used their respective commercially reasonable efforts to cause such Properties to be so maintained, operated and developed. Specifically in connection with the foregoing, except for those as could not be reasonably expected to have a Material Adverse Effect, (i) none of such Oil and Gas Properties of the Loan Parties is subject to having allowable production reduced below the full and regular allowable (including the maximum permissible tolerance) because of any overproduction (whether or not the same was permissible at the time) and (ii) no well comprising a part of such Oil and Gas Properties (or Properties unitized

therewith) of the Loan Parties is in violation of applicable Governmental Requirements, and such wells are producing from, and the well bores are wholly within, such Oil and Gas Properties (or in the case of wells located on Properties unitized therewith, such unitized Properties). All pipelines, wells, gas processing plants, platforms and other material improvements, fixtures and equipment owned in whole or in part by the Loan Parties that are necessary to conduct normal operations are being, or in the case of such pipelines, wells, gas processing plants, platforms and other material improvements, fixtures and equipment the maintenance of which is performed by a third-party operator, the Borrower and each other Loan Party is using commercially reasonable efforts to cause such items to be, and to the Borrower's knowledge such items are, maintained in a state adequate to conduct normal operations (other than those the failure of which to maintain in accordance with this Section 3.05, individually or in the aggregate, could not reasonably be expected to have a Material Adverse Effect).

SECTION 3.06. Litigation and Environmental Matters.

(a) There are no investigations by or before any arbitrator or Governmental Authority pending against, actions, suits, proceedings or, to the knowledge of the Borrower, threatened in writing against or affecting the Borrower or any of its Subsidiaries (i) that could reasonably be expected, individually or in the aggregate, to result in a Material Adverse Effect, (ii) that challenge the validity of any of the Loan Documents or (iii) that could affect a material portion of the Properties of Borrower or any of its Subsidiaries when taken as a whole.

(b) Except for such matters as set forth on Schedule 3.06 or that, individually or in the aggregate, could not reasonably be expected to have a Material Adverse Effect:

(i) the Properties of the Borrower and its Subsidiaries are in compliance with all applicable Environmental Laws, the Borrower and its Subsidiaries have operated their respective Properties in compliance with all applicable Environmental Laws, and to the knowledge of the Borrower, such Properties were operated in compliance with applicable Environmental Laws prior to the acquisition thereof by the Borrower or the applicable Subsidiary;

(ii) the Borrower and its Subsidiaries have obtained all Environmental Permits required for their respective operations and each of their Properties, with all such Environmental Permits being currently in full force and effect, and none of Borrower or any other Subsidiary has received any written notice or otherwise has knowledge that any such existing Environmental Permit will be revoked or that any application for any new Environmental Permit or renewal of any existing Environmental Permit will be protested or denied;

(iii) there are no claims, written demands, suits, orders, investigations, requests for information by a Governmental Authority or proceedings concerning any violation of, or any liability (including as a potentially responsible party) under, any applicable Environmental Law that is pending or, to the knowledge of the Borrower, threatened against the Borrower or any of its Subsidiaries arising from the ownership or operation of their respective Properties, and to the knowledge of the Borrower, there are no conditions or circumstances that are reasonably expected to result in the receipt of such claims, written demands, suits, orders, investigations, requests for information or proceedings;

(iv) to the knowledge of the Borrower, none of the Properties of the Borrower or any Subsidiary contain any: (i) regulated underground storage tanks; (ii) friable asbestos-containing materials; (iii) landfills or dumps; (iv) hazardous waste management units as defined pursuant to the Resource Conservation and Recovery Act of 1976 or any comparable state law; or (v) sites on or nominated for the National Priority List promulgated pursuant to CERCLA or any state remedial priority list promulgated or published pursuant to any comparable state law;

(v) since the acquisition by the Borrower or any Subsidiary of any Property, or to the knowledge of the Borrower prior to such acquisition, there has been no Release or threatened Release at any of the Properties of the Borrower and its Subsidiaries that would reasonably be expected to result in liability to, or require Remedial Work by, the Borrower or any of its Subsidiaries at any such Properties pursuant to applicable Environmental Law; and there is no on- going Remedial Work at any of such Properties;

(vi) neither the Borrower nor any of its Subsidiaries has received any written notice asserting the alleged liability or obligation of the Borrower or any of its Subsidiaries under any applicable Environmental Laws with respect to the presence of Hazardous Materials at, under or Released or threatened to be Released from any Properties offsite the Properties of the Borrower and its Subsidiaries; and

(vii) to the knowledge of the Borrower, there has been no exposure of any Person or Property to any Hazardous Materials as a result of the operations of any of the Properties of the Borrower and its Subsidiaries that would reasonably be expected to result in damages or compensation against the Borrower or any of its Subsidiaries.

(c) Except as individually or in the aggregate would not reasonably be expected to have a Material Adverse Effect, there are no strikes, lockouts or slowdowns against the Borrower or any of its Subsidiaries pending or, to their knowledge, threatened in writing. Except as individually or in the aggregate would not reasonably be expected to have a Material Adverse Effect, the hours worked by and payments made to employees of the Borrower and its Subsidiaries have not been in violation of the Fair Labor Standards Act or any other applicable Federal, state, local or foreign law relating to such matters. Except as individually or in the aggregate would not reasonably be expected to have a Material Adverse Effect, all payments due from the Borrower or any of its Subsidiaries, or for which any claim may be made against the Borrower or any of its Subsidiaries, on account of wages and employee health and welfare insurance and other benefits, have been paid or accrued as liabilities on the books of the Borrower or such Subsidiary. The consummation of the Transactions will not give rise to any right of termination or right of renegotiation on the part of any union under any collective bargaining agreement under which the Borrower or any of its Subsidiaries is bound except as individually or in the aggregate would not reasonably be expected to have a Material Adverse Effect.

SECTION 3.07.Compliance with Laws and Agreements. Each of the Borrower and its Subsidiaries is in compliance with all Governmental Requirements applicable to it or its Property and all indentures, agreements and other instruments binding upon it or its Property, and possesses all licenses, permits, franchises, exemptions, approvals and other governmental authorizations necessary for the ownership of its Property and the conduct of its business, except in each case where the failure to do so, individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect.

SECTION 3.08.Investment Company Status. Neither the Borrower nor any of its Subsidiaries is an "investment company" as defined in, or subject to regulation under, the Investment Company Act of 1940.

SECTION 3.09. Taxes.

(a) Each of the Borrower and its Subsidiaries has timely filed or caused to be filed all material Tax returns and reports required to have been filed and has paid or caused to be paid all material Taxes required to have been paid by it except Taxes that are being contested in good faith by appropriate proceedings and for which the Borrower or such Subsidiary, as applicable, has set aside on its books adequate reserves in accordance with GAAP (to the extent required by GAAP).

(b) Under the laws of the country of Thailand, it is not necessary that any of the Loan Documents be filed, recorded or enrolled with any court or other authority in that jurisdiction or that any stamp, registration or similar tax be paid on or in relation the Loan Documents other than a stamp duty of Baht 10,000 payable on an executed copy of this Agreement (and a stamp duty of Baht 5 for each counterparty thereof) which must be paid within fifteen (15) days of execution if executed in Thailand or within 30 days of the original being taken into Thailand if executed outside Thailand.

SECTION 3.10.ERISA. No ERISA Event has occurred or is reasonably expected to occur that, when taken together with all other such ERISA Events, could reasonably be expected to result in a Material Adverse Effect.

SECTION 3.11. Disclosure. None of the reports, financial statements, certificates or other written information (other than information of a general economic or industry specific nature) furnished by or on behalf of the Borrower or any of its Subsidiaries to the Administrative Agent or any Lender in connection with the negotiation of this Agreement or delivered hereunder or under any other Loan Document (as modified or supplemented by other information so furnished), taken as a whole, contains any material misstatement of fact or omits to state any material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not materially misleading; provided that, with respect to projected financial information, geological and geophysical data, engineering projections and other forward looking information, the Borrower represents only that such information was prepared in good faith based upon assumptions believed to be reasonable at the time (it being understood that such projections are as to future events and are not to be viewed as facts and are subject to significant uncertainties and contingencies, many of which are beyond the Borrower's control, and that no assurance can be given that such projections will be realized and actual results during the period or periods covered by any such projections may differ significantly from the projected results and such differences may be material and it being further understood that projections concerning volumes attributable to the Oil and Gas Properties of the Loan Parties and production and cost estimates contained in each Reserve Report are necessarily based upon professional opinions, estimates and projections and that the Loan Parties do not warrant that such opinions, estimates and projections will ultimately prove to have been accurate).

SECTION 3.12. Federal Reserve Regulations. No part of the proceeds of any Revolving Loan have been used or will be used, whether directly or indirectly, for any purpose that entails a violation of any of the Regulations of the Board, including Regulations T, U and X.

SECTION 3.13. Liens. There are no Liens on any of the Properties of the Borrower or any of its Subsidiaries except for Liens permitted by Section 6.02.

SECTION 3.14. No Default. No Default or Event of Default has occurred and is continuing.

SECTION 3.15.Indebtedness with Banpu. As of the Effective Date, there does not exist any Indebtedness owing to Banpu or any Affiliate thereof (including Banpu North America, but excluding the Borrower or any Subsidiary thereof) by the Borrower or any other Loan Party, other than (a) the Amended and Restated Shareholder Loans and (b) the loans made under the BKV-Temple Loan Agreement.

SECTION 3.16. Solvency. Immediately after the consummation of the Transactions to occur on the Effective Date and on the date of any Borrowing hereunder, the Borrower individually and the Borrower and its Subsidiaries, on a consolidated basis, are Solvent.

SECTION 3.17. Insurance. The Borrower maintains, and has caused each of its Subsidiaries to maintain, with financially sound and reputable insurance companies, insurance as required by Section 5.12 on all of their Property in such amounts, subject to such deductibles and self-insurance retentions and covering such Properties and risks as are adequate and customarily maintained by companies engaged in the same or similar businesses operating in the same or similar locations.

SECTION 3.18. Pari Passu Ranking. The obligations of each Loan Party under the Loan Documents to which it is a party rank at least equally with all of the unsecured and unsubordinated Indebtedness of such Loan Party, except liabilities mandatorily (and not consensually) preferred by law, and ahead of all subordinated indebtedness, if any, of such Loan Party.

SECTION 3.19. Anti-Corruption Laws; USA PATRIOT Act; Anti-Terrorism Laws and Sanctions.

(a) The Borrower has implemented and maintains in effect policies and procedures designed to ensure compliance by the Borrower, the Subsidiaries, BKV-BPP and their respective directors, officers, employees and agents with applicable Anti-Corruption Laws and applicable Sanctions.

(b) The Borrower, the Subsidiaries, BKV-BPP, their respective officers and employees and, to the knowledge of the Borrower, their respective directors and agents are in compliance with Anti-Corruption Laws and applicable Sanctions in all material respects and are not engaged in any activity that would reasonably be expected to result in any of the Borrower, the Subsidiaries or BKV-BPP being designated as a Sanctioned Person.

(c) None of (x) the Borrower, any Subsidiary, BKV-BPP or any of their respective directors, officers or employees, or (y) to the knowledge of the Borrower, any agent of the Borrower that will act in any capacity in connection with or benefit from the credit facility established hereby, is a

Sanctioned Person. The Borrower will not directly or indirectly use the proceeds from the Revolving Loans or lend, contribute or otherwise make available such proceeds to the Borrower, any Subsidiary, BKV-BPP, joint venture partner or other Person, for the purpose of financing the activities of any Person subject to any applicable Sanctions.

SECTION 3.20. Use of Proceeds. The Borrower will use the proceeds of the Revolving Loans solely for short-term working capital and operating needs, including earnout payments and Capital Expenditures (such as refrac, recompletion of producing wells, drilling and completion of new wells of Proved Reserves), but, in each case, excluding long term Capital Expenditures (such as exploration investments). No part of the proceeds of any Revolving Loan will be used, whether directly or indirectly, (x) for any purpose that entails a violation of any of the Regulations of the Board, including Regulations T, U and X or (y) to repay any Subordinated Shareholder Loan.

SECTION 3.21. Material Contracts. No Loan Party is in breach of any Material Contracts. Each Material Contract is enforceable in accordance with its terms, subject to applicable bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights generally and subject to general principles of equity, regardless of whether considered in a proceeding in equity or at law.

SECTION 3.22. Properties; Title; Etc.

(a) Each of the Loan Parties has defensible title (subject to Immaterial Title Deficiencies) to the Proved Oil and Gas Properties evaluated in the most recently delivered Reserve Report (except for those Properties that have been Disposed of since the date of such Reserve Report in accordance with this Agreement or leases which have expired in accordance with their terms). Each of the Loan Parties has good title to, or valid leasehold interests in, licenses of, or rights to use, all of its material personal Properties (except for those Properties that have been Disposed of from time to time after the Effective Date in accordance with this Agreement and any leases which have expired in accordance with their terms), free and clear of all Liens except for Permitted Liens. After giving full effect to such Permitted Liens, Immaterial Title Deficiencies, any Dispositions of Properties made after the Effective Date in accordance with this Agreement and any leases which have expired in accordance with their terms, the Loan Party specified as the owner owns the net interests in production attributable to the Hydrocarbon Interests as reflected in the most recently delivered Reserve Report (except for those Properties that have been Disposed of since the date of such Reserve Report in accordance with this Agreement or leases which have expired in accordance with their terms), and except as otherwise provided by statute, regulation or the provisions of any applicable joint operating agreement, unitization agreement or other similar agreement, the ownership of such Properties shall not in any material respect obligate such Loan Party to bear the costs and expenses relating to the maintenance, development and operations of each such Property in an amount in excess of the working interest of such Property set forth in the most recently delivered Reserve Report that is not offset by a corresponding proportionate increase in such Loan Party's net revenue interest in such Property.

(b) Except for matters that could not reasonably be expected to have a Material Adverse Effect, (i) all leases and agreements necessary for the conduct of the business of the Loan Parties are valid and subsisting and in full force and effect and (ii) there exists no default or event or circumstance which with the giving of notice or the passage of time or both would give rise to a default under any such lease or leases.

(c) Each Loan Party owns, or is licensed to use, all trademarks, tradenames, copyrights, patents and other intellectual Property used in its business except where any such failure to own or be licensed to use (including the granting of licenses), individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect, and the use thereof by such Loan Party does not infringe upon the rights of any other Person, except for any such infringements that, individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect. The Loan Parties either own or have valid licenses or other rights to use all databases, geological data, geophysical data, engineering data, seismic data, maps, interpretations and other technical information used in their businesses as presently conducted, subject to the limitations contained in the agreements governing the use of the same, which limitations are customary for companies engaged in the business of the exploration and production of Hydrocarbons, with such exceptions as could not reasonably be expected to have a Material Adverse Effect.

(d) All of the Properties of the Borrower and its Subsidiaries which are reasonably necessary for the operation of their businesses are in good working condition (ordinary wear and tear and casualty events excepted) and are maintained in accordance with prudent business standards.

SECTION 3.23. Gas Imbalances; Prepayments. On a net basis there are no gas imbalances, take-or-pay or other prepayments with respect to the Proved Oil and Gas Properties of the Loan Parties which would require any Loan Party to deliver Hydrocarbons either generally or produced from Oil and Gas Properties at some future date with a value of $5,000,000 or more, which, in the case of imbalances would be satisfied no later than forty five (45) days after being incurred.

SECTION 3.24. Marketing of Production. Except for contracts listed and in effect on the date hereof on Schedule 3.24, or thereafter either disclosed in writing to the Administrative Agent or included in the most recently delivered Reserve Report (with respect to all of which contracts the Borrower represents that it or another Loan Party is receiving a price for all production sold thereunder which is computed substantially in accordance with the terms of the relevant contract and are not having deliveries curtailed substantially below the Property's delivery capacity), no Loan Party is a party to a material agreement that is not cancelable on sixty (60) days' notice or less without penalty or detriment for the sale of production from the Loan Parties' Hydrocarbons (including calls on or other rights to purchase, production, whether or not the same are currently being exercised) that (a) pertains to the sale of production at a fixed price (excluding a fixed differential) and (b) has a maturity or expiry date of longer than six (6) months from the date of such disclosure or the date of such Reserve Report, as applicable.

SECTION 3.25. Swap Agreements. Schedule 3.25 sets forth a true and complete list of all Swap Agreements of the Loan Parties in effect as of the Effective Date, the material terms thereof (including the type, effective date, term or termination date and notional amounts or volumes), the estimated net mark to market value thereof, all credit support agreements relating thereto (including any margin required or supplied) and the counterparty to each such agreement, which such counterparty is an Approved Swap Counterparty.

SECTION 3.26. Ad Valorem and Severance Taxes. Except to the extent that the failure to pay or discharge would not reasonably be expected to result in a loss or forfeiture of any material Oil and Gas Property of the Loan Parties, each of the Loan Parties has paid and discharged all ad valorem Taxes that are payable and have been assessed against its Oil and Gas Properties or any part thereof and all production, severance and other Taxes that are payable and have been assessed against, or measured by, the production or the value, or proceeds, of the production therefrom, other than Taxes that are being contested in accordance with the provisions of Section 5.04.

SECTION 3.27.Beneficial Ownership Certification. As of the Effective Date, all of the information included in the Beneficial Ownership Certification, if applicable, is true and correct in all respects.

ARTICLE IV

Conditions

SECTION 4.01.Effective Date. The obligations of the Lenders to make Revolving Loans hereunder shall not become effective until the date on which each of the following conditions is satisfied (or waived in accordance with Section 9.02):

(a) Credit Agreement. The Administrative Agent shall have received from each party hereto counterparts (in such number as may be requested by the Administrative Agent) of:

(i) this Agreement signed on behalf of such party;

(ii) Notes executed by the Borrower in favor of each Lender, if any, which has requested Notes pursuant to Section 2.07(e), duly completed and dated the Effective Date; and

(iii) from each party thereto, counterparts (in such number as may be requested by the Administrative Agent) of the Guaranty Agreement signed on behalf of such party.

(b) Closing Certificates. The Administrative Agent shall have received each of the following in form and substance satisfactory to the Administrative Agent:

(i) Officer's Certificate. A certificate from a Responsible Officer of the Borrower, certifying that (A) the conditions specified in Sections 4.01(c) have been satisfied, (B) that either (i) all governmental, shareholder and third party consents, licenses and approvals required pursuant to Section 4.01(e)(i) have been received by the Loan Parties and are in full force and effect, or (ii) no such consents, licenses or approvals are so required and (C) as to the matters set forth in Section 4.01(e)(ii).

(ii) Secretary's Certificates. A certificate from the secretary of the Borrower and each other Loan Party (or if such Person does not have a secretary, a Responsible Officer) certifying as to the incumbency and genuineness of the signature of each Responsible Officer of such Person executing Loan Documents to which it is a party and certifying that attached thereto is a true, correct and complete copy of (A) the articles or certificate of incorporation (or equivalent) of such Person and all amendments thereto, certified as of a recent date by the appropriate Governmental Authority (to the extent available) in its jurisdiction of incorporation (or equivalent), (B) the bylaws or other governing document of such Person as in effect on the Effective Date (including all amendments thereto and such amendments as reasonably requested by the Administrative Agent), (C) resolutions duly adopted by the board of directors (or other governing body) of the Borrower authorizing and approving the transactions contemplated hereunder and the execution, delivery and performance of this Agreement and the other Loan Documents to which it is or will be a party, and (D) each certificate required to be delivered pursuant to Section 4.01(b)(iii).

(iii) Certificates of Good Standing. To the extent available, certificates as of a recent date as to the good standing of the Borrower and each other Loan Party under the laws of its jurisdiction of incorporation, (or equivalent) and, to the extent requested by the Administrative Agent, each other jurisdiction where the Borrower or such Loan Party owns Oil and Gas Properties or is qualified to do business and, to the extent available, a certificate of the relevant taxing authorities of such jurisdictions certifying that the Borrower has filed required tax returns and owes no delinquent taxes.

(c) Representations and Warranties; Defaults; Material Adverse Effect.

(i) The representations and warranties of the Borrower and the other Loan Parties set forth in this Agreement and the other Loan Documents shall be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) on and as of the Effective Date (although any representations and warranties which expressly relate to an earlier date shall be required only to be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) as of the specified earlier date).

(ii) At the time of and immediately after giving effect to the Transactions to occur on the Effective Date, no Default or Event of Default shall have occurred and be continuing.

(iii) Since December 31, 2021, there has not occurred any event, development or circumstance that has had, or could reasonably be expected to have, a Material Adverse Effect.

(d) Fee Letter. The Administrative Agent shall have received a fully executed Fee Letter.

(e) Consents; Proceedings.

(i) Governmental and Third Party Approvals. The Loan Parties shall have received all governmental, shareholder and third party consents, licenses and approvals necessary in connection with the transactions contemplated by this Agreement and the other Loan Documents, other than the Hart-Scott-Rodino Act.

(ii) No Injunction, Etc. No action, proceeding or investigation shall have been instituted, threatened or proposed before any Governmental Authority to enjoin, restrain or prohibit the execution and delivery by the Loan Parties of this Agreement or the other Loan Documents or the consummation of the transactions contemplated hereby or thereby.

(f) Opinion. The Administrative Agent shall have received a favorable opinion of counsel from Fox Rothschild LLP, special counsel to the Loan Parties, in form and substance satisfactory to the Administrative Agent. Such opinion shall be addressed to the Administrative Agent and the Lenders and shall expressly permit reliance by the permitted successors and assigns of the Administrative Agent and the Lenders.

(g) Lien Searches and Environmental Assessments.

(i) Lien Searches. The Administrative Agent shall have received the results of a recent Lien search (including a search as to judgments, bankruptcy and tax matters), in form and substance reasonably satisfactory to the Administrative Agent, in each of the jurisdictions or offices in which UCC financing statements or other filings or recordations (including mortgages) should be made to evidence or perfect security interests in the assets of each of the Loan Parties, indicating among other things that the assets of each such Loan Party are free and clear of any Lien (except for Permitted Liens).

(ii) Environmental Assessments. The Administrative Agent shall be satisfied with the environmental condition of the Oil and Gas Properties of the Loan Parties and shall have received copies of all existing environmental assessments and other environmental reports relating thereto.

(h) Property and Liability Insurance. The Administrative Agent shall have received, in each case in form and substance reasonably satisfactory to the Administrative Agent, evidence of property and liability insurance covering each Loan Party (with appropriate endorsements naming the Administrative Agent as "additional insured" on all policies for liability insurance) and the properties of the Loan Parties satisfying the requirements of Section 5.12, evidence of payment of all insurance premiums for the current policy year of each such policy, and if requested by the Administrative Agent, copies of such insurance policies.

(i) Financial Statements. The Administrative Agent shall have received the audited consolidated balance sheet and statements of income or operations, stockholders' equity and cash flows of the Borrower and its Consolidated Subsidiaries as of and for the Fiscal Year ended December 31, 2021, reported on by PricewaterhouseCoopers, independent public accountants.

(j) Initial Reserve Report. The Administrative Agent shall have received the Initial Reserve Report.

(k) Title. The Administrative Agent shall have received title information in form and substance reasonably satisfactory to the Administrative Agent with respect to the Oil and Gas Properties of the Loan Parties.

(l) Amended and Restated Shareholder Loan Agreements. The Administrative Agent shall have received true and correct copies of duly executed consents to each Amended and Restated Shareholder Loan Agreements to permit this Agreement and the Obligations, each in form and substance satisfactory to the Administrative Agent.

(m) Subordination Agreement. The Administrative Agent shall have received from each party thereto, fully executed counterparts of the Subordination Agreement.

(n) Solvency Certificate. The Borrower shall have delivered to the Administrative Agent a certificate in the form of Exhibit G.

(o) Miscellaneous.

(i) USA PATRIOT Act, Etc. Each Loan Party shall have provided to the Administrative Agent and the Lenders at least five (5) Business Days prior to the Effective Date the documentation and other information requested by the Administrative Agent or any Lender in order to comply with requirements of the USA PATRIOT Act and applicable "know your customer" and anti-money laundering rules and regulations, including but not limited to the Borrower's Form W-9. If the Borrower qualifies as a "legal entity customer" under the Beneficial Ownership Regulation, it shall have delivered to the Administrative Agent and directly to any Lender requesting the same, a Beneficial Ownership Certification at least ten Business Days prior to the Effective Date.

(ii) Other Documents. All opinions, certificates and other instruments and all proceedings in connection with the transactions contemplated by this Agreement shall be satisfactory in form and substance to the Administrative Agent. The Administrative Agent and the Lenders shall have received copies of all other documents, certificates and instruments reasonably requested thereby with respect to the transactions contemplated by this Agreement.

(iii) Payment of Fees; Expense Reimbursement. The Administrative Agent and the Lenders shall have received payment of all fees and other amounts due and payable on or prior to the Effective Date, including, to the extent invoiced at least one Business Day prior to the Effective Date (or otherwise set forth in a funds flow or similar statement approved by the Borrower), reimbursement or payment of all out-of-pocket expenses required to

be reimbursed or paid by the Loan Parties hereunder (including payment of the invoiced and reasonable documented fees, charges and out-of-pocket expenses of outside counsel to the Administrative Agent, plus such additional amounts of such fees, charges and disbursements as shall constitute its reasonable estimate of such fees, charges and disbursements incurred or to be incurred by it through the closing proceedings (provided that such estimate shall not thereafter preclude a final settling of accounts between the Borrower and the Administrative Agent)).

(iv) Due Diligence. The Administrative Agent and each Lender shall have completed its business due diligence investigation (including the receipt of any requested due diligence reports), and each Lender and the Administrative Agent and its counsel shall have completed all legal due diligence, in each case the results of which shall be satisfactory to each Lender and the Administrative Agent.

Without limiting the generality of the provisions of Article VIII, for purposes of determining compliance with the conditions specified in this Section 4.01, the Administrative Agent and each Lender that has signed this Agreement shall be deemed to have consented to, approved or accepted or to be satisfied with, each document or other matter required thereunder to be consented to or approved by or acceptable or satisfactory to a Lender unless the Administrative Agent shall have received notice from such Lender prior to the Effective Date specifying its objection thereto.

SECTION 4.02. Each Borrowing. The obligation of each Lender to make a Revolving Loan on the occasion of any Borrowing is subject to the satisfaction of the following conditions:

(a) The representations and warranties of the Borrower and the other Loan Parties set forth in this Agreement and the other Loan Documents shall be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) on and as of the date of such Borrowing (although any representations and warranties which expressly relate to an earlier date shall be required only to be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) as of the specified earlier date).

(b) At the time of and immediately after giving effect to such Borrowing, no Default or Event of Default shall have occurred and be continuing.

(c) The Administrative Agent shall have received a Borrowing Request in accordance with Section 2.03.

(d) The Administrative Agent shall have received all documents and/or invoices showing the proposed use of the proceeds of at least 90% of the requested Revolving Loan (all such documents or invoices to be in form and substance satisfactory to the Administrative Agent), such use of proceeds to be in accordance with Section 5.09.

(e) The Borrower shall have (i) delivered to the Administrative Agent a certificate (in form and substance satisfactory to the Administrative Agent) certifying as to (1) the Estimated Marketer Receivables Amount as of the date of the proposed Borrowing and (2) the condition in Section 4.02(f) and (ii) provided the Administrative Agent any reasonably requested information with respect to the calculation of the Marketer Receivables Amount.

(f) The Estimated Marketer Receivables Amount shall exceed the sum of (i) the aggregate principal amount of all outstanding Revolving Loans and (ii) the aggregate principal amount of the requested Borrowing.

Each Borrowing shall be deemed to constitute a representation and warranty by the Borrower and the other Loan Parties on the date thereof as to the matters specified in paragraphs (a), (b) and (f) of this Section 4.02.

ARTICLE V

Affirmative Covenants

From the Effective Date until Payment in Full, the Borrower covenants and agrees with the Lenders that:

SECTION 5.01.Financial Statements and Other Information. The Borrower will furnish to the Administrative Agent (for distribution to each Lender):

(a) within ninety (90) days after the end of each Fiscal Year of the Borrower (or, after a Qualified IPO, if earlier, by the date that the Annual Report on Form 10-K of the Borrower for such fiscal year would be required to be filed under the rules and regulations of the SEC, giving effect to any automatic extension available thereunder for the filing of such form) (commencing with the Fiscal Year ending December 31, 2022), (i) the audited consolidated balance sheet of the Borrower and its Consolidated Subsidiaries as of the end of such Fiscal Year and the related consolidated statements of income or operations, stockholders' equity and cash flows of the Borrower and its Consolidated Subsidiaries for such Fiscal Year, setting forth in each case in comparative form the figures for the previous Fiscal Year, all reported on by PricewaterhouseCoopers or other independent public accountants of recognized national standing or otherwise acceptable to the Administrative Agent (without a "going concern" or like qualification or exception and without any qualification or exception as to the scope of such audit) to the effect that such consolidated financial statements present fairly in all material respects the financial condition of the Borrower and its Consolidated Subsidiaries on a consolidated basis as of such date and the results of operations of the Borrower and its Consolidated Subsidiaries on a consolidated basis for such Fiscal Year, in each case in accordance with GAAP consistently applied and (ii) a narrative management discussion and analysis of the financial condition and results of operations of the Borrower and its Consolidated Subsidiaries for such Fiscal Year;

(b) within forty-five (45) days after the end of each of the first three Fiscal Quarters of each Fiscal Year of the Borrower (or, after a Qualified IPO, if earlier, by the date that the Quarterly Report on Form 10-Q of the Borrower for such fiscal quarter would be required to be filed under the rules and regulations of the SEC, giving effect to any automatic extension available thereunder for the filing of such form) (commencing with the Fiscal Quarter ending September 30, 2022), the unaudited consolidated balance sheet of the Borrower and its Consolidated Subsidiaries as of the end of such Fiscal Quarter and the related statements of income or operations, stockholders' equity and cash flows as of the end of and for such Fiscal Quarter and the then-elapsed portion of the then-current Fiscal Year, setting forth in each case in comparative form the figures for the corresponding period or periods of (or, in the case of the balance sheet, as of the end of) the previous Fiscal Year, all certified by a Financial Officer of the Borrower as presenting fairly in all material respects the financial condition of the Borrower and its Consolidated Subsidiaries on a consolidated basis as of such date and the results of operations of the Borrower and its Consolidated Subsidiaries on a consolidated basis for the period or periods then ended, in each case in accordance with GAAP consistently applied, subject to normal year-end audit adjustments and the absence of footnotes;

(c) concurrently with any delivery of financial statements under clauses (a) or (b) of this Section 5.01, a Compliance Certificate (i) certifying as to whether a Default has occurred and, if a Default has occurred, specifying the details thereof and any action taken or proposed to be taken with respect thereto and (ii) setting forth reasonably detailed calculations of the financial covenants contained in Section 6.11 (to the extent required to be tested as of the last day of the fiscal period covered by such financial statements);

(d) promptly following the written request of the Administrative Agent, certificates of insurance coverage and endorsements with respect to the insurance required by Section 5.12, in form and substance reasonably satisfactory to the Administrative Agent, and, if requested by the Administrative Agent, all copies of the applicable policies;

(e) (i) not later than thirty (30) days prior to the end of each Fiscal Year (beginning the Fiscal Year ending December 31, 2022), a copy of a Cashflow Projection for each month in the following Fiscal Year and (ii) not later than 20 days after the end of each month (beginning the month ending January 31, 2023), a summary of actual cashflow for such month in form and substance acceptable to the Administrative Agent;

(f) concurrently with the delivery of any Cashflow Projection pursuant to Section 5.01(e)(i), a forecast of the volume of production and forecasted sales attributable to production (and the forecasted prices at which such sales are to be made and the projected revenues derived from such sales) from Oil and Gas Properties for the related Fiscal Year covered by such Cashflow Projection, including setting forth the related projected ad valorem, severance and production taxes and lease operating expenses attributable thereto and projected to be incurred for each month during such Fiscal Year (all in form and substance acceptable to the Administrative Agent);

(g) promptly following the written request of the Administrative Agent, copies of any Material Contract and any amendments, modifications, waivers, or supplements thereto;

(h) promptly following the written request of the Administrative Agent, a list of all Persons purchasing Hydrocarbons from the Borrower or any of its Subsidiaries under contracts with a term exceeding one month (or, with respect to Oil and Gas Properties that are not operated by the Borrower or any of its Subsidiaries, a list of the operators of such properties);

(i) within forty-five (45) days after the end of each Fiscal Quarter, a report setting forth, for each calendar month such Fiscal Quarter, the volume of production and sales attributable to production for which cash activity has been recorded (and the prices at which such sales were made and the revenues derived from such sales) from the Oil and Gas Properties, and setting forth the related ad valorem, severance and production taxes and lease operating expenses attributable thereto and incurred for each such calendar month;

(j) within forty-five (45) days after the end of each Fiscal Quarter, a report setting forth the Capital Expenditures made by the Borrower and its Subsidiaries during such Fiscal Quarter, in reasonable detail;

(k) within forty-five (45) days after the end of each Fiscal Quarter, (i) a report setting forth, as of the last day of such Fiscal Quarter, a summary of all outstanding Swap Agreements (including the type, strike price and notional amounts or volumes), any credit support documents relating thereto, any margin required or supplied under any credit support document, the counterparty to each such Swap Agreement and (ii) demonstrating compliance with the requirements of Section 5.16(b) with respect to Swap Agreements to be entered into or maintained within fourteen (14) days after the end of the Fiscal Quarter most recently ended;

(l) not less than three (3) Business Days' prior to making a Restricted Payment pursuant to Section 6.08(d) or Restricted Debt Payments pursuant to Section 6.18(a)(ii), a certificate of a Financial Officer in substantially the form of Exhibit F hereto setting forth (i) the Specified Amount, including the calculation thereof, as of the date of delivery of such certificate and (ii) the Specified Amount immediately after giving effect to such Restricted Payment or Restricted Debt Payment;

(m) within eight (8) Business Days after the last day of any month on which no Borrowing has occurred, the Borrower shall deliver to the Administrative Agent (i) a certificate of a Financial Officer certifying (1) as to the Marketer Receivables Amount as of the last day of such month and (2) that the amount in clause (1) equals or exceeds the aggregate amount of Revolving Loans outstanding on the last day of such month and (ii) any additional information reasonably requested by the Administrative Agent with respect thereto;

(n) promptly following the written request of the Administrative Agent, such other information regarding the operations, business

affairs and financial condition of the Borrower or any Subsidiary of the Borrower, or compliance with the terms of this Agreement, as the Administrative Agent or any Lender (through the Administrative Agent) may reasonably request; and

(o) promptly following the written request of the Administrative Agent, all documentation and other information that such Lender or the Administrative Agent reasonably requests in order to comply with its ongoing obligations under applicable "know your customer" and anti-money laundering rules and regulations, including the USA PATRIOT Act and the Beneficial Ownership Regulation.

SECTION 5.02. Notices of Material Events. The Borrower will furnish to the Administrative Agent (for distribution to each Lender) the following:

(a) promptly, and in any event within five (5) Business Days after a Responsible Officer of the Borrower or any of its Subsidiaries obtains knowledge of the occurrence thereof, written notice of the occurrence of any Default;

(b) promptly, and in any event within five (5) Business Days after a Responsible Officer of the Borrower or any of its Subsidiaries obtains knowledge thereof, the filing or commencement of any action, suit or proceeding by or before any arbitrator or Governmental Authority against or affecting the Borrower or any of its Subsidiaries that could reasonably be expected to result in the imposition of liability in excess of $10,000,000 to the extent not covered by insurance, subject to normal deductibles;

(c) promptly, and in any event within five (5) Business Days after a Responsible Officer of the Borrower or any of its Subsidiaries obtains knowledge thereof, the occurrence of any ERISA Event that, alone or together with any other ERISA Events that have occurred, could reasonably be expected to result in the imposition of liability in excess of $10,000,000;

(d) promptly upon the receipt thereof, or the acquisition of knowledge by a Responsible Officer of a Loan Party, a copy of any form of request, claim, complaint, order, notice, summons or citation received from any Governmental Authority or any other Person (i) concerning violations or alleged violations of Environmental Laws that seek to impose liability therefor in excess of $10,000,000, or (ii) concerning any action or omission on the part of any of such Loan Party in connection with Hazardous Materials that could reasonably result in the imposition of liability in excess of $10,000,000 or requiring that action be taken to respond to or clean up a Release of Hazardous Materials into the environment and such action or clean-up could reasonably be expected to exceed $10,000,000, including without limitation any information request related to, or notice of, potential responsibility under CERCLA;

(e) promptly after a Responsible Officer of the Borrower or any of its Subsidiaries obtains knowledge thereof, the occurrence of any Casualty Event with respect to Property of the Borrower or any of its Subsidiaries with a fair market value in excess of $10,000,000 or the commencement of any action of proceeding that could reasonably be expected to result in such a Casualty Event, together with a reasonably detailed description thereof;

(f) promptly after a Responsible Officer of the Borrower or any of its Subsidiaries obtains knowledge thereof, any other development that results in, or could reasonably be expected to result in, a Material Adverse Effect;

(g) promptly, and in any event within ten (10) Business Days after a Responsible Officer of Borrower or any of its Subsidiaries obtains knowledge thereof, written notice of the receipt by Borrower or any of its Subsidiaries of any written default notices under or with respect to any Material Contract;

(h) prior to any Disposition under Section 6.04 anticipated to generate in excess of $5,000,000 in Net Proceeds, prior written notice of such Disposition, which notice shall (i) describe such Disposition and the nature and material terms and conditions of such transaction and (ii) state the estimated Net Proceeds anticipated to be received by any Loan Party from such Disposition; and

(i) promptly, and in any event within fifteen (15) days after any such event, written notice of any change in the Marketer.

Each notice delivered under clauses (a) through (g) of this Section shall be accompanied by a statement of a Responsible Officer or other executive officer of the Borrower setting forth the details of the event or development requiring such notice and any action taken or proposed to be taken with respect thereto.

After the occurrence of a Qualified IPO, documents required to be delivered pursuant to Section 5.01(a) or (b) (to the extent any such documents are included in materials otherwise filed with the SEC) may be delivered electronically and, if so delivered, shall be deemed to have been delivered on the date (i) on which such materials are publicly available as posted on the Electronic Data Gathering, Analysis and Retrieval system (EDGAR); or (ii) on which such documents are posted on the Borrower's behalf on an Internet or intranet website, if any, to which each Lender and the Administrative Agent have access (whether a commercial, third-party website or whether made available by the Administrative Agent); provided that: (A) upon written request by the Administrative Agent (or any Lender through the Administrative Agent) to the Borrower, the Borrower shall deliver paper copies of such documents to the Administrative Agent or such Lender until a written request to cease delivering paper copies is given by the Administrative Agent or such Lender and (B) the Borrower shall notify the Administrative Agent and each Lender (by telecopier or electronic mail) of the posting of any such documents and provide to the Administrative Agent by electronic mail electronic versions (i.e., soft copies) of such documents The Administrative Agent shall have no obligation to request the delivery of or to maintain paper copies of the documents referred to above, and in any event shall have no responsibility to monitor compliance by the Borrower with any such request by a Lender for delivery, and each Lender shall be solely responsible for timely accessing posted documents or requesting delivery of paper copies of such document to it and maintaining its copies of such documents.

SECTION 5.03. Existence; Conduct of Business. The Borrower will, and will cause each of its Subsidiaries to, do or cause to be done all things necessary to preserve, renew and keep in full force and effect its legal existence and the rights, licenses, permits, privileges and franchises material to the conduct of its business and maintain, if necessary, its qualification to do business in each jurisdiction in which its Oil and Gas Properties are located or the ownership of its Properties require such qualification, in each case (other than with respect to the preservation of existence of any Loan Party) except where the failure to do so would not reasonably be expected to result in a Material Adverse Effect; provided that the foregoing shall not prohibit any merger, consolidation, liquidation or dissolution permitted under Section 6.03.

SECTION 5.04. Payment of Obligations. The Borrower will, and will cause each of its Subsidiaries to, pay its obligations, including Tax liabilities

that, if not paid, could result in a Material Adverse Effect before the same shall become delinquent or in default, except with respect to any Tax liabilities where (a) the validity or amount thereof is being contested in good faith by appropriate proceedings and the Borrower or such Subsidiary has set aside on its books adequate reserves with respect thereto in accordance with GAAP (to the extent required under GAAP) or (b) the failure to make payment could not reasonably be expected to result in a Material Adverse Effect or result in the seizure or levy of any Proved Oil and Gas Properties with an aggregate fair market value in excess of $5,000,000.

SECTION 5.05.Maintenance of Properties. The Borrower will, and will cause each of its Subsidiaries to:

(a) operate its Oil and Gas Properties, or cause such Oil and Gas Properties to be operated, in a reasonably prudent manner in accordance with the customary practices of the industry and in compliance with all applicable contracts and agreements and in compliance with all applicable Governmental Requirements, including applicable proration requirements and Environmental Laws, and all applicable laws, rules and regulations of every other Governmental Authority from time to time constituted to regulate the development and operation of such Oil and Gas Properties and the production and sale of Hydrocarbons and other minerals therefrom, except, in each case, where the failure to comply could not reasonably be expected to have a Material Adverse Effect;

(a) maintain and keep in good repair, working order and efficiency (ordinary wear and tear excepted) all of its Oil and Gas Properties and other Properties material to the operation thereof, including all equipment, machinery and facilities, except, in each case, where the failure to do so could not reasonably be expected to have a Material Adverse Effect;

(b) promptly pay and discharge, or make reasonable and customary efforts to cause to be paid and discharged, all material delay rentals, royalties, expenses and indebtedness accruing under the leases or other agreements affecting or pertaining to its Oil and Gas Properties (except where the validity or amount thereof is being contested in good faith by appropriate proceedings and the applicable Loan Party has set aside on its books adequate reserves with respect thereto in accordance with GAAP (to the extent required by GAAP)) and will do all other things necessary, in accordance with industry standards, to keep unimpaired its rights with respect thereto and prevent any forfeiture thereof or default thereunder, except, in each case, where the failure to do so could not reasonably be expected to have a Material Adverse Effect;

(c) promptly perform or make reasonable and customary efforts to cause to be performed, in accordance with industry standards, the obligations required by each and all of the assignments, deeds, leases, sub-leases, contracts and agreements affecting its interests in its Oil and Gas Properties and other Properties material to the operation thereof, except, in each case, where the failure to do so could not reasonably be expected to result in a Material Adverse Effect;

(d) operate its Oil and Gas Properties and other Properties material to the operation thereof, or make reasonable and customary efforts to cause such Oil and Gas Properties and other material Properties to be operated, in accordance with the practices of the industry and in compliance with all applicable contracts and agreements and in compliance with all Governmental Requirements, except, in each case, where the failure to do so could not reasonably be expected to result in a Material Adverse Effect; and

(e) to the extent that neither the Borrower nor any Subsidiary of the Borrower is the operator of any Property, use commercially reasonable efforts to cause the operator to comply with the requirements of this Section 5.05.

SECTION 5.06.Books and Records; Inspection Rights. The Borrower will, and will cause each of its Subsidiaries to, keep proper books of record and account in which entries that are full, true and correct entries in all material respects are made of all dealings and transactions in relation to its business and activities. The Borrower will, and will cause each of its Subsidiaries to, permit any representatives designated by the Administrative Agent or any Lender, upon reasonable prior notice, to visit and inspect its Properties, to examine and make extracts from its books and records and to discuss its affairs, finances and condition with its officers and independent accountants, all at reasonable times during normal business hours; provided that, excluding any such visits and inspections during the continuation of any Event of Default, only the Administrative Agent (or any of its representatives or independent contractors) on behalf of the Lenders may exercise the rights of the Administrative Agent and the Lenders under this Section 5.06 and, unless an Event of Default shall have occurred and be continuing, the Borrower shall only be responsible for the costs and expenses of one such visit and inspection per calendar year. The Administrative Agent shall give the Borrower the opportunity to participate in any discussions with the Borrower's independent accountants. Notwithstanding anything to the contrary in this Section 5.06, none of the Borrower nor any Subsidiary shall be required to disclose, permit the inspection, examination or making copies or abstracts of, or discussion of, any document, information or other matter that (i) constitutes non-financial trade secrets or non-financial proprietary information, (ii) in respect of which disclosure to the Administrative Agent or any Lender (or their respective representatives or contractors) is prohibited by applicable law or any material binding agreement between the Borrower or any of the Subsidiaries and a Person that is not the Borrower or any of the Subsidiaries and not entered into in contemplation of preventing such disclosure, inspection or examination or (iii) is subject to attorney-client or similar privilege or constitutes attorney work-product.

SECTION 5.07. Environmental Laws. The Borrower shall, at its sole expense: (i) comply, and shall cause its real property and operations and each of its Subsidiaries and each of its Subsidiaries' real property and operations to comply, with applicable Environmental Laws, the breach of which, individually or in the aggregate, could reasonably be expected to have a Material Adverse Effect; (ii) not Release or threaten to Release, and shall cause each of its Subsidiaries not to Release or threaten to Release, any Hazardous Material on, under, about or from any Properties of the Borrower or any of its Subsidiaries or any other Property offsite the Property to the extent caused by the operations of the Borrower or any of its Subsidiaries except in compliance with applicable Environmental Laws, if and to the extent that the Release or threatened Release of such Hazardous Materials, individually or in the aggregate, could reasonably be expected to have a Material Adverse Effect; (iii) timely obtain or file, and shall cause each of its Subsidiaries to timely obtain or file, all Environmental Permits to be obtained or filed in connection with the operation or use of any Properties of the Borrower or any of its Subsidiaries, if and to the extent that the failure to obtain or file such Environmental Permits, individually or in the aggregate, could reasonably be expected to have a Material Adverse Effect; (iv) promptly

commence and diligently prosecute to completion, and shall cause each of its Subsidiaries to promptly commence and diligently prosecute to completion, any assessment, evaluation, investigation, monitoring, containment, cleanup, removal, repair, restoration, remediation or other remedial obligations (collectively, the "Remedial Work") in the event such Remedial Work is required or is reasonably necessary under applicable Environmental Laws because of or in connection with the actual or suspected past, present or future Release or threatened Release of Hazardous Material on, under, about or from any real property of the Borrower or any of its Subsidiaries, if and to the extent that failure to commence and diligently prosecute to completion such Remedial Work, individually or in the aggregate, could reasonably be expected to have a Material Adverse Effect; (v) conduct, and cause each Subsidiary to conduct, their respective operations and businesses in a manner that will not expose any Property or Person to Hazardous Materials that could reasonably be expected to form the basis for a claim for damages or compensation which claim could reasonably be expected to have a Material Adverse Effect; and (vi) establish and implement, and shall cause each Subsidiary to establish and implement, such procedures as may be necessary to continuously determine and assure that the Borrower's and the other Subsidiaries' obligations under this Section 5.07 are timely and fully satisfied, to the extent the failure to establish and implement such procedures could reasonably be expected to have a Material Adverse Effect. To the extent that neither the Borrower nor any Subsidiary is the operator of any Oil and Gas Property, the Borrower and the Subsidiaries shall use commercially reasonable efforts to cause the operator to comply with the requirements of this Section 5.07.

SECTION 5.08.Compliance with Laws. The Borrower will, and will cause each of its Subsidiaries to, comply with all laws, rules, regulations and orders of any Governmental Authority applicable to it or its Property, in each case except where the failure to do so, individually or in the aggregate, could not reasonably be expected to result in a Material Adverse Effect. The Borrower will maintain in effect and enforce policies and procedures designed to ensure compliance by the Borrower, its Subsidiaries and their respective directors, officers, employees and agents with Anti-Corruption Laws and applicable Sanctions.

SECTION 5.09. Use of Proceeds. The Borrower will use the proceeds of the Revolving Loans only for the purposes set forth in Section 3.20. The Borrower will not request any Borrowing and shall not use, and shall procure that its Subsidiaries and its and their respective directors, officers, employees and agents shall not use, directly or indirectly, the proceeds of any Borrowing (i) in furtherance of an offer, payment, promise to pay, or authorization of the payment or giving of money, or anything else of value, to any Person in violation of any Anti-Corruption Laws, (ii) for the purpose of funding, financing or facilitating any activities, business or transaction of or with any Sanctioned Person, or in any Sanctioned Country or (iii) in any manner that would result in the violation, by any Person, of any Sanctions or other anti-money laundering rules and regulations applicable to any party hereto.

SECTION 5.10. Compliance with ERISA. In addition to and without limiting the generality of Section 5.08, the Borrower shall, and shall cause each of its Subsidiaries and each ERISA Affiliate to, (a) except where the failure to so comply could not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect, (i) comply with applicable provisions of ERISA, the Code and the regulations and interpretations thereunder with respect to all Plans and other employee benefit plans, (ii) not take any action or fail to take action the result of which could reasonably be expected to result in a liability to the PBGC or to a Multiemployer Plan, (iii) not participate in any prohibited transaction that could result in any civil penalty under ERISA or tax under the Code and (iv) operate each employee benefit welfare plan (as defined in Section 3(1) of ERISA) in such a manner that will not result in any tax liability under Section 4980B of the Code or any liability to any qualified beneficiary as defined in Section 4980B of the Code and (b) furnish to the Administrative Agent upon the Administrative Agent's request such additional information about any Plan or other employee benefit plan as may be reasonably requested by the Administrative Agent or the Required Lenders.

SECTION 5.11. Subsidiary Guarantors; Further Assurances.

(a) In the event that, at any time after the Effective Date, any Person becomes a Subsidiary of the Borrower, whether pursuant to formation, acquisition or otherwise, the Borrower shall promptly (and, in any event, within thirty (30) days after such formation, acquisition or otherwise, as such time period may be extended by the Administrative Agent in its sole discretion) (i) cause such Subsidiary to (A) become a Guarantor by delivering to the Administrative Agent a duly executed supplement to the Guaranty Agreement or such other document as the Administrative Agent shall deem reasonably appropriate for such purpose and (B) deliver to the Administrative Agent such opinions, documents and certificates referred to in Section 4.01 as may be reasonably requested by the Administrative Agent.

(b) The Borrower and each Subsidiary will, at its sole expense, promptly execute and deliver to each Agent all such other documents, agreements and instruments reasonably requested by such Agent to comply with, cure any defects or accomplish the conditions precedent, covenants and agreements of any Loan Party, as the case may be, in the Loan Documents or to correct any omissions in this Agreement, or to make any recordings, file any notices or obtain any consents, all as such Agent may deem necessary or advisable in its reasonable discretion.

SECTION 5.12.Insurance. The Borrower will, and will cause each of its Subsidiaries to maintain with financially sound and reputable carriers insurance in such amounts and against such risks as are customarily maintained by companies of established repute engaged in the same or similar businesses operating in the same or similar locations and as may be required by applicable material Governmental Requirements. The Borrower will furnish to the Lenders, upon the request of the Administrative Agent, information in reasonable detail as to the insurance so maintained.

SECTION 5.13. Management of BKV-BPP. The Borrower will cause the management, business and affairs of each of the Borrower and its Subsidiaries to be conducted in such a manner (including, without limitation, by keeping separate books of account, furnishing separate financial statements of BKV-BPP to creditors thereof and by not permitting assets of the Borrower and its Subsidiaries to be commingled with those of BKV-BPP) so that BKV-BPP will be treated as an entity separate and distinct from the Borrower and each Subsidiary.

SECTION 5.14. Reserve Reports.

(a) Within sixty (60) days after the end of each Fiscal Year of the Borrower (commencing with the Fiscal Year ending December 31, 2022), the Borrower shall furnish to the Administrative Agent (for distribution to the Lenders) (i) a Reserve Report prepared by the Borrower and audited by

one or more Approved Petroleum Engineers (each, an "Approved Petroleum Engineer Reserve Report") evaluating the Oil and Gas Properties of the Borrower and the other Loan Parties to which Proved Reserves are attributable as of December 31st of such Fiscal Year and (ii) with respect to such Reserve Report, related Reserve Report Supporting Materials.

(b) Within forty-five (45) days after the end of each Fiscal Quarter ending on June 30th of each Fiscal Year (commencing with June 30, 2023), the Borrower shall furnish to the Administrative Agent (for distribution to the Lenders) (i) a Reserve Report evaluating the Oil and Gas Properties of the Borrower and the other Loan Parties to which Proved Reserves are attributable as of June 30th of such Fiscal Year, such Reserve Report to be prepared internally by or under the supervision of the chief petroleum engineer of the Borrower, who shall certify such Reserve Report to be true and accurate in all material respects and, except as otherwise specified therein, to have been prepared in accordance with the procedures used in the immediately preceding Approved Petroleum Engineer Reserve Report and (ii) with respect to any such Reserve Report, related Reserve Report Supporting Materials.

(c) Reserved.

(d) With the delivery of each Reserve Report, the Borrower shall provide to the Administrative Agent (for distribution to the Lenders) a certificate (the "Reserve Report Certificate") from a Responsible Officer certifying on behalf of the Borrower that in all material respects: (i) the information furnished by the Loan Parties to the applicable petroleum engineers in connection with the preparation of such Reserve Report is true and correct in all material respects, it being understood that projections concerning volumes attributable to the Oil and Gas Properties of the Borrower and the other Loan Parties and production and cost estimates contained in the Reserve Report are necessarily based upon professional opinions, estimates and projections and that the Borrower does not warrant that such opinions, estimates and projections will ultimately prove to have been accurate, (ii) each of the Borrower and the other Loan Parties has defensible title (subject to Immaterial Title Deficiencies) to the Proved Oil and Gas Properties evaluated in the related Reserve Report (except for those Properties that have been Disposed of since the date of such Reserve Report in accordance with this Agreement or leases which have expired in accordance with their terms), (iii) except as set forth on an exhibit to the certificate, on a net basis there are no gas imbalances, take-or-pay or other prepayments in excess of the threshold specified in Section 3.23 with respect to its Oil and Gas Properties evaluated in such Reserve Report which would require the Borrower or any other Loan Party to deliver Hydrocarbons either generally or produced from such Oil and Gas Properties at some future time without then or thereafter receiving full payment therefor, (iv) none of the Loan Parties' Proved Oil and Gas Properties have been sold (other than Hydrocarbons sold in the ordinary course of business) since the date of the previous Reserve Report except as set forth on an exhibit to the certificate, which exhibit shall list all of such Proved Oil and Gas Properties sold and in such detail as reasonably required by the Administrative Agent and (v) attached to the certificate is a list of all marketing agreements entered into by a Loan Party subsequent to the later of the date hereof or the most recently delivered Reserve Report which the Borrower could reasonably be expected to have been obligated to list on Schedule 3.24 had such agreement been in effect on the date hereof.

SECTION 5.15.Title Information. Upon any request of the Administrative Agent, the Borrower shall promptly supply the Administrative Agent with any reasonably requested title information with respect to the Loan Parties' Oil and Gas Properties.

SECTION 5.16 Required Commodity Hedging. After the end of each Fiscal Quarter (beginning the Fiscal Quarter ending June 30, 2023), the Borrower and one or more Approved Swap Counterparties shall enter into Swap Agreements reasonably satisfactory to the Administrative Agent (or maintain Swap Agreements reasonably satisfactory to the Administrative Agent, entered into with Approved Swap Counterparties):

(i) hedging notional volumes not less than 50% of the reasonably anticipated projected production of crude oil, natural gas and natural gas liquids, calculated in the aggregate, from the Loan Parties' Oil and Gas Properties that constitute Proved Developed Producing Reserves (as reflected in the most recently delivered Reserve Report) for a period of not less than twelve (12) months from the end of such Fiscal Quarter; and

(ii) hedging notional volumes not less than 25% of the reasonably anticipated projected production of crude oil, natural gas and natural gas liquids, calculated in the aggregate, from the Loan Parties' Oil and Gas Properties that constitute Proved Developed Producing Reserves (as reflected in the most recently delivered Reserve Report) for a period beginning thirteen (13) months from the end of such Fiscal Quarter and ending twenty-four (24) months from the end of such Fiscal Quarter.

SECTION 5.17.Ranking of Obligations. The Borrower will, and will cause each Loan Party to, take all such actions as shall be necessary to ensure that the Obligations of the Borrower or such Loan Party rank at least equally with all other unsecured and unsubordinated obligations of such Loan Party, except obligations mandatorily (and not consensually) preferred by applicable law, and ahead of all subordinated Indebtedness, if any, of such Loan Party.

SECTION 5.18. Material Contracts. The Borrower will maintain in force all Material Contracts except amendments, supplements, or other modifications that could not reasonably be expected to cause a Material Adverse Effect and or materially impair the Loans Parties' respective businesses and operations.

SECTION 5.19. Solvency. At all times, the Borrower shall individually be, and the Borrower and its Subsidiaries shall on a consolidated basis be, Solvent.

SECTION 5.20.Anti-Corruption Laws; USA PATRIOT Act; Anti-Terrorism Laws and Sanctions.

(a) The Borrower will maintain in effect policies and procedures designed to ensure compliance by the Borrower, the Subsidiaries, BKV-BPP and their respective directors, officers, employees and agents with applicable Anti-Corruption Laws and applicable Sanctions.

(b) The Borrower, the Subsidiaries, BKV-BPP, their respective officers and employees and, to the knowledge of the Borrower, their respective directors and agents shall at all times be in compliance with Anti-Corruption Laws and applicable Sanctions in all material respects and shall not engage in any activity that would reasonably be expected to result in any of the Borrower, the Subsidiaries or BKV-BPP being designated as a Sanctioned Person.

(c) None of (x) the Borrower, any Subsidiary, BKV-BPP or any of their respective directors, officers or employees, or (y) to the knowledge of the Borrower, any agent of the Borrower that will act in any capacity in connection with or benefit from the credit facility established hereby, shall be a Sanctioned Person.

SECTION 5.21. Specified Royalty Payments. If the Borrower shall make any Borrowing, the Loan Parties shall pay the applicable Payees any Specified Royalty Payments on or prior to the last day of the month in which such Borrowing occurs and, within five (5) Business Days after the last day of such month, provide written notice of such payments and any other supporting information in connection therewith as reasonably requested by the Administrative Agent.

SECTION 5.22. Minimum Marketer Receivables Amount. The Borrower shall ensure that, as of the last day of any month (other than any month in which a Borrowing is made), the Marketer Receivables Amount as of such day shall exceed the aggregate principal amount of Revolving Loans of all Revolving Lenders on such day.

ARTICLE VI

Negative Covenants

From the Effective Date until Payment in Full, the Borrower covenants and agrees with the Lenders that:

SECTION 6.01. Indebtedness. The Borrower will not, and will not permit any of its Subsidiaries to, create, incur, assume or permit to exist any Indebtedness, except:

(a) the Obligations under this Agreement;

(b) Indebtedness existing on the date hereof and set forth on Schedule 6.01;

(c) Indebtedness of any Loan Party owing to any other Loan Party;

(d) the Term Loan Credit Agreement Obligations in an amount not to exceed $600,000,000;

(e) Indebtedness of the Borrower or any Subsidiary of the Borrower incurred to finance the acquisition, construction or improvement of any fixed or capital assets, including Capital Lease Obligations, and extensions, renewals and replacements of any such Indebtedness; provided that (i) such Indebtedness is incurred prior to or within 180 days after such acquisition or the completion of such construction or improvement and (ii) the aggregate principal amount of Indebtedness incurred pursuant to this Section 6.01(e) shall not exceed $5,000,000 at any time outstanding;

(f) Indebtedness incurred to finance insurance premiums in an aggregate principal amount not to exceed the amount of such insurance premiums;

(g) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument inadvertently (except in the case of daylight overdrafts) drawn against insufficient funds in the ordinary course of business;

(h) to the extent constituting Indebtedness, Indebtedness associated with workers' compensation claims, performance, bid, surety or similar bonds or surety obligations required by Governmental Requirements or third parties in the ordinary course of business in connection with the operation of the Oil and Gas Properties;

(i) (i) earnout obligations consisting of the Subject Payments, (ii) Indebtedness in the form of indemnification, incentive, non-compete, consulting or other similar arrangements in respect of any Investments permitted hereunder and (iii) Indebtedness arising from agreements providing for indemnification related to sales of goods or adjustment of purchase price or similar obligations in any case incurred in connection with the sale or other disposition of any business, assets or Subsidiary permitted hereunder;

(j) unsecured Indebtedness incurred (A) under the Uncommitted Credit Facility Agreements in an amount not to exceed $65,000,000 or (B) otherwise for working capital purposes; provided that (1) the aggregate amount of Indebtedness incurred pursuant to this clause (j) shall not exceed, when combined with the aggregate amount of Indebtedness under this Agreement (including the principal amount of all Loans hereunder) (x) at any time prior to the consummation of a Qualified IPO, an amount equal to $150,000,000 or (y) on or after the consummation of a Qualified IPO, an amount equal to $200,000,000, (2) such Indebtedness, if not incurred under any Uncommitted Credit Facility Agreement, shall not mature earlier than 91 days after the Maturity Date, (3) such Indebtedness shall rank pari passu or junior in right of payment to the Revolving Loans, and if junior, shall be subject to customary subordination terms reasonably acceptable to the Administrative Agent and (4) the proceeds of any such Indebtedness incurred pursuant to this clause (j) may not be used to prepay any Subordinated Shareholder Loans; and

(k) Indebtedness of the Borrower owing to Banpu North America arising from Subordinated Shareholder Loans; and

(l) unsecured Indebtedness of the Borrower or any Subsidiary Guarantor incurred in respect of letters of credit issued in the ordinary course of business.

SECTION 6.02.Liens. The Borrower will not, and will not permit any Subsidiary of the Borrower to, create, incur, assume or permit to exist any Lien on any property or asset now owned or hereafter acquired by it, except:

(a) Permitted Encumbrances;

(b) any Lien on any property or asset of the Borrower or any Subsidiary of the Borrower existing on the date hereof and set forth in Schedule 6.02; provided that (i) such Lien shall not apply to any other Property or asset of the Borrower or any Subsidiary of the Borrower and (ii) such Lien shall secure only those obligations which it secures on the date hereof and extensions, renewals and replacements thereof that do not increase the original outstanding principal amount thereof unless such increased amount is otherwise permitted hereunder (plus the amount of any capitalized fees and expenses incurred in connection with such extension, renewal or replacement);

(c) Liens existing on any property or asset prior to the acquisition thereof by the Borrower or any Subsidiary or existing on any property or asset of any Person that becomes a Subsidiary of the Borrower after the Effective Date prior to the time such Person becomes a Subsidiary; provided that (i) such Liens are not created in contemplation of or in connection with such acquisition or such Person becoming a Subsidiary, as the case may be, (ii) such Liens shall not apply to any other property or assets of the Borrower or any Subsidiary and (iii) such Liens shall secure only those obligations which they secure on the date of such acquisition or the date such Person becomes a Subsidiary, as the case may be; provided further that any such Liens shall only be permitted in connection with any such acquisition or such Person becoming a Subsidiary until the date that is two (2) months after the date of such acquisition or such Person becoming a Subsidiary, as the case may be;

(d) Liens securing Indebtedness incurred pursuant to Section 6.01(e); provided that (i) such Liens are created prior to or within sixty (60) days after such acquisition or the completion of such construction or improvement, (ii) the Indebtedness secured thereby does not exceed the cost of acquiring, constructing or improving such fixed or capital assets and (iii) such Liens do not encumber any other property or assets of the Borrower or any Subsidiary of the Borrower (other than improvements, accessions, proceeds and assets fixed or appurtenant thereto and except that individual financings by a lender may be cross-collateralized to other financings by such lender or its Affiliate);

(e) Liens on insurance policies and the proceeds thereof securing the financing of the related insurance premiums permitted under Section 6.01(f);

(f) Liens on property of any Loan Party securing obligations of such Loan Party owing to any other Loan Party;

(g) except as prohibited at any time under the terms of the Term Loan Credit Agreement, Liens encumbering Properties of the Borrower and its Subsidiaries (other than Equity Interests in Subsidiaries of the Borrower) having an aggregate value, when aggregated with the aggregate value of all Oil and Gas Properties Disposed of pursuant to Section 6.04(d), not to exceed $25,000,000 (after giving effect to the incurrence of any such new Liens); and

(h) except as prohibited at any time under the terms of the Term Loan Credit Agreement, other Liens as may be agreed in writing by the Required Lenders in their sole discretion.

SECTION 6.03.Fundamental Changes; Nature of Business .

(a) The Borrower will not, and will not permit any of its Subsidiaries to, merge into or consolidate with any other Person, or permit any other Person to merge into or consolidate with it, or Dispose of all or substantially all of its Property (whether in a single transaction or a series of transactions), or liquidate or dissolve, including, in each case, pursuant to a Division, except:

(i) any Subsidiary of the Borrower may merge into the Borrower or a Subsidiary Guarantor in a transaction in which the surviving entity is the Borrower or a Subsidiary Guarantor (provided that any such merger involving the Borrower must result in the Borrower as the surviving entity);

(ii) any Subsidiary of the Borrower may Dispose of all or substantially all of its assets to the Borrower or any Subsidiary Guarantor;

(iii) any Subsidiary of the Borrower may liquidate or dissolve if the Borrower determines in good faith that such liquidation or dissolution is in the best interests of the Borrower and is not materially disadvantageous to the Lenders (provided that all assets and property of such Subsidiary are distributed to a Loan Party in connection with such liquidation or dissolution);

(iv) if at the time thereof and immediately after giving effect thereto no Default shall have occurred and be continuing, any Person (other than the Borrower or a Subsidiary) may participate in a merger or consolidation with a Subsidiary of the Borrower in connection with any Investment permitted under Section 6.05 (provided that, if such merger or consolidation involves a Subsidiary Guarantor, a Subsidiary Guarantor shall be the continuing or surviving entity); and

(v) any Subsidiary of the Borrower may effect a merger, dissolution, liquidation or consolidation to effect a Disposition permitted pursuant to Section 6.04 or an Investment permitted pursuant to Section 6.05.

(b) The Borrower will not, and will not permit any of its Subsidiaries to, (i) engage in any business other than the exploration, development, production and sale of Hydrocarbons, midstream, downstream, carbon capture, utilization and storage (CCUS), solar and activities reasonably incidental or related thereto or (ii) acquire or make any other expenditure (whether such expenditure is capital, operating or otherwise) in or related to, any Oil

and Gas Properties not located within the geographical boundaries of Canada, the United States or Mexico.

(c) The Borrower will not, nor will it permit any of its Subsidiaries to, change its Fiscal Year from the basis in effect on the Effective Date.

SECTION 6.04. Asset Sales. The Borrower shall not, nor shall it permit any of its Subsidiaries to, Dispose of any of its assets (including any of the Equity Interests of any of its Subsidiaries), whether now owned or hereafter acquired, including pursuant to a Division, except that the Borrower and its Subsidiaries may:

(a) sell Hydrocarbons, seismic data or Cash Equivalents in the ordinary course of business;

(b) enter into (i) Acreage Swaps and (ii) farmouts of undeveloped acreage or undrilled depths, in each case, to which no Proved Reserves are attributed and assignments in connection with such farmouts;

(c) Dispose of equipment and other personal property that is obsolete, worn out or uneconomic and Disposed of in the ordinary course of business or no longer necessary for the business of the Borrower or such Subsidiary of the Borrower or is replaced by equipment or other personal property of at least comparable value and use;

(d) Dispose of any Oil and Gas Property or any interest therein (including any Equity Interests in any Subsidiary that owns Oil and Gas Properties); provided that:

(i) except with respect to Casualty Events, no Default or Event of Default shall have occurred and be continuing at the time of such Disposition,

(ii) at least 75% of the consideration (other than environmental or other liabilities associated with such property and assumed by the purchaser or its Affiliates) received in respect of such Disposition shall be cash or Cash Equivalents,

(iii) the consideration received in respect of such Disposition shall be equal to or greater than the fair market value of the Oil and Gas Properties or interest therein (or Equity Interests) subject of such Disposition (as reasonably determined by a Responsible Officer of the Borrower and if requested by the Administrative Agent, the Borrower shall deliver a certificate of a Responsible Officer of the Borrower certifying to the foregoing),

(iv) the Borrower shall make all mandatory prepayments required by, and within the time periods set forth in, the Term Loan Credit Agreement in connection with such Disposition, and

(v) the total value of all Oil and Gas Properties Disposed of under this clause (d), when aggregated with the total aggregate value of the Properties of the Borrower and its Subsidiaries subject to Liens incurred pursuant to Section 6.02(g), shall not exceed $25,000,000 (after giving effect to such Disposition);

(e) enter into licenses of technology in the ordinary course of business;

(f) enter into leases or subleases of real or personal property and grant easements, rights-of-way, permits, licenses, restrictions or the like with respect to real or personal property, in each case, which do not interfere in any material respect with the ordinary course of business of the Borrower and its Subsidiaries;

(g) Dispose of Property to a Loan Party or among Loan Parties;

(h) unwind, monetize or terminate any Swap Agreement (including as may be necessary to comply with Section 6.06(a)), so long as, immediately after giving effect to such unwind, monetization or termination, the Borrower shall be in compliance with the minimum hedging requirements of Section 5.16, provided that in connection therewith, the Borrower shall make all mandatory prepayments required by, and within the time periods set forth in, the Term Loan Credit Agreement;

(i) license, sublicense, abandon or otherwise Dispose of intellectual property rights in the ordinary course of business; and

(j) sell or discount without recourse accounts receivable in the ordinary course of business in connection with the compromise or collection thereof.

SECTION 6.05.Investments, Loans, Advances, Guarantees and Acquisitions . The Borrower will not, and will not permit any of its Subsidiaries to, make any Investment in any Person, except:

(a) Investments in Cash Equivalents;

(b) Investments by the Borrower and its Subsidiaries existing on the date hereof in the Equity Interests of its Subsidiaries;

(c) Investments made by any Loan Party in or to any other Loan Party;

(d) Guarantees constituting Indebtedness permitted by Section 6.01;

(e) any guarantees by the Borrower and its Subsidiaries of the operating or commercial obligations (to the extent not constituting Indebtedness) of the Borrower or any of its Subsidiaries incurred in the ordinary course of business;

(f) Investments consisting of extensions of credit in the nature of accounts receivable or notes receivable arising from the granting of trade credit in the ordinary course of business, and Investments received in satisfaction or partial satisfaction thereof from financially troubled account debtors to the extent reasonably necessary in order to prevent or limit loss;

(g) deposits made in the ordinary course of business to secure the performance of leases or other obligations as permitted by Section 6.02;

(h) Reserved;

(i) loans made by the Borrower to Temple Generation I LLC pursuant to the BKV- Temple Loan Agreement in an aggregate principal amount not to exceed $15,000,000 at any time outstanding;

(j) Investments in direct or indirect ownership interests in additional Oil and Gas Properties and Properties related to oil and gas exploration and production activities, midstream, downstream, carbon capture, utilization and storage (CCUS), solar and any other related businesses located within the geographic boundaries of Canada, the United States and Mexico so long as after giving pro forma effect thereto no Default or Event of Default shall have occurred and be continuing;

(k) any other Investment (other than acquisitions) not otherwise permitted by this Section 6.05, so long as (i) at the time of such Investment and immediately after giving effect thereto, no Default or Event of Default shall have occurred and be continuing and (ii) the aggregate amount of all such Investments made pursuant to this clause (k) does not exceed $5,000,000 at any time outstanding;

(l) Investments in the form of Swap Agreements not prohibited under Section 6.06;

(m) Investments in the ordinary course of business consisting of (x) endorsements for collection or deposit and customary trade arrangements with customers and (y) deposits, prepayments and/or other credits to suppliers, vendors or other trade counterparties; and

(n) promissory notes and other non-cash consideration received by the Borrower, the Borrower or any Subsidiary in connection with any Disposition permitted hereunder.

SECTION 6.06. Swap Agreements.

(a) The Borrower will not, and will not permit any of its Subsidiaries to, enter into any Swap Agreements in respect of commodities with any Person other than Swap Agreements in respect of commodities (i) with an Approved Swap Counterparty, (ii) the tenor of which does not exceed five (5) years and (iii) the notional volumes for which (other than for (x) basis differential swaps on volumes hedged pursuant to other Swap Agreements and (y) Swap Agreements providing for floors), when aggregated with all other commodity Swap Agreements then in effect (other than for (x) basis differential swaps on volumes hedged pursuant to other Swap Agreements and (y) Swap Agreements providing for floors) do not exceed on a monthly basis (determined, in the case of contracts that are not settled on a monthly basis, by a monthly proration acceptable to the Administrative Agent), as of the date the latest hedging transaction is entered into under any such Swap Agreement, ninety percent (90%) of the reasonably anticipated projected production of crude oil, natural gas and natural gas liquids, calculated in the aggregate, attributable to Proved Developed Producing Reserves of the Loan Parties evaluated in the most recently delivered Reserve Report.

(b) No Swap Agreement shall be entered into for speculative purposes.

(c) For purposes of entering into or maintaining Swap Agreement trades or transactions under this Section 6.06, forecasts of reasonably anticipated production from the Proved Oil and Gas Properties of the Borrower and its Subsidiaries as set forth on the most recent Reserve Report delivered pursuant to the terms of this Agreement shall, at the option of the Borrower, be deemed to be updated to account for any increase or decrease therein anticipated because of information obtained by the Borrower or any of its Subsidiaries and delivered to the Administrative Agent subsequent to the publication of such Reserve Report including, without limitation, the internal forecasts of the Borrower and its Subsidiaries of production decline rates for existing wells, additions to or deletions from anticipated future production from new wells, completed dispositions, and completed acquisitions coming on stream or failing to come on stream; provided that any such supplemental information shall be provided to the Administrative Agent and be reasonably satisfactory to the Administrative Agent and if any such supplemental information is delivered, such information shall be presented on a net basis (*i.e.*, it shall take into account both increases and decreases in anticipated production subsequent to publication of the most recent Reserve Report).

SECTION 6.07. Transactions with Affiliates. The Borrower will not, and will not permit any of its Subsidiaries to, enter into or permit to exist any transaction (including the purchase, sale, lease or exchange of any property or the rendering of any service) with any Affiliate of, or officer or director of, the Borrower or any Subsidiary of the Borrower, except at prices and on terms and conditions that are no less favorable to the Borrower or such Subsidiary, as the case may be, than those that could be obtained at the time from a Person who is not an officer, director or Affiliate of the Borrower or any Subsidiary of the Borrower; provided that the foregoing restriction shall not apply to (a) any transaction solely between or among the Loan Parties not involving any other Affiliate, (b) fees and compensation to, reimbursement of expenses of, and indemnity provided on behalf of, officers, directors and employees of the Borrower or any of its Subsidiaries in their capacity as such, to the extent such fees and compensation are customary, (c) any Restricted Payment permitted by Section 6.08 and Investments permitted by Section 6.05, (d) issuances of Equity Interests of the Borrower not prohibited by this Agreement, and (e) the performance of employment, equity award, equity option or equity appreciation agreements, plans or similar compensation or benefit plans or arrangements (including vacation plans, health and insurance plans, deferred compensation plans and retirement or savings plans); provided, further, that in no event shall the Borrower or any of

its Subsidiaries enter into any transaction providing financial support to any Permitted Holder.

SECTION 6.08. Restricted Payments. The Borrower will not, and will not permit any of its Subsidiaries to, declare or make, or agree to pay or make, directly or indirectly, any Restricted Payment, except:

(a) the Borrower may declare and pay dividends with respect to its Qualified Equity Interests payable solely in additional units or shares of its Equity Interests (other than Disqualified Equity Interests);

(b) Subsidiaries may declare and pay dividends to the Borrower and other Subsidiaries ratably with respect to their Equity Interests;

(c) the Borrower may redeem, acquire, retire or repurchase, for cash, shares of Equity Interests (other than Disqualified Equity Interests) of the Borrower held by an present or former officer, manager, director or employee of the Borrower or any of its Subsidiaries upon the death, disability, retirement or termination of employment of any such person or otherwise make Restricted Payments pursuant to Qualifying Benefit Plans so long as, in each case, no Default or Event of Default exists at the time of such payment or results therefrom; and

(d) the Borrower may make Restricted Payments in an aggregate amount not to exceed the Specified Amount so long as the Payment Conditions have been met.

SECTION 6.09. Reduction in Share Capital. The Borrower will not, and will not permit any of its Subsidiaries or any other Person to, redeem, purchase or otherwise reduce any of the Borrower's or any Subsidiary's authorized or outstanding Equity Interests or the share capital of the Borrower or its Subsidiaries, except in each case as permitted by Section 6.08.

SECTION 6.10. Sale and Leaseback Transactions. The Borrower will not, nor will it permit any of its Subsidiaries to, consummate any Sale and Leaseback Transaction.

SECTION 6.11. Financial Covenants.

(a) Minimum Asset Coverage Ratio. The Borrower will not, as of December 31 and June 30 of any Fiscal Year (beginning December 31, 2022), permit the Asset Coverage Ratio to be less than 2.00 to 1.00.

(b) Maximum Total Net Leverage Ratio. The Borrower will not, as of the last day of any Fiscal Quarter (commencing with the Fiscal Quarter ending September 30, 2022), permit the Total Net Leverage Ratio to be greater than 2.50 to 1.00.

(c) Minimum Consolidated Fixed Charge Coverage Ratio. The Borrower will not, as of the last day of any Fiscal Quarter (commencing with the Fiscal Quarter ending September 30, 2022), permit the Consolidated Fixed Charge Coverage Ratio to be less than 1.30 to 1.00.

SECTION 6.12. Amendments to Organizational Documents. The Borrower shall not, nor shall it permit any of its Subsidiaries to amend, modify, waive or supplement (or permit any modification, amendment, waiver or supplement of) any of the terms or provisions of its Organizational Documents in any manner that is materially adverse to the interests of the Lenders.

SECTION 6.13. Sale or Discount of Receivables. Except for the settlement of joint interest billing accounts in the ordinary course of business or discounts granted to settle collection of accounts receivable or the sale of defaulted accounts arising in the ordinary course of business in connection with the compromise or collection thereof and not in connection with any financing transaction, the Borrower will not, and will not permit any of its Subsidiaries to, discount or sell (with or without recourse) any of its notes receivable or accounts receivable.

SECTION 6.14. Foreign Subsidiaries. The Borrower shall not, nor shall it permit any of its Subsidiaries to, create, acquire or permit to exist any Subsidiary which is not organized under the laws of a jurisdiction located in the United States of America.

SECTION 6.15. Proceeds of Loans. The Borrower and each Subsidiary of the Borrower will not permit the proceeds of the Revolving Loans to be used for any purpose other than those permitted by Section 3.20. The Borrower shall not issue a Borrowing Request and the Borrower shall not use, and shall procure that its directors, officers, employees and agents shall not use, the proceeds of the Revolving Loans (i) in furtherance of an offer, payment, promise to pay, or authorization of the payment or giving of money, or anything else of value, to any Person in violation of any Anti-Corruption Laws, (ii) for the purpose of funding, financing or facilitating any activities, business or transaction of or with any Sanctioned Person, or in any Sanctioned Country to the extent such activities, business or transaction would be prohibited by Sanctions if conducted by a corporation incorporated in the United States, or (iii) in any manner that would result in the violation of any Sanctions applicable to any party hereto.

SECTION 6.16. Take-or-Pay or Other Prepayments. Except as set forth on Schedule 3.23 or in the most recent certificate delivered pursuant to Section 5.14(d), the Borrower will not, and will not permit any of its Subsidiaries to, allow, on a net basis, gas imbalances, take-or-pay or other prepayments with respect to the Proved Oil and Gas Properties of the Loan Parties that would require any Loan Party to deliver Hydrocarbons either generally or produced from Oil and Gas Properties at some future date with a value of $5,000,000 or more, which in the case of imbalances, would be satisfied no later than forty five (45) days after being occurred.

SECTION 6.17. Marketing Activities. The Borrower will not, and will not permit any of its Subsidiaries to, engage in marketing activities for any Hydrocarbons or enter into any contracts related thereto other than (a) contracts for the sale of Hydrocarbons scheduled or reasonably estimated to be

produced from their Proved Oil and Gas Properties during the period of such contract and (b) contracts for the sale of Hydrocarbons scheduled or reasonably estimated to be produced from Proved Oil and Gas Properties of third parties during the period of such contract associated with the Oil and Gas Properties of the Borrower or any Subsidiary that the Borrower or such Subsidiary has the right to market pursuant to joint operating agreements, unitization agreements or other similar contracts that are usual and customary in the oil and gas business.

SECTION 6.18. Prepayment of Subordinated Shareholder Loans; Amendments to Subordinated Shareholder Loan Documents .

(a) The Borrower shall not, nor shall the Borrower permit any of its Subsidiaries to, (i) prepay, redeem, purchase, defease or otherwise satisfy prior to the scheduled maturity thereof in any manner any Subordinated Shareholder Loan, (ii) make any cash payment of interest on any Subordinated Shareholder Loans ((i) and (ii), each, a "Restricted Debt Payment"), or (iii) make any payment in violation of any subordination terms of any Subordinated Shareholder Loans, except:

(i) the refinancing thereof with the net proceeds of, or in exchange for, any Indebtedness permitted to be incurred pursuant to Section 6.01; and

(ii) any Restricted Debt Payments in an amount not to exceed the Specified Amount so long as the Payment Conditions are met.

(b) The Borrower shall not, nor shall it permit any of its Subsidiaries to, amend, modify or change any agreement governing any Subordinated Shareholder Loans (including the Amended and Restated Shareholder Loan Agreements) in a manner materially adverse to the interests of the Lenders without the prior written consent of the Administrative Agent (provided that, for the avoidance of doubt, any amendment which would (x) increase the rate of interest applicable to any Subordinated Shareholder Loan, (y) make any Subordinated Shareholder Loan secured, or (z) make the principal amount of any Subordinated Shareholder Loan due and payable at an earlier time than prior to giving effect to such amendment shall be considered materially adverse to the interests of the Lenders).

SECTION 6.19.Reserved.

SECTION 6.20.Amendments to Uncommitted Credit Facility Agreements/Term Loan Credit Agreement. The Borrower shall not, nor shall it permit any of its Subsidiaries to, amend, modify or change any Uncommitted Credit Facility Agreement or the Term Loan Credit Agreement, in each case in a manner materially adverse to the interests of the Lenders without the prior written consent of the Administrative Agent.

ARTICLE VII

Events of Default

SECTION 7.01.Events of Default. If any of the following events (each, an "Event of Default") shall occur:

(a) the principal of any Revolving Loan shall not be paid when such payment is due, whether at the due date thereof or at a date fixed for prepayment thereof or otherwise;

(b) any interest on any Revolving Loan, any fee or any other amount (other than an amount referred to in clause (a) of this Section 7.01) payable under this Agreement or any other Loan Document shall not be paid when the same shall become due and payable and such failure shall continue unremedied for a period of (i) with respect to interest, two (2) Business Days solely to the extent such failure is as a result of a technical or administrative error and (ii) for any fee or any other amount (other than an amount referred to in clause (a) or (b)(i) of this Section 7.01), two (2) Business Days;

(c) any representation or warranty made or deemed made by or on behalf of the Borrower or any other Loan Party in or in connection with this Agreement or any other Loan Document or any amendment or modification hereof or thereof or waiver hereunder or thereunder, or in any report, certificate, financial statement or other document furnished pursuant to or in connection with this Agreement or any other Loan Document or any amendment or modification thereof or waiver thereunder, shall prove to have been incorrect in any material respect when made or deemed made (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in any respect);

(d) any Loan Party shall fail to observe or perform any covenant, condition or agreement contained in Section 5.02, 5.03 (with respect to the Borrower's existence), 5.04, 5.11, 5.14, 5.22 or in Article VI;

(e) (i) any Loan Party shall fail to observe or perform the covenant in Section 5.22 and such failure shall continue unremedied for a period of five (5) Business Days, (ii) any Loan Party shall fail to observe or perform any covenant, condition or agreement contained in Section 5.01(a), Section 5.01(b) or Section 5.01(c), and such failure shall continue unremedied for a period of ten (10) Business Days or (iii) the Borrower or any other Loan Party, as applicable, shall fail to observe or perform any covenant, condition or agreement contained in this Agreement (other than those specified in clause (a), (b), (d) or (e)(i) or (ii) of this Article) or any other Loan Document, and such failure shall continue unremedied for a period of thirty (30) days after the earlier of (A) notice thereof from the Administrative Agent to the Borrower or (B) a Responsible Officer of the Borrower or any other Loan Party becoming aware of such default;

(f) the Borrower or any Subsidiary of the Borrower shall fail to make any payment (whether of principal or interest and regardless of amount) in respect of any Material Indebtedness, when and as the same shall become due and payable (after giving effect to any applicable grace periods);

(g) other than as specified in clause (f) of this Article, any Loan Party defaults under any Material Indebtedness (other than, with respect to Material Indebtedness consisting of a Swap Agreement, termination events or equivalent events pursuant to the terms of such Swap Agreement not arising as a result of a default by any Loan Party thereunder) that results in any Material Indebtedness becoming due prior to its scheduled maturity or that enables or permits (with or without the giving of notice) the holder or holders of any Material Indebtedness or any trustee or agent on its or their behalf to cause any Material Indebtedness to become due, or to require the prepayment, repurchase, redemption or defeasance thereof, prior to its scheduled maturity;

(h) an involuntary proceeding shall be commenced or an involuntary petition shall be filed seeking (i) liquidation, reorganization or other relief in respect of the Borrower or any Subsidiary of the Borrower or its debts, or of a substantial part of its assets, under any Federal, state or foreign bankruptcy, insolvency, receivership or similar law now or hereafter in effect or (ii) the appointment of a receiver, trustee, custodian, sequestrator, conservator or similar official for the Borrower or any Subsidiary of the Borrower or for a substantial part of its assets, and, in any such case, such proceeding or petition shall continue undismissed for sixty (60) days or an order or decree approving or ordering any of the foregoing shall be entered;

(i) the Borrower or any Subsidiary of the Borrower shall (i) voluntarily commence any proceeding or file any petition seeking liquidation, reorganization or other relief under any Federal, state or foreign bankruptcy, insolvency, receivership or similar law now or hereafter in effect, (ii) consent to the institution of, or fail to contest in a timely and appropriate manner, any proceeding or petition described in clause (h) of this Section 7.01, (iii) apply for or consent to the appointment of a receiver, trustee, custodian, sequestrator, conservator or similar official for the Borrower or any Subsidiary of the Borrower or for a substantial part of its assets, (iv) file an answer admitting the material allegations of a petition filed against it in any such proceeding, or (v) make a general assignment for the benefit of creditors;

(j) the Borrower or any Subsidiary of the Borrower shall admit in writing its inability or fail generally to pay its debts as they become due;

(k) one or more final judgments for the payment of money in an aggregate amount in excess of $10,000,000 shall be rendered against the Borrower or any Subsidiary of the Borrower or any combination thereof (to the extent not covered by independent third-party insurance as to which the insurer does not dispute coverage) and the same shall remain undischarged for a period of sixty (60) consecutive days during which execution shall not be effectively stayed, or any action shall be legally taken by a judgment creditor to attach or levy upon any assets of the Borrower or any Subsidiary of the Borrower to enforce any such judgment;

(l) an ERISA Event shall have occurred that, in the opinion of the Administrative Agent, when taken together with all other ERISA Events that have occurred, could reasonably be expected to result in liability of the Loan Parties in an aggregate amount exceeding $10,000,000;

(m) a Change in Control shall occur;

(n) the occurrence of a material adverse change in the business, operations, properties, liabilities or financial condition of the Borrower and its Subsidiaries, taken as a whole;

(o) the Borrower and its Subsidiaries, taken as a whole, shall cease normal business operations;

(p) any Loan Party shall cease, suspend or Dispose of its core business without the consent of the Required Lenders;

(q) any material provision of any Loan Document for any reason ceases to be valid, binding and enforceable in accordance with its terms (or any Loan Party shall challenge the enforceability of any Loan Document or shall assert in writing, or engage in any action or inaction based on any such assertion, that any provision of any of the Loan Documents has ceased to be or otherwise is not valid, binding and enforceable in accordance with its terms);

then, and in every such event (other than an event with respect to any of the Loan Parties described in clause (h) or (i) of this Section 7.01), and at any time thereafter during the continuance of such event, the Administrative Agent may, and at the request of the Required Lenders shall, by notice to the Borrower, take either or both of the following actions, at the same or different times: (i) terminate the Commitments (if not already terminated), and thereupon the Commitments shall terminate immediately, and (ii) declare the Revolving Loans then outstanding to be due and payable in whole (or in part, in which case any principal not so declared to be due and payable may thereafter be declared to be due and payable), and thereupon the principal of the Revolving Loans so declared to be due and payable, together with accrued interest thereon and all fees and other Obligations accrued hereunder and under the other Loan Documents, shall become due and payable immediately, without presentment, demand, protest or other notice of any kind, all of which are hereby waived by each Loan Party; and in case of any event described in clause (h) or (i) of this Section 7.01, the Commitments shall automatically terminate and the principal of the Revolving Loans then outstanding, together with accrued interest thereon, any break funding payments required by Section 2.18 with respect thereto and all fees and other Obligations accrued hereunder and under the other Loan Documents, shall automatically become due and payable, without presentment, demand, protest or other notice of any kind, all of which are hereby waived by each Loan Party. Upon the occurrence and during the continuance of an Event of Default, the Administrative Agent may, and at the request of the Required Lenders shall (subject to its rights and protections under Article VIII), exercise any rights and remedies provided to the Administrative Agent, as applicable, under the Loan Documents or at law or equity, including all remedies provided under the UCC.

SECTION 7.02. Right to Cure Defaults.

(a) In the event that the Borrower fails to comply with Section 6.11(b) or Section 6.11(c) as of the last day of any Fiscal Quarter (a "Cure Quarter") then during the period beginning on the Cure Period Start Date and ending ten (10) Business Days after the date the Compliance Certificate for such Cure Quarter is required to be delivered pursuant to Section 5.01(d) (the "Cure Period"), the Borrower shall be permitted to cure such failure to comply by receiving a Specified Contribution and by recalculating the financial covenant in Section 6.11(b) of Section 6.11(c) by increasing Consolidated EBITDA for such Cure Quarter by an amount up to the amount of the Specified Contribution received by the Borrower during the Cure Period (the "Cure Right"). If, after giving effect to the foregoing recalculations, the Borrower shall then be in compliance with the requirements of Section 6.11(b) or

Section 6.11(c), the Borrower shall be deemed to have satisfied the requirements of Section 6.11(b) or Section 6.11(c) as of the last day of the applicable Cure Quarter with the same effect as though there had been no failure to comply with Section 6.11(b) or Section 6.11(c) on such date, and the applicable Default or Event of Default with respect to Section 6.11(b) or Section 6.11(c) and the Cure Quarter that had occurred shall be deemed not to have occurred for purposes of this Agreement and the other Loan Documents; provided, however, that:

(i) the Borrower shall notify the Administrative Agent in writing during the period beginning on the Cure Period Start Date and ending five (5) Business Days after the date the Compliance Certificate for such Cure Quarter is required to be delivered pursuant to Section 5.01(d) (the "Cure Election Period") that the Borrower intends to exercise the Cure Right in respect of the applicable Cure Quarter;

(ii) in each period of four consecutive Cure Quarters there shall be at least two Cure Quarters in which no Cure Right is exercised;

(iii) the Cure Right shall not be exercised more than five times during the term of this Agreement;

(iv) the amount of each Specified Contribution that may be applied to increase Consolidated EBITDA for the applicable Cure Quarter shall not exceed the amount required to cause the Borrower to be in compliance with Section 6.11(b) with respect to such Cure Quarter;

(v) all proceeds of any Specified Contribution shall for the purposes of this Section 7.02 be treated as increases to Consolidated EBITDA rather than as decreases in Indebtedness (except if such Specified Contribution is in the form of a Subordinated Shareholder PIK Loan, in which case such Specified Contribution shall also be treated as a decrease in Indebtedness as a result of the related mandatory prepayment of Revolving Loans required by Section 2.08(d));

(vi) the amount of any Specified Contribution used to increase Consolidated EBITDA shall be credited to the applicable Cure Quarter and such amount may be included in the calculation of Consolidated EBITDA for any consecutive four Fiscal Quarter period that includes such Cure Quarter; and

(vii) Consolidated EBITDA shall be increased solely for the purpose of recalculating and complying with the financial covenant in Section 6.11(b) or Section 6.11(c) in accordance with this Section 7.02 and not for the purpose of calculating Consolidated EBITDA for any other purpose.

Upon receipt by the Administrative Agent of written notice from the Borrower, on or prior to the expiration of the Cure Election Period, that the Borrower intends to exercise a Cure Right in respect of a Fiscal Quarter, the Lenders shall not be permitted to accelerate payment of any Obligations owed to them or to exercise remedies, in each case, on the basis of a failure to comply with the requirements of Section 6.11(b) or Section 6.11(c) as of the end of such Fiscal Quarter, unless such failure is not cured pursuant to the exercise of the Cure Right on or prior to the expiration of the Cure Period; provided, however, that (i) the Cure Right shall not affect in any way the rights and remedies of the Lenders or the Administrative Agent with respect to any other Default or Event of Default and (ii) for the avoidance of doubt, unless and until (x) such failure to comply is cured pursuant to the exercise of the Cure Right and (y) the Borrower has delivered a certificate to the Administrative Agent certifying that the proceeds of the Specified Contribution were used exclusively to prepay any Revolving Loan in accordance with Section 2.08(d), in each case, on or prior to the expiration of the Cure Period, the Borrower and its Subsidiaries shall be prohibited from taking any action that is prohibited under the Loan Documents from being taken while a Default or Event of Default exists. The Administrative Agent shall not be responsible for determining whether a Cure Right has been properly exercised in accordance with the terms of this Section 7.02. The proceeds of any Specified Contribution received by the Borrower shall be used to prepay any Revolving Loans then outstanding in accordance with Section 2.08(d).

(b) In the event that the Borrower fails to comply with Section 5.22 as of the last day of any calendar month in which such covenant is tested (a "Cure Month") then the Borrower shall make the mandatory prepayment of Revolving Loans required pursuant to Section 2.08(e) within the time period provided therein. If the Borrower makes such mandatory prepayment of Revolving Loans within the time period provided in Section 2.08(e), the Borrower shall be deemed to have satisfied the requirements of Section 5.22 as of the last day of the applicable Cure Month with the same effect as though there had been no failure to comply with Section 5.22 on the last day of such Cure Month, and any applicable Default or Event of Default with respect to Section 5.22 shall be deemed not to have occurred for purposes of this Agreement and the other Loan Documents.

(c) For the avoidance of doubt, in the event that a mandatory prepayment is required pursuant to subsection (b), (c), (d) or (f) of Section 2.08 and the Borrower makes such mandatory prepayment within the time period prescribed in such subsection, no Default or Event of Default shall be deemed to have occurred for purposes of this Agreement and the other Loan Documents.

ARTICLE VIII

The Agents

SECTION 8.01. Appointment and Authorization.

(a) Each Lender hereby irrevocably appoints the entity named as Administrative Agent in the heading of this Agreement and its successors and assigns to serve as the administrative agent under the Loan Documents and each Lender authorizes the Administrative Agent to take such actions as agent on its behalf and to exercise such powers under this Agreement and the other Loan Documents as are delegated to the Administrative Agent under such agreements and to exercise such powers as are reasonably incidental thereto. Without limiting the foregoing, each Lender hereby authorizes the Administrative Agent to execute and deliver, and to perform its obligations under, each of the Loan Documents to which the Administrative Agent is a party, to

exercise all rights, powers and remedies that the Administrative Agent may have under such Loan Documents.

(b) As to any matters not expressly provided for herein and in the other Loan Documents (including enforcement or collection), the Administrative Agent shall not be required to exercise any discretion or take any action, but shall be required to act or to refrain from acting (and shall be fully protected in so acting or refraining from acting) upon the written instructions of the Required Lenders, as applicable (or such other number or percentage of the Lenders as shall be necessary, pursuant to the terms in the Loan Documents), and, unless and until revoked in writing, such instructions shall be binding upon each Lender; *provided, however*, that the Administrative Agent shall not be required to take any action that (i) the Administrative Agent in good faith believes exposes it to liability unless the Administrative Agent receives an indemnification satisfactory to it from the Lenders with respect to such action or (ii) is contrary to this Agreement or any other Loan Document or applicable Requirements of Law, including any action that may be in violation of the automatic stay under any requirement of law relating to bankruptcy, insolvency or reorganization or relief of debtors or that may effect a forfeiture, modification or termination of property of a Defaulting Lender in violation of any requirement of law relating to bankruptcy, insolvency or reorganization or relief of debtors; *provided further* that the Administrative Agent may seek clarification or direction from the Required Lenders, as applicable, prior to the exercise of any such instructed action and may refrain from acting until such clarification or direction has been provided. Except as expressly set forth in the Loan Documents, the Administrative Agent shall not have any duty to disclose, and shall not be liable for the failure to disclose, any information relating to the Borrower, any Subsidiary or any Affiliate of any of the foregoing that is communicated to or obtained by the Person serving as Administrative Agent or any of its Affiliates in any capacity. Nothing in this Agreement shall require the Administrative Agent to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder or in the exercise of any of its rights or powers if it shall have reasonable grounds for believing that repayment of such funds or adequate indemnity against such risk or liability is not reasonably assured to it.

(c) In performing its functions and duties hereunder and under the other Loan Documents, the Administrative Agent is acting solely on behalf of the Lenders (except in limited circumstances expressly provided for herein relating to the maintenance of the Register), and its duties are entirely mechanical and administrative in nature. Without limiting the generality of the foregoing:

(i) the Administrative Agent does not assume and shall not be deemed to have assumed any obligation or duty or any other relationship as the agent, fiduciary or trustee of or for any Lender or holder of any other obligation other than as expressly set forth herein and in the other Loan Documents, regardless of whether a Default or an Event of Default has occurred and is continuing (and it is understood and agreed that the use of the term "agent" (or any similar term) herein or in any other Loan Document with reference to the Administrative Agent is not intended to connote any fiduciary duty or other implied (or express) obligations arising under agency doctrine of any applicable Requirements of Law, and that such term is used as a matter of market custom and is intended to create or reflect only an administrative relationship between contracting parties); additionally, each Lender agrees that it will not assert any claim against the Administrative Agent based on an alleged breach of fiduciary duty by the Administrative Agent in connection with this Agreement and the transactions contemplated hereby;

(ii) nothing in this Agreement or any Loan Document shall require the Administrative Agent to account to any Lender for any sum or the profit element of any sum received by the Administrative Agent for its own account;

(d) The Administrative Agent may perform any of its duties and exercise its rights and powers hereunder or under any other Loan Document by or through any one or more sub-agents appointed by the Administrative Agent. The Administrative Agent and any such sub-agent may perform any of their respective duties and exercise their respective rights and powers through their respective Related Parties. The exculpatory provisions of this Article shall apply to any such sub-agent and to the Related Parties of the Administrative Agent and any such sub-agent, and shall apply to their respective activities pursuant to this Agreement. The Administrative Agent shall not be responsible for the negligence or misconduct of any sub-agent except to the extent that a court of competent jurisdiction determines in a final and nonappealable judgment that the Administrative Agent acted with gross negligence or willful misconduct in the selection of such sub-agent.

(e) Reserved.

(f) In case of the pendency of any proceeding with respect to any Loan Party under any Federal, state or foreign bankruptcy, insolvency, receivership or similar law now or hereafter in effect, the Administrative Agent (irrespective of whether the principal of any Revolving Loan or any Obligation shall then be due and payable as herein expressed or by declaration or otherwise and irrespective of whether the Administrative Agent shall have made any demand on the Borrower) shall be entitled and empowered (but not obligated) by intervention in such proceeding or otherwise:

(i) to file and prove a claim for the whole amount of the principal and interest owing and unpaid in respect of the Revolving Loans and all other Obligations that are owing and unpaid and to file such other documents as may be necessary or advisable in order to have the claims of the Lenders and the Administrative Agent (including any claim under Sections 2.09, 2.10, 2.12, 2.14 and 9.03) allowed in such judicial proceeding; and

(ii) to collect and receive any monies or other property payable or deliverable on any such claims and to distribute the same;

and any custodian, receiver, assignee, trustee, liquidator, sequestrator or other similar official in any such proceeding is hereby authorized by each Lender and each other Credit Party to make such payments to the Administrative Agent and, in the event that the Administrative Agent shall consent to the making of such payments directly to the Lenders or the other Credit Parties, to pay to the Administrative Agent any amount due to it, in its capacity as the Administrative Agent, under the Loan Documents (including under Section 9.03). Nothing contained herein shall be deemed to authorize the Administrative Agent to authorize or consent to or accept or adopt on behalf of any Lender any plan of reorganization, arrangement, adjustment or composition affecting the Obligations or the rights of any Lender or to authorize the Administrative Agent to vote in respect of the claim of any Lender in any such proceeding.

(g) The provisions of this Article are solely for the benefit of the Administrative Agent, the Lenders, and, except solely to the extent of the

Borrower's rights to consent pursuant to and subject to the conditions set forth in this Article, none of the Borrower or any Subsidiary, or any of their respective Affiliates, shall have any rights as a third party beneficiary under any such provisions. Each Credit Party, whether or not a party hereto, will be deemed, by its acceptance of the benefits of the Guarantees of the Obligations provided under the Loan Documents, to have agreed to the provisions of this Article.

SECTION 8.02. Administrative Agent's Reliance, Indentification, Etc.

(a) Neither the Administrative Agent nor any of its Related Parties shall be (i) liable for any action taken or omitted to be taken by it under or in connection with this Agreement or the other Loan Documents (x) with the consent of or at the request of the Required Lenders, as applicable, (or such other number or percentage of the Lenders as shall be necessary, or as the Administrative Agent shall believe in good faith to be necessary, under the circumstances as provided in the Loan Documents) or (y) in the absence of its own gross negligence or willful misconduct (such absence to be presumed unless otherwise determined by a court of competent jurisdiction by a final and nonappealable judgment) or (ii) responsible in any manner to any of the Lenders for any recitals, statements, representations or warranties made by any Loan Party or any officer thereof contained in this Agreement or any other Loan Document or in any certificate, report, statement or other document referred to or provided for in, or received by the Administrative Agent under or in connection with, this Agreement or any other Loan Document or for the value, validity, effectiveness, genuineness, enforceability or sufficiency of this Agreement or any other Loan Document or for any failure of any Loan Party to perform its obligations hereunder or thereunder.

(b) The Administrative Agent shall be deemed not to have knowledge of any Default unless and until written notice thereof (stating that it is a "notice of default") is given to the Administrative Agent by the Borrower, a Lender and the Administrative Agent shall not be responsible for or have any duty to ascertain or inquire into (i) any statement, warranty or representation made in or in connection with any Loan Document, (ii) the contents of any certificate, report or other document delivered thereunder or in connection therewith, (iii) the performance or observance of any of the covenants, agreements or other terms or conditions set forth in any Loan Document or the occurrence of any Default, (iv) the sufficiency, validity, enforceability, effectiveness or genuineness of any Loan Document or any other agreement, instrument or document, (v) the satisfaction of any condition set forth in Article IV or elsewhere in any Loan Document, other than to confirm receipt of items expressly required to be delivered to the Administrative Agent or satisfaction of any condition that expressly refers to the matters described therein being acceptable or satisfactory to the Administrative Agent, or (vi) the creation, perfection or priority of Liens on any collateral.

(c) Without limiting the foregoing, the Administrative Agent (i) may treat the payee of any promissory note as its holder until such promissory note has been assigned in accordance with Section 9.04, (ii) may rely on the Register to the extent set forth in Section 9.04(b), (iii) may consult with legal counsel (including counsel to the Borrower), independent public accountants and other experts selected by it, and shall not be liable for any action taken or omitted to be taken in good faith by it in accordance with the advice of such counsel, accountants or experts, (iv) makes no warranty or representation to any Lender and shall not be responsible to any Lender for any statements, warranties or representations made by or on behalf of any Loan Party in connection with this Agreement or any other Loan Document, (v) in determining compliance with any condition hereunder to the making of a Revolving Loan that by its terms must be fulfilled to the satisfaction of a Lender, may presume that such condition is satisfactory to such Lender unless the Administrative Agent shall have received notice to the contrary from such Lender sufficiently in advance of the making of such Revolving Loan and (vi) shall be entitled to rely on, and shall incur no liability under or in respect of this Agreement or any other Loan Document by acting upon, any notice, consent, certificate or other instrument or writing (which writing may be a fax, any electronic message, Internet or intranet website posting or other distribution) or any statement made to it orally or by telephone and believed by it to be genuine and signed or sent or otherwise authenticated by the proper party or parties (whether or not such Person in fact meets the requirements set forth in the Loan Documents for being the maker thereof).

SECTION 8.03. Posting of Communications.

(a) The Borrower agrees that the Administrative Agent may, but shall not be obligated to, make any Communications available to the Lenders by posting the Communications on IntraLinks™, DebtDomain, SyndTrak, ClearPar or any other electronic platform chosen by the Administrative Agent to be its electronic transmission system (the "Approved Electronic Platform").

(b) Although the Approved Electronic Platform and its primary web portal are secured with generally-applicable security procedures and policies implemented or modified by the Administrative Agent from time to time (including, as of the Effective Date, a user ID/password authorization system) and the Approved Electronic Platform is secured through a per-deal authorization method whereby each user may access the Approved Electronic Platform only on a deal-by-deal basis, each of the Lenders and the Borrower acknowledges and agrees that the distribution of material through an electronic medium is not necessarily secure and that there are confidentiality and other risks associated with such distribution. Each of the Lenders and the Borrower hereby approves distribution of the Communications through the Approved Electronic Platform and understands and assumes the risks of such distribution.

(c) THE APPROVED ELECTRONIC PLATFORM AND THE COMMUNICATIONS ARE PROVIDED "AS IS" AND "AS AVAILABLE". THE APPLICABLE PARTIES (AS DEFINED BELOW) DO NOT WARRANT THE ACCURACY OR COMPLETENESS OF THE COMMUNICATIONS, OR THE ADEQUACY OF THE APPROVED ELECTRONIC PLATFORM AND EXPRESSLY DISCLAIM LIABILITY FOR ERRORS OR OMISSIONS IN THE APPROVED ELECTRONIC PLATFORM AND THE COMMUNICATIONS. NO WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR STATUTORY, INCLUDING ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT OF THIRD PARTY RIGHTS OR FREEDOM FROM VIRUSES OR OTHER CODE DEFECTS, IS MADE BY THE APPLICABLE PARTIES IN CONNECTION WITH THE COMMUNICATIONS OR THE APPROVED ELECTRONIC PLATFORM. IN NO EVENT SHALL THE ADMINISTRATIVE AGENT OR ANY OF ITS RELATED PARTIES (COLLECTIVELY, "APPLICABLE PARTIES") HAVE ANY LIABILITY TO ANY LOAN PARTY, ANY LENDER OR ANY OTHER PERSON OR ENTITY FOR DAMAGES OF ANY KIND, INCLUDING DIRECT OR INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, LOSSES OR EXPENSES (WHETHER IN TORT, CONTRACT OR OTHERWISE) ARISING OUT OF ANY LOAN PARTY'S OR THE ADMINISTRATIVE AGENT'S TRANSMISSION OF COMMUNICATIONS THROUGH THE INTERNET OR THE APPROVED ELECTRONIC PLATFORM IN THE ABSENCE OF ITS OWN GROSS NEGLIGENCE OR WILLFUL MISCONDUCT (SUCH ABSENCE TO BE PRESUMED UNLESS OTHERWISE DETERMINED BY A COURT OF COMPETENT JURISDICTION BY A FINAL AND NONAPPEALABLE JUDGMENT).

(d) Each Lender agrees that notice to it (as provided in the next sentence) specifying that Communications have been posted to the Approved Electronic Platform shall constitute effective delivery of the Communications to such Lender for purposes of the Loan Documents. Each Lender agrees (i) to notify the Administrative Agent in writing (which could be in the form of electronic communication) from time to time of such Lender's email address to which the foregoing notice may be sent by electronic transmission and (ii) that the foregoing notice may be sent to such email address.

(e) Each of the Lenders and the Borrower agrees that the Administrative Agent may, but (except as may be required by applicable Requirements of Law) shall not be obligated to, store the Communications on the Approved Electronic Platform in accordance with the Administrative Agent's generally applicable document retention procedures and policies.

(f) Nothing herein shall prejudice the right of the Administrative Agent, any Lender to give any notice or other communication pursuant to any Loan Document in any other manner specified in such Loan Document.

SECTION 8.04. The Administrative Agent Individually . With respect to its Commitment and Revolving Loans, the Person serving as the Administrative Agent shall have and may exercise the same rights and powers hereunder and is subject to the same obligations and liabilities as and to the extent set forth herein for any other Lender, as the case may be. The terms "Lenders", "Required Lenders" and any similar terms shall, unless the context clearly otherwise indicates, include the Administrative Agent in its individual capacity as a Lender or as one of the Required Lenders, as applicable. The Person serving as the Administrative Agent and its Affiliates may accept deposits from, lend money to, own securities of, act as the financial advisor or in any other advisory capacity for and generally engage in any kind of banking, trust or other business with, the Borrower, any Subsidiary or any Affiliate of any of the foregoing as if such Person was not acting as the Administrative Agent and without any duty to account therefor to the Lenders.

SECTION 8.05. Successor Administrative Agent .

(a) The Administrative Agent may resign at any time by giving 30 days' prior written notice thereof to the Lenders and the Borrower, whether or not a successor Administrative Agent has been appointed. Upon any such resignation, the Required Lenders shall have the right (with, so long as no Event of Default exists, the consent of the Borrower, which shall not be unreasonably withheld or delayed) to appoint a successor Administrative Agent. If no successor Administrative Agent shall have been so appointed by the Required Lenders, and shall have accepted such appointment, within 30 days after the retiring Administrative Agent's giving of notice of resignation, then the retiring Administrative Agent may, on behalf of the Lenders, appoint a successor Administrative Agent, which shall be a bank with an office in New York, New York or an Affiliate of any such bank. In either case, such appointment shall be subject to the prior written approval of the Borrower (which approval may not be unreasonably withheld and shall not be required while an Event of Default has occurred and is continuing). Upon the acceptance of any appointment as Administrative Agent by a successor Administrative Agent, such successor Administrative Agent shall succeed to, and become vested with, all the rights, powers, privileges and duties of the retiring Administrative Agent. Upon the acceptance of appointment as Administrative Agent by a successor Administrative Agent, the retiring Administrative Agent shall be discharged from its duties and obligations under this Agreement and the other Loan Documents. Prior to any retiring Administrative Agent's resignation hereunder as Administrative Agent, the retiring Administrative Agent shall take such action as may be reasonably necessary to assign to the successor Administrative Agent its rights as Administrative Agent under the Loan Documents.

(b) Notwithstanding paragraph (a) of this Section, in the event no successor Administrative Agent shall have been so appointed and shall have accepted such appointment within 30 days after the retiring Administrative Agent gives notice of its intent to resign, the retiring Administrative Agent may give notice of the effectiveness of its resignation to the Lenders and the Borrower, whereupon, on the date of effectiveness of such resignation stated in such notice, (i) the retiring Administrative Agent shall be discharged from its duties and obligations hereunder and under the other Loan Documents and (ii) the Required Lenders shall succeed to and become vested with all the rights, powers, privileges and duties of the retiring Administrative Agent; *provided* that (A) all payments required to be made hereunder or under any other Loan Document to the Administrative Agent for the account of any Person other than the Administrative Agent shall be made directly to such Person and (B) all notices and other communications required or contemplated to be given or made to the Administrative Agent shall directly be given or made to each Lender. Following the effectiveness of the Administrative Agent's resignation from its capacity as such, the provisions of this Article and Section 9.03, as well as any exculpatory, reimbursement and indemnification provisions set forth in any other Loan Document, shall continue in effect for the benefit of such retiring Administrative Agent, its sub-agents and their respective Related Parties in respect of any actions taken or omitted to be taken by any of them while the retiring Administrative Agent was acting as Administrative Agent and in respect of the matters referred to in the proviso under clause (i) above.

SECTION 8.06. Acknowledgment of Lenders .

(a) Each Lender represents that it is engaged in making, acquiring or holding commercial loans in the ordinary course of its business and that it has, independently and without reliance upon the Administrative Agent or any other Lender, or any of the Related Parties of any of the foregoing, and based on such documents and information as it has deemed appropriate, made its own credit analysis and decision to enter into this Agreement as a Lender, and to make, acquire or hold Revolving Loans hereunder. Each Lender also acknowledges that it will, independently and without reliance upon the Administrative Agent or any other Lender, or any of the Related Parties of any of the foregoing, and based on such documents and information (which may contain material, non-public information within the meaning of the United States securities laws concerning the Borrower and its Affiliates) as it shall from time to time deem appropriate, continue to make its own decisions in taking or not taking action under or based upon this Agreement, any other Loan Document or any related agreement or any document furnished hereunder or thereunder.

(b) Each Lender, by delivering its signature page to this Agreement on the Effective Date, or delivering its signature page to an Assignment and Assumption or any other Loan Document pursuant to which it shall become a Lender hereunder, shall be deemed to have acknowledged receipt of, and consented to and approved, each Loan Document and each other document required to be delivered to, or be approved by or satisfactory to, the Administrative Agent or the Lenders on the Effective Date.

(c) Each Lender hereby agrees that (x) if the Administrative Agent notifies such Lender that the Administrative Agent has determined in its sole discretion that any funds received by such Lender from the Administrative Agent or any of its Affiliates (whether as a payment, prepayment or repayment of principal, interest, fees or otherwise; individually and collectively, a "Payment") were erroneously transmitted to such Lender (whether or not known to such

Person), and demands the return of such Payment (or a portion thereof), such Lender shall promptly, but in no event later than one Business Day thereafter, return to the Administrative Agent the amount of any such Payment (or portion thereof) as to which such a demand was made in same day funds, together with interest thereon in respect of each day from and including the date such Payment (or portion thereof) was received by such Lender to the date such amount is repaid to the Administrative Agent at the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation from time to time in effect, and (y) to the extent permitted by applicable law, such Lender shall not assert, and hereby waives, as to the Administrative Agent, any claim, counterclaim, defense or right of set-off or recoupment with respect to any demand, claim or counterclaim by the Administrative Agent for the return of any Payments received, including without limitation any defense based on "discharge for value" or any similar doctrine. A notice of the Administrative Agent to any Lender under this Section 8.06(c) shall be conclusive, absent manifest error.

(i) Each Lender hereby further agrees that if it receives a Payment from the Administrative Agent or any of its Affiliates (x) that is in a different amount than, or on a different date from, that specified in a notice of payment sent by the Administrative Agent (or any of its Affiliates) with respect to such Payment (a "Payment Notice") or (y) that was not preceded or accompanied by a Payment Notice, it shall be on notice, in each such case, that an error has been made with respect to such Payment. Each Lender agrees that, in each such case, or if it otherwise becomes aware a Payment (or portion thereof) may have been sent in error, such Lender shall promptly notify the Administrative Agent of such occurrence and, upon demand from the Administrative Agent, it shall promptly, but in no event later than one Business Day thereafter, return to the Administrative Agent the amount of any such Payment (or portion thereof) as to which such a demand was made in same day funds, together with interest thereon in respect of each day from and including the date such Payment (or portion thereof) was received by such Lender to the date such amount is repaid to the Administrative Agent at the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation from time to time in effect.

(ii) The Borrower and each other Loan Party hereby agrees that (x) in the event an erroneous Payment (or portion thereof) are not recovered from any Lender that has received such Payment (or portion thereof) for any reason, the Administrative Agent shall be subrogated to all the rights of such Lender with respect to such amount and (y) an erroneous Payment shall not pay, prepay, repay, discharge or otherwise satisfy any Obligations owed by the Borrower or any other Loan Party, except, in each case, to the extent such erroneous Payment is, and solely with respect to the amount of such erroneous Payment that is, comprised of funds received by the Administrative Agent from the Borrower or any other Loan Party for the purpose of satisfying such Obligations.

(iii) Each party's obligations under this Section 8.06(c) shall survive the resignation or replacement of the Administrative Agent or any transfer of rights or obligations by, or the replacement of, a Lender, the termination of the Commitments or the repayment, satisfaction or discharge of all Obligations under any Loan Document.

SECTION 8.07. Certain ERISA Matters.

(a) Each Lender (x) represents and warrants, as of the date such Person became a Lender party hereto, to, and (y) covenants, from the date such Person became a Lender party hereto to the date such Person ceases being a Lender party hereto, for the benefit of, the Administrative Agent and its Affiliates, and not, for the avoidance of doubt, to or for the benefit of the Borrower or any other Loan Party, that at least one of the following is and will be true:

(i) such Lender is not using "plan assets" (within the meaning of the Plan Asset Regulations) of one or more Benefit Plans in connection with the Revolving Loans or the Commitments,

(ii) the transaction exemption set forth in one or more PTEs, such as PTE 84-14 (a class exemption for certain transactions determined by independent qualified professional asset managers), PTE 95-60 (a class exemption for certain transactions involving insurance company general accounts), PTE 90-1 (a class exemption for certain transactions involving insurance company pooled separate accounts), PTE 91-38 (a class exemption for certain transactions involving bank collective investment funds) or PTE 96-23 (a class exemption for certain transactions determined by in-house asset managers), is applicable with respect to such Lender's entrance into, participation in, administration of and performance of the Revolving Loans, the Commitments and this Agreement, and the conditions for exemptive relief thereunder are and will continue to be satisfied in connection therewith,

(iii) (A) such Lender is an investment fund managed by a "Qualified Professional Asset Manager" (within the meaning of Part VI of PTE 84-14), (B) such Qualified Professional Asset Manager made the investment decision on behalf of such Lender to enter into, participate in, administer and perform the Revolving Loans, the Commitments and this Agreement, (C) the entrance into, participation in, administration of and performance of the Revolving Loans, the Commitments and this Agreement satisfies the requirements of sub-sections (b) through (g) of Part I of PTE 84-14 and (D) to the best knowledge of such Lender, the requirements of subsection (a) of Part I of PTE 84-14 are satisfied with respect to such Lender's entrance into, participation in, administration of and performance of the Revolving Loans, the Commitments and this Agreement, or

(iv) such other representation, warranty and covenant as may be agreed in writing between the Administrative Agent, in its sole discretion, and such Lender.

(b) In addition, unless sub-clause (i) in the immediately preceding clause (a) is true with respect to a Lender or such Lender has not provided another representation, warranty and covenant as provided in sub-clause (iv) in the immediately preceding clause (a), such Lender further (x) represents and warrants, as of the date such Person became a Lender party hereto, to, and (y) covenants, from the date such Person became a Lender party hereto to the date such Person ceases being a Lender party hereto, for the benefit of, the Administrative Agent and its Affiliates, and not, for the avoidance of doubt, to or for the benefit of the Borrower or any other Loan Party, that:

(i) none of the Administrative Agent or its Affiliates is a fiduciary with respect to the assets of such Lender (including in connection with the

reservation or exercise of any rights by the Administrative Agent under this Agreement, any Loan Document or any documents related to hereto or thereto),

(ii) the Person making the investment decision on behalf of such Lender with respect to the entrance into, participation in, administration of and performance of the Revolving Loans, the Commitments and this Agreement is independent (within the meaning of 29 CFR § 2510.3-21) and is a bank, an insurance carrier, an investment adviser, a broker-dealer or other person that holds, or has under management or control, total assets of at least $50 million, in each case as described in 29 CFR § 2510.3-21(c)(1)(i)(A)-(E),

(iii) the Person making the investment decision on behalf of such Lender with respect to the entrance into, participation in, administration of and performance of the Revolving Loans, the Commitments and this Agreement is capable of evaluating investment risks independently, both in general and with regard to particular transactions and investment strategies (including in respect of the Obligations),

(iv) the Person making the investment decision on behalf of such Lender with respect to the entrance into, participation in, administration of and performance of the Revolving Loans, the Commitments and this Agreement is a fiduciary under ERISA or the Code, or both, with respect to the Revolving Loans, the Commitments and this Agreement and is responsible for exercising independent judgment in evaluating the transactions hereunder, and

(v) no fee or other compensation is being paid directly to the Administrative Agent or any its Affiliates for investment advice (as opposed to other services) in connection with the Revolving Loans, the Commitments or this Agreement.

(c) The Administrative Agent hereby informs the Lenders that each such Person is not undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity, in connection with the transactions contemplated hereby, and that such Person has a financial interest in the transactions contemplated hereby in that such Person or an Affiliate thereof (i) may receive interest or other payments with respect to the Revolving Loans, the Commitments and this Agreement, (ii) may recognize a gain if it extended the Revolving Loans or the Commitments for an amount less than the amount being paid for an interest in the Revolving Loans or the Commitments by such Lender or (iii) may receive fees or other payments in connection with the transactions contemplated hereby, the Loan Documents or otherwise, including structuring fees, commitment fees, arrangement fees, facility fees, upfront fees, underwriting fees, ticking fees, agency fees, administrative agent, utilization fees, minimum usage fees, letter of credit fees, fronting fees, deal-away or alternate transaction fees, amendment fees, processing fees, term out premiums, banker's acceptance fees, breakage or other early termination fees or fees similar to the foregoing.

SECTION 8.08. Administrative Agent May File Proof of Claim. In case of the pendency of any receivership, insolvency, liquidation, bankruptcy, reorganization, arrangement, adjustment, composition or other judicial proceeding relative to the Borrower or any Subsidiary of the Borrower, the Administrative Agent (irrespective of whether the principal of any Revolving Loan shall then be due and payable as herein expressed or by declaration or otherwise and irrespective of whether the Administrative Agent shall have made any demand on the Borrower) shall be entitled and empowered, by intervention in such proceeding or otherwise:

(a) to file and prove a claim for the whole amount of the principal and interest owing and unpaid in respect of the Revolving Loans and all other Obligations that are owing and unpaid and to file such other documents as may be necessary or advisable in order to have the claims of the Lenders, the Administrative Agent (including any claim for the reasonable compensation, expenses, disbursements and advances of the Lenders, the Administrative Agent and their respective agents and counsel and all other amounts due the Lenders, the Administrative Agent under Section 9.03) allowed in such judicial proceeding;

(b) to collect and receive any monies or other property payable or deliverable on any such claims and to distribute the same; and

(c) any custodian, receiver, assignee, trustee, liquidator, sequestrator or other similar official in any such judicial proceeding is hereby authorized by each Lender to make such payments to the Administrative Agent and, in the event that the Administrative Agent shall consent to the making of such payments directly to the Lenders, to pay to the Administrative Agent any amount due for compensation, expenses, disbursements and advances of the Administrative Agent and its agents and counsel, and any other amounts due the Administrative Agent under Section 9.03. Nothing contained herein shall be deemed to authorize the Administrative Agent to authorize or consent to or accept or adopt on behalf of any Lender any plan of reorganization, arrangement, adjustment or composition affecting the Indebtedness or the rights of any Lender or to authorize the Administrative Agent to vote in respect of the claim of any Lender in any such proceeding.

SECTION 8.09. Data Protection. The Borrower acknowledges the purposes and details with respect to the Administrative Agent's collection, use and disclosure of personal data as well as the rights of the data subject as stated in the Privacy Notice and the Written Request for Consent Relating to the Collection, Use, and Disclosure of Personal Data (copies of which have been distributed to the Borrower prior to the Effective Date). The Borrower hereby confirms to the Administrative Agent that (1) the Borrower has notified details of the Privacy Notice of the Administrative Agent to the person(s) whose personal data has been provided by the Borrower to the Administrative Agent and such person is informed of details as stated in the Privacy Notice of the Administrative Agent, and (2) the Borrower has legitimate rights to disclose any information of any other person(s) whose personal data has been provided by the Borrower to the Administrative Agent. The Borrower accepts and agrees that the Administrative Agent is entitled to collect and use the information which the Borrower has provided to the Administrative Agent or which derives from the use of the service under this agreement and other information related to the use of the service under this agreement or other information which the Administrative Agent has received or obtained from other sources, and is entitled to send, transfer or disclose such information to companies within the Administrative Agent's financial group, business partners, outsource service providers, agents of the Administrative Agent, assignees of the Administrative Agent's rights or obligations, assignees of the Administrative Agent's claims, advisors, other financial institutions, credit rating agencies, external auditors, agencies or any Persons related to the business operation of the Administrative Agent, both domestic and overseas, for the purposes stated in the Privacy Notice of the Administrative Agent, including (a) for compliance with its obligations under this Agreement or any

other Loan Document or in connection with this Agreement or any other Loan Document, including for compliance with any agreement or contract entered into between the Administrative Agent and any other Person related to or in connection with the provision of service under this Agreement or any other Loan Document, (b) for notification, communication, examination or response to any inquiries or complaints related to the use of the service under this Agreement or any other Loan Document at the request of the Borrower or any other Person related to the provision of service under this Agreement or any other Loan Document, (c) for analysis, processing, management or use of information obtained from the utilization of the Administrative Agent's or any Lender's products or services in order to facilitate such utilization by the Borrower and for advertisement, granting or offering privileges, benefits, rewards and products or services likely to be suitable to, or meet requirements of, the Borrower, as well as for assessment, development and improvement of the products and services of the Administrative Agent or any Lender, (d) for operations relating to information technology, (e) for compliance, risk management and any audit related to the service provision of the Administrative Agent including business management of the Administrative Agent, companies within the Administrative Agent's financial group and the Administrative Agent's affiliates or business partners and (f) for compliance with laws, regulations, orders or procedures prescribed by government agencies or regulatory authorities as well as for debt collection, exercise of claims or enforcement of legal rights.

ARTICLE IX

Miscellaneous

SECTION 9.01. Notices.

(a) Except in the case of notices and other communications expressly permitted to be given by telephone (and subject to paragraph (b) below), all notices and other communications provided for herein shall be in writing and shall be delivered by hand or overnight courier service, mailed by certified or registered mail or sent by electronic mail, as follows:

(i) if to the Borrower, to

BKV Corporation
1200 17th Street, Suite 2100
Denver CO 80202
Attention: Chief Executive Officer
Email: chriskalnin@bkvcorp.com

With a copy to:
BKV Corporation
1200 17th Street, Suite 2100
Denver CO 80202
Attention: General Counsel
Email: legal@bkvcorp.com

With a copy to (which copy shall not constitute notice):

Fox Rothschild, LLP

Attn: Herschel T. Hamner III
Email: hhamner@sidley.com

(iii) if to any other Lender, to it at its address or e-mail address set forth in its Administrative Questionnaire.

Notices sent by hand or overnight courier service, or mailed by certified or registered mail, shall be deemed to have been given when received. Notices delivered through Electronic Systems, to the extent provided in paragraph (b) below, shall be effective as provided in said paragraph (b).

(b) Notices and other communications to the Lenders hereunder may be delivered or furnished by using Electronic Systems pursuant to procedures approved by the Administrative Agent;

provided that the foregoing shall not apply to notices pursuant to Article II unless otherwise agreed by the Administrative Agent and the applicable Lender. Each of the Administrative Agent and the Borrower may, in its discretion, agree to accept notices and other communications to it hereunder by electronic communications pursuant to procedures approved by it; provided that approval of such procedures may be limited to particular notices or communications.

Unless the Administrative Agent otherwise prescribes, (i) notices and other communications sent to an e-mail address shall be deemed received upon the sender's receipt of an acknowledgement from the intended recipient (such as by the "return receipt requested" function, as available, return e-mail or other written acknowledgement), and (ii) notices or communications posted to an Internet or intranet website shall be deemed received upon the deemed receipt by the intended recipient, at its e-mail address as described in the foregoing clause (i), of notification that such notice or communication is available and identifying the website address therefor; provided that, for both clauses (i) and (ii) above, if such notice, email or other communication is not sent during the normal business hours of the recipient, such notice or communication shall be deemed to have been sent at the opening of business on the next Business Day for the recipient.

(c) Any party hereto may change its address or e-mail address for notices and other communications hereunder by notice to the other parties hereto.

SECTION 9.02. Waivers; Amendments.

(a) No failure or delay by the Administrative Agent or any Lender in exercising any right or power hereunder or under any other Loan Document shall operate as a waiver thereof, nor shall any single or partial exercise of any such right or power, or any abandonment or discontinuance of steps to enforce such a right or power, preclude any other or further exercise thereof or the exercise of any other right or power. The rights and remedies of the Administrative Agent and the Lenders hereunder and under the other Loan Documents are cumulative and are not exclusive of any rights or remedies that they would otherwise have. No waiver of any provision of this Agreement or any other Loan Document or consent to any departure by any Loan Party therefrom shall in any event be effective unless the same shall be permitted by paragraph (b) of this Section, and then such waiver or consent shall be effective only in the specific instance and for the purpose for which given. Without limiting the generality of the foregoing, the making of a Revolving Loan shall not be construed as a waiver of any Default, regardless of whether the Administrative Agent or any Lender may have had notice or knowledge of such Default at the time.

(b) Neither this Agreement nor any provision hereof nor any other Loan Document nor any provision thereof may be waived, amended or modified except pursuant to an agreement or agreements in writing entered into by (x) in the case of this Agreement, the Borrower and the Required Lenders (with a copy to the Administrative Agent), the Borrower and the Administrative Agent with the consent of the Required Lenders, and (y) in the case of any other Loan Document, each Loan Party that is a party thereto and the Required Lenders, or each Loan Party that is a party thereto and the Administrative Agent with the consent of the Required Lenders; provided that no such agreement shall (i) increase the Commitment of any Lender without the written consent of such Lender, (ii) reduce the principal amount of any Revolving Loan or reduce the rate of interest thereon, or reduce any fees payable hereunder, without the written consent of each Lender directly affected thereby, (iii) postpone the scheduled date of payment of the principal amount of any Revolving Loan (including by way of extension of the Maturity Date), or any interest thereon, or any fees payable hereunder, or reduce the amount of, waive or excuse any such payment, or postpone the scheduled date of expiration of any Commitment, without the written consent of each Lender directly affected thereby, (iv) change Section 2.15(b) or 2.15(c) in a manner that would alter the pro rata sharing of payments required thereby, without the written consent of each Lender, (v) change any of the provisions of this Section or the definition of "Required Lenders" or any other provision hereof specifying the number or percentage of Lenders required to waive, amend or modify any rights hereunder or make any determination or grant any consent hereunder, without the written consent of each Lender, (vi) release all of substantially all of the Guarantors from their guarantee obligations under the Guaranty Agreement(other than as provided in Section 9.14 below) without the written consent of each Lender, (vii) release the Borrower from its obligations under the Loan Documents without the written consent of each Lender, (viii) contractually subordinate any Obligations in contractual right of payment to any other debt or other obligations, including any other Revolving Loans hereunder, without the consent of each Lender directly and adversely affected thereby (provided, however, in no event shall this clause (viii) restrict any "debtor in possession" financing) or (ix) waive any condition set forth in Section 4.01 or 4.02 without the written consent of each applicable Lender; provided further that no such agreement shall amend, modify or otherwise affect the rights or duties of the Administrative Agent hereunder without the prior written consent of the Administrative Agent. Notwithstanding the foregoing, no consent with respect to any amendment, waiver or other modification of this Agreement shall be required of any Defaulting Lender, except with respect to any amendment, waiver or other modification referred to in clause (i), (ii) or (iii) of the first proviso of this paragraph and then only in the event such Defaulting Lender shall be directly affected by such amendment, waiver or other modification.

(c) If, in connection with any proposed amendment, waiver or consent requiring the consent of "each Lender" or "each Lender directly affected thereby," the consent of the Required Lenders is obtained, but the consent of other necessary Lenders is not obtained (any such Lender whose consent is necessary but not obtained being referred to herein as a "Non-Consenting Lender"), then the Borrower may elect to replace a Non-Consenting Lender as a Lender party to this Agreement in accordance with Section 2.16(b).

(d) Notwithstanding anything to the contrary herein, (i) the Administrative Agent may, with the consent of the Borrower only, amend, modify or supplement this Agreement or any of the other Loan Documents to cure any ambiguity, omission, mistake, defect or inconsistency and (ii) the Administrative Agent and the Borrower (or other applicable Loan Party) may enter into any amendment, modification or waiver of this Agreement or any other Loan Document or as required by any Governmental Requirement to give effect to, protect or otherwise enhance the rights or benefits of any Lender under the Loan Documents without the consent of any other party to this Agreement.

SECTION 9.03. Expenses; Indemnity; Damage Waiver.

(a) The Borrower shall pay (i) all reasonable and documented out-of-pocket expenses incurred by the Administrative Agent and its Affiliates, including the reasonable and documented fees, charges and disbursements of Sidley Austin LLP, counsel for the Administrative Agent, in connection with the syndication and distribution (including, without limitation, via the internet or through a service such as Intralinks) of the credit facilities provided for

herein, the preparation, execution and delivery and administration of this Agreement and the other Loan Documents or any amendments, modifications or waivers of the provisions hereof or thereof (whether or not the transactions contemplated hereby or thereby shall be consummated) and (ii) all out-of-pocket expenses incurred by the Administrative Agent or any Lender, including the fees, charges and disbursements of any counsel for the Administrative Agent or any Lender, in connection with the enforcement or protection of its rights in connection with this Agreement and any other Loan Document, including its rights under this Section, or in connection with the Revolving Loans made hereunder, including all such out-of-pocket expenses incurred during any workout, restructuring or negotiations in respect of the Revolving Loans.

(b) THE BORROWER SHALL INDEMNIFY THE ADMINISTRATIVE AGENT, ANY SUB-AGENT OF THE ADMINISTRATIVE AGENT, EACH LENDER AND EACH RELATED PARTY OF ANY OF THE FOREGOING PERSONS (EACH SUCH PERSON BEING CALLED AN "INDEMNITEE") AGAINST, AND HOLD EACH INDEMNITEE HARMLESS FROM, ANY AND ALL LOSSES, CLAIMS, DAMAGES, LIABILITIES AND RELATED EXPENSES, INCLUDING THE FEES, CHARGES AND DISBURSEMENTS OF ANY COUNSEL FOR ANY INDEMNITEE, INCURRED BY OR ASSERTED AGAINST ANY INDEMNITEE ARISING OUT OF, IN CONNECTION WITH, OR AS A RESULT OF (I) THE EXECUTION OR DELIVERY OF ANY LOAN DOCUMENT OR ANY AGREEMENT OR INSTRUMENT CONTEMPLATED THEREBY, THE PERFORMANCE BY THE PARTIES HERETO OF THEIR RESPECTIVE OBLIGATIONS THEREUNDER OR THE CONSUMMATION OF THE TRANSACTIONS OR ANY OTHER TRANSACTIONS CONTEMPLATED HEREBY, (II) ANY LOAN OR THE USE OF THE PROCEEDS THEREFROM, (III) ANY ACTUAL OR ALLEGED PRESENCE OR RELEASE OF HAZARDOUS MATERIALS ON OR FROM ANY PROPERTY OWNED OR OPERATED BY THE BORROWER OR ANY OF ITS SUBSIDIARIES, OR ANY ENVIRONMENTAL LIABILITY RELATED IN ANY WAY TO THE BORROWER OR ANY OF ITS SUBSIDIARIES, OR (IV) ANY ACTUAL OR PROSPECTIVE CLAIM, LITIGATION, INVESTIGATION OR PROCEEDING RELATING TO ANY OF THE FOREGOING, WHETHER OR NOT SUCH CLAIM, LITIGATION, INVESTIGATION OR PROCEEDING IS BROUGHT BY THE BORROWER OR ANY OTHER LOAN PARTY OR ITS OR THEIR RESPECTIVE EQUITY HOLDERS, AFFILIATES, CREDITORS OR ANY OTHER THIRD PERSON AND WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY AND REGARDLESS OF WHETHER ANY INDEMNITEE IS A PARTY THERETO, AND TO REIMBURSE EACH INDEMNITEE WITHIN THIRTY (30) DAYS AFTER RECEIPT OF WRITTEN DEMAND FOR ANY REASONABLE AND DOCUMENTED OUT-OF-POCKET LEGAL OR OTHER EXPENSES INCURRED IN CONNECTION WITH INVESTIGATING OR DEFENDING ANY OF THE FOREGOING (BUT LIMITED, IN THE CASE OF LEGAL FEES AND EXPENSES, TO ONE EXTERNAL COUNSEL FOR THE INDEMNITEES, TAKEN AS A WHOLE, AND, IF REASONABLY NECESSARY (AS REASONABLY DETERMINED BY THE APPLICABLE INDEMNITEES), ONE FIRM OF LOCAL COUNSEL IN EACH RELEVANT JURISDICTION, AND, SOLELY IN THE CASE OF AN ACTUAL OR POTENTIAL CONFLICT OF INTEREST (AS REASONABLY DETERMINED BY ANY INDEMNITEE) WHERE THE AFFECTED INDEMNITEE INFORMS THE BORROWER OF SUCH CONFLICT, ONE ADDITIONAL EXTERNAL COUNSEL FOR ALL AFFECTED INDEMNITEES SIMILARLY SITUATED, TAKEN AS A WHOLE, AND, IF REASONABLY NECESSARY (AS REASONABLY DETERMINED BY THE AFFECTED INDEMNITEES SIMILARLY SITUATED), ONE FIRM OF LOCAL COUNSEL IN EACH RELEVANT JURISDICTION FOR THE AFFECTED INDEMNITEES SIMILARLY SITUATED, TAKEN AS A WHOLE); PROVIDED THAT SUCH INDEMNITY SHALL NOT, AS TO ANY INDEMNITEE, BE AVAILABLE TO THE EXTENT THAT SUCH LOSSES, CLAIMS, DAMAGES, LIABILITIES OR RELATED EXPENSES (X) ARE DETERMINED BY A COURT OF COMPETENT JURISDICTION BY FINAL AND NONAPPEALABLE JUDGMENT TO HAVE RESULTED FROM THE BAD FAITH, GROSS NEGLIGENCE OR WILLFUL MISCONDUCT OF SUCH INDEMNITEE OR (Y) HAVE NOT RESULTED FROM AN ACT OR OMISSION BY THE BORROWER OR ANY OF ITS AFFILIATES AND HAVE BEEN BROUGHT BY AN INDEMNITEE AGAINST ANY OTHER INDEMNITEE (OTHER THAN ANY CLAIMS AGAINST ANY INDEMNITEE IN ITS CAPACITY AS AGENT OR ANY SIMILAR ROLE HEREUNDER). THIS SECTION 9.03(b) SHALL NOT APPLY WITH RESPECT TO TAXES OTHER THAN ANY TAXES THAT REPRESENT LOSSES, CLAIMS OR DAMAGES ARISING FROM ANY NON-TAX CLAIM.

(c) Each Lender severally agrees to pay any amount required to be paid by the Borrower under paragraph (a) or (b) of this Section 9.03 to the Administrative Agent and each Related Party of the Administrative Agent (each, an "Agent Indemnitee") (to the extent not reimbursed by the Borrower and without limiting the obligation of the Borrower to do so), ratably according to their respective Applicable Percentage in effect on the date on which indemnification is sought under this Section (or, if indemnification is sought after the date upon which the Commitments shall have terminated and the Revolving Loans shall have been paid in full, ratably in accordance with such Applicable Percentage immediately prior to such date), from and against any and all losses, claims, damages, liabilities and related expenses, including the fees, charges and disbursements of any kind whatsoever that may at any time (whether before or after the payment of the Revolving Loans) be imposed on, incurred by or asserted against such Agent Indemnitee in any way relating to or arising out of the Commitments, this Agreement, any of the other Loan Documents or any documents contemplated by or referred to herein or therein or the transactions contemplated hereby or thereby or any action taken or omitted by such Agent Indemnitee under or in connection with any of the foregoing; *provided* that no Lender shall be liable for the payment of any portion of such liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements that are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from such Agent Indemnitee's gross negligence or willful misconduct. The agreements in this Section shall survive the termination of this Agreement and the payment of the Revolving Loans and all other amounts payable hereunder.

(d) To the extent permitted by applicable law, each party to this Agreement agrees not to assert, and hereby waives, any claim against any other party to this Agreement or any Indemnitee, on any theory of liability, for special, indirect, consequential or punitive damages (as opposed to direct or actual damages) arising out of, in connection with, or as a result of, this Agreement, any other Loan Document or any agreement or instrument contemplated hereby or thereby, the Transactions or any Revolving Loan or the use of the proceeds thereof; provided that nothing contained herein shall limit the obligation of the Borrower to indemnify any Indemnitee in accordance with this Section 9.03 against any such special, indirect, consequential or punitive damages that may be awarded to any third person against such Indemnitee. No Indemnitee shall be liable for any direct or indirect damages arising from the use by others of information or other materials obtained through telecommunications, electronic or other information transmission systems (including, without limitation, the Internet, email or similar electronic transmission systems); provided that this sentence shall not, as to any Indemnitee, apply to the extent that such losses, claims, damages, liabilities or related expenses are determined by a court of competent jurisdiction by final and nonappealable judgment to have resulted from the bad faith, gross negligence or willful misconduct of such Indemnitee.

(e) All amounts due under this Section shall be paid promptly (but in any event not later than thirty (30) days) after written demand therefor.

SECTION 9.04. Successors and Assigns.

(a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns permitted hereby, except that (i) the Borrower may not assign or otherwise transfer any of its rights or obligations hereunder without the prior written consent of each Lender (and any attempted assignment or transfer by the Borrower without such consent shall be null and void) and (ii) no Lender may assign or otherwise transfer its rights or obligations hereunder except in accordance with this Section. Nothing in this Agreement, expressed or implied, shall be construed to confer upon any Person (other than the parties hereto, their respective successors and assigns permitted hereby, Participants (to the extent provided in paragraph (c) of this Section) and, to the extent expressly contemplated hereby, the sub-agents and Related Parties of each of the Administrative Agent and the Lenders) any legal or equitable right, remedy or claim under or by reason of this Agreement.

(b) (i) Subject to the conditions set forth in paragraph (b)(ii) below, any Lender may assign to one or more Persons (other than an Ineligible Institution) all or a portion of its rights and obligations under this Agreement (including all or a portion of its Commitments and the Revolving Loans at the time owing to it) with the prior written consent (such consent not to be unreasonably withheld) of:

(A) the Borrower (provided that the Borrower shall be deemed to have consented to any such assignment unless it shall object thereto by written notice to the Administrative Agent within five (5) Business Days after having received notice thereof); provided that no consent of the Borrower shall be required for any assignment to a Lender, an Affiliate of a Lender, an Approved Fund or, if an Event of Default has occurred and is continuing, any other assignee; and

(B) the Administrative Agent.

(ii) Assignments shall be subject to the following additional conditions:

(A) except in the case of an assignment to a Lender or an Affiliate of a Lender or an Approved Fund or an assignment of the entire remaining amount of the assigning Lender's Commitments or Revolving Loans, the amount of the Commitments or Revolving Loans of the assigning Lender subject to each such assignment (determined as of the date the Assignment and Assumption with respect to such assignment is delivered to the Administrative Agent) shall not be less than $5,000,000 unless each of the Borrower and the Administrative Agent otherwise consent; provided that no such consent of the Borrower shall be required if an Event of Default has occurred and is continuing;

(B) each partial assignment shall be made as an assignment of a proportionate part of all the assigning Lender's rights and obligations under this Agreement; provided that this clause (B) shall not prohibit any Lender from assigning all or a proportionate part of its rights and obligations in respect of Commitments or Revolving Loans;

(C) the parties to each assignment shall execute and deliver to the Administrative Agent (x) an Assignment and Assumption or (y) to the extent applicable, an agreement incorporating an Assignment and Assumption by reference pursuant to a Platform as to which the Administrative Agent and the parties to the Assignment and Assumption are participants, together with a processing and recordation fee of $3,500, such fee to be paid by either the assigning Lender or the assignee Lender or shared between such Lenders; and

(D) the assignee, if it shall not be a Lender, shall deliver to the Administrative Agent all documentation and other information required by regulatory authorities under applicable "know your customer" and anti-money laundering rules and regulations, including, without limitation, the USA PATRIOT Act and an Administrative Questionnaire in which the assignee designates one or more credit contacts to whom all syndicate-level information (which may contain material non-public information about the Borrower and its Affiliates and their Related Parties or their respective securities) will be made available and who may receive such information in accordance with the assignee's compliance procedures and applicable laws, including Federal and state securities laws.

For the purposes of this Section 9.04(b), the terms "Approved Fund" and "Ineligible Institution" have the following meanings:

"Approved Fund" means any Person (other than a natural person) that is engaged in making, purchasing, holding or investing in commercial loans and similar extensions of credit in the ordinary course of its business and that is administered or managed by (a) a Lender, (b) an Affiliate of a Lender or (c) an entity or an Affiliate of an entity that administers or manages a Lender.

"Ineligible Institution" means (a) a natural person, (b) a Defaulting Lender or its Lender Parent, (c) the Borrower, any of its Subsidiaries or any of its Affiliates, (d) any Permitted Holder or any portfolio company thereof or (e) a company, investment vehicle or trust for, or owned and operated for the primary benefit of, a natural person or relative(s) thereof. Notwithstanding anything to the contrary contained in this Agreement, (i) the Administrative Agent shall not be responsible or have any liability for, or have any duty to ascertain, inquire into, monitor or enforce, compliance with the provisions hereof relating to Ineligible Institutions and (ii) the Borrower (on behalf of itself and the other Loan Parties) and the Lenders acknowledge and agree that the Administrative Agent shall have no responsibility or obligation to determine whether any Lender or potential Lender is an Ineligible Institution and that the Administrative Agent shall have no liability with respect to any assignment or participation made to an Ineligible Institution.

(iii) Subject to acceptance and recording thereof pursuant to paragraph (b)(iv) of this Section, from and after the effective or recordation date specified in each Assignment and Assumption the assignee thereunder shall be a party hereto and, to the extent of the interest assigned by such Assignment and Assumption, have the rights and obligations of a Lender under this Agreement, and the assigning Lender thereunder shall, to the extent of the interest assigned by such Assignment and Assumption, be released from its obligations under this Agreement (and, in the case of an Assignment

and Assumption covering all of the assigning Lender's rights and obligations under this Agreement, such Lender shall cease to be a party hereto but shall continue to be entitled to the benefits of Sections 2.12, 2.14 and 9.03). Any assignment or transfer by a Lender of rights or obligations under this Agreement that does not comply with this Section 9.04 shall be treated for purposes of this Agreement as a sale by such Lender of a participation in such rights and obligations in accordance with paragraph (c) of this Section.

(iv) The Administrative Agent, acting for this purpose as a non-fiduciary agent of the Borrower, shall maintain at one of its offices a copy of each Assignment and Assumption delivered to it and a register for the recordation of the names and addresses of the Lenders, and the Commitment of, and principal amount (and stated interest) of the Revolving Loans owing to, each Lender pursuant to the terms hereof from time to time (the "Register"). The entries in the Register shall be conclusive, and the Borrower, the Administrative Agent and the Lenders shall treat each Person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement, notwithstanding notice to the contrary. The Register shall be available for inspection by the Borrower and any Lender, at any reasonable time and from time to time upon reasonable prior written notice.

(v) Upon its receipt of (x) a duly completed Assignment and Assumption executed by an assigning Lender and an assignee or (y) to the extent applicable, an agreement incorporating an Assignment and Assumption by reference pursuant to a Platform as to which the Administrative Agent and the parties to the Assignment and Assumption are participants, the assignee's completed Administrative Questionnaire (unless the assignee shall already be a Lender hereunder), the processing and recordation fee referred to in paragraph (b) of this Section and any written consent to such assignment required by paragraph (b) of this Section, the Administrative Agent shall accept such Assignment and Assumption and record the information contained therein in the Register; provided that if either the assigning Lender or the assignee shall have failed to make any payment required to be made by it pursuant to Section 2.04(b), 2.15(e) or 9.03(c), the Administrative Agent shall have no obligation to accept such Assignment and Assumption and record the information therein in the Register unless and until such payment shall have been made in full, together with all accrued interest thereon. No assignment shall be effective for purposes of this Agreement unless it has been recorded in the Register as provided in this paragraph.

(c) Any Lender may, without the consent of the Borrower or the Administrative Agent, sell participations to one or more banks or other entities (a "Participant"), other than an Ineligible Institution, in all or a portion of such Lender's rights and obligations under this Agreement (including all or a portion of its Commitments and the Revolving Loans owing to it); provided that (A) such Lender's obligations under this Agreement shall remain unchanged; (B) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations; and (C) the Borrower, the Administrative Agent and the Lenders shall continue to deal solely and directly with such Lender in connection with such Lender's rights and obligations under this Agreement. Any agreement or instrument pursuant to which a Lender sells such a participation shall provide that such Lender shall retain the sole right to enforce this Agreement and to approve any amendment, modification or waiver of any provision of this Agreement; provided that such agreement or instrument may provide that such Lender will not, without the consent of the Participant, agree to any amendment, modification or waiver described in the first proviso to Section 9.02(b) that affects such Participant. The Borrower agrees that each Participant shall be entitled to the benefits of Sections 2.12 and 2.14 (subject to the requirements and limitations therein, including the requirements under Section 2.14(f) (it being understood that the documentation required under Section 2.14(f) shall be delivered to the participating Lender)) to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to paragraph (b) of this Section; provided that such Participant (A) agrees to be subject to the provisions of Sections 2.15 and 2.16 as if it were an assignee under paragraph (b) of this Section; and (B) shall not be entitled to receive any greater payment under Sections 2.12 or 2.14, with respect to any participation, than its participating Lender would have been entitled to receive, except to the extent such entitlement to receive a greater payment results from a Change in Law that occurs after the Participant acquired the applicable participation. Each Lender that sells a participation agrees, at the Borrower's request and expense, to use reasonable efforts to cooperate with the Borrower to effectuate the provisions of Section 2.16(b) with respect to any Participant. To the extent permitted by law, each Participant also shall be entitled to the benefits of Section 9.08 as though it were a Lender, provided such Participant agrees to be subject to Section 2.15(d) as though it were a Lender. Each Lender that sells a participation shall, acting solely for this purpose as a non-fiduciary agent of the Borrower, maintain a register on which it enters the name and address of each Participant and the principal amounts (and stated interest) of each Participant's interest in the Revolving Loans or other obligations under the Loan Documents (the "Participant Register"); provided that no Lender shall have any obligation to disclose all or any portion of the Participant Register (including the identity of any Participant or any information relating to a Participant's interest in any Commitments, Revolving Loans or its other obligations under any Loan Document) to any Person except to the extent that such disclosure is necessary to establish that such Commitment, Revolving Loan or other obligation is in registered form under Section 5f.103-1(c) of the United States Treasury Regulations or as necessary for the Borrower or the Administrative Agent to satisfy its obligations under FATCA. The entries in the Participant Register shall be conclusive absent manifest error, and such Lender shall treat each Person whose name is recorded in the Participant Register as the owner of such participation for all purposes of this Agreement notwithstanding any notice to the contrary. For the avoidance of doubt, the Administrative Agent (in its capacity as Administrative Agent) shall have no responsibility for maintaining a Participant Register.

(d) Any Lender may at any time pledge or assign a security interest in all or any portion of its rights under this Agreement to secure obligations of such Lender, including any pledge or assignment to secure obligations to a Federal Reserve Bank, and this Section shall not apply to any such pledge or assignment of a security interest; provided that no such pledge or assignment of a security interest shall release a Lender from any of its obligations hereunder or substitute any such pledgee or assignee for such Lender as a party hereto.

SECTION 9.05. Survival. All covenants, agreements, representations and warranties made by the Loan Parties in the Loan Documents and in the certificates or other instruments delivered in connection with or pursuant to this Agreement or any other Loan Document shall be considered to have been relied upon by the other parties hereto and shall survive the execution and delivery of the Loan Documents and the making of any Revolving Loans, regardless of any investigation made by any such other party or on its behalf and notwithstanding that the Administrative Agent or any Lender may have had notice or knowledge of any Default or incorrect representation or warranty at the time any credit is extended hereunder, and shall continue in full force and effect until Payment in Full. The provisions of Sections 2.12, 2.14, 9.03, 9.09, 9.10 and 9.16 and Section VIII shall survive and remain in full force and effect regardless of the consummation of the transactions contemplated hereby, the repayment of the Revolving Loans, the expiration or termination of the Commitments or the termination of this Agreement or any other Loan Document or any provision hereof or thereof.

SECTION 9.06. Counterparts; Integration; Effectiveness; Electronic Execution. This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall be deemed an original, but all of which when taken together shall constitute a single contract. This Agreement, the other Loan Documents and any separate letter agreements with respect to fees payable to the Administrative Agent constitute the entire contract among the parties relating to the subject matter hereof and supersede any and all previous agreements and understandings, oral or written, relating to the subject matter hereof. Except as provided in Section 4.01, this Agreement shall become effective when it shall have been executed by the Administrative Agent and when the Administrative Agent shall have received counterparts hereof which, when taken together, bear the signatures of each of the other parties hereto, and thereafter shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. Delivery of an executed counterpart of a signature page of (x) this Agreement, (y) any other Loan Document and/or (z) any document, amendment, approval, consent, information, notice (including, for the avoidance of doubt, any notice delivered pursuant to Section 9.01), certificate, request, statement, disclosure or authorization related to this Agreement, any other Loan Document and/or the transactions contemplated hereby and/or thereby (each an "Ancillary Document") that is an Electronic Signature transmitted by telecopy, emailed pdf. or any other electronic means that reproduces an image of an actual executed signature page shall be effective as delivery of a manually executed counterpart of this Agreement, such other Loan Document or such Ancillary Document, as applicable. The words "execution," "signed," "signature," "delivery," and words of like import in or relating to this Agreement, any other Loan Document and/or any Ancillary Document shall be deemed to include Electronic Signatures, deliveries or the keeping of records in any electronic form (including deliveries by telecopy, emailed pdf. or any other electronic means that reproduces an image of an actual executed signature page), each of which shall be of the same legal effect, validity or enforceability as a manually executed signature, physical delivery thereof or the use of a paper-based recordkeeping system, as the case may be; *provided* that nothing herein shall require the Administrative Agent to accept Electronic Signatures in any form or format without its prior written consent and pursuant to procedures approved by it; *provided further* without limiting the foregoing, (i) to the extent the Administrative Agent has agreed to accept any Electronic Signature, the Administrative Agent and each of the Lenders shall be entitled to rely on such Electronic Signature purportedly given by or on behalf of the Borrower or any other Loan Party without further verification thereof and without any obligation to review the appearance or form of any such Electronic signature and (ii) upon the request of the Administrative Agent or any Lender, any Electronic Signature shall be promptly followed by a manually executed counterpart. Without limiting the generality of the foregoing, the Borrower and each Loan Party hereby (i) agrees that, for all purposes, including without limitation, in connection with any workout, restructuring, enforcement of remedies, bankruptcy proceedings or litigation among the Administrative Agent, the Lenders, the Borrower and the Loan Parties, Electronic Signatures transmitted by telecopy, emailed pdf. or any other electronic means that reproduces an image of an actual executed signature page and/or any electronic images of this Agreement, any other Loan Document and/or any Ancillary Document shall have the same legal effect, validity and enforceability as any paper original, (ii) the Administrative Agent and each of the Lenders may, at its option, create one or more copies of this Agreement, any other Loan Document and/or any Ancillary Document in the form of an imaged electronic record in any format, which shall be deemed created in the ordinary course of such Person's business, and destroy the original paper document (and all such electronic records shall be considered an original for all purposes and shall have the same legal effect, validity and enforceability as a paper record), (iii) waives any argument, defense or right to contest the legal effect, validity or enforceability of this Agreement, any other Loan Document and/or any Ancillary Document based solely on the lack of paper original copies of this Agreement, such other Loan Document and/or such Ancillary Document, respectively, including with respect to any signature pages thereto and (iv) waives any claim against any Related Parties of any Lender for any liabilities arising solely from the Administrative Agent's and/or any Lender's reliance on or use of Electronic Signatures and/or transmissions by telecopy, emailed pdf. or any other electronic means that reproduces an image of an actual executed signature page, including any liabilities arising as a result of the failure of the Borrower and/or any Loan Party to use any available security measures in connection with the execution, delivery or transmission of any Electronic Signature.

SECTION 9.07. Severability. Any provision of any Loan Document held to be invalid, illegal or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such invalidity, illegality or unenforceability without affecting the validity, legality and enforceability of the remaining provisions thereof; and the invalidity of a particular provision in a particular jurisdiction shall not invalidate such provision in any other jurisdiction.

SECTION 9.08. Right of Setoff. If an Event of Default shall have occurred and be continuing, each Lender and each of its Affiliates is hereby authorized at any time and from time to time, to the fullest extent permitted by law, to set off and apply any and all deposits (general or special, time or demand, provisional or final and in whatever currency denominated) at any time held and other obligations at any time owing by such Lender or Affiliate to or for the credit or the account of the Borrower or any other Loan Party against any of and all of the Obligations held by such Lender, irrespective of whether or not such Lender shall have made any demand under the Loan Documents and although such obligations may be unmatured. The rights of each Lender under this Section are in addition to other rights and remedies (including other rights of setoff) which such Lender may have.

SECTION 9.09. Governing Law; Jurisdiction; Consent to Service of Process.

(a) This Agreement and any dispute, claim or controversy arising out of or relating to this Agreement (whether arising in contract, tort or otherwise) shall be construed in accordance with and governed by the law of the State of New York.

(b) Except as set forth in the immediately following sentence, each party hereto irrevocably and unconditionally agrees that it will not commence any action, litigation or proceeding of any kind or description, whether in law or equity, whether in contract or in tort or otherwise, against any other party hereto or any Related Party of any other party hereto in any way relating to this Agreement or any other Loan Document or the Transactions, in any forum other than the Supreme Court of the State of New York sitting in New York County, Borough of Manhattan, or the United States District Court for the Southern District of New York, and any appellate court from any thereof, and each of the parties hereto hereby irrevocably and unconditionally submits to the jurisdiction of such courts and agrees that all claims in respect of any such action, litigation or proceeding may (and any such claims, cross-claims or third party claims brought against the Administrative Agent or any of its Related Parties may only) be heard and determined in such New York State court or, to the extent permitted by applicable Requirements of Law, in such Federal court. Each of the parties hereto agrees that a final judgment in any such action, litigation or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this Agreement or in any other Loan Document shall affect any right that any Credit Party may otherwise have to bring any action or proceeding relating to this Agreement or any other Loan Document against any Loan Party or its Properties in the courts of any jurisdiction for the purposes of enforcing a judgment, or to the extent the courts referred to in the preceding sentence do not have jurisdiction over such legal action or proceeding or the parties or property subject thereto.

(c) Each party hereto hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement or any other Loan Document in any court referred to in the first sentence of paragraph (b) of this Section. Each of the parties hereto hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

(d) Each party to this Agreement irrevocably consents to service of process in the manner provided for notices in Section 9.01. Nothing in this Agreement or any other Loan Document will affect the right of any party to this Agreement to serve process in any other manner permitted by law.

SECTION 9.10. **WAIVER OF JURY TRIAL. EACH PARTY HERETO HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY LEGAL PROCEEDING DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THIS AGREEMENT, ANY OTHER LOAN DOCUMENT OR THE TRANSACTIONS CONTEMPLATED HEREBY OR THEREBY (WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY). EACH PARTY HERETO (A) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER AND (B) ACKNOWLEDGES THAT IT AND THE OTHER PARTIES HERETO HAVE BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION**.

SECTION 9.11. Headings. Article and Section headings and the Table of Contents used herein are for convenience of reference only, are not part of this Agreement and shall not affect the construction of, or be taken into consideration in interpreting, this Agreement.

SECTION 9.12. Confidentiality. Each of the Administrative Agent and the Lenders agrees to maintain the confidentiality of the Information (as defined below), except that Information may be disclosed (a) to its and its (i) Affiliates' directors, (ii) officers, (iii) employees and agents, including accountants, legal counsel and other advisors and (iv) any insurer, insurance broker, reinsurer or provider of security and their affiliated companies, auditors, advisors and service providers, in each case in this clause (iv) arising from or in connection with the provision of credit support or insurance, (it being understood that the Persons to whom such disclosure is made will be informed of the confidential nature of such Information and instructed to keep such Information confidential), (b) to the extent required or requested by any Governmental Authority (including any self-regulatory authority, such as the National Association of Insurance Commissioners), (c) to the extent required by applicable laws or regulations or by any subpoena or similar legal process (in which case the Administrative Agent or such Lender, as applicable, agrees to inform the Borrower promptly thereof (except with respect to any audit or examination conducted by bank accountants or any governmental bank regulatory or self-regulatory authority exercising examination or regulatory authority) to the extent practicable and not prohibited by law, rule or regulation and to only disclose that Information necessary to fulfill such legal requirement), (d) to any other party to this Agreement, (e) in connection with the exercise of any remedies under this Agreement or any other Loan Document or any suit, action or proceeding relating to this Agreement or any other Loan Document or the enforcement of rights hereunder or thereunder, (f) subject to an agreement containing provisions substantially the same as those of this Section, to (i) any assignee of or Participant in, or any prospective assignee of or Participant in, any of its rights or obligations under this Agreement or (ii) any actual or prospective counterparty (or its advisors) to any swap or derivative transaction relating to the Borrower and its obligations, (g) on a confidential basis to (i) any rating agency in connection with rating the Borrower or its Subsidiaries or the credit facilities provided for herein or (ii) the CUSIP Service Bureau or any similar agency in connection with the issuance and monitoring of CUSIP numbers with respect to the credit facilities provided for herein, (h) with the consent of the Borrower or (i) to the extent such Information (i) becomes publicly available other than as a result of a breach of this Section, (ii) becomes available to the Administrative Agent any Lender or any of their respective Affiliates on a nonconfidential basis from a source other than the Borrower or (iii) is independently developed by the Administrative Agent, or any such Lender without the use of Information. For the purposes of this Section, "Information" means all information received from the Borrower relating to the Borrower or its business, other than any such information that is available to the Administrative Agent or any Lender on a nonconfidential basis prior to disclosure by the Borrower and other than information pertaining to this Agreement routinely provided by arrangers to data service providers, including league table providers, that serve the lending industry. Any Person required to maintain the confidentiality of Information as provided in this Section shall be considered to have complied with its obligation to do so if such Person has exercised the same degree of care to maintain the confidentiality of such Information as such Person would accord to its own confidential information.

EACH LENDER ACKNOWLEDGES THAT INFORMATION AS DEFINED IN THE IMMEDIATELY PRECEDING PARAGRAPH FURNISHED TO IT PURSUANT TO THIS AGREEMENT MAY INCLUDE MATERIAL NON-PUBLIC INFORMATION CONCERNING THE BORROWER AND ITS RELATED PARTIES OR THEIR RESPECTIVE SECURITIES, AND CONFIRMS THAT IT HAS DEVELOPED COMPLIANCE PROCEDURES REGARDING THE USE OF MATERIAL NON-PUBLIC INFORMATION AND THAT IT WILL HANDLE SUCH MATERIAL NON-PUBLIC INFORMATION IN ACCORDANCE WITH THOSE PROCEDURES AND APPLICABLE LAW, INCLUDING FEDERAL AND STATE SECURITIES LAWS.

ALL INFORMATION, INCLUDING REQUESTS FOR WAIVERS AND AMENDMENTS, FURNISHED BY THE BORROWER OR THE ADMINISTRATIVE AGENT PURSUANT TO, OR IN THE COURSE OF ADMINISTERING, THIS AGREEMENT WILL BE SYNDICATE-LEVEL INFORMATION, WHICH MAY CONTAIN MATERIAL NON-PUBLIC INFORMATION ABOUT THE BORROWER, THE OTHER LOAN PARTIES AND THEIR RELATED PARTIES OR THEIR RESPECTIVE SECURITIES. ACCORDINGLY, EACH LENDER REPRESENTS TO THE BORROWER AND THE ADMINISTRATIVE AGENT THAT IT HAS IDENTIFIED IN ITS ADMINISTRATIVE QUESTIONNAIRE A CREDIT CONTACT WHO MAY RECEIVE INFORMATION THAT MAY CONTAIN MATERIAL NON-PUBLIC INFORMATION IN ACCORDANCE WITH ITS COMPLIANCE PROCEDURES AND APPLICABLE LAW.

SECTION 9.13. USA PATRIOT Act Notice. Each Lender and the Administrative Agent (for itself and not on behalf of any Lender) hereby notifies the Borrower that pursuant to the requirements of the USA PATRIOT Act, it is required to obtain, verify and record information that identifies the Borrower, which information includes the name and address of the Borrower and other information that will allow such Lender or the Administrative Agent, as applicable, to identify the Borrower in accordance with the USA PATRIOT Act.

SECTION 9.14. Releases of Guarantors.

(a) So long as no Default or Event of Default has occurred and is continuing (or would result from such release) any Subsidiary Guarantor shall be released from its obligations under the Guaranty Agreement and the other Loan Documents if all of the Equity Interests of a Subsidiary Guarantor that is owned by the Borrower or a Subsidiary is sold or otherwise Disposed of in a transaction or transactions permitted by this Agreement. In connection with any release pursuant to this Section, the Administrative Agent shall, promptly upon receipt of a written request therefor from the Borrower (together with an certificate of a Responsible Officer of the Borrower certifying that such transaction is permitted hereunder), execute and deliver all documents and take such other action as may reasonably be requested to evidence such release of such Subsidiary Guarantor. Any execution and delivery of documents pursuant to this Section shall be without recourse to or warranty by the Administrative Agent.

(b) Upon Payment in Full, the Guaranty Agreement and all obligations (other than those expressly stated to survive such termination) of each Guarantor thereunder shall automatically terminate, all without delivery of any instrument or performance of any act by any Person.

SECTION 9.15. Interest Rate Limitation. Notwithstanding anything herein to the contrary, if at any time the interest rate applicable to any Revolving Loan, together with all fees, charges and other amounts which are treated as interest on such Revolving Loan under applicable law (collectively the "Charges"), shall exceed the maximum lawful rate (the "Maximum Rate") which may be contracted for, charged, taken, received or reserved by the Lender holding such Revolving Loan in accordance with applicable law, the rate of interest payable in respect of such Revolving Loan hereunder, together with all Charges payable in respect thereof, shall be limited to the Maximum Rate and, to the extent lawful, the interest and Charges that would have been payable in respect of such Revolving Loan but were not payable as a result of the operation of this Section shall be cumulated and the interest and Charges payable to such Lender in respect of other Revolving Loans or periods shall be increased (but not above the Maximum Rate therefor) until such cumulated amount, together with interest thereon at the Federal Funds Effective Rate to the date of repayment, shall have been received by such Lender.

SECTION 9.16. No Advisory or Fiduciary Responsibility. In connection with all aspects of each transaction contemplated hereby (including in connection with any amendment, waiver or other modification hereof or of any other Loan Document), the Borrower acknowledges and agrees that: (i) (A) the arranging and other services regarding this Agreement provided by the Lenders are arm's-length commercial transactions between the Loan Parties and their respective Affiliates, on the one hand, and the Lenders and their Affiliates, on the other hand, (B) the Loan Parties have consulted their own legal, accounting, regulatory and tax advisors to the extent they have deemed appropriate, and (C) the Loan Parties are capable of evaluating, and understands and accepts, the terms, risks and conditions of the transactions contemplated hereby and by the other Loan Documents; (ii) (A) each of the Lenders and their Affiliates is and has been acting solely as a principal and, except as expressly agreed in writing by the relevant parties, has not been, is not, and will not be acting as an advisor, agent or fiduciary for any of the Loan Parties or their Affiliates, or any other Person and (B) no Lender nor any of its Affiliates has any obligation to any of the Loan Parties or their Affiliates with respect to the transactions contemplated hereby except, in the case of a Lender, those obligations expressly set forth herein and in the other Loan Documents; and (iii) each of the Lenders and their respective Affiliates may be engaged in a broad range of transactions that involve interests that differ from those of the Loan Parties and their Affiliates, and no Lender or any of its Affiliates has any obligation to disclose any of such interests to the Loan Parties or their Affiliates. To the fullest extent permitted by law, the Borrower hereby waives and releases any claims that it may have against each of the Lenders and their Affiliates with respect to any breach or alleged breach of agency or fiduciary duty in connection with any aspect of any transaction contemplated hereby.

SECTION 9.17. Acknowledgement and Consent to Bail-In of EEA Financial Institutions. Notwithstanding anything to the contrary in any Loan Document or in any other agreement, arrangement or understanding among any such parties, each party hereto acknowledges that any liability of any Affected Financial Institution arising under any Loan Document, to the extent such liability is unsecured, may be subject to the Write-Down and Conversion Powers of the applicable Resolution Authority and agrees and consents to, and acknowledges and agrees to be bound by:

(a) the application of any Write-Down and Conversion Powers by the applicable Resolution Authority to any such liabilities arising hereunder which may be payable to it by any party hereto that is an Affected Financial Institution; and

(b) the effects of any Bail-in Action on any such liability, including, if applicable

(i) a reduction in full or in part or cancellation of any such liability;

(ii) a conversion of all, or a portion of, such liability into shares or other instruments of ownership in such Affected Financial Institution, its parent undertaking, or a bridge institution that may be issued to it or otherwise conferred on it, and that such shares or other instruments of ownership will be accepted by it in lieu of any rights with respect to any such liability under this Agreement or any other Loan Document; or

(iii) the variation of the terms of such liability in connection with the exercise of the Write-Down and Conversion Powers of any applicable Resolution Authority.

FORM OF

STOCKHOLDERS' AGREEMENT

DATED AS OF [ ], 2022

BETWEEN

BKV CORPORATION

AND

BANPU NORTH AMERICA CORPORATION

TABLE OF CONTENTS

FORM OF STOCKHOLDERS' AGREEMENT

This Stockholders' Agreement is entered into as of [ ], 2022, by and between BKV Corporation, a Delaware corporation (the " Company"), and Banpu North America Corporation, a Delaware corporation ("BNAC"), to be effective as of the Effective Date (as defined herein). Unless otherwise defined herein, capitalized terms used herein shall have the respective meanings set forth in Article I hereof. The Company and BNAC are collectively referred to herein as the "Parties" and individually as a "Party."

RECITALS:

WHEREAS, the Parties entered into that certain Stockholders' Agreement, dated as of May 1, 2020, among the Parties and certain other Persons named therein (as amended, the "Original Stockholders' Agreement");

WHEREAS, in connection with the initial public offering (the "IPO") of shares of the Company's Common Stock, the Company intends to consummate the transactions described in the Registration Statement on Form S-1 (Registration No. 333-[ ]); and

WHEREAS, effective as of the closing of the IPO, (i) the Original Stockholders' Agreement shall terminate in its entirety in accordance with its terms and shall be of no further force nor effect and (ii) the Parties are entering into this Agreement to set forth certain understandings between such Parties, including with respect to certain governance matters.

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements set forth herein and for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

ARTICLE I
INTRODUCTORY MATTERS

1.1 Defined Terms. In addition to the terms defined elsewhere herein, the following terms have the following meanings when used herein with initial capital letters:

(a) "Affiliate" means, with respect to any Person, any Person that, directly or indirectly through one or more intermediaries, Controls, is Controlled by or is under common Control with such Person; provided, however, that for the purposes of this Agreement, the Affiliates of Banpu shall not include the Company and its Subsidiaries.

(b) "Agreement" means this Stockholders' Agreement, as the same may be amended, supplemented, restated or otherwise modified from time to time in accordance with the terms hereof.

(c) "Applicable Percentage" means, at any time, the then-applicable percentage of the voting power of shares of the Company's capital stock entitled to vote generally in the election of directors that is beneficially owned, directly or indirectly, by Banpu.

(d) "Auditor" means the independent registered public accounting firm appointed by the Board or the Audit Committee of the Board as auditor of the Company from time to time.

(e) "Banpu" means BNAC, together with its successors and permitted assigns, but excluding the Company and its Subsidiaries.

(f) "Banpu Designee" has the meaning set forth in Section 2.1(a) hereof.

(g) "beneficially own" (including its correlative meanings, "beneficially owned" and "beneficial ownership") has the meaning set forth in Rule 13d-3 promulgated under the Exchange Act.

(h) "BNAC" has the meaning set forth in the Preamble.

(i) "Board" means the board of directors of the Company.

(j) "Budget" means the annual budget for the Company and its Subsidiaries as approved and/or amended from time to time by the Board.

(k) "Business Day" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in New York, NY are authorized or obligated by law or executive order to close.

(l) "Business Plan" means the rolling business plan for the Company and its Subsidiaries updated annually in respect of the forthcoming five (5) year period setting out details of their strategic planning in respect of market growth, capital expenditure, financing, tax and contingency planning, and compared against the applicable Budget, as approved and/or amended from time to time by the Board.

(m) "Bylaws" means the Company's Amended and Restated Bylaws as in effect on the Effective Date, as the same may be amended or restated from time to time.

(n) "Certificate of Incorporation" means the Company's Second Amended and Restated Certificate of Incorporation as in effect on the Effective Date, as the same may be amended or restated from time to time.

(o) "Common Stock" means the shares of common stock, par value $0.01 per share, of the Company, and any other capital stock of the Company into which such common stock is reclassified or reconstituted.

(p) "Company" has the meaning set forth in the Preamble.

(q) "Confidential Information" has the meaning set forth in Section 3.3(a)(i) hereof.

(r) "Control" (including its correlative meanings, "Controlled by" and "under common Control with") means the possession, directly or indirectly, of the power to direct or cause the direction of management or policies (whether through ownership of ownership interests, by contract or otherwise)

of a Person.

(s) "Demand Notice" has the meaning set forth in Section 4.1(a)(i) hereof.

(t) "Director" means any director of the Company.

(u) "Effective Date" means the date on which the closing of the IPO occurs.

(v) "Exchange Act" means the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder, as the same may be amended from time to time.

(w) "FINRA" means the Financial Industry Regulatory Authority, Inc.

(x) "GAAP" means generally accepted accounting principles in the United States.

(y) "Governmental Authority" means any nation or government, any state or other political subdivision thereof, and any entity exercising executive, legislative, judicial, regulatory or administrative functions of or pertaining to government.

(z) "IFRS" means the International Financial Report Standards issued by the IFRS Foundation and the International Accounting Standards in effect at the time to which the related reference to such principles pertains.

(aa) "IPO" has the meaning set forth in the Recitals.

(bb) "Law" means any statute, law, regulation, ordinance, rule, injunction, order, decree, governmental approval, directive, requirement, or other governmental restriction or any similar form of decision of, or determination by, or any interpretation or administration of any of the foregoing by, any Governmental Authority and any rules and regulations of a Recognized Exchange.

(cc) "Maximum Designee Number" means (i) from the Effective Date until (but not including) the one-year anniversary of the Effective Date: the number equal to (x) the Total Number of Directors less (y) three (3); (ii) from and after the one-year anniversary of the Effective Date until (but not including) the first date on which Banpu beneficially owns, directly or indirectly, 50% or less of the voting power of all shares of the Company's capital stock entitled to vote generally in the election of directors: the number equal to (x) the Total Number of Directors less (y) four (4); and (iii) from and after the first date on which Banpu beneficially owns, directly or indirectly, 50% or less of the voting power of all shares of the Company's capital stock entitled to vote generally in the election of directors: the number equal to (x) the Total Number of Directors less (y) the minimum number of Directors that would constitute a majority of the Total Number of Directors.

(dd) "Original Stockholders' Agreement" has the meaning set forth in the Recitals.

(ee) "Party" or "Parties" has the meaning set forth in the Preamble.

(ff) "Person" means an individual, a partnership, a corporation, a limited liability company, an association, a joint stock company, a trust, a joint venture, a cooperative, an unincorporated organization, or other form of business organization, whether or not regarded as a legal entity under applicable Law, or any Governmental Authority or any department, agency or political subdivision thereof.

(gg) "Recognized Exchange" means The New York Stock Exchange or the Nasdaq Capital Market.

(hh) "Registrable Securities" means shares of Common Stock held by Securityholder from time to time. For purposes of this Agreement, Registrable Securities shall cease to be Registrable Securities when (i) a registration statement covering resales of such Registrable Securities has been declared effective under the Securities Act by the SEC and such Registrable Securities have been disposed of pursuant to such effective registration statement, (ii) such Registrable Securities are eligible to be sold by Securityholder owning such Registrable Securities (including Registrable Securities deliverable to Securityholder under an effective Exchange Registration) pursuant to Rule 144 or 145 (or any similar provision then in effect) under the Securities Act, without any restriction or limitation thereunder on volume or manner of sale, or (iii) such Registrable Securities cease to be outstanding shares of Common Stock of the Company.

(ii) "Registration Expenses" means any and all expenses incurred in connection with the performance of or compliance with Article IV hereof, including:

(i) all SEC, stock exchange, or FINRA registration and filing fees (including, if applicable, the fees and expenses of any "qualified independent underwriter," as such term is defined in Rule 5121 of FINRA, and of its counsel);

(ii) all fees and expenses of complying with securities or blue sky laws (including fees and disbursements of counsel for the underwriters in connection with blue sky qualifications of the Registrable Securities);

(iii) all printing, messenger and delivery expenses;

(iv) all fees and expenses incurred in connection with the listing of the Registrable Securities on any securities exchange or FINRA and all rating agency fees;

(v) the reasonable fees and disbursements of counsel for the Company and of its independent public accountants, including the expenses of any special audits and/or comfort letters required by or incident to such performance and compliance;

(vi) any fees and disbursements of underwriters customarily paid by the issuers or sellers of Securities, including liability insurance if the Company so desires or if the underwriters so require, and the reasonable fees and expenses of any special experts retained in connection with the requested registration, but excluding underwriting discounts and commissions and transfer taxes, if any;

(vii) the reasonable fees and out-of-pocket expenses of not more than one (1) law firm incurred by Securityholder in connection with the registration;

(viii the costs and expenses of the Company relating to analyst and investor presentations or any "road show" undertaken in connection with the registration and/or marketing of the Registrable Securities (including the reasonable out-of-pocket expenses of Securityholder); and

(ix) any other fees and disbursements customarily paid by the issuers of Securities.

(jj) "SEC" means the Securities and Exchange Commission.

(kk) "Securities" means capital stock, limited partnership interests, limited liability company interests, beneficial interests, warrants, options, notes, bonds, debentures, and other securities, equity interests, ownership interests and similar obligations of every kind and nature of any Person.

(ll) "Securities Act" means the Securities Act of 1933, as amended, and the rules and regulations promulgated thereunder, as the same may be amended from time to time.

(mm) "Securityholder" means Banpu.

(nn) "Subsidiary" means, with respect to any Person, any corporation, limited liability company, partnership, association or other business entity of which: (i) if a corporation, a majority of the total voting power of shares of stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, representatives or trustees thereof is at the time owned or Controlled, directly or indirectly, by that Person or one or more of the other Subsidiaries of that Person or a combination thereof; or (ii) if a limited liability company, partnership, association or other business entity, a majority of the total voting power of stock (or equivalent ownership interest) of the limited liability company, partnership, association or other business entity is at the time owned or Controlled, directly or indirectly, by that Person or one or more Subsidiaries of that Person or a combination thereof. For purposes hereof, a Person or Persons shall be deemed to have a majority ownership interest in a limited liability company, partnership, association or other business entity if such Person or Persons shall be allocated a majority of limited liability company, partnership, association or other business entity gains or losses or shall be or Control the managing member, managing director or other governing body or general partner of such limited liability company, partnership, association or other business entity.

(oo) "Total Number of Directors" means the total number of directors comprising the Board, including any vacancies.

(pp) "WKSI" means a well-known seasoned issuer, as defined in Rule 405 under the Securities Act.

1.2 Construction. The language used in this Agreement will be deemed to be the language chosen by the Parties to express their mutual intent, and no rule of strict construction will be applied against any Party. Unless the context otherwise requires: (a) "or" is disjunctive but not exclusive, (b) words in the singular include the plural, and in the plural include the singular, and (c) the words "hereof," "herein," and "hereunder" and words of similar import when used in this Agreement refer to this Agreement as a whole and not to any particular provision of this Agreement, and section references are to this Agreement unless otherwise specified.

ARTICLE II
CORPORATE GOVERNANCE MATTERS

2.1 Election of Directors.

(a) Following the Effective Date, and for so long as Banpu beneficially owns, directly or indirectly, 10% or more of the voting power of all shares of the Company's capital stock entitled to vote generally in the election of directors, BNAC shall have the right (but not the obligation) pursuant to this Agreement to designate for nomination to the Board a number of individuals (each, a "Banpu Designee") equal to the number of Directors (all decimal numbers to be rounded up to the nearest whole number) determined by multiplying the Applicable Percentage to the Total Number of Directors; *provided, however*, that such number of individuals shall not exceed the Maximum Designee Number.

As of the Effective Date, the initial Banpu Designees shall be [ ]. BNAC shall give written notice to the Corporate Governance and Nominating Committee of the Board of each Banpu Designee no later than the date that is sixty (60) days prior to the first anniversary of the date that the Company's annual proxy for the prior year was first mailed to the Company's stockholders. For the avoidance of doubt, BNAC shall not have any rights to designate a Director pursuant to this Agreement from and after the first date on which Banpu beneficially owns, directly or indirectly, less than 10% of the voting power of all shares of the Company's capital stock entitled to vote generally in the election of directors.

(b) In the event that a vacancy is created or exists at any time by the death, disability, retirement or resignation of any Banpu Designee or as a result of BNAC not yet designating a person to fill such vacancy or Board seat, any individual nominated by or at the direction of the Board or any duly authorized committee thereof to fill such vacancy shall be, and the Company shall use its best efforts to cause such vacancy to be filled, as soon as possible, by a new designee of BNAC, and the Company shall take, to the fullest extent permitted by law, at any time and from time to time, all actions necessary to

accomplish the same, including by taking Board action to appoint such Banpu Designee to the Board to fill such vacancy.

(c) The Company and Banpu shall, to the fullest extent permitted by law, take all actions to cause the Board to include the Chief Executive Officer of the Company.

(d) The Company shall, to the fullest extent permitted by law, include in the slate of nominees recommended by the Board at any meeting of stockholders called for the purpose of electing directors, the persons designated pursuant to this Section 2.1 and use its best efforts to cause the election of each such designee to the Board, including nominating each such individual to be elected as a Director as provided herein, recommending such individual's election and soliciting proxies or consents in favor thereof.

(e) If at any time Banpu's beneficial ownership is reduced such that it would no longer be entitled pursuant to Section 2.1(a) hereof to designate for nomination to the Board the full number of individuals that constitute the Banpu Designees at such time, then it shall promptly (and in any event within two (2) Business Days) cause such number of Banpu Designees then serving as Directors on the Board to resign from the Board (such resigning Directors to be selected at BNAC's discretion, and to be replaced by nominees chosen by the remaining Directors in office) as is necessary so that the remaining number of Banpu Designees then serving on the Board is less than or equal to the number of Banpu Designees that BNAC is then entitled to designate for nomination pursuant to Section 2.1(a) hereof.

2.2 Chairman of the Board.

(a) For so long as Banpu beneficially owns at least 25% of the voting power of shares of the Company's capital stock entitled to vote generally in the election of directors, BNAC shall have the right (but not the obligation) pursuant to this Agreement to designate the Chairman of the Board from among the Banpu Designees.

(b) The individual designated as Chairman of the Board shall serve as such for a three-year term, or until such earlier time as such individual retires or is otherwise replaced by BNAC as Chairman.

(c) In the event that the Chairman of the Board ceases to hold office as a Director during his or her term as Chairman at a time when BNAC has the right pursuant to Section 2.2(a) hereof to designate the Chairman, BNAC shall have the right (but not the obligation) pursuant to this Agreement to designate a new Chairman of the Board from among the other Banpu Designees. Such new Chairman of the Board shall serve for the remainder of the term of the Chairman who ceased to hold office.

2.3 Amendment of Certificate of Incorporation and Bylaws. Neither the Certificate of Incorporation nor the Bylaws shall be amended in a manner inconsistent with the terms of this Agreement without the consent of BNAC.

2.4 Reimbursement of Expenses. The Company shall cause each Director to be promptly reimbursed for all reasonable and documented out-of-pocket costs and expenses incurred by him or her in connection with (a) attending meetings of the Board or any committee thereof and other meetings and events attended on behalf of the Company and (b) serving as a member of the Board.

2.5 Indemnification. Each Person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he or she is or was a Director or an officer of the Company or is or was serving at the request of the Company as a director, officer, or trustee of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan, shall be indemnified and held harmless by the Company to the fullest extent permitted by the General Corporation Law of the State of Delaware as it now exists or may hereafter be amended, subject to the terms and conditions set forth in the Bylaws.

ARTICLE III
INFORMATION

3.1 Information.

(a) For so long as BNAC shall have the right pursuant to this Agreement to nominate to the Board at least one (1) Director, the Company shall prepare, or procure the preparation of, and shall submit to BNAC:

(i) the financial information set forth in Section 3.2 hereof; and

(ii) such information as BNAC may reasonably require relating to the business or financial condition of the Company or any of its Subsidiaries within a reasonable period.

(b) The Company shall not be required to disclose any privileged information of the Company so long as the Company has used commercially reasonable efforts to enter into an arrangement pursuant to which it may provide such information to BNAC without the loss of any such privilege. Further, BNAC may request that the Company not provide any of the information required pursuant to this Section 3.1 or Section 3.2 hereof if such information is reasonably expected to contain any material non-public information (within the meaning of U.S. federal securities laws).

(c) On or before September 15 of each fiscal year, the Company shall prepare and deliver to the Board a detailed draft of the Budget and Business Plan for the Company and its Subsidiaries (including the financial projection and estimated major items of revenue and capital expenditure) for the following fiscal year, broken down on a monthly basis, and an accompanying cash flow forecast, together with a balance sheet showing the projected position of the Company and its Subsidiaries as at the end of the following fiscal year. The Company shall use reasonable efforts to finalize such Budget and Business Plan for the following fiscal year on before November 15.

3.2 Certain Reports. For so long as Banpu beneficially owns at least 25% of the voting power of shares of the Company's capital stock entitled to vote generally in the election of directors, the Company shall deliver or cause to be delivered to BNAC:

(a) as soon as available, but in any event not later than twenty (20) days after the end of each of month, (i) the unaudited monthly consolidated financial statements of the Company for the month then ended, in each case, prepared in accordance with IFRS, (ii) a report of the Company's production by basin for such month then ended and (iii) the Company's safety report for the month then ended;

(b) as soon as available, but in any event not later than forty-five (45) days after the end of each of the first three (3) quarters of each fiscal year, the unaudited quarterly consolidated financial statements of the Company for the fiscal quarter then ended, in each case, prepared in accordance with GAAP (except that such financial statements may (i) be subject to normal year-end audit adjustments and (ii) not contain all notes thereto that may be required in accordance with GAAP);

(c) as soon as available, but in any event not later than ninety (90) days after the end of each fiscal year, the audited consolidated financial statements of the Company for the fiscal year then ended, in each case, prepared in accordance with GAAP;

(d) as soon as available, but in any event not later than (i) forty-five (45) days after the end of each of the first three (3) quarters of each fiscal year and (ii) ninety (90) days after the end of each fiscal year, the consolidated financial statements of the Company, in each case, prepared in accordance with IFRS, together with such other information as BNAC may request that is reasonably required by Banpu in order to prepare and present its consolidated financial statements in accordance with applicable Law and stock exchange requirements.

3.3 Disclosure of Information.

(a) Subject to Section 3.3(b) hereof, BNAC shall, and shall use all reasonable efforts to ensure that Banpu, its Affiliates and its and their respective representatives shall:

(i) hold in strict confidence and keep confidential the following (the "Confidential Information"):

(1) all communications between them and the Company or any of its Subsidiaries;

(2) all information and other materials that pertain to the Company's or any of its Subsidiaries' businesses which is not available to the public, whether written, oral, electronic, visual form or any other media, including, without limitation, such information that is proprietary or confidential or concerning the Company's or any of its Subsidiaries' ownership, operations or proposed operations, projects, strategies, business plans, actual or projected financial or operating data, contracts, books and records; and

(3) any information relating to this Agreement, the customers, business, assets or affairs of the Company and its Subsidiaries and all information concerning the business transactions and/or financial arrangements of the Company and its Subsidiaries that Banpu may have or acquire as a stockholder of the Company or through making appointments to the Board; and

(ii) (1) not use any Confidential Information for any purpose other than to evaluate and analyze the Company's and its Subsidiaries' assets and operations and its interest therein and (2) not disclose any Confidential Information to any Person (other than a Director or officer of the Company) without the consent of the Company.

(b) Section 3.3(a) hereof shall not prohibit disclosure or use of any information if and to the extent:

(i) the information is or becomes publicly available, other than by breach of this Agreement;

(ii) the Company has given prior written approval to the disclosure or use;

(iii) the Board has confirmed in writing that such information is not confidential;

(iv) Banpu is able to demonstrate to the Company that such information was independently developed, sourced or acquired by it or any of its Affiliates after the date of this Agreement without the use of any Confidential Information;

(v) the disclosure or use is required by Law, any governmental or regulatory body or any securities exchange on which the shares of Banpu or its Affiliates are listed; provided, that Banpu has provided the Company with prior notice and a reasonable opportunity to comment on such disclosure;

(vi) the disclosure or use is required for the purpose of any judicial or arbitral proceedings arising out of this Agreement or any documents to be entered pursuant to it;

(vii) the disclosure is reasonably made to a tax authority if and to the extent such disclosure is reasonably required for the purposes of the tax affairs of Banpu or its Affiliates; or

(viii) the disclosure of information by BNAC to Banpu or its or their respective representatives on a need to know basis and on terms that such Persons undertake to comply with the provisions of this Section 3.3 as if they were a party to this Agreement.

(c) Upon Banpu ceasing to be a stockholder of the Company, BNAC shall, and shall use all reasonable efforts to ensure that Banpu, its Affiliates and its and their respective representatives shall, promptly:

(i) return all written Confidential Information provided to it or its Affiliates or its or their respective representatives which is in such Person's possession or under its custody and control without keeping any copies thereof;

(ii) destroy all analyses, compilations, notes, studies, memoranda or other documents prepared by it or its Affiliates or its or their respective representatives to the extent that the same contain, reflect or derive from any Confidential Information relating to the Company or any of its Subsidiaries or their business; and

(iii) so far as it is practicable to do so (but, in any event, subject to continuing compliance with the duties of confidentiality contained in this Agreement), expunge any Confidential Information relating to the Company or any of its Subsidiaries or their business in its possession or under its custody and control from any computer, word processor or other device;

provided that (1) Banpu may retain (A) any Confidential Information relating to the Company or any of its Subsidiaries or their business as may be required by Law or contained or referred to in board minutes or in documents referred to therein and (B) any Confidential Information residing in its automatic data backup systems; and (2) Banpu's advisers may keep one (1) copy of any documents in their possession for record purposes, in each case subject to continuing compliance with the duties of confidentiality contained in this Agreement, notwithstanding any termination thereof.

(d) Subject to the foregoing provisions of this Section 3.3, no public disclosure or announcement of any kind regarding the Company shall be made by Banpu unless Banpu has notified the Company prior to any such disclosure or announcement, in which case Banpu shall take all reasonable steps to obtain the consent of the Company to the contents of such disclosure or announcement (such consent not to be unreasonably withheld or delayed).

(e) The obligations contained in this Section 3.3 shall last three (3) years after the termination of this Agreement pursuant to Section 5.1 hereof.

ARTICLE IV
REGISTRATION RIGHTS

4.1 Demand and Piggyback Rights.

(a) Right to Demand a Non-Shelf Registered Offering .

(i) Upon the written demand of Securityholder (a " Demand Notice") made at any time and from time to time following the date that is six (6) months after the consummation of the IPO, the Company will facilitate in the manner described in this Agreement a non-shelf registered offering of the Registrable Securities requested by Securityholder to be included in such offering; provided that the Company shall not be obligated to effect more than two (2) such offerings in any twelve (12) month period.

(ii) Any demanded non-shelf registered offering may, at the Company's option, include shares of Common Stock to be sold by the Company for its own account and will also include any other Registrable Securities to be sold by the holders of registration rights granted other than pursuant to this Agreement exercising such rights, to the extent exercising such rights on a timely basis. In order to be valid, the Demand Notice must provide the information described in Section 4.2(a) hereof (if applicable) and Section 4.3(e) hereof or be followed by such information, when requested as contemplated by Section 4.3(e) hereof.

(iii) Without limiting any other obligations of the Company hereunder, as soon as reasonably practicable, but in no event later than forty-five (45) days after receiving a valid Demand Notice satisfying the criteria set forth in Section 4.1(a) hereof, the Company shall file (or confidentially submit, at the Company's discretion) with the SEC a registration statement covering all of the Registrable Securities covered by such Demand Notice and any other registrable securities properly requested in accordance with other registration rights agreements with the Company, but subject in each case to any cutbacks imposed in accordance with Section 4.2(f) hereof and the limitations set forth in Section 4.1(e) hereof.

(b) Right to Piggyback on a Non-Shelf Registered Offering . In connection with any registered offering of shares of Common Stock covered by a non-shelf registration statement (including at the initiative of the Company), Securityholder may exercise piggyback rights to have included in such offering Registrable Securities held by it, subject to any cutbacks imposed in accordance with Section 4.2(f) hereof and the limitations set forth in Section 4.1(e) hereof. The Company will facilitate in the manner described in this Agreement any such non-shelf registered offering.

(c) Right to Demand and be Included in a Shelf Registration .

(i) Upon the delivery of a Demand Notice by Securityholder, provided at any time and from time to time when the Company is eligible to utilize Form S-3 or a successor form to sell shares of Common Stock in a secondary offering on a delayed or continuous basis in accordance with Rule 415 under the Securities Act, the Company will facilitate in the manner described in this Agreement a shelf registration of the Registrable Securities held by Securityholder requested by it to be included in such shelf. If, at the time of such request, the Company is eligible for WKSI status, such shelf registration shall, upon the approval of the Board, cover an unspecified number of Registrable Securities to be sold by the Company and Securityholder.

(ii) Without limiting any other obligations of the Company hereunder, as soon as reasonably practicable, but in no event later than forty-five (45) days after receiving a valid Demand Notice as set forth in Section 4.1(c)(i) hereof, the Company shall file (or confidentially submit, at the Company's discretion) with the SEC a shelf registration statement covering all of the Registrable Securities covered by such Demand Notice and any other registrable securities properly requested in accordance with other registration rights agreements with the Company, but subject in each case to any cutbacks imposed in accordance with Section 4.2(f) hereof and the limitations set forth in Section 4.1(e) hereof.

(d) Demand and Piggyback Rights for Shelf Takedowns.

(i) Upon the delivery of a Demand Notice by Securityholder, provided at any time and from time to time after a shelf registration statement has been declared effective by the SEC, the Company will facilitate in the manner described in this Agreement a "takedown" of Registrable Securities off of an effective shelf registration statement; provided that the Company shall not be obligated to effect (1) an underwritten shelf takedown unless such offering shall include securities with a total offering price (including piggyback securities and before deduction of underwriting discounts) reasonably expected to exceed, in the aggregate, $5,000,000 and (2) more than two (2) underwritten offerings demanded pursuant to this Section 4.1(d) or Section 4.1(a) hereof in any twelve (12) month period.

(ii) In connection with any underwritten shelf takedown (including at the initiative of the Company), Securityholder may exercise piggyback rights to have included in such takedown Registrable Securities held by it that are registered on such shelf.

(e) Limitations on Demand and Piggyback Rights.

(i) Any demand for the filing of a registration statement or for a registered offering or takedown, and the exercise of any piggyback registration rights, will be subject to the constraints of any applicable contractual lockup arrangements, and any such demand must be deferred until such lockup arrangements no longer apply. If a demand has been made for a non-shelf registered offering or for an underwritten takedown, no further demands may be made so long as the related offering is still being pursued. Notwithstanding anything in this Agreement to the contrary, Securityholder will not have piggyback or other registration rights with respect to the following registered primary offerings by the Company: (1) a registration relating solely to employee benefit plans; (2) a registration on Form S-4 or S-8 (or other similar successor forms then in effect under the Securities Act); (3) a registration pursuant to which the Company is offering to exchange its own Securities for other Securities; (4) a registration statement relating solely to dividend reinvestment or similar plans; (5) a shelf registration statement relating to debt securities of the Company or any Subsidiary that are convertible for common equity of the Company; or (6) a registration where the Registrable Securities are not being sold for cash.

(ii) The Company may postpone the filing of a demanded registration statement or suspend the effectiveness of any shelf registration statement for a reasonable "blackout period" not in excess of ninety (90) days if (1) the Company has initiated a registered offering of its securities and continues to actively employ, in good faith, all reasonable efforts to cause the applicable registration statement to become effective; (2) Securityholder has requested an underwritten offering and the Company and Securityholder are unable to obtain the commitment of underwriters to firmly underwrite the offer; or (3) the Board determines in good faith that such registration or offering could materially interfere with a *bona fide* business, acquisition or divestiture or financing transaction of the Company or is reasonably likely to require premature disclosure of information that the Company has a *bona fide* business purpose for not disclosing publicly; provided that the Company shall not delay the filing of any demanded registration statement more than one (1) time in any twelve (12) month period.

4.2 Notices, Cutbacks and Other Matters.

(a) Notifications Regarding Registration Statements. In order for Securityholder to exercise its right to demand that a registration statement be filed, it must include in its Demand Notice the number of Registrable Securities sought to be registered, the complete name of the selling Securityholder and the proposed plan of distribution.

(b) Notifications Regarding Registration Piggyback Rights.

(i) In the event that the Company files (or confidentially submits) a registration statement with respect to a non-shelf registered offering, the Company will promptly give to Securityholder a written notice thereof as soon as practicable, but in no event less than seven (7) Business Days before the anticipated filing (or confidential submission) date of such registration statement. If Securityholder wishes to exercise its piggyback rights with respect to any such non-shelf registration statement, it must notify the Company of the number of Registrable Securities it seeks to have included in such registration statement in a written notice given within five (5) Business Days after the date of the Company's notice.

(ii) In the event that the Company proposes to conduct an underwritten shelf takedown, the Company will promptly give to Securityholder a written notice thereof as soon as practicable, but in no event less than five (5) Business Days before the expected date of commencement of marketing efforts for such underwritten shelf takedown. If Securityholder wishes to exercise its piggyback rights with respect to any such underwritten shelf takedown, it must notify the Company of the number of Registrable Securities it seeks to have included in such takedown in a written notice given within two (2) Business Days after the date of the Company's notice.

(iii) Pending any required public disclosure and subject to applicable legal requirements, the Parties will maintain appropriate confidentiality of their discussions regarding a prospective registration and/or offering.

(c) Notifications Regarding Demanded Underwritten Takedowns.

(i) At any time and from time to time after a shelf registration statement has been declared effective by the SEC, if Securityholder wishes to exercise its demand with respect to any "takedown" of Registrable Securities off of such effective shelf registration statement, it must notify the Company of the number of Registrable Securities it seeks to have included in such registration statement in a written notice and the expected price range of such offering no later than 5:00 p.m., New York City time, on the second (2nd) Business Day prior to any public announcement of such anticipated

takedown.

(ii) Pending any required public disclosure and subject to applicable legal requirements, the Parties will maintain appropriate confidentiality of their discussions regarding a prospective takedown.

(d) Requirements for Participation in Underwritten Offerings .

(i) If Securityholder proposes to distribute its Registrable Securities through an underwritten offering, it shall enter into an underwriting agreement in customary form with the underwriters selected for such underwritten offering and the Company.

(ii) Subject to Section 4.2(e) hereof, Securityholder may not participate in any underwritten offering for equity securities of the Company pursuant to a registration initiated by the Company hereunder unless it (1) agrees to sell its securities on the basis provided in any underwriting arrangements approved by the Company and (2) completes and executes all customary questionnaires, powers of attorney, indemnities, lock-up agreements, underwriting agreements and other customary documents as may be reasonably required under the terms of such underwriting arrangements.

(e) Plan of Distribution, Underwriters, Advisors and Counsel . If a majority of the Registrable Securities proposed to be sold in an underwritten offering through a non-shelf registration statement or through a shelf takedown is being sold by the Company for its own account, the Company will be entitled to determine the plan of distribution and select the managing underwriters and any provider of advisory services for such offering. Otherwise, if Securityholder holds a majority of the shares of Common Stock requested to be included, it will be entitled to determine the plan of distribution and select the managing underwriters, provided that such investment banker or bankers and managers shall be reasonably satisfactory to the Company.

(f) Cutbacks. If the managing underwriters advise the Company and the selling Securityholder that, in their opinion, the number of Registrable Securities requested to be included in an underwritten offering exceeds the amount that can be sold in such offering without adversely affecting the distribution of the Registrable Securities being offered, the price that will be paid in such offering or the marketability thereof, such offering will include only the number of Registrable Securities that the underwriters advise can be sold in such offering. If the Company is selling Registrable Securities for its own account in such offering and the offering is not being made on account of a demand made by Securityholder pursuant to Section 4.1(a) hereof, the securities to be offered by the Company will have first priority. To the extent of any remaining capacity, and in all other cases, the selling Securityholder (and any other Persons having registration rights *pari passu* with Securityholder and participating in such offering) and the Company will be subject to cutback *pro rata* based on the number of Registrable Securities initially requested by them to be included in such offering, without distinguishing between Securityholder or other Persons exercising *pari passu* registration rights based on who made the demand for such offering or otherwise.

(g) Withdrawals. Even if Registrable Securities held by Securityholder have been part of a registered underwritten offering, Securityholder may, no later than the time at which the public offering price and underwriters' discount are determined with the managing underwriter, decline to sell all or any portion of the Registrable Securities being offered for its account. For the avoidance of doubt, a commenced offering under which a withdrawal has been made in accordance with this Section 4.2(g) shall not count against the maximum number of demanded offerings that Securityholder may make in any twelve (12) month period.

4.3 Facilitating Registrations and Offerings .

(a) General. If the Company becomes obligated under this Agreement to facilitate a registration and offering of Registrable Securities on behalf of Securityholder, the Company will do so with the same degree of care and dispatch as would reasonably be expected in the case of a registration and offering by the Company of Registrable Securities for its own account. Without limiting this general obligation, the Company will fulfill its specific obligations as described in this Section 4.3.

(b) Registration Statements. In connection with each registration statement that is demanded by Securityholder in accordance with this Agreement or as to which piggyback rights otherwise apply, the Company will:

(i) (1) prepare and file with the SEC a registration statement on an appropriate form covering the applicable Registrable Securities, (2) file amendments thereto as warranted, (3) seek the effectiveness thereof as promptly as reasonably practicable and (4) file with the SEC prospectuses, prospectus supplements and free writing prospectuses as may be required, all in consultation with Securityholder and as reasonably necessary in order to permit the offer and sale of such Registrable Securities in accordance with the applicable plan of distribution;

(ii) within a reasonable time prior to the filing of any registration statement, any prospectus, any amendment to a registration statement, amendment or supplement to a prospectus or any free writing prospectus (in each case including all exhibits filed therewith), provide copies of such documents to the selling Securityholder and to the underwriter or underwriters of an underwritten offering, if applicable, and to their respective counsel; fairly consider such reasonable changes in any such documents prior to or after the filing thereof as the counsel to Securityholder or the underwriter or the underwriters may request; and make such of the representatives of the Company as shall be reasonably requested by the selling Securityholder or any underwriter available for discussion of such documents;

(iii) use all reasonable efforts to cause each registration statement and the related prospectus and any amendment or supplement thereto, as of the effective date of such registration statement, amendment or supplement and during the distribution of the registered Registrable Securities (1) to comply in all material respects with the requirements of the Securities Act (including the rules and regulations promulgated thereunder) and (2) not to contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the

statements therein not misleading; and

(iv) notify Securityholder promptly (1) when a registration statement has become effective and when any post-effective amendments and supplements thereto become effective if such registration statement or post-effective amendment is not automatically effective upon filing pursuant to Rule 462 under the Securities Act, (2) of the issuance by the SEC or any state securities authority of any stop order, injunction or other order or requirement suspending the effectiveness of a registration statement or the initiation of any proceedings for that purpose, (3) if, between the effective date of a registration statement and the closing of any sale of securities covered thereby pursuant to any agreement to which the Company is a party, the representations and warranties of the Company contained in such agreement cease to be true and correct in all material respects or if the Company receives any notification with respect to the suspension of the qualification of the Registrable Securities for sale in any jurisdiction or the initiation of any proceeding for such purpose, and (4) of the happening of any event during the period a registration statement is effective as a result of which such registration statement or the related prospectus contains any untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statements therein not misleading.

(c) Non-Shelf Registered Offerings and Shelf Takedowns . In connection with any non-shelf registered offering or shelf takedown that is demanded by Securityholder or as to which piggyback rights otherwise apply, the Company will:

(i) cooperate with the selling Securityholder and the sole underwriter or managing underwriter of an underwritten offering, if any, to facilitate the timely preparation and delivery of certificates representing the Registrable Securities to be sold and not bearing any restrictive legends; and enable such Registrable Securities to be in such denominations (consistent with the provisions of the governing documents thereof) and registered in such names as the selling Securityholder or the sole underwriter or managing underwriter of an underwritten offering of Registrable Securities, if any, may reasonably request at least five (5) days prior to any sale of such Registrable Securities;

(ii) furnish to Securityholder and to each underwriter, if any, participating in the relevant offering, without charge, as many copies of the applicable prospectus, including each preliminary prospectus, and any amendment or supplement thereto and such other documents as Securityholder or such underwriter may reasonably request in order to facilitate the public sale or other disposition of the Registrable Securities; and the Company hereby consents to the use of the prospectus, including each preliminary prospectus, by Securityholder and such underwriter in connection with the offering and sale of the Registrable Securities covered by the prospectus or the preliminary prospectus;

(iii) (1) use all reasonable efforts to register or qualify the Registrable Securities being offered and sold, no later than the time the applicable registration statement becomes effective, under all applicable state securities or blue sky laws of such jurisdictions as each underwriter, if any, or Securityholder holding Registrable Securities covered by a registration statement, shall reasonably request; (2) use all reasonable efforts to keep each such registration or qualification effective during the period such registration statement is required to be kept effective; and (3) do any and all other acts and things which may be reasonably necessary or advisable to enable each such underwriter, if any, and Securityholder to consummate the disposition in each such jurisdiction of such Registrable Securities owned by Securityholder; provided, however, that the Company shall not be obligated to qualify as a foreign corporation or as a dealer in securities in any jurisdiction in which it is not so qualified or to consent to be subject to general service of process (other than service of process in connection with such registration or qualification or any sale of Registrable Securities in connection therewith) in any such jurisdiction;

(iv) cause all Registrable Securities being sold to be qualified for inclusion in or listed on any Recognized Exchange on which Registrable Securities issued by the Company are then so qualified or listed if so requested by Securityholder, or if so requested by the underwriter or underwriters of an underwritten offering of Registrable Securities, if any;

(v) cooperate and assist in any filings required to be made with FINRA and in the performance of any due diligence investigation by any underwriter in an underwritten offering;

(vi) use all reasonable efforts to facilitate the distribution and sale of any Registrable Securities to be offered pursuant to this Agreement, including without limitation by making “road show” presentations, holding meetings with and making calls to potential investors and taking such other actions as shall be requested by Securityholder or the lead managing underwriter of an underwritten offering; and

(vii) enter into customary agreements (including, in the case of an underwritten offering, underwriting agreements in customary form, and including provisions with respect to indemnification and contribution in customary form and consistent with the provisions relating to indemnification and contribution contained herein) and take all other customary and appropriate actions in order to expedite or facilitate the disposition of such Registrable Securities and in connection therewith:

(1) make such representations and warranties to the selling Securityholder and the underwriters, if any, in form, substance and scope as are customarily made by issuers to underwriters in similar underwritten offerings;

(2) obtain opinions of counsel to the Company and updates thereof (which counsel and opinions (in form, scope and substance) shall be reasonably satisfactory to the lead managing underwriter, if any) addressed to the selling Securityholder and the underwriters, if any, covering the matters customarily covered in opinions requested in sales of securities or underwritten offerings and such other matters as may be reasonably requested by Securityholder and such underwriters;

(3) obtain “comfort” letters and updates thereof from the Company’s independent certified public accountants and independent petroleum reserve engineers addressed to the selling Securityholder, if permissible, and the underwriters, if any, which letters shall be customary in form and shall cover matters of the type customarily covered in “comfort” letters to underwriters in connection with primary underwritten offerings; and

(4) to the extent requested and customary for the relevant transaction, enter into a Securities sales agreement with Securityholder providing for, among other things, the appointment of such representative as agent for the selling Securityholder for the purpose

of soliciting purchases of Registrable Securities, which agreement shall be customary in form, substance and scope and shall contain customary representations, warranties and covenants.

The above shall be done at such times as customarily occur in similar registered offerings or shelf takedowns.

(d) Due Diligence. In connection with each registration and offering of Registrable Securities to be sold by Securityholder, the Company will, in accordance with customary practice, make available for inspection by underwriters and any counsel or accountant retained by such underwriters all relevant financial and other records, pertinent corporate documents and properties of the Company and cause appropriate officers, managers, employees, outside counsel and accountants of the Company to supply all information reasonably requested by any such underwriter, counsel or accountant in connection with their due diligence exercise, including through in-person meetings, but subject to customary privilege constraints.

(e) Information from Securityholder. In connection with any registration or offering of Registrable Securities in which Securityholder is participating, Securityholder will furnish to the Company in writing such information regarding itself as is required to be included in, or is otherwise required by FINRA or the SEC in connection with, any registration statement, any prospectus or any amendment or supplement thereto, the ownership of Registrable Securities by Securityholder and the proposed distribution by Securityholder of such Registrable Securities, as well as any such additional information as the Company may from time to time reasonably request in writing in connection therewith.

(f) Expenses. All Registration Expenses incurred in connection with any registration statement or registered offering covering Registrable Securities held by Securityholder will be borne by the Company. However, (i) underwriters', brokers' and dealers' discounts and commissions applicable to Registrable Securities sold for the account of Securityholder and (ii) other than as set forth in the definition of "Registration Expenses," all reasonable fees and expenses of any legal counsel representing Securityholder will be borne by Securityholder.

4.4 Reporting Obligations. As long as Securityholder shall own Registrable Securities, the Company, at all times while it shall be a reporting company under the Exchange Act, covenants to file timely (or obtain extensions in respect thereof and file within the applicable grace period) all reports required to be filed by the Company after the Effective Date pursuant to Sections 13(a) or 15(d) of the Exchange Act. The Company further covenants that it shall take such further action as Securityholder may reasonably request, all to the extent required from time to time to enable Securityholder to sell shares of Common Stock held by it without registration under the Securities Act within the limitation of the exemptions provided by Rule 144 promulgated under the Securities Act (or any successor rule promulgated thereafter by the SEC), including providing any legal opinions that may be required by the Company's transfer agent or otherwise related to the transfer of Registrable Securities.

4.5 Indemnification.

(a) Indemnification by the Company. In the event of any registration under the Securities Act by any registration statement pursuant to rights granted in this Agreement of Registrable Securities held by Securityholder, the Company will indemnify and hold harmless Securityholder, its officers, directors, and each underwriter of such securities and each other Person, if any, who Controls Securityholder or such underwriter, against any losses, claims, damages or liabilities (including legal fees and costs of court), joint or several, to which such Person may become subject under the Securities Act or otherwise, to the extent arising out of or are based upon any untrue statement or alleged untrue statement of any material fact contained, on its effective date, in any registration statement under which such securities were registered under the Securities Act, any preliminary prospectus, if used prior to the effective date of such registration statement, or in the final prospectus or in any amendment or supplement to any of the foregoing, or in any document incorporated by reference therein, or any issuer free writing prospectus (including any "road show," whether or not required to be filed with the SEC), or which arise out of or are based upon the omission or alleged omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading; provided, however, that the Company shall not be liable to Securityholder or its underwriters or controlling Persons in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement or omission or alleged omission made in such registration statement or such amendment or supplement, in reliance upon and in conformity with written information furnished to the Company by Securityholder or such underwriter specifically for use in the preparation thereof.

(b) Indemnification by Securityholder. Securityholder, as a condition to including Registrable Securities in such registration statement, will indemnify and hold harmless (in the same manner and to the same extent as set forth in Section 4.5(a) hereof) the Company, each director and officer of the Company and each underwriter of such securities and each other Person, if any, who Controls the Company or such underwriter (i) with respect to any statement or omission from such registration statement, or any amendment or supplement to it, if such statement or omission was made in reliance upon and in conformity with information furnished to the Company through a written instrument duly executed by Securityholder specifically regarding Securityholder for use in the preparation of such registration statement or amendment or supplement, or (ii) with respect to compliance by Securityholder with applicable Laws in effecting the sale or other disposition of the securities covered by such registration statement; provided, that the liability of Securityholder pursuant to this Section 4.5(b) shall not exceed the total price at which the securities were offered to the public by Securityholder.

(c) Indemnification Procedures. Promptly after receipt by an indemnified party of notice of the commencement of any action involving a claim referred to in Section 4.5(a) and Section 4.5(b) hereof, the indemnified party will, if a claim in respect thereof is to be made or may be made against an indemnifying party, give written notice to such indemnifying party of the commencement of the action. The failure of any indemnified party to give notice shall not relieve the indemnifying party of its obligations in this Section 4.5, except to the extent that the indemnifying party is actually prejudiced by the failure to give notice. If any such action is brought against an indemnified party, the indemnifying party will be entitled to participate in and to assume the defense of the action with counsel reasonably satisfactory to the indemnified party, and after notice from the indemnifying party to such indemnified party of its election to assume defense of the action, the indemnifying party will not be liable to such indemnified party for any legal or other expenses incurred by the latter in connection with the action's defense other than reasonable costs of investigation. The indemnifying party shall, in connection with any one such action or separate but substantially similar or related actions arising out of the same general allegations or circumstances, pay for the reasonable fees and expenses of one (but not

more than one) separate firm of attorneys for the indemnified party (in addition to all local counsel which is necessary, in the good faith opinion of both counsel for the indemnifying party and counsel for the indemnified party in order to adequately represent the indemnified parties), in addition to counsel for the indemnifying party. Whether or not a defense is assumed by the indemnifying party, the indemnifying party will not be subject to any liability for any settlement made without its consent (not to be unreasonably withheld). No indemnifying party will consent to entry of any judgment or enter into any settlement which (1) does not include as an unconditional term the giving by the claimant or plaintiff, to the indemnified party, of a release from all liability in respect of such claim or litigation or (2) involves the imposition of equitable remedies or the imposition of any non-financial obligations on the indemnified party.

(d) Contribution. If the indemnification required by this Section 4.5 from the indemnifying party is unavailable to or insufficient to hold harmless an indemnified party in respect of any indemnifiable losses, claims, damages, liabilities, or expenses, then the indemnifying party shall contribute to the amount paid or payable by the indemnified party as a result of such losses, claims, damages, liabilities, or expenses in such proportion as is appropriate to reflect (i) the relative benefit of the indemnifying and indemnified parties and (ii) if the allocation in clause (i) is not permitted by applicable Law, in such proportion as is appropriate to reflect the relative benefit referred to in clause (i) and also the relative fault of the indemnified and indemnifying parties, in connection with the actions which resulted in such losses, claims, damages, liabilities, or expenses, as well as any other relevant equitable considerations. The relative benefits received by a party shall be deemed to be in the same proportion as the total net proceeds from the offering (before deducting expenses) received by it bear to the total amounts (including, in the case of any underwriter, any underwriting commissions and discounts) received by each other party. The relative fault of the indemnifying party and the indemnified party shall be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a material fact or any omission or alleged omission to state a material fact, has been made by, or relates to information supplied by, such indemnifying party or parties, and the parties' relative intent, knowledge, access to information, and opportunity to correct or prevent such action. The amount paid or payable by a party as a result of the losses, claims, damage, liabilities, and expenses referred to above shall be deemed to include any legal or other fees or expenses reasonably incurred by such party in connection with any investigation or proceeding. The Company and Securityholder agree that it would not be just and equitable if contribution pursuant to this Section 4.5(d) were determined by *pro rata* allocation or by any other method of allocation which does not take account of the equitable considerations referred to in the prior provisions of this Section 4.5(d).

Notwithstanding the provisions of this Section 4.5(d), no indemnifying party shall be required to contribute any amount in excess of the amount by which the total price at which the securities were offered to the public by such indemnifying party exceeds the amount of any damages which such indemnifying party has otherwise been required to pay by reason of an untrue statement or omission. No Person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any Person who was not guilty of such a fraudulent misrepresentation.

ARTICLE V
GENERAL PROVISIONS

5.1 Termination. This Agreement shall terminate on the earlier to occur of (a) such time as BNAC is no longer entitled to designate a Director pursuant to Section 2.1(a) hereof (provided, however, that the provisions of Article IV hereof shall survive and continue in full force and effect until Securityholder no longer holds any Registrable Securities and in any case Section 4.5 shall survive and continue in full force and effect until the expiration of the applicable statute of limitations in respect of such matter); and (b) the delivery of a written notice by BNAC to the Company requesting that this Agreement terminate.

5.2 Notices. Any notice, designation, request, consent, demand and other communications required or permitted under this Agreement shall be in writing and shall be personally delivered, sent by facsimile or electronic transmission, or sent by reputable overnight courier service (charges prepaid) to the Parties at the respective addresses set forth below and to any other recipient at the address indicated on the Company's records, or at such address or to the attention of such other Person as the recipient Party has specified by prior written notice to the sending Party. Any such notice, designation, request, consent, demand, other communication and other documents shall be deemed to have been given or made hereunder on the date of delivery, if delivered personally or by facsimile or electronic transmission, and one (1) Business Day after the date of deposit with a reputable overnight courier service, if delivered by reputable overnight courier service.

5.3 **Amendment; Waiver**. This Agreement may be amended, supplemented or otherwise modified only by a written instrument executed by the Parties. Neither the failure nor delay on the part of any Party to exercise any right, remedy, power or privilege under this Agreement shall operate as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power or privilege preclude any other or further exercise of the same or of any other right, remedy, power or privilege, nor shall any waiver of any right, remedy, power or privilege with respect to any occurrence be construed as a waiver of such right, remedy, power or privilege with respect to any other occurrence. No waiver shall be effective unless it is in writing and is signed by the Party asserted to have granted such waiver.

5.4 **Further Assurances**. The Parties will sign such further documents, cause such meetings to be held, resolutions passed, exercise their votes and do and perform and cause to be done such further acts and things necessary, proper or advisable in order to give full effect to this Agreement and every provision hereof. To the fullest extent permitted by law, the Company shall not directly or indirectly take any action that is intended to, or would reasonably be expected to result in, Banpu being deprived of the rights contemplated by this Agreement.

5.5 **Assignment**. This Agreement will inure to the benefit of and be binding on the Parties and their respective successors and permitted assigns. This Agreement may not be assigned by a Party without the express prior written consent of the other Party, and any attempted assignment, without such consent, will be null and void; provided, however, that BNAC may assign this Agreement to Banpu Public Company Limited or any wholly owned subsidiary of Banpu Public Company Limited by giving prior written notice to, but without the express prior written consent of, the other Party.

5.6 **Third Parties**. This Agreement does not create any rights, claims or benefits inuring to any person that is not a Party nor create or establish any third-party beneficiary hereto.

5.7 **Governing Law**. This Agreement and all claims or disputes arising out of this Agreement shall be governed by and construed in accordance with the laws of the State of Delaware, without regard to principles of conflicts of laws thereof.

5.8 **Jurisdiction; Waiver of Jury Trial**. In any judicial proceeding involving any dispute, controversy or claim arising out of or relating to this Agreement, each of the Parties unconditionally accepts the jurisdiction and venue of the courts of the State of Delaware or if jurisdiction over the matter is vested exclusively in federal courts, the United States District Court for the District of Delaware, and the appellate courts to which orders and judgments thereof may be appealed. In any such judicial proceeding, the Parties agree that in addition to any method for the service of process permitted or required by such courts, to the fullest extent permitted by law, service of process may be made by delivery provided pursuant to the directions in Section 5.2 hereof. EACH OF THE PARTIES HEREBY WAIVES TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW TRIAL BY JURY IN ANY JUDICIAL PROCEEDING INVOLVING ANY DISPUTE, CONTROVERSY OR CLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

5.9 **Specific Performance**. Each Party acknowledges and agrees that in the event of any breach of this Agreement by any of them, the other Party would be irreparably harmed and could not be made whole by monetary damages. Each Party accordingly agrees to waive the defense in any action for specific performance that a remedy at law would be adequate and agrees that the Parties, in addition to any other remedy to which they may be entitled at law or in equity, shall be entitled to specific performance of this Agreement without the posting of bond.

5.10 **Entire Agreement**. This Agreement sets forth the entire understanding of the Parties with respect to the subject matter hereof. There are no agreements, representations, warranties, covenants or understandings with respect to the subject matter hereof or thereof other than those expressly set forth herein and therein. This Agreement supersedes all other prior agreements and understandings between the Parties with respect to such subject matter.

5.11 **Severability**. If any provision of this Agreement, or the application of such provision to any Person or circumstance or in any jurisdiction, shall be held to be invalid or unenforceable to any extent, (a) the remainder of this Agreement shall not be affected thereby, and each other provision hereof shall be valid and enforceable to the fullest extent permitted by law, (b) as to such Person or circumstance or in such jurisdiction such provision shall be reformed to be valid and enforceable to the fullest extent permitted by law, and (c) the application of such provision to other Persons or circumstances or in other jurisdictions shall not be affected thereby.

5.12 **Table of Contents, Headings and Captions**. The table of contents, headings, subheadings and captions contained in this Agreement are included for convenience of reference only, and in no way define, limit or describe the scope of this Agreement or the intent of any provision hereof.

5.13 **Counterparts**. This Agreement and any amendment hereto may be signed in any number of separate counterparts, each of which shall be deemed an original, but all of which taken together shall constitute one Agreement (or amendment, as applicable).

5.14 **Effectiveness**. This Agreement shall become effective upon the Effective Date.

5.15 **No Recourse**. This Agreement may only be enforced against, and any claims or cause of action that may be based upon, arise out of or relate to this Agreement, or the negotiation, execution or performance of this Agreement may only be made against the entities that are expressly identified as Parties and no past, present or future Affiliate, director, officer, employee, incorporator, member, manager, partner, stockholder, agent, attorney or representative of any Party shall have any liability for any obligations or liabilities of the Parties or for any claim based on, in respect of, or by reason of, the transactions contemplated hereby.

[*Remainder of Page Intentionally Left Blank*]

IN WITNESS WHEREOF, the Parties have executed this Agreement on the day and year first above written.

Exhibit 10.6

FORM OF AMENDED AND RESTATED TAX SHARING AGREEMENT

AMENDED AND RESTATED TAX SHARING AGREEMENT (this "Agreement"), made as of [], 2022, by and between (i)Banpu North America Corporation, a Delaware corporation ("BNAC"), and (ii) BKV Corporation, a Delaware corporation (" Banpu Sub").

WHEREAS, BNAC is the common parent of an affiliated group (within the meaning of Section1504 of the Internal Revenue Code of 1986, as amended (the "Code")) of corporations (collectively, the "Banpu Group") of which Banpu Sub is a member, and files a consolidated U.S. federal income tax return on the basis of a taxable year ending on December 31 on behalf of itself and members of the Banpu Group ("Consolidated Return").

WHEREAS, BNAC and Banpu Sub entered into that certain Tax Sharing Agreement, dated May 1, 2020 (the " Initial Tax Sharing Agreement "), to provide for payment by Banpu Sub to BNAC of the amounts payable by Banpu Sub in respect of U.S. federal income taxes and of certain state and local taxes, and for certain payments by BNAC to Banpu Sub, all as provided therein.

WHEREAS, BNAC and Banpu Sub desire to amend and restate the Initial Tax Sharing Agreement in its entirety, in accordance with the terms and conditions of this Agreement.

Accordingly, BNAC and Banpu Sub agree as follows:

1. Agreement to Join in and Preparation and Filing of Consolidated and Combined Returns .

1.1. Banpu Sub agrees to join with BNAC in any Consolidated Return for any taxable year for which BNAC properly elects to file a Consolidated Return that includes Banpu Sub. Banpu Sub also agrees, at the request of BNAC, to join BNAC or any direct or indirect subsidiary of BNAC in any state or local income or franchise tax return filed on a consolidated, combined, or unitary basis (a "Combined Return") for any taxable year for which BNAC properly elects to file a Combined Return that includes Banpu Sub.

1.2. Banpu Sub hereby irrevocably designates BNAC as its agent for the purpose of taking any and all actions necessary or incidental to the filing of each Consolidated Return and each Combined Return.

1.3. BNAC shall be responsible for the preparation and filing of the Consolidated Returns and Combined Returns required to be filed by the Banpu Group, subject to the following:

1.3.1. Subject to Section 1.3.2 and 1.3.3 below, decisions regarding (1) the manner in which such Consolidated Returns and Combined Returns are prepared and filed, including the methods, conventions, practices, principles, positions, and elections to be used and the manner in which any items of income, gain, loss, deduction, or credit ("Tax Items") shall be reported, (2)whether any extensions may be requested, (3)whether amended Consolidated Returns or Combined Returns shall be filed, (4)whether any claims for refund shall be made, (5)whether any tax overpayments shall be paid by way of refund or credited against any liability for the related tax and (6)the retention of outside firms to prepare or review such Consolidated Returns or Combined Returns, in each case, shall be made at BNAC's reasonable discretion and in a manner consistent with past practice.

1.3.2. The Tax Items included with respect to Banpu Sub and its subsidiaries (including any entity that is disregarded as separate from Banpu Sub or its corporate subsidiaries for U.S. federal income tax purposes or for purposes of any state or local tax law) (the "Company Group") in the Consolidated Returns and Combined Returns shall be consistent in all respects with the tax reporting information provided by Banpu Sub to BNAC pursuant to Section 2.1.

1.3.3. BNAC shall consult with Banpu Sub prior to changing any method of accounting or making any material election if such action would solely impact the Company Group.

1.3.4. BNAC shall provide Banpu Sub a copy of any Consolidated Return or Combined Return described under this Section 1.3 within ten (10) business days after filing such return.

1.4. Banpu Sub shall be responsible for the preparation and filing of any (i)U.S. state or local income or franchise tax return, other than a Combined Return, which is required to be filed by or with respect to Banpu Sub or any other member of the Company Group and (ii)U.S. federal income tax return of Banpu Sub or any other member of the Company Group for any tax period beginning on or after the date that Banpu Sub ceases to be a member of the Banpu Group (each, a "Banpu Sub-Filed Return"), subject to the following provisions:

1.4.1. Banpu Sub shall have the exclusive right, in its sole discretion, with respect to any Banpu Sub-Filed Return to determine (1)the manner in which such Banpu Sub-Filed Return shall be prepared and filed, including the methods, conventions, practices, principles, positions, and elections to be used and the manner in which any Tax Item shall be reported, (2)whether any extensions may be requested, (3)whether an amended Banpu Sub-Filed Return shall be filed, (4)whether any claims for refund shall be made, (5)whether any tax overpayments shall be paid by way of refund or credited against any liability for the related tax and (6) the retention of outside firms to prepare or review such Banpu Sub-Filed Returns.

1.4.2. With respect to any Banpu Sub-Filed Return, Banpu Sub may not take (and shall cause the other members of the Company Group not to take) any positions that it knows, or reasonably should know, are inconsistent with the methods, conventions, practices, principles, positions, or elections used by BNAC in preparing any Consolidated Return or Combined Return, except to the extent that (A)the failure to take such position would be contrary to applicable tax law or (B)taking such position would not reasonably be expected to materially adversely affect any member of the Banpu Group.

1.4.3. Banpu Sub shall provide BNAC a copy of any Banpu Sub-Filed Return within ten (10)business days after filing such return; *provided however*, that this Section 1.4.3 shall cease to apply on and after the time that BNAC ceases to own at least 25% of the voting power of shares of Banpu Sub's capital stock entitled to vote generally in the election of directors.

2. Determination and Payment of Tax Liability of the Company Group .

2.1. Preparation and Provision of Tax Reporting Information and Separate Return Tax Liability Calculations . Not less than twenty (20) business days prior to the due date (including extensions) for the filing of any Consolidated Return or Combined Return that includes Banpu Sub or any other members of the Company Group, Banpu Sub shall provide to BNAC (1)a pro forma draft of the portion of such Consolidated Return or Combined Return that reflects the Tax Items of the Company Group for the entire taxable year, (2)a spreadsheet or statement that sets forth in reasonable detail the computation of the Separate Return Tax Liability (as defined below) of the Company Group in respect of such Consolidated Return or Combined Return for the entire taxable year, (3)the amount payable by Banpu Sub or BNAC pursuant to Section 2.3 or Section 4, as determined in accordance with this Agreement and (4)such other reasonable information as is requested by BNAC. Not less than ten (10)business days prior to each estimated tax installment due date prescribed in Section6655(c)of the Code (an " Estimated Tax Installment Date"), Banpu Sub shall provide to BNAC a tax reporting package which includes the items described above for the period covered by such estimated tax installment (the "Estimated Tax Installment Period "). If BNAC disagrees with any Tax Item of the Company Group reflected on the pro forma draft of any Combined Return or Consolidated Return described in clause (1)above or the computations in clauses (2)or (3)above, then BNAC shall promptly notify Banpu Sub and the parties shall use their reasonable best efforts to resolve the dispute and, to the extent the parties are unable to resolve such dispute, the provisions of Section 7 shall apply.

2.2. Separate Return Tax Liability . For purposes of this Agreement, the "Separate Return Tax Liability" for a taxable year shall mean an amount equal to the U.S. federal income tax liability or state or local income or franchise tax liability, as the case may be, that would have been payable by the Company Group for such taxable year if the Company Group had filed a separate U.S. federal income tax return or state or local income or franchise tax return, as the case may be, for such taxable year and all prior taxable years (i.e., on a cumulative basis) for which this Agreement is or was in effect, subject to and except as set forth in the following provisions:

2.2.1. The Separate Return Tax Liability of the Company Group shall be computed by Banpu Sub using such methods, conventions, practices, principles, positions, and elections as are consistent with the methods, conventions, practices, principles, positions and elections that are used by BNAC in preparing the applicable Consolidated Return or Combined Return.

2.2.2. Any item of income or loss of a member of the Banpu Group that is treated as deferred on the Consolidated Return filed by BNAC (e.g., gain or loss on an intercompany transaction between members of the Banpu Group that is deferred pursuant to Section1.1502-13 or 1.1502-13T of the Treasury regulations) shall be taken into account in computing taxable income of the Banpu Group for purposes of this Agreement, but only at such time and in such amount as such item is actually taken into account and recognized on the Consolidated Return filed by BNAC.

2.2.3. The Separate Return Tax Liability with respect to a Combined Return filed in a state or locality shall be computed by taking into account such Tax Items, and such receipts or other data used to compute apportionment factors, of each Company Group member as are taken into account with respect to such Company Group member in preparing such Combined Return. Notwithstanding the foregoing, if no Company Group member has nexus to a particular state or locality for which a Combined Return is filed, then the Separate Return Tax Liability of the Company Group for such state or locality shall be deemed to be zero.

2.2.4. The computation of the Separate Return Tax Liability of the Company Group shall be determined without regard to whether the Banpu Group is obligated to pay a tax liability for the applicable taxable period.

2.2.5. Tax Items of the Company Group that are not utilized during the particular taxable period in which such items have accrued, and that could reduce a tax in another taxable period, including a net operating loss, net capital loss, disallowed business interest, foreign tax credit, charitable deduction, credit related to alternative minimum tax or any other tax credit (a "Tax Asset") generated by any member of the Company Group, generally shall be taken into account in determining the Separate Return Tax Liability in the taxable period(s)during which such Tax Assets of the Company Group are included in and used in the applicable Consolidated Return or Combined Return. Notwithstanding the foregoing, that portion of any such Tax Asset that has been taken into account in determining Tax Benefits (as defined below) for which Banpu Sub has received a payment under Section 4 shall not again be taken into account for purposes of reducing the Separate Return Tax Liability of the Company Group under this Section 2.2.5.

2.2.6. If the Separate Return Tax Liability of the Company Group for a taxable period is less than zero, then the Separate Return Tax Liability of the Company Group shall be deemed to be zero for such period for purposes of Section 2.3.

2.3. Payments of Separate Return Tax Liabilities .

2.3.1. No later than five (5)business days before the due date for the payment of the Banpu Group consolidated or combined tax liability with respect to a Consolidated Return or Combined Return for the entire taxable year, Banpu Sub shall pay to BNAC the excess (if any) of (i)the Separate Return Tax Liability of the Company Group for such taxable year determined with respect to such Consolidated Return or Combined Return, as the case may be, over (ii)such amounts (if any) previously paid by Banpu Sub to BNAC for such taxable year determined with respect to such Consolidated Return or Combined Return, as the case may be.

2.3.2. Payments made by Banpu Sub in accordance with this Section 2.3 and Section 3 shall be in lieu of any other payment by Banpu Sub on account of its share, if any, of the consolidated U.S. federal income tax liability of the Banpu Group due in respect of any Consolidated Return and the state or local income or franchise tax liability of the Banpu Group due in respect of any Combined Return for the relevant taxable year.

3. Adjustments. Any adjustment of income, deduction, or credit that results after the taxable year in question by reason of any carryback, amended return, claim for refund, audit, or resolution of any dispute between the parties by the Expert (as defined below) or otherwise, shall be given effect by redetermining amounts payable and reimbursable hereunder for such taxable year (and other taxable years, where appropriate) for which this Agreement is in effect as if such adjustment had been part of the original determination hereunder, with interest payable (by Banpu Sub or BNAC, as the case may be) in the amounts provided in Section6621 of the Code and penalties thereon payable only to the extent that penalties are actually paid by BNAC to any taxing authority with respect to such adjustment. Within ten (10)business days following any such adjustment, (i)Banpu Sub will provide BNAC a statement setting forth in reasonable detail the redetermined amounts payable and reimbursable hereunder; and (ii)the party responsible for such payment or reimbursement shall make such payment or reimbursement to the other party. If BNAC disagrees with the statement prepared by Banpu Sub under this Section 3, then BNAC shall promptly notify Banpu Sub and the parties shall use their reasonable best efforts to resolve the dispute and, to the extent the parties are unable to resolve such dispute, the provisions of Section 7 shall apply.

4. Payments for Tax Benefits of Banpu Sub . Within ten (10)business days of the filing of a Consolidated Return or Combined Return, (i)Banpu Sub shall provide to BNAC a statement setting forth in reasonable detail the amount equal to the reduction in the tax liability (or increase in tax refund) (the "Tax Benefit") (if any) that the Banpu Group recognized on such Consolidated Return or Combined Return as a result of the Separate Return Tax Liability of the Company Group being less than zero for such taxable period or otherwise as a result of the use by the Banpu Group of Tax Assets or other Tax Items of loss, deduction or credit of the Company Group; and (ii)BNAC shall pay such amount to Banpu Sub. For the avoidance of doubt, no Tax Asset or other Tax Item that has been taken into account in any taxable period for the Company Group's benefit in reducing the Separate Return Tax Liability otherwise determined and payable by Banpu Sub under Sections 2.2 and 2.3 shall again be taken into account for purposes of determining any amount payable under this Section 4.

5. Tax Audits, Examinations and Other Tax Proceedings .

5.1. Proceedings Relating to Consolidated or Combined Returns . Banpu Sub shall cooperate fully with BNAC in any audits, contests, or other administrative or judicial proceedings ("Tax Proceedings") relating to any Consolidated Return or Combined Return. Except as provided in the following sentence, BNAC generally shall have sole control (but acting reasonably and in good faith) over and discretion as to the undertaking, conduct, defense, settlement or other disposition of any such Tax Proceeding with respect to a Consolidated Return or Combined Return. With respect to any Tax Proceedings arising out of any Consolidated Return or Combined Return in which any Tax Item of the Company Group is a subject of such Tax Proceeding (a "Contested Company Group Item"), Banpu Sub shall be entitled to participate in such Tax Proceeding, and BNAC shall consult with Banpu Sub with respect to any Contested Company Group Item, shall act in good faith with a view to the merits in connection with such Tax Proceeding, shall keep Banpu Sub updated and informed with respect to such Contested Company Group Item and shall not settle or compromise any Contested Company Group Item without Banpu Sub's prior written consent, such consent not be unreasonably withheld or delayed.

5.2. Proceedings Relating to Banpu Sub-Filed Returns . BNAC shall cooperate fully with Banpu Sub in Tax Proceedings relating to any Banpu Sub-Filed Return. Banpu Sub shall have, in good faith, sole control over and discretion as to the undertaking, conduct, defense, settlement or other disposition of any such Tax Proceeding. With respect to any Tax Proceedings arising out of any Banpu Sub-Filed Returns in which any Tax Item of the Banpu Group is a subject of such Tax Proceeding (a "Contested Banpu Group Item"), BNAC shall be entitled to participate in such Tax Proceeding, and Banpu Sub shall consult with BNAC with respect to any Contested Banpu Group Item, shall act in good faith with a view to the merits in connection with such Tax Proceeding, shall keep BNAC updated and informed with respect to such Contested Banpu Group Item and shall not settle or compromise any Contested Banpu Group Item without BNAC's prior written consent, such consent not be unreasonably withheld or delayed.

5.3. Notice. If a party becomes aware of the existence of a tax issue that may give rise to a Tax Proceeding, such party shall give prompt notice to the other party of such issue (and such notice shall contain factual information, to the extent known, describing any asserted tax liability in reasonable detail), and shall promptly forward to the other party copies of all notices and material communications with any tax authority relating to such issue. Failure to give timely notice shall not affect the indemnities given hereunder except, and only to the extent that, the indemnifying party shall have been actually materially prejudiced as a result of such failure.

6. Tax Liability of Banpu Sub in the Event of Disaffiliation . This Section 6 sets forth how certain tax matters are to be handled in cases where a transaction or event occurs that causes Banpu Sub to no longer be eligible to join with BNAC in the filing of a Consolidated Return or Combined Return (a "Deconsolidation Event").

6.1. In General. In the case of a Deconsolidation Event, (i)Banpu Sub and the other members of the Company Group shall remain liable

under this Agreement for the Separate Return Tax Liability of the Company Group for the taxable period during which such Deconsolidation Event occurs and for prior taxable periods in which Banpu Sub was a member of the Banpu Group, and Banpu Sub shall be required to pay BNAC all amounts for such taxable periods that are determined pursuant to this Agreement and (ii)Banpu Sub shall remain entitled to receive, and BNAC shall remain liable to pay, any Tax Benefit, tax refund, or other amounts payable to Banpu Sub under this Agreement that relate to any taxable period beginning on or before the date of a Deconsolidation Event (a "Pre-Deconsolidation Period"). Moreover, should a Tax Proceeding ultimately result in assessment of a tax deficiency (or payment of a tax refund) against any Banpu Group member for years in which Banpu Sub or the other members of the Company Group were part of the Banpu Group, Banpu Sub shall remain liable for the Company Group's portion of such tax deficiency (or remain entitled to receive the Company Group's portion of such tax refund) determined pursuant to Section 2.2, Section 3, and Section 4 of this Agreement, plus related interest and penalties, if any.

6.2. Allocation of Tax Items. In the case of a Deconsolidation Event, all tax computations for (i)any Pre-Deconsolidation Periods ending on the date of the Deconsolidation Event and (ii)the immediately following taxable period of Banpu Sub or any disaffiliated members of the Company Group, shall be made pursuant to the principles of Section1.1502-76(b)of the Treasury Regulations or any similar provision of federal, state or local tax law, as agreed to by BNAC and Banpu Sub.

6.3. Allocation of Tax Assets. In the case of a Deconsolidation Event, Banpu Sub and BNAC shall cooperate in determining the allocation of any Tax Assets among BNAC and Banpu Sub. The parties hereby agree that in the absence of controlling legal authority or unless otherwise provided under this Agreement, Tax Assets shall be allocated to (i)the party that generated such Tax Asset or (ii)in cases where it is unclear which party generated the Tax Asset, to the party required to bear the liability for the tax associated with such Tax Asset.

6.4. Carrybacks. In the case of a Deconsolidation Event, BNAC agrees to pay to Banpu Sub the Tax Benefit from the recognition by BNAC on a Consolidated Return or Combined Return for any Pre-Deconsolidation Period of a carryback of any Tax Asset of the Company Group from taxable period beginning after the date of a Deconsolidation Event (except to the extent that such carryback of any Tax Asset increases any Taxes, or reduces any Tax Benefit, attributable to the Banpu Group for any reason); *provided, however*, that no payment shall be required to be made with respect to any Tax Benefit recognized by BNAC with respect to any Tax Asset that has previously been taken into account in any taxable period for the Company Group's benefit to reduce the Separate Return Tax Liability determined and payable under Sections 2.2 and 2.3 or to determine any amount payable to Banpu Sub under Section 4. If subsequent to the payment by BNAC to Banpu Sub for any such Tax Benefit, there shall be a redetermination which results in a decrease (1)to the amount of the Tax Asset so carried back or (2)to the amount of such Tax Benefit, Banpu Sub shall repay to BNAC any amount paid to Banpu Sub pursuant to this Section 6.4 which would not have been payable to Banpu Sub pursuant to this Section 6.4 had the amount of the Tax Benefit been determined in light of these events, plus any related interest and penalties. Nothing in this Section 6.4 shall require BNAC to file an amended tax return or claim for refund of taxes.

6.5. Continuing Covenants. Each of BNAC and Banpu Sub (for itself and each member of the Company Group) agrees (i)not to take any action reasonably expected to result in an increased tax liability to the other, a reduction in a Tax Asset of the other or an increased liability to the other under this Agreement, and (ii)to take any action reasonably requested by the other that would reasonably be expected to result in a Tax Benefit; provided, in either such case, that the taking or refraining to take such action does not result in any additional cost not fully compensated for by the other party or any other adverse effect to such party. The parties hereby acknowledge that the preceding sentence is not intended to limit, and therefore shall not apply to, the rights of the parties with respect to matters otherwise covered by this Agreement.

7. Disputes. In the event of a disagreement that BNAC and Banpu Sub are unable to resolve with respect to any determination required to be made pursuant to this Agreement (a "Reconciliation Dispute"), the Reconciliation Dispute shall be submitted for determination to a nationally recognized expert (the "Expert") in the particular area of disagreement mutually acceptable to both parties. The Expert shall be a partner or principal in a nationally recognized accounting firm, and unless BNAC and Banpu Sub agree otherwise, the Expert shall not have any material relationship with BNAC or Banpu Sub, or other actual or potential conflict of interest. The costs and expenses relating to the engagement of such Expert shall be borne equally by BNAC and Banpu Sub, except that if the Expert determines that the proposed position submitted by a party to the Expert for its determination is frivolous, has not been asserted in good faith, or is not supported by substantial authority, then 100% of such costs, fees, and expenses shall be borne by such party. The Expert shall finally determine any Reconciliation Dispute and the determinations of the Expert pursuant to this Section 7 shall be final and binding on BNAC and Banpu Sub and may be entered and enforced in any court having competent jurisdiction.

8. Treatment of Payments. The parties agree that any payments made by one party to another party pursuant to this Agreement shall be treated in accordance with the principles of Section1.1502-32(b)(3)(iv)(D)of the Treasury Regulations or any similar provision of federal, state or local tax law, as reasonably determined by Banpu Sub, and accordingly are generally not includible in the taxable income of the recipient or as deductible by the payor.

9. Indemnification. BNAC agrees to indemnify and hold harmless Banpu Sub and each other member of the Company Group against and from any claims of liability for (a)all U.S. federal income tax with respect to any Consolidated Returns, interest thereon, and penalties with respect thereto asserted by the Service, (b) all state or local income or franchise tax with respect to any Combined Returns, interest thereon, and penalties with respect thereto asserted by any state taxing authority, (c)any taxes imposed on any member of the Company Group pursuant to Treasury Regulation Section1.1502-6 or any analogous provision of state or local tax law and (d)any other income taxes which a member of the Banpu Group (other than Banpu Sub or other members of the Company Group) is required to pay to any taxing authority, provided in each case that Banpu Sub has made the payments required to be made by Banpu Sub in respect of the applicable liability to BNAC pursuant to the applicable provisions of this Agreement. Each party agrees to indemnify the other party for taxes and losses arising out of or based upon (i)any breach or nonperformance of any covenant or agreement made or to be performed by such party contained in this Agreement; or (ii) supplying the other party with inaccurate or incomplete information, in connection with the preparation of any tax return.

10. Cooperation. The parties shall cooperate with one another in all matters relating to taxes (and each shall cause its respective affiliates to so cooperate). Banpu Sub shall provide BNAC, and BNAC shall provide Banpu Sub, with such cooperation and information as is necessary in order to enable BNAC and Banpu Sub to satisfy their respective tax and accounting obligations. Unless otherwise provided under this Agreement, such cooperation and

information shall include (i)making the parties' respective knowledgeable employees available during normal business hours, (ii)providing the information required by reasonable tax and accounting questionnaires from the other party (at the times and in the format as reasonably required by such other party), (iii)maintaining such books and records and providing such information as may be necessary or reasonably useful in the filing of Consolidated Returns, Combined Returns and Banpu Sub-Filed Returns, (iv)executing such documents as may be necessary or reasonably useful in connection with any Tax Proceeding, the filing of Consolidated Returns, Combined Returns and Banpu Sub-Filed Returns, or the filing of refund claims by a member of the Banpu Group or Company Group (including certification, to the best of a party's knowledge, of the accuracy and completeness of the information it has supplied), (v)Banpu Sub providing BNAC with such documentation as may be requested by BNAC or its parent company in order to enable BNAC, BNAC's parent company and its subsidiaries to satisfy the requirements for tax declarations or available tax exemptions under the applicable Revenue Laws (whether currently in effect or issued and implemented in the future) and (vi) taking any actions which the other party may reasonably request in connection with the foregoing matters.

11. Legal and Accounting Fees. Unless otherwise specified herein, any fees or expenses (including internal expenses) for legal, accounting or other professional services rendered in connection with tax research relating to the Company Group, the preparation of a Consolidated Return or a Combined Return or any statement relating to any Separate Return Tax Liability or other calculations under this Agreement or the conduct of any Tax Proceeding shall be allocated between BNAC and Banpu Sub in a manner resulting in BNAC and Banpu Sub, respectively, bearing a reasonable approximation of the actual amount of such fees or expenses hereunder reasonably related to, and for the benefit of, each party. Banpu Sub shall pay BNAC for any fees and expenses allocated to Banpu Sub pursuant to this Section 11 within five (5) business days after the date Banpu Sub receives notice from BNAC requesting such payment.

12. Effective Date and Termination.

12.1. This Agreement shall be effective as of the date first written above.

12.2. This Agreement shall terminate at such time as all obligations and liabilities of the parties hereto have been satisfied. The obligations and liabilities of the parties arising under this Agreement shall continue in full force and effect until all such obligations have been met and such liabilities have been paid in full, whether by expiration of time, operation of law, or otherwise. The obligations and liabilities of each party are made for the benefit of, and shall be enforceable by, the other parties and their successors and permitted assigns.

13. Captions. All Section captions contained in this Agreement are for convenience only and shall not be deemed a part of the Agreement.

14. Counterparts. This Agreement may be executed in counterparts, each of which shall constitute an original and all of which, when taken together, shall constitute one Agreement.

15. Amendment: Waiver. This Agreement may be amended, modified, superseded, cancelled or extended, and the provisions hereof may be waived, only by a written instrument signed by BNAC and Banpu Sub or, in the case of a waiver, either of them who is the party waiving compliance.

16. Governing Law. This Agreement shall be governed by the laws of the State of Delaware, without regard to the conflict of laws rules thereof.

17. Successors and Assigns. Neither BNAC nor Banpu Sub may assign, novate or otherwise transfer its rights, obligations or rights and obligations under this Agreement without the prior written consent of the other party. This Agreement shall be binding upon, and shall inure to all the benefits of, the parties hereto and their respective successors and permitted assigns.

18. No Third-Party Beneficiaries. Nothing in this Agreement is intended to or shall confer any rights or benefits upon any person other than the parties hereto.

19. Notices. Any notice or other communication required or permitted hereunder shall be in English and in writing and shall be delivered personally, telegraphed, telexed, sent by facsimile transmission or sent by certified, registered or overnight express mail, postage prepaid. Any such notice shall be deemed given when so delivered personally, telegraphed, telexed or sent by facsimile transmission or, if mailed by overnight mail, the day after the date of deposit with a reputable courier service, or if mailed by non-overnight certified or registered mail, five days after the date of deposit in the United States mails, as follows:

19.1. if to BNAC:

Banpu North America Corporation
1200 17th Street, Suite 2100
Denver, CO 80202
E-mail: [***]
Attention: Mr. Thiti Mekavichai, Director

19.2. if to Banpu Sub:

BKV Corporation
1200 17th Street, Suite 2100
Denver, CO 80202
E-mail: [***]
Attention: Lindsay Larrick, Vice President and General Counsel

Any party may by notice given in accordance with this Section 19 to the other parties designate another address or person for receipt of notices hereunder.

[*Remainder of Page Intentionally Left Blank*]

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed by their respective officers as of the date set forth above.

Exhibit 10.7

Portions of this document have been redacted pursuant to Item 601(b)(10)(iv) of Regulation S-K because it is both not material and is the type that the registrant treats as private or confidential. Redacted portions are indicated with the notation "[***]".

BKV CORPORATION
2021 LONG TERM INCENTIVE PLAN
ADOPTED JANUARY 1, 2021

1. Purpose of Plan.

The purpose of the BKV Corporation 2021 Long Term Incentive Plan (the "**Plan**") is to advance the interests of BKV Corporation, a Delaware corporation (the "**Company**"), and its stockholders by enabling the Company and its Subsidiaries to attract and retain persons of ability to perform services for the Company and its Subsidiaries by providing an incentive to such individuals through opportunities for equity participation in the Company and by rewarding such individuals who contribute to the achievement by the Company of its economic objectives. This Plan and the terms set forth herein shall be subject to the criteria set forth on **Appendix 3** attached hereto, which sets forth the parameters to which this Plan and each Incentive Award hereunder remain subject in accordance with the approval of the Plan by the Board.

2. Definitions.

The following terms will have the meanings set forth below, unless the context clearly otherwise requires. Terms defined elsewhere in the Plan will have the same meaning throughout the Plan.

2.1 "Adverse Action" means any Participant, during or within one year after the termination of Service, (a) being employed or retained by or rendering services to any organization that, directly or indirectly, competes with or becomes competitive with the Company or any Subsidiary, or rendering such services that are prejudicial or in conflict with the interests of the Company or any Subsidiary, or otherwise violating any non-compete or non-solicitation agreement with the Company or any Subsidiary, (b) violating any confidentiality agreement or agreement governing the ownership or assignment of intellectual property rights of the Company or any Subsidiary, or (c) engaging in any other conduct or act determined to be injurious, detrimental or prejudicial to any interest of the Company or any Subsidiary.

2.2 "Base Price" means the initial price per share of the Company's Common Stock and is set at a constant $10.00 per share.

2.3 "BNAC" means BANPU North America Corporation, a Delaware corporation.

2.4 "Board" means the Board of Directors of the Company.

2.5 "Broad Parameters" mean a broad parameter for compensation for the Employees (excluding the CEO and the Senior Management) who have been approved by the Board from time to time and reflected in the Budget which broad parameters are set forth on **Appendix 2** attached hereto.

2.6 "Budget" means the annual budget of the Company and its subsidiaries as approved and/or amended from time to time by the Board.

2.7 "Cause" means "cause" as defined in any employment or other agreement or policy applicable to the Participant's Service, or if no such agreement or policy exists, and will mean (a) dishonesty, fraud, misrepresentation, embezzlement, breach of fiduciary duty or deliberate injury or attempted injury, in each case relating to the Company or any Subsidiaries, (b) any unlawful or criminal activity of a serious nature or act of moral turpitude, in each case relating to the Company or any Subsidiaries, or (c) persistent failure to perform his or her duties in accordance with his or her employment agreement or service contract with the Company or any Subsidiaries or to comply with the established work rules or internal policies of the Company or any Subsidiaries that has an adverse effect on the Company or any Subsidiaries following notice and an opportunity to cure; provided, however, that if there is a separate written agreement between the Participant and the Company or any Subsidiary that defines "cause", such agreement shall control in the event of an inconsistency with the definition in this Section 2.7.

2.8 "CEO" means the chief executive officer of the Company from time to time.

2.9 "Change in Control" means an event described in Section 9.1(c).

2.10 "Code" means the Internal Revenue Code of 1986, as amended. Any reference to a section of the Code in the Plan will be deemed to include a reference to any applicable rules and regulations thereunder and any successor or amended section of the Code.

2.11 "Committee" means the group of individuals administering the Plan, as provided in Section 3.1.

2.12 "Common Stock" means the common stock of the Company, par value $0.01 per share, or the number and kind of shares of stock or other securities in accordance with Section 4.1.

2.13 "Director" means a member of the Board.

2.14 "Disability" means the disability of the Participant such as would entitle the Participant to receive disability income benefits pursuant to a long-term disability plan of the Company or Subsidiary then covering the Participant or, if no such plan exists or is applicable to the Participant, the permanent and total disability of the Participant within the meaning of Section 22(e)(3) of the Code.

2.15 "Effective Date" has the meaning given it in Section 14.

2.16 "Eligible Recipients" means (a) an Employee and (b) Director of the Company or any Subsidiary.

2.17 "Employee" means any person treated as an employee in the records of the Company or any Subsidiary. The Committee will determine in good faith and in the exercise of its sole discretion whether an individual has become or has ceased to be an Employee and the effective date of such individual's employment or termination of employment, as the case may be. For purposes of an individual's rights, if any, under the terms of the Plan as of the time of the Committee's determination of whether or not the individual is an Employee, all such determinations by the Committee will be final, binding and conclusive as to such rights, if any, notwithstanding that the Company or any court of law or governmental agency subsequently makes a contrary determination as to such individual's status as an Employee.

2.18 "Exchange Act" means the Securities Exchange Act of 1934, as amended. Any reference to a section of the Exchange Act in the Plan will be deemed to include a reference to any applicable rules and regulations thereunder.

2.19 "Fair Market Value" means, with respect to the Common Stock, as of any date: (a) the closing sale price of the Common Stock as of such date at the end of the regular trading session, as reported on any national securities exchange on which the Common Stock is then listed (or, if no shares were traded on such date, as of the next preceding date on which there was such a trade); or (b) if the Common Stock is not so listed as described in above, the price, on a per share of the Common Stock basis, at which a willing seller would sell, and a willing buyer would buy, the Common Stock having full knowledge of all relevant facts, in an arm's length transaction without taking into account the minority ownership interest of any shares of the Common Stock and the rights associated with any minority ownership interest hereunder. For all purposes under this Plan (including as to taxation), the fair market value of the Common Stock as described in (b) above shall be determined each Financial Year by the Committee using the independent and impartial valuation of the Common Stock performed by Guggenheim Securities, LLC, provided its fees are at competitive market rates and, if not at competitive market rates (as determined by the Board based upon evidence of fees charged by other United States investment banking firms for the same services) by another independent and impartial appraiser approved by the Board. Such determination will apply such Financial Year or until a new determination of the Fair Market Value is made. For the avoidance of doubt, during the period as from the adopted date hereof that the Company does not have a Fair Market Value determination as described in subpart (b) above, the Fair Market Value shall be $10.00 per share of Common Stock and will apply until the valuation is performed for the Committee's first determination of the Fair Market Value.

2.20 "Financial Year" means a financial or fiscal year of the Company.

2.21 "Founding Stockholder" means an Eligible Recipient who is a party to the Stockholders' Agreement.

2.22 "Incentive Award" or "Award" means an annual award of TRSUs and PRSUs granted to an Eligible Recipient pursuant to the Plan.

2.23 "Incentive Award Agreement" means a written or electronic agreement between the Company and a Participant setting forth the individual grant of the Incentive Award of TRSUs and/or PRSUs granted to such Participant and the terms, conditions and restrictions applicable to such Award.

2.24 "Initial Public Offering" or "IPO" means the admission of all or any part of the Common Stock or depository receipts (or the equivalent) representing the Common Stock of the Company to a United States securities exchange.

2.25 "IPO Average Trading Price" means the arithmetic average closing price in dollars per share of the Company's Common Stock over a period of 30 trading days, immediately subsequent to an IPO.

2.26 "IPO Issuance Price" means the stated price in dollars per share, at which the Company issues its shares of Common Stock to new investors in advance of and during an IPO.

2.27 "Minimum Target IPO Price" means the minimum price at which the Company targets an IPO Issuance Price, and shall be initially set at $12.00 per share; provided, the Board will have the ultimate decision as to approval of the IPO Issuance Price.

2.28 "Participant" means an Eligible Recipient who receives any Incentive Awards under the Plan.

2.29 "Performance-based Restricted Stock Units" or "PRSUs" means Restricted Stock Units granted to an Eligible Recipient pursuant to Section 6.2 and subject to a PRSU Vesting Schedule.

2.30 "Previously Acquired Shares" means shares of Common Stock that are already owned by the Participant or, with respect to any Incentive Award, that are to be issued to the Participant upon the grant, exercise, vesting or settlement of such Incentive Award.

2.31 "PRSU KPIs" means key performance goals and indicators of the Company for a performance period as set forth in **Appendix 1** attached to this Plan, or any subsequent Appendix approved and adopted by the Board.

2.32 "PRSU Vesting Schedule" means the vesting of PRSUs based on the level of achievement of PRSU KPIs for the Plan's performance period, as approved by the Board and set forth in **Appendix 1** attached to this Plan, or any subsequent Appendix approved and adopted by the Board, and included in the Incentive Award Agreement. The performance period will begin on the Effective Date and end on the earlier of December 31, 2023, the date of an IPO, or the date of a Change in Control (each a "**PRSU Vesting Date**").

2.33 "Restricted Stock Unit" means an Incentive Award denominated in shares of Common Stock and granted to an Eligible Recipient pursuant to Section 6.

2.34 "Securities Act" means the Securities Act of 1933, as amended. Any reference to a section of the Securities Act in the Plan will be deemed to include a reference to any applicable rules and regulations thereunder.

2.35 "Senior Management" means, in addition to the CEO, the four (4) employees of the Company reasonably likely to receive the highest compensation during the next Financial Year (excluding the compensation of the CEO) and/or any employee recommended by the CEO and approved by the Board in accordance with Section 15.3.2 of the Stockholders' Agreement.

2.36 "Service" means a Participant's employment with the Company or any Subsidiary, whether in the capacity of an Employee or a Director. A change in the capacity in which the Participant renders service to the Company or a Subsidiary as an Employee, Director, or Third Party Service Provider, shall be treated as a termination of the Participant's Service, unless the Committee otherwise determines in its sole discretion. A Participant's Service will be deemed to have terminated either upon an actual termination of Service or upon the Subsidiary for which the Participant performs Service ceasing to be a Subsidiary of the Company (unless the Participant continues in the Service of the Company or another Subsidiary). Subject to the foregoing, the Committee, in its sole discretion, will have the authority to determine whether the Participant's Service has terminated and the effective date of and reason for such termination.

2.37 "Stockholders' Agreement" means that certain Stockholders' Agreement dated May 1, 2020, entered into by and among BNAC, the Company and Founding Stockholders as listed therein as parties thereto.

2.38 "Subsidiary" means any entity that is directly or indirectly controlled by the Company or any entity in which the Company has a significant equity interest, as determined by the Committee, provided the Company has a "controlling interest" in the Subsidiary as defined in Treas. Reg. Sec. 1.409A-1(b)(5)(iii)(E)(1).

2.39 "Tax Date" means the date any withholding tax obligation arises under the Code or other applicable tax statute for a Participant with respect to an Incentive Award.

2.40 Third-Party Service Provider" means any consultant, agent, advisor or independent contractor who renders services to the Company or a Subsidiary that: (a) are not in connection with the offer and sale of the Company's securities in a capital raising transaction, and (b) do not directly or indirectly promote or maintain a market for the Company's securities.

2.41 "Time Restricted Stock Units" or "TRSUs" means the Restricted Stock Units granted to an Eligible Recipient under Section 6.3 and subject to a TRSU Vesting Schedule.

2.42 "TRSU Vesting Schedule" means the vesting period for TRSUs issued under Section 5.1 and Section 6.3, which, unless provided otherwise in an Incentive Award Agreement, is as follows: one-fourth (25%) of the TRSUs will vest immediately upon the issuance of the TRSUs and the remaining TRSUs will vest in equal percentages over the next three consecutive years (*i.e.*, 25% of the total TRSUs vesting in whole units on each annual anniversary of the issuance of the TRSU) (each a "**TRSU Vesting Date**").

3. Plan Administration.

3.1 The Committee. The Plan will be administered by the Compensation Committee of the Board and subject to the Board's approval, or the Board if such Compensation Committee is dissolved. Such a committee will act by simple majority approval of the members (but may also take action by the written consent of a majority of the members of such committee), and any simple majority of the members of such a committee will constitute a quorum. As used in the Plan, "**Committee**" will refer to the Compensation Committee of the Board, or the Board if such Compensation Committee is dissolved. To the extent consistent with the applicable corporate law of the Company's jurisdiction of incorporation, the Committee may delegate to any officers of the Company the duties, power and authority of the Committee under the Plan pursuant to such conditions or limitations as the Committee may establish. The Committee may exercise its duties, power and authority under the Plan in its sole and absolute discretion without the consent of any the Participant, the Eligible Recipients, or other party, unless the Plan specifically provides otherwise. The Committee will not be obligated to treat Participants or Eligible Recipients uniformly, and determinations made under the Plan may be made by the Committee selectively among Participants or Eligible Recipients, whether or not such Participants and Eligible Recipients are similarly situated. Each determination, interpretation or other action made or taken by the Committee pursuant to the provisions of the Plan will be final, conclusive and binding for all purposes and on all persons, including the Company, the stockholders of the Company, the Participants, the Eligible Recipients and their respective heirs and other successors-in-interest. No member of the Board or the Committee shall be liable for any action or determination made in good faith with respect to the Plan or any Incentive Award granted under the Plan, including any determination regarding current values of the Common Stock that is made in good faith.

3.2 Authority of the Committee.

(a) In accordance with and subject to the provisions of the Plan and the Broad Parameters, the Committee will have the authority to determine all provisions of Incentive Awards as the Committee may deem necessary or desirable and as consistent with the terms of the Plan, including the following: (i) the Eligible Recipients to be selected as Participants; (ii) the nature and extent of the Incentive Awards to be made to each Participant (including the number of shares of Common Stock to be subject to each Incentive Award, the manner in which Incentive Awards will vest and whether Incentive Awards will be granted in tandem with other Incentive Awards) and the form of Incentive Award Agreement evidencing such Incentive Award; (iii) the time or times when Incentive Awards will be granted; (iv) the duration of each Incentive Award; and (v) the restrictions and other conditions to

which the payment or vesting of Incentive Awards may be subject. In addition, the Committee will have the authority under the Plan in its sole discretion to pay the economic value of any Incentive Award in the form of Common Stock.

(b) Subject to the Broad Parameters, the Committee will have the authority under the Plan to amend or modify for any reason the terms of any outstanding Incentive Award that has already been granted to a Participant in any manner, including but not limited to, the authority to modify the number of shares or other terms and conditions of an Incentive Award, accelerate the vesting or otherwise terminate any restrictions relating to an Incentive Award, accept the surrender of any outstanding Incentive Award or, to the extent not previously exercised or vested, authorize the grant of new Incentive Awards in substitution for surrendered Incentive Awards; provided, however that the amended or modified terms are permitted by the Plan as then in effect, such amendment does not cause the Incentive Award to become taxable under Section 409A of the Code, and any Participant adversely affected by such amended or modified terms has consented to such amendment or modification, except for an amendment or modification pursuant to this Section 3.2(b), Section 3.2(c), Section 3.2(d), Section 6.2(f) or Section 6.3(e). No amendment or modification to an Incentive Award, however, whether pursuant to this Section 3.2 or any other provisions of the Plan, will be deemed to be a re-grant of such Incentive Award for purposes of the Plan.

(c) Subject to the Broad Parameters, in the event of (i) any reorganization, merger, consolidation, recapitalization, liquidation, reclassification, stock dividend, stock split, combination of shares, rights offering, extraordinary dividend or divestiture (including a spin-off) or any other similar change in corporate structure or shares; (ii) any purchase, acquisition, sale, disposition or write-down of a significant amount of assets or a significant business; (iii) any change in accounting principles or practices, tax laws or other such laws or provisions affecting reported results; (iv) any uninsured catastrophic losses or extraordinary non-recurring items as described in Accounting Standards Codification 225-20; (v) IPO or (vi) any other similar change, in each case with respect to the Company or any other entity whose performance is relevant to the vesting of PRSUs, the Committee (or, if the Company is not the surviving entity in any such transaction, the board of directors or other managing body of the surviving entity) may, without the consent of any affected Participant, amend or modify the vesting criteria (including any performance objectives) of any outstanding PRSUs that is based in whole or in part on the financial performance of the Company (or any Subsidiary or division or other sub-unit thereof) or such other entity so as equitably to reflect such event, with the desired result that the criteria for evaluating such financial performance of the Company or such other entity will be substantially the same (in the sole discretion of the Committee or the board of directors or other managing body of the surviving entity) following such event as prior to such event.

(d) In addition to the authority of the Committee under Section 3.2(b) and notwithstanding any other provision of the Plan, the Committee may, in its sole discretion, amend the terms of the Plan or Incentive Awards with respect to Participants resident outside of the United States or employed by a non-U.S. Subsidiary in order to comply with local legal requirements, to otherwise protect the Company's or Subsidiary's interests, or to meet objectives of the Plan, and may, where appropriate, establish one or more sub-plans (including the adoption of any required rules and regulations) for the purposes of qualifying for preferred tax treatment under foreign tax laws. The Committee will have no authority, however, to take any action pursuant to this Section 3.2(d) to reserve shares of Common Stock or grant Incentive Awards in excess of the limitations provided in Section 4.1 and subject to the Broad Parameters.

4. Shares Available for Issuance.

4.1 Maximum Number of Shares Available. Unless otherwise approved by the Board, the maximum number of shares of the Common Stock that are reserved and available for issuance of the Incentive Awards under conditions of the Plan shall be 14,941,176 shares (the "**Available Shares**"). The shares of Common Stock available for issuance under the Plan may, at the election of the Committee, be either treasury shares or shares authorized but unissued, and, if treasury shares are used, all references in the Plan to the issuance of shares will, for corporate law purposes, be deemed to mean the transfer of shares from treasury. The CEO is prohibited from granting or issuing Incentive Awards in excess of sixty percent (60%) of the Available Shares on or before the end of calendar year 2022, with such sixty percent (60%) threshold determined based upon an assumption of achievement of all PRSU KPIs at Target Threshold (100%) for all PRSUs granted to Participants. Thereafter, the CEO may not issue Incentive Awards in excess of eighty percent (80%) of the Available Shares unless the CEO receives prior written approval of the Board to exceed such amount, with such eighty percent (80%) threshold determined based upon an assumption of achievement of all PRSU KPIs at Target Threshold (100%) for all PRSUs granted to Participants.

4.2 Accounting for Incentive Awards. The grant of any Incentive Award under the Plan will reduce the maximum number of available shares of Common Stock remaining available for issuance of the Incentive Awards under the Plan by the number of shares subject to such Incentive Award. All granted shares so subtracted from the amount available under the Plan with respect to an Incentive Award that lapses, expires, is forfeited or for any reason is terminated or unvested will not automatically become available for issuance under the Plan.

5. Participation; Grant of Awards.

5.1 Incentive Awards. Subject to the limits of Section 4.1, commencing with the Financial Year that includes the Effective Date, each Eligible Recipient who is either (i) classified by the Company at the Senior Management level or (ii) is classified by the Company below the Senior Management level and is recommended for an Incentive Award by the CEO, shall be granted Incentive Awards that are generally (a) seventy percent (70%) Performance-based Restricted Stock Units under Section 6.2 and (b) thirty percent (30%) Time Restricted Stock Units under Section 6.3, with such ratio based on the anticipated grant of TRSUs for 2021 and the three (3) Financial Years following 2021. Incentive Awards granted to such Eligible Recipients (i) who are classified by the Company at the Senior Management level will be in the amounts as determined and approved by the Board based upon recommendations from the Committee, and (ii) who are classified below the Senior Management level will be in the amounts as determined and approved by the CEO in accordance with and subject to the Broad Parameters. For illustrative purposes only, attached hereto as **Appendix 4** is an example evidencing the scenarios of grant and vesting of the PRSUs and TRSUs subject to the Incentive Awards contemplated herein.

6. Restricted Stock Unit Awards.

6.1 Grant. In accordance with Section 5.1 and Section 6, Eligible Recipients shall be granted one or more Incentive Awards of Performance-based Restricted Stock Units and/or Time Restricted Stock Units under the Plan.

6.2 Performance-Based Restricted Stock Units.

(a) PRSU Grants. PRSUs will be granted to Eligible Recipients as a one-time grant, in a single tranche on the Effective Date of the Plan or upon an Eligible Recipient first becoming a Participant under the Plan.

(b) PRSU Vesting; Payout Amount. Notwithstanding any other provisions of the Plan to the contrary, the PRSUs granted under the Plan shall vest and be earned based on the level of vesting under the PRSU Vesting Schedule, provided in each case the Participant remains in the continuous Service of the Company or a Subsidiary from the date of grant to such PRSU Vesting Date. Except as otherwise provided in this Section 6.2, Section 7.2 and Section 7.3, the Performance-based Restricted Stock Units will vest and be earned and the number of shares of Common Stock payable in settlement of such vested PRSUs under Section 6.2(c) will be based on the level of achievement of the PRSU KPIs as of the end of the performance period and may range from zero percent (0%) to two hundred percent (200%). The PRSU KPIs shall be expressed at the following performance levels: "Minimum Threshold," "Target Threshold," and "Maximum Threshold." The PRSU KPIs and their respective weightings are outlined in **Appendix 1**. Vesting and payouts (i) for a Minimum Threshold level of achievement of a PRSU KPI will be at zero percent (0%) of the Target Threshold level of vesting and payout, (ii) for a Target Threshold level of achievement of a PRSU KPI will be at one hundred percent (100%) of the Target Threshold level of vesting and payout, (iii) for a Maximum Threshold or greater level of achievement of a PRSU KPI will be at two hundred percent (200%) of the Target Threshold level of vesting and payout, and (iv) for a level of achievement of a PRSU KPI between Minimum Threshold and Target Threshold, or between Target Threshold and Maximum Threshold, the vesting and payout percentage will be at a percentage level determined by straight line interpolation between the threshold levels, as applicable.

(c) Settlement. Upon vesting of an Incentive Award of Performance-based Restricted Stock Units, such vested units shall be settled by the delivery of shares of Common Stock as soon as practicable following the PRSU Vesting Date (but not later than the March 15 of the calendar year following the calendar year that includes the PRSU Vesting Date), subject to the Company's retention of that number of shares of Common Stock necessary to satisfy any applicable tax withholding requirements.

(d) Additional Restrictions. At the time of the grant of Performance-based Restricted Stock Units, the Board, as it deems appropriate, may impose such restrictions or conditions that delay the delivery of the shares of Common Stock subject to such Incentive Award to a time after the vesting of such Performance-based Restricted Stock Units, but not to a date that is more than three (3) years from the date of grant.

(e) Dividend Equivalents. Dividend equivalents may not be credited in respect of shares of Common Stock covered by Performance-based Restricted Stock Units until such Performance-based Restricted Stock Units have vested.

(f) Adjustment by Board. Notwithstanding anything herein to the contrary, the Board has reserved the right to reduce the amount of the settlement of a PRSU as reflected in **Appendix 3**.

6.3 Time Restricted Stock Units.

(a) TRSU Grants. TRSUs shall be granted to Eligible Recipients annually beginning on the Effective Date of the Plan and in each of the three (3) Financial Years thereafter or commencing upon an Eligible Recipient first becoming a Participant under the Plan.

(b) Vesting Requirements. Notwithstanding any other provisions of the Plan to the contrary, the Incentive Awards of Time Restricted Stock Units granted to Eligible Recipients in accordance with Section 5.1 and Section 6.3, shall vest in accordance with the TRSU Vesting Schedule; provided in each case the Participant remains in the continuous Service of the Company or a Subsidiary from the date of grant to such TRSU Vesting Date. In addition, each Incentive Award of Time Restricted Stock Units shall provide that all non-vested units under the Incentive Award shall vest upon an Initial Public Offering or a Change in Control. The vesting requirements will be set forth in an Incentive Award Agreement evidencing such Time Restricted Stock Units. Except as otherwise provided in this Section 6.3, Section 7.2 and Section 7.3, the Time Restricted Stock Units will vest and be earned and the number of shares of Common Stock payable in settlement of such vested TRSUs under Section 6.3(c) will be based on the level of vesting on the TRSU Vesting Date. If any vesting requirements of any Time Restricted Stock Units are not satisfied, such Time Restricted Stock Units will be forfeited.

(c) Settlement. Upon the vesting of an Award of Time Restricted Stock Units, such vested units shall be settled by the delivery of shares of Common Stock as soon as practicable following the TRSU Vesting Date (but not later than the March 15 of the calendar year following the calendar year that includes the TRSU Vesting Date), subject to the Company's retention of that number of shares of Common Stock necessary to satisfy any applicable tax withholding requirements.

(d) Dividend Equivalents. Dividend equivalents may not be credited in respect of shares of Common Stock covered by a Time Restricted Stock Units until such Time Restricted Stock Units have vested.

(e) Adjustment by Board. Notwithstanding anything herein to the contrary, the Board has reserved the right to reduce the amount of the settlement of a PRSU as reflected in **Appendix 3.**

6.4 Compliance with Section 409A of the Code. Notwithstanding anything to the contrary set forth herein, any Incentive Award granted under the

Plan that is not exempt from the requirements of Section 409A of the Code shall contain such provisions so that such Incentive Award will comply with the requirements of Section 409A of the Code. Such restrictions, if any, shall be determined by the Committee and contained in the Incentive Award Agreement evidencing such Incentive Award.

7. Termination of Service; Stock Purchase and Sale Rights .

7.1 Participants. Subject to Section 7.3, except to the extent that the Committee provides otherwise in an Incentive Award Agreement at the time of grant or determines otherwise pursuant to Section 7.2 or Section 7.3 (and such provisions and determinations need not be uniform among all Incentive Awards granted pursuant to the Plan), if a Participant's Service is terminated by any reason including resignation, termination, Disability or death, all Incentive Awards held by the Participant that have not vested as of the effective date of the termination shall be terminated and forfeited without payment of any compensation.

7.2 Modification of Rights Upon Termination . Notwithstanding the other provisions of this Section 7, upon a Participant's termination of Service, the Committee may, in its sole discretion (which may be exercised at any time on or after the date of grant, including following such termination) cause unvested Restricted Stock Units then held by such Participant to terminate, vest or become free of restrictions and conditions to payment, following such termination of Service, in each case in the manner determined by the Committee. The Committee may not take any such action adversely affecting any vested Restricted Stock Units and underlying shares of Common Stock acquired by a Participant without the consent of the affected Participant (subject to the right of the Committee to take whatever action it deems appropriate under Section 3.2(c), Section 7.3 and Section 9).

7.3 Additional Forfeiture Events . Notwithstanding anything in the Plan, if a Participant is determined by the Committee, acting in its sole discretion, to have taken any action that would constitute Cause or an Adverse Action, irrespective of whether such action or the Committee's determination occurs before or after termination of such Participant's Service and irrespective of whether or not the Participant was terminated for Cause: (a) all rights of the Participant under the Plan and any Incentive Award Agreements evidencing an Incentive Award then held by the Participant will terminate and be forfeited without notice of any kind, and (b) the Committee in its sole discretion may require the Participant to surrender and return to the Company all or any shares of Common Stock received in settlement of any vested Award, or to disgorge all or any profits or any other economic value (however defined by the Committee) made or realized by the Participant, during the period beginning one year prior to the Participant's termination of Service in connection with any shares of Common Stock issued upon the vesting of any Incentive Awards. The Company may defer the issuance of share certificates upon the vesting or settlement of any Incentive Award for a period of up to six (6) months after the date of such vesting or settlement in order for the Committee to make any determination as to the existence of Cause or an Adverse Action.

7.4 Repurchase Right. If a Participant either (i) commits any material breach of such Participant's employment agreement or service contract with the Company and either (1) that breach is not capable of being remedied or (2) if capable of remedy, the Participant does not remedy that breach as soon as possible and in any event within thirty (30) days of receiving a notice from the Company requiring the Participant to remedy that breach, or (ii) the Participant's employment with the Company is terminated for any reason, including due to resignation, termination, death or Disability, the Company shall have the right, as determined by the Board, to repurchase all (and not less than all) of the vested shares of Common Stock acquired by the Participant under this Plan, in accordance with the terms of this Section 7.4:

(a) The purchase price of the vested shares of Common Stock purchased by the Company pursuant to this Section 7.4 shall be equal to the Fair Market Value of such shares applicable at the time of the repurchase.

(b) The Company may exercise its election to acquire the Participant's vested shares of Common Stock by delivery to the Participant (or the Participant's beneficiary in the event of the Participant's death), within ninety (90) after the effective date of the termination, of a written notice of the Company's exercise of its repurchase rights under this Section 7.4.

(c) The closing of the purchase of the vested shares of Common Stock pursuant to this Section 7.4 shall take place at the principal office of the Company not later than thirty (30) days following receipt of such notice by the Participant (or the Participant's beneficiary in the event of the Participant's death).

(d) The Participant (or the Participant's beneficiary in the event of the Participant's death) shall make such customary representations and warranties as may be reasonably requested by the Company regarding such seller's capacity and authority, good title to, and the absence of liens on, such vested shares of Common Stock.

(e) The Company will pay the purchase price for the vested shares of Common Stock purchased by the Company under this Section 7.4 in cash, payable by wire transfer of immediately available funds to the bank account provided to the Company by the Participant (or the Participant's beneficiary in the event of the Participant's death).

7.5 Put Right. In the event (a) a Participant's employment with the Company is terminated for any reason, including due to the Participant's death or Disability (but excluding by voluntary resignation by the Participant), or (b) a Participant's employment with the Company is terminated by virtue of the Participant's voluntary resignation and more than thirty-six (36) months have passed from the date of the first grant of an Incentive Award to that individual Participant, and, in each case, the Company has not exercised its right within the period under Section 7.4 to repurchase the Participant's vested shares of Common Stock, the Participant (or the Participant's beneficiary in the event of death) shall have the right to elect to sell to the Company by giving the Company, within ninety (90) days after the effective date of termination, a written notice specifying that he or she wishes to sell all (and not less than all) of his or her vested shares of Common Stock acquired by the Participant under the Plan, and the Company shall be required to purchase from the Participant, all (and not less than all) of the vested shares of Common Stock acquired by the Participant under the Plan, in accordance with the terms of this Section 7.5:

(a) The selling price of the vested shares of Common Stock purchased by the Company pursuant to this Section 7.5 shall be equal to the Fair Market Value of such shares applicable at the time the election to sell is made.

(b) The Participant (or the Participant's beneficiary in the event of the Participant's death) may exercise an election to sell vested shares of Common Stock by delivery of thirty (30) days' written notice specifying the number of shares to be sold.

(c) The closing of the purchase of the vested shares of Common Stock pursuant to this Section 7.5 shall take place at the principal office of the Company not later than thirty (30) days following receipt of such notice by the Company.

(d) The Participant (or the Participant's beneficiary in the event of the Participant's death) shall make such customary representations and warranties as may be reasonably requested by the Company regarding such seller's capacity and authority, good title to, and the absence of liens on, such vested shares of Common Stock.

(e) The Company will pay the selling price for the vested shares of Common Stock purchased by the Company under this Section 7.5 in cash, payable by wire transfer of immediately available funds to the bank account provided to the Company by the Participant (or the Participant's beneficiary in the event of the Participant's death).

7.6 Drag-Along Rights. If at any time BNAC (alone or together with any of the other stockholders of the Company) proposes to effect the sale of shares of Common Stock representing more than eighty percent (80%) of the total issued and outstanding shares of Common Stock, BNAC (and BNAC alone) may require the participation of all (and not less than all) of the vested shares of the Common Stock owned by the Participants in such sale in the manner set forth in this Section 7.6:.

(a) BNAC shall exercise its rights pursuant to this Section 7.6 by delivering to the Company and each of the other stockholders of the Company a written notice (the "**Drag-along Notice**") of such proposed sale no later than fifteen (15) days prior to the proposed closing thereof. Any Drag-along Notice shall make reference to the Participants' obligations under this Section 7.6 and shall describe in reasonable detail:

(i) the number of shares of Common Stock to be sold by BNAC;

(ii) the person to whom such shares of Common Stock are proposed to be sold;

(iii) the material terms and conditions of the sale, including the consideration to be paid; and

(iv) the proposed date, time and location of the closing of the sale.

(b) In any sale is subject to this Section 7.6, each of the Participants shall agree to sell all (and not less than all) of the shares of Common Stock owned by the Participant, free and clear of any liens and on the same terms and conditions as BNAC in such sale, and shall make such customary representations and warranties as may be reasonably requested by the Company regarding such seller's capacity and authority, good title to, and the absence of liens on, such vested shares of Common Stock.

(c) If BNAC (alone or together with any of the other stockholders of the Company) proposes to effect the sale of shares of Common Stock representing more than eighty percent (80%) of the total issued and outstanding shares of the Common Stock pursuant to this Section 7.6, the Participants shall consent to and not object to or exercise any appraisal or dissenters' rights in connection with such transaction. Without limiting the foregoing, each of the Participants shall, if requested by BNAC, execute and deliver a power of attorney and custody agreement, in form and substance satisfactory to BNAC, with respect to the shares of Common Stock that are to be included by them in any sale pursuant to this Section 7.6. The power of attorney and custody agreement will provide, among other things, that each such Participant will:

(i) deliver to and deposit into custody with BNAC, named as the custodian therein, a certificate or certificates representing such shares of Common Stock (duly endorsed in blank by the owner or owners thereof or accompanied by duly endorsed stock powers in blank); and

(ii) irrevocably appoint BNAC as such stockholder's agent and attorney-in-fact with full power to act thereunder on behalf of such stockholder with respect to the matters specified therein.

(d) Each Participant shall fully cooperate with BNAC and shall take all necessary actions to effectuate the sale of shares of Common Stock pursuant to this Section 7.6, including entering into such agreements and delivering such certificates and instruments, as may be reasonably requested from time to time by BNAC, provided that no Participant shall be:

(i) liable for any indemnification obligations to any potential purchaser in respect of such representations and warranties on a joint, rather than several, basis, and in no event with respect to an amount in excess of the net cash proceeds to be paid to such stockholder in such transaction; and

(ii) subject to any escrow or similar arrangement relating to such transaction with respect to an amount in excess of the net cash proceeds to be paid to such other stockholders in such transaction.

(e) Each of the Participants participating in the sale of shares of Common Stock by BNAC under this Section 7.6 shall be paid a

consideration (on a per share of Common Stock basis) on the same terms and conditions as BNAC in such sale.

8. Payment of Withholding Taxes.

8.1 General Rules.The Company is entitled to (a) withhold and deduct from future wages of the Participant (or from other amounts that may be due and owing to the Participant from the Company or a Subsidiary), or make other arrangements for the collection of, an amount the Company reasonably determines to be the minimum statutory amount necessary to satisfy any and all federal, foreign, state and local withholding and employment-related tax requirements attributable to an Incentive Award, including the grant, vesting, or payment of dividends with respect to, an Incentive Award; (b) withhold shares of Common Stock from the shares issued or otherwise issuable to the Participant in connection with an Incentive Award; or (c) require the Participant promptly to remit the amount of such withholding to the Company before taking any action, including issuing any shares of Common Stock, with respect to an Incentive Award. Shares of Common Stock issued to the Participant in connection with an Incentive Award that gives rise to the tax withholding obligation that are withheld for purposes of satisfying the Participant's withholding or employment-related tax obligation will be valued at their Fair Market Value on the Tax Date.

8.2 Special Rules. The Committee may, in its sole discretion and upon terms and conditions established by the Committee, permit or require a Participant to satisfy, in whole or in part, any withholding or employment-related tax obligation described in Section 8.1 by electing to tender, or by attestation as to ownership of, Previously Acquired Shares, by delivery of a promissory note (on terms acceptable to the Committee in its sole discretion), or by a combination of such methods. For purposes of satisfying a Participant's withholding or employment-related tax obligation, Previously Acquired Shares tendered or covered by an attestation will be valued at their Fair Market Value on the Tax Date.

9. Change in Control.

9.1 Certain Definitions. As used in this Plan, the following terms shall have the meanings set forth below:

(a) "Affiliate" means, at the time of determination, any "parent" or "majority-owned subsidiary" of the Company, as such terms are defined in Rule 405 of the Securities Act. The Committee shall have the authority to determine the time or times at which "parent" or "majority-owned subsidiary" status is determined within the foregoing definition.

(b) "Cash Transaction" means a merger or other transaction in which holders of the Common Stock receive a cash payment for each share exchanged or surrendered in such merger or other transaction.

(c) "Change in Control" means (i) any merger or consolidation of the Company with or into another entity, including, without limitation, a reverse merger with a company that has common stock traded on a United States securities exchange or combination, in whatever form, with a special purpose acquisition company, (ii) any sale by the Company of all or substantially all of its assets, other than a sale of assets in which the stockholders of the Company immediately before the transaction will own immediately thereafter, directly or indirectly, securities having a majority in ordinary voting power of the outstanding securities of the acquiror of the Company's assets, (iii) any sale or other transfer of shares of stock by one or more stockholders of the Company as a result of which any one transferee, together with the transferee's Affiliates, will become the owner of a majority in ordinary voting power of the Company's outstanding stock, but *excluding* (A) any sale or other transfer from a stockholder to a transferee who is an existing stockholder of the Company and (B) any sale or transfer of shares of stock directly by the Company or its Affiliates, or (iv) an Initial Public Offering.

9.2 Change in Control in General. In the event of a Change in Control, the Board, or any corporation or entity assuming the obligations of the Company, may take any one or a combination of the following actions as to outstanding Incentive Awards (and need not take the same action as to each such Incentive Award):

(a) provide that an Incentive Award be vested in full or part either on the date of the Change in Control; or

(b) provide that an Incentive Award shall be assumed, or equivalent Incentive Awards shall be substituted, by the acquiring or succeeding corporation or business entity (or an affiliate thereof).

9.3 Certain Exceptions. Notwithstanding anything herein to the contrary, the Board may provide in any Incentive Award Agreement that any or all of the preceding provisions of this Section 9 shall not apply to the Incentive Award granted under that Incentive Award Agreement.

9.4 Stockholders' Representative. For purposes of this section, "**Stockholders' Representative**" means one or more persons or entities appointed by the Company's stockholders to represent the interests of the stockholders in connection with a Change in Control, including with respect to matters such as: (a) determining any purchase price adjustment after the closing of the Change in Control; (b) taking any actions on behalf of the stockholders between the signing and closing of any agreement providing for such Change in Control (an "**Acquisition Agreement**"), including determining whether any closing conditions have been satisfied; (c) determining the amount to be paid to the stockholders after the closing of the Change in Control as the result of an earnout or other post-closing contingent payment obligation; (d) resolving any disputes relating to the payment to the stockholders of any amounts pursuant to the Acquisition Agreement, including any amounts placed in escrow in connection with the Change in Control, (e) receiving notices on behalf of the stockholders; (f) approving amendments to the Acquisition Agreement or (g) enforcing and protecting the rights and interests of the stockholders arising out of or under or in any manner relating to the Acquisition Agreement and any related agreements or documents, including entering into any settlement or instituting or defending any claim or litigation against the stockholders with respect to the matters contemplated by the Acquisition Agreement and any related agreements or documents and the transactions contemplated thereby. By receiving the grant of an Incentive Award under the Plan, each Participant agrees that (x) any Stockholders' Representative appointed by the Company's stockholders in connection with a Change in Control shall, without any further authorization or other action by the Participant, be appointed as such Participant's representative and attorney-in-fact in connection with such Change in Control on the same terms

and to the same extent as such Stockholders' Representative is appointed by the Company's stockholders in connection with such Change in Control and (y) the Participant will execute promptly on request of the Company any documents the Company deems necessary or desirable to provide further assurance of the foregoing appointment.

10. Rights of Eligible Recipients and Participants; Transferability .

10.1 Service. Nothing in the Plan or in any Incentive Award Agreement confers upon any Eligible Recipient or Participant any right to continue in the Service of the Company or any Subsidiary or interferes with or limits in any way the right of the Company or any Subsidiary to terminate the Service of any Employee at any time, with or without notice and with or without cause, subject to the terms of such Employee's employment contract, if any.

10.2 Restrictions on Transfer.

(a) Except pursuant to testamentary will or the laws of descent and distribution or as otherwise expressly permitted by subsection (b) below, no right or interest of any Participant in an Incentive Award of Restricted Stock Units will be assignable or transferable, or subjected to any lien, during the lifetime of the Participant, either voluntarily or involuntarily, directly or indirectly, by operation of law or otherwise and any such attempted assignment, transfer or sale, directly or indirectly, shall be void ab initio. Further, except pursuant to testamentary will or the laws of descent and distribution or as otherwise expressly permitted by Section 7.4, Section 7.5, Section 7.6 or subsection (b) below, no right or interest of any Participant in any Common Stock issued in settlement of a vested Restricted Stock Unit will be assignable or transferable, or subjected to any lien, during the lifetime of the Participant, either voluntarily or involuntarily, directly or indirectly, by operation of law or otherwise and any such attempted assignment, transfer or sale, directly or indirectly, shall be void ab initio

(b) A Participant will be entitled to designate a beneficiary to receive payment or settlement of an Incentive Award upon such Participant's death, and in the event of such Participant's death, payment of any amounts due under the Plan will be made to such beneficiary. If a deceased Participant has failed to designate a beneficiary, or if a beneficiary designated by the Participant fails to survive the Participant, payment of any amounts due under the Plan will be made to the Participant's legal representatives, heirs and legatees. If a deceased Participant has designated a beneficiary and such beneficiary survives the Participant but dies before complete payment of all amounts due under the Plan, then such payments will be made to the legal representatives, heirs and legatees of the beneficiary. Any beneficiary, legal representative, heir or legatee of a Participant who receives an Incentive Award will remain subject to all the terms and conditions applicable to the Participant prior to such receipt.

(c) Prior to an Initial Public Offering, a Participant (or the executor, administrator or other personal representative or other successor of a deceased Participant) may not sell, assign, transfer or otherwise dispose of vested shares of Common Stock acquired pursuant to an Incentive Award to a third party.

10.3 Non-Exclusivity of the Plan . Nothing contained in the Plan is intended to modify or rescind any previously approved compensation plans or programs of the Company or create any limitations on the power or authority of the Board to adopt such additional or other compensation arrangements as the Board may deem necessary or desirable.

11. Securities Law and Other Restrictions .

11.1 Securities Law Restrictions . Notwithstanding any other provision of the Plan or any Incentive Award Agreements, the Company will not be required to issue any shares of Common Stock under the Plan, and a Participant may not sell, assign, transfer or otherwise dispose of shares of Common Stock issued pursuant to Incentive Awards granted under the Plan: (a) unless there is in effect with respect to such shares a registration statement under the Securities Act and any applicable securities laws of a state or foreign jurisdiction or an exemption from such registration under the Securities Act and applicable state or foreign securities laws; (b) unless there has been obtained any other consent, approval or permit from any other U.S. or foreign regulatory body which the Committee, in its sole discretion, deems necessary or advisable; and (c) if at any time at which the Company is not required to file reports with the Securities and Exchange Commission (the "**SEC**") pursuant to Sections 12(b), 12(g) or 15(d) of the Exchange Act or the rules and regulations thereunder, such issuance, sale or transfer would cause the number of stockholders of the Company to increase such that the Company would be within ten (10) stockholders of the number that would cause the Company to be required to file reports with the SEC pursuant to Sections 12(g) or 15(d) of the Exchange Act and the rules and regulations thereunder. The Company may condition such issuance, sale or transfer upon the receipt of any representations or agreements from the parties involved, and the placement of any legends on certificates representing shares of Common Stock, as may be deemed necessary or advisable by the Company in order to comply with such securities law or other restrictions.

11.2 "Market Stand-Off" Restrictions . Except as otherwise approved by the Committee, the shares of Common Stock acquired in connection with the grant, vesting or settlement of an Incentive Award will be restricted following the effective date of a registration of the Company's securities under the Securities Act, and the holder thereof will not, without the prior written consent of the Company or the representative(s) of any underwriters, (a) sell, pledge, offer to sell, contract to sell (including any short sale), sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable for Common Stock (whether such shares or any such securities are then owned by the Participant who exercised such option or are thereafter acquired); or (b) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Common Stock, whether any such transaction described in clause (a) or (b) above is to be settled by delivery of Common Stock or such other securities, in cash or otherwise. The provisions of this Section 11.2 will not apply (w) unless the executive officers and directors of the Company have agreed to be bound by substantially the same terms and conditions; (x) to public offerings other than the Company's initial public offering and any public offering made within two (2) years thereafter; (y) to registrations relating solely to securities in connection with employee benefit plans or in connection with mergers, consolidations, reorganizations, or other transactions pursuant Rule 145 under the Securities Act; or (z) to transfers to donees who agree to be similarly bound. The time period

for such market stand-off will be determined by the Company and the representative(s) of any underwriters but will in no event exceed one hundred eighty (180) days from the date of the final prospectus with respect to the applicable public offering. The Company may impose stop-transfer instructions during such stand-off period with respect to the shares of Common Stock subject to this restriction if necessary to enforce such restrictions. The underwriters in connection with any such public offering are intended third party beneficiaries of this Section 11.2 and will have the right, power and authority to enforce the provisions hereof as though they were a party hereto.

12. Compliance with Section 409A.

It is intended that the Plan and all Incentive Awards hereunder be construed and administered in a manner that will comply with the requirements of an exception to Section 409A of the Code; provided, that, in accordance with Section 6.4, an Incentive Award may be granted pursuant to an Incentive Award Agreement that is subject to and complies with the requirements of Section 409A of the Code. The Committee is authorized to adopt rules or regulations deemed necessary or appropriate to qualify for an exception from the requirements of Section 409A of the Code.

13. Plan Amendment, Modification and Termination .

The Board may amend, suspend or terminate the Plan or any portion or whole thereof at any time. The Board, may amend the Plan from time to time in such respects as the Board may deem advisable in order that Incentive Awards under the Plan will conform to any change in applicable laws or regulations or in any other respect the Board may deem to be in the best interests of the Company. Notwithstanding the immediately preceding sentences set forth in this Section 13, no termination, suspension or amendment of the Plan may adversely affect any outstanding Incentive Award without the consent of the affected Participant, including, but not limited to, any amendment, suspension or termination of the terms set forth in Section 7 herein or any modification, termination or amendment to the terms applicable to such Incentive Award; provided, however, that this sentence will not impair the right of the Committee to take whatever action it deems appropriate under Section 2.1, Section 7.3 and Section 9.

14. Effective Date and Duration of the Plan .

The Plan is effective as of January 1, 2021 (the "**Effective Date**"), and shall remain valid until the earlier of (i) 6 months after an IPO or (ii) January 1, 2024, provided the obligations and rights of the Company and any Participants hereunder shall remain in full force and effect as to all outstanding unvested or vested Restricted Stock Units and all Common Stock issued to a Participant issued in settlement of a Restricted Stock Unit granted pursuant to this Plan that has not been redeemed, in its entirety, by the Company including, but not limited to, all rights and obligations set forth in Section 7 herein; provided, the Plan may be terminated prior to such time by the Board. No Incentive Award will be granted after termination of the Plan. This Plan shall survive termination solely for the outstanding Incentive Awards which have already been granted to the Participants before the expiration date or termination of the Plan, as case may be.

15. Miscellaneous.

15.1 Usage. In the Plan, except where otherwise indicated by clear contrary intention, (a) any masculine term used herein also includes the feminine, (b) the plural includes the singular, and the singular includes the plural, (c) "including" (and with correlative meaning "include") means including without limiting the generality of any description preceding such term, and (d) "or" is used in the inclusive sense of "and/or".

15.2 Governing Law and Venue . The validity, construction, interpretation, administration and effect of the Plan and any rules, regulations and actions relating to the Plan will be governed by and construed exclusively in accordance with the laws of the State of New York, notwithstanding the conflicts of laws principles of any jurisdictions. Any legal proceeding related to the Plan will be brought in an appropriate New York court, and the parties to any Incentive Award Agreement consent to the exclusive jurisdiction of the court for this purpose.

15.3 Successors and Assigns. The Plan will be binding upon and inure to the benefit of the successors and permitted assigns of the Company and the Participants.

15.4 Construction. Wherever possible, each provision of the Plan and any Incentive Award Agreement will be interpreted so that it is valid under the applicable law. If any provision of the Plan or any Incentive Award Agreement is to any extent invalid under the applicable law, that provision will still be effective to the extent it remains valid. The remainder of the Plan and the Incentive Award Agreement also will continue to be valid, and the entire Plan and Incentive Award Agreement will continue to be valid in other jurisdictions.

15.5 Initial Public Offering Process. It is the intent of the Company to seek an IPO on or before the third anniversary of the Effective Date of the Plan. The CEO and the Senior Management will seek to achieve or exceed the Minimum Target IPO Price as part of the Company's pursuit of an IPO. In the event that the market conditions are not conducive to the pursuit of an IPO on or before the third anniversary of the Effective Date of the Plan, the CEO and the Senior Management, in conjunction with the Board of Directors, may elect to delay the IPO for up to one (1) year after the third anniversary of the Effective Date of the Plan. Upon or before a successful completion of an IPO, the Plan will be supplanted with a new equity incentive plan, as determined by the Board in its sole and absolute discretion. It is currently anticipated that this replacement plan would be comparable to similar plans maintained by U.S. public companies.

IN WITNESS WHEREOF, the undersigned, on behalf of BKV Corporation, has executed this BKV Corporation 2021 Long Term Incentive Plan document effective as of January 1, 2021.

Appendix 1

PRSU KPIs

Performance Period. The following PRSU KPIs are based on the Plan's performance period beginning on the Effective Date and ending on the earlier of December 31, 2023, the date of an IPO, the date of a Change in Control, or the date of the Company's reverse merger with a company that has common stock traded on a United States securities exchange.

PRSU KPIs	Minimum Threshold	Target Threshold	Maximum Threshold	Weighting
Total Shareholder Return (TSR)	[***]	[***]	[***]	60%
Return on Capital Employed (ROCE)	[***]	[***]	[***]	20%
IPO Readiness	[***]	[***]	[***]	20%
Payout Percentage	0%	100%	200%	

Total Shareholder Return (TSR).

Total Shareholder Return or "TSR" is defined as the Fair Market Value of the Fully Diluted Shares outstanding (in dollars per share) divided by the Base Price less any common dividends paid per share incorporating the timing on when such dividend payments are paid on a daily basis to accurately estimate the time weighted rate of return, stated in a percent. For purposes of determining the TSR in all scenarios, other than a reverse merger, TSR is expressed as the following formula:

TSR = [(Fair Market Value per fully diluted common share) ÷ (Base Price** less cumulative dividends paid per share (time weighted))] ^ (1/Years) less 100%

(i) Public Company Basis. If the company has successfully completed an IPO then the TSR calculation will incorporate the IPO Average Trading Price as the basis for determining the Fair Market Value of the company. In the event of a reverse merger to go public, the Company would utilize the average trading price of the common stock of the reverse merged company over the 30 trading days following the reverse merger as the basis for Fair Market Value.

(ii) Private Company Basis. If the company has not successfully completed an IPO, and there is no imminent plans to IPO, then on the third anniversary of the Plan Effective Date, the Fair Market Value would be determined according to Section 2.19 for utilization in the TSR calculation.

The TSR shall be expressed as the following formula in the event of a reverse merger:

TSR=[Implied BKV Shareholders Equity Value* per share on a fully diluted common stock price) ÷ (Base Price** less cumulative dividends paid per share(time weighted))] ^(1/Years O/S) less 100%

*"Implied BKV Shareholders Equity Value per share on a fully diluted common stock price " means [[(the average 30 day closing price of the combined company's stock, as measured 30 trading days immediately preceding the effective transaction date of the reverse merger x the number of Fully Diluted Shares owned by the BKV shareholders in the combined company's stock as of the effective date of the reverse merger) + any cash/non-cash adjustment(s) (credit or liability) related to the reverse merger transaction to BKV shareholders, which actually increases or decreases the equity value of the BKV shareholders] ÷ the

number of Fully Diluted Shares outstanding for all BKV shareholders, prior to the reverse merger transaction effective date]].

**adjusted to account for any stock split, stock distribution, recapitalization, combination or similar event.

For purposes of determining TSR, "Fully Diluted Shares" means the total number of shares of Common Stock that are outstanding and available to trade on the open market after all sources of conversion are exercised or occur, including, without limitation, any stock options, convertible bonds, vested TRSUs and vested PRSUs.

Average Return on Capital Employed (ROCE).

The Return on Capital Employed or "ROCE" is defined as the Earnings Before Interest and Tax ("EBIT") as calculated on US GAAP basis, divided by Total Assets less Current Liabilities (including the current portion of debt). ROCE is expressed as the following formula:

ROCE = Average (EBIT / Capital Employed) over the performance period, where:

- EBIT = Earnings Before Interests & Tax (U.S. GAAP)
- Capital Employed = Total Assets – Current Liabilities including Assumed Current Portion of Debt (U.S. GAAP)

IPO Readiness.

IPO Readiness means the overall assessment of the Company's readiness to successfully complete an IPO, as determined by a reputable third-party consultant evaluating all aspects of the Company's capability to be publicly listed and ("Yes" or "No") and the date at which the Company is ready (based on when the assessment was conducted).

APPENDIX 2
BROAD PARAMETERS

The Broad Parameters approved by the Board for the CEO's authority to grant Incentive Awards to each Employee shall be for each grant to be no more than 5 times the current salary (based upon the date of grant of such Incentive Award) of any Employee and taking into account a 4 year average duration of employment by such Employee.

APPENDIX 3
BOARD APPROVED PARAMETERS OF INTENT FOR ISSUANCE OF INCENTIVE AWARDS UNDER THE PLAN

Long-term Incentive Plan (LTIP):

LTIP should not affect BKV's ability to pay dividends to holders of shares of Common Stock.

LTIP should not drive BKV to report a negative net income in any fiscal year.

Board retains discretion to reduce an Incentive Award payout by up to 20% of the total payout, at target level of achievement for PRSUs, at the sole and absolute discretion of the Board, to normalize against an irregular outcome.

Profit should be shared appropriately among all stakeholders.

In light of expensing of LTIP considerations, the LTIP grants commence on **January 1, 2021**, to align with a full fiscal year and to eliminate any expense implications for fiscal 2020.

APPENDIX 4
EXAMPLE OF TRSU AND PRSU GRANTS

Exhibit 10.8

FIRST AMENDMENT
TO THE
BKV CORPORATION
2021 LONG TERM INCENTIVE PLAN
(ADOPTED JANUARY 1, 2021)

This First Amendment (this "**Amendment**") to the BKV Corporation 2021 Long Term Incentive Plan (the " **Plan**") is made by BKV Corporation, a Delaware corporation (the "**Company**") this 5th day of November, 2021.

WHEREAS, the Company wishes, for accounting purposes, to treat Incentive Awards granted under the Plan and the shares of Common Stock issued in settlement of such Incentive Awards as equity rather than debt, which requires that (i) Participants (and beneficiaries) not be able to exercise their put or tender rights under an Incentive Award Agreement and the Plan for at least 181 days following the date on which such Incentive Award vests (the "**Holding Period**"), (ii) the Company not be permitted to exercise its right under an Incentive Award Agreement to purchase shares of Common Stock from Participants (and beneficiaries) until after the Holding Period, and (iii) a fair market value determination made quarterly to the extent necessary to affect transactions during the year; and

WHEREAS, the Company wishes to make available to Participants who receive a share of the Company's Common Stock in settlement of an Incentive Award under the Plan, the right, following the Holding Period, to tender such shares for repurchase by the Company in accordance with and subject to the limits and other requirements established under the Company's Sell Fund Repurchase Program as in effect from time to time (the "**Sell Fund Repurchase Program**"); and

WHEREAS, the Company wishes to amend the Plan (i) to impose the requirement that a Participant (or beneficiary following the Participant's death) may not exercise their right to put any shares acquired by such Participant (or beneficiary) prior to the date that is 181 days following the date the Participant became vested in the right to receive a share of the Company's Common Stock, (ii) to require a fair market value determination made quarterly to the extent necessary to affect transactions occurring during the year, (iii) to provide eligible Participants the right to tender such shares for repurchase by the Company in accordance with and subject to the limits and other requirements established under the Company's Sell Fund Repurchase Program, and (iv) to prohibit the Company from exercising its right to purchase from the Participant (or beneficiary) shares acquired by such Participant (or beneficiary) prior to the date that is 181 days following the date the Participant became vested in the right to receive a share of the Company's Common Stock.

NOW THEREFORE, the Plan is amended as follows:

1. Section 2.19 of the Plan regarding the definition of "Fair Market Value" is amended and restated effective as of October 31, 2021 to read as follows:

> 2.19 "Fair Market Value" means, with respect to the Common Stock, as of any date: (a) the closing sale price of the Common Stock as of such date at the end of the regular trading session, as reported on any national securities exchange on which the Common Stock is then listed (or, if no shares were traded on such date, as of the next preceding date on which there was such a trade); or (b) if the Common Stock is not so listed as described in above, the price, on a per share of the Common Stock basis, at which a willing seller would sell, and a willing buyer would buy, the Common Stock having full knowledge of all relevant facts, in an arm's length transaction without taking into account the minority ownership interest of any shares of the Common Stock and the rights associated with any minority ownership interest hereunder. For all purposes under this Plan (including as to taxation), the fair market value of the Common Stock as described in (b) above shall be determined quarterly during each Financial Year, if needed for transactions occurring during the year, by the Committee using the independent and impartial valuation of the Common Stock performed, on an annual basis, by Guggenheim Securities, LLC, with interim valuations based on the methodologies established in such annual Guggenheim Securities, LLC valuation prepared by the Company or a third party with valuation expertise. The annual valuation may be performed by an independent and impartial appraiser approved by the Board other than Guggenheim Securities, LLC if its fees are not at competitive market rates (as determined by the Board based upon evidence of fees charged by other United States investment banking firms for the same services).

2. Section 7 of the Plan is amended by adding a new Section 7.7 to read as follows:

> 7.7 Holding Period.
>
> (a) A Participant (or beneficiary following the Participant's death) who receives a share of the Company's Common Stock in settlement of an equity-based incentive award under the Plan may not exercise their right to put such share of Common Stock to the Company for repurchase under Section 7.5 or tender such share of Common Stock to the Company for purchase under Section 7.8 prior to the date that is 181 days following the date the Participant became vested in the right to receive such share of the Company's Common Stock under the terms of the equity-based incentive award.
>
> (b) The Company may not exercise its right to purchase shares of the Company's Common Stock from a Participant (or beneficiary following the Participant's death) under Section 7.4 prior to the date that is 181 days following the date the Participant became vested in the right to receive such share of the Company's Common Stock under the terms of the equity-based incentive award.

3. Section 7 of the Plan is amended by adding a new Section 7.8 to read as follows:

> 7.8 Sell Fund Repurchase Program. If, and only if, an applicable Incentive Award Agreement (including by amendment of such agreement) specifically so provides, a Participant who receives shares of the Company's Common Stock in settlement of an Incentive

Award, shall have the right, subject to the holding requirement of Section 7.7, to tender such shares for repurchase by the Company in accordance with and subject to the limits and other requirements established under the Company's Sell Fund Repurchase Program, as in effect from time to time.

IN WITNESS WHEREOF, the undersigned, on behalf of BKV Corporation, has executed this First Amendment to the BKV Corporation 2021 Long Term Incentive Plan document effective as of the date first above written.

Time Restricted Stock Unit Award and
Performance-based Restricted Stock Unit Award

BKV CORPORATION
TIME RESTRICTED STOCK UNIT AWARD AND PERFORMANCE-BASED RESTRICTED STOCK UNIT AWARD NOTICE
2021 EQUITY INCENTIVE PLAN

BKV Corporation, a Delaware corporation (the "**Company**"), pursuant to its 2021 Equity Incentive Plan (the " **Plan**"), hereby grants to the Participant a Time Restricted Stock Unit award of the number of Time Restricted Stock Units (as defined in the Plan), set forth below (the "**Time Restricted Stock Units**" or "**TRSUs**") and the number of Performance-based Restricted Stock Units (as defined in the Plan) set forth below (the " **Performance-based Restricted Stock Units**" or "**PRSUs**"). The Time Restricted Stock Units and the Performance-based Restricted Stock Units are subject to all of the terms and conditions as set forth in this Time Restricted Stock Unit Award and Performance-based Restricted Stock Unit Award Notice (the "**Award Notice**") and in the Time Restricted Stock Unit Award and Performance-based Restricted Stock Unit Award Agreement and the Plan, both of which are attached hereto and incorporated herein in their entirety.

Participant:	[ ]
Date of Grant:	[ ]
Number of Time Restricted Stock Units:	[ ]
TRSU Vesting Schedule:	[ ] TRSUs vest on the Date of Grant; thereafter [ ] TRSUs vest on the second anniversary of the Date of Grant and each annual anniversary thereafter; provided that the Participant's Service has continued from the Date of Grant through each such date.
PRSU Vesting Schedule:	See **Exhibit A** attached hereto. At Target Payout, [ ] PRSUs, subject to adjustment under the Plan.
Performance Period:	January 1, 2021 to the earlier of December 31, 2023, an IPO or a Change in Control.
PRSUs Settlement Date:	Vested Performance-based Restricted Stock Units will be settled and shares of Common Stock underlying the vested Performance-based Restricted Stock Units will be issued immediately following the vesting thereof.

The undersigned Participant acknowledges that he or she has received a copy of this Time Restricted Stock Award and Performance-based Restricted Stock Unit Award Notice, the Time Restricted Stock Award and Performance-based Restricted Stock Unit Award Agreement and the Plan. As an express condition to the grant of the Award hereunder, the Participant agrees to be bound by the terms of this Time Restricted Stock Award and Performance-based Restricted Stock Unit Award Notice, the Time Restricted Stock Award and Performance-based Restricted Stock Unit Award Agreement and the Plan. The undersigned Participant further acknowledges that as of the Date of Grant, this Time Restricted Stock Award and Performance-based Restricted Stock Unit Award Notice, the Time Restricted Stock Award Agreement and Performance-based Restricted Stock Unit Award, and the Plan set forth the entire understanding between the Participant and the Company regarding the award of stock in the Company and supersede all prior oral and written agreements on that subject with the exception of (i) awards previously granted and delivered to the Participant by the Company, and (ii) any agreements noted in an attachment to this Time Restricted Stock Award and Performance-based Restricted Stock Unit Award Notice.

TIME RESTRICTED STOCK UNIT AWARD AND PERFORMANCE-BASED RESTRICTED STOCK UNIT AWARD AGREEMENT
UNDER THE

BKV CORPORATION 2021 EQUITY INCENTIVE PLAN

Pursuant to the Time Restricted Stock Unit Award and Performance-based Restricted Stock Unit Award Notice (the " **Award Notice**"), and subject to the terms of this Time Restricted Stock Unit Award and Performance-based Restricted Stock Unit Award Agreement (this "**Agreement**") and the BKV Corporation 2021 Equity Incentive Plan (the "**Plan**"), BKV Corporation, a Delaware corporation (the "**Company**"), and the Participant agree as follows. Capitalized terms not otherwise defined in this Agreement or in the Award Notice will have the same meanings as set forth in the Plan.

1. Award.

(a) Award of Time Restricted Stock Units. Subject to the terms and conditions set forth herein and in the Plan, the Company hereby grants to the Participant Time Restricted Stock Units, as set forth in the Award Notice, subject to adjustment as provide in the Plan, and each of which, if vested and earned pursuant to this Agreement, will be settled in one (1) share of the Company's common stock, $0.01 par value per share, ("**Common Stock**"), at the time and subject to the terms, conditions and restrictions set forth in this Agreement and the Plan (the "**TRSU Award Shares**").

(b) Award of Performance-based Restricted Stock Units. Subject to the terms and conditions set forth herein and in the Plan, the Company hereby grants to the Participant Performance-based Restricted Stock Units, as set forth in the Award Notice, subject to adjustment as provided in the Plan, and each of which, if vested and earned pursuant to this Agreement, will be settled in one (1) share of the Company's Common Stock, at the time and subject to the terms, conditions and restrictions set forth in this Agreement and the Plan (the "**PRSU Award Shares**" and collectively with the TRSU Award Shares, the "**Award Shares**").

2. Vesting.

(a) Time Restricted Stock Units.

(i) Vesting Schedule; Accelerated Vesting. Except as otherwise provided in this Section 2(a) or the Plan, the Time Restricted Stock Units will vest in the amounts and on the date(s) as indicated in the Vesting Schedule set forth in the Award Notice (each a "**TRSU Vesting Date**"), provided the Participant remains in the Service of the Company or Subsidiary through the applicable TRSU Vesting Date. In addition, all non-vested Time Restricted Stock Units that have not been forfeited shall vest upon an initial public offering of the Company's shares of Common Stock or a Change in Control of the Company, provided the Participant remains in the Service of the Company or a Subsidiary through such date. Subject to the limitations contained herein and in the Plan, upon Participant's termination of Service from the Company and all Subsidiaries the Time Restricted Stock Units that have not vested as of the date of such termination shall be forfeited and terminate; provided, however, that upon a Participant's termination of Service, the Committee may, in its sole discretion cause any Time Restricted Stock Units then held by such Participant to terminate, vest or become free of restrictions and conditions to payment, in each case in the manner determined by the Committee; provided, further, that any such action adversely affecting any outstanding Incentive Award may not be effective without the consent of the affected Participant (subject to the right of the Committee to take whatever action it deems appropriate under Sections 3.2(c), 7.3 and 9 of the Plan).

(b) Performance-based Vesting; Determination of Amount of Performance-based Restricted Stock Units.

(i) Performance Vesting; Performance Measures and Performance Goals. Except as otherwise provided in this Section 2(b) or the Plan, the Performance-based Restricted Stock Units will vest and the number of shares of Common Stock payable in settlement of such vested Performance-based Restricted Stock Units shall be determined at the end of the Performance Period (the "**PRSU Vesting Date**") by reference to the level of achievement of the PRSU KPIs during the Performance Period in accordance with the table set forth in **Exhibit A** to this Agreement and may range from 0% to 200% of the Participant's Target Payout as set forth in the Award Notice, provided the Participant remains in the Service of the Company or Subsidiary through the applicable PRSU Vesting Date. The PRSU KPIs for the Performance Period and their respective weightings and their respective Minimum Threshold, Target Threshold and Maximum Threshold levels, are described in the table set forth in **Exhibit A** to this Agreement; provided, however, that upon a Participant's termination of Service, the Committee may, in its sole discretion, cause any Performance-based Restricted Stock Units then held by such Participant to terminate, vest or become free of restrictions and conditions to payment, in each case in the manner determined by the Committee; provided, further, that any such action adversely affecting any outstanding Incentive Award may not be effective without the consent of the affected Participant (subject to the right of the Committee to take whatever action it deems appropriate under Sections 3.2(c), 7.3 and 9 of the Plan). In addition, all non-vested Performance-based Restricted Stock Units that have not been forfeited shall vest at the Target Payout level upon an initial public offering of the Company's shares of Common Stock or on the date of a Change in Control of the Company, provided the Participant remains in the Service of the Company or a Subsidiary through such date.

(ii) Determination of Amount of Earned Performance-based Restricted Stock Units. The number of Performance-based Restricted Stock Units to be settled in PRSU Award Shares (the "**Earned Performance-based Restricted Stock Units**") will be determined by prorated, straight-line interpolation between the Minimum Threshold and Target Threshold, or Target Threshold and Maximum Threshold if the level of performance achieved for the PRSU KPIs for the Performance Period falls between such levels, as specified in the table set forth in **Exhibit A** to this Agreement, and the determination will be rounded up to the nearest whole number of Performance-based Restricted Stock Units. The Earned Performance-based Restricted Stock Units will be settled in shares of Common Stock as provided in Section 3(b) of this Agreement.

(iii) Requirement to Exceed Minimum Threshold Level of Performance. Except as otherwise provided in Section 2(b)(i) of this Agreement and Sections 6.2(a) and Section 7.2 of the Plan and to the extent not previously forfeited or terminated pursuant to this Agreement or the Plan, the

Performance-based Restricted Stock Units shall be immediately forfeited and terminated as of the end of the Performance Period if the Committee reasonably determines the PRSU KPIs do not exceed the Minimum Threshold as described in the table set forth in **Exhibit A** to this Agreement and that no accelerated vesting event has occurred.

(c) Forfeiture Events. If the Participant is determined by the Committee, acting in its sole discretion, to have taken any action that would constitute Cause or an Adverse Action, irrespective of whether such action or the Committee's determination occurs before or after termination of the Participant's Service and irrespective of whether or not the Participant was terminated for Cause: (i) all rights of the Participant under this Agreement and the Plan will terminate and be forfeited without notice of any kind; and (ii) the Committee, in its sole discretion, may require the Participant to surrender and return to the Company all or any shares of Common Stock received, or to disgorge all or any profits or any other economic value (however defined by the Committee) made or realized by the Participant, during the period beginning one year prior to the Participant's termination of Service in connection with the Performance-based Restricted Stock Units.

(d) Adjustment by Board. Notwithstanding anything herein to the contrary, the Board has reserved the right to reduce the amount of the settlement of a vested PRSU by up to 20% of the vested amount of the PRSU at Target Threshold, as reflected in **Exhibit A,** or a vested TRSU by up to 20% of the vested amount.

3. Settlement; Issuance of Common Stock.

(a) Time Restricted Stock Units.

(i) Timing and Manner of Settlement. Immediately following the vesting of Time Restricted Stock Units under Section 2(a), such vested Time Restricted Stock Units will be converted to shares of Common Stock which the Company will issue and deliver to the Participant (either by delivering one or more certificates for such shares or by entering such shares in book entry form in the name of the Participant or depositing such shares for the Participant's benefit with any broker with which the Participant has an account relationship or the Company has engaged to provide such services under the Plan) within sixty (60) days following the TRSU Vesting Date, except to the extent that shares of Common Stock are withheld to pay tax withholding obligations pursuant to Section 3(c) of this Agreement.

(b) Performance-based Restricted Stock Units.

(i) Amount of Payment. In the event of the achievement in excess of the Minimum Threshold level of performance with respect to a PRSU KPI described in the table set forth in **Exhibit A** to this Agreement during the Performance Period, which achievement shall be certified in writing by the Committee as soon as practicable following the expiration of the Performance Period, the Participant shall vest in the Earned Performance-based Restricted Stock Units up to the Maximum Threshold payout as determined pursuant to Section 2(b) and **Exhibit A** to this Agreement. The Participant may not be entitled to receive a greater number of PRSU Award Shares than the Earned Performance-based Restricted Stock Units at the Maximum Threshold payout, subject to adjustment as provided in the Plan. In the event Performance-based Restricted Stock Units are forfeited or cancelled for any reason pursuant to this Agreement or otherwise, no shares of Common Stock will be issued or payment made in settlement of such Performance-based Restricted Stock Units.

(ii) Timing and Manner of Settlement. Earned Performance-based Restricted Stock Units, including if vesting is accelerated as provided under the Plan, will be converted to shares of Common Stock which the Company will issue and deliver to the Participant (either by delivering one or more certificates for such shares or by entering such shares in book entry form in the name of the Participant or depositing such shares for the Participant's benefit with any broker with which the Participant has an account relationship or the Company has engaged to provide such services under the Plan) within sixty (60) days following the PRSU Vesting Date, except to the extent that shares of Common Stock are withheld to pay tax withholding obligations pursuant to Section 3(c) of this Agreement.

(c) Withholding Taxes. Whenever any Time Restricted Stock Units and Performance-based Restricted Stock Units granted under the terms of this Agreement vest and shares of Common Stock are issued in settlement thereof, the Participant is responsible to provide to the Company when due, the minimum amount necessary for the Company to satisfy all of its federal, state and local withholding (including FICA) tax requirements relating to such taxable event. The Committee may, in its sole discretion and upon terms and conditions established by the Committee, permit or require the Participant to satisfy these minimum withholding tax obligations in connection with the settlement of the Time Restricted Stock Units and Performance-based Restricted Stock Units by withholding shares of Common Stock issuable upon settlement of the Time Restricted Stock Units or Performance-based Restricted Stock Units. When withholding shares of Common Stock for taxes is effected under this Agreement and the Plan, it will be withheld only up to the minimum amount the Company reasonably determines is necessary to satisfy any tax withholding obligation in the Participant's applicable tax jurisdiction.

4. Rights of Participant; Transferability.

(a) No Right to Continued Employment. Nothing in the Plan or in this Agreement confers upon the Participant any right to continue in the Service of the Company or any Subsidiary or interferes with or limits in any way the right of the Company or any Subsidiary to terminate the Service of the Participant at any time, with or without notice and with or without cause.

(b) Rights as a Stockholder. Except as otherwise provided in the Plan, notwithstanding any restrictions to which Time Restricted Stock Units and Performance-based Restricted Stock Units may be subject, a Participant will have all voting, dividend, liquidation and other rights with respect to Award Shares issued in settlement of Earned Time Restricted Stock Units and Earned Performance-based Restricted Stock Units only upon the Participant becoming the holder of record of such shares as if such Participant were a holder of record of such shares.

(c) Dividends. The Participant will not receive any cash dividends or Dividend Equivalents based on the dividends declared on the Common Stock underlying the Time Restricted Stock Units and Performance-based Restricted Stock Units during the period between the Grant Date and the date the Earned Time Restricted Stock Units or Earned Performance-based Restricted Stock Units are settled in shares of Common Stock.

(d) Non-Transferability. Except as otherwise expressly permitted by the Plan, unless approved by the Committee in its sole discretion, no right or interest of the Participant in the Award Shares prior to the vesting of an Award and issuance of the Award Shares, will be assignable or transferable, or subjected to any lien, during the lifetime of the Participant, either voluntarily or involuntarily, directly or indirectly, by operation of law or otherwise.

5. Purchase and Sale Rights Relating to Common Stock .

(a) Restriction on Transfer of Common Stock. Except pursuant to testamentary will or the laws of descent and distribution or as otherwise expressly permitted by this Section 5, prior to an initial public offering of shares of Common Stock, a Participant (or the executor, administrator or other personal representative or other successor of a deceased Participant) may not sell, assign, transfer or otherwise dispose of, directly or indirectly, by operation of law or otherwise, Award Shares acquired pursuant to an Incentive Award to a third party without prior approval of such sale, assignment, transfer or disposition by the Committee or the Board, and any such attempted assignment, transfer or sale, directly or indirectly, shall be void ab initio. A Participant may transfer, for no value, vested Award Shares to a trust established by the Participant for estate planning purposes and controlled by the Participant.

(b) Repurchase Right. If the Participant either (A) commits any material breach of such Participant's employment agreement or service contract with the Company and either (1) that breach is not capable of being remedied or (2) if capable of remedy, the Participant does not remedy that breach as soon as possible and in any event within thirty (30) days of receiving a notice from the Company requiring the Participant to remedy that breach, or (B) the Participant's employment with the Company is terminated for any reason, including due to death or disability, the Company shall have the right, as determined by the Board, to repurchase all (and not less than all) of the vested shares of Common Stock acquired by the Participant under this Plan, in accordance with the terms of this Section 5(b):

(i) The selling price of the vested shares of Common Stock purchased by the Company pursuant to this Section 5(b) shall be equal to the Fair Market Value of such shares at the time of the repurchase.

(ii) The Company may exercise its election to acquire the Participant's vested shares of Common Stock by delivery of ninety (90) days' written notice to the Participant (or the Participant's beneficiary in the event of the Participant's death).

(iii) The closing of the purchase of the vested shares of Common Stock pursuant to this Section 5(b) shall take place at the principal office of the Company not later than thirty (30) days following receipt of such notice by the Participant (or the Participant's beneficiary in the event of the Participant's death).

(iv) The Participant (or the Participant's beneficiary in the event of the Participant's death) shall make such customary representations and warranties as may be reasonably requested by the Company regarding such seller's good title to, and the absence of liens on, such vested shares of Common Stock.

(v) The Company will pay the purchase price for the vested shares of Common Stock purchased by the Company under this Section 5(b) in cash, payable by wire transfer of immediately available funds to the bank account provided to the Company by the Participant (or the Participant's beneficiary in the event of the Participant's death)

(c) Put Right. In the event (A) the Participant's employment with the Company is terminated for any reason, including due to death or disability (but excluding by voluntary resignation by the Participant) or (B) the Participant's employment with the Company is terminated by virtue of the Participant's voluntary resignation after more than thirty-six (36) months have passed from the date of the first grant of an Incentive Award under the Plan to the Participant, and, in each case, the Company has not exercised its right under Section 5(b) to repurchase the Participant's shares of Common Stock, the Participant (or the Participant's beneficiary in the event of death) shall have the right to elect to sell to the Company, and the Company shall be required to purchase from the Participant, all (and not less than all) of the vested Award Shares acquired by the Participant under the Plan, in accordance with the terms of this Section 5(c):

(i) The selling price of the vested Award Shares purchased by the Company pursuant to this Section 5(c) shall be equal to the Fair Market Value of such shares at the time of the election to sell.

(ii) The Participant (or the Participant's beneficiary in the event of the Participant's death) may exercise an election to sell vested Award Shares by delivery of thirty (30) days' written notice specifying the number of vested Award shares to be sold.

(iii) The closing of the purchase of vested Award Shares of Common Stock pursuant to this Section 5(c) shall take place to the principal office of the Company not later than thirty (30) days following receipt of such notice by the Company.

(iv) The Participant (or the Participant's beneficiary in the event of the Participant's death) shall make such customary representations and warranties as may be reasonably requested by the Company regarding such seller's good title to, and the absence of liens on, such vested Award Shares.

(v) The Company will pay the purchase price for the vested Award Shares purchased by the Company under this Section 5(c) in cash, payable by wire transfer of immediately available funds to the bank account provided to the Company by the Participant (or the Participant's beneficiary in the event of the Participant's death).

(d) Drag-Along Rights. If at any time BNAC (alone or together with any of the other Company stockholders) proposes to effect the sale of shares of Common Stock representing more than eighty percent (80%) of the total issued and outstanding shares of Common Stock, BNAC may require the participation of all (and not less than all) of the shares of Common Stock owned by the Participant in such sale in the manner set forth in this Section 5(d).

(i) BNAC shall exercise its rights pursuant to this Section 5(d) by delivering to the Company and each of the other Company stockholders a written notice (the "**Drag-along Notice**") of such proposed sale no later than fifteen (15) days prior to the proposed closing thereof. Any Drag-along Notice shall make reference to the Participants' obligations under this Section 5(d) and shall describe in reasonable detail:

(A) the number of shares of Common Stock to be sold by BNAC;

(B) the person to whom such shares of Common Stock are proposed to be sold;

(C) the material terms and conditions of the sale, including the consideration to be paid; and

(D) the proposed date, time and location of the closing of the sale.

(ii) In any sale is subject to this Section 5(d), each of the Participants shall agree to sell all (and not less than all) of the shares of Common Stock owned by the Participant, free and clear of any liens and on the same terms and conditions as BNAC in such sale.

(iii) If BNAC (alone or together with any of the other Company stockholders) proposes to effect the sale of shares of Common Stock representing more than eighty percent (80%) of the total issued and outstanding shares of the Company's Common Stock pursuant to this Section 5(d), the Participants shall agree to consent to and not object to or exercise any appraisal or dissenters' rights in connection with such transaction. Without limiting the foregoing, each of the Participants will agree, if requested by BNAC, to execute and deliver a power of attorney and custody agreement, in form and substance satisfactory to BNAC, with respect to the shares of Common Stock that are to be included by them in any sale pursuant to this Section 5(d). The power of attorney and custody agreement will provide, among other things, that each such Participant will:

(A) deliver to and deposit into custody with BNAC, named as the custodian therein, a certificate or certificates representing such shares of Common Stock (duly endorsed in blank by the owner or owners thereof or accompanied by duly endorsed stock powers in blank); and

(B) irrevocably appoint BNAC as such stockholder's agent and attorney-in-fact with full power to act thereunder on behalf of such stockholder with respect to the matters specified therein.

(iv) Each Participant shall fully cooperate with BNAC and shall take all necessary actions to effectuate the sale of shares of Common Stock pursuant to this Section 5(d), including entering into such agreements and delivering such certificates and instruments, as may be reasonably requested from time to time by BNAC, provided that no Participant shall be:

(A) liable for any indemnification obligations to any potential purchaser in respect of such representations and warranties on a joint, rather than several, basis, and in no event with respect to an amount in excess of the net cash proceeds to be paid to such stockholder in such transaction; and

(B) subject to any escrow or similar arrangement relating to such transaction with respect to an amount in excess of the net cash proceeds to be paid to such other stockholders in such transaction.

(v) Each of the Participants participating in the sale of shares of Common Stock by BNAC under this Section 5(d) shall be paid a consideration (on a per share of Common Stock basis) on the same terms and conditions as BNAC in such sale.

6. Change in Control.

(a) Acceleration; Alternative Treatment. If a Change in Control of the Company occurs, then, except to the extent that an equivalent or substituted Award is provided to the Participant to replace the Award pursuant to Section 9.2(b) of the Plan, or unless otherwise provided by the Committee in its sole discretion at any time on or after the Date of Grant, the Award Shares will vest immediately and become non-forfeitable, regardless of whether the Participant remains in the employ or service of the Company or any Subsidiary or any acquiring entity or successor to the Company. In connection with a Change in Control, the Committee in its sole discretion, in lieu of providing an equivalent or substituted Award to the Participant, may determine that all or any portion of the Award and corresponding Award Shares, whether or not vested, will be terminated and forfeited and that in connection with such termination the Participant will receive for each Award Share a cash payment (or the delivery of shares of stock, other securities or a combination of cash, stock and securities with a fair market value (as determined by the Committee in good faith) equivalent to such cash payment) equal to the difference, if any, between the consideration received by stockholders of the Company in respect of a share of Common Stock in connection with such Change in Control and the purchase price per share, if any, under the Award, multiplied by the number of Award Shares subject to the grant; provided, however, that if such product is zero ($0) or less, the Award may be canceled and terminated without payment therefor.

(b) Stockholders' Representative. In connection with any Change in Control, the Participant agrees that (i) any Stockholders' Representative appointed by the Company's stockholders in connection with such Change in Control shall, without any further authorization or other action by the Participant, be appointed as such Participant's representative and attorney-in-fact in connection with such Change in Control on the same terms and to the same extent as such Stockholders' Representative is appointed by the Company's stockholders in connection with such Change in Control and (ii) the Participant will execute promptly on request of the Company any documents the Company deems necessary or desirable to provide further assurance of the foregoing appointment.

7. Securities Laws Restrictions.

(a) General Restrictions. Notwithstanding any other provision of the Plan or this Agreement, the Company will not be required to issue any shares of Common Stock pursuant to the Award, and the Participant may not sell, assign, transfer or otherwise dispose of shares of Common Stock issued pursuant to the Award: (i) unless there is in effect with respect to such shares a registration statement under the Securities Act and any applicable securities laws of a state or foreign jurisdiction or an exemption from such registration under the Securities Act and applicable state or foreign securities laws; (ii) unless there has been obtained any other consent, approval or permit from any other U.S. or foreign regulatory body which the Committee, in its sole discretion, deems necessary or advisable; and (iii) if at any time at which the Company is not required to file reports with the SEC pursuant to Sections 12(b), 12(g) or 15(d) of the Exchange Act or the rules and regulations thereunder, such issuance, sale or transfer would cause the number of stockholders of the Company to increase such that the Company would be within ten (10) stockholders of the number that would cause the Company to be required to file reports with the SEC pursuant to Sections 12(g) or 15(d) of the Exchange Act and the rules and regulations thereunder. The Company may condition such issuance, sale or transfer upon the receipt of any representations or agreements from the parties involved, and the placement of any legends on certificates representing shares of Common Stock, as may be deemed necessary or advisable by the Company in order to comply with such securities law or other restrictions.

(b) Market Stand-Off Restrictions. The Participant agrees that, for a 180-day period following the effective date of a registration of the Company's securities under the Securities Act, and subject to the terms and conditions of Section 11.2 of the Plan, the Participant will not, without the prior written consent of the Company or the representative(s) of any underwriters, (i) sell, pledge, offer to sell, contract to sell (including any short sale), sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable for Common Stock (whether such shares or any such securities are then owned by the Participant or are thereafter acquired); or (ii) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Common Stock, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of Common Stock or such other securities, in cash or otherwise.

8. Miscellaneous.

(a) Award Shares Subject to the Plan. This Time Restricted Stock Award Agreement and the shares of Common Stock granted and issued pursuant to this Agreement have been granted and issued under, and are subject to the terms of, the Plan. The terms of the Plan are incorporated by reference in this Agreement in their entirety, and the Participant, by execution of the Time Restricted Stock Award Notice, acknowledges having received a copy of the Plan. The provisions of this Agreement will be interpreted as to be consistent with the Plan, and any ambiguities in this Agreement will be interpreted by reference to the Plan. If any provision of this Agreement is inconsistent with the terms of the Plan, the terms of the Plan will prevail.

(b) Section 409A. It is intended that payments under this Agreement qualify as short-term deferrals exempt from the requirements of Section 409A of the Code. This Agreement shall be construed and administer to give full effect to such intention

(c) Binding Effect. This Agreement will be binding upon and inure to the benefit of the successors and permitted assigns of the parties to this Agreement.

(d) Governing Law and Venue. This Agreement and all rights and obligations under this Agreement will be construed in accordance with the Plan and governed by the laws of the State of New York, without regard to conflicts of laws provisions of any jurisdictions. Any legal proceeding related to this Agreement will be brought in an appropriate New York court, and the parties to this Agreement consent to the exclusive jurisdiction of the court for this purpose.

(e) Entire Agreement. This Agreement, the Time Restricted Stock Unit Award and Performance-based Restricted Stock Unit Award Notice and the Plan set forth the entire agreement and understanding of the parties to this Agreement with respect to the award of Award Shares and the administration of the Plan and supersede all prior agreements, arrangements, plans and understandings relating to the award of the Award Shares and the administration of the Plan.

(f) Amendment and Waiver. Other than as provided in the Plan, this Agreement may be amended, waived, modified or canceled only by a written instrument executed by the parties to this Agreement or, in the case of a waiver, by the party waiving compliance.

(g) Construction. Wherever possible, each provision of this Agreement will be interpreted so that it is valid under the applicable law. If any provision of this Agreement is to any extent invalid under the applicable law, such provision will still be effective to the extent it remains valid. The remainder of this Agreement also will continue to be valid, and the entire Agreement will continue to be valid in other jurisdictions.

EXHIBIT A

PRSU KPIs

Performance Period. The following PRSU KPIs are based on the performance period beginning on January 1, 2021 and ending on the earlier of December 31, 2023, the date of an IPO, or the date of a Change in Control.

PRSU KPIs	Minimum Threshold	Target Threshold	Maximum Threshold	Weighting
Total Shareholder Return (TSR)	[***]	[***]	[***]	60%
Return on Capital Employed (ROCE)	[***]	[***]	[***]	20%
IPO Readiness	[***]	[***]	[***]	20%
Payout Percentage	0%	100%	200%	

Total Shareholder Return (TSR)

Total Shareholder Return or "TSR"is defined as the Fair Market Value of the Fully Diluted Shares [defined?] outstanding (in dollars per share) divided by the Base Price less any common dividends paid per share incorporating the timing on when such dividend payments are paid on a daily basis to accurately estimate the time weighted rate of return, stated in a percent. TSR is expressed as the following formula:

TSR = [(Fair Market Value per fully diluted common share) ÷ (Base Price less cumulative dividends paid per share (time weighted))] ^ (1/Years) less 100%

(i) Public Company Basis. If the company has successfully completed an IPO then the TSR calculation will incorporate the IPO Average Trading Price as the basis for determining the Fair Market Value of the company. In the event of a reverse merger to go public, the Company would utilize the average trading price of the common stock of the reverse merged company over the 30 trading days following the reverse merger as the basis for Fair Market Value.

(ii) Private Company Basis. If the company has not successfully completed an IPO, and there is no imminent plans to IPO, then on the third anniversary of the Plan Effective Date, the Fair Market Value would be determined according to Section 2.19 for utilization in the TSR calculation.

The TSR shall be expressed as the following formula in the event of a reverse merger:

TSR=[Implied BKV Shareholders Equity Value* per Share** on a fully diluted common stock price) ÷ (common stock par value less cumulative dividends paid per share)] ^(1/Years O/S) less 100%

---

*"Implied BKV Shareholders Equity Value" means the average market value that the existing (pre-merger) shareholders of the Company own, based on the average 30 day closing price of the combined company's stock, as measured 30 trading days immediately preceding the effective transaction date of the reverse merger.

** "Share" means the number of Fully Diluted Shares outstanding for BKV shareholders, prior to the reverse merger transaction effective date.

For purposes of determining TSR, "Fully Diluted Shares" means the total number of shares of Common Stock that are outstanding and available to trade on the open market after all sources of conversion are exercised or occur, including, without limitation, any stock options, convertible bonds, vested TRSUs and vested PRSUs.

Average Return on Capital Employed (ROCE).

The Return on Capital Employed or "ROCE" is defined as the Earnings Before Interest and Tax ("EBIT") as calculated on US GAAP basis, divided by Total Assets less Current Liabilities (including the current portion of debt). ROCE is expressed as the following formula:

ROCE = Average (EBIT / Capital Employed) over the performance period, where:

- EBIT = Earnings Before Interests & Tax (U.S. GAAP)
- Capital Employed = Total Assets – Current Liabilities including Assumed Current Portion of Debt (U.S. GAAP)

IPO Readiness.

IPO Readiness means the overall assessment of the Company's readiness to successfully complete an IPO, as determined by a reputable third-party consultant evaluating all aspects of the Company's capability to be publicly listed and ("Yes" or "No") and the date at which the Company is ready (based on when the assessment was conducted).

BKV CORPORATION
TIME RESTRICTED STOCK UNIT AWARD NOTICE
2021 EQUITY INCENTIVE PLAN

BKV Corporation, a Delaware corporation (the "**Company**"), pursuant to its 2021 Equity Incentive Plan (the " **Plan**"), hereby grants to the Participant a Time Restricted Stock Unit award of the number of Time Restricted Stock Units (as defined in the Plan), set forth below (the "**Time Restricted Stock Units**" or "**TRSUs**"). The Time Restricted Stock Units are subject to all of the terms and conditions as set forth in this Time Restricted Stock Unit Award Notice (the "**Award Notice**") and in the Time Restricted Stock Unit Award Agreement and the Plan, both of which are attached hereto and incorporated herein in their entirety.

Participant:	[ ]
Date of Grant:	[ ]
Number of Time Restricted Stock Units:	[ ]
Vesting Schedule:	[ ] TRSUs vest on the Date of Grant; thereafter [ ] TRSUs vest on the second and third anniversary of the Date of Grant and all remaining TRSUs vest on the fourth anniversary of the Date of Grant; provided that the Participant's Service has continued from the Date of Grant through each such date.

The undersigned Participant acknowledges that he or she has received a copy of this Time Restricted Stock Award Notice, the Time Restricted Stock Award Agreement and the Plan. As an express condition to the grant of the Award hereunder, the Participant agrees to be bound by the terms of this Time Restricted Stock Award Notice, the Time Restricted Stock Award Agreement and the Plan. The undersigned Participant further acknowledges that as of the Date of Grant, this Time Restricted Stock Award Notice, the Time Restricted Stock Award Agreement and the Plan set forth the entire understanding between the Participant and the Company regarding the award of stock in the Company and supersede all prior oral and written agreements on that subject with the exception of (i) awards previously granted and delivered to the Participant by the Company, and (ii) any agreements noted in an attachment to this Time Restricted Stock Award Notice.

TIME RESTRICTED STOCK UNIT AWARD AGREEMENT
UNDER THE
BKV CORPORATION 2021 EQUITY INCENTIVE PLAN

Pursuant to the Time Restricted Stock Unite Award Notice (the " **Award Notice**"), and subject to the terms of this Time Restricted Stock Unit Award Agreement (this "Agreement") and the BKV Corporation 2021 Equity Incentive Plan (the "**Plan**"), BKV Corporation, a Delaware corporation (the "**Company**"), and the Participant agree as follows. Capitalized terms not otherwise defined in this Agreement or in the Award Notice will have the same meanings as set forth in the Plan.

1. Award of Time Restricted Stock Units. Subject to the terms and conditions set forth herein and in the Plan, the Company hereby grants to the Participant Time Restricted Stock Units, as set forth in the Award Notice, subject to adjustment as provide in the Plan, and each of which, if vested and earned pursuant to this Agreement, will be settled in one (1) share of the Company's common stock, $0.01 par value per share, ("**Common Stock**"), at the time and subject to the terms, conditions and restrictions set forth in this Agreement and the Plan (the "**Award Shares**").

2. Vesting.

(a) Vesting Schedule; Accelerated Vesting. Except as otherwise provided in this Section 2 or the Plan, the Time Restricted Stock Units will vest in the amounts and on the date(s) as indicated in the Vesting Schedule set forth in the Award Notice (each a "**TRSU Vesting Date**"), provided the Participant remains in the Service of the Company or Subsidiary through the applicable TRSU Vesting Date. In addition, all non-vested Time Restricted Stock Units that have not been forfeited shall vest upon an initial public offering of the Company's shares of Common Stock or a Change in Control of the Company, provided the Participant remains in the Service of the Company or a Subsidiary through such date. Subject to the limitations contained herein and in the Plan, upon Participant's termination of Service from the Company and all Subsidiaries the Time Restricted Stock Units that have not vested as of the date of such termination shall be forfeited and terminate; provided, however, that upon a Participant's termination of Service, the Committee may, in its sole discretion cause any Time Restricted Stock Units then held by such Participant to terminate, vest or become free of restrictions and conditions to payment, in each case in the manner determined by the Committee; provided, further, that any such action adversely affecting any outstanding Incentive Award may not be effective without the consent of the affected Participant (subject to the right of the Committee to take whatever action it deems appropriate under Sections 3.2(c), 7.3 and 9 of the Plan).

(b) Forfeiture Events. If the Participant is determined by the Committee, acting in its sole discretion, to have taken any action that would constitute Cause or an Adverse Action, irrespective of whether such action or the Committee's determination occurs before or after termination of the Participant's Service and irrespective of whether or not the Participant was terminated for Cause: (i) all rights of the Participant under this Agreement and the Plan will terminate and be forfeited without notice of any kind; and (ii) the Committee, in its sole discretion, may require the Participant to surrender and return to the Company all or any shares of Common Stock received, or to disgorge all or any profits or any other economic value (however defined by the Committee) made or realized by the Participant, during the period beginning one year prior to the Participant's termination of Service in connection with the Award Shares.

(c) Adjustment by Board. Notwithstanding anything herein to the contrary, the Board has reserved the right to reduce the amount of the settlement of a vested TRSU by up to 20% of the vested amount.

3. Settlement; Issuance of Common Stock.

(a) Timing and Manner of Settlement. Immediately following the vesting of Time Restricted Stock Units under Section 2, such vested Time Restricted Stock Units will be converted to shares of Common Stock which the Company will issue and deliver to the Participant (either by delivering one or more certificates for such shares or by entering such shares in book entry form in the name of the Participant or depositing such shares for the Participant's benefit with any broker with which the Participant has an account relationship or the Company has engaged to provide such services under the Plan) within sixty (60) days following the TRSU Vesting Date, except to the extent that shares of Common Stock are withheld to pay tax withholding obligations pursuant to Section 2(b) of this Agreement.

(b) Withholding Taxes. Whenever any Time Restricted Stock Units granted under the terms of this Agreement vest and shares of Common Stock are issued in settlement thereof, the Participant is responsible to provide to the Company when due, the amount necessary for the Company to satisfy all of its federal, state and local withholding (including FICA) tax requirements relating to such taxable event. The Committee may, in its sole discretion and upon terms and conditions established by the Committee, permit or require the Participant to satisfy these withholding tax obligations in connection with the settlement of the Time Restricted Stock Units by withholding shares of Common Stock issuable upon settlement of the Time Restricted Stock Units. When withholding shares of Common Stock for taxes is effected under this Agreement and the Plan, it will be withheld only up to the amount the Company reasonably determines is necessary to satisfy any tax withholding obligation in the Participant's applicable tax jurisdiction.

4. Rights of Participant; Transferability.

(a) No Right to Continued Employment. Nothing in the Plan or in this Agreement confers upon the Participant any right to continue in the Service of the Company or any Subsidiary or interferes with or limits in any way the right of the Company or any Subsidiary to terminate the Service of the Participant at any time, with or without notice and with or without cause.

(b) Rights as a Stockholder. Except as otherwise provided in the Plan, notwithstanding any restrictions to which Time Restricted Stock Units may be subject, a Participant will have all voting, dividend, liquidation and other rights with respect to shares of Common Stock issued in settlement of earned Time Restricted Stock Units only upon the Participant becoming the holder of record of such shares as if such Participant were a holder of record of such shares.

(c) Dividends. The Participant will not receive any cash dividends or Dividend Equivalents based on the dividends declared on the Common Stock underlying the Time Restricted Stock Units during the period between the Grant Date and the date the earned Time Restricted Stock Units are settled in shares of Common Stock.

(d) Non-Transferability. Except as otherwise expressly permitted by the Plan, unless approved by the Committee in its sole discretion, no right or interest of the Participant in the Award Shares prior to the vesting of an Award and issuance of the Award Shares, will be assignable or transferable, or subjected to any lien, during the lifetime of the Participant, either voluntarily or involuntarily, directly or indirectly, by operation of law or otherwise.

5. Purchase and Sale Rights Relating to Common Stock.

(a) Restriction on Transfer of Common Stock. Prior to an initial public offering of shares of Common Stock, a Participant (or the executor, administrator or other personal representative or other successor of a deceased Participant) may not sell, assign, transfer or otherwise dispose of Award Shares acquired pursuant to an Incentive Award to a third party without prior approval of such sale, assignment, transfer or disposition by the Committee or the Board. A Participant may transfer, for no value, vested Award Shares to a trust established by the Participant for estate planning purposes and controlled by the Participant.

(b) Repurchase Right. If a Participant is not a Founding Stockholder and the Participant either (A) commits any material breach of such Participant's employment agreement or service contract with the Company and either (1) that breach is not capable of being remedied or (2) if capable of remedy, the Participant does not remedy that breach as soon as possible and in any event within thirty (30) days of receiving a notice from the Company requiring the Participant to remedy that breach, or (B) the Participant's employment with the Company is terminated for any reason, including due to death or disability, the Company shall have the right, as determined by the Board, to repurchase all (and not less than all) of the vested shares of Common Stock acquired by the Participant under this Plan, in accordance with the terms of this Section 5(b):

(i) The selling price of the vested shares of Common Stock purchased by the Company pursuant to this Section 5(b) shall be equal to the Fair Market Value of such shares at the time of the repurchase.

(ii) The Company may exercise its election to acquire the Participant's vested shares of Common Stock by delivery of ninety (90) days' written notice to the Participant (or the Participant's beneficiary in the event of the Participant's death).

(iii) The closing of the purchase of the vested shares of Common Stock pursuant to this Section 5(b) shall take place at the principal office of the Company not later than thirty (30) days following receipt of such notice by the Participant (or the Participant's beneficiary in the event of the Participant's death).

(iv) The Participant (or the Participant's beneficiary in the event of the Participant's death) shall make such customary representations and warranties as may be reasonably requested by the Company regarding such seller's good title to, and the absence of liens on, such vested shares of Common Stock.

(v) The Company will pay the purchase price for the vested shares of Common Stock purchased by the Company under this Section 5(b) in cash, payable by wire transfer of immediately available funds to the bank account provided to the Company by the Participant (or the Participant's beneficiary in the event of the Participant's death)

(c) Put Right. In the event (A) the Participant's employment with the Company is terminated for any reason, including due to death or disability (but excluding by voluntary resignation by the Participant) or (B) the Participant's employment with the Company is terminated by virtue of the Participant's voluntary resignation after more than thirty-six (36) months have passed from the date of the first grant of an Incentive Award under the Plan to the Participant, and, in each case, the Company has not exercised its right under Section 5(b) to repurchase the Participant's shares of Common Stock the Participant (or the Participant's beneficiary in the event of death) shall have the right to elect to sell to the Company, and the Company shall be required to purchase from the Participant, all (and not less than all) of the vested Award Shares acquired by the Participant under the Plan, in accordance with the terms of this Section 5(c):

(i) The selling price of the vested Award Shares purchased by the Company pursuant to this Section 5(c) shall be equal to the Fair Market Value of such shares at the time of the election to sell.

(ii) The Participant (or the Participant's beneficiary in the event of the Participant's death) may exercise an election to sell vested Award Shares by delivery of thirty (30) days' written notice specifying the number of vested Award shares to be sold.

(iii) The closing of the purchase of vested Award Shares of Common Stock pursuant to this Section 5(c) shall take place to the principal office of the Company not later than thirty (30) days following receipt of such notice by the Company.

(iv) The Participant (or the Participant's beneficiary in the event of the Participant's death) shall make such customary representations and warranties as may be reasonably requested by the Company regarding such seller's good title to, and the absence of liens on, such vested Award Shares.

(v) The Company will pay the purchase price for the vested Award Shares purchased by the Company under this Section 5(c) in cash, payable by wire transfer of immediately available funds to the bank account provided to the Company by the Participant (or the Participant's beneficiary in the event of the Participant's death).

(d) Drag-Along Rights. If at any time BNAC (alone or together with any of the other Company stockholders) proposes to effect the sale of shares of Common Stock representing more than eighty percent (80%) of the total issued and outstanding shares of Common Stock, BNAC may require the participation of all (and not less than all) of the shares of Common Stock owned by the Participant in such sale in the manner set forth in this Section 5(d).

(i) BNAC shall exercise its rights pursuant to this Section 5(d) by delivering to the Company and each of the other Company stockholders a written notice (the "**Drag-along Notice**") of such proposed sale no later than fifteen (15) days prior to the proposed closing thereof. Any Drag-along Notice shall make reference to the Participants' obligations under this Section 5(d) and shall describe in reasonable detail:

(A) the number of shares of Common Stock to be sold by BNAC;

(B) the person to whom such shares of Common Stock are proposed to be sold;

(C) the material terms and conditions of the sale, including the consideration to be paid; and

(D) the proposed date, time and location of the closing of the sale.

(ii) In any sale is subject to this Section 5(d), each of the Participants shall agree to sell all (and not less than all) of the shares of Common Stock owned by the Participant, free and clear of any liens and on the same terms and conditions as BNAC in such sale.

(iii) If BNAC (alone or together with any of the other Company stockholders) proposes to effect the sale of shares of Common Stock representing more than eighty percent (80%) of the total issued and outstanding shares of the Company's Common Stock pursuant to this Section 5(d), the Participants shall agree to consent to and not object to or exercise any appraisal or dissenters' rights in connection with such

transaction. Without limiting the foregoing, each of the Participants will agree, if requested by BNAC, to execute and deliver a power of attorney and custody agreement, in form and substance satisfactory to BNAC, with respect to the shares of Common Stock that are to be included by them in any sale pursuant to this Section 5(d). The power of attorney and custody agreement will provide, among other things, that each such Participant will:

(A) deliver to and deposit into custody with BNAC, named as the custodian therein, a certificate or certificates representing such shares of Common Stock (duly endorsed in blank by the owner or owners thereof or accompanied by duly endorsed stock powers in blank); and

(B) irrevocably appoint BNAC as such stockholder's agent and attorney-in-fact with full power to act thereunder on behalf of such stockholder with respect to the matters specified therein.

(iv) Each Participant shall fully cooperate with BNAC and shall take all necessary actions to effectuate the sale of shares of Common Stock pursuant to this Section 5(d), including entering into such agreements and delivering such certificates and instruments, as may be reasonably requested from time to time by BNAC, provided that no Participant shall be:

(A) liable for any indemnification obligations to any potential purchaser in respect of such representations and warranties on a joint, rather than several, basis, and in no event with respect to an amount in excess of the net cash proceeds to be paid to such stockholder in such transaction; and

(B) subject to any escrow or similar arrangement relating to such transaction with respect to an amount in excess of the net cash proceeds to be paid to such other stockholders in such transaction.

(v) Each of the Participants participating in the sale of shares of Common Stock by BNAC under this Section 5(d) shall be paid a consideration (on a per share of Common Stock basis) on the same terms and conditions as BNAC in such sale.

(e) Holding Period.

(i) The Participant (or beneficiary following the Participant's death) who receives shares of the Company's Common Stock in settlement of a vested TRSU may not exercise the right to put such shares of Common Stock to the Company for repurchase under Section 5(c) of this Agreement or tender such shares of Common Stock to the Company for purchase under Section 5(f) of this Agreement prior to the date that is 181 days following the applicable TRSU Vesting Date.

(ii) The Company's right to repurchase shares of the Company's Common Stock under Section 5(b) of this Agreement may not be exercised by the Company prior to the date that is 181 days following the applicable TRSU Vesting Date.

(f) Sell Fund Repurchase Program. The Participant (or beneficiary following the Participant's death) who receives shares of the Company's Common Stock in settlement of a vested TRSU, shall have the right, subject to the holding requirement of Section 5(e) of this Agreement, to tender such shares for repurchase by the Company in accordance with and subject to the limits and other requirements established under the Company's Sell Fund Repurchase Program, as in effect from time to time.

6. Change in Control.

(a) Acceleration; Alternative Treatment. If a Change in Control of the Company occurs, then, except to the extent that an equivalent or substituted Award is provided to the Participant to replace the Award pursuant to Section 9.2(b) of the Plan, or unless otherwise provided by the Committee in its sole discretion at any time on or after the Date of Grant, the Award Shares will vest immediately and become non-forfeitable, regardless of whether the Participant remains in the employ or service of the Company or any Subsidiary or any acquiring entity or successor to the Company. In connection with a Change in Control, the Committee in its sole discretion, in lieu of providing an equivalent or substituted Award to the Participant, may determine that all or any portion of the Award and corresponding Award Shares, whether or not vested, will be terminated and forfeited and that in connection with such termination the Participant will receive for each Award Share a cash payment (or the delivery of shares of stock, other securities or a combination of cash, stock and securities with a fair market value (as determined by the Committee in good faith) equivalent to such cash payment) equal to the difference, if any, between the consideration received by stockholders of the Company in respect of a share of Common Stock in connection with such Change in Control and the purchase price per share, if any, under the Award, multiplied by the number of Award Shares subject to the grant; provided, however, that if such product is zero ($0) or less, the Award may be canceled and terminated without payment therefor.

(b) Stockholders' Representative. In connection with any Change in Control, the Participant agrees that (i) any Stockholders' Representative appointed by the Company's stockholders in connection with such Change in Control shall, without any further authorization or other action by the Participant, be appointed as such Participant's representative and attorney-in-fact in connection with such Change in Control on the same terms and to the same extent as such Stockholders' Representative is appointed by the Company's stockholders in connection with such Change in Control and (ii) the Participant will execute promptly on request of the Company any documents the Company deems necessary or desirable to provide further assurance of the foregoing appointment.

7. Securities Laws Restrictions.

(a) General Restrictions. Notwithstanding any other provision of the Plan or this Agreement, the Company will not be required to issue any shares of Common Stock pursuant to the Award, and the Participant may not sell, assign, transfer or otherwise dispose of shares of Common Stock issued pursuant to the Award: (i) unless there is in effect with respect to such shares a registration statement under the Securities Act and any applicable securities laws of a state or foreign jurisdiction or an exemption from such registration under the Securities Act and applicable state or foreign securities laws; (ii) unless there has been obtained any other consent, approval or permit from any other U.S. or foreign regulatory body which the Committee, in its sole discretion, deems necessary or advisable; and (iii) if at any time at which the Company is not required to file reports with the SEC pursuant to Sections 12(b), 12(g) or 15(d) of the Exchange Act or the rules and regulations thereunder, such issuance, sale or transfer would cause the number of stockholders of the Company to increase such that the Company would be within ten (10) stockholders of the number that would cause the Company to be required to file reports with the SEC pursuant to Sections 12(g) or 15(d) of the Exchange Act and the rules and regulations thereunder. The Company may condition such issuance, sale or transfer upon the receipt of any representations or agreements from the parties involved, and the placement of any legends on certificates representing shares of Common Stock, as may be deemed necessary or advisable by the Company in order to comply with such securities law or other restrictions.

(b) Market Stand-Off Restrictions. The Participant agrees that, for a 180-day period following the effective date of a registration of the Company's securities under the Securities Act, and subject to the terms and conditions of Section 11.2 of the Plan, the Participant will not, without the prior written consent of the Company or the representative(s) of any underwriters, (i) sell, pledge, offer to sell, contract to sell (including any short sale), sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable for Common Stock (whether such shares or any such securities are then owned by the Participant or are thereafter acquired); or (ii) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Common Stock, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of Common Stock or such other securities, in cash or otherwise.

8. Miscellaneous.

(a) Award Shares Subject to the Plan. This Time Restricted Stock Award Agreement and the shares of Common Stock granted and issued pursuant to this Agreement have been granted and issued under, and are subject to the terms of, the Plan. The terms of the Plan are incorporated by reference in this Agreement in their entirety, and the Participant, by execution of the Time Restricted Stock Award Notice, acknowledges having received a copy of the Plan. The provisions of this Agreement will be interpreted as to be consistent with the Plan, and any ambiguities in this Agreement will be interpreted by reference to the Plan. If any provision of this Agreement is inconsistent with the terms of the Plan, the terms of the Plan will prevail.

(b) Section 409A. It is intended that payments under this Agreement qualify as short-term deferrals exempt from the requirements of Section 409A of the Code. This Agreement shall be construed and administer to give full effect to such intention

(c) Binding Effect. This Agreement will be binding upon and inure to the benefit of the successors and permitted assigns of the parties to this Agreement.

(d) Governing Law and Venue. This Agreement and all rights and obligations under this Agreement will be construed in accordance with the Plan and governed by the laws of the State of New York, without regard to conflicts of law provisions of any jurisdiction. Any legal proceeding related to this Agreement will be brought in an appropriate New York court, and the parties to this Agreement consent to the exclusive jurisdiction of the court for this purpose.

(e) Entire Agreement. This Agreement, the Time Restricted Stock Award Notice and the Plan set forth the entire agreement and understanding of the parties to this Agreement with respect to the award of Award Shares and the administration of the Plan and supersede all prior agreements, arrangements, plans and understandings relating to the award of the Award Shares and the administration of the Plan.

(f) Amendment and Waiver. Other than as provided in the Plan, this Agreement may be amended, waived, modified or canceled only by a written instrument executed by the parties to this Agreement or, in the case of a waiver, by the party waiving compliance.

(g) Construction. Wherever possible, each provision of this Agreement will be interpreted so that it is valid under the applicable law. If any provision of this Agreement is to any extent invalid under the applicable law, such provision will still be effective to the extent it remains valid. The remainder of this Agreement also will continue to be valid, and the entire Agreement will continue to be valid in other jurisdictions.

(h) Electronic Delivery of Documents. The Company may, in its sole discretion, deliver any documents related to this Agreement by electronic means. The Participant hereby consents to receive all applicable documentation by electronic delivery and to participate in the Plan through an on-line system established and maintained by the Company or a third-party vendor designated by the Company.

Exhibit 10.11

BKV CORPORATION
2020 EMPLOYEE STOCK PURCHASE PLAN
(ADOPTED BY THE BOARD OF DIRECTORS ON JULY 16, 2020)

1. General.

1.1 Purpose of Plan. This BKV Corporation 2020 Employee Stock Purchase Plan (the " Plan") is intended to provide Eligible Employees of the Company with the opportunity to acquire an ownership interest in the Company through the purchase of shares of Common Stock from the Company.

1.2 Effective Date. The Plan is effective as of July 1, 2020 (the " Effective Date") and shall be valid until the date of admission to a United States securities exchange of all or any part of the Common Stock capital or depository receipts (or the equivalent) representing common stock of the Company.

1.3 Status of Plan. The Plan is not intended to be a qualified employee stock purchase plan under Section 423 of the Internal Revenue Code of 1986, as amended (the "Code") and is not intended to be subject to the provisions of the Employee Retirement Income Security Act of 1974 (" ERISA"). The Plan is intended to be exempt from the requirements of Section 409A of the Code and the Plan and any Stock Purchase Agreement granted under the Plan will be construed and administered to give full effect to such intention.

2. Definitions. Whenever used herein, the following words and phrases shall have the meanings stated below unless a different meaning is plainly required by the context. Terms defined elsewhere in the Plan will have the same meanings throughout the Plan.

2.1 BNAC. "BNAC" means BANPU North America Corporation, a Delaware corporation.

2.2 Board. "Board" means the Board of Directors of the Company.

2.3 Committee. As used in the Plan, "Committee" means the committee administering the Plan, as provided in Section 7.1 of the Plan.

2.4 Common Stock. "Common Stock" means the common stock of the Company, at a par value per share $0.01.

2.5 Company. "Company" means BKV Corporation, a Delaware corporation.

2.6 Eligible Employee. An "Eligible Employee" means any Employee of the Company who (i) has been employed by the Company for at least twelve (12) consecutive months and (ii) is customarily scheduled to work at least forty (40) hours per week.

2.7 Employee. "Employee" means any individual treated as an employee in the records of the Company (including an officer or a Director of the Company who is also treated as an employee in such records). The Committee will determine in good faith and in the exercise of its sole discretion whether an individual has become or has ceased to be an Employee and the effective date of such individual's employment or termination of employment, as the case may be. For purposes of an individual's rights, if any, under the terms of the Plan as of the time of the Committee's determination of whether or not the individual is an Employee, all such determinations by the Committee will be final, binding and conclusive as to such rights, if any, notwithstanding that the Company or any court of law or governmental agency subsequently makes a contrary determination as to such individual's status as an Employee.

2.8 Exchange Act. "Exchange Act" means the Securities Exchange Act of 1934, as amended. Any reference to a section of the Exchange Act in the Plan will be deemed to include a reference to any applicable rules and regulations issued thereunder.

2.9 Fair Market Value. "Fair Market Value" means, with respect to the Common Stock, as of any date: (a) the closing sale price of the Common Stock as of such date at the end of the regular trading session, as reported on any national securities exchange on which the Common Stock is then listed (or, if no shares were traded on such date, as of the next preceding date on which there was such a trade); or (b) if the Common Stock is not so listed as described in (a) above, such price as the Committee determines in good faith to be the fair market value, on a per share of Common Stock basis, at which a willing seller would sell, and a willing buyer would buy, the Common Stock having full knowledge of all relevant facts, in an arm's length transaction, without taking into account the minority ownership interest of any shares of Common Stock and the rights associated with any minority ownership interest. The Fair Market Value of the shares of Common Stock as described in (b) above shall be determined each Financial Year by the Committee using the independent and impartial valuation of the Company's Common Stock performed at least annually by Guggenheim Securities, LLC (or by another independent and impartial valuation firm selected by the Committee and subject to the approval of the Board). Such Fair Market Value shall apply during the Financial Year in which it is obtained or until a new valuation is performed for the Committee's determination of the Fair Market Value. For the avoidance of doubt, during the period as from the adopted date hereof that the Company does not have a Fair Market Value determination as described in subpart (b) above, the Fair Market Value shall be $10.00 per share of Common Stock and will apply until the valuation is performed for the Committee's first determination of the Fair Market Value.

2.10 Financial Year. "Financial Year" means a financial year of the Company.

2.11 Insolvency Event. "Insolvency Event" means, in relation to a Participant, (i) the Participant entering into or resolving to enter into any assignment for the benefit of creditor, including any arrangement, composition or compromise with such creditor, or any class of them in any relevant jurisdiction, (ii) the Participant being unable to pay its debts when they are due, having its liabilities greater than its assets, or being deemed under any statutory provision of any relevant jurisdiction to be insolvent, or (iii) a liquidator or provisional liquidator being appointed for the Participant or a receiver, receiver and manager, trustee or similar official being appointed over any of the assets or undertakings of the Participant, or an event analogous with any such event occurring in any relevant jurisdiction.

2.12 Founding Stockholder. “Founding Stockholder” means a Participant who is a party to the Stockholders’ Agreement.

2.13 Participant. “Participant” means each Eligible Employee who participates in this Plan by execution of a Stock Purchase Agreement issued to such Employee under the Plan.

2.14 Plan. “Plan” means the BKV Corporation 2020 Employee Stock Purchase Plan, as set forth herein and may hereafter be amended.

2.15 Securities Act. “Securities Act” means the Securities Act of 1933, as amended. Any reference to a section of the Securities Act in the Plan will be deemed to include a reference to any applicable rules and regulations thereunder.

2.16 Stockholders’ Agreement. “Stockholders’ Agreement” means that certain Stockholders’ Agreement dated May 1, 2020 by and among BNAC, the Company and the Founding Stockholders as listed therein as parties thereto.

2.17 Stock Purchase Account. “Stock Purchase Account” means a non-interest bearing account consisting of all amounts deposited by a Participant Compensation for the purpose of purchasing shares of Common Stock for such Participant under the Plan reduced by all amounts applied to the purchase of shares of Common Stock for such Participant under the Plan. The amounts received from a Participant shall be deposited with the general funds of the Company. No interest shall be paid or payable with respect to any amount held in any Participant's Stock Purchase Account.

2.18 Stock Purchase Agreement. “Stock Purchase Agreement” means a written or electronic agreement between the Company and a Participant setting forth the terms, conditions and restrictions of the offer to purchase shares of Common Stock granted to the Participant under the Plan.

3. Participation.

Participants in the Plan will be those Eligible Employees who, in the judgment of the CEO of the Company, have contributed, are contributing or are expected to contribute to the achievement of economic objectives of the Company and are not in material breach of their respective employment agreements or service contracts with the Company or the work rules or internal policies of the Company established by the Board from time to time. Eligible Employees may be granted from time to time the right to purchase shares of Common Stock under the Plan, as may be determined by the CEO of the Company in his sole discretion.

4. Stock Purchase.

4.1 Reservation of Shares. There shall be 7,470,588 shares of Common Stock reserved for the Plan. Subject to adjustment in accordance with the anti-dilution provisions of Section 5, the aggregate number of shares that may be purchased under the Plan shall not exceed the number of shares reserved for the Plan. The shares will be treasury or newly issued shares of Common Stock.

4.2 Grant of Purchase Right. An Eligible Employee who the CEO of the Company determines has satisfied the requirements set forth in Section 3 may be granted the right to purchase shares of Common Stock under the Plan, pursuant to the terms of a Stock Purchase Agreement issued by the Company to such Eligible Employee. The Committee shall require the payment by the Participant of a specified purchase price in connection with a grant of the right to purchase shares of Common Stock.

4.3 Purchase Price of Shares. The purchase price at which shares of Common Stock shall be sold to a Participant under the Plan shall not be less than the greater of (i) ten dollars ($10.00) per share of Common Stock or (ii) the Fair Market Value of the shares of Common Stock as determined under Section 2.9.

4.4 Exercise of Purchase Right; Payment for Shares of Common Stock. Subject to any limitations imposed by the Committee or the Plan on the number of shares of Common Stock available for purchase by a Participant, the Company will issue to the Participant, pursuant to the terms of a Stock Purchase Agreement, the number of shares of Common Stock as can be purchased with the amount then standing to the Participant’s credit in the Stock Purchase Account. The purchase price for all shares of Common Stock purchased by a Participant pursuant to a Stock Purchase Agreement shall be paid out of the Participant’s Stock Purchase Account. Any remaining balance standing to the Participant’s credit in the Stock Purchase Account following the closing of a purchase, shall be refunded by the Company to the Participant within thirty (30) days of such closing date. No interest shall be paid on payable with respect to any amount held in the Participant’s Stock Purchase Account.

4.5 Establishment of Stock Purchase Account. Each Participant shall deposit funds with the Company for the purpose of funding such Participant’s Stock Purchase Account.

4.6 Stock Ownership. A Participant will have all voting, dividend, liquidation and other rights with respect to shares of Common Stock upon the Participant becoming the holder of record of such shares of Common Stock on the close of business on the purchase date for such shares.

4.7 Issuance of Certificates to a Participant. As soon as reasonably practicable after each purchase date, the Company will arrange for the delivery to each Participant certificates representing the shares of Common Stock purchased, which certificates may be issued electronically via Carta.

5. Special Adjustment - Anti-Dilution Provision.

The aggregate number of shares of Common Stock reserved for purchase under the Plan, as hereinabove provided in Section 4.1, and the calculation of the Fair Market Value per share of Common Stock may be appropriately adjusted to reflect any increase or decrease in the number of issued shares of

Common Stock resulting from a subdivision or consolidation of shares or other capital adjustment, or the payment of a stock dividend, or other increase or decrease in such shares, if effected without receipt of consideration by the Company. Any such adjustment shall be made by the Committee acting with the prior consent of, and subject to the approval of, the Board of Directors.

6. Stock Purchase and Sale Rights .

6.1 Put Right. In the event a Participant's employment with the Company is terminated for any reason, including, without limitation, due to resignation, death or a disability that renders such Participant incapable of continued employment in his or her current position and the carrying out of the normal duties for that position, as certified by a medical professional, and the Company has not exercised its right under Section 6.2 to repurchase the shares of Common Stock, the Participant (or the Participant's beneficiary in the event of death) shall have the right to elect to sell to the Company, and the Company shall be required to purchase from the Participant, all (and not less than all) of the shares of Common Stock acquired by the Participant under the Plan, in accordance with the terms of this Section 6.1:

(a) The selling price of the shares of Common Stock to be purchased by the Company pursuant to this Section 6.1 shall be equal to the Fair Market Value of such shares at the time the election to sell is made.

(b) The Participant (or the Participant's beneficiary in the event of the Participant's death) may exercise an election to sell shares of Common Stock by delivery of prior written notice to the Company no later than thirty (30) days following such termination of employment.

(c) The closing of the purchase of shares of Common Stock pursuant to this Section 6.1 shall take place to the principal office of the Company not later than thirty (30) days following receipt of such notice by the Company.

(d) The Participant (or the Participant's beneficiary in the event of the Participant's death) shall make such customary representations and warranties as may be reasonably requested by the Company regarding such seller's due capacity and authority, good legal and beneficial title to, and the absence of liens on, such shares.

(e) The Company will pay the purchase price for the shares of Common Stock purchased by the Company under this Section 6.1 in cash, payable by wire transfer of immediately available funds to the bank account of the Participant (or the Participant's beneficiary in the event of the Participant's death) provided to the Company by the Participant (or the Participant's beneficiary in the event of the Participant's death) prior to the closing date.

6.2 Repurchase Right. If a Participant either (i) commits any material breach under such Participant's employment agreement or service contract with the Company (or, in case of a Founding Stockholder, commits any material breach under the Stockholders' Agreement) and either (1) that breach is not capable of being remedied or (2) if capable of remedy, the Participant does not remedy that breach as soon as possible and in any event within thirty (30) days of receiving a notice from the Company requiring the Participant to remedy that breach; or (ii) becomes or is reasonably expected to become, subject to an Insolvency Event; or (iii) the Participant's employment with the Company is terminated for any reason, including, without limitation, due to resignation, death or a disability that renders such Participant incapable of continued employment in his or her current position and carrying out the normal duties for that position, as certified by a medical professional, the Company shall have the right, as determined by the Board, to repurchase, and the Participant (or the Participant's beneficiary in the event of the Participant's death) shall be required to sell to the Company all (and not less than all) of the shares of Common Stock acquired by the Participant under this Plan, in accordance with the terms of this Section 6.2:

(a) The selling price of the shares of Common Stock to be purchased by the Company pursuant to this Section 6.2 shall be equal to the Fair Market Value of such shares at the time of the repurchase.

(b) The Company may exercise its election to acquire the Participant's shares of Common Stock by delivery of prior written notice to the Participant (or the Participant's beneficiary in the event of the Participant's death) no later than ninety (90) days following the occurrence of an event described above in the first paragraph of this Section 6.2.

(c) The closing of the purchase of the shares of Common Stock pursuant to this Section 6.2 shall take place at the principal office of the Company not later than thirty (30) days following receipt of such notice by the Participant (or the Participant's beneficiary in the event of the Participant's death).

(d) The Participant (or the Participant's beneficiary in the event of the Participant's death) shall make such customary representations and warranties as may be reasonably requested by the Company regarding such seller's due capacity and authority, good legal and beneficial title to, and the absence of liens on, such shares of Common Stock.

(e) The Company will pay the purchase price for the shares of Common Stock purchased by the Company under this Section 6.2 in cash, payable by wire transfer of immediately available funds to the bank account of the Participant (or the Participant's beneficiary in the event of the Participant's death) provided to the Company by the Participant (or the Participant's beneficiary in the event of the Participant's death) prior to the closing date.

6.3 Right of First Refusal. In addition to the restrictions on transfer set forth in Sections 8.1 and 8.6, if any Participant (or the Participant's successor in the event of the Participant's death) who has received shares of Common Stock under the Plan (the "**Selling Participant**") shall, at any time, desire to sell some or all of such shares (the "**Offered Shares**") to a third party (the "**Third Party**") on price, terms and conditions agreed with such Third Party and receives prior written approval from the Board for such a sale, the Selling Participant shall give written notice of such desire to the Company, which notice shall contain the number of Offered Shares, the agreed price, terms and conditions of the sale and the names and addresses of both the Selling Participant and such Third Party. The Company shall have the right of first refusal for a period of thirty (30) days following the date the Selling Participant gives such written notice to the Company to acquire the Offered Shares, in accordance with the terms of this Section 6.3:

(a) The selling price, terms and conditions shall be the same as agreed with such Third Party.

(b) If the Company does not exercise its right of first refusal within the required thirty (30) day period provided above, the Selling Participant shall have the right, at any time following the expiration of such thirty (30) day period, to dispose of the Offered Shares to such Third Party; *provided, however*, that (i) no disposition shall be made to such Third Party on price, terms and conditions more favorable to the Third Party than those set forth in the written notice delivered by the Selling Participant above, and (ii) if such disposition shall not be made within thirty (30) days following the expiration of such thirty (30) day period to such Third Party on the terms offered to the Company, the Offered Shares shall again be subject to the right of first refusal set forth above.

(c) The closing pursuant to the exercise of the right of first refusal under this Section 6.3 shall take place shall take place to the principal office of the Company not later than thirty (30) days following receipt of such notice by the Selling Participant of the Company's exercise of the right of first refusal. At such closing, the Selling Participant shall deliver certificates representing the Offered Shares duly endorsed in blank for transfer, or with stock powers attached duly executed in blank, and the Company shall deliver to the Selling Participant the purchase price for the Offered Shares purchased by the Company under this Section 6.3 in cash, payable by wire transfer of immediately available funds to the bank account of the Selling Participant provided to the Company by the Selling Participant prior to the closing date.

(d) The Selling Participant shall make such customary representations and warranties as may be reasonably requested by the Company regarding such seller's due capacity and authority, good legal and beneficial title to, and the absence of liens on, such Offered Shares.

6.4 Drag-Along Rights. If at any time BNAC (alone or together with any of the other Company stockholders) proposes to effect the sale of shares of Common Stock representing more than eighty percent (80%) of the total issued and outstanding shares of Common Stock, BNAC (and BNAC alone) may require the participation of all (and not less than all) of the shares of Common Stock owned by the Participant (other than a Participant who is a Founding Stockholder subject to the drag-along rights under the Stockholders' Agreement) in such sale in the manner set forth in this Section 6.4.

(a) BNAC shall exercise its rights pursuant to this Section 6.4 by delivering to the Company and each of the other Company stockholders a written notice (the "Drag-along Notice") of such proposed sale no later than fifteen (15) days prior to the proposed closing thereof. Any Drag-along Notice shall make reference to the Participants' obligations under this Section 6.4 and shall describe in reasonable detail:

(i) the number of shares of Common Stock to be sold by BNAC;

(ii) the person to whom such shares of Common Stock are proposed to be sold;

(iii) the material terms and conditions of the sale, including the consideration to be paid; and

(iv) the proposed date, time and location of the closing of the sale.

(b) In any sale is subject to this Section 6.4 each of the Participants shall agree to sell all (and not less than all) of the shares of Common Stock owned by the Participant, free and clear of any liens and on the same terms and conditions as BNAC in such sale.

(c) If BNAC (alone or together with any of the other Company stockholders) proposes to effect the sale of shares of Common Stock representing more than eighty percent (80%) of the total issued and outstanding shares of the Company's Common Stock pursuant to this Section 6.4, the Participants shall consent to and not object to or exercise any appraisal or dissenters' rights in connection with such transaction. Without limiting the foregoing, each of the Participants shall, if requested by BNAC, execute and deliver a power of attorney and custody agreement, in form and substance satisfactory to BNAC, with respect to the shares of Common Stock that are to be included by them in any sale pursuant to this Section 6.4. The power of attorney and custody agreement will provide, among other things, that each such Participant will:

(i) deliver to and deposit into custody with BNAC, named as the custodian therein, a certificate or certificates representing such shares of Common Stock (duly endorsed in blank by the owner or owners thereof or accompanied by duly endorsed stock powers in blank); and

(ii) irrevocably appoint BNAC as such stockholder's agent and attorney-in-fact with full power to act thereunder on behalf of such stockholder with respect to the matters specified therein.

(d) Each Participant shall fully cooperate with BNAC and shall take all necessary actions to effectuate the sale of shares of Common Stock pursuant to this Section 6.4, including entering into such agreements and delivering such certificates and instruments, as may be reasonably requested from time to time by BNAC, provided that no Participant shall be:

(i) liable for any indemnification obligations to any potential purchaser in respect of such representations and warranties on a joint, rather than several, basis, and in no event with respect to an amount in excess of the net cash proceeds to be paid to such stockholder in such

transaction; and

(ii) subject to any escrow or similar arrangement relating to such transaction with respect to an amount in excess of the net cash proceeds to be paid to such other stockholders in such transaction.

(e) Each of the Participants participating in the sale of shares of Common Stock by BNAC under this Section 6.4 shall be paid a consideration (on a per share of Common Stock basis) on the same terms and conditions as BNAC in such sale.

6.5 Tax Matters. By execution of a Stock Purchase Agreement, the Participant expressly acknowledges and agrees that neither the Company, BNAC nor any of their respective agents, makes any representations on behalf of the Company or BNAC with respect to the tax treatment of any transaction contemplated under Section 6. The Participant (or the Participant's beneficiary in the event of the Participant's death) shall be solely responsible for the payment of any and all income, transfer and other taxes, filing and recording fees and similar charges relating to any transaction contemplated under this Section 6.

7. Plan Administration.

7.1 The Committee. The Plan will be administered by the Compensation Committee established by the Board or by the Board if such Compensation Committee is dissolved. Such a committee, if established, will act by simple majority approval of the members (but may also take action by the written consent of a simple majority of the members of such committee), and any simple majority of the members of such a committee will constitute a quorum.

7.2 Authority of the Committee. The Committee shall have the authority and power to administer the Plan and to make, adopt, construe, and enforce rules and regulations not inconsistent with the provisions of the Plan. In addition, the Committee shall adopt and prescribe the contents of all forms required in connection with the administration of the Plan. To the extent consistent with the applicable corporate law of the Company's jurisdiction of incorporation, the Committee may delegate to any officers of the Company the duties, power and authority of the Committee under the Plan in accordance with such conditions or limitations as the Committee or Board may establish. The Committee may exercise its duties, power and authority under the Plan in its sole and absolute discretion without the consent of any Participant or other party, unless the Plan specifically provides otherwise. The Committee will not be obligated to treat Participants or Eligible Employees uniformly, and determinations made under the Plan may be made by the Committee selectively among Participants or Eligible Employees, whether or not such Participants and Eligible Employees are similarly situated. Each determination, interpretation or other action made or taken by the Committee pursuant to the provisions of the Plan, including the determination of Eligible Employee or Fair Market Value, will be final, conclusive and binding for all purposes and on all persons, including the Company, the stockholders of the Company, the Participants and their respective heirs, transferees, assigns and other successors-in-interest. No member of the Board or the Committee will be liable for any action or determination made in good faith with respect to the Plan or any Stock Purchase Agreement issued under the Plan, including any determination regarding current Fair Market Values of the shares of Common Stock that is made in good faith.

8. Miscellaneous.

8.1 Non-Alienation; Restrictions on Transfer. The right to purchase shares of Common Stock pursuant to a Stock Purchase Agreement issued under the Plan is personal to the Participant, is exercisable only by the Participant during the Participant's lifetime while employed, except as hereinafter set forth, and may not be assigned or otherwise transferred by the Participant. Notwithstanding the foregoing, there shall be delivered to the executor, administrator or other personal representative of a deceased Participant such shares of Common Stock and such residual balance as may remain in the Participant's Stock Purchase Account as of the time the Company becomes aware of the Participant's death, including shares of Common Stock purchased as of that date or prior thereto with moneys deposited in the Participant's Stock Purchase Account. In addition, prior to an initial public offering of shares of Common Stock, a Participant (or the executor, administrator or other personal representative or other successor of a deceased Participant) may not sell, assign, transfer or otherwise dispose of shares of Common Stock issued pursuant to the right to purchase shares of Common Stock granted under the Plan to a third party without prior approval of such sale, assignment, transfer or disposition by the Committee or the Board.

8.2 No Right to Continued Employment. Nothing in the Plan confers upon any Eligible Employee or Participant any right to continue in the employment of the Company or interferes with or limits in any way the right of the Company to terminate the employment of any Eligible Employee or Participant at any time, with or without notice and with or without cause, subject to the terms of such Employee's employment agreement or service contract, if any.

8.3 Governing Law and Venue. The validity, construction, interpretation, administration and effect of the Plan and any rules, regulations and actions relating to the Plan will be governed by and construed exclusively in accordance with the laws of the State of New York, notwithstanding the conflicts of laws principles thereunder or under any jurisdiction that would cause the application of the laws of any jurisdiction other than the State of New York. Any legal proceeding related to the Plan will be brought in an appropriate New York court, and the parties to any Stock Purchase Agreement consent to the exclusive jurisdiction of the court for this purpose.

8.4 Successors and Assigns. The Plan will be binding upon and inure to the benefit of the successors and permitted assigns of the Company and the Participants.

8.5 Non-Exclusivity of the Plan. Nothing contained in the Plan is intended to modify or rescind any previously approved compensation plans or programs of the Company or create any limitations on the power or authority of the Board to adopt such additional or other compensation arrangements as the Board may deem necessary or desirable.

8.6 Securities Law Restrictions.

(a) Securities Law Restrictions. Notwithstanding any other provision of the Plan or any Stock Purchase Agreement, the Company will not be required to issue any shares of Common Stock under the Plan, and a Participant may not sell, assign, transfer or otherwise dispose of shares of Common Stock issued pursuant to the right to purchase shares of Common Stock granted under the Plan: (i) unless there is in effect with respect to such shares a registration statement under the Securities Act and any applicable securities laws of a state or foreign jurisdiction or an exemption from such registration under the Securities Act and applicable state or foreign securities laws; (ii) unless there has been obtained any other consent, approval or permit from any other U.S. or foreign regulatory body which the Committee, in its sole discretion, deems necessary or advisable; and (iii) if at any time at which the Company is not required to file reports with the Securities and Exchange Commission (the "SEC") pursuant to Sections 12(b), 12(g) or 15(d) of the Exchange Act or the rules and regulations thereunder, such issuance, sale or transfer would cause the number of stockholders of the Company to increase such that the Company would be within ten (10) stockholders of the number that would cause the Company to be required to file reports with the SEC pursuant to Sections 12(g) or 15(d) of the Exchange Act and the rules and regulations thereunder. The Company may condition such issuance, sale or transfer upon the receipt of any representations or agreements from the parties involved, and the placement of any legends on certificates representing shares of Common Stock, as may be deemed necessary or advisable by the Company in order to comply with such securities law or other restrictions.

(b) "Market Stand-Off" Restrictions. Except as otherwise approved by the Committee, the shares of Common Stock acquired in connection with the grant of the right to purchase shares of Common Stock under the Plan will be restricted following the effective date of a registration of the Company's securities under the Securities Act, and the holder thereof will not, without the prior written consent of the Company or the representative(s) of any underwriters, (i) sell, pledge, offer to sell, contract to sell (including any short sale), sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable for Common Stock (whether such shares or any such securities are then owned by the Participant who exercised such Option or are thereafter acquired); or (ii) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Common Stock, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of Common Stock or such other securities, in cash or otherwise. The provisions of this Section 8.6(b) will not apply (w) unless the executive officers and directors of the Company have agreed to be bound by substantially the same terms and conditions; (x) to public offerings other than the Company's initial public offering and any public offering made within two (2) years thereafter; (y) to registrations relating solely to securities in connection with employee benefit plans or in connection with mergers, consolidations, reorganizations, or other transactions pursuant Rule 145 under the Securities Act; or (z) to transfers to donees who agree to be similarly bound. The time period for such market stand-off will be determined by the Company and the representative(s) of any underwriters but will in no event exceed one hundred eighty (180) days from the date of the final prospectus with respect to the applicable public offering. The Company may impose stop-transfer instructions during such stand-off period with respect to the shares of Common Stock subject to this restriction if necessary to enforce such restrictions. The underwriters in connection with any such public offering are intended third party beneficiaries of this Section 8.6(b) and will have the right, power and authority to enforce the provisions hereof as though they were a party hereto.

8.7 Plan Amendment, Modification and Termination. The Board may amend, modify, suspend or terminate the Plan or any portion thereof at any time, except that no amendment may accomplish any of the following without the approval of the Corporation's stockholders:

(a) increase the number of shares reserved for purposes of the Plan; or

(b) allow any person who is not an Eligible Employee to become a Participant.

8.8 Construction. Wherever possible, each provision of the Plan and any Stock Purchase Agreement will be interpreted so that it is valid under the applicable law. If any provision of the Plan or any Stock Purchase Agreement is to any extent invalid under the applicable law, that provision will still be effective to the extent it remains valid. The remainder of the Plan and the Stock Purchase Agreement also will continue to be valid, and the entire Plan and Stock Purchase Agreement will continue to be valid in other jurisdictions.

Exhibit 10.12

FIRST AMENDMENT
TO THE
BKV CORPORATION
2020 EMPLOYEE STOCK PURCHASE PLAN
(ADOPTED BY THE BOARD OF DIRECTORS ON JULY 16, 2020)

This First Amendment (this "**Amendment**") to the BKV Corporation 2020 Employee Stock Purchase Plan (the " **Plan**") is made by BKV Corporation (the "**Company**") this 5th day of November, 2021.

WHEREAS, the Company wishes, for accounting purposes, to treat the sale of shares of the Company's Common Stock under the Plan as equity rather than debt, which requires that (i) Participants not be able to exercise their put or tender rights under the Plan for at least 181 days following the date on which such shares were acquired (the "**Holding Period**"), (ii) the Company may not exercise its right to purchase shares of Common Stock from Participants (and beneficiaries) prior to the end of the Holding Period, and (iii) a fair market value determination made quarterly to the extent necessary to affect transactions during the year; and

WHEREAS, the Company wishes to amend the Plan (i) to impose the requirement that a Participant (or beneficiary following the Participant's death) may not exercise their right to put or tender for repurchase any shares acquired by such Participant under the Plan prior to the end of the Holding Period, (ii) to require a fair market value determination made quarterly to the extent necessary to affect transactions occurring during the year, and (iii) to prohibit the Company from exercising its right to purchase from the Participant (or beneficiary) shares acquired by such Participant (or beneficiary) prior to the date that is 181 days following the date the Participant became vested in the right to receive a share of the Company's Common Stock; and

WHEREAS, the Company desires to expand the Plan's eligibility requirements on a prospective basis to include non-employee directors of the Company's Board and employees of BANPU North America Corporation so that they may be given the opportunity to purchase Common Stock under the Plan in the same manner as Eligible Employees currently enjoy, subject to approval of the Company's stockholders as required by Section 8.7 of the Plan.

NOW THEREFORE, the Plan is amended as follows:

Changes to Ensure Equity Treatment for Accounting Purposes

1. Section 2.9 of the Plan regarding the definition of "Fair Market Value" is amended and restated effective as of the 5 th day of November, 2021 to read as follows:

2.9 Fair Market Value. " Fair Market Value" means, with respect to the Common Stock, as of any date: (a) the closing sale price of the Common Stock as of such date at the end of the regular trading session, as reported on any national securities exchange on which the Common Stock is then listed (or, if no shares were traded on such date, as of the next preceding date on which there was such a trade); or (b) if the Common Stock is not so listed as described in above, the price, on a per share of the Common Stock basis, at which a willing seller would sell, and a willing buyer would buy, the Common Stock having full knowledge of all relevant facts, in an arm's length transaction without taking into account the minority ownership interest of any shares of the Common Stock and the rights associated with any minority ownership interest hereunder. For all purposes under this Plan (including as to taxation), the fair market value of the Common Stock as described in (b) above shall be determined quarterly, if needed for transaction occurring during the Financial Year, by the Committee using the independent and impartial valuation of the Common Stock performed, on an annual basis, by Guggenheim Securities, LLC, with interim valuations based on the methodologies established in such annual Guggenheim Securities, LLC valuation prepared by the Company or a third party with valuation expertise. The annual valuation may be performed by an independent and impartial appraiser approved by the Board other than Guggenheim Securities, LLC if its fees are not at competitive market rates (as determined by the Board based upon evidence of fees charged by other United States investment banking firms for the same services).

2. Section 6 of the Plan is amended by adding a new Section 6.6 to read as follows:

6.6 Holding Period.

(a) A Participant (or beneficiary following the Participant's death) who acquired shares of the Company's Common Stock under the Plan may not exercise their right to put such shares of Common Stock to the Company for repurchase under Section 6.1 prior to the date that is 181 days following the date the Participant acquired such shares.

(b) The Company may not exercise its right to purchase shares of the Company's Common Stock from a Participant (or beneficiary following the Participant's death) under Section 6.2 prior to the date that is 181 days following the date the Participant acquired such shares.

Expand Eligibility

3. Section 2 of the Plan is amended to include a new Section 2.5A Director immediately after the definition of "Company" at Section 2.5:

2.5A Director. "Director" means an Employee or a non-Employee of the Company who serves as a member of the Board.

4. Section 2 of the Plan is amended to add a new Section 2.6A Eligible Recipients immediately after the definition of "Eligible Employee" at Section 2.6:

2.6A Eligible Recipients. "Eligible Recipients" mean Eligible Employees and/or Directors who satisfy the conditions set forth in

Section 3 herein.

5. Section 2.6 of the Plan is amended and restated to read as follows:

2.6 Eligible Employee. An "Eligible Employee" means any Employee of the Company or BNAC who (i) has been employed by the Company or BNAC for at least twelve (12) consecutive months and (ii) is customarily scheduled to work at least forty (40) hours per week.

6. Section 2.7 of the Plan is amended by amending and restating the first sentence of such Section to read as follows:

"Employee means any individual treated as an employee in the records of the Company or BNAC (including an officer or a Director of the Company or BNAC who is also treated as an employee in such records).

7. Section 2.13 of the Plan is amended and restated to read as follows:

2.13 Participant. "Participant" means each Eligible Recipient who participates in this Plan by execution of a Stock Purchase Agreement issued to such individual under the Plan.

8. Section 3 of the Plan is amended to include the following sentence to the end of such section:

A Director who is not an Employee may be granted from time to time the right to purchase shares of Common Stock under the Plan, as may be determined by the Board in its sole discretion and in accordance with the internal policies or bylaws established by the Board from time to time.

9. Section 4.2 of the Plan is amended and restated to read as follows:

4.2 Grant of Purchase Right. An Eligible Employee who the CEO of the Company determines has satisfied the requirements set forth in Section 3 may be granted the right to purchase shares of Common Stock under the Plan, pursuant to the terms of a Stock Purchase Agreement issued by the Company to such Eligible Employee. The Committee shall require the payment by the Participant of a specified purchase price in connection with a grant of the right to purchase shares of Common Stock

10. Section 8.2 of the Plan is amended and restated in its entirety as follows:

8.2 Employment. Nothing in the Plan confers upon any Eligible Recipient or Participant any right to future or continued employment with the Company or infers with or limits in any way the right of the Company to terminate the employment of any Eligible Employee or Participant at any time, with or without notice and with or without cause, subject to the terms of such Employee's employment agreement or service contract, if any.

11. Sections 1.1, 7.2, and 8.7 of the Plan are amended by striking the term "Eligible Employee" or "Eligible Employees" and inserting "Eligible Recipient(s)" in each place such phrase occurs in such sections.

12. The changes made by the foregoing Items 3 through 11 of this Amendment are conditioned on and subject to approval by the Company's stockholders as required by Section 8.7 of the Plan.

IN WITNESS WHEREOF, the undersigned, on behalf of BKV Corporation, has executed this First Amendment to the BKV Corporation 2020 Employee Stock Purchase Plan document effective as of the 5th day of November, 2021.

BKV CORPORATION

SECOND AMENDMENT
TO THE
BKV CORPORATION
2020 EMPLOYEE STOCK PURCHASE PLAN
(ADOPTED BY THE BOARD OF DIRECTORS ON JULY 16, 2020)

This Second Amendment (this "**Amendment**") to the BKV Corporation 2020 Employee Stock Purchase Plan (the " **Plan**") is made by BKV Corporation (the "**Company**") this 21st day of April, 2022.

WHEREAS, the Company desires to expand the Plan's eligibility requirements to include employees of the Company's affiliates and subsidiaries, subject to approval of the Company's stockholders as required by Section 8.7 of the Plan; and

WHEREAS, the Company desires to remove a typographical error contained in Section 2.17.

NOW THEREFORE, the Plan is amended effective as of March 17, 2022, as follows:

1. Section 2.5 is amended by adding the following language to the end of such section:

For purposes of Section 2.7 (first sentence), Section 8.2, and Section 8.5, "Company" shall include any affiliate or subsidiary of the Company, as such terms are defined under Section 2.6.

2. Section 2.6 is amended and restated to read as follows:

2.6 Eligible Employee. An "Eligible Employee" means any Employee of the Company, any affiliate or subsidiary of the Company, or BNAC who (i) has been employed by the Company, any affiliate or subsidiary of the Company, or BNAC, for at least twelve (12) consecutive months, and (ii) is customarily scheduled to work at least forty (40) hours per week. For purposes of this section and the Plan, "affiliate of the Company" means a corporation or other entity (including a partnership or a limited liability company) that is engaged in the business of oil and gas exploration and production and is controlled by the Company (where "control" means ownership of more than fifty percent (50%) of the voting equity of any entity), and "subsidiary of the Company" means any corporation or other entity, whether domestic or foreign, that is engaged in the business of oil and gas exploration and production and in which the Company has or obtains, directly or indirectly, an ownership interest of more than fifty percent (50%) by reason of stock ownership or otherwise. For the avoidance of doubt, "affiliate or subsidiary of the Company" specifically includes Kalnin Ventures LLC, BKV Barnett, LLC, BKV Operating, LLC, BKV Chelsea, LLC, and BKV Chaffee Corners, LLC, and specifically excludes BKV-BPP Power, LLC and any business developed by the Company for the purpose of carbon capture, utilization and storage ("CCUS").

3. Section 2.17 of the Plan is amended by amending and restating the first sentence of such Section to read as follows:

"Stock Purchase Account" means a noninterest-bearing account consisting of all amounts deposited by a Participant for the purpose of purchasing shares of Common Stock for such Participant under the Plan reduced by all amounts applied to the purchase of shares of Common Stock for such Participant under the Plan.

IN WITNESS WHEREOF, the undersigned, on behalf of BKV Corporation, has executed this Second Amendment to the BKV Corporation 2020 Employee Stock Purchase Plan document effective as of the 21st day of April 2022.

BKV CORPORATION

Exhibit 10.14

FORM OF

BKV CORPORATION

2022 EQUITY AND INCENTIVE COMPENSATION PLAN

1. **Purpose.** The purpose of this Plan is to permit award grants to non-employee Directors, officers and other employees of the Company and its Subsidiaries, and certain consultants to the Company and its Subsidiaries, and to provide to such persons incentives and rewards for service and/or performance.

2. **Definitions.** As used in this Plan:

(a) "Appreciation Right" means a right granted pursuant to **Section 5** of this Plan.

(b) "Base Price" means the price to be used as the basis for determining the Spread upon the exercise of an Appreciation Right.

(c) "Board" means the Board of Directors of the Company.

(d) "Cash Incentive Award" means a cash award granted pursuant to **Section 8** of this Plan.

(e) "Change in Control" has the meaning set forth in **Section 12** of this Plan.

(f) "Code" means the Internal Revenue Code of 1986, as amended from time to time, and the regulations thereunder, as such law and regulations may be amended from time to time.

(g) "Committee" means the Compensation Committee of the Board (or its successor(s)), or any other committee of the Board designated by the Board to administer this Plan pursuant to **Section 10** of this Plan.

(h) "Common Shares" means the shares of common stock, par value $0.01 per share, of the Company or any security into which such common shares may be changed by reason of any transaction or event of the type referred to in **Section 11** or **Section 12** of this Plan.

(i) "Company" means BKV Corporation, a Delaware corporation, and its successors.

(j) "Company Voting Securities" means the voting securities of the Company entitled to vote generally in the election of Directors.

(k) "Date of Grant" means the date provided for by the Committee on which a grant of Option Rights, Appreciation Rights, Performance Shares, Performance Units, Cash Incentive Awards, or other awards contemplated by **Section 9** of this Plan, or a grant or sale of Restricted Shares, Restricted Stock Units, or other awards contemplated by **Section 9** of this Plan, will become effective (which date will not be earlier than the date on which the Committee takes action with respect thereto).

(l) "Director" means a member of the Board.

(m) "Effective Date" means the date this Plan is approved by the Shareholders.

(n) "Evidence of Award" means an agreement, certificate, resolution or other type or form of writing or other evidence approved by the Committee that sets forth the terms and conditions of the awards granted under this Plan. An Evidence of Award may be in an electronic medium, may be limited to notation on the books and records of the Company and, unless otherwise determined by the Committee, need not be signed by a representative of the Company or a Participant.

(o) "Exchange Act" means the Securities Exchange Act of 1934, as amended from time to time, and the rules and regulations thereunder, as such law, rules and regulations may be amended from time to time.

(p) "Exempt Person" means each of Banpu Public Company Limited, a public company incorporated in and existing under the Laws of Thailand, and any corporation, company or other entity that is wholly-owned by Banpu Public Company Limited, as of the relevant time.

(q) "Management Objectives" means the measurable performance objective or objectives established pursuant to this Plan for Participants who have received grants of Performance Shares, Performance Units or Cash Incentive Awards or, when so determined by the Committee, Option Rights, Appreciation Rights, Restricted Shares, Restricted Stock Units, dividend equivalents or other awards pursuant to this Plan. If the Committee determines that a change in the business, operations, corporate structure or capital structure of the Company, or the manner in which it conducts its business, or other events or circumstances render the Management Objectives unsuitable, the Committee may in its discretion modify such Management Objectives or the goals or actual levels of achievement regarding the Management Objectives, in whole or in part, as the Committee deems appropriate and equitable.

(r) "Market Value per Share" means, as of any particular date, the closing price of a Common Share as reported for that date on the New York Stock Exchange or, if the Common Shares are not then listed on the New York Stock Exchange, on any other national securities exchange on which the Common Shares are listed, or if there are no sales on such date, on the next preceding trading day during which a sale occurred. If there is no regular public trading market for the Common Shares, then the Market Value per Share shall be the fair market value as determined in good faith by the Committee. The

Committee is authorized to adopt another fair market value pricing method provided such method is stated in the applicable Evidence of Award and is in compliance with the fair market value pricing rules set forth in Section 409A of the Code.

(s) "Optionee" means the optionee named in an Evidence of Award evidencing an outstanding Option Right.

(t) "Option Price" means the purchase price payable on exercise of an Option Right.

(u) "Option Right" means the right to purchase Common Shares upon exercise of an award granted pursuant to **Section 4** of this Plan.

(v) "Participant" means a person who is selected by the Committee to receive benefits under this Plan and who is at the time (i) a non-employee Director, (ii) an officer or other employee of the Company or any Subsidiary, or (iii) a person, including a consultant, who provides services to the Company or any Subsidiary that are equivalent to those typically provided by an employee (provided that such person satisfies the Form S-8 definition of an "employee").

(w) "Performance Period" means, in respect of a Cash Incentive Award, Performance Share or Performance Unit, a period of time established pursuant to **Section 8** of this Plan within which the Management Objectives relating to such Cash Incentive Award, Performance Share or Performance Unit are to be achieved.

(x) "Performance Share" means a bookkeeping entry that records the equivalent of one Common Share awarded pursuant to **Section 8** of this Plan.

(y) "Performance Unit" means a bookkeeping entry awarded pursuant to **Section 8** of this Plan that records a unit equivalent to $1.00 or such other value as is determined by the Committee.

(z) "Plan" means this BKV Corporation 2022 Equity and Incentive Compensation Plan, as may be amended or amended and restated from time to time.

(aa) "Predecessor Plan" means the BKV Corporation 2021 Long Term Incentive Plan, adopted January 1, 2021, as amended.

(bb) "Restricted Shares" means Common Shares granted or sold pursuant to **Section 6** of this Plan as to which neither the substantial risk of forfeiture nor the prohibition on transfers has expired.

(cc) "Restricted Stock Units" means an award made pursuant to **Section 7** of this Plan of the right to receive Common Shares, cash or a combination thereof at the end of the applicable Restriction Period.

(dd) "Restriction Period" means the period of time during which Restricted Stock Units are subject to restrictions, as provided in **Section 7** of this Plan.

(ee) "Shareholder" means an individual or entity that owns one or more Common Shares.

(ff) "Spread" means the excess of the Market Value per Share on the date when an Appreciation Right is exercised over the Base Price provided for with respect to the Appreciation Right.

(gg) "Subsidiary" means a corporation, company or other entity (i) more than 60% of whose outstanding shares or securities (representing the right to vote for the election of directors or other managing authority) are, or (ii) which does not have outstanding shares or securities (as may be the case in a partnership, joint venture, limited liability company, unincorporated association or other similar entity), but more than 60% of whose ownership interest representing the right generally to make decisions for such other entity is, now or hereafter, owned or controlled, directly or indirectly, by the Company.

(hh) "Voting Power" means, at any time, the combined voting power of the then-outstanding securities entitled to vote generally in the election of Directors in the case of the Company or members of the board of directors or similar body in the case of another entity.

3. **Shares Available Under this Plan.**

(a) Maximum Shares Available Under this Plan.

(i) Subject to adjustment as provided in **Section 11** of this Plan and the share counting rules set forth in **Section 3(b)** of this Plan, the number of Common Shares available under this Plan for awards of (A) Option Rights or Appreciation Rights, (B) Restricted Shares, (C) Restricted Stock Units, (D) Performance Shares or Performance Units, (E) awards contemplated by **Section 9** of this Plan, or (F) dividend equivalents paid with respect to awards made under this Plan will not exceed in the aggregate [ ] Common Shares. Such shares may be shares of original issuance or treasury shares or a combination of the foregoing.

(ii) Subject to the share counting rules set forth in **Section 3(b)** of this Plan, the aggregate number of Common Shares available under **Section 3(a)(i)** of this Plan will be reduced by one Common Share for every one Common Share subject to an award granted under this Plan.

(b) Share Counting Rules.

(i) Except as provided in **Section 22** of this Plan, if any award granted under this Plan (in whole or in part) is cancelled or forfeited, expires, is settled for cash, or is unearned, the Common Shares subject to such award will, to the extent of such cancellation, forfeiture, expiration, cash settlement, or unearned amount, again be available under **Section 3(a)(i)** above.

(ii) Notwithstanding anything to the contrary contained in this Plan: (A) Common Shares withheld by the Company, tendered or otherwise used in payment of the Option Price of an Option Right will not be added (or added back, as applicable) to the aggregate number of Common Shares available under **Section 3(a)(i)** of this Plan; (B) Common Shares withheld by the Company, tendered or otherwise used to satisfy tax withholding will not be added (or added back, as applicable) to the aggregate number of Common Shares available under **Section 3(a)(i)** of this Plan; (C) Common Shares subject to a share-settled Appreciation Right that are not actually issued in connection with the settlement of such Appreciation Right on the exercise thereof will not be added (or added back, as applicable) to the aggregate number of Common Shares available under **Section 3(a)(i)** of this Plan; and (D) Common Shares reacquired by the Company on the open market or otherwise using cash proceeds from the exercise of Option Rights will not be added (or added back, as applicable) to the aggregate number of Common Shares available under **Section 3(a)(i)** of this Plan.

(iii) If, under this Plan, a Participant has elected to give up the right to receive compensation in exchange for Common Shares based on fair market value, such Common Shares will not count against the aggregate limit under **Section 3(a)(i)** of this Plan.

(c) Non-Employee Director Compensation Limit. Notwithstanding anything to the contrary contained in this Plan, in no event will any non-employee Director in any one calendar year be granted compensation for such service having an aggregate maximum value (measured at the Date of Grant as applicable, and calculating the value of any awards based on the grant date fair value for financial reporting purposes) in excess of $750,000.

4. **Option Rights.** The Committee may, from time to time and upon such terms and conditions as it may determine, authorize the granting to Participants of Option Rights. Each such grant may utilize any or all of the authorizations, and will be subject to all of the requirements, contained in the following provisions:

(a) Each grant will specify the number of Common Shares to which it pertains subject to the limitations set forth in **Section 3** of this Plan.

(b) Each grant will specify an Option Price per Common Share, which Option Price (except with respect to awards under **Section 22** of this Plan) may not be less than the Market Value per Share on the Date of Grant.

(c) Each grant will specify whether the Option Price will be payable (i) in cash, by check acceptable to the Company or by wire transfer of immediately available funds, (ii) by the actual or constructive transfer to the Company of Common Shares owned by the Optionee having a value at the time of exercise equal to the total Option Price, (iii) subject to any conditions or limitations established by the Committee, by the withholding of Common Shares otherwise issuable upon exercise of an Option Right pursuant to a “net exercise” arrangement (it being understood that, solely for purposes of determining the number of treasury shares held by the Company, the Common Shares so withheld will not be treated as issued and acquired by the Company upon such exercise), (iv) by a combination of such methods of payment, or (v) by such other methods as may be approved by the Committee.

(d) To the extent permitted by law, any grant may provide for deferred payment of the Option Price from the proceeds of sale through a bank or broker on a date satisfactory to the Company of some or all of the Common Shares to which such exercise relates.

(e) Each grant will specify the period or periods of continuous service by the Optionee with the Company or any Subsidiary, if any, that is necessary before any Option Rights or installments thereof will vest. Option Rights may provide for continued vesting or the earlier vesting of such Option Rights, including in the event of the retirement, death, disability or termination of employment or service of a Participant or in the event of a Change in Control.

(f) Any grant of Option Rights may specify Management Objectives regarding the vesting of such rights.

(g) Option Rights granted under this Plan are not intended to qualify under Section 422 of the Code or any successor provision.

(h) No Option Right will be exercisable more than 10 years from the Date of Grant. The Committee may provide in any Evidence of Award for the automatic exercise of an Option Right upon such terms and conditions as established by the Committee.

(i) Option Rights granted under this Plan may not provide for any dividends or dividend equivalents thereon.

(j) Each grant of Option Rights will be evidenced by an Evidence of Award. Each Evidence of Award will be subject to this Plan and will contain such terms and provisions, consistent with this Plan, as the Committee may approve.

5. **Appreciation Rights.**

(a) The Committee may, from time to time and upon such terms and conditions as it may determine, authorize the granting to any Participant of Appreciation Rights. An Appreciation Right will be the right of the Participant to receive from the Company an amount determined by the Committee, which will be expressed as a percentage of the Spread (not exceeding 100%) at the time of exercise.

(b) Each grant of Appreciation Rights may utilize any or all of the authorizations, and will be subject to all of the requirements, contained in the following provisions:

(i) Each grant may specify that the amount payable on exercise of an Appreciation Right will be paid by the Company in cash, Common Shares or any combination thereof.

(ii) Each grant will specify the period or periods of continuous service by the Participant with the Company or any Subsidiary, if any, that is necessary before the Appreciation Rights or installments thereof will vest. Appreciation Rights may provide for continued vesting or the earlier vesting of such Appreciation Rights, including in the event of the retirement, death, disability or termination of employment or service of a Participant or in the event of a Change in Control.

(iii) Any grant of Appreciation Rights may specify Management Objectives regarding the vesting of such Appreciation Rights.

(iv) Appreciation Rights granted under this Plan may not provide for any dividends or dividend equivalents thereon.

(v) Each grant of Appreciation Rights will be evidenced by an Evidence of Award. Each Evidence of Award will be subject to this Plan and will contain such terms and provisions, consistent with this Plan, as the Committee may approve.

(c) Also, regarding Appreciation Rights:

(i) Each grant will specify in respect of each Appreciation Right a Base Price, which (except with respect to awards under **Section 22** of this Plan) may not be less than the Market Value per Share on the Date of Grant; and

(ii) No Appreciation Right granted under this Plan may be exercised more than 10 years from the Date of Grant. The Committee may provide in any Evidence of Award for the automatic exercise of an Appreciation Right upon such terms and conditions as established by the Committee.

6. **Restricted Shares.** The Committee may, from time to time and upon such terms and conditions as it may determine, authorize the grant or sale of Restricted Shares to Participants. Each such grant or sale may utilize any or all of the authorizations, and will be subject to all of the requirements, contained in the following provisions:

(a) Each such grant or sale will constitute an immediate transfer of the ownership of Common Shares to the Participant in consideration of the performance of services, entitling such Participant to voting, dividend and other ownership rights, but subject to the substantial risk of forfeiture and restrictions on transfer hereinafter described.

(b) Each such grant or sale may be made without additional consideration or in consideration of a payment by such Participant that is less than the Market Value per Share on the Date of Grant.

(c) Each such grant or sale will provide that the Restricted Shares covered by such grant or sale will be subject to a “substantial risk of forfeiture” within the meaning of Section 83 of the Code for a period to be determined by the Committee on the Date of Grant or until achievement of Management Objectives referred to in **Section 6(e)** of this Plan.

(d) Each such grant or sale will provide that during or after the period for which such substantial risk of forfeiture is to continue, the transferability of the Restricted Shares will be prohibited or restricted in the manner and to the extent prescribed by the Committee on the Date of Grant (which restrictions may include rights of repurchase or first refusal of the Company or provisions subjecting the Restricted Shares to a continuing substantial risk of forfeiture while held by any transferee).

(e) Any grant of Restricted Shares may specify Management Objectives regarding the vesting of such Restricted Shares.

(f) Notwithstanding anything to the contrary contained in this Plan, Restricted Shares may provide for continued vesting or the earlier vesting of such Restricted Shares, including in the event of the retirement, death, disability or termination of employment or service of a Participant or in the event of a Change in Control.

(g) Any such grant or sale of Restricted Shares may require that any and all dividends or other distributions paid thereon during the period of such restrictions be automatically deferred and/or reinvested in additional Restricted Shares, which will be subject to the same restrictions as the underlying award. For the avoidance of doubt, any such dividends or other distributions on Restricted Shares shall be deferred until, and paid contingent upon, the vesting of such Restricted Shares.

(h) Each grant or sale of Restricted Shares will be evidenced by an Evidence of Award. Each Evidence of Award will be subject to this Plan

and will contain such terms and provisions, consistent with this Plan, as the Committee may approve. Unless otherwise directed by the Committee, (i) all certificates representing Restricted Shares will be held in custody by the Company until all restrictions thereon will have lapsed, together with a stock power or powers executed by the Participant in whose name such certificates are registered, endorsed in blank and covering such shares or (ii) all Restricted Shares will be held at the Company's transfer agent in book entry form with appropriate restrictions relating to the transfer of such Restricted Shares.

7. **Restricted Stock Units.** The Committee may, from time to time and upon such terms and conditions as it may determine, authorize the granting or sale of Restricted Stock Units to Participants. Each such grant or sale may utilize any or all of the authorizations, and will be subject to all of the requirements, contained in the following provisions:

(a) Each such grant or sale will constitute the agreement by the Company to deliver Common Shares or cash, or a combination thereof, to the Participant in the future in consideration of the performance of services, but subject to the fulfillment of such conditions (which may include achievement regarding Management Objectives) during the Restriction Period as the Committee may specify.

(b) Each such grant or sale may be made without additional consideration or in consideration of a payment by such Participant that is less than the Market Value per Share on the Date of Grant.

(c) Notwithstanding anything to the contrary contained in this Plan, Restricted Stock Units may provide for continued vesting or the earlier lapse or other modification of the Restriction Period, including in the event of the retirement, death, disability or termination or employment of service of a Participant or in the event of a Change in Control.

(d) During the Restriction Period, the Participant will have no right to transfer any rights under his or her award and will have no rights of ownership in the Common Shares deliverable upon payment of the Restricted Stock Units and will have no right to vote them, but the Committee may, at or after the Date of Grant, authorize the payment of dividend equivalents on such Restricted Stock Units on a deferred and contingent basis, either in cash or in additional Common Shares; provided, however, that dividend equivalents or other distributions on Common Shares underlying Restricted Stock Units shall be deferred until and paid contingent upon the vesting of such Restricted Stock Units.

(e) Each grant or sale of Restricted Stock Units will specify the time and manner of payment of the Restricted Stock Units that have been earned. Each grant or sale will specify that the amount payable with respect thereto will be paid by the Company in Common Shares or cash, or a combination thereof.

(f) Each grant or sale of Restricted Stock Units will be evidenced by an Evidence of Award. Each Evidence of Award will be subject to this Plan and will contain such terms and provisions, consistent with this Plan, as the Committee may approve.

8. **Cash Incentive Awards, Performance Shares and Performance Units.** The Committee may, from time to time and upon such terms and conditions as it may determine, authorize the granting of Cash Incentive Awards, Performance Shares and Performance Units. Each such grant may utilize any or all of the authorizations, and will be subject to all of the requirements, contained in the following provisions:

(a) Each grant will specify the number or amount of Performance Shares or Performance Units, or amount payable with respect to a Cash Incentive Award, to which it pertains, which number or amount may be subject to adjustment to reflect changes in compensation or other factors.

(b) The Performance Period with respect to each Cash Incentive Award or grant of Performance Shares or Performance Units will be such period of time as will be determined by the Committee, which may be subject to continued vesting or earlier lapse or other modification, including in the event of the retirement, death, disability or termination of employment or service of a Participant or in the event of a Change in Control.

(c) Each grant of a Cash Incentive Award, Performance Shares or Performance Units will specify Management Objectives regarding the earning of the award.

(d) Each grant will specify the time and manner of payment of a Cash Incentive Award, Performance Shares or Performance Units that have been earned.

(e) The Committee may, on the Date of Grant of Performance Shares or Performance Units, provide for the payment of dividend equivalents to the holder thereof either in cash or in additional Common Shares, which dividend equivalents shall be subject to deferral and payment on a contingent basis based on the Participant's earning and vesting of the Performance Shares or Performance Units, as applicable, with respect to which such dividend equivalents are paid.

(f) Each grant of a Cash Incentive Award, Performance Shares or Performance Units will be evidenced by an Evidence of Award. Each Evidence of Award will be subject to this Plan and will contain such terms and provisions, consistent with this Plan, as the Committee may approve.

9. **Other Awards.**

(a) Subject to applicable law and the applicable limits set forth in **Section 3** of this Plan, the Committee may authorize the grant to any Participant of Common Shares or such other awards that may be denominated or payable in, valued in whole or in part by reference to, or otherwise based on, or related to, Common Shares or factors that may influence the value of such shares, including, without limitation, convertible or exchangeable debt securities, other rights convertible or exchangeable into Common Shares, purchase rights for Common Shares, awards with value and payment contingent upon

performance of the Company or specified subsidiaries, affiliates or other business units thereof or any other factors designated by the Committee, and awards valued by reference to the book value of the Common Shares or the value of securities of, or the performance of specified subsidiaries or affiliates or other business units of the Company. The Committee will determine the terms and conditions of such awards. Common Shares delivered pursuant to an award in the nature of a purchase right granted under this **Section 9** will be purchased for such consideration, paid for at such time, by such methods, and in such forms, including, without limitation, Common Shares, other awards, notes or other property, as the Committee determines.

(b) Cash awards, as an element of or supplement to any other award granted under this Plan, may also be granted pursuant to this **Section 9**.

(c) The Committee may authorize the grant of Common Shares as a bonus, or may authorize the grant of other awards in lieu of obligations of the Company or a Subsidiary to pay cash or deliver other property under this Plan or under other plans or compensatory arrangements, subject to such terms as will be determined by the Committee in a manner that complies with Section 409A of the Code.

(d) The Committee may, at or after the Date of Grant, authorize the payment of dividends or dividend equivalents on awards granted under this **Section 9** on a deferred and contingent basis, either in cash or in additional Common Shares; provided, however, that dividend equivalents or other distributions on Common Shares underlying awards granted under this **Section 9** shall be deferred until and paid contingent upon the earning and vesting of such awards.

(e) Each grant of an award under this **Section 9** will be evidenced by an Evidence of Award. Each such Evidence of Award will be subject to this Plan and will contain such terms and provisions, consistent with this Plan, as the Committee may approve, and will specify the time and terms of delivery of the applicable award.

(f) Notwithstanding anything to the contrary contained in this Plan, awards under this **Section 9** may provide for the earning or vesting of, or earlier elimination of restrictions applicable to, such award, including in the event of the retirement, death, disability or termination of employment or service of a Participant or in the event of a Change in Control.

10. **Administration of this Plan.**

(a) This Plan will be administered by the Committee; provided, that, with respect to awards to non-employee Directors, the Board shall have the same powers and authorities as the Committee and may, in its discretion, exercise such powers in lieu of the Committee.

(b) The interpretation and construction by the Committee of any provision of this Plan or of any Evidence of Award (or related documents) and any determination by the Committee pursuant to any provision of this Plan or of any such agreement, notification or document will be final and conclusive. No member of the Committee shall be liable for any such action or determination made in good faith. In addition, the Committee is authorized to take any action it determines in its sole discretion to be appropriate subject only to the express limitations contained in this Plan, and no authorization in any Plan section or other provision of this Plan is intended or may be deemed to constitute a limitation on the authority of the Committee.

(c) To the extent permitted by law, the Committee may delegate to one or more officers of the Company such administrative duties or powers as it may deem advisable, and the Committee or any officer of the Company to whom duties or powers have been delegated as aforesaid, may employ one or more persons to render advice with respect to any responsibility the Committee or such officer may have under this Plan. The Committee may, by resolution, authorize one or more officers of the Company to do one or both of the following on the same basis as the Committee: (i) designate employees to be recipients of awards under this Plan; and (ii) determine the size of any such awards; provided, however, that (A) the Committee will not delegate such responsibilities to any such officer for awards granted to an employee who is an officer (for purposes of Section 16 of the Exchange Act), Director, or more than 10% “beneficial owner” (as such term is defined in Rule 13d-3 promulgated under the Exchange Act) of any class of the Company’s equity securities that is registered pursuant to Section 12 of the Exchange Act, as determined by the Committee in accordance with Section 16 of the Exchange Act; (B) the resolution providing for such authorization shall set forth the total number of Common Shares such officer(s) may grant; and (C) the officer(s) will report periodically to the Committee regarding the nature and scope of the awards granted pursuant to the authority delegated.

11. **Adjustments.** The Committee shall make or provide for such adjustments in the number of and kind of Common Shares covered by outstanding Option Rights, Appreciation Rights, Restricted Shares, Restricted Stock Units, Performance Shares and Performance Units granted hereunder and, if applicable, in the number of and kind of Common Shares covered by other awards granted pursuant to **Section 9** of this Plan, in the Option Price and Base Price provided in outstanding Option Rights and Appreciation Rights, respectively, in Cash Incentive Awards, and in other award terms, as the Committee, in its sole discretion, exercised in good faith, determines is equitably required to prevent dilution or enlargement of the rights of Participants that otherwise would result from (a) any extraordinary cash dividend, stock dividend, stock split, combination of shares, recapitalization or other change in the capital structure of the Company, (b) any merger, consolidation, spin-off, split-off, spin-out, split-up, reorganization, partial or complete liquidation or other distribution of assets, issuance of rights or warrants to purchase securities, or (c) any other corporate transaction or event having an effect similar to any of the foregoing. Moreover, in the event of any such transaction or event , the Committee may provide in substitution for any or all outstanding awards under this Plan such alternative consideration (including cash), if any, as it, in good faith, may determine to be equitable in the circumstances and shall require in connection therewith the surrender of all awards so replaced in a manner that complies with Section 409A of the Code. In addition, for each Option Right or Appreciation Right with an Option Price or Base Price, respectively, greater than the consideration offered in connection with any such transaction or event, the Committee may in its discretion elect to cancel such Option Right or Appreciation Right without any payment to the person holding such Option Right or Appreciation Right. The Committee shall also make or provide for such adjustments in the number of Common Shares specified in **Section 3** of this Plan as the Committee in its sole discretion, exercised in good faith, determines is appropriate to reflect any transaction or event described in this **Section 11**.

12. **Change in Control**.

(a) Upon a Change in Control, the Committee, acting in its sole discretion without the consent or approval of any Participant, may (i) provide that an outstanding Award shall be assumed by, or a substitute award shall be granted by the surviving entity resulting from a transaction described in **Section 12(b)(iii)**, (ii) provide for acceleration of the vesting and exercisability of, or lapse of restrictions, in whole or in part, with respect to, an Award and, if the transaction is a cash merger, provide for the termination of any portion of the Award that remains unexercised at the time of such transaction, (iii) cancel an Award in exchange for a cash payment in an amount that the Committee shall determine in its sole discretion is equal to the fair market value of such Award on the date of such event, which in the case of Option Rights or Appreciation Rights shall be the excess of the Market Value of Shares on such date over the Option Price or Base Price, as applicable, of such Award (it being understood that, for each Option Right or Appreciation Right with an Option Price or Base Price, respectively, greater than the consideration offered in connection with the Change in Control, the Committee may in its discretion elect to cancel such Option Right or Appreciation Right without any payment to the person holding such Option Right or Appreciation Right), or (iv) make such adjustments, if any, to the Awards then outstanding as the Committee deems appropriate to reflect such Change in Control. The Committee may effect one or more of such alternatives, which may vary among individual Participants and which may vary among Awards held by any individual Participant:

(b) For purposes of this Plan, except as may be otherwise prescribed by the Committee in an Evidence of Award made under this Plan, a "Change in Control" will be deemed to have occurred upon the occurrence (after the Effective Date) of any of the following events:

(i) the acquisition by any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act) (a "Person") of beneficial ownership (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of Company Voting Securities where such acquisition causes such Person to own 40% or more of the combined voting power of the then outstanding Company Voting Securities; provided, however, that for purposes of this subsection (a), the following acquisitions shall not be deemed to result in a Change in Control: (i) any acquisition by the Company or a wholly-owned subsidiary of the Company, (ii) any acquisition directly from the Company that is approved by the Board prior to the transaction, (iii) any acquisition by any Exempt Person or by any employee benefit plan (or related trust) sponsored or maintained by the Company or any corporation controlled by the Company or (iv) any acquisition by any corporation pursuant to a transaction that complies with clauses (A), (B) and (C) of Section 12(b)(iii) below;

(ii) the replacement of a majority of the Board over a two–year period of the directors who constituted the Board at the beginning of such period, and such replacement shall not have been approved by a vote of at least a majority of the Board then still in office who either were members of such Board at the beginning of such period or whose election as a member of such Board was previously so approved; provided, that any such person whose initial assumption of office is in connection with an actual or threatened election contest relating to the election of members of the Board or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board, including by reason of agreement intended to avoid or settle any such actual or threatened contest or solicitation, shall not be considered to have been so approved;

(iii) the consummation of a reorganization, merger or consolidation or the sale or other disposition of all or substantially all of the assets of the Company, whether in one or a series of related transactions, ("Business Combination") excluding, however, such a Business Combination pursuant to which (A) the individuals and entities who were the beneficial owners of the outstanding Company Voting Securities immediately prior to such Business Combination beneficially own, directly or indirectly, more than 50% of, respectively, the then outstanding shares of common stock and the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors of the entity resulting from such Business Combination in substantially the same proportions as their ownership of the Common Shares and Company Voting Securities immediately prior to such Business Combination (including, without limitation, an entity that as a result of such transaction owns the Company or all or substantially all of the Company's assets either directly or through one or more subsidiaries), and (ii) at least a majority of the members of the board of directors of the corporation resulting from such Business Combination were members of the Board at the time of the execution of the initial agreement, or of the action of the Board, providing for such Business Combination; or

(iv) approval by the Shareholders of a complete liquidation or dissolution of the Company except pursuant to a Business Combination that complies with clauses (A), (B) and (C) of Section 12(b)(iii) above.

13. **Detrimental Activity and Recapture Provisions**. Any Evidence of Award may reference a clawback policy of the Company or provide for the cancellation or forfeiture of an award or the forfeiture and repayment to the Company of any gain related to an award, or other provisions intended to have a similar effect, upon such terms and conditions as may be determined by the Committee from time to time, if a Participant, either (a) during employment or other service with the Company or a subsidiary, or (b) within a specified period after termination of such employment or service, engages in any detrimental activity, as described in the applicable Evidence of Award or such clawback policy. In addition, notwithstanding anything in this Plan to the contrary, any Evidence of Award or such clawback policy may also provide for the cancellation or forfeiture of an award or the forfeiture and repayment to the Company of any Common Shares issued under and/or any other benefit related to an award, or other provisions intended to have a similar effect, including upon such terms and conditions as may be required by the Committee or under Section 10D of the Exchange Act and any applicable rules or regulations promulgated by the Securities and Exchange Commission or any national securities exchange or national securities association on which the Common Shares may be traded.

14. **Non-U.S. Participants.** In order to facilitate the making of any grant or combination of grants under this Plan, the Committee may provide for such special terms for awards to Participants who are foreign nationals or who are employed by the Company or any Subsidiary outside of the United States of America or who provide services to the Company or any Subsidiary under an agreement with a foreign nation or agency, as the Committee may consider necessary or appropriate to accommodate differences in local law, tax policy or custom. Moreover, the Committee may approve such supplements to or

amendments, restatements or alternative versions of this Plan (including sub-plans) as it may consider necessary or appropriate for such purposes, without thereby affecting the terms of this Plan as in effect for any other purpose, and the secretary or other appropriate officer of the Company may certify any such document as having been approved and adopted in the same manner as this Plan. No such special terms, supplements, amendments or restatements, however, will include any provisions that are inconsistent with the terms of this Plan as then in effect unless this Plan could have been amended to eliminate such inconsistency without further approval by the Shareholders.

15. **Transferability.**

(a) Except as otherwise determined by the Committee, and subject to compliance with **Section 17(b)** of this Plan and Section 409A of the Code, no Option Right, Appreciation Right, Restricted Share, Restricted Stock Unit, Performance Share, Performance Unit, Cash Incentive Award, award contemplated by **Section 9** of this Plan or dividend equivalents paid with respect to awards made under this Plan will be transferable by the Participant except by will or the laws of descent and distribution. In no event will any such award granted under this Plan be transferred for value. Where transfer is permitted, references to "Participant" shall be construed, as the Committee deems appropriate, to include any permitted transferee to whom such award is transferred. Except as otherwise determined by the Committee, Option Rights and Appreciation Rights will be exercisable during the Participant's lifetime only by him or her or, in the event of the Participant's legal incapacity to do so, by his or her guardian or legal representative acting on behalf of the Participant in a fiduciary capacity under state law or court supervision.

(b) The Committee may specify on the Date of Grant that part or all of the Common Shares that are (i) to be issued or transferred by the Company upon the exercise of Option Rights or Appreciation Rights, upon the termination of the Restriction Period applicable to Restricted Stock Units or upon payment under any grant of Performance Shares or Performance Units or (ii) no longer subject to the substantial risk of forfeiture and restrictions on transfer referred to in **Section 6** of this Plan, will be subject to further restrictions on transfer, including minimum holding periods.

16. **Withholding Taxes.** To the extent that the Company is required to withhold federal, state, local or foreign taxes or other amounts in connection with any payment made or benefit realized by a Participant or other person under this Plan, and the amounts available to the Company for such withholding are insufficient, it will be a condition to the receipt of such payment or the realization of such benefit that the Participant or such other person make arrangements satisfactory to the Company for payment of the balance of such taxes or other amounts required to be withheld, which arrangements (in the discretion of the Committee) may include relinquishment of a portion of such benefit. If a Participant's benefit is to be received in the form of Common Shares, and such Participant fails to make arrangements for the payment of taxes or other amounts, then, unless otherwise determined by the Committee, the Company will withhold Common Shares having a value equal to the amount required to be withheld. Notwithstanding the foregoing, when a Participant is required to pay the Company an amount required to be withheld under applicable income, employment, tax or other laws, the Participant may elect, unless otherwise determined by the Committee, to satisfy the obligation, in whole or in part, by having withheld, from the Common Shares required to be delivered to the Participant, Common Shares having a value equal to the amount required to be withheld or by delivering to the Company other Common Shares held by such Participant. The Common Shares used for tax or other withholding will be valued at an amount equal to the fair market value of such Common Shares on the date the benefit is to be included in Participant's income. In no event will the fair market value of the Common Shares to be withheld and delivered pursuant to this **Section 16** exceed the minimum amount required to be withheld, unless (i) an additional amount can be withheld and not result in adverse accounting consequences, (ii) such additional withholding amount is authorized by the Committee, and (iii) the total amount withheld does not exceed the Participant's estimated tax obligations attributable to the applicable transaction. Participants will also make such arrangements as the Company may require for the payment of any withholding tax or other obligation that may arise in connection with the disposition of Common Shares acquired upon the exercise of Option Rights.

17. **Compliance with Section 409A of the Code.**

(a) To the extent applicable, it is intended that this Plan and any grants made hereunder be exempt from the provisions of Section 409A of the Code or, if not so exempt, that this Plan and any grants made hereunder comply with the provisions of Section 409A of the Code, so that the income inclusion provisions of Section 409A(a)(1) of the Code do not apply to the Participants. This Plan and any grants made hereunder will be administered in a manner consistent with this intent. Any reference in this Plan to Section 409A of the Code will also include any regulations or any other formal guidance promulgated with respect to such section by the U.S. Department of the Treasury or the Internal Revenue Service.

(b) Neither a Participant nor any of a Participant's creditors or beneficiaries will have the right to subject any deferred compensation (within the meaning of Section 409A of the Code) payable under this Plan and grants hereunder to any anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, attachment or garnishment. Except as permitted under Section 409A of the Code, any deferred compensation (within the meaning of Section 409A of the Code) payable to a Participant or for a Participant's benefit under this Plan and grants hereunder may not be reduced by, or offset against, any amount owed by a Participant to the Company or any of its subsidiaries.

(c) If, at the time of a Participant's separation from service (within the meaning of Section 409A of the Code), (i) the Participant will be a specified employee (within the meaning of Section 409A of the Code and using the identification methodology selected by the Company from time to time) and (ii) the Company makes a good faith determination that an amount payable hereunder constitutes deferred compensation (within the meaning of Section 409A of the Code) the payment of which is required to be delayed pursuant to the six-month delay rule set forth in Section 409A of the Code in order to avoid taxes or penalties under Section 409A of the Code, then the Company will not pay such amount on the otherwise scheduled payment date but will instead pay it, without interest, on the tenth business day of the seventh month after such separation from service.

(d) Solely with respect to any award that constitutes nonqualified deferred compensation subject to Section 409A of the Code and that is payable on account of a Change in Control (including any installments or stream of payments that are accelerated on account of a Change in Control), a Change in Control shall occur only if such event also constitutes a "change in the ownership," "change in effective control," and/or a "change in the ownership of a substantial portion of assets" of the Company as those terms are defined under Treasury Regulation §1.409A-3(i)(5), but only to the extent necessary to

establish a time and form of payment that complies with Section 409A of the Code, without altering the definition of Change in Control for any purpose in respect of such award.

(e) Notwithstanding any provision of this Plan and grants hereunder to the contrary, in light of the uncertainty with respect to the proper application of Section 409A of the Code, the Company reserves the right to make amendments to this Plan and grants hereunder as the Company deems necessary or desirable to avoid the imposition of taxes or penalties under Section 409A of the Code. In any case, a Participant will be solely responsible and liable for the satisfaction of all taxes and penalties that may be imposed on a Participant or for a Participant's account in connection with this Plan and grants hereunder (including any taxes and penalties under Section 409A of the Code), and neither the Company nor any of its affiliates will have any obligation to indemnify or otherwise hold a Participant harmless from any or all of such taxes or penalties.

18. **Amendments.**

(a) The Board may at any time and from time to time amend this Plan in whole or in part; provided, however, that if an amendment to this Plan, for purposes of applicable stock exchange rules and except as permitted under **Section 11** of this Plan, (i) would materially increase the benefits accruing to Participants under this Plan, (ii) would materially increase the number of securities which may be issued under this Plan, (iii) would materially modify the requirements for participation in this Plan, or (iv) must otherwise be approved by the Shareholders in order to comply with applicable law or the rules of the New York Stock Exchange or, if the Common Shares are not traded on the New York Stock Exchange, the principal national securities exchange upon which the Common Shares are traded or quoted, all as determined by the Board, then, such amendment will be subject to Shareholder approval and will not be effective unless and until such approval has been obtained.

(b) Except in connection with a corporate transaction or event described in **Section 11** of this Plan or in connection with a Change in Control, the terms of outstanding awards may not be amended to reduce the Option Price of outstanding Option Rights or the Base Price of outstanding Appreciation Rights, or cancel outstanding "underwater" Option Rights or Appreciation Rights (including following a Participant's voluntary surrender of "underwater" Option Rights or Appreciation Rights) in exchange for cash, other awards or Option Rights or Appreciation Rights with an Option Price or Base Price, as applicable, that is less than the Option Price of the original Option Rights or Base Price of the original Appreciation Rights, as applicable, without Shareholder approval. This **Section 18(b)** is intended to prohibit the repricing of "underwater" Option Rights and Appreciation Rights and will not be construed to prohibit the adjustments provided for in **Section 11** or **Section 12** of this Plan. Notwithstanding any provision of this Plan to the contrary, this **Section 18(b)** may not be amended without approval by the Shareholders.

(c) If permitted by Section 409A of the Code, but subject to the paragraph that follows, including in the case of termination of employment or service, or in the case of unforeseeable emergency or other circumstances or in the event of a Change in Control, to the extent a Participant holds an Option Right or Appreciation Right not immediately exercisable in full, or any Restricted Shares as to which the substantial risk of forfeiture or the prohibition or restriction on transfer has not lapsed, or any Restricted Stock Units as to which the Restriction Period has not been completed, or any Cash Incentive Awards, Performance Shares or Performance Units which have not been fully earned, or any dividend equivalents or other awards made pursuant to **Section 9** of this Plan subject to any vesting schedule or transfer restriction, or who holds Common Shares subject to any transfer restriction imposed pursuant to **Section 15(b)** of this Plan, the Committee may, in its sole discretion, provide for continued vesting or accelerate the time at which such Option Right, Appreciation Right or other award may vest or be exercised or the time at which such substantial risk of forfeiture or prohibition or restriction on transfer will lapse or the time when such Restriction Period will end or the time at which such Cash Incentive Awards, Performance Shares or Performance Units will be deemed to have been earned or the time when such transfer restriction will terminate or may waive any other limitation or requirement under any such award.

(d) Subject to **Section 18(b)** of this Plan, the Committee may amend the terms of any award theretofore granted under this Plan prospectively or retroactively. Except for adjustments made pursuant to **Section 11** of this Plan, no such amendment will materially impair the rights of any Participant without his or her consent. The Board may, in its discretion, terminate this Plan at any time. Termination of this Plan will not affect the rights of Participants or their successors under any awards outstanding hereunder and not exercised in full on the date of termination.

19. **Governing Law.** This Plan and all grants and awards and actions taken hereunder will be governed by and construed in accordance with the internal substantive laws of the State of Delaware.

20. **Effective Date/Termination.** This Plan will be effective as of the Effective Date. No grants will be made on or after the Effective Date under the Predecessor Plan, provided that outstanding awards granted under the Predecessor Plan will continue unaffected following the Effective Date. No grant will be made under this Plan on or after the tenth anniversary of the Effective Date, but all grants made prior to such date will continue in effect thereafter subject to the terms thereof and of this Plan. For clarification purposes, the terms and conditions of this Plan shall not apply to or otherwise impact previously granted and outstanding awards under the Predecessor Plan, as applicable.

21. **Miscellaneous Provisions.**

(a) The Company will not be required to issue any fractional Common Shares pursuant to this Plan. The Committee may provide for the elimination of fractions or for the settlement of fractions in cash.

(b) This Plan will not confer upon any Participant any right with respect to continuance of employment or other service with the Company or any Subsidiary, nor will it interfere in any way with any right the Company or any Subsidiary would otherwise have to terminate such Participant's employment or other service at any time.

(c) No award under this Plan may be exercised by the holder thereof if such exercise, and the receipt of cash or shares thereunder, would

be, in the opinion of counsel selected by the Company, contrary to law or the regulations of any duly constituted authority having jurisdiction over this Plan.

(d) Absence on leave approved by a duly constituted officer of the Company or any of its Subsidiaries will not be considered interruption or termination of service of any employee for any purposes of this Plan or awards granted hereunder.

(e) No Participant will have any rights as a Shareholder with respect to any Common Shares subject to awards granted to him or her under this Plan prior to the date as of which he or she is actually recorded as the holder of such Common Shares upon the share records of the Company.

(f) The Committee may condition the grant of any award or combination of awards authorized under this Plan on the surrender or deferral by the Participant of his or her right to receive a cash bonus or other compensation otherwise payable by the Company or a Subsidiary to the Participant.

(g) Except with respect to Option Rights and Appreciation Rights, the Committee may permit Participants to elect to defer the issuance of Common Shares under this Plan pursuant to such rules, procedures or programs as it may establish for purposes of this Plan and which are intended to comply with the requirements of Section 409A of the Code. The Committee also may provide that deferred issuances and settlements include the crediting of dividend equivalents or interest on the deferral amounts.

(h) If any provision of this Plan is or becomes invalid or unenforceable in any jurisdiction, or would disqualify this Plan or any award under any law deemed applicable by the Committee, such provision will be construed or deemed amended or limited in scope to conform to applicable laws or, in the discretion of the Committee, it will be stricken and the remainder of this Plan will remain in full force and effect. Notwithstanding anything in this Plan or an Evidence of Award to the contrary, nothing in this Plan or in an Evidence of Award prevents a Participant from providing, without prior notice to the Company, information to governmental authorities regarding possible legal violations or otherwise testifying or participating in any investigation or proceeding by any governmental authorities regarding possible legal violations, and for purpose of clarity a Participant is not prohibited from providing information voluntarily to the Securities and Exchange Commission pursuant to Section 21F of the Exchange Act.

22. **Share-Based Awards in Substitution for Awards Granted by Another Company.** Notwithstanding anything in this Plan to the contrary:

(a) Awards may be granted under this Plan in substitution for or in conversion of, or in connection with an assumption of, stock options, stock appreciation rights, restricted shares, restricted stock units or other share or share-based awards held by awardees of an entity engaging in a corporate acquisition or merger transaction with the Company or any subsidiary. Any conversion, substitution or assumption will be effective as of the close of the merger or acquisition, and, to the extent applicable, will be conducted in a manner that complies with Section 409A of the Code. The awards so granted may reflect the original terms of the awards being assumed or substituted or converted for and need not comply with other specific terms of this Plan, and may account for Common Shares substituted for the securities covered by the original awards and the number of shares subject to the original awards, as well as any exercise or purchase prices applicable to the original awards, adjusted to account for differences in stock prices in connection with the transaction.

(b) In the event that a company acquired by the Company or any subsidiary or with which the Company or any subsidiary merges has shares available under a pre-existing plan previously approved by shareholders and not adopted in contemplation of such acquisition or merger, the shares available for grant pursuant to the terms of such plan (as adjusted, to the extent appropriate, to reflect such acquisition or merger) may be used for awards made after such acquisition or merger under this Plan; provided, however, that awards using such available shares may not be made after the date awards or grants could have been made under the terms of the pre-existing plan absent the acquisition or merger, and may only be made to individuals who were not employees or directors of the Company or any subsidiary prior to such acquisition or merger.

(c) Any Common Shares that are issued or transferred by, or that are subject to any awards that are granted by, or become obligations of, the Company under **Sections 22(a)** or **22(b)** of this Plan will not reduce the Common Shares available for issuance or transfer under this Plan or otherwise count against the limits contained in **Section 3** of this Plan. In addition, no Common Shares subject to an award that is granted by, or becomes an obligation of, the Company under **Sections 22(a)** or **22(b)** of this Plan, will be added to the aggregate limit contained in **Section 3(a)(i)** of this Plan.

Exhibit 10.17

Restricted Stock Unit Award (Director)

BKV CORPORATION
RESTRICTED STOCK UNIT AWARD NOTICE
2022 EQUITY AND INCENTIVE PLAN

BKV Corporation, a Delaware corporation (the "**Company**"), pursuant to its 2022 Equity and Incentive Plan, as amended from time to time (the " **Plan**"), hereby grants to the Participant the number of Restricted Stock Units (as defined in the Plan) subject to vesting requirements as set forth below (the "**Restricted Stock Units**" or "**RSUs**"). The Restricted Stock Units are subject to all of the terms and conditions as set forth in this Restricted Stock Unit Award Notice (the "**Award Notice**") and in the Restricted Stock Unit Agreement and the Plan, both of which are attached hereto and incorporated herein in their entirety.

Participant: [ ]

Date of Grant: [ ]

Number of Restricted Stock Units: [ ]

RSU Vesting Schedule: 100% of the RSUs shall vest on the day prior to the Company's first annual meeting of shareholders following the Date of Grant

The undersigned Participant acknowledges that the Participant has received a copy of this Restricted Stock Unit Award Notice, the Restricted Stock Unit Award Agreement and the Plan. As an express condition to the grant of the Award hereunder, the Participant agrees to be bound by the terms of this Restricted Stock Unit Award Notice, the Restricted Stock Unit Award Agreement and the Plan. The undersigned Participant further acknowledges that as of the Date of Grant, this Restricted Stock Unit Award Notice, the Restricted Stock Unit Award Agreement, and the Plan set forth the entire understanding between the Participant and the Company regarding the Award and supersede all prior oral and written agreements on that subject with the exception of (i) Awards previously granted and delivered to the Participant by the Company, and (ii) any agreements referenced in this Restricted Stock Unit Award Notice. This Award Notice may be executed in one or more counterparts, each of which shall be deemed to be an original but all of which together will constitute one and the same agreement.

Restricted Stock Unit Award Agreement (Director)

RESTRICTED STOCK UNIT AWARD AGREEMENT
UNDER THE
BKV CORPORATION 2022 EQUITY AND INCENTIVE PLAN

Pursuant to the Restricted Stock Unit Award Notice attached hereto (the " **Award Notice**"), and subject to the terms of this Restricted Stock Unit Award Agreement (this "**Agreement**") and the BKV Corporation 2022 Equity and Incentive Plan (the " **Plan**"), BKV Corporation, a Delaware corporation (the "**Company**"), and the Participant agree as follows. Capitalized terms not otherwise defined in this Agreement or in the Award Notice will have the same meanings as set forth in the Plan.

1. Award of Restricted Stock Units. Subject to the terms and conditions set forth herein and in the Plan, the Company hereby grants to the Participant Restricted Stock Units, as set forth in the Award Notice, subject to adjustment as provided in the Plan, and each of which, if vested pursuant to this Agreement, will be settled in one (1) Common Share, at the time and subject to the terms, conditions and restrictions set forth in this Agreement and the Plan. Unless and until the Restricted Stock Units vest in accordance with this Agreement, Participant will have no right to receive any Common Shares or other payment in respect of the Restricted Stock Units. Prior to settlement of the Restricted Stock Units, the Restricted Stock Units and this Agreement represent an unsecured obligation of the Company, payable only from the general assets of the Company.

2. Vesting.

    a. Vesting Schedule. Except as otherwise provided in this Agreement or the Plan, the Restricted Stock Units will vest in the amounts and on the date as indicated in the RSU Vesting Schedule set forth in the Award Notice (the "**RSU Vesting Date**"), provided the Participant remains in the Service of the Company or a Subsidiary through the RSU Vesting Date. Except as otherwise provided in this Agreement or the Plan, or as otherwise determined by the Committee, any Restricted Stock Units that have not vested as of the date of the Participant's termination of Service, including by removal in accordance with the Company's Certificate of Incorporation, as then in effect, or by resignation of the Participant, shall be forfeited and terminate.

b. Death or Termination by the Company due to Disability . Notwithstanding Section 2(a), if the Participant (i) dies while employed by the Company or a Subsidiary or (ii) the Company terminates the Participant's Service due to the Participant's Disability, the Restricted Stock Units shall vest.

3. Timing and Manner of Settlement; Issuance of Common Shares . As soon as practicable and, in any event, no later than 15 days, following the vesting of Restricted Stock Units, such vested Restricted Stock Units will be converted to Common Shares which the Company will issue and deliver to the Participant (either by delivering one or more certificates for such shares or by entering such shares in book entry form in the name of the Participant or depositing such shares for the Participant's benefit with any broker with which the Participant has an account relationship or the Company has engaged to provide such services under the Plan) and record such shares on the records of the Company. The Participant is responsible to pay all required taxes associated with the Restricted Stock Units (including the issuance of the Common Shares, the subsequent sale of the Common Shares and the receipt of dividend equivalents or dividends, if any).

4. Rights of Participant; Transferability .

a. No Right to Continued Service or Future Awards . Nothing in the Plan or in this Agreement confers upon the Participant any right to continue in the Service of the Company or any Subsidiary or interferes with or limits in any way the right of the Company or any Subsidiary to terminate the Service of the Participant in accordance with the Company's Certificate of Incorporation, as then in effect. The grant of Restricted Stock Units under this Agreement to the Participant is a voluntary, discretionary award being made on a one-time basis and it does not constitute a commitment to make any future awards.

b. Rights as a Shareholder . The Participant shall have no rights as a Shareholder with respect to any Common Shares subject to the Restricted Stock Units prior to the date as of which the Participant is actually recorded as the holder of such Common Shares upon the share records of the Company pursuant to Section 3 above.

c. Dividend Equivalents. Notwithstanding Section 4(b), from and after the Date of Grant and until the earlier of the time when (i) Common Shares are issued in accordance with Section 3 above or (ii) the Participant's right to receive Common Shares in payment of the Restricted Stock Units is forfeited in accordance with Section 2 of this Agreement, on the date that the Company pays a cash dividend (if any) to holders of Common Shares generally, the Participant shall be credited with an amount per Restricted Stock Unit equal to the amount of such dividend. Any amounts credited pursuant to the immediately preceding sentence shall be subject to the same applicable terms and conditions (including vesting, payment and forfeitability) as the Restricted Stock Units on which the dividend equivalents were credited, and such amounts shall be paid without interest at the same time the Common Shares are issued for the Restricted Stock Units to which they relate.

d. Non-Transferability. Except as otherwise expressly permitted by the Plan, no Restricted Stock Units may be assigned or transferred, or subjected to any lien, during the lifetime of the Participant, either voluntarily or involuntarily, directly or indirectly, by operation of law or otherwise. Except to the extent permitted by the Plan, any purported sale, pledge, assignment, transfer, attachment or encumbrance of such Restricted Stock Units shall be null, void and unenforceable against the Company.

5. Change in Control. Notwithstanding anything to the contrary in this Agreement, in the event of a Change in Control, if the Restricted Stock Units are not continued or assumed, or substituted or replaced with an award with respect to cash or shares of the acquiror or surviving entity in such Change in Control, in each case, with substantially equivalent terms and value as the Restricted Stock Units ("**Assumed**") or if the Participant's Service is terminated in connection with the Change in Control, any unvested Restricted Stock Units shall vest immediately prior to the Change in Control. In the event of a Change in Control in which the Restricted Stock Units are Assumed and the Participant's Service is not terminated in connection with the Change in Control, the Restricted Stock Units shall remain subject to the terms and conditions of this Agreement.

6. Securities Laws Restrictions. Notwithstanding any other provision of the Plan or this Agreement, the Company will not be required to issue any Common Shares pursuant to the vesting of the Restricted Stock Units if such issuance would constitute a violation of any applicable law or regulation or the requirements of any securities exchange or market system upon which the Common Shares may then be listed. In addition, Common Shares will not be issued hereunder unless (a) there is in effect with respect to such Common Shares a registration statement under the Securities Act of 1933, as amended (the "**Securities Act**"), or (b) in the opinion of legal counsel to the Company, the Common Shares are permitted to be issued in accordance with the terms of an applicable exemption from the registration requirements of the Securities Act. The inability of the Company to obtain from any regulatory body having jurisdiction the authority, if any, deemed by the Company's legal counsel to be necessary for the lawful issuance and sale of any Common Shares hereunder will relieve the Company of any liability in respect of the failure to issue such Common Shares as to which such requisite authority has not been obtained. As a condition to the issuance of any Common Shares hereunder, the Company may require the Participant to satisfy any requirements that may be necessary or appropriate to evidence compliance with any applicable law or regulation and to make any representation or warranty with respect to such compliance as may be requested by the Company.

7. Certain Definitions.

a. "**Disability**" shall mean the Participant's inability due to physical or mental incapacity, to perform the essential functions of the Participant's job, for one hundred eighty (180) days out of any three hundred sixty-five (365) day period or one hundred twenty consecutive days.

b. "**Service**" means a Participant's service to the Company as a Director. A change in the capacity in which the Participant renders service to the Company as a Director shall be treated as a termination of the Participant's Service, unless the Committee otherwise determines in its sole discretion.

8. Miscellaneous.

a. Relation to the Plan. This Agreement is subject to the terms of, the Plan, the terms of which are incorporated by reference in this Agreement in their entirety. In the event of any inconsistency between the provisions of this Agreement and the Plan, the terms of the Plan will prevail.

b. Section 409A. The Restricted Stock Units are intended to be exempt from the provisions of Section 409A of the Code or, if not so exempt, to comply with Section 409A of the Code and, wherever possible, this Agreement and the Plan shall be construed and administered to the fullest extent possible to reflect such intent. To the extent that any payment or benefit hereunder constitutes non-exempt "nonqualified deferred compensation" for purposes of Section 409A of the Code, and such payment or benefit would otherwise be payable or distributable hereunder by reason of the Participant's termination of Service, all references to the Participant's termination of Service shall be construed to mean a "separation from service" as defined in Section 409A of the Code (a "**Section 409A Separation from Service**"), and the Participant shall not be considered to have a termination of Service unless such termination constitutes a Section 409A Separation from Service. If, at the time of a Participant's Section 409A Separation from Service, (i) the Participant will be a specified employee (within the meaning of Section 409A of the Code and using the identification methodology selected by the Company from time to time) and (ii) the Company makes a good faith determination that an amount payable hereunder constitutes deferred compensation (within the meaning of Section 409A of the Code) the payment of which is required to be delayed pursuant to the six-month delay rule set forth in Section 409A of the Code in order to avoid taxes or penalties under Section 409A of the Code, then the Company will not pay such amount on the otherwise scheduled payment date but will instead pay it, without interest, on the tenth business day of the seventh month after such separation from service. In any case, a Participant will be solely responsible and liable for the satisfaction of all taxes and penalties that may be imposed on a Participant or for a Participant's account in connection with the Plan and this Agreement (including any taxes and penalties under Section 409A of the Code), and neither the Company nor any of its affiliates will have any obligation to indemnify or otherwise hold a Participant harmless from any or all of such taxes or penalties.

c. Successors and Assigns. This Agreement will be binding upon and inure to the benefit of the successors and permitted assigns of the Company. Subject to the restrictions on transfer set forth herein and in the Plan, this Agreement will be binding upon the Participant and the Participant's beneficiaries, executors and administrators.

d. Governing Law and Venue. This Agreement shall be governed by and construed in accordance with the laws of the State of Delaware, without regard to conflicts of laws provisions thereof. Any legal proceeding related to this Agreement will be brought in an appropriate Delaware court, and the parties to this Agreement consent to the exclusive jurisdiction of the court for this purpose.

e. Entire Agreement. This Agreement, the Award Notice and the Plan set forth the entire agreement and understanding of the parties to this Agreement with respect to the award of the Restricted Stock Units and supersedes all prior agreements, arrangements, plans and understandings relating to the award of the Restricted Stock Units and administration of the Plan.

f. Amendment and Waiver. The Committee may, in its sole discretion, amend this Agreement from time to time in any manner that is not inconsistent with the Plan; provided, however, that (a) no amendment shall materially impair the rights of the Participant under this Agreement without the Participant's consent, and (b) the Participant's consent shall not be required to an amendment that is deemed necessary by the Company to ensure compliance with Section 409A of the Code.

g. Construction; Severability. If a court of competent jurisdiction determines that any provision of this Agreement is invalid or unenforceable, then the invalidity or unenforceability of such provision shall not affect the validity or enforceability of any other provision of this Agreement and all other provisions shall remain in full force and effect.

Exhibit 10.18

FORM OF INDEMNITY AGREEMENT

THIS INDEMNITY AGREEMENT (this "***Agreement***"), dated [], 2022, is by and between BKV Corporation, a Delaware corporation (the "***Company***"), and [ ] ("***Indemnitee***").

WHEREAS, it is essential to the Company and its mission to retain and attract as officers and directors the most capable persons available;

WHEREAS, both the Company and Indemnitee recognize the risk of claims that are routinely asserted against officers and directors of public companies, and the associated costs of defending such claims;

WHEREAS, the Second Amended and Restated Certificate of Incorporation (as may be amended, restated or amended and restated from time to time, the "***Charter***") and the Amended and Restated Bylaws (as may be amended, restated or amended and restated from time to time, the " ***Bylaws***") of the Company provide certain indemnification rights to the officers and directors of the Company, as provided by Delaware law; and

WHEREAS, to induce Indemnitee to continue to serve as [a director/an executive officer] of the Company [or as a director/officer of another entity at the Company's request], the Company wishes to provide in this Agreement for the indemnification of and the advancing of expenses to Indemnitee to the fullest extent permitted by law (whether partial or complete) and as set forth in this Agreement, and, to the extent insurance is maintained, for the continued coverage of Indemnitee under the Company's directors' and officers' liability insurance policies.

NOW, THEREFORE, in consideration of the premises, the mutual covenants and agreements contained herein and Indemnitee's continuing to serve as [a director/an executive officer] of the Company, the parties hereto agree as follows:

1. Certain Definitions.

As used herein, the following words and terms shall have the following respective meanings (whether singular or plural):

"***Change in Control***" shall be deemed to have occurred upon the occurrence of any of the following events:

(i) the acquisition by any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Securities Exchange Act of 1934, as amended (the "***Exchange Act***")) (a "***Person***") of beneficial ownership (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of Voting Securities where such acquisition causes such Person to own 40% or more of the combined voting power of the then outstanding Voting Securities; *provided*, *however*, that for purposes of this subsection (i), the following acquisitions shall not be deemed to result in a Change in Control: (A) any acquisition by the Company or a wholly-owned subsidiary of the Company, (B) any acquisition directly from the Company that is approved by the Board of Directors of the Company (the "***Board of Directors***") prior to the transaction, (C) any acquisition by any Exempt Person or by any employee benefit plan (or related trust) sponsored or maintained by the Company or any corporation controlled by the Company or (D) any acquisition by any corporation pursuant to a transaction that complies with clauses (A) and (B) of paragraph (iii) of this definition;

(ii) the replacement of a majority of the Board of Directors over a two–year period of the directors who constituted the Board of Directors at the beginning of such period, and such replacement shall not have been approved by a vote of at least a majority of the directors then still in office who either were members of such Board of Directors at the beginning of such period or whose election as a member of such Board of Directors was previously so approved; *provided*, that any such person whose initial assumption of office is in connection with an actual or threatened election contest relating to the election of members of the Board of Directors or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board of Directors, including by reason of agreement intended to avoid or settle any such actual or threatened contest or solicitation, shall not be considered to have been so approved;

(iii) the consummation of a reorganization, merger or consolidation or the sale or other disposition of all or substantially all of the assets of the Company, whether in one or a series of related transactions ("***Business Combination***"), excluding, however, such a Business Combination pursuant to which (A) the individuals and entities who were the beneficial owners of the outstanding Voting Securities immediately prior to such Business Combination beneficially own, directly or indirectly, more than 50% of, respectively, the then outstanding shares of common stock and the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors of the entity resulting from such Business Combination in substantially the same proportions as their ownership of the common stock of the Company and Voting Securities immediately prior to such Business Combination (including, without limitation, an entity that as a result of such transaction owns the Company or all or substantially all of the Company's assets either directly or through one or more subsidiaries), and (B) at least a majority of the members of the board of directors of the corporation resulting from such Business Combination were members of the Board of Directors at the time of the execution of the initial agreement, or of the action of the Board of Directors, providing for such Business Combination; or

(iv) approval by the stockholders of the Company of a complete liquidation or dissolution of the Company except pursuant to a Business Combination that complies with clauses (A) and (B) of paragraph (iii) of this definition.

"***Claim***" means any threatened, pending or completed action, suit, arbitration, alternative dispute resolution mechanism, inquiry or investigation (including any internal investigation, and whether instituted by the Company or any other party or otherwise), administrative hearing, or any other threatened, pending or completed proceeding, whether brought by or in the right of the Company or any other party or otherwise, whether civil (including intentional and unintentional tort claims), criminal, administrative, investigative or other.

"***Corporate Status***" describes the status of a person who is or was a director, officer, employee, agent or fiduciary of the Company, or is or was serving at the request of the Company as a director, officer, employee, trustee, agent or fiduciary of another corporation, partnership, limited liability company, joint

venture, employee benefit plan, trust or other enterprise.

"***Exempt Person***" means each of Banpu Public Company Limited, a public company incorporated in and existing under the Laws of Thailand, and any corporation, company or other entity that is wholly owned by Banpu Public Company Limited, as of the relevant time.

"***Expenses***" shall include attorneys' fees and all other costs, expenses and obligations actually or reasonably paid or incurred in connection with investigating, defending, being a witness in, subject or target of, or participating in (including on appeal), or preparing to defend, be a witness in, subject or target of, or participate in, any Claim.

"***Independent Legal Counsel***" means an attorney or firm of attorneys, selected in accordance with the provisions of Section 3, who shall not have otherwise performed services for the Company, the Company's parent entity (if any), or Indemnitee within the last five years and who are not currently performing services for the Company, the Company's parent entity (if any), or Indemnitee, in each case, other than with respect to matters concerning the rights of Indemnitee under this Agreement, or of other indemnitees under similar indemnification agreements.

"***Reviewing Party***" means any appropriate person or body consisting of a member or members of the Board of Directors or any other person or body appointed by the Board of Directors who is not a party to, or witness or other participant in, nor threatened to be made a party to, or witness or participant in, the particular Claim for which Indemnitee is seeking indemnification, or Independent Legal Counsel.

"***Voting Securities***" means the voting securities of the Company entitled to vote generally in the election of directors of the Company.

2. Basic Indemnification and Advancement Arrangement.

(a) In the event Indemnitee was, is or becomes a party to, subject or target of, or witness or other participant in, or is threatened to be made a party to, subject or target of, or witness or other participant in, a Claim by reason of (or arising in part out of) Indemnitee's Corporate Status, the Company shall indemnify Indemnitee to the fullest extent permitted by law as soon as practicable but in any event no later than thirty (30) days after written demand is presented to the Company (which demand (i) may only be presented to the Company following the final judicial disposition of the Claim, as to which all rights of appeal therefrom have been exhausted or lapsed (a "***Final Disposition***"), and (ii) shall contain sufficient information to reasonably inform the Company about the nature and extent of the indemnification sought by Indemnitee), against any and all Expenses, judgments, fines, penalties and amounts paid or payable in settlement (including all interest, assessments and other charges paid or payable in connection with or in respect of such Expenses, judgments, fines, penalties or amounts paid or payable in settlement) of such Claim.

(b) If so requested in writing by Indemnitee (which such written request shall contain sufficient information to reasonably inform the Company about the nature and extent of the Expense Advance (as defined below) sought by Indemnitee), prior to the Final Disposition of a Claim, the Company shall advance (within thirty (30) calendar days of such request) any and all Expenses actually and reasonably incurred by or on behalf of Indemnitee (including, without limitation, Expenses actually and reasonably billed to or on behalf of Indemnitee) in connection with any such Claim (an "***Expense Advance***").

(c) Notwithstanding the foregoing, (i) the obligations of the Company to indemnify Indemnitee under Section 2(a) shall be subject to the condition that the Reviewing Party shall not have determined (in a written determination, or, in any case in which the Independent Legal Counsel referred to in Section 3 hereof is involved, in a written opinion) that Indemnitee would not be permitted to be indemnified under applicable law, and (ii) the obligation of the Company to make an Expense Advance pursuant to Section 2(b) shall be subject to the condition that, if the Reviewing Party determines in good faith that Indemnitee would not be permitted to be indemnified under applicable law, the Company shall be entitled to be reimbursed by Indemnitee (who hereby agrees to reimburse the Company) for all such amounts theretofore paid; *provided*, *however*, that if Indemnitee has commenced or thereafter commences legal proceedings in a court of competent jurisdiction to secure a determination that Indemnitee should be indemnified under applicable law, any determination made by the Reviewing Party that Indemnitee would not be permitted to be indemnified under applicable law shall not be binding and Indemnitee shall not be required to reimburse the Company for any Expense Advance until a Final Disposition is made with respect thereto. If there has not been a Change in Control, the Reviewing Party shall be selected by the Board of Directors, and if there has been such a Change in Control, the Reviewing Party shall be the Independent Legal Counsel referred to in Section 3 hereof. If there has been no determination by the Reviewing Party as contemplated by this Section 2(c) or if the Reviewing Party determines that Indemnitee substantively would not be permitted to be indemnified in whole or in part under applicable law, Indemnitee shall have the right to commence litigation in the Court of Chancery of the State of Delaware seeking to enforce Indemnitee's rights to indemnification and advancement hereunder or challenging any such determination by the Reviewing Party or any aspect thereof, including the legal or factual bases therefor, and, in all events, the Company hereby consents to service of process and agrees to appear in any such proceeding. Any determination by the Reviewing Party that Indemnitee is entitled to indemnification shall be conclusive and binding on the Company and Indemnitee. Any determination by the Reviewing Party that Indemnitee is not permitted to be indemnified (in whole or in part) under applicable law shall be in writing (or, in any case in which the Independent Legal Counsel referred to in Section 3 hereof is involved, set forth in a written opinion).

3. Change in Control.

(a) The Company agrees that if there is a Change in Control of the Company then with respect to all matters thereafter arising concerning the rights of Indemnitee to indemnity payments and Expense Advances under this Agreement or any other agreement or the Bylaws or Charter provision now or hereafter in effect, the Company shall seek legal advice only from Independent Legal Counsel selected by Indemnitee and approved by the Company (which approval shall not be unreasonably withheld). Such counsel, among other things, shall render its written opinion to the Company and Indemnitee as to whether and to what extent Indemnitee would be permitted to be indemnified under applicable law.

(b) If (i) a written opinion with respect to Indemnitee's entitlement to indemnification hereunder is to be made by Independent Legal Counsel pursuant to Section 3(a) and (ii) within twenty (20) days after submission by Indemnitee of a written request for indemnification pursuant to Section 2(a), no Independent Legal Counsel shall have been selected by Indemnitee and approved by the Company, the Company or the Indemnitee may petition the Court of Chancery of the State of Delaware or other court of competent jurisdiction for resolution of any objection which shall have been made by the Company to the Indemnitee's selection of Independent Legal Counsel and/or for the appointment as Independent Legal Counsel of a person selected by the petitioned court or by such other person as the petitioned court shall designate, and the person with respect to whom all objections are so resolved or the person so appointed shall act as Independent Legal Counsel under this Section 3. If (A) the Independent Legal Counsel does not render a written opinion to the Company and Indemnitee with respect to Indemnitee's entitlement to indemnification hereunder within ninety (90) days after submission by Indemnitee of a written request therefor pursuant to Section 2(a) and (B) Indemnitee commences a legal proceeding in a court of competent jurisdiction to secure a determination that Indemnitee should be indemnified under applicable law, the Independent Legal Counsel shall be discharged and relieved of any further responsibility in such capacity (subject to the applicable standards of professional conduct then prevailing).

(c) The Company agrees to pay the reasonable fees of the Independent Legal Counsel referred to in this Section 3 and to fully indemnify such counsel against any and all expenses (including reasonable attorneys' fees), claims, liabilities and damages arising out of or relating to this Agreement or its engagement pursuant hereto.

4. Indemnification for Additional Expenses. The Company shall (i) indemnify Indemnitee (to the extent Indemnitee is successful on the merits or otherwise in the action provided for in this Section 4) against any and all Expenses (including reasonable attorneys' fees) and, (ii) if requested in writing by Indemnitee, advance (within thirty (30) calendar days of such request) such Expenses to Indemnitee (and Indemnitee hereby agrees to reimburse the Company for any amounts so advanced if, when, and to the extent Indemnitee is not successful on the merits or otherwise in the action provided for in this Section 4), which are incurred by Indemnitee in connection with any action brought by Indemnitee (whether pursuant to Section 23 of this Agreement or otherwise), in each case, for (a) indemnification or advance payment of Expenses by the Company under this Agreement or any other agreement or the Bylaws or Charter provision now or hereafter in effect or (b) recovery under any directors' and officers' liability insurance policies maintained by the Company, in all cases, to the fullest extent permitted by law.

5. Proceedings Against the Company; Certain Securities Laws Claims .

(a) Anything in this Agreement to the contrary notwithstanding, except as provided in Section 4 hereof, with respect to a Claim initiated against the Company by Indemnitee (whether initiated by Indemnitee in or by reason of such person's capacity as an officer or director of the Company or in or by reason of any other capacity), the Company shall not be required to indemnify or to advance Expenses to Indemnitee in connection with prosecuting such Claim (or any part thereof) or in defending any counterclaim, cross-claim, affirmative defense, or like claim of the Company in connection with such Claim (or part thereof) unless such Claim was authorized by the Company's Board of Directors. For purposes of this Section 5, a compulsory counterclaim by Indemnitee against the Company in connection with a Claim initiated against Indemnitee by the Company shall not be considered a Claim (or part thereof) initiated against the Company by Indemnitee, and Indemnitee shall have all rights of indemnification and advancement with respect to any such compulsory counterclaim in accordance with and subject to the terms of this Agreement.

(b) Anything in this Agreement to the contrary notwithstanding, except as provided in Section 6 hereof with respect to indemnification of Expenses in connection with whole or partial success on the merits or otherwise in defending any Claim, the Company shall not be required to indemnify Indemnitee in connection with any Claim made against Indemnitee for (i) an accounting of profits made from the purchase and sale (or sale and purchase) by Indemnitee of securities of the Company within the meaning of Section 16(b) of the Exchange Act or similar provisions of state statutory law or common law, or (ii) any reimbursement of the Company by Indemnitee of any bonus or other incentive-based or equity-based compensation or of any profits realized by Indemnitee from the sale of securities of the Company, as required in each case under the Exchange Act (including any such reimbursements that arise from an accounting restatement of the Company pursuant to Section 304 of the Sarbanes-Oxley Act of 2002 (the "***Sarbanes-Oxley Act***"), or the payment to the Company of profits arising from the purchase and sale by Indemnitee of securities in violation of Section 306 of the Sarbanes-Oxley Act).

6. Partial Indemnity and Success on the Merits. If Indemnitee is entitled under any provision of this Agreement to indemnification by the Company for some or a portion of the Expenses, judgments, fines, penalties and amounts paid or payable in settlement of a Claim but not, however, for all of the total amount thereof, the Company shall nevertheless indemnify Indemnitee for the portion thereof to which Indemnitee is entitled. Moreover, notwithstanding any other provision of this Agreement, to the extent that Indemnitee is successful, on the merits or otherwise, in whole or in part, in defending a Claim (including dismissal without prejudice), or in defense of any claim, issue or matter therein, Indemnitee shall be indemnified to the fullest extent permitted by law against all Expenses actually and reasonably incurred by Indemnitee or on Indemnitee's behalf in connection therewith.

7. Burden of Proof. In connection with any determination by the Reviewing Party or otherwise as to whether Indemnitee is entitled to be indemnified hereunder or otherwise, the burden shall be on the Company to prove by clear and convincing evidence that Indemnitee is not so entitled.

8. No Presumptions. For purposes of this Agreement, the termination of any Claim, by judgment, order, settlement (whether with or without court approval) conviction, or otherwise, or upon a plea of *nolo contendere*, or its equivalent, shall not create a presumption that Indemnitee did not meet any particular standard of conduct or have any particular belief or that a court has determined that indemnification is not permitted by applicable law. In addition, neither the failure of the Reviewing Party to have made a determination as to whether Indemnitee has met any particular standard of conduct or had any particular belief, nor an actual determination by the Reviewing Party that Indemnitee has not met such standard of conduct or did not have such belief, prior to the commencement of legal proceedings by Indemnitee to secure a judicial determination that Indemnitee should be indemnified under applicable law shall be a defense to Indemnitee's claim or create a presumption that Indemnitee has not met any particular standard of conduct or did not have any particular belief.

9. Settlement. Indemnitee shall be entitled to settle any Claim, in whole or in part, in such Indemnitee's sole discretion. To the fullest extent

permitted by law, any settlement of a Claim by Indemnitee shall be deemed the Final Disposition of such Claim for all purposes of this Agreement. The Company acknowledges that a settlement or other disposition short of final judgment on the merits may be successful if it permits a party to avoid expense, delay, distraction, disruption, and uncertainty. In the event that any Claim is resolved other than by adverse judgment against Indemnitee (including, without limitation, settlement of such Claim with or without payment or other consideration) it shall be presumed that Indemnitee has been successful on the merits or otherwise in such Claim. Any individual or entity seeking to overcome this presumption shall have the burden to prove by clear and convincing evidence that Indemnitee has not been successful on the merits or otherwise in such Claim.

10. Nonexclusivity; Subsequent Change in Law. The rights of Indemnitee hereunder shall be in addition to any other rights Indemnitee may have under the Bylaws or Charter, under Delaware law, any agreement, a vote of stockholders or a resolution of directors or otherwise. To the extent that a change in Delaware law (whether by statute or judicial decision) permits greater indemnification by agreement than would be afforded currently under the Bylaws and Charter and this Agreement, it is the intent of the parties hereto that Indemnitee shall enjoy by this Agreement the greater benefits so afforded by such change.

11. Liability Insurance. To the extent the Company maintains an insurance policy or policies providing directors' and officers' liability insurance, Indemnitee shall be covered by such policy or policies, in accordance with its or their terms, to the maximum extent of the coverage available for any Company director or officer.

12. Amendments; Waiver. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing by both of the parties hereto. The observance of any term of this Agreement may be waived (either generally or in a particular instance and either retroactively or prospectively) by the party entitled to enforce such term only by a writing signed by the party against which such waiver is to be asserted. Unless otherwise expressly provided herein, no delay on the part of any party hereto in exercising any right, power or privilege hereunder shall operate as a waiver thereof, nor shall any waiver of any of the provisions of this Agreement be deemed or constitute a waiver of any other provisions hereof (whether or not similar) nor shall such waiver constitute a continuing waiver.

13. Subrogation. In the event of payment under this Agreement, the Company shall be subrogated to the extent of such payment to all of the rights of recovery of Indemnitee, who shall execute all papers required and shall do everything that may be necessary to secure such rights, including the execution of such documents necessary to enable the Company effectively to bring suit to enforce such rights.

14. No Duplication of Payments. The Company shall not be liable under this Agreement to make any payment in connection with any Claim made against Indemnitee to the extent Indemnitee has otherwise actually received payment (under any insurance policy, the Bylaws or otherwise) of the amounts otherwise indemnifiable hereunder.

15. Notices. Promptly after receipt by Indemnitee of notice of the commencement of any Claim, Indemnitee shall, if he or she anticipates or contemplates making a claim for Expenses or an advance pursuant to the terms of this Agreement, notify the Company of the commencement of such Claim; *provided*, *however*, that any delay in so notifying the Company shall not constitute a waiver or release by Indemnitee of rights hereunder and that any omission by Indemnitee to so notify the Company shall not relieve the Company from any liability that it may have to Indemnitee otherwise than under this Agreement. Any communication required or permitted to the Company shall be addressed to the Secretary of the Company and any such communication to Indemnitee shall be addressed to the Indemnitee's address as shown on the Company's records unless the Indemnitee specifies otherwise and shall be personally delivered or delivered by overnight mail delivery or sent by electronic mail. Any such notice shall be effective upon receipt.

16. Binding Effect. This Agreement shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective successors, assigns, administrators, heirs, executors and personal and legal representatives. The Company agrees that in the event the Company or any of its successors (including any successor resulting from the merger or consolidation of the Company with another corporation or entity where the Company is the surviving corporation or entity) or assigns (i) consolidates with or merges into any other corporation or entity and shall not be the continuing or surviving corporation or entity of such consolidation or merger or (ii) transfers or conveys all or substantially all of its properties and assets to any corporation or entity, then, and in each such case, to the extent necessary, proper provision shall be made so that the successors and assigns of the Company as a result of such transaction assume the obligations of the Company set forth in this Agreement. This Agreement shall continue in effect regardless of whether Indemnitee continues to serve as a director, officer, employee, agent or fiduciary of the Company or of any other enterprise at the Company's request.

17. Severability. The provisions of this Agreement shall be severable in the event that any of the provisions hereof (including any provision within a single section, paragraph or sentence) is held by a court of competent jurisdiction to be invalid, void or otherwise unenforceable in any respect, and the validity and enforceability of any such provision in every other respect and of the remaining provisions hereof shall not be in any way impaired and shall remain enforceable to the fullest extent permitted by law.

18. Entire Agreement. This Agreement and the documents referred to herein constitute the entire agreement between the parties hereto with respect to the matters covered hereby, and any other prior or contemporaneous oral or written understandings or agreements with respect to the matters covered hereby are superseded by this Agreement.

19. Governing Law. This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of Delaware applicable to contracts made and to be performed in such state without giving effect to the principles of conflicts of laws.

20. Headings. The Section headings in this Agreement are for convenience of reference only, and shall not be deemed to alter or affect the meaning or interpretation of any provisions hereof.

21. Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed to be an original and all of which together shall be deemed to be one and the same instrument.

22. Use of Certain Terms. As used in this Agreement, the words "herein," "hereof," and "hereunder" and other words of similar import refer to this Agreement as a whole and not to any particular paragraph, subparagraph, section, subsection, or other subdivision. Whenever the context may require, any pronoun used in this Agreement shall include the corresponding masculine, feminine or neuter forms, and the singular form of nouns, pronouns and verbs shall include the plural and vice versa.

23. Injunctive Relief. The parties hereto agree that Indemnitee may enforce this Agreement by seeking specific performance hereof, without any necessity of showing irreparable harm or posting a bond, which requirements are hereby waived, and that by seeking specific performance, Indemnitee shall not be precluded from seeking or obtaining any other relief to which he or she may be entitled.

EXECUTION VERSION

EMPLOYMENT AGREEMENT

This EMPLOYMENT AGREEMENT (this "Agreement") is entered into on August 4, 2020 by and between BKV Corporation, a Delaware corporation (the "Corporation"), and Christopher Pungya Kalnin ("Executive"). In consideration of the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Certain Definitions. Certain words or phrases used herein with initial capital letters shall have the meanings set forth in paragraph 8 hereof.

2. Employment. The Corporation offers to employ Executive with the Corporation, and Executive accepts such employment with the Corporation, upon and subject to the terms and conditions set forth in this Agreement for the period beginning on May 1, 2020 (the "Effective Date") and ending as provided in paragraph 5 hereof (the "Employment Period"), it being understood that the parties agree to renegotiate, in good faith, the terms and conditions of Executive's employment with the Corporation in the event the Employment Period has not concluded by December 31, 2030.

3. Position and Duties.

(a) During the Employment Period, Executive shall serve as the Chief Executive Officer (" CEO") of the Corporation and/or an executive of any subsidiary of the Corporation as may be designated by the Corporation and agreed upon by Executive from time to time (such subsidiaries, collectively, the "Group Companies" and, each and any of them, a "Group Company") and shall have the normal duties, responsibilities and authority of an executive serving in such position subject to the terms and conditions of the Stockholders' Agreement, the Bylaws, and the work rules and internal policies established by the Board, in good faith, from time to time. For so long as Executive holds the position of CEO, the Corporation shall use its good faith efforts to nominate Executive for election and re-election to the Board and to procure his election thereto at any applicable meeting of shareholders held for the purpose of electing directors, and Executive agrees to serve on the Board. Executive agrees that, unless specifically addressed in writing by the Corporation's parent entity, Executive's separation from employment or termination as the Corporation's CEO shall constitute his immediate and automatic resignation from the Board.

(b) During the Employment Period, Executive shall report solely to the Board.

(c) During the Employment Period, Executive shall devote all of Executive's reasonable best efforts and Executive's full business time and attention (except for permitted paid time off periods and reasonable periods of illness or other incapacity) to the Business; provided, however, that Executive may (i) engage in charitable and civic activities, (ii) manage his personal and/or family finances and/or investments, and (iii) subject to the consent of the Board, serve on any board of directors for other public or private companies, in each case so long as such activities do not compete with the Business, create any conflict with the interest of any Group Company or materially interfere, individually or in the aggregate, with the performance of his duties hereunder.

(d) Executive shall perform Executive's duties and responsibilities to the best of Executive's abilities in a diligent, trustworthy, businesslike and efficient manner.

(e) During the Employment Period, Executive shall perform Executive's duties and responsibilities principally at the Corporation's headquarters in Denver, Colorado area; provided, however, that Executive acknowledges that he may from time to time be required to engage in travel in connection with the performance of his duties hereunder.

4. Compensation and Benefits.

(a) Salary. Under this Agreement, Executive's initial annual base salary shall be $500,000.00, payable in 12 monthly installments based on the Corporation's payroll practices in the amount of $41,666.67 per month (prorated for any partial month). The annual base salary of Executive in effect from time to time is hereinafter referred to as the "Base Salary". The Board shall review the Base Salary annually commencing in the 2021 Financial Year and may, in its sole discretion, increase it.

(b) Annual Incentive Compensation. During the Employment Period, Executive will be eligible to receive an annual incentive compensation payment, based on the achievement of goals reasonably determined in good faith by the Board, which may include Executive's historical and anticipated future performance, the Business's growth and profitability, and other relevant considerations (the "Annual Incentive Compensation").

(i) Target of Annual Incentive Compensation. During the Employment Period, with respect to the 2020 Financial Year and each Financial Year thereafter, Executive's target incentive compensation amount is equal to 100% of the amount of the Base Salary for such Financial Year ("Target Incentive Compensation Amount").

(ii) Payment of Annual Incentive Compensation. The Annual Incentive Compensation will be calculated on a sliding scale, with ranges above and below target, consistent with the Annual Incentive Compensation calculations prepared by the Corporation's compensation committee for the Board, as approved by the Board, and provided to Executive during the applicable Financial Year. Except as otherwise set forth herein, Executive will be required to be employed by the Corporation on December 31st of the Financial Year to which the Annual Incentive Compensation relates in order to be eligible to receive the applicable Annual Incentive Compensation payment under this subparagraph 4(b). The Annual Incentive Compensation will be paid by no later than March 15th of the Financial Year following the Financial Year to which such Annual Incentive Compensation relates.

(c) Paid Time Off. During the Employment Period, Executive shall be entitled to eight (8) weeks of paid time off during each Financial Year (prorated for any partial Financial Year). Any accrued paid time off that is not used in the Financial Year in which it is earned will not be eligible to be carried forward to, or otherwise used in, any subsequent Financial Year.

(d) Holidays. During the Employment Period, Executive shall be entitled to holidays consistent with the Corporation's policy established by the Board, which may be amended from time to time by the Board.

(e) Standard Benefits Package. Executive shall be eligible during the Employment Period to participate, on the same basis as other employees of the Corporation, in the Corporation's Standard Benefits Package. The Corporation's "Standard Benefits Package" means those benefits that are offered to all employees of the Corporation on a uniform and nondiscriminatory basis, including health insurance coverage and participation in a 401(k) plan, if such programs are sponsored by the Corporation.

(f) Long-Term Incentive Compensation. With respect to each Financial Year during the Employment Period beginning with the 2020 Financial Year, Executive shall be eligible to participate in the Corporation's 2020 Employee Equity Incentive Plan, maintained by the Corporation (and any successor plan thereto) (the "Equity Plan") at a level commensurate with his position as CEO. Notwithstanding anything herein to the contrary, it is agreed that each year for a period of four years (2020, 2021, 2022 and 2023) Executive shall be granted an equity award in the form of restricted stock units (each an "Annual RSU Grant") that is equal to, at least, 325,900 shares of the share reserve under the Equity Plan per year in accordance with and subject to the terms of the Equity Plan.

5. Employment Period. The Employment Period shall end early upon the first to occur of any of the following events:

(a) Executive's death;

(b) a separation of Executive's employment hereunder that is effected by the Corporation due to Executive's Permanent Disability;

(c) the Corporation and Executive mutually agree in writing to terminate this Agreement without agreeing to enter into a new employment contract that would become effective on or about the time that this Agreement terminates;

(d) a Separation For Cause;

(e) a Separation Without Cause;

(f) a Separation With Good Reason; or

(g) a Voluntary Separation.

6. Post-Employment Payments.

(a) At the end of Executive's employment for any reason, Executive shall cease to have any rights to salary, equity awards, expense reimbursements or other benefits, except that Executive shall be entitled to (i) any portion of the Base Salary which has accrued but is unpaid, (ii) any Annual Incentive Compensation set forth in subparagraph 4(b) above that has been earned for a prior Financial Year but is unpaid, (iii) any reimbursable expenses which have been incurred but are unpaid, (iv) any paid time off days which have accrued pursuant to the Corporation's paid time off policy, as in effect from time to time, but are unused, as of the end of the Employment Period, and (v) any benefits to which Executive is entitled under Part 6 of Subtitle B of Title I of the Employee Retirement Income Security Act of 1974, as amended ("COBRA") (the foregoing (i) through (v) being, the "Accrued Rights").

(b) If the Employment Period ends pursuant to paragraph 5 on account of a Separation For Cause or a Voluntary Separation, the Corporation shall pay Executive (i) the Accrued Rights and (ii) any option or other equity-grant rights or plan benefits to the extent that they have already vested in accordance with the Corporation's Equity Plan by the time of such separation.

(c) If the Employment Period ends pursuant to paragraph 5 on account of a Separation Without Cause or a Separation With Good Reason, any outstanding Annual RSU Grant shall become vested and the Corporation shall pay Executive (i) the Accrued Rights and (ii) an amount equal to 200% of the aggregate amount of the Base Salary plus the Target Incentive Compensation Amount at the time of such separation. The amounts payable under clause (ii) of the preceding sentence shall be paid in a lump sum on the 61st day after the date on which such separation of employment occurs (the "Severance Payment Date"), it being understood that the amounts payable under clause (i) of the preceding sentence shall be payable in accordance with applicable law or their applicable terms, but in no event later than the Severance Payment Date.

(d) If the Employment Period ends pursuant to paragraph 5 on account of a Separation Without Cause or Separation With Good Reason, if Executive elects continuation coverage under the Corporation's medical plan pursuant to COBRA, the Corporation shall reimburse Executive (provided such reimbursement does not result in material taxes or penalties for the Corporation) for the full amount of Executive's COBRA premium payments for such coverage and his eligible dependents until the earlier of (i) Executive's eligibility for any such coverage under another employer's or any other medical plan or (ii) the date that is eighteen (18) months following the separation of Executive's employment. The Corporation shall make any such reimbursement within thirty (30) days following receipt of evidence from Executive of Executive's payment of the COBRA premium.

(e) It is expressly understood that the Corporation's payment obligations under subparagraphs 6(b), 6(c) or 6(d), as applicable, shall cease in the event Executive breaches in any material respect any of the agreements in paragraphs 7 or 9 hereof. Each payment under subparagraphs 6(b), 6(c) or 6(d), as applicable, shall be considered a separate payment and not one of a series of payments for purposes of Section 409A.

(f) Executive shall not be required to mitigate the amount of any payment provided for under subparagraphs 6(b), (c) or 6(d), as applicable,

by seeking other employment and such amounts shall not be reduced whether or not Executive obtains other employment, except as provided in subparagraph 6(e).

(g) Release. Notwithstanding anything in this Agreement to the contrary, the Corporation shall not be obligated to make any payment under subparagraphs 6(b), 6(c) or 6(d), as applicable, unless (1) Executive timely executes the Release Agreement attached hereto as Exhibit A within the Consideration Period (as defined therein) and (ii) Executive does not revoke such execution or signature within the Revocation Period (as defined therein).

7. Competitive Activity; Confidentiality; Non-Solicitation.

(a) Acknowledgements and Agreements. Executive hereby understands and agrees that trade secrets and Confidential Information of the Corporation and the Group Companies, more fully described in subparagraph 7(e)(i), gained by Executive during Executive's association with the Corporation or any Group Company, have been developed by the Corporation or such Group Company (as applicable) through substantial expenditures of time, effort and money and constitute valuable and unique property of the Corporation or such Group Company (as applicable). Executive further understands and agrees that the foregoing makes it necessary for the protection of the Business that Executive not compete with the Corporation or any Group Company during his employment with the Corporation, and not compete with the Corporation or any Group Company for a reasonable period thereafter, as further provided in the following subparagraphs. In consideration for Executive's receipt of trade secrets and Confidential Information, Executive agrees to the following restrictive covenants:

(b) Covenants.

(i) Covenants During Employment. While being employed by the Corporation, Executive will not compete with the Corporation or any Group Company anywhere in the world. In accordance with this restriction, but without limiting its terms, while employed by the Corporation, Executive will not do or attempt to do any of the following:

(A) entering into or engaging in any business which competes with the Business;

(B) soliciting any customers, business, assets, investments or patronage (or customer, business, asset, investment or patronage prospects) for, or selling, any products or services in competition with or for, any business that competes with the Business;

(C) diverting, enticing or otherwise taking away any customers, business, assets or investments or patronage (or customer, business, asset, investment or patronage prospects) of the Corporation or any Group Company; or

(D) promoting, managing or assisting, financially or otherwise, any Person, firm, association, partnership, corporation or other entity engaged in any business which competes with the Business.

(ii) Covenants Following Separation. For a period of eighteen (18) months following a separation of Executive's employment, Executive shall not:

(A) enter into or engage in any business which competes with the Business within the Restricted Territory;

(B) solicit any known customers, business, assets, investments or patronage (or customer, business, asset, investment or patronage prospects) for, or sell, any products or services in competition with or for, any business that competes with the Business within the Restricted Territory;

(C) divert, entice or otherwise take away any known customers, business, assets or investments or patronage (or customer, business, asset, investment or patronage prospects) of the Corporation or any Group Company within the Restricted Territory; or

(D) promote, manage or assist, financially or otherwise, any Person, firm, association, partnership, corporation or other entity engaged in any business which competes with the Business within the Restricted Territory.

Notwithstanding the foregoing, following a separation of Executive's employment as a result of a Separation Without Cause or a Separation With Good Reason, Executive shall not be considered to have breached this subparagraph 7(b)(ii) if Executive provides services to a business unit, division or subsidiary of an entity that otherwise competes with the Business through another business unit, division or subsidiary of such entity, so long as Executive only provides services to the business unit, division or subsidiary that does not compete with the Business and Executive takes no actions that would compete with the Business or otherwise violate any of the provisions of this paragraph 7 or of paragraph 9. For purposes of this subparagraph 7(b)(ii), customers, business or patronage (or active customer, business or patronage prospects) shall be presumed as "known" to the extent the Corporation, in good faith, treated such customers, business or patronage (or active customer, business or patronage prospects) as such at any time during the twelve (12) month period prior to Executive's separation of employment.

(iii) Indirect Competition. For the purposes of subparagraphs 7(b)(i) and (ii), but without limiting such provisions, Executive will be in violation thereof if Executive engages in any or all of the activities set forth therein directly as an individual on Executive's own account, or indirectly as a partner, joint venturer, employee, agent, salesperson, consultant, officer and/or director of any firm, association, partnership, corporation or other entity, or as a shareholder of any corporation (or owner of any other type of equity interest in any other entity) in which Executive or Executive's spouse (to the extent Executive and Executive's spouse are not legally separated), minor child or parent sharing the same household as Executive owns, directly or indirectly,

individually or in the aggregate, more than one percent (1%) of the outstanding stock or other equity interests.

(iv) If it is judicially determined, or by consent of Executive, that Executive has violated this subparagraph 7(b) and the Corporation obtains an order, injunction or other equitable relief, then the period applicable to each obligation that Executive has been determined to have violated will be automatically extended by a period of time equal in length to the period during which such violation occurred.

(c) The Corporation. For purposes of this paragraph 7, the Corporation shall include the Corporation, the Group Companies and any and all other direct and indirect subsidiary, parent, affiliated, or related companies of the Corporation for which Executive worked or had responsibility at the time of separation of his employment and at any time prior to such separation.

(d) Non-Solicitation; Non-Association. Executive will not directly or indirectly at any time during the period of Executive's employment, or for a period eighteen (18) months following a separation of Executive's employment, disrupt, damage, impair or interfere with the Business by raiding any of the Corporation's or any Group Company's employees, soliciting any of them to resign from their employment by the Corporation or such Group Company (as applicable) or associating with any of them for the express purpose of encouraging them to resign from their employment by the Corporation or such Group Company (as applicable), or by disrupting the relationship between the Corporation or any Group Company and any of its consultants, agents or representatives, or attempt to do any of the foregoing; provided, however, that this subparagraph 7(d) shall not prohibit Executive from providing references for the Corporation's or a Group Company's employees, when contacted by a prospective employer. Executive acknowledges that this covenant is necessary to enable the Corporation and the Group Companies to maintain a stable workforce and remain in business.

(e) Further Covenants.

(i) Executive will keep in strict confidence, and will not, directly or indirectly, at any time, during or after Executive's employment with the Corporation, disclose, furnish, disseminate, make available or, except in the course of performing Executive's duties of employment, use any trade secrets, proprietary data and information relating to the Corporation or any Group Company's past, present, or future business and products, price lists, customer lists, customer contracts, processes, procedures, plans or standards, know-how, manuals, business strategies, records, drawings, specifications, designs, financial information, whether or not reduced to writing, registered or labeled as confidential, or information or data that the Corporation or any Group Company advises Executive should be treated as confidential information, including without limitation as to when or how Executive may have acquired such information ("Confidential Information"), except (A) as required in the performance of his duties to the Corporation, (B) to the extent that Executive is required by law, or requested by subpoena, court order or governmental, regulatory or self-regulatory body with apparent authority to disclose any Confidential Information (provided that in such case, Executive shall (x) provide the Board, to the extent legally permitted, with notice as soon as practicable following such request that such disclosure has been requested or is or may be required, (y) reasonably cooperate with the Board, at the Corporation's expense, in protecting, to the maximum extent legally permitted, the confidential or proprietary nature of such Confidential Information, and (z) disclose only that Confidential Information which he is legally required to disclose), (C) disclosing information that has been or is hereafter made public through no act or omission of Executive in violation of this Agreement, the Stockholders' Agreement or any other confidentiality obligation or duty owed to the Corporation or any Group Company, (D) disclosing information and documents to his attorney or tax adviser for the purpose of securing legal or tax advice (provided that such advisors undertake to the Corporation to keep such information confidential), or (E) disclosing information and documents to the extent reasonably appropriate in connection with any litigation or arbitration between Executive and the Corporation or any Group Company. Executive specifically acknowledges that all such Confidential Information, whether reduced to writing, maintained on any form of electronic media, or maintained in the mind or memory of Executive and whether compiled by the Corporation or any Group Company, and/or Executive, derives independent economic value from not being readily known to or ascertainable by proper means by others who can obtain economic value from its disclosure or use, that reasonable efforts have been made by the Corporation and the Group Companies to maintain the secrecy of such information, that such information is the sole property of the Corporation or the Group Companies (as applicable) and that any retention and use of such information by Executive during Executive's employment with the Corporation (except in the course of performing Executive's duties and obligations to the Corporation) or after the separation of Executive's employment shall constitute a misappropriation of the Corporation's and the Group Companies' trade secrets.

(ii) The U.S. Defend. Trade Secrets Act of 2016 ("DTSA") provides that an individual shall not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that (A) is made in confidence to a federal, state or local government official, either directly or indirectly, or to an attorney, and solely for the purpose of reporting or investigating a suspected violation of law; or (B) is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. In addition, the DTSA provides that an individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding, if the individual files any document containing the trade secret under seal and does not disclose the trade secret, except pursuant to court order.

(iii) Executive agrees that upon separation of Executive's employment with the Corporation, for any reason, Executive shall return to the Corporation, in good condition, all property of the Corporation, including without limitation, the originals and all copies of any documents and materials which are under his possession and contain, reflect, summarize, describe, analyze or refer or relate to any items of information listed in subparagraph 7(e)(i) of this Agreement. Notwithstanding the foregoing, Executive shall be permitted to retain or copy (A) his contacts, calendar and personal correspondence, and (B) any documents or information related to his compensation or reasonably needed for Executive's tax purposes.

(iv) Nothing in this Agreement prevents Executive from, providing, without prior notice to the Corporation, information to governmental authorities regarding possible legal violations or otherwise testifying or participating in any investigation or proceeding by any governmental authorities regarding possible legal violations.

(f) Discoveries and Inventions; Work Made for Hire.

(i) Executive agrees that upon conception and/or development of any idea, discovery, invention, improvement, innovation, analysis, report, drawing, copyright, patent, trademark, intellectual property right, software, writing or other definite and useful idea or compilation of information of value ("Intellectual Development") that: (A) relates to the Business, or (B) relates to the Corporation's or any Group Company's actual or demonstrably anticipated research or development, or (C) results from any work performed by Executive for the Corporation or any Group Company, Executive will assign to the Corporation (or a Group Company designated by the Corporation) the entire right, title and interest in and to any such Intellectual Development. Executive has no obligation to assign any Intellectual Development that Executive conceives and/or develops entirely on Executive's own time without using the Corporation's or any Group Company's equipment, supplies, facilities, or trade secret information unless the Intellectual Development either: (x) relates to the business of the Business, or (y) relates to the Corporation's or any Group Company's actual or demonstrably anticipated research or development, or (z) results from any work performed by Executive for the Corporation or any Group Company. Executive agrees that any Intellectual Development that relates to the business of the Corporation or any Group Company or relates to the Corporation's or any Group Company's actual or demonstrably anticipated research or development which is conceived or suggested by Executive, either solely or jointly with others, within eighteen (18) months following separation of Executive's employment under this Agreement or any successor agreements shall be presumed to have been so made, conceived or suggested in the course of such employment with the use of the Corporation's or a Group Company's equipment, supplies, facilities, and/or trade secrets.

(ii) In order to determine the rights of Executive and the Corporation or a Group Company in any Intellectual Development, and to insure the protection of the same, Executive agrees that during Executive's employment, and, to the extent related to the Business, for eighteen (18) months after the separation of Executive's employment under this Agreement or any successor agreement, Executive will disclose immediately and fully to the Corporation any Intellectual Development conceived, made or developed by Executive solely or jointly with others. The Corporation agrees to keep any such disclosures confidential. Executive also agrees during Executive's employment, and, to the extent related to the Business, for eighteen (18) months after the separation of Executive's employment under this Agreement or any successor agreement, to record descriptions of all work in the manner directed by the Corporation and agrees that all such records will be the exclusive property of the Corporation and the Group Companies. Executive agrees that at the request of and without charge to the Corporation, but at the Corporation's expense, Executive will execute a written assignment of the Intellectual Development to the Corporation and will assign to the Corporation (or a Group Company designated by the Corporation) any application for letters patent or for trademark registration made thereon, and to any common-law or statutory copyright therein; and that Executive will do whatever may be necessary or desirable to enable the Corporation to secure any patent, trademark, copyright, or other property right therein in the United States and in any foreign country, and any division, renewal, continuation, or continuation in part thereof, or for any reissue of any patent issued thereon. In the event the Corporation is unable, after reasonable effort, and in any event after ten (10) business days, to secure Executive's signature on a written assignment to the Corporation (or its designated Group Company) of any application for letters patent or to any common-law or statutory copyright or other property right therein, whether because of Executive's physical or mental incapacity or for any other reason whatsoever, Executive irrevocably designates and appoints the General Counsel of the Corporation as Executive's attorney-in-fact to act on Executive's behalf to execute and file any such application and to do all other lawfully permitted acts to further the prosecution and issuance of such letters patent, copyright or trademark.

(iii) Executive acknowledges that, to the extent permitted by law, all work papers, reports, documentation, drawings, photographs, negatives, tapes and masters therefor, prototypes and other materials (hereinafter, "items"), including without limitation, any and all such items generated and maintained on any form of electronic media, generated by Executive during Executive's employment with the Corporation shall be considered a "work made for hire" and that ownership of any and all copyrights in any and all such items shall belong to the Corporation and the Group Companies.

(g) Confidentiality Agreements. Executive agrees that Executive shall not disclose to the Corporation or induce the Corporation to use any secret or confidential information belonging to Executive's former employers. Executive represents and warrants that Executive is not bound by the terms of a confidentiality agreement or other agreement with a third party that would preclude or limit Executive's right to work for the Corporation and the Group Companies and/or to disclose to any of them any Intellectual Development that may be conceived during employment with the Corporation. Executive agrees to provide the Corporation with a copy of any and all agreements with a third party that preclude or limit Executive's right to make disclosures or to engage in any other activities contemplated by Executive's employment with the Corporation.

(h) Relief. Executive acknowledges and agrees that the remedy at law available to the Corporation for breach of any of Executive's obligations under this Agreement would be inadequate. Executive therefore agrees that, in addition to any other rights or remedies that the Corporation may have under the Stockholders' Agreement, at law or in equity, temporary and permanent injunctive relief may be granted in any proceeding which may be brought to enforce any provision contained in subparagraphs 7(b), 7(d), 7(e), 7(f) and 7(g) or in paragraph 9 of this Agreement, without the necessity of proof of actual damage.

(i) Stockholders' Agreement. Nothing in this Agreement limits the obligations of Executive under the public announcements and confidentiality provisions of the Stockholders' Agreement.

(j) Reasonableness. Executive acknowledges that Executive's obligations under this paragraph 7 and paragraph 9 of this Agreement are reasonable in the context of the nature of the Business and the competitive injuries likely to be sustained by the Corporation and the Group Companies if Executive were to violate such obligations. Executive further acknowledges that this Agreement is made in consideration of, and is adequately supported by the agreement of the Corporation to perform its obligations under this Agreement and by other consideration, which Executive acknowledges constitutes good, valuable and sufficient consideration.

8. Definitions.

(a) "Affiliate" means any Person that directly or indirectly controls, is controlled by, or is under common control with the Corporation. In this definition, the term "control" (including with the correlative meaning, the terms "controlled by" and "under common control with"), as applied to any Person,

means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of such Person, whether through the ownership of voting or other securities, by contract, or otherwise.

(b) "Board" means the Board of Directors of the Corporation.

(c) "Business" means (i) the purchasing, selling, or marketing of natural gas, natural gas liquids, oil, hydrocarbons, brine, produced water or any derivative product thereof, including, without limitation, locating buyers and sellers, or negotiating purchase and sales contracts; (ii) the gathering, processing, fractionation, stabilization, and/or transporting of natural gas, natural gas liquids, oil, hydrocarbons, brine, produced water, or any derivative product thereof; (iii) any exploration for natural gas, natural gas liquids, oil, hydrocarbons, brine, produced water, or any derivative product thereof; (iv) investment in any Person that engages in any of the foregoing activities under sub-clauses (i) through (iii) above; and (v) the conduct of a business enterprise that is in an upstream oil and gas industry in North America that contributes ten percent (10%) or more to the Corporation's gross revenue or deploys ten percent (10%) or more of the Corporation's fixed assets.

(d) "Bylaws" means the Bylaws of the Corporation, as such Bylaws may be adopted and/or amended from time to time in accordance with the Stockholders' Agreement.

(e) "Change in Control" means, in relation to the Corporation, where a person who did not previously exercise control over the Corporation acquires, or otherwise becomes able to exercise, control, or where a person who was previously able to exercise control over the Corporation ceases to be in a position to do so. In this definition, the term "control" means (i) control of more than two-thirds of the total voting rights conferred by all the issued and outstanding stock in the Corporation which are ordinarily exercisable in a general meeting, or (ii) the power to appoint the majority of the directors on the Board.

(f) "Exchange Act" means the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, as such laws, rules and regulations may be amended from time to time.

(g) "FCPA" means the Foreign Corrupt Practices Act of 1977, as amended, and the rules and regulations thereunder, as such laws, rules and regulations may be amended from time to time.

(h) "Financial Year" means the financial year of the Corporation or the Group Companies (as applicable), which in each case (other than in the case of its first financial year) shall commence on January 1st and end on December 31st, provided that the first financial year of the Corporation shall be deemed to have commenced on May 1st, 2020 and end on December 31st, 2020.

(i) "Permanent Disability" means that Executive, because of accident, disability, or physical or mental illness, is incapable of performing Executive's duties to the Corporation or any Group Company, as determined by the Board. Notwithstanding the foregoing, Executive will be deemed to have become incapable of performing Executive's duties to the Corporation or any Group Company, if Executive is incapable of so doing for (i) a continuous period of one hundred and twenty (120) days and remains so incapable at the end of such 120-day period or (ii) periods amounting in the aggregate to one hundred and eighty (180) days within any one period of 365 days and remains so incapable at the end of such aggregate period of one hundred and eighty (180) days.

(j) "Person" means any individual, entity, or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act).

(k) "Restricted Territory" means: (i) the United States and Canada; and/or (ii) all of the specific customer accounts, whether within or outside of the geographic area described in (i) above, with which Executive had any contact or for which Executive had any responsibility (either direct or supervisory) at the time of the separation of Executive's employment and at any time during the two-year period prior to such separation.

(l) "Separation For Cause" means the separation of Executive's employment hereunder that is effected by the Corporation as a result of: (i) Executive's indictment (or other criminal charge against Executive) for a felony, or Executive's commission of fraud against the Corporation or any Group Company, (ii) misconduct by Executive that brings the Corporation or any Group Company or Affiliate of the Corporation into substantial public disgrace or disrepute, (iii) Executive's gross negligence or gross misconduct with respect to the Corporation, any Group Company or any other subsidiary or affiliate of the Corporation, (iv) Executive's insubordination to, or material failure to follow, the lawful directions of the Board or the Board Reserved Matters (as defined in the Stockholders' Agreement), which, if curable, is not cured within ten (10) days after written notice thereof to Executive, (v) Executive's material violation of paragraph 7 or 9 hereof, (vi) Executive's material breach of any work rule or internal policy of the Corporation that is established in good faith which, if curable, is not cured within ten (10) days after written notice thereof to Executive, (vii) Executive violation of the FCPA or any state or federal anti-money laundering laws or (viii) any material breach by Executive of this Agreement (other than paragraphs 7 and 9) is not cured within thirty (30) days after written notice thereof to Executive. Notwithstanding the foregoing, no separation by the Corporation shall constitute a "Separation For Cause" unless (A) the Corporation provides Executive reasonable written notice of its intent to effect the separation of Executive by reason of a Separation For Cause, which such notice must include a statement that a majority of the Board has determined in good faith that an event described in clause (i), (ii), (iii), (iv), (v), (vi) or (vii) exists and (B) Executive is given reasonable opportunity during the thirty (30) day period after receiving the notice described in the preceding clause (A) to be heard by the Board with Executive's legal counsel.

(m) "Separation With Good Reason" means a separation of Executive's employment hereunder that is effected by Executive after: (i) a material reduction in either the Base Salary or the Target Incentive Compensation Amount, other than as part of an across-the-board reduction applicable to all Corporation executives of no greater than 10%, (ii) the material diminution in Executive's position, duties, authority, reporting or responsibilities, (iii) any material breach by the Corporation of this Agreement (including the failure of the Corporation to satisfy the last sentence of paragraph 16 or its obligations in the second to last sentence of subparagraph 3(a)), (iv) any of the events set out under Clause 19.1.1(i) to (iii) of the Stockholders Agreement occurs and Executive elects

to sell all (and not less than all) of the Stocks owned by him in accordance with Clause 19 of the Stockholders' Agreement or (v) the involuntary permanent relocation ("permanent relocation" shall be defined as requiring Executive to be in such other location for more than 90 days per Financial Year) of Executive's principal place of employment to a location more than thirty-five (35) miles beyond Executive's principal place of employment in Denver, Colorado as of the Effective Date. Notwithstanding the foregoing, no separation of employment by Executive shall constitute a "Separation With Good Reason" unless (A) Executive gives the Corporation notice of the existence of an event described in clause (i), (ii), (iii), (iv) or (v) above, within thirty (30) days following the occurrence thereof, (B) the Corporation does not remedy such event described in clause (i), (ii), (iii) or (v) above, as applicable, within sixty (60) days of receiving the notice described in the preceding clause (A), and (C) Executive effects such separation of employment within ninety (90) days of the end of the cure period specified in clause (B) above.

(n) "Separation Without Cause" means the separation of Executive's employment hereunder that is effected by the Corporation for any reason other than a separation by reason of Executive's death, for Permanent Disability or a Separation For Cause (it being understood that the Corporation shall use commercially reasonable efforts to avoid effecting a Separation Without Cause during the one-year period after the Effective Date).

(o) "Stockholders' Agreement" means the Stockholders' Agreement dated 1 May 2020 relating to relating to BKV Corporation and its Group Companies, as such agreement may be amended from time to time.

(p) "Voluntary Separation" means the separation of Executive's employment hereunder that is effected by Executive for any reason, other than a Separation With Good Reason (it being understood that Executive may voluntarily resign his employment at any period after the Effective Date), by the Executive giving prior notice to the Corporation at least one hundred and eighty (180) days prior to the effective date of such separation.

9. Non-Disparagement. Executive agrees not to disparage the Corporation, any Group Company or any of their respective businesses, assets, investments, products or practices, or any of their respective directors, officers, agents, representatives, partners, members, or Affiliates, either orally or in writing, at any time, and the Corporation shall use its commercially reasonable best efforts (and shall cause the Group Companies to use their commercially reasonable best efforts) to not disparage, and shall instruct their respective directors and executive officers not to disparage, Executive, either orally or in writing, at any time; provided, however, that Executive and the Corporation (and its directors and executive officers) may confer in confidence with their respective legal representatives and make truthful statements as required by law, or by governmental, regulatory or self-regulatory investigations or as truthful testimony in connection with any litigation involving Executive and the Corporation. During the Employment Period, this paragraph 9 shall only apply to public statements or private statements that are reasonably likely to become public as a result of communication to any person or entity that is a member of, employed or engaged by, or directly connected to any broadcast or other media.

10. Survival. Subject to any limits on applicability contained therein, paragraph 7 and paragraph 9 hereof shall survive and continue in full force in accordance with their terms notwithstanding any ending of the Employment Period.

11. Taxes. The Corporation may withhold from any amounts payable under this Agreement all federal, state, city or other taxes as the Corporation is required to withhold pursuant to any applicable law, regulation or ruling. Notwithstanding any other provision of this Agreement, the Corporation shall not be obligated to guarantee any particular tax result for Executive with respect to any payment provided to Executive hereunder, and Executive shall be responsible for any taxes imposed or assessed on Executive with respect to any such payment.

12. Notices. Any notice provided for in this Agreement shall be in writing and shall be either personally delivered, sent by reputable overnight carrier or mailed by first class mail, return receipt requested, to the recipient at the address below indicated:

Notices to Executive:

At the address contained in the Corporation's payroll records

Notices to the Corporation:

BKV Corporation
1200 17th Street, Suite 2100
Denver, CO 80202
Attention: Board of Directors and General Counsel

or such other address or to the attention of such other person as the recipient party shall have specified by prior written notice to the sending party. Any notice under this Agreement will be deemed to have been given when so delivered.

13. Severability. Whenever possible, each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be invalid or unenforceable in any respect under any applicable law, such invalidity or unenforceability shall not affect any other provision, but this Agreement shall be reformed, construed and enforced as if such invalid or unenforceable provision had never been contained herein.

14. Complete Agreement. This Agreement embodies the complete agreement and understanding between the parties with respect to the subject matter hereof and supersedes and preempts any prior understandings, agreements or representations by or between the parties, written or oral which may have related to the subject matter hereof in any way; provided, however, that for the avoidance of doubt, this Agreement shall have no effect on the Executive's or the Corporation's respective rights or the exercise thereof as set forth in Clauses 18 and 19 of the Stockholders Agreement.

15. Counterparts. This Agreement may be executed in separate counterparts, each of which shall be deemed to be an original and both of which taken together shall constitute one and the same agreement.

16. Successors and Assigns. This Agreement shall bind and inure to the benefit of and be enforceable by Executive, the Corporation and their respective heirs, executors, personal representatives, successors and assigns, except that neither party may assign any rights or delegate any obligations hereunder without the prior written consent of the other party. Executive hereby consents to the assignment by the Corporation of all of its rights and obligations hereunder to any successor to the Corporation by merger or consolidation or purchase of all or substantially all of the Corporation's assets; provided such transferee or successor assumes the liabilities of the Corporation hereunder. The Corporation shall require any successor to all or substantially all of its assets (whether direct or indirect, by purchase, merger, consolidation or otherwise) to assume expressly and agree to perform this Agreement in the same manner and to the same extent that the Corporation would be required to perform it if no such succession had taken place.

17. Governing Law. This Agreement shall be governed by, and construed in accordance with, the internal, substantive laws of the State of New York without giving effect to any choice of law or conflict of law provision or rule (whether of the State of New York or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of New York.

18. Dispute Resolution; Arbitration. Any dispute or controversy arising out of or relating to Executive's employment, this Agreement (other than paragraph 7, which shall be determined by any court with competent jurisdiction), or the breach, termination or validity thereof, shall be finally determined and settled by binding, confidential arbitration conducted expeditiously in accordance with the rules for employment disputes in the Employment Arbitration Rules of the American Arbitration Association (the "AAA") before one arbitrator of exemplary qualifications and stature, who shall be selected by mutual agreement by the parties hereto, or if the parties cannot agree on the selection of the arbitrator, who shall be selected by the AAA. The arbitrator, and not any federal, state, or local court or agency, shall have the exclusive authority to resolve any question as to the arbitrability of a dispute and/or any dispute relating to the interpretation, applicability, enforceability, or formation of this Agreement. Either Executive or the Corporation may apply to a court of competent jurisdiction for temporary or preliminary injunctive relief in connection with a dispute; provided, however, that all issues of final relief shall be decided in arbitration, and the pursuit of the temporary or preliminary injunctive relief shall not constitute a waiver of rights under this Agreement. All disputes will be arbitrated on an individual basis, and not on a class, collective, representative, or similar basis. Any such arbitration shall take place in the City of Denver, Colorado. The arbitration shall be governed by the Federal Arbitration Act and any judgment upon the award decided upon by the arbitrator may be entered by any court having jurisdiction thereof. Each party hereby acknowledges that compensatory damages include (without limitation) any benefit or right of indemnification given by another party to the other under this Agreement. The prevailing party in any such arbitration shall be entitled to recover from the other party its reasonable costs in connection therewith. To the maximum extent permitted by law, the parties, the witnesses, and the arbitrator shall treat all proceedings under this provision and any documents, filings, statements of claim, testimony, transcripts, expert reports, and the decisions of the arbitrator as confidential and shall not disclose any of the foregoing to any person or entity except in connection with proceedings conducted under this provision. The parties may disclose any information, document, or record that is governed by this provision, including any arbitration award, as may be required by applicable law or as necessary to enforce an arbitration award.

19. Amendment and Waiver. The provisions of this Agreement may be amended or waived only with the prior written consent of the Corporation and Executive, and no course of conduct or failure or delay in enforcing the provisions of this Agreement shall affect the validity, binding effect or enforceability of this Agreement.

20. Section 409A Compliance.

(a) The parties intend for this Agreement to either comply with, or be exempt from, Section 409A, and all provisions of this Agreement will be interpreted and applied accordingly. If any compensation or benefits provided by this Agreement may result in the application of Section 409A, the Corporation shall, in consultation with the Executive, modify the Agreement in the least restrictive manner necessary in order to exclude such compensation from the definition of "deferral of compensation" within the meaning of such Section 409A or in order to comply with the provisions of Section 409A and without any diminution in the value of the payments or benefits to the Executive. In no event, however, shall this paragraph 20 or any other provisions of this Agreement be construed to require the Corporation to provide any gross-up for the tax consequences of any provisions of, or payments under, this Agreement and the Corporation shall have no responsibility for tax consequences to Executive (or his beneficiary) resulting from the terms or operation of this Agreement. Any payments or reimbursements of any expenses provided for under this Agreement shall be made in accordance with Treas. Reg. §1.409A-3(i)(1)(iv).

(b) To the extent that any payment or benefit pursuant to this Agreement constitutes a "deferral of compensation" subject to Section 409A (after taking into account to the maximum extent possible any applicable exemptions) (a "409A Payment") treated as payable upon Separation from Service, then, if on the date of the Executive's Separation from Service, the Executive is a Specified Employee, then to the extent required for Executive not to incur additional taxes pursuant to Section 409A, no such 409A Payment shall be made to the Executive earlier than the earlier of (i) six (6) months after the Executive's Separation from Service or (ii) the date of his death. Should this paragraph 20 result in payments or benefits to Executive at a later time than otherwise would have been made under this Agreement, on the first day any such payments or benefits may be made without incurring additional tax pursuant to Section 409A, the Corporation shall make such payments and provide such benefits as provided for in this Agreement. For purposes of this paragraph 20, the terms "Specified Employee" and "Separation from Service" shall have the meanings ascribed to them in Section 409A.

21. Indemnification. Executive shall be entitled to the protections (including insurance coverage) afforded in the Director and Officer Indemnification Agreement, dated as of September 26, 2018, between Executive and the Corporation.

22. Section 280G of the Code. In the event that any payments, distributions, benefits or entitlements of any type payable to Executive, whether or not payable upon a separation of Executive's employment ("Payments"), (i) constitute "parachute payments" within the meaning of Section 280G of the Code, and (ii) but for this paragraph 22 would be subject to the excise tax imposed by Section 4999 of the Code (the "Excise Tax"), then the Payments shall be

reduced to such lesser amount (the "Reduced Amount") that would result in no portion of the Payments being subject to the Excise Tax; provided, however, that such Payments shall not be so reduced if a nationally recognized accounting firm selected by the Corporation in good faith (the "Accountants") determines that without such reduction Executive would be entitled to receive and retain, on a net after-tax basis (including, without limitation, any excise taxes payable under Section 4999 of the Code, federal, state and local income taxes, social security and Medicare taxes and all other applicable taxes, determined by applying the highest marginal rate under Section 1 of the Code and under state and local tax laws which applied (or is likely to apply) to Executive's taxable income for the tax year in which the transaction which causes the application of Section 280G of the Code occurs, or such other rate(s) as the Accountants determine to be likely to apply to Executive in the relevant tax year(s) in which any of the Payments are expected to be made), an amount that is greater than the amount, on a net after-tax basis, that Executive would be entitled to retain upon receipt of the Reduced Amount. Unless the Corporation and Executive otherwise agree in writing, any determination required under this paragraph 22 shall be made in good faith by the Accountants in a timely manner and shall be binding on the parties absent manifest error. In the event of a reduction of Payments hereunder, the Payments shall be reduced in the order determined by the Accountants that results in the greatest economic benefit to Executive in a manner that would not result in subjecting Executive to additional taxation under Section 409A. For purposes of making the calculations required by this paragraph 22, the Accountants may make reasonable assumptions and approximations concerning applicable taxes and may rely on reasonable, good faith interpretations concerning the application of the Code, and other applicable legal authority. The Corporation and Executive shall furnish to the Accountants such information and documents as the Accountants may reasonably require in order to make a determination under this paragraph 22, and the Corporation shall bear the cost of all fees charged by the Accountants in connection with any calculations contemplated by this paragraph 22. To the extent requested by Executive, the Corporation shall cooperate with Executive in good faith in valuing, and the Accountants shall value, services to be provided by Executive (including Executive refraining from performing services pursuant to a covenant not to compete) before, on or after the date of the transaction which causes the application of Section 280G of the Code such that Payments in respect of such services may be considered to be "reasonable compensation" within the meaning of the regulations under Section 280G of the Code. Notwithstanding the foregoing, if the transaction which causes the application of Section 280G of the Code occurs at a time during which the Corporation qualifies under Section 2(a)(i) of Q&A-6 of Treasury Regulation Section 1.280G, upon the request of Executive, the Corporation shall use reasonable efforts to obtain the vote of equity holders described in Q&A-7 of Treasury Regulation Section 1.280G.

EXHIBIT A
RELEASE AGREEMENT

RELEASE AGREEMENT, dated as of _____ (this "Agreement"), by and between BKV Corporation, a Delaware corporation (the "Corporation") and Christopher Pungya Kalnin ("Executive") (collectively, the "Parties").

WHEREAS, Executive's employment agreement with the Corporation, dated August 4, 2020 (as such employment agreement may be amended from time to time, the "Employment Agreement"), provides for certain post-separation payments and benefits to Executive pursuant to subparagraphs 6(b) or 6(c), as applicable, and under subparagraph 6(e), if applicable, thereof, subject to Executive executing and not revoking a release of claims against the Corporation and the Releasees (as defined below); and

WHEREAS, Executive desires, and the Corporation agrees, that the Corporation shall provide a release of claims with respect to Executive's employment and his separation of employment pursuant to the Employment Agreement.

NOW, THEREFORE, in consideration of the mutual promises and obligations set forth in the Employment Agreement and this Agreement, and in consideration for the payments and benefits to be provided to Executive pursuant to subparagraph 6(b) or 6(c), as applicable, and under subparagraph 6(d), if applicable, of the Employment Agreement, and for other good and valuable consideration, the sufficiency of which is hereby recognized by the Parties, the Parties agree as follows:

1. Separation of Employment. Executive acknowledges and agrees that his separation of employment with the Corporation and its subsidiaries and affiliates will occur effective _____ (the "Separation Date"). As of the Separation Date, Executive will resign all positions he held as an officer, director or employee of the Corporation and its subsidiaries (the "Group Companies"), and will promptly execute such documents and take such actions as may be necessary or reasonably requested by the Corporation to effectuate or memorialize the resignation of such positions.

2. Consideration. Executive and the Corporation each acknowledge that in consideration of Executive's employment and in consideration for the

payments set forth in the Employment Agreement that are subject to the release provision of subparagraph 6(i) of the Employment Agreement (the "Payments"), the following shall apply.

3. General Release of Claims. In exchange for the mutual promises set forth in this Agreement (including the Payments), Executive, on behalf of himself, his agents, attorneys, heirs, administrators, executors, assigns, and other representatives, and anyone acting or claiming on his or their joint or several behalf, hereby releases, waives, and forever discharges the Corporation, each Group Company, including, in each case, its past or present employees, officers, directors, trustees, board members, shareholders, agents, affiliates, parent entities, subsidiaries, successors, assigns, and other representatives, and anyone acting on their joint or several behalf (the "Releasees"), from any and all known and unknown claims, causes of action, demands, damages, costs, expenses, liabilities, or other losses that in any way arise from, grow out of, or are related to Executive's employment with the Corporation or any of the Group Companies or his separation of employment therefrom. By way of example only and without limiting the immediately preceding sentence, Executive agrees that he is releasing, waiving, and discharging any and all claims against the Corporation and the Releasees under (a) any federal, state, or local employment law or statute, including, but not limited to Title VII of the Civil Rights Act(s) of 1964 and 1991, the Americans with Disabilities Act, the Age Discrimination in Employment Act ("ADEA"), Older Workers Benefit Protection Act ("OWBPA"), the Genetic Information Non-Discrimination Act (GINA), the Sarbanes-Oxley Act, or other applicable state civil rights law(s) or any other federal law, statute, ordinance, rule, regulation or executive order relating to employment and/or discrimination in employment, and/or any claims to attorneys' fees or costs thereunder, (b) any claims for wrongful discharge, retaliatory discharge, negligent or intentional infliction of emotional distress, interference with contractual relations, personal, emotional or physical injury, fraud, defamation, libel, slander, misrepresentation, violation of public policy, invasion of privacy, or any other statutory or common law theory of recovery under any federal, state or municipal common law, or (c) any other federal, state or municipal law, statute, ordinance or common law doctrine affecting employment rights. Nothing herein shall be construed to prohibit Executive from filing a charge with the Equal Employment Opportunity Commission or the United States Securities and Exchange Commission Whistleblower unit or participating in investigations by those entities. However, Executive acknowledges that by signing this Agreement, Executive waives his right to seek individual remedies in any such action or accept individual remedies or monetary damages in any such action or lawsuit arising from such charges or investigations, including but not limited to, back pay, front pay, or reinstatement. Executive further agrees that if any person, organization, or other entity should bring a claim against the Releasees involving any matter covered by this Agreement, Executive will not accept any personal relief in any such action, including damages, attorneys' fees, costs, and all other legal or equitable relief. Notwithstanding the generality of the foregoing, Executive does not release the following claims and rights: (i) claims for unemployment compensation or any state disability insurance benefits pursuant to the terms of applicable state law; (ii) claims to continued participation in certain of the Corporation's group benefit plans pursuant to the terms and conditions of the Employment Agreement and Part 6 of Subtitle B of Title I of the Employee Retirement Income Security Act of 1974, as amended, and to any vested benefits to which he is entitled under any retirement plan of the Corporation that is intended to be qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended, or under any equity-based plan or deferred compensation plan of the Corporation; (iii) Executive's right, if any, to indemnification, advancement of expenses and the protections of any directors' and officers' liability policies of the Corporation, as set forth in paragraph 20 of the Employment Agreement; (iv) Executive's rights to any payments or benefits due to him under paragraph 6 of the Employment Agreement (including under the applicable agreements referenced therein (to the extent provided in paragraph 6 of the Employment Agreement)); (v) any rights under this Agreement; and (vi) any claim that cannot lawfully be waived by private agreement.

4. No Claims Filed. Executive affirms that, as of the date of execution of this Agreement, he has filed no lawsuit, charge, claim or complaint with any governmental agency, arbitral tribunal or arbitrator, or in any court against the Corporation or the Releasees.

5. Employment Agreement Provisions. The provisions of paragraphs 7 (Competitive Activity; Confidentiality; Non-solicitation), 11 (Taxes), 12 (Notices), 17 (Governing Law) and 18 (Dispute Resolution; Arbitration) of the Employment Agreement are hereby expressly incorporated by reference.

6. Nondisclosure of Terms. Executive agrees that the existence, terms and conditions of this Agreement, and any and all underlying communications and negotiations in connection with or leading to this Agreement, are and shall remain confidential unless publicly filed. Except as specifically set forth in this paragraph 6, Executive shall not disclose the existence or terms of this Agreement in whole or in part to any individual or entity without prior written consent of the Corporation. Executive agrees that he will not disclose the existence or terms of this Agreement to any person except (a) to members of Executive's immediate family and his professional advisors, who shall be advised of this confidentiality provision; (b) to the extent required by a final and binding court order or other compulsory process; (c) to any federal, state, or local taxing authority or to any other governmental or regulatory body if requested in an investigation; or (d) to the extent reasonably appropriate in connection with litigation over this Agreement. Upon Executive's receipt of any order, subpoena or other compulsory process demanding production or disclosure of this Agreement, Executive agrees that, to the extent legally permitted, he will promptly notify the Corporation in writing of the requested disclosure, including the proposed date of the disclosure, the reason for the requested disclosure, and the identity of the individual or entity requesting the disclosure, at least ten (10) business days prior to the date that such disclosure is to be made or immediately upon receipt of the requested disclosure. Executive agrees not to oppose any action that the Corporation might take with respect to any such requested disclosure. Executive further agrees to instruct his counsel not to disclose to any person or entity, including potential or existing clients, the existence or terms of this Agreement. Notwithstanding the foregoing, nothing in this Agreement prevents Executive from providing, without prior notice to the Corporation, information to governmental authorities regarding possible legal violations or otherwise testifying or participating in any investigation or proceeding by any governmental authorities regarding possible legal violations, and for purpose of clarity Executive is not prohibited from providing information voluntarily to the United States Securities and Exchange Commission pursuant to Section 21F of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, as such law, rules and regulations may be amended from time to time.

7. Future Cooperation. Executive agrees that, as reasonably requested for (a) the 12 months following the separation of his employment, he will (i) fully cooperate with the Corporation in effecting an orderly transition of his duties and (ii) without any additional compensation, respond to reasonable requests for information from the Corporation regarding matters that may arise in the Corporation's business and (b) the three-year period following the separation of his employment, fully and completely cooperate with the Corporation, its advisors and its legal counsel with respect to any litigation that is pending against the Corporation and any claim or action that may be filed against the Corporation in the future. Such cooperation reflected in part (b) above shall include making himself available at reasonable times and places for interviews, reviewing documents, testifying in a deposition or a legal or administrative proceeding,

and providing advice to the Corporation in preparing defenses to any pending or potential future claims against the Corporation. Any cooperation under this paragraph 7 shall be subject to Executive's business and personal commitments and shall not require Executive to cooperate against his own legal interests or the legal interests of any future employer. The Corporation agrees to pay/reimburse Executive within thirty (30) days of receipt of an invoice for any reasonable expenses incurred as a result of his cooperation with the Corporation pursuant to this paragraph 7 including reasonable fees actually incurred by legal counsel for Executive if Executive believes separate counsel is reasonably necessary.

8. Assistance to Others. Executive agrees following the separation of his employment described in this Agreement, not to assist or cooperate, in any way, directly or indirectly, with any person, entity or group (other than the Equal Employment Opportunity Commission (EEOC) or other governmental agency) involved in any proceeding, inquiry or investigation of any kind or nature against or involving the Corporation or any of its Group Companies, except as required by law, subpoena or other compulsory process. Moreover, Executive agrees that to the extent he is compelled to cooperate with such third parties during the three-year period following such separation of employment, he shall disclose to the Corporation in advance that he intends to cooperate and shall disclose the manner in which he intends to cooperate. Further, Executive agrees that within three (3) days after such cooperation, he will offer to meet with representatives of the Corporation and disclose the information that he provided to the third party, to the extent permitted by law. Further, if Executive is legally required to appear or participate in any proceeding that involves or is brought against the Corporation or any of the Group Companies, within three years following such separation of employment, Executive agrees, unless prohibited by law, to disclose to the Corporation in advance what he plans to say or produce and otherwise cooperate fully with the Corporation or the Group Companies. Executive's agreement not to provide assistance or cooperation shall not require Executive to refrain from assisting or cooperating with any future employer.

9. ADEA/OWBPA Waiver & Acknowledgment. Insofar as this Agreement pertains to the release of Executive's claims, if any, under the ADEA or other civil rights laws, Executive, pursuant to and in compliance with the rights afforded him under the Older Workers Benefit Protection Act: (a) is hereby advised to consult with an attorney before executing this Agreement; (b) is hereby afforded twenty-one (21) days to consider this Agreement (the "Consideration Period"); (c) may revoke this Agreement any time within the seven (7) day period following his execution of this Agreement (the " Revocation Period") by providing written notice to the Corporation on or before 5:00 PM. Eastern Daylight Time on the seventh day after Executive signs this Agreement; (d) is hereby advised that this Agreement shall not become effective or enforceable until the seven (7) day Revocation Period has expired; and (e) is hereby advised that he is not waiving claims that may arise after the date on which he executes this Agreement. If this Agreement is revoked within the Revocation Period, the Corporation shall have no obligations under this Agreement, including the obligation to make the Payments. If this Agreement is not revoked by Executive within the Revocation Period, this Agreement will be effective and enforceable on the date immediately following the last day of the seven (7) day Revocation Period (the "Effective Date"). The offer to enter into this Agreement shall remain open for the twenty-one (21) day Consideration Period, after which time it shall be withdrawn.

10. Severability. Whenever possible, each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be invalid or unenforceable in any respect under any applicable law, such invalidity or unenforceability shall not affect any other provision, but this Agreement shall be reformed, construed and enforced as if such invalid or unenforceable provision had never been contained herein.

11. Voluntary Execution. Executive acknowledges that he is executing this Agreement voluntarily and of his own free will and that he fully understands and intends to be bound by the terms of this Agreement. Further, Executive acknowledges that he received a copy of this Agreement on _____, and has had an opportunity to carefully review this Agreement with his attorney prior to executing it or warrants that he chooses not to have an attorney review this Agreement prior to signing. Executive will be responsible for any attorneys' fees incurred in connection with review of this Agreement by his attorneys.

12. No Assignment of Claims. Executive hereby represents and warrants that he has not previously assigned or purported to assign or transfer to any person or entity any of the claims or causes of action herein released.

13. Complete Agreement. This Agreement embodies the complete agreement and understanding between the Parties with respect to the subject matter hereof and supersedes and preempts any prior understandings, agreements or representations by or between the Parties, written or oral, which may have related to the subject matter hereof in any way. Any amendments, additions or other modifications to this Agreement must be done in writing and signed by both Parties.

14. Counterparts. This Agreement may be executed in separate counterparts, each of which shall be deemed to be an original and both of which taken together shall constitute one and the same agreement.

15. Successors and Assigns. This Agreement shall bind and inure to the benefit of and be enforceable by Executive, the Corporation and their respective heirs, executors, personal representatives, successors and assigns, except that neither Party may assign any rights or delegate any obligations hereunder without the prior written consent of the other Party. Executive hereby consents to the assignment by the Corporation of all of its rights and obligations hereunder to any successor to the Corporation by merger or consolidation or purchase of all or substantially all of the Corporation's assets, provided such transferee or successor assumes the liabilities of the Corporation hereunder.

[SIGNATURES ON FOLLOWING PAGE]

IN WITNESS WHEREOF, the parties hereto hereby certify that they have read this Agreement in its entirety and voluntarily executed it in the presence of competent witnesses, as of the date set forth under their respective signatures.

BKV CORPORATION

EMPLOYMENT AGREEMENT

This Employment Agreement (the "**Agreement**") is effective as of the 11th day of January, 2021 ("Effective Date"), regardless of the date the Agreement is executed, by and between BKV Corporation, a Delaware corporation (hereinafter referred to as "**Employer**" or "**Company**"), and John T. Jimenez (hereinafter referred to as "**Employee**" or "**you**"). Collectively, Employer and Employee shall be referred to as the " **Parties**."

A. Employer desires to engage Employee in the position of Chief Financial Officer.

B. Employee is willing to be employed by Employer, and Employer is willing to employ Employee, on the terms and conditions set forth herein.

C. In consideration of the mutual covenants and promises of the Parties hereto, Employer and Employee agree as follows:

1. Agreement to Employ and be Employed: Employer hereby agrees to employ Employee and Employee hereby accepts and agrees to such employment.

2. At-Will Employment: ***Employee's employment is at-will.*** Nothing in this Agreement guarantees Employee employment with Employer for any specific period of time. This means that, subject to the provisions of this Agreement, Employer may terminate employee at any time with no advance notice, procedure, or formality and for any lawful reason, with or without cause. Similarly, subject to the provisions of this Agreement, Employee may resign his employment at any time and for any reason. Your at-will employment relationship cannot be changed by any oral representation, written document or other conduct unless such change is specifically acknowledged in writing by an authorized executive of the Company.

3. Description of Employee's Duties: Employee will be employed as Chief Financial Officer. Employee's job duties are set forth in **Exhibit 1**. The position is exempt from overtime under both state and federal laws and regulations. You will report to Christopher P. Kalnin and your primary office location will be at our offices in Denver, Colorado. Your start date will be April 16, 2021 (the "Start Date"). In addition, we also attach Colorado Overtime and Minimum Pay Standards Order 36.

4. Manner of Performance of Employee's Duties: Employee shall be a full-time employee of Employer, shall devote his best efforts and entire business time, attention, and services exclusively to the business and affairs of Employer, and shall perform his duties as set forth in **Exhibit 1** with fidelity and to the best of his ability, experience, and talent. Employee shall also perform the duties of his position to the reasonable satisfaction of Employer.

Employee will not engage in the performance of services for any other business or entity during the term of this Agreement unless the performance of such services is approved by Employer in advance.

Notwithstanding anything in this Section 4, or in any other provision of this Agreement to the contrary, Employer hereby approves Employee's continued participation in, and service to, the business enterprise identified and described in Exhibit 2.

5. Compensation: In consideration of the services to be provided by Employer during employment, Employer shall compensate Employee as follows:

a. During his employment, Employee shall receive the equivalent of an annual base salary of Three Hundred Fifty Thousand U.S. dollars ($350,000.00), less applicable payroll deductions and required taxes and withholdings ("**Base Compensation**"), with partial periods prorated. Employee's Base Compensation shall be payable in equal periodic installments according to Employer's customary payroll practice. The Base Compensation is based on and intended to compensate Employee for all hours worked.

b. During your employment, Employee may participate in Employer benefit plans and programs described in the attached **Exhibit 3**, to the extent that Employer maintains such plans or programs and in accordance with the eligibility and participation criteria applicable to each such plan or program. Employee acknowledges that the Employer has the right to change, modify, or eliminate benefits provided to its employees from time to time in Employer's sole discretion without notice to employees. As such, Employee acknowledges and agrees that this Agreement does not create a specific entitlement to any particular benefits, and that Employee will receive benefits at the same level as other similarly situated employees of Employer.

c. During his employment, Employee may also, in Employer's sole discretion, receive compensation each calendar year in addition to his Base Compensation. Such additional compensation will be paid, if at all, in the form of an **Annual Target Bonus**, which Employer intends to fall between 0 percent and 60 percent (0-60%) of the annual Base Compensation. The availability of any bonus will be determined based upon Employer's performance and will take into account Employee's individual effort and satisfactory achievement of established performance goals. Any such Annual Target Bonus (if any) will be paid to Employee, in full and subject to applicable tax, not later than March 15 of the calendar year following the calendar year during which Employee performed the services that gave rise to that Bonus. The bonus would be pro-rated based on your Start Date.

Nothing in this provision (c) is intended to guarantee Employee the payment of a bonus in any amount other than as described in provision (c).

d. Paid Time Off (PTO). PTO includes vacation, sick, personal time, etc. Employee is eligible to accrue up to thirty (30) days of PTO per year. Paid time off is accrued on a pro-rata basis at the rate of 9.234 hours/Bi-Weekly throughout the year. Under Employer's policy, employees do not accrue PTO once they have earned their maximum paid time off hours per year. The accrual will resume once the amount of accrued PTO is less than the maximum possible accrual. Available PTO will automatically carry over into the new calendar year. Up to 10 days of accrued, unused paid time off will be paid out upon separation, unless otherwise required by law. Advanced but unaccrued paid time off will be deducted from an employee's final paycheck, to the extent permitted by law and Employee hereby authorizes such deduction in accordance with applicable law and waives the right to presentment, notice and protest.

e. Signing Bonus. The Company will pay you a signing bonus of $250,000, less lawful deductions and withholdings within thirty (30) days of your Start Date (the "Signing Bonus").

f. Long Term Incentive. In addition, during your employment, subject to final management approval, you will also be eligible for the Company's Long-Term Incentive Program ("LTIP") pursuant to the terms of the LTIP and grant agreements to be provided separately to you once employed, which is estimated to equate to 618,000 share total over a four-year period with a par value of $0.01 and a current fair market value of $10.00 per share. In addition to the Signing Bonus, the availability of any bonus including any grant of LTIP, will be determined based upon the Company's performance and will consider your individual effort and satisfactory achievement of established performance goals.

The compensation described in this Section 5 constitutes all compensation made available by Employer for the services of Employee. No other or additional compensation in any form will be considered or paid for during the period of this Agreement.

6. Relocation: Employee shall be promptly reimbursed Employee for reasonable relocation costs incurred as described below to move residence and family, the aggregate of which is not to exceed $30,000. Covered costs include:

a. reasonable broker fees in connection with the sale of the existing family home, reasonable out-of-pocket fees and expenses, and transfer taxes, but not home sales tax;

b. packing and moving of all household goods and shipment of three automobiles based upon a competitive bid approved through the Company's Human Resources department;

Covered expenses do not include other broker fees or mortgage financing fees in excess of two points, in connection with the purchase of a residence.

During an agreed Transition Period, Employee will be reimbursed for reasonable expenses associated with commuting, including two trips accompanied by partner/spouse for purposes of relocation-related planning, and for temporary housing and rental car expenses in accordance with the Company's T&E Policy.

Relocation expenses must be incurred within twelve (12) months from January 1, 2021 and payment will include a full tax gross-up for taxes incurred on receipt of the reimbursements under this section.

7. Confidentiality: Employee acknowledges that, in the course of performing and fulfilling his duties hereunder, she may have access to and be entrusted with nonpublic information belonging to, developed by, licensed by, or otherwise in the possession of, Employer or its clients. To protect such information, Employee agrees that she will not, directly or indirectly, in one or a series of transactions, disclose to any person, or use or otherwise exploit for Employee's own benefit or for the benefit of anyone other than Employer, any Confidential Information, as defined below, whether prepared by Employee or not. At the request of Employer, Employee agrees to deliver to Employer, at any time during his employment, or thereafter, all Confidential Information which she may possess or control.

Employee shall be permitted to disclose Confidential Information if and to the extent disclosure of any part thereof is specifically required by law; provided, however, that in the event such disclosure is required by applicable law, Employee shall provide Employer with prompt written notice of such requirement, prior to making any disclosure, so that Employer may seek an appropriate protective order, and Employee only shall disclose information as necessary to comply with legal process. Moreover, in accordance with the Defend Trade Secrets Act ("DTSA"), an employee will not be held criminally or civilly liable under any federal or state trade secret law if an employee discloses a trade secret in confidence to federal, state, or local government officials, to his/her attorney solely for the purpose of reporting or investigating a suspected violation of law, or in a sealed complaint or other document filed in a lawsuit or other proceeding. Further, an employee who files a lawsuit alleging retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to his attorney and use the trade secret information in the court proceeding if the individual: (a) files the document containing the trade secret in a sealed court document and (b) does not disclose the trade secret, except pursuant to court order. The DTSA does not, however, offer protection from liability for individuals who access trade secrets by unlawful means.

Notwithstanding the foregoing, nothing in this Agreement is intended to prevent Employee from engaging in activity protected by the National Labor Relations Act, including engaging in discussion of concerns about working conditions or other concerted activities.

"**Confidential Information**" means any of Employer's and its Affiliates' confidential information including, without limitation, all provisions hereunder, any information, processes, plans, data calculations, software storage media or other compilation of information, patent, patent application, copyright, "know-how," trade secrets, customer lists, details of client or consultant contracts, pricing policies, operational methods, marketing plans or strategies, product development techniques or plans, business acquisition plans, any portion or phase of any scientific or technical information, ideas, discoveries, designs, inventions, creative works, computer programs (including source of object codes), processes, formulae, improvements or other proprietary or intellectual

property of the Employer, whether or not in written or tangible form, and whether or not registered or labeled as confidential, and including all files, records, manuals, books, catalogues, memoranda, notes, summaries, plans, reports, records, documents and other evidence thereof. The covenant in this Section 6 shall survive termination of this Agreement. "Affiliate" is defined as all parent, sister and subsidiary companies.

8. Inventions, Ideas, and Other Intellectual Developments: In view of the purposes of Employer and the need to secure for the Employer and/or Interested Parties (defined below) their right to Intellectual Developments (defined below) related to the business of Employer and/or such Interested Party, Employee understands that Employer must be in a position to use, assign, and otherwise dispose of Intellectual Developments made by its staff members and employees. Accordingly, except for those items excluded by Section 12 below, Employee shall promptly disclose to Employer and, when requested, furnish to the Employer a complete record of every discovery, invention, improvement, innovation, design, analysis, reports, drawings, copyright, intellectual property right and other definite and useful idea or compilation of information of value (individually and collectively an "**Intellectual Development**"), which Employee may make or originate, individually or with others, at any time during the term of Employee's employment by the Employer. Employee hereby assigns to the Employer or its nominee the entire rights throughout the world to such Intellectual Developments which relate to the current or potential business or activities of the Employer or any Interested Parties or which results from Employee's work with Employer. The term "**Interested Parties**" means any person having a business relationship with the Company where the relationship gives rise to a claim by that person to some interest in Intellectual Developments made by employees and associates of the Employer or its Affiliates.

9. Cooperation: Employee shall fully cooperate with Employer or its designees in securing, in the name of the Company or its designees, rights with respect to the Intellectual Developments described in Section 7 above, in all countries. Employee shall promptly execute all proper documents presented for signature and do all things reasonably required to enable Employer or its designees to accomplish the above, at any time during or after Employee's employment.

10. Shop Rights and Holdover: Employee agrees that Employer or its designees shall be entitled to shop rights to any Intellectual Developments conceived or made by Employee that is not related to the Employer's trade secrets and/or Confidential Information but conceived or made on Company time or with the use of Employer's facilities or materials. Employee further agrees that any Intellectual Developments related to Employer's trade secrets and/or Confidential Information described by Employee in a patent, service mark, trademark, or copyright application, disclosed by Employee in any manner to a third person, or created by Employee or Employee's affiliates or any person with whom Employee has any business, financial or confidential relationship, within one (1) year after cessation of Employee's employment with Employer for any reason, was conceived or made by Employee during Employee's employment with Employer and is therefore the sole property of Employer or its designees.

11. Information and Testimony: For a period of time up to five years from Employee's last date of employment with Employer, Employee shall, without expense to Employee and at the cost of the Employer, give such true information and testimony at reasonable times and places, as mutually agreed upon by Employer and Employee, upon prior notice, under oath if requested, as may be requested by Employer or its designees relative to any Intellectual Development described in Section 7 above.

12. Interest of the Employee: As to inventions, applications for patents, and copyrightable material in which Employee presently holds an interest and which are not subject to this Agreement:

Check One:

☒ Employee has no such property.
☐ Employee has described all such property in Section 12, below.

13. Description of Inventions, Applications for Patents and Copyright Material Exempted in Section 11 .

Employee to insert description of applicable inventions, patents and copyright material below.

By: _____on_____
_____ Date

14. Restrictive Covenant: Because Employee will be provided with proprietary, confidential, and trade secret information, the Employee shall not, during his employment:

a. enter into, own, manage, operate, control, be employed with, or engage, as an employee, associate, officer, director, shareholder, partner or in any other capacity, on behalf of any association, enterprise, company, or firm that provides services or products in competition with Employer, except as otherwise provided in Exhibit 2 to this Agreement;

b. directly or indirectly solicit or attempt to solicit the business of any client or customer or active customer prospect of the Employer or any of its Affiliates for his own benefit or that of any third person or organization; and

c. directly or indirectly induce any employee or contractor of Employer or any of its Affiliates to leave his or his employment or independent contract with Employer or any of its Affiliates.

15. Non-Disparagement: Employee agrees that at any time during his employment with the Employer and at any time thereafter, Employee shall not, except in the good faith commission of his duties and responsibilities, make, or cause or assist any other person to make, any statement or other communication

that impugns or attacks, or is otherwise critical to the reputation, business or character of the Employer or any of its officers, directors, members, managers, employees, products or services.

16. **Reasonableness of Restraints, Irreparable Harm**: Employee acknowledges that: (a) the agreements and covenants contained herein are reasonably necessary to protect the goodwill, Confidential Information, Intellectual Developments, trade secrets, and other business interests of Employer; (b) any breach of the covenants contained herein will cause Employer immediate irreparable harm for which injunctive relief would be necessary; (c) the covenants contained herein are essential and material elements of this Agreement and Employer would not have entered into this Agreement or permitted Employee to obtain employment or remain employed without those covenants being included in this Agreement; (d) Employee has had the opportunity to consult with and be advised by legal counsel concerning the reasonableness and propriety of the covenants contained herein; and (e) in the event of any violation or attempted violation of the covenants contained herein, Employer shall be entitled to seek a temporary restraining order, temporary or permanent injunctions, and other injunctive relief, , in addition to any other rights or remedies which may then be available to Employer. In addition to, but not instead of, any other legal or equitable remedies available to Employer, Employee hereby agrees to reimburse Employer for reasonable attorneys' fees and costs incurred by Employer in the event Employer is successful in showing a violation or attempted violation of this Agreement as determined by a court of competent jurisdiction.

17. **No Existing Obligations**: Except for and expressly excluding the obligations, terms and conditions set forth in the employment materials, including without limitation, any employee handbook, award agreement or offer materials, of BP America Production Company, its affiliates, group companies or parent companies including, but not limited to, the language set forth on Appendix A attached hereto and the notice, if any, associated therewith, Employee represents that Employee: (a) is not subject to a confidentiality, trade secret, conflict of interest, or non-competition agreement with any former employer, contractor or third party; and (b) has no continuing obligations to any former employer, contractor or third party with respect to the ownership or assignment of any proprietary rights, including, but not limited to, inventions, ideas, copyrights, trade secrets or patents, including any such rights in information, or creations or materials Employee conceived or made, in whole or in part that will impact Employee's services for Employer. Employee understands that any such agreement or obligation, as well as any trade secret and other property laws, may restrict Employee from using any secret or proprietary information that belongs to any former employer, contractor or third party, either for Employee's own benefit or for anyone else's benefit, including Employer. Employee also understands that Employee, or anyone else who uses or benefits from a third party's proprietary information, may be liable to that third party; therefore, Employee agrees not to use any confidential, trade secret, or proprietary information that belongs to any former employer, contractor, or third party during the term of employment, either for Employee's own benefit or to benefit Employer or any of its clients, customers, or affiliates.

18. **Termination of Employment and Termination Payment**. Notwithstanding the at-will nature of your employment, if your employment is terminated by the Company without "Cause" as defined below, in addition to the (1) payment of your Base Compensation and any bonuses earned through the termination date, (2) payment for any unused, accrued vacation days as of your termination date, and (3) reimbursement of any outstanding, reasonable business expenses incurred by you through the termination date, you will be eligible to receive a severance benefit equal to the sum of eighteen (18) months of your annual Base Compensation as of the date of termination, provided you execute a Separation Agreement and General Release provided by the Company (the "Separation Agreement"). For purposes of this letter, the term "Cause" shall mean any of the following: (i) other than as a result of a disability, your willful failure to perform your duties; (ii) your willful engagement in misconduct which is injurious to the Company, monetarily or otherwise; (iii) your conviction of a crime (including a nolo contendere plea) involving, in the good faith of the Company, fraud, dishonesty or moral turpitude; (iv) the negligent performance of your duties after receipt of written notice from Employer and a reasonable opportunity to cure; (v) your breach of any covenant set forth in the Confidential Information and Non-Solicitation Agreement; or (vi) your breach of any material Company policy. You will be considered to have been terminated for "Cause" if the Company determines in good faith that you engaged in an act constituting "Cause" even after a resignation by you.

19. **Non-Competition**. In exchange for the termination payment described in Section 18 above, for a period of twelve (12) months following termination of Employee's employment, for any reason, Employee shall not (1) enter into or engage in any business which competes with the Company or any of its subsidiaries or affiliates ("Company Group") in the same primary business as the Company Group within the States of Pennsylvania, Colorado and Texas ("Restricted Territory"); (2) solicit any known customers, business, assets, investments or patronage (or customer, business, asset, investment or patronage prospects) for, or sell, any products or services in competition with or for any business that competes with the Company Group within the Restricted Territory; (3) divert, entice or otherwise take away any known business, assets or investments or patronage (or customer, business, asset, investment or patronage prospects) of the Company Group within the Restricted Territory; or (4) promote, manage or assist, financially or otherwise, any person, firm, association, partnership, corporation or other entity engaged in any business which competes with or is engaged in the same business as the Company Group within the Restricted Territory. For purposes of this section, Employee will be in violation of the non-compete provision set forth herein if Employee engages in any or all of the activities set forth herein directly as an individual on Employee's own account or indirectly as a partner, joint venture, employee, agent, salesperson, consultant, officers and/or director of any firm, association, partnership, corporation or other entity or as a shareholder of any corporation (or owner of any other type of equity interest in any other entity) in which Employee or Employee's spouse, minor child, or parent sharing the same household as Employee owns, directly or indirectly, individually or in the aggregate, more than 1% of the outstanding stock or other equity interests. If it is judicially determined or by consent of Employee that Employee has violated this Section 19 and the Company obtains an order, injunction or other equitable relief, then the period applicable to each obligation that Employee has been determined to have violated will be automatically extended by a period of time equal in length to the period during which such violation occurred.

20. **Termination Notice**. Your employment may be terminated in writing either by the Company without Cause or by you upon ninety (90) days written notice to the Company. If the Company terminates your employment without Cause, 90 days' notice is not required by the Company, provided that it offers to pay you the severance benefits described in this letter in exchange for you signing a Separation Agreement and General Release. For purposes of clarity, no prior notice is required to terminate your employment by the Company with Cause.

21. **Internal Revenue Code Section 409A Compliance**. Both you and the Company intend that all compensation or benefits paid under this letter as well as the Separation Agreement comply with Internal Revenue Code Section 409A and the regulations and guidance promulgated thereunder (collectively "Section 409A") and, accordingly, to the maximum extent permitted, this letter shall be interpreted to be in compliance therewith. By way of example, and not

limitation, with respect to payments triggered by your "termination of employment" (and similar terms) such phrase shall be construed to mean your "separation from service" with the Company (determined under Treasury Regulation Section 1.409A-1(h)). Further, notwithstanding any other provision of this letter to the contrary, if any amount to be paid to you as a result of the termination of your employment pursuant to this letter or the Separation Agreement is "deferred compensation" subject to Section 409A, and if you are a "specified employee" (as defined under Section 409A) as of the date of your termination of employment hereunder, then, to the extent necessary to avoid the imposition of excise taxes or other penalties under Section 409A, the payment of benefits, if any, scheduled to be paid by the Company to you hereunder during the first six (6) month period following the date of a termination of employment hereunder shall not be paid until the date which is the first business day following the six-month anniversary of the termination of your employment, as reviewed and approved by Employer's CFO or tax professional, for any reason other than death. Any deferred compensation payments delayed in accordance with the terms of this paragraph shall be paid in a lump sum when paid. In addition, both you and the Company agree to cooperate fully with one another to attempt to ensure compliance with Section 409A, including, without limitation, adopting amendments to arrangements subject to Section 409A and operating such arrangements in compliance with Section 409A; provided, however, nothing in this paragraph shall require you to reduce your compensation; provided, further, however, nothing in this letter shall constitute an agreement to indemnify, gross up or otherwise make you whole for any taxes imposed under Section 409A. The Company does not make any representation as to whether any benefits, payments, or reimbursements under this letter satisfy the requirements of Section 409A or any exemption thereto.

22. Assignment: This Agreement may be assigned by Employer to any affiliated or successor employer without the consent of Employee, and so long as the affiliate or successor accepts the assignment, this Agreement will continue to be binding upon the Employee. This Agreement may not be assigned by Employee.

23. Severability: Each paragraph of this Agreement shall be and remain separate from and independent of, and severable from, all and any other paragraphs herein except where otherwise indicated by the context of the Agreement. To the extent any portion of this Agreement, or any portion of any provision of this Agreement is held to be invalid or unenforceable, it is the Parties' express intent it shall be construed by severing, limiting and reducing it so as to be enforceable to the extent compatible with applicable law. All remaining provisions, and/or portions thereof, shall remain in full force and effect.

24. Modification: Any modification of this Agreement or any additional obligation assumed by either Party in connection with this Agreement shall be in writing and signed by each Party.

25. No Waiver: The failure of either Party to this Agreement to insist upon the performance of any terms and conditions or the waiver of any breach of any terms and conditions of this Agreement shall not be construed as thereafter waiving such terms and conditions, but the same shall continue to remain in full force and effect.

26. Complete Agreement: This Agreement contains the complete agreement concerning the employment agreement between the Parties and supersedes any and all prior understandings and agreements between the Parties concerning the subject matter hereof. The Parties stipulate that neither has made any representation with respect to the subject matter of this Agreement except such representations as are specifically set forth in this Agreement.

27. Interpretation of Agreement: The validity, interpretation, construction, and performance of this Agreement shall be governed by the laws of the State of Colorado, without regard to its conflict of law provisions. This Agreement shall be interpreted with all necessary changes in gender and in number as the context may require and shall inure to the benefit of and be binding upon the respective successors and assigns of the parties hereto.

28. Survival: The terms and provisions of Sections 6 through 14 of this Agreement shall survive the cancellation, termination, or expiration of this Agreement.

29. Resolution of Disputes: The parties consent and agree that, except as set forth in this Section 24, any action or proceeding between them arising from this Agreement shall be exclusively referred to binding arbitration in Denver, Colorado in accordance with the rules of the Commercial Arbitration ("AAA") Rules and Mediation Procedures before a single arbitrator selected by the Employer. The decision of the arbitrator shall be final, non-appealable and binding upon the parties and may be enforced in any court having jurisdiction thereof. The AAA Rules regarding discovery shall apply to arbitration under this Agreement. The Arbitrator selected according to this Agreement shall decide all discovery disputes. The parties shall split the administrative cost of arbitration equally and each party shall be responsible for the payment of its own respective legal fees. CLAIMS WHERE MANDATORY ARBITRATION IS PROHIBITED BY A VALID NON-PREEMPTED LAW ARE EXPLICITLY EXCLUDED FROM THIS ARBITRATION PROVISION. CLAIMS IN ARBITRATION SHALL BE FILED AND MAINTAINED ONLY ON AN INDIVIDUAL BASIS. EMPLOYEE MAY NOT FILE OR MAINTAIN ANY CLAIM IN ARBITRATION ON BEHALF OF OTHERS, COLLECTIVELY OR OTHERWISE, OR AS A NAMED PLAINTIFF/CLAIMANT OR MEMBER IN ANY PURPORTED CLASS, COLLECTIVE, OR REPRESENTATIVE PROCEEDING. THE ARBITRATOR MAY NOT CONSOLIDATE MORE THAN ONE PARTY'S CLAIMS, AND MAY NOT OTHERWISE PRESIDE OVER ANY FORM OF A COLLECTIVE, CLASS, OR REPRESENTATIVE ARBITRATION PROCEEDING. Notwithstanding the foregoing, any claim related to Sections 6 through 14 of this Agreement shall be asserted exclusively in the state or federal courts of the State of Colorado, and Employee hereby expressly consents to the jurisdiction thereof.

30. Notice: Notice shall be provided in writing via certified mail (return receipt requested), overnight courier or personal delivery to the address set forth below.

Exhibit 10.21

KALNIN VENTURES, LLC

EMPLOYMENT AGREEMENT

This Employment Agreement (the "**Agreement**") is effective as of the 18th day of February, 2020 ("Effective Date"), regardless of the date the Agreement is executed, by and between Kalnin Ventures, LLC, a Delaware limited liability company (hereinafter referred to as "**Employer**"), and **Eric Jacobsen, [***]** (hereinafter referred to as "**Employee**"). Collectively, Employer and Employee shall be referred to as the " **Parties**."

A. Employer desires to engage Employee in the position of **Chief Operating Officer**, based in Denver, Colorado, provided Employee's work will be focused upon the Company's assets and operations which are currently located in Pennsylvania and Texas.

B. Employee is willing to be employed by Employer, and Employer is willing to employ Employee, on the terms and conditions set forth herein.

C. In consideration of the mutual covenants and promises of the Parties hereto, Employer and Employee agree as follows:

1. Agreement to Employ and be Employed: Employer hereby agrees to employ Employee and Employee hereby accepts and agrees to such employment.

2. At-Will Employment: ***Employee's employment is at-will.*** Nothing in this Agreement guarantees Employee employment with Employer for any specific period. This means that, subject to the provisions of this Agreement, Employer may terminate employee at any time with no advance notice, procedure, or formality and for any lawful reason. Similarly, subject to the provisions of this Agreement, Employee may resign his employment at any time and for any reason.

3. Description of Employee's Duties: Employee will be employed as Chief Operating Officer. Employee's job duties are set forth in **Exhibit 1**. The position is exempt from overtime under both state and federal laws and regulations.

4. Manner of Performance of Employee's Duties: Employee shall be a full-time employee of Employer, shall devote his best efforts and entire business time, attention, and services exclusively to the business and affairs of Employer, and shall perform his duties as set forth in **Exhibit 1** with fidelity and to the best of his ability, experience, and talent. Employee shall also perform the duties of his position to the reasonable satisfaction of Employer.

Employee will not engage in the performance of services for any other business or entity during the term of this Agreement unless the performance of such services is approved by Employer in advance.

Notwithstanding anything in this Section 4, or in any other provision of this Agreement to the contrary, Employer hereby approves Employee's continued participation in, and service to, the business enterprise identified and described in Exhibit 2.

5. Compensation: In consideration of the services to be provided by Employer during employment, Employer shall compensate Employee as follows:

a. During his employment, Employee shall receive the equivalent of an annual base salary of Four Hundred Thousand U.S. Dollars ($400,000.00), less applicable payroll deductions and required taxes and withholdings ("**Base Compensation**"), with partial periods prorated. Employee's Base Compensation shall be payable in equal periodic installments according to Employer's customary payroll practice. The Base Compensation is based on and intended to compensate Employee for all hours worked.

b. During his employment, Employee may participate in Employer benefit plans and programs described in the attached **Exhibit 3**, to the extent that Employer maintains such plans or programs and in accordance with the eligibility and participation criteria applicable to each such plan or program. Employee acknowledges that the Employer has the right to change, modify, or eliminate benefits provided to its employees from time to time in Employer's sole discretion without notice to employees. As such, Employee acknowledges and agrees that this Agreement does not create a specific entitlement to any benefits, and that Employee will receive benefits at the same level as similarly situated employees of Employer.

c. During his employment, Employee may also, in Employer's sole discretion, receive compensation each calendar year in addition to his Base Compensation. Such additional compensation will be paid, if at all, in the form of an **Annual Target Bonus**, which Employer intends to fall between 0 percent and 40 percent (0-40%) of the annual Base Compensation. The availability of any bonus will be determined based upon Employer's performance and will consider Employee's individual effort and satisfactory achievement of established performance goals. Any such Annual Target Bonus (if any) will be paid to Employee, in full and subject to applicable tax, not later than March 15 of the calendar year following the calendar year during which Employee performed the services that gave rise to that Bonus. The bonus would be pro-rated based on your hire date.

Nothing in this provision (c) is intended to guarantee Employee the payment of a bonus in any amount other than as described in provision (c).

d. Paid Time Off (PTO). PTO includes vacation, sick, personal time, etc. Employee is eligible to accrue up to 25 days of PTO per year. Paid time off is accrued on a pro-rata basis at the rate of 2.08 days/Bi-Weekly throughout the year. Under Employer's policy, employees do not accrue PTO once they have earned their maximum paid time off hours per year. The accrual will resume once the amount of accrued PTO is less than the maximum possible accrual. Available PTO will automatically carry over into the new calendar year. Up to 10 days of accrued, unused paid time off will be paid out upon separation, unless otherwise required by law. Advanced but unaccrued paid time off will be deducted from an employee's final paycheck, to the extent permitted by law and Employee hereby authorizes such deduction in accordance with applicable law and waives the right to presentment, notice and protest.

e. Severance. In the event Employee is terminated without cause, as determined by the Company in good faith, Employee shall receive severance in an amount equal to three (3) months of Employee's salary as stated in this Agreement ("Severance Amount") with payment of such Severance Amount to be paid by Company to Employee within 30 days after termination of Employee's employment with Company.

The compensation described in this Section 5 constitutes all compensation made available by Employer for the services of Employee. No other or additional compensation in any form will be considered or paid for during the period of this Agreement.

6. Confidentiality: Employee acknowledges that, in the course of performing and fulfilling his duties hereunder, he may have access to and be entrusted with nonpublic information belonging to, developed by, licensed by, or otherwise in the possession of, Employer or its clients. To protect such information, Employee agrees that he will not, directly or indirectly, in one or a series of transactions, disclose to any person, or use or otherwise exploit for Employee's own benefit or for the benefit of anyone other than Employer, any Confidential Information, as defined below, whether prepared by Employee or not. At the request of Employer, Employee agrees to deliver to Employer, at any time during his employment, or thereafter, all Confidential Information which he may possess or control.

Employee shall be permitted to disclose Confidential Information if and to the extent disclosure of any part thereof is specifically required by law; provided, however, that in the event such disclosure is required by applicable law, Employee shall provide Employer with prompt written notice of such requirement, prior to making any disclosure, so that Employer may seek an appropriate protective order, and Employee only shall disclose information as necessary to comply with legal process. Moreover, in accordance with the Defend Trade Secrets Act ("DTSA"), an employee will not be held criminally or civilly liable under any federal or state trade secret law if an employee discloses a trade secret in confidence to federal, state, or local government officials, to his/his attorney solely for the purpose of reporting or investigating a suspected violation of law, or in a sealed complaint or other document filed in a lawsuit or other proceeding. Further, an employee who files a lawsuit alleging retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to his attorney and use the trade secret information in the court proceeding if the individual: (a) files the document containing the trade secret in a sealed court document and (b) does not disclose the trade secret, except pursuant to court order. The DTSA does not, however, offer protection from liability for individuals who access trade secrets by unlawful means.

Notwithstanding the foregoing, nothing in this Agreement is intended to prevent Employee from engaging in activity protected by the National Labor Relations Act, including engaging in discussion of concerns about working conditions or other concerted activities.

"**Confidential Information**" means any of Employer's and its Affiliates' confidential information including, without limitation, all provisions hereunder, any information, processes, plans, data calculations, software storage media or other compilation of information, patent, patent application, copyright, "know-how," trade secrets, customer lists, details of client or consultant contracts, pricing policies, operational methods, marketing plans or strategies, product development techniques or plans, business acquisition plans, any portion or phase of any scientific or technical information, ideas, discoveries, designs, inventions, creative works, computer programs (including source of object codes), processes, formulae, improvements or other proprietary or intellectual property of the Employer, whether or not in written or tangible form, and whether or not registered or labeled as confidential, and including all files, records, manuals, books, catalogues, memoranda, notes, summaries, plans, reports, records, documents and other evidence thereof. The covenant in this Section 6 shall survive termination of this Agreement. "Affiliate" is defined as all parent, sister and subsidiary companies.

7. Inventions, Ideas, and Other Intellectual Developments: In view of the purposes of Employer and the need to secure for the Employer and/or Interested Parties (defined below) their right to Intellectual Developments (defined below) related to the business of Employer and/or such Interested Party, Employee understands that Employer must be in a position to use, assign, and otherwise dispose of Intellectual Developments made by its staff members and employees. Accordingly, except for those items excluded by Section 12 below, Employee shall promptly disclose to Employer and, when requested, furnish to the Employer a complete record of every discovery, invention, improvement, innovation, design, analysis, reports, drawings, copyright, intellectual property right and other definite and useful idea or compilation of information of value (individually and collectively an "**Intellectual Development**"), which Employee may make or originate, individually or with others, at any time during the term of Employee's employment by the Employer. Employee hereby assigns to the Employer or its nominee the entire rights throughout the world to such Intellectual Developments which relate to the current or potential business or activities of the Employer or any Interested Parties or which results from Employee's work with Employer. The term "**Interested Parties**" means any person having a business relationship with the Company where the relationship gives rise to a claim by that person to some interest in Intellectual Developments made by employees and associates of the Employer or its Affiliates.

8. Cooperation: Employee shall fully cooperate with Employer or its designees in securing, in the name of the Company or its designees, rights with respect to the Intellectual Developments described in Section 7 above, in all countries. Employee shall promptly execute all proper documents presented for signature and do all things reasonably required to enable Employer or its designees to accomplish the above, at any time during or after Employee's employment.

9. Shop Rights and Holdover: Employee agrees that Employer or its designees shall be entitled to shop rights to any Intellectual Developments conceived or made by Employee that is not related to the Employer's trade secrets and/or Confidential Information but conceived or made on Company time or

with the use of Employer's facilities or materials. Employee further agrees that any Intellectual Developments related to Employer's trade secrets and/or Confidential Information described by Employee in a patent, service mark, trademark, or copyright application, disclosed by Employee in any manner to a third person, or created by Employee or Employee's affiliates or any person with whom Employee has any business, financial or confidential relationship, within one (1) year after cessation of Employee's employment with Employer for any reason, was conceived or made by Employee during Employee's employment with Employer and is therefore the sole property of Employer or its designees.

10. Information and Testimony: For a period of time up to five years from Employee's last date of employment with Employer, Employee shall, without expense to Employee, give such true information and testimony at reasonable times and places upon prior notice, under oath if requested, as may be requested by Employer or its designees relative to any Intellectual Development described in Section 7 above.

11. Interest of the Employee: As to inventions, applications for patents, and copyrightable material in which Employee presently holds an interest and which are not subject to this Agreement:

Check One:

☒ Employee has no such property.
☐ Employee has described all such property in Section 12, below.

12. Description of Inventions, Applications for Patents and Copyright Material Exempted in Section 11 .

Employee to insert description of applicable inventions, patents and copyright material below.

By: _____on_____
_____ Date

13. Restrictive Covenant: Because Employee will be provided with proprietary, confidential, and trade secret information, the Employee shall not, during his employment:

a. enter into, own, manage, operate, control, be employed with, or engage, as an employee, associate, officer, director, shareholder, partner or in any other capacity, on behalf of any association, enterprise, company, or firm that provides services or products in competition with Employer, except as otherwise provided in Exhibit 2 to this Agreement;

b. directly or indirectly solicit or attempt to solicit the business of any client or customer or active customer prospect of the Employer or any of its Affiliates for his own benefit or that of any third person or organization; and

c. directly or indirectly induce any employee or contractor of Employer or any of its Affiliates to leave his or his employment or independent contract with Employer or any of its Affiliates.

14. Non-Disparagement: Employee agrees that at any time during his employment with the Employer and at any time thereafter, Employee shall not, except in the good faith commission of his duties and responsibilities, make, or cause or assist any other person to make, any statement or other communication that impugns or attacks, or is otherwise critical to the reputation, business or character of the Employer or any of its officers, directors, members, managers, employees, products or services.

15. Reasonableness of Restraints, Irreparable Harm: Employee acknowledges that: (a) the agreements and covenants contained herein are reasonably necessary to protect the goodwill, Confidential Information, Intellectual Developments, trade secrets, and other business interests of Employer; (b) any breach of the covenants contained herein will cause Employer immediate irreparable harm for which injunctive relief would be necessary; (c) the covenants contained herein are essential and material elements of this Agreement and Employer would not have entered into this Agreement or permitted Employee to obtain employment or remain employed without those covenants being included in this Agreement; (d) Employee has had the opportunity to consult with and be advised by legal counsel concerning the reasonableness and propriety of the covenants contained herein; and (e) in the event of any violation or attempted violation of the covenants contained herein, Employer shall be entitled to a temporary restraining order, temporary or permanent injunctions, and other injunctive relief, without any showing of irreparable harm or damage or any need to post a bond, in addition to any other rights or remedies which may then be available to Employer. In addition to, but not instead of, any other legal or equitable remedies available to Employer, Employee hereby agrees to reimburse Employer for reasonable attorneys' fees and costs incurred by Employer in the event Employer is successful in showing a violation or attempted violation of this Agreement as determined by a court of competent jurisdiction.

16. No Existing Obligations: Employee represents that Employee: (a) is not subject to a confidentiality, trade secret, conflict of interest, or non-competition agreement with any former employer, contractor or third party, except for the Separation and General Release Agreement in **Exhibit 4**; and (b) has no continuing obligations to any former employer, contractor or third party with respect to the ownership or assignment of any proprietary rights, including, but not limited to, inventions, ideas, copyrights, trade secrets or patents, including any such rights in information, or creations or materials Employee conceived or made, in whole or in part that will impact Employee's services for Employer. Employee understands that any such agreement or obligation, as well as any trade secret and other property laws, may restrict Employee from using any secret or proprietary information that belongs to any former employer, contractor or third party, either for Employee's own benefit or for anyone else's benefit, including Employer. Employee also understands that Employee, or anyone else who uses or benefits from a third party's proprietary information, may be liable to that third party; therefore, Employee agrees not to use any confidential, trade secret, or proprietary information that belongs to any former employer, contractor, or third party during the term of employment, either for Employee's own benefit or to benefit Employer or any of its clients, customers, or affiliates.

17. Assignment: This Agreement may be assigned by Employer to any affiliated or successor employer without the consent of Employee, and so long as the affiliate or successor accepts the assignment, this Agreement will continue to be binding upon the Employee. This Agreement may not be assigned by Employee.

18. Severability: Each paragraph of this Agreement shall be and remain separate from and independent of, and severable from, all and any other paragraphs herein except where otherwise indicated by the context of the Agreement. To the extent any portion of this Agreement, or any portion of any provision of this Agreement is held to be invalid or unenforceable, it is the Parties' express intent it shall be construed by severing, limiting and reducing it so as to be enforceable to the extent compatible with applicable law. All remaining provisions, and/or portions thereof, shall remain in full force and effect.

19. Modification: Any modification of this Agreement or any additional obligation assumed by either Party in connection with this Agreement shall be in writing and signed by each Party.

20. No Waiver: The failure of either Party to this Agreement to insist upon the performance of any terms and conditions or the waiver of any breach of any terms and conditions of this Agreement shall not be construed as thereafter waiving such terms and conditions, but the same shall continue to remain in full force and effect.

21. Complete Agreement: This Agreement contains the complete agreement concerning the employment agreement between the Parties and supersedes any and all prior understandings and agreements between the Parties concerning the subject matter hereof. The Parties stipulate that neither has made any representation with respect to the subject matter of this Agreement except such representations as are specifically set forth in this Agreement.

22. Interpretation of Agreement: The validity, interpretation, construction, and performance of this Agreement shall be governed by the laws of the State of Colorado, without regard to its conflict of law provisions. This Agreement shall be interpreted with all necessary changes in gender and in number as the context may require and shall inure to the benefit of and be binding upon the respective successors and assigns of the parties hereto.

23. Survival: The terms and provisions of Sections 6 through 14 of this Agreement shall survive the cancellation, termination, or expiration of this Agreement.

24. Resolution of Disputes: The parties consent and agree that, except as set forth in this Section 24, any action or proceeding between them arising from this Agreement shall be exclusively referred to binding arbitration in Denver, Colorado in accordance with the rules of the Commercial Arbitration ("AAA") Rules and Mediation Procedures before a single arbitrator selected by the Employer. The decision of the arbitrator shall be final, non-appealable and binding upon the parties and may be enforced in any court having jurisdiction thereof. The AAA Rules regarding discovery shall apply to arbitration under this Agreement. The Arbitrator selected according to this Agreement shall decide all discovery disputes. The parties shall split the administrative cost of arbitration equally and each party shall be responsible for the payment of its own respective legal fees. CLAIMS WHISE MANDATORY ARBITRATION IS PROHIBITED BY A VALID NON-PREEMPTED LAW ARE EXPLICITLY EXCLUDED FROM THIS ARBITRATION PROVISION. CLAIMS IN ARBITRATION SHALL BE FILED AND MAINTAINED ONLY ON AN INDIVIDUAL BASIS. EMPLOYEE MAY NOT FILE OR MAINTAIN ANY CLAIM IN ARBITRATION ON BEHALF OF OTHISS, COLLECTIVELY OR OTHISWISE, OR AS A NAMED PLAINTIFF/CLAIMANT OR MEMBER IN ANY PURPORTED CLASS, COLLECTIVE, OR REPRESENTATIVE PROCEEDING. THE ARBITRATOR MAY NOT CONSOLIDATE MORE THAN ONE PARTY'S CLAIMS, AND MAY NOT OTHISWISE PRESIDE OVER ANY FORM OF A COLLECTIVE, CLASS, OR REPRESENTATIVE ARBITRATION PROCEEDING. Notwithstanding the foregoing, any claim related to Sections 6 through 14 of this Agreement shall be asserted exclusively in the state or federal courts of the State of Colorado, and Employee hereby expressly consents to the jurisdiction thereof.

25. Notice: Notice shall be provided in writing via certified mail (return receipt requested), overnight courier or personal delivery to the address set forth below.

Kalnin Ventures, LLC ("Employer")

Exhibit 10.22

BKV CORPORATION

EMPLOYMENT AGREEMENT

This Employment Agreement (the "**Agreement**") is effective as of the 15th day of January, 2021 ("Effective Date"), regardless of the date the Agreement is executed, by and between BKV Corporation, a Delaware corporation (hereinafter referred to as "**Employer**" or "**Company**"), and Brid Kealey (hereinafter referred to as "**Employee**" or "**you**"). Collectively, Employer and Employee shall be referred to as the " **Parties**."

A. Employer desires to engage Employee in the position of Chief Human Resources Officer (CHRO).

B. Employee is willing to be employed by Employer, and Employer is willing to employ Employee, on the terms and conditions set forth herein.

C. In consideration of the mutual covenants and promises of the Parties hereto, Employer and Employee agree as follows:

1. Agreement to Employ and be Employed: Employer hereby agrees to employ Employee and Employee hereby accepts and agrees to such employment.

2. At-Will Employment: ***Employee's employment is at-will.*** Nothing in this Agreement guarantees Employee employment with Employer for any specific period of time. This means that, subject to the provisions of this Agreement, Employer may terminate employee at any time with no advance notice, procedure, or formality and for any lawful reason, with or without cause. Similarly, subject to the provisions of this Agreement, Employee may resign his employment at any time and for any reason. Your at-will employment relationship cannot be changed by any oral representation, written document or other conduct unless such change is specifically acknowledged in writing by an authorized executive of the Company.

3. Description of Employee's Duties: Employee will be employed as Chief Human Resources Officer. Employee's job duties are set forth in **Exhibit 1**. The position is exempt from overtime under both state and federal laws and regulations. You will report to Christopher P. Kalnin and your primary office location will be at our offices in Denver, Colorado. Your start date will be approximately February 1, 2021 (the "Start Date"). In addition, we also attach Colorado Overtime and Minimum Pay Standards Order 36.

4. Manner of Performance of Employee's Duties: Employee shall be a full-time employee of Employer, shall devote his best efforts and entire business time, attention, and services exclusively to the business and affairs of Employer, and shall perform his duties as set forth in **Exhibit 1** with fidelity and to the best of his ability, experience, and talent. Employee shall also perform the duties of his position to the reasonable satisfaction of Employer.

Employee will not engage in the performance of services for any other business or entity during the term of this Agreement unless the performance of such services is approved by Employer in advance.

Notwithstanding anything in this Section 4, or in any other provision of this Agreement to the contrary, Employer hereby approves Employee's continued participation in, and service to, the business enterprise identified and described in Exhibit 2.

5. Compensation: In consideration of the services to be provided by Employer during employment, Employer shall compensate Employee as follows:

a. During his employment, Employee shall receive the equivalent of an annual base salary of Two Hundred Ninety-Five Thousand U.S. dollars ($295,000.00), less applicable payroll deductions and required taxes and withholdings ("**Base Compensation**"), with partial periods prorated. Employee's Base Compensation shall be payable in equal periodic installments according to Employer's customary payroll practice. The Base Compensation is based on and intended to compensate Employee for all hours worked.

b. During your employment, Employee may participate in Employer benefit plans and programs described in the attached **Exhibit 3**, to the extent that Employer maintains such plans or programs and in accordance with the eligibility and participation criteria applicable to each such plan or program. Employee acknowledges that the Employer has the right to change, modify, or eliminate benefits provided to its employees from time to time in Employer's sole discretion without notice to employees. As such, Employee acknowledges and agrees that this Agreement does not create a specific entitlement to any particular benefits, and that Employee will receive benefits at the same level as other similarly situated employees of Employer.

c. During his employment, Employee may also, in Employer's sole discretion, receive compensation each calendar year in addition to his Base Compensation. Such additional compensation will be paid, if at all, in the form of an **Annual Target Bonus**, which Employer intends to fall between 0 percent and 40 percent (0-40%) of the annual Base Compensation. The availability of any bonus will be determined based upon Employer's performance and will take into account Employee's individual effort and satisfactory achievement of established performance goals. Any such Annual Target Bonus (if any) will be paid to Employee, in full and subject to applicable tax, not later than March 15 of the calendar year following the calendar year during which Employee performed the services that gave rise to that Bonus. The bonus would be pro-rated based on your Start Date.

Nothing in this provision (c) is intended to guarantee Employee the payment of a bonus in any amount other than as described in provision (c).

d. Paid Time Off (PTO). PTO includes vacation, sick, personal time, etc. Employee is eligible to accrue up to 30 days of PTO per year. Paid time off is accrued on a pro-rata basis at the rate of 1.15 days/Bi-Weekly throughout the year. Under Employer's policy, employees do not accrue PTO once they have earned their maximum paid time off hours per year. The accrual will resume once the amount of accrued PTO is less than the maximum possible accrual. Available PTO will automatically carry over into the new calendar year. Up to 10 days of accrued, unused paid time off will be paid out upon separation, unless otherwise required by law. Advanced but unaccrued paid time off will be deducted from an employee's final paycheck, to the extent permitted by law and Employee hereby authorizes such deduction in accordance with applicable law and waives the right to presentment, notice and protest.

e. Signing Bonus. The Company will pay you a signing bonus of $100,000, less lawful deductions and withholdings within thirty (30) days of your Start Date (the "Signing Bonus").

f. Long Term Incentive. In addition, during your employment, subject to final management approval, you will also be eligible for the Company's Long-Term Incentive Program ("LTIP") pursuant to the terms of the LTIP and grant agreements to be provided separately to you once employed, which is estimated to equate to 100,000 shares. Employee shall also, during your employment, be eligible to receive between 0-300,000 shares pursuant to the terms of the LTIP and grant agreements to be provided separately to you, on January 1, 2023 subject to management approval and satisfactory achievement of performance goals by Employee. Finally, in addition to the Signing Bonus, the availability of any bonus including any grant of LTIP, will be determined based upon the Company's performance and will consider your individual effort and satisfactory achievement of established performance goals.

The compensation described in this Section 5 constitutes all compensation made available by Employer for the services of Employee. No other or additional compensation in any form will be considered or paid for during the period of this Agreement.

6. **Relocation**: Employee shall be promptly reimbursed Employee for reasonable relocation costs incurred as described below to move residence and family, the aggregate of which is not to exceed $30,000. Covered costs include:

a. reasonable broker fees in connection with the sale of the existing family home, reasonable out-of-pocket fees and expenses, and transfer taxes, but not home sales tax;

b. packing and moving of all household goods and shipment of three automobiles based upon a competitive bid approved through the Company's Human Resources department;

Covered expenses do not include other broker fees or mortgage financing fees in excess of two points, in connection with the purchase of a residence.

During an agreed Transition Period, Employee will be reimbursed for reasonable expenses associated with commuting, including two trips accompanied by partner/spouse for purposes of relocation-related planning, and for temporary housing and rental car expenses in accordance with the Company's T&E Policy.

Relocation expenses must be incurred within twelve (12) months from January 1, 2021 and payment will include a full tax gross-up for taxes incurred on receipt of the reimbursements under this section.

7. **Confidentiality**: Employee acknowledges that, in the course of performing and fulfilling his duties hereunder, she may have access to and be entrusted with nonpublic information belonging to, developed by, licensed by, or otherwise in the possession of, Employer or its clients. To protect such information, Employee agrees that she will not, directly or indirectly, in one or a series of transactions, disclose to any person, or use or otherwise exploit for Employee's own benefit or for the benefit of anyone other than Employer, any Confidential Information, as defined below, whether prepared by Employee or not. At the request of Employer, Employee agrees to deliver to Employer, at any time during his employment, or thereafter, all Confidential Information which she may possess or control.

Employee shall be permitted to disclose Confidential Information if and to the extent disclosure of any part thereof is specifically required by law; provided, however, that in the event such disclosure is required by applicable law, Employee shall provide Employer with prompt written notice of such requirement, prior to making any disclosure, so that Employer may seek an appropriate protective order, and Employee only shall disclose information as necessary to comply with legal process. Moreover, in accordance with the Defend Trade Secrets Act ("DTSA"), an employee will not be held criminally or civilly liable under any federal or state trade secret law if an employee discloses a trade secret in confidence to federal, state, or local government officials, to his/her attorney solely for the purpose of reporting or investigating a suspected violation of law, or in a sealed complaint or other document filed in a lawsuit or other proceeding. Further, an employee who files a lawsuit alleging retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to his attorney and use the trade secret information in the court proceeding if the individual: (a) files the document containing the trade secret in a sealed court document and (b) does not disclose the trade secret, except pursuant to court order. The DTSA does not, however, offer protection from liability for individuals who access trade secrets by unlawful means.

Notwithstanding the foregoing, nothing in this Agreement is intended to prevent Employee from engaging in activity protected by the National Labor Relations Act, including engaging in discussion of concerns about working conditions or other concerted activities.

"**Confidential Information**" means any of Employer's and its Affiliates' confidential information including, without limitation, all provisions hereunder, any information, processes, plans, data calculations, software storage media or other compilation of information, patent, patent application, copyright, "know-

how," trade secrets, customer lists, details of client or consultant contracts, pricing policies, operational methods, marketing plans or strategies, product development techniques or plans, business acquisition plans, any portion or phase of any scientific or technical information, ideas, discoveries, designs, inventions, creative works, computer programs (including source of object codes), processes, formulae, improvements or other proprietary or intellectual property of the Employer, whether or not in written or tangible form, and whether or not registered or labeled as confidential, and including all files, records, manuals, books, catalogues, memoranda, notes, summaries, plans, reports, records, documents and other evidence thereof. The covenant in this Section 7 shall survive termination of this Agreement. "Affiliate" is defined as all parent, sister and subsidiary companies.

8. Inventions, Ideas, and Other Intellectual Developments: In view of the purposes of Employer and the need to secure for the Employer and/or Interested Parties (defined below) their right to Intellectual Developments (defined below) related to the business of Employer and/or such Interested Party, Employee understands that Employer must be in a position to use, assign, and otherwise dispose of Intellectual Developments made by its staff members and employees. Accordingly, except for those items excluded by Section 12 below, Employee shall promptly disclose to Employer and, when requested, furnish to the Employer a complete record of every discovery, invention, improvement, innovation, design, analysis, reports, drawings, copyright, intellectual property right and other definite and useful idea or compilation of information of value (individually and collectively an "**Intellectual Development**"), which Employee may make or originate, individually or with others, at any time during the term of Employee's employment by the Employer. Employee hereby assigns to the Employer or its nominee the entire rights throughout the world to such Intellectual Developments which relate to the current or potential business or activities of the Employer or any Interested Parties or which results from Employee's work with Employer. The term "**Interested Parties**" means any person having a business relationship with the Company where the relationship gives rise to a claim by that person to some interest in Intellectual Developments made by employees and associates of the Employer or its Affiliates.

9. Cooperation: Employee shall fully cooperate with Employer or its designees in securing, in the name of the Company or its designees, rights with respect to the Intellectual Developments described in Section 8 above, in all countries. Employee shall promptly execute all proper documents presented for signature and do all things reasonably required to enable Employer or its designees to accomplish the above, at any time during or after Employee's employment.

10. Shop Rights and Holdover: Employee agrees that Employer or its designees shall be entitled to shop rights to any Intellectual Developments conceived or made by Employee that is not related to the Employer's trade secrets and/or Confidential Information but conceived or made on Company time or with the use of Employer's facilities or materials. Employee further agrees that any Intellectual Developments related to Employer's trade secrets and/or Confidential Information described by Employee in a patent, service mark, trademark, or copyright application, disclosed by Employee in any manner to a third person, or created by Employee or Employee's affiliates or any person with whom Employee has any business, financial or confidential relationship, within one (1) year after cessation of Employee's employment with Employer for any reason, was conceived or made by Employee during Employee's employment with Employer and is therefore the sole property of Employer or its designees.

11. Information and Testimony: For a period of time up to five years from Employee's last date of employment with Employer, Employee shall, without expense to Employee, give such true information and testimony at reasonable times and places upon prior notice, under oath if requested, as may be requested by Employer or its designees relative to any Intellectual Development described in Section 8 above.

12. Interest of the Employee: As to inventions, applications for patents, and copyrightable material in which Employee presently holds an interest and which are not subject to this Agreement:

Check One:

☐ Employee has no such property.

☐ Employee has described all such property in Section 13 below.

13. Description of Inventions, Applications for Patents and Copyright Material Exempted in Section 12 .

Employee to insert description of applicable inventions, patents and copyright material below.

By: _____on_____

_____ Date

14. Restrictive Covenant: Because Employee will be provided with proprietary, confidential, and trade secret information, the Employee shall not, during his employment:

a. enter into, own, manage, operate, control, be employed with, or engage, as an employee, associate, officer, director, shareholder, partner or in any other capacity, on behalf of any association, enterprise, company, or firm that provides services or products in competition with Employer, except as otherwise provided in Exhibit 2 to this Agreement;

b. directly or indirectly solicit or attempt to solicit the business of any client or customer or active customer prospect of the Employer or any of its Affiliates for his own benefit or that of any third person or organization; and

c. directly or indirectly induce any employee or contractor of Employer or any of its Affiliates to leave his or his employment or independent contract with Employer or any of its Affiliates.

15. Non-Disparagement: Employee agrees that at any time during his employment with the Employer and at any time thereafter, Employee shall not, except in the good faith commission of his duties and responsibilities, make, or cause or assist any other person to make, any statement or other communication that impugns or attacks, or is otherwise critical to the reputation, business or character of the Employer or any of its officers, directors, members, managers, employees, products or services.

16. Reasonableness of Restraints, Irreparable Harm: Employee acknowledges that: (a) the agreements and covenants contained herein are reasonably necessary to protect the goodwill, Confidential Information, Intellectual Developments, trade secrets, and other business interests of Employer; (b) any breach of the covenants contained herein will cause Employer immediate irreparable harm for which injunctive relief would be necessary; (c) the covenants contained herein are essential and material elements of this Agreement and Employer would not have entered into this Agreement or permitted Employee to obtain employment or remain employed without those covenants being included in this Agreement; (d) Employee has had the opportunity to consult with and be advised by legal counsel concerning the reasonableness and propriety of the covenants contained herein; and (e) in the event of any violation or attempted violation of the covenants contained herein, Employer shall be entitled to a temporary restraining order, temporary or permanent injunctions, and other injunctive relief, without any showing of irreparable harm or damage or any need to post a bond, in addition to any other rights or remedies which may then be available to Employer. In addition to, but not instead of, any other legal or equitable remedies available to Employer, Employee hereby agrees to reimburse Employer for reasonable attorneys' fees and costs incurred by Employer in the event Employer is successful in showing a violation or attempted violation of this Agreement as determined by a court of competent jurisdiction.

17. No Existing Obligations: Employee represents that Employee: (a) is not subject to a confidentiality, trade secret, conflict of interest, or non-competition agreement with any former employer, contractor or third party; and (b) has no continuing obligations to any former employer, contractor or third party with respect to the ownership or assignment of any proprietary rights, including, but not limited to, inventions, ideas, copyrights, trade secrets or patents, including any such rights in information, or creations or materials Employee conceived or made, in whole or in part that will impact Employee's services for Employer. Employee understands that any such agreement or obligation, as well as any trade secret and other property laws, may restrict Employee from using any secret or proprietary information that belongs to any former employer, contractor or third party, either for Employee's own benefit or for anyone else's benefit, including Employer. Employee also understands that Employee, or anyone else who uses or benefits from a third party's proprietary information, may be liable to that third party; therefore, Employee agrees not to use any confidential, trade secret, or proprietary information that belongs to any former employer, contractor, or third party during the term of employment, either for Employee's own benefit or to benefit Employer or any of its clients, customers, or affiliates.

18. Termination of Employment and Termination Payment. Notwithstanding the at-will nature of your employment, if your employment is terminated by the Company without "Cause" as defined below, in addition to the (1) payment of your Base Compensation and any bonuses earned through the termination date, (2) payment for any unused, accrued vacation days as of your termination date, and (3) reimbursement of any outstanding, reasonable business expenses incurred by you through the termination date, you will be eligible to receive a severance benefit equal to the sum of six (6) months of your annual Base Compensation as of the date of termination, provided you execute a Separation Agreement and General Release provided by the Company (the "Separation Agreement"). For purposes of this letter, the term "Cause" shall mean any of the following: (i) other than as a result of a disability, your willful failure to perform your duties; (ii) your willful engagement in misconduct which is injurious to the Company, monetarily or otherwise; (iii) your conviction of a crime (including a nolo contendere plea) involving, in the good faith of the Company, fraud, dishonesty or moral turpitude; (iv) the negligent performance of your duties; (v) your breach of any covenant set forth in the Confidential Information and Non-Solicitation Agreement; or (vi) your breach of any material Company policy. You will be considered to have been terminated for "Cause" if the Company determines in good faith that you engaged in an act constituting "Cause" even after a resignation by you.

19. Non-Competition. In exchange for the termination payment described in Section 18 above, for a period of five (5) months following termination of Employee's employment, for any reason, Employee shall not (1) enter into or engage in any business which competes with the Company or any of its subsidiaries or affiliates ("Company Group") within the States of Pennsylvania, Colorado and Texas ("Restricted Territory"); (2) solicit any known customers, business, assets, investments or patronage (or customer, business, asset, investment or patronage prospects) for, or sell, any products or services in competition with or for any business that competes with the Company Group within the Restricted Territory; (3) divert, entice or otherwise take away any known business, assets or investments or patronage (or customer, business, asset, investment or patronage prospects) of the Company Group within the Restricted Territory; or (4) promote, manage or assist, financially or otherwise, any person, firm, association, partnership, corporation or other entity engaged in any business which competes with or is engaged in the same business as the Company Group within the Restricted Territory. For purposes of this section, Employee will be in violation of the non-compete provision set forth herein if Employee engages in any or all of the activities set forth herein directly as an individual on Employee's own account or indirectly as a partner, joint venture, employee, agent, salesperson, consultant, officers and/or director of any firm, association, partnership, corporation or other entity or as a shareholder of any corporation (or owner of any other type of equity interest in any other entity) in which Employee or Employee's spouse, minor child, or parent sharing the same household as Employee owns, directly or indirectly, individually or in the aggregate, more than 1% of the outstanding stock or other equity interests. If it is judicially determined or by consent of Employee that Employee has violated this Section 19 and the Company obtains an order, injunction or other equitable relief, then the period applicable to each obligation that Employee has been determined to have violated will be automatically extended by a period of time equal in length to the period during which such violation occurred.

20. Termination Notice. Your employment may be terminated in writing either by the Company without Cause or by you upon ninety (90) days written notice to the Company. If the Company terminates your employment without Cause, 90 days' notice is not required by the Company, provided that it offers to pay you the severance benefits described in this letter in exchange for you signing a Separation Agreement and General Release. For purposes of clarity, no prior notice is required to terminate your employment by the Company with Cause.

21. Internal Revenue Code Section 409A Compliance. Both you and the Company intend that all compensation or benefits paid under this letter as well as the Separation Agreement comply with Internal Revenue Code Section 409A and the regulations and guidance promulgated thereunder (collectively "Section 409A") and, accordingly, to the maximum extent permitted, this letter shall be interpreted to be in compliance therewith. By way of example, and not

limitation, with respect to payments triggered by your "termination of employment" (and similar terms) such phrase shall be construed to mean your "separation from service" with the Company (determined under Treasury Regulation Section 1.409A-1(h)). Further, notwithstanding any other provision of this letter to the contrary, if any amount to be paid to you as a result of the termination of your employment pursuant to this letter or the Separation Agreement is "deferred compensation" subject to Section 409A, and if you are a "specified employee" (as defined under Section 409A) as of the date of your termination of employment hereunder, then, to the extent necessary to avoid the imposition of excise taxes or other penalties under Section 409A, the payment of benefits, if any, scheduled to be paid by the Company to you hereunder during the first six (6) month period following the date of a termination of employment hereunder shall not be paid until the date which is the first business day following the six-month anniversary of the termination of your employment for any reason other than death. Any deferred compensation payments delayed in accordance with the terms of this paragraph shall be paid in a lump sum when paid. In addition, both you and the Company agree to cooperate fully with one another to attempt to ensure compliance with Section 409A, including, without limitation, adopting amendments to arrangements subject to Section 409A and operating such arrangements in compliance with Section 409A; provided, however, nothing in this paragraph shall require you to reduce your compensation; provided, further, however, nothing in this letter shall constitute an agreement to indemnify, gross up or otherwise make you whole for any taxes imposed under Section 409A. The Company does not make any representation as to whether any benefits, payments, or reimbursements under this letter satisfy the requirements of Section 409A or any exemption thereto.

22. Assignment: This Agreement may be assigned by Employer to any affiliated or successor employer without the consent of Employee, and so long as the affiliate or successor accepts the assignment, this Agreement will continue to be binding upon the Employee. This Agreement may not be assigned by Employee.

23. Severability: Each paragraph of this Agreement shall be and remain separate from and independent of, and severable from, all and any other paragraphs herein except where otherwise indicated by the context of the Agreement. To the extent any portion of this Agreement, or any portion of any provision of this Agreement is held to be invalid or unenforceable, it is the Parties' express intent it shall be construed by severing, limiting and reducing it so as to be enforceable to the extent compatible with applicable law. All remaining provisions, and/or portions thereof, shall remain in full force and effect.

24. Modification: Any modification of this Agreement or any additional obligation assumed by either Party in connection with this Agreement shall be in writing and signed by each Party.

25. No Waiver: The failure of either Party to this Agreement to insist upon the performance of any terms and conditions or the waiver of any breach of any terms and conditions of this Agreement shall not be construed as thereafter waiving such terms and conditions, but the same shall continue to remain in full force and effect.

26. Complete Agreement: This Agreement contains the complete agreement concerning the employment agreement between the Parties and supersedes any and all prior understandings and agreements between the Parties concerning the subject matter hereof. The Parties stipulate that neither has made any representation with respect to the subject matter of this Agreement except such representations as are specifically set forth in this Agreement.

27. Interpretation of Agreement: The validity, interpretation, construction, and performance of this Agreement shall be governed by the laws of the State of Colorado, without regard to its conflict of law provisions. This Agreement shall be interpreted with all necessary changes in gender and in number as the context may require and shall inure to the benefit of and be binding upon the respective successors and assigns of the parties hereto.

28. Survival: The terms and provisions of Sections 7 through 15 of this Agreement shall survive the cancellation, termination, or expiration of this Agreement.

29. Resolution of Disputes: The parties consent and agree that, except as set forth in this Section 29, any action or proceeding between them arising from this Agreement shall be exclusively referred to binding arbitration in Denver, Colorado in accordance with the rules of the Commercial Arbitration ("AAA") Rules and Mediation Procedures before a single arbitrator selected by the Employer. The decision of the arbitrator shall be final, non-appealable and binding upon the parties and may be enforced in any court having jurisdiction thereof. The AAA Rules regarding discovery shall apply to arbitration under this Agreement. The Arbitrator selected according to this Agreement shall decide all discovery disputes. The parties shall split the administrative cost of arbitration equally and each party shall be responsible for the payment of its own respective legal fees. CLAIMS WHERE MANDATORY ARBITRATION IS PROHIBITED BY A VALID NON-PREEMPTED LAW ARE EXPLICITLY EXCLUDED FROM THIS ARBITRATION PROVISION. CLAIMS IN ARBITRATION SHALL BE FILED AND MAINTAINED ONLY ON AN INDIVIDUAL BASIS. EMPLOYEE MAY NOT FILE OR MAINTAIN ANY CLAIM IN ARBITRATION ON BEHALF OF OTHERS, COLLECTIVELY OR OTHERWISE, OR AS A NAMED PLAINTIFF/CLAIMANT OR MEMBER IN ANY PURPORTED CLASS, COLLECTIVE, OR REPRESENTATIVE PROCEEDING. THE ARBITRATOR MAY NOT CONSOLIDATE MORE THAN ONE PARTY'S CLAIMS, AND MAY NOT OTHERWISE PRESIDE OVER ANY FORM OF A COLLECTIVE, CLASS, OR REPRESENTATIVE ARBITRATION PROCEEDING. Notwithstanding the foregoing, any claim related to Sections 7 through 15 of this Agreement shall be asserted exclusively in the state or federal courts of the State of Colorado, and Employee hereby expressly consents to the jurisdiction thereof.

Exhibit 10.23

KALNIN VENTURES, LLC

EMPLOYMENT AGREEMENT

This Employment Agreement (the "**Agreement**") is effective as of the 15th day of October 2018 ("Effective Date"), regardless of the date the Agreement is executed, by and between Kalnin Ventures LLC, a Colorado limited liability company (hereinafter referred to as "**Employer**"), and **Lindsay B. Larrick** (hereinafter referred to as "**Employee**"). Collectively, Employer and Employee shall be referred to as the " **Parties.**"

A. Employer desires to engage Employee in the position of Vice President and General Counsel.

B. Employee is willing to be employed by Employer, and Employer is willing to employ Employee, on the terms and conditions set forth herein.

C. In consideration of the mutual covenants and promises of the Parties hereto, Employer and Employee agree as follows:

1. **Agreement to Employ and be Employed**: Employer hereby agrees to employ Employee and Employee hereby accepts and agrees to such employment.

2. **Duration of Employment**: ***Employee's employment is at will.*** Nothing in this Agreement guarantees Employee employment with Employer for any specific period of time. This means that, subject to the provisions of this Agreement, Employer may terminate employee at any time with no advance notice, procedure, or formality and for any lawful reason. Similarly, subject to the provisions of this Agreement, Employee may resign their employment at any time and for any reason. The time that Employee is employed by Employer shall be referenced as the "**Term of Employment**."

3. **Description of Employee's Duties**: Employee will be employed as Vice President and General Counsel. Employee's job duties are set forth in **Exhibit 1**. The Vice President and General Counsel position is exempt from overtime under both state and federal laws and regulations.

4. **Manner of Performance of Employee's Duties**: Employee shall be a full-time employee of Employer, shall devote their best efforts and entire business time, attention, and services exclusively to the business and affairs of Employer, and shall perform their duties as set forth in **Exhibit 1** with fidelity and to the best of their ability, experience, and talent. Employee shall also perform the duties of their position to the reasonable satisfaction of Employer.

Employee will not engage in the performance of services for any other business or entity during the term of this Agreement unless the performance of such services is approved by Employer in advance.

Notwithstanding anything in this Section 4, or in any other provision of this Agreement to the contrary, Employer hereby approves Employee's continued participation in, and service to, the business enterprise identified and described in Exhibit 2.

5. **Compensation**: In consideration of the services to be provided by Employer during the Term of Employment, Employer shall compensate Employee as follows:

a. During the Term of Employment, the Employee shall receive the base gross compensation of three hundred thousand U.S. dollars ($300,000.00) annually, less approved payroll deductions and required taxes and withholdings ("**Base Compensation**"), with partial periods prorated. Employee's Base Compensation shall be payable in equal periodic installments according to the Employer's customary payroll practice. The Base Compensation is based on, and intended to compensate Employee for, Employee's full-time work schedule.

b. As additional consideration in exchange for the Employee's execution of and compliance with the terms of this Agreement, the Employee shall receive a one-time additional payment of three hundred thousand U.S. dollars ($300,000.00), less approved payroll deductions and required taxes and withholdings ("**Additional Compensation**"). The Additional Compensation shall be payable on the Effective Date.

c. During the Term of Employment, Employee may participate in the Employer benefit plans and programs described in the attached **Exhibit 3** (and includes additional documentation to be provided by the Employer), to the extent that Employer maintains such plans or programs and in accordance with the eligibility and participation criteria applicable to each such plan or program. Employee acknowledges that the Employer has the right to change, modify, or eliminate benefits provided to its employees from time to time in Employer's sole discretion. As such, Employee acknowledges and agrees that this Agreement does not create a specific entitlement to any particular benefits, and that Employee will receive benefits at the same level as other similarly situated employees of Employer.

d. During the Term of Employment, Employee may also, in Employer's sole discretion, receive compensation each calendar year in addition to their Base Compensation. Such additional compensation will be paid, if at all, in the form of an **Annual Target Bonus**, which Employer intends to fall between 0 percent and 40 percent of the annual Base Compensation. The availability of this bonus will be determined based upon Employer's performance and will take into account Employee's individual effort and satisfactory achievement of established performance goals. Any such Annual Target Bonus (if any) will be paid to Employee, in full and subject to applicable tax, not later than March 15 of the calendar year following the calendar year during which Employee performed the services that gave rise to that Bonus.

Nothing in this provision (d) is intended to guarantee Employee the payment of a bonus in any amount.

The compensation described in this Section 5 constitutes the entire payment by the Employer for the services of the Employee. No other or additional compensation in any form will be considered or paid for during the period of this Agreement.

6. **Confidentiality**. The Employee acknowledges that, in the course of performing and fulfilling their duties hereunder, they may have access to and be entrusted with nonpublic information belonging to, developed by, licensed by, or otherwise in the possession of, Employer or its clients. To protect such information, Employee agrees that they will not, directly or indirectly, in one or a series of transactions, disclose to any person, or use or otherwise exploit for Employee's own benefit or for the benefit of anyone other than Employer, any Confidential Information, as defined below, whether prepared by Employee or not. At the request of Employer, Employee agrees to deliver to Employer, at any time during the Term of Employment, or thereafter, all Confidential Information which they may possess or control. Employee agrees that all Confidential Information (whether now or hereafter existing) conceived, discovered or made by him during the Term of Employment constitutes a work-for-hire and exclusively belongs to Employer, and not to Employee.

Employee shall have no obligation hereunder to keep confidential any Confidential Information if and to the extent disclosure of any part thereof is specifically required by law; provided, however, that in the event such disclosure is required by applicable law, Employee shall provide Employer with prompt notice of such requirement, prior to making any disclosure, so that Employer may seek an appropriate protective order. Moreover, the Employee will not be held criminally or civilly liable under any federal or state trade secret law for disclosing a trade secret if disclosure is made: I) in confidence to a government official (directly or indirectly) or an attorney; and 2) solely for the purpose of reporting or investigating a suspected violation of law. Further, the Employee will not be held criminally or civilly liable under any federal or state trade secret law for disclosing a trade secret if disclosure is made in a complaint or other document filed in a lawsuit or other proceeding, provided that the filing is done under seal. If the Employee files a lawsuit for retaliation by the Employer for reporting a suspected violation of law, the Employee may disclose the trade secret to their attorney and use the trade secret information in the court proceeding, provided that any document containing the trade secret is filed under seal and the Employee does not disclose the trade secret except as provided by court order.

Notwithstanding the foregoing, nothing in this Agreement is intended to prevent the Employee from engaging in activity protected by the National Labor Relations Act, including engaging in discussion of concerns about working conditions or other concerted activities.

"**Confidential Information**" means any of the Employer's confidential information including, without limitation, all provisions hereunder, any information, processes, plans, data calculations, software storage media or other compilation of information, patent, patent application, copyright, "know-how," trade secrets, customer lists, details of client or consultant contracts, pricing policies, operational methods, marketing plans or strategies, product development techniques or plans, business acquisition plans, any portion or phase of any scientific or technical information, ideas, discoveries, designs, inventions, creative works, computer programs (including source of object codes), processes, formulae, improvements or other proprietary or intellectual property of the Employer, whether or not in written or tangible form, and whether or not registered or labeled as confidential, and including all files, records, manuals, books, catalogues, memoranda, notes, summaries, plans, reports, records, documents and other evidence thereof. The covenant in this Section 6 shall survive termination of this Agreement.

7. **Intellectual Property**: The Employee recognizes and agrees that all copyrights, trademarks, or other intellectual property rights to created works arising in any way from, or related to, the Employee's employment by the Employer are the sole and exclusive property of the Employer. Employee further agrees not to assert any rights to those works against the Employer or any third-parties and agrees to assist the Employer in any reasonable way requested to procure or protect the Employer's rights to those works. This Section 7 shall survive termination of this Agreement.

8. **Restrictive Covenant**: Because Employee will be provided with proprietary, confidential, and trade secret information, the Employee shall, during their Term of Employment, refrain from:

1) undertaking employment or any compensated duties on behalf of any association, enterprise, company, or firm that provides services or products in competition with Employer, except as otherwise provided in Exhibit 2 to this Agreement;

2) directly or indirectly soliciting or attempting to solicit the business of any client or customer of the Employer for their own benefit or that of any third person or organization; and

3) directly or indirectly inducing any employee or contractor of Employer to leave their or their employment or independent contract with Employer.

9. **No Existing Obligations**: Employee represents that Employee: I) is not subject to a confidentiality, trade secret, conflict of interest, or non-competition agreement with any former employer, contractor or third party; and 2) has no continuing obligations to any former employer, contractor or third party with respect to the ownership or assignment of any proprietary rights, including, but not limited to, inventions, ideas, copyrights, trade secrets or patents, including any such rights in information, or creations or materials the Employee conceived or made, in whole or in part. Employee understands that any such agreement or obligation, as well as any trade secret and other property laws, may restrict the Employee from using any secret or proprietary information that belongs to any former employer, contractor or third party, either for Employee's own benefit or for anyone else's benefit, including Employer. Employee also understands that Employee, or anyone else who uses or benefits from a third party's proprietary information, may be liable to that third party; therefore, Employee agrees not to use any confidential, trade secret, or proprietary information that belongs to any former employer, contractor, or third party during the Term of Employment, either for Employee's own benefit or to benefit Employer or any of its clients, customers, or affiliates.

10. **Assignment**: This Agreement may be assigned by the Employer to any affiliated or successor employer without the consent of the Employee, and so long as the affiliate or successor accepts the assignment, this Agreement will continue to be binding upon the Employee. This Agreement may not be assigned by the Employee.

11. **Severability**: Each paragraph of this Agreement shall be and remain separate from and independent of, and severable from, all and any other paragraphs herein except where otherwise indicated by the context of the Agreement. The decision or declaration that one or more of the paragraphs are null and void shall have no effect on the remaining paragraphs of this Agreement.

12. **Modification**: Any modification of this Agreement or any additional obligation assumed by either Party in connection with this Agreement shall be in writing and signed by each Party.

13. **No Waiver**: The failure of either Party to this Agreement to insist upon the performance of any terms and conditions or the waiver of any breach of any terms and conditions of this Agreement shall not be construed as thereafter waiving such terms and conditions, but the same shall continue to remain in full force and effect.

14. **Complete Agreement**: This Agreement contains the complete agreement concerning the employment agreement between the Parties. The Parties stipulate that neither has made any representation with respect to the subject matter of this Agreement except such representations as are specifically set forth in this Agreement.

15. **Interpretation of Agreement**: The validity, interpretation, construction, and performance of this Agreement shall be governed by the laws of the State of Colorado. This Agreement shall be interpreted with all necessary changes in gender and in number as the context may require and shall inure to the benefit of and be binding upon the respective successors and assigns of the parties hereto.

16. **Survival**: The terms and provisions of Sections 6 and 7 of this Agreement shall survive the cancellation, termination, or expiration of this Agreement.

17. **Resolution of Disputes**: Any controversy or claim arising out of or relating to this Agreement, or the breach thereof, shall be resolved by binding arbitration conducted by the Judicial Arbiter Group, Inc., or its successor, in Denver, Colorado ("**JAG**"). Judgment on the award rendered by JAG may be entered in any court having jurisdiction thereof. Demand for arbitration shall be submitted only to the persons listed below. After a demand is submitted, the Parties shall have ten (10) days to mutually agree upon an arbitrator then providing such services through JAG or its successor. If the Parties cannot so mutually agree, then they hereby stipulate to the appointment of an arbitrator chosen by JAG. In addition to any relief, order, or award that enters as determined by the arbitrator or court, the Parties agree that the prevailing party, if any, shall be entitled to an award of reasonable attorneys' fees and costs incurred.

Summary of Benefits Currently Offered by Kalnin Ventures LLC ("Employer")

KALNIN VENTURES, LLC

EMPLOYMENT AGREEMENT

This Employment Agreement (the "**Agreement**") is amended as of the 1 st day of April 2018 by and between Kalnin Ventures LLC, a Colorado limited liability company (hereinafter referred to as "**Employer**"), and An Sao (Ethan) Ngo (hereinafter referred to as " **Employee**"). Collectively, Employer and Employee shall be referred to as the "**Parties**."

A. Employer desires to engage Employee to identify, source, evaluate, underwrite, acquire, manage, and ultimately exit oil and gas investments.

B. Employee is willing to be employed by Employer, and Employer is willing to employ Employee, on the terms and conditions set forth herein. For the reasons set forth above and in consideration of the mutual covenants and promises of the Parties hereto, Employer and Employee agree as follows:

1. **Agreement to Employ and be Employed**: Employer hereby agrees to employ Employee and Employee hereby accepts and agrees to such employment.

2. **Duration of Employment**: Employee's employment with Employer is at will, and not of any particular duration. Nothing in this Agreement guarantees Employee employment with Employer for any specific period of time. This means that, subject to the provisions of this Agreement, Employer may terminate employee at any time with no advance notice, procedure, or formality and for any lawful reason. Similarly, subject to the provisions of this Agreement, Employee may resign his employment at any time and for any reason. The time that Employee is employed by Employer shall be referenced as the "**Term of Employment**."

3. **Description of Employee's Duties**: Employee will be employed as a Senior Vice President of Engineering. Employee's job duties are set forth in **Exhibit 1**. The Reservoir Engineer position is exempt from overtime under both state and federal laws and regulations.

4. **Manner of Performance of Employee's Duties**: Employee shall be a full-time employee of Employer, shall devote his best efforts and entire business time, attention, and services exclusively to the business and affairs of Employer, and shall perform his duties as set forth in Exhibit 1 with fidelity and to the best of his ability, experience, and talent. Employee shall perform the duties of his position to the reasonable satisfaction of Employer.

Employee will not engage in the performance of services for any other business or entity during the term of this Agreement unless the performance of such services is approved by Employer in advance.

Notwithstanding anything in this Section 4, or in any other provision of this Agreement to the contrary, Employer hereby approves Employee's continued participation in, and service to, the business enterprise identified and described in **Exhibit 2**.

5. **Compensation**: In consideration of the services to be provided by Employer during the Term of Employment, Employer shall compensate Employee as follows:

a. During the Term of Employment, the Employee shall receive the base gross compensation of two hundred forty-four thousand, seven hundred twenty-one dollars ($244,721.00) annually, less approved payroll deductions and required taxes and withholdings ("**Base Compensation**"), with partial periods prorated. Employee's Base Compensation shall be payable in equal periodic installments according to the Employer's customary payroll practice. The Base Compensation is based on, and intended to compensate Employee for, Employee's full-time work schedule.

b. During the Term of Employment, Employee may participate in the Employer benefit plans and programs described in the attached Exhibit 2, to the extent that Employer maintains such plans or programs. Employee acknowledges that the Employer has the right to change, modify, or eliminate benefits provided to its employees from time to time in Employer's sole discretion. As such, Employee acknowledges and agrees that this Agreement does not create a specific entitlement to any particular benefits, and that Employee will receive benefits at the same level as other similarly situated employees of Employer.

c. During the Term of Employment, Employee may also, in Employer's sole discretion, receive compensation each calendar year in addition to his Base Compensation. Such additional compensation will be paid, if at all, in the form of an **Annual Target Bonus**, which Employer intends to fall between 20 percent and 40 percent of the annual Base Compensation. The availability of this bonus will be determined based upon Employer's performance, and will take into account Employee's individual effort and satisfactory achievement of established performance goals. Any such Annual Target Bonus will be paid to Employee, in full, not later than March 15 of the calendar year following the calendar year during which Employee performed the services that gave rise to that Bonus.

Nothing in this provision (c) is intended to guarantee Employee the payment of a bonus in any amount .

d. In the event that BKV Oil & Gas Capital Partners, L.P is successfully formed on or before March 1, 2016, with Kalnin Capital Partners, L.P. as its general partner, with Kalnin Ventures LLC as its initial limited partner, and with Banpu North America Corporation as its limited partner, Employee shall be granted a 10 percent partnership interest in Kalnin Capital Partners, L.P. Under no circumstances, however, shall Employee be entitled to all or any portion of such partnership interest after March 15, 2016. This provision is expressly intended to comply with the short-term deferral rule applicable to Section 409A of the Internal Revenue Code.

The compensation described in this Section 5 constitutes the entire payment by the Employer for the services of the Employee. No other or additional compensation in any form will be considered or paid for during the period of this Agreement, except as otherwise provided in Section 6, below.

6. **Signing Bonus**: As additional consideration in exchange for the Employee's execution of and compliance with the terms of this Agreement, Employer agrees to pay the Employee a one-time signing bonus (the "**Signing Bonus**") in the total, gross amount of thirty thousand dollars ($30,000.00), subject to all applicable payroll withholding taxes and any other deductions approved by the Employee. Payment will be made on the first regular payday following commencement of Employee's employment.

7. **Confidentiality**. The Employee acknowledges that, in the course of performing and fulfilling his duties hereunder, he may have access to and be entrusted with nonpublic information belonging to, developed by, licensed by, or otherwise in the possession of, Employer or its clients. To protect such information, Employee agrees that he will not, directly or indirectly, in one or a series of transactions, disclose to any person, or use or otherwise exploit for Employee's own benefit or for the benefit of anyone other than Employer, any Confidential Information, as defined below, whether prepared by Employee or not. Employee shall have no obligation hereunder to keep confidential any Confidential Information if and to the extent disclosure of any part thereof is specifically required by law; provided, however, that in the event such disclosure is required by applicable law, Employee shall provide Employer with prompt notice of such requirement, prior to making any disclosure, so that Employer may seek an appropriate protective order. At the request of Employer, Employee agrees to deliver to Employer, at any time during the Term of Employment, or thereafter, all Confidential Information which he may possess or control. Employee agrees that all Confidential Information of Organization (whether now or hereafter existing) conceived, discovered or made by him during the Term of Employment constitutes a work-for-hire and exclusively belongs to Employer, and not to Employee.

"**Confidential Information**" means any of the Employer's confidential information including, without limitation, any information, processes, plans, data calculations, software storage media or other compilation of information, patent, patent application, copyright, "know-how," trade secrets, customer lists, details of client or consultant contracts, pricing policies, operational methods, marketing plans or strategies, product development techniques or plans, business acquisition plans, any portion or phase of any scientific or technical information, ideas, discoveries, designs, inventions, creative works, computer programs (including source of object codes), processes, formulae, improvements or other proprietary or intellectual property of the Employer, whether or not in written or tangible form, and whether or not registered or labeled as confidential, and including all files, records, manuals, books, catalogues, memoranda, notes, summaries, plans, reports, records, documents and other evidence thereof. The covenant in this Section 7 shall survive termination of this Agreement.

8. **Intellectual Property**: The Employee recognizes and agrees that all copyrights, trademarks, or other intellectual property rights to created works arising in any way from, or related to, the Employee's employment by the Employer are the sole and exclusive property of the Employer. Employee further agrees not to assert any rights to those works against the Employer or any third-parties, and agrees to assist the Employer in any reasonable way requested to procure or protect the Employer's rights to those works.

9. **Restrictive Covenant**: Because Employee will be provided with proprietary, confidential, and trade secret information, the Employee shall, during his Term of Employment, refrain from:

1) undertaking employment or any compensated duties on behalf of any association, enterprise, company, or firm that provides services or products in competition with Employer;

2) directly or indirectly soliciting or attempting to solicit the business of any client or customer of the Employer for his own benefit or that of any third person or organization; and

3) directly or indirectly inducing any employee or contractor of Employer to leave her or his employment or independent contract with Employer.

10. **No Existing Obligations**: Employee represents that Employee: 1) is not subject to a confidentiality, trade secret, conflict of interest, or non-competition agreement with any former employer, contractor or third party; and 2) has no continuing obligations to any former employer, contractor or third party with respect to the ownership or assignment of any proprietary rights, including, but not limited to, inventions, ideas, copyrights, trade secrets or patents, including any such rights in information, or creations or materials the Employee conceived or made, in whole or in part. Employee understands that any such agreement or obligation, as well as any trade secret and other property laws, may restrict the Employee from using any secret or proprietary information that belongs to any former employer, contractor or third party, either for Employee's own benefit or for anyone else's benefit, including Employer. Employee also understands that Employee, or anyone else who uses or benefits from a third party's proprietary information, may be liable to that third party. Therefore, Employee agrees not to use any confidential, trade secret, or proprietary information that belongs to any former employer, contractor, or third party during the Term of Employment, either for Employee's own benefit or to benefit Employer or any of its clients, customers, or affiliates.

11. **Assignment**: This Agreement may be assigned by the Employer to any affiliated or successor employer without the consent of the Employee, and so long as the affiliate or successor accepts the assignment, this Agreement will continue to be binding upon the Employee. This Agreement may not be assigned by the Employee.

12. **Severability**: Each paragraph of this Agreement shall be and remain separate from and independent of, and severable from, all and any other paragraphs herein except where otherwise indicated by the context of the Agreement. The decision or declaration that one or more of the paragraphs are null and void shall have no effect on the remaining paragraphs of this Agreement.

13. **Modification**: Any modification of this Agreement or any additional obligation assumed by either Party in connection with this Agreement shall be in writing and signed by each Party.

14. **No Waiver**: The failure of either Party to this Agreement to insist upon the performance of any terms and conditions or the waiver of any breach of any terms and conditions of this Agreement shall not be construed as thereafter waiving such terms and conditions, but the same shall continue to remain in full force and effect.

15. **Complete Agreement**: This Agreement contains the complete agreement concerning the employment agreement between the Parties. The Parties stipulate that neither has made any representation with respect to the subject matter of this Agreement except such representations as are specifically set forth in this Agreement.

16. **Interpretation of Agreement**: The validity, interpretation, construction, and performance of this Agreement shall be governed by the laws of the State of Colorado. This Agreement shall be interpreted with all necessary changes in gender and in number as the context may require and shall inure to the benefit of and be binding upon the respective successors and assigns of the parties hereto.

17. **Survival**: The terms and provisions of Section 7 of this Agreement shall survive the cancellation, termination, or expiration of this Agreement.

18. **Resolution of Disputes**: Any controversy or claim arising out of or relating to this Agreement, or the breach thereof, shall be resolved by binding arbitration conducted by the Judicial Arbiter Group, Inc., or its successor, in Denver, Colorado ("**JAG**"). Judgment on the award rendered by JAG may be entered in any court having jurisdiction thereof. Demand for arbitration shall be submitted only to the persons listed below. After a demand is submitted, the Parties shall have ten (10) days to mutually agree upon an arbitrator then providing such services through JAG or its successor. If the Parties cannot so mutually agree, then they hereby stipulate to the appointment of an arbitrator chosen by JAG. In addition to any relief, order, or award that enters as determined by the arbitrator or court, the Parties agree that the prevailing party, if any, shall be entitled to an award of reasonable attorneys' fees and costs incurred.

Notice shall be provided as follows:

[***]	[***]

19. **Review by Banpu North America Corporation**: Employee acknowledges and agrees that this Agreement is subject to review by Banpu North America Corporation ("**BNAC**"), and that material terms of this Agreement may be unilaterally amended by Employer after Employee has executed it to address objections raised by BNAC.

IN WITNESS WHEREOF, the Parties have executed this Employment Agreement on the date or dates set forth below.

SCHEDULES AND EXHIBITS

BKV-BPP POWER, LLC

LIMITED LIABILITY COMPANY AGREEMENT

ARTICLE 1. RECITALS AND DEFINITIONS

This Limited Liability Company Agreement (this "Agreement") is entered into as of October 29, 2021 (the "Effective Date") by and between BKV Corporation, a Delaware corporation ("BKV"), with a business address of 1200 17th Street, Suite 2100, Denver, CO 80202, and Banpu Power US Corporation, a Delaware corporation ("BPPUS"), with a business address of c/o Corporation Service Company, 251 Little Falls Drive, in the City of Wilmington, County of New Castle, Delaware 19808. BKV and BPPUS are hereinafter each individually referred to as a "Venturer" and, collectively as the "Venturers."

1. Recitals. The Venture has been formed to acquire Temple Generation Intermediate Holdings II, LLC (the "Company"), and is being formed to own the limited liability interests of Company, and to manage the Business in accordance with terms and conditions contained herein. The Company is the direct owner of all equity interests in Temple Generation I, LLC, a Delaware limited liability company (the "Project Company"). The Project Company is the owner of (i) the Temple 1 Project and (ii) 50% of the equity interests in Temple Generation SF LLC, a Delaware limited liability company (the "SPE");

BKV and BPPUS view the Company as a first step in a long-term partnership to grow and develop a power business in the United States. The Venturers desire and intend for the Company to create value and long-term success for the Venturers. The Venturers further desire to work together in good faith to establish a framework for cooperation and development of the Company going forward so that both Venturers feel they are being heard and all opinions and thoughts are valued and respected. This framework will be developed jointly by the Board (as hereinafter defined) through this Agreement;

To the extent practical, the Company will be structured in accordance with the applicable customary practices and procedures in the United States for Delaware limited liability companies engaging in the power sector. According to the terms of this Agreement, the Board will be vested with the authority to govern the Company and the Board in turn will seek to delegate appropriate authority to the general manager ("GM"), as applicable, in line with U.S. market practice for companies in the power sector. Pursuant to the terms of this Agreement and as the Board may determine, the GM may make any decision for day-to-day management of, and administration services to, the Company that is not designated as a Board Reserved Matter in this Agreement, as long as and to the extent permitted allowed by applicable law and the short-term and long-term Business Plan and the Annual Budget to be designated and approved by the Board from time to time in accordance with this Agreement. The GM shall be subject to the overall authority, supervision and direction of the Board; and

The Venturers recognize the overarching goal of maintaining a successful working relationship and partnership for the long term with the objective of developing the existing and future power assets of the Company as one team and therefore agree that all Venturers should be afforded fair and equitable treatment (except for the additional treatment required to achieve the purpose of financial accounting objective set out below).

1.1 Definitions. Capitalized terms used in this Agreement shall have the meanings set forth or referred to below.

"Act" means, the Limited Liability Company Act of the State of Delaware.

"Administrative Services Agreement" – See Section 4.8.

"Adjusted Capital Account" – See Section 5.3.

"Affiliate" means, with respect to any Person, any other Person directly or indirectly Controlling or Controlled by, or under direct or indirect common Control with, such Person.

"Agreement" – See preamble.

"Annual Budget" – See Section 1.

"Approved Budget" – See Section 4.4.

"BKV" – See preamble.

"BNAC" – See Section 3.1.

"Board" – See Section 8.2.

"Board Reserved Matters" – See Section 8.14.

"BPPUS" – See preamble.

"Business" means the direct or indirect ownership, operation, maintenance, financing, administration and improvement of the Temple 1 Project, including the generation and sale or purchase of electricity, capacity, ancillary services, steam, fuel, or water with respect to the Temple 1 Project and the conduct of other activities related or incidental to the foregoing, including the ownership interest in the SPE.

"Business Day" means any day except a Saturday, Sunday or any other day on which commercial banks in Fort Worth, Texas are authorized or required by law to close. If a date set for any action hereunder is not a Business Day then such date for action shall be the next succeeding day that is a

Business Day.

"Business Plan" – See Section 4.4.

"Capital Account" – See Section 5.1.

"Capital Contributions" means, for each Venturer, the sum of (i) such Venturer's Initial Capital Contribution under Section 3.1 and (ii) such Venturer's additional capital contributions under Section 3.2.

"Certificate" – See Section 2.1.

"Chairman of the Board" – See Section 8.4.

"Code" means the Internal Revenue Code of 1986, as amended from time to time.

"Company" – See Section 1.

"Confidential Information" – See Section 11.12.

"Designated Individual" – See Section 4.6.

"Effective Date" – See preamble.

"Emergency" means any situation or event, as determined in good faith by the requesting Venturer, which resulting in a state that calls for immediate action that without such action may result in disruption to the operation of the Temple I Project, significant loss of or damage to property, loss of life or significant injury to any person or party and/or adversely impact a third party, accidental pollution, or threaten the Venture or its affiliates' reputation.

"Event of Default" – See Section 10.1.

"Fiscal Year" – See Section 4.7.

"GM" – See Section 1.

"Governmental Authority" means any governmental or quasi-governmental authority or official, including, without limitation, any federal, state, territorial, county, district, municipal or other governmental or quasi-governmental agency, board, branch, bureau, commission, court, department, other instrumentality, political unit, subdivision or official, whether domestic or foreign.

"IRS" means the United States Internal Revenue Service.

"Majority" means more than 50% of the votes cast.

"Material Contract" means the following agreements without any threshold: (a) power purchase agreement, (b) gas transportation agreement, (c) gas supply and storage agreement, ((d) long-term services agreement, and e) energy management agreement, (f) asset management agreement,

and the following agreements provided they are in excess of $1,500,000 per contract individually or $5,000,000 per year in aggregate: (a) any agreement for indebtedness, (b) treasury and accounting agreement; and (c) operation and maintenance agreement.

"Net Capital Proceeds" means proceeds from any sale, refinancing, insurance recovery, eminent domain award or other similar capital event, in excess of amounts used to pay debt then due, transaction costs, amounts applied to restore or improve the Temple 1 Project and reserves reasonably required by the Venturers to fund contingent or unmatured liabilities of the Venture.

"Net Income" means sales less the total cost of goods sold, selling, general, and administrative expenses, operating expenses, depreciation, interest, taxes, and other expenses.

"Notices" – See Section 11.1.

"Operating Cash Flow" means, for a given period, all cash receipts of the Venture (other than proceeds from a capital event) during such period in excess of the following items attributable to such period (except to the extent any of the following are funded out of reserves or proceeds from capital events): operating expenses, debt service, expenditures on capital improvements and reserves reasonably required by the Venturers to fund contingent or unmatured liabilities of the Venture.

"Ownership Percentages" has the meaning set forth in Schedule 2.6.

"Qualified Income Offset" – See Section 5.5.

"Partnership Representative" has the meaning set forth in Section 4.6.

"Person" means any individual, corporation, partnership, joint venture, limited liability company, limited liability partnership, association, joint stock company, trust, unincorporated organization, or other organization, whether or not a legal entity, and any Governmental Authority.

"Project Company" – See Section 1.

"Regulatory Allocations" – See Section 5.6.

"Report Requirements" – See Schedule 4.2.

"SPE" – See Section 1.

"Taxable Year" – See Section 4.7**.**

"Temple 1 Project" means the Temple I combined cycle gas turbine facility in Temple, Texas, together with all auxiliary equipment, ancillary and associated facilities and equipment, electrical transformers, cooling and waste water management facilities and electrical interconnection and metering facilities (whether owned or leased) used for the receipt of fuel and water and the delivery of the electrical output of such plant, and all other improvements and other assets related to the ownership, operation and maintenance of such plant and associated equipment.

"Treasury Regulations" means the regulations promulgated under the Code, as such regulations may be amended from time to time (including corresponding provisions of succeeding regulations).

"Venture" – See Section 2.1.

"Venture Minimum Gain" – See Section 5.4.

"Venturer" – See preamble.

"Venturer Loan Agreement" – See Section 3.1.

"Venturer Nonrecourse Debt Minimum Gain" – See Section 5.4.

ARTICLE 2. FORMATION OF VENTURE

2.1 Organization. With the consent of the Board, BKV-BPP Power, LLC (the "Venture") has been formed by the filing of its Certificate of Formation with the Delaware Secretary of State pursuant to the Act. The Certificate of Formation may be restated as provided in the Act or amended to change the address of the office of the Venture in Delaware and the name and address of its resident agent in Delaware or to make corrections required by the Act. The Certificate of Formation, as so amended from time to time, is referred to herein as the "Certificate." BKV shall deliver a copy of the Certificate and any amendment thereto to any Venturer who so requests. Each of BKV and BPPUS are hereby admitted as a member of the Venture.

2.2 Purposes and Powers. The principal business activity and purposes of the Venture shall be to manage the assets and property of the Venture and to engage in all actions necessary, convenient or incidental thereto. The Venture shall not engage in any other business or activity.

2.3 Principal Business Office, and Registered Agent. The principal business office of the Venture shall be located at 1200 17th Street, Suite 2100, Denver, CO 80202. The principal business office of the Venture may be changed from time to time by consent of the Board. The agent for service of process on the Venture shall be Corporation Service Company.

2.4 Qualification in Other Jurisdictions. BKV shall cause if necessary, the Venture, to be qualified or registered in any other jurisdiction in which the Venture transacts business.

2.5 Powers. In furtherance of its purposes, but subject to all of the provisions of this Agreement, the Venture shall have and exercise all of the powers and rights which can be conferred upon limited liability companies formed pursuant to the Act.

2.6 Venturers. The Venturers of the Venture, their addresses, and their Ownership Percentages shall be listed on Schedule 2.6 and said Schedule 2.6 shall be amended from time to time by the Board, to reflect the withdrawal of Venturers or the admission of additional Venturers pursuant to this Agreement.

2.7 Representations and Warranties. As an inducement for the Venturers to enter into this Agreement, the Venturers, as applicable, make the representations and warranties set forth on Schedule 2.7.

2.8 Title to Company Assets. Title to the Venture's assets, whether real, personal or mixed and whether tangible or intangible, shall be vested in the Venture as an entity, and no Venturer shall have any ownership interest in the Venture's assets or any portion thereof. Each Venturer hereby waives any right such Venturer may at any time have to cause the Venture's assets to be partitioned among the Venturers or to file any complaint or to institute any proceeding at or in equity seeking to have any one or all of the Venture's assets partitioned. The Venture currently owns 100% of the equity interests in the Company, which owns 100% of the equity interests in the Project Company, which owns the Temple 1 Project.

2.9 No State Law Partnership. The Venturers shall be "members" of a limited liability company for all purposes under applicable state law. The Venturers do not intend for the Venture to be a partnership (including a limited partnership) or joint venture under applicable state law, and no Venturer shall be a partner or joint venturer of any other Venturer by reason of this Agreement for any purpose other than federal and, if applicable, state income tax purposes, and this Agreement shall not be interpreted to provide otherwise. The Venturers intend that the Venture will be treated as a partnership for federal and, if applicable, state income tax purposes, and each Venturer and the Venture will file all tax returns and will otherwise take all tax and financial reporting positions in a manner consistent with such treatment. The Venture will not make any election to be treated as a corporation for federal and, if applicable, state income tax purposes, except with the approval of the Board.

ARTICLE 3. CAPITALIZATION

3.1 Initial Capital Contributions. Upon execution and delivery of this Agreement, (i) BPPUS shall make a capital contribution to the Venture in the amount of $89,000,000 United States Dollars inform of equity contribution ("BPPUS's Initial Capital Contribution") and (ii) BKV shall make a capital contribution to the Venture in the amount of $89,000,000 United States Dollars in form of equity contribution ("BKV's Initial Capital Contribution"). In addition, BPPUS agrees to lend to the Venture in amount of $141,000,000 while Banpu North America Corporation ("BNAC") agrees to lend to the Venture in amount of $141,000,000. Such loans are further described in the Venturer Loan Agreement dated as of October 14, 2021 by and among BPPUS, the Venture and BNAC and the Venture ("Venturer Loan Agreement").

3.2 Additional Capital Contributions. Either BPPUS or BKV, upon thirty Business Days prior written notice, may request that additional cash Capital Contributions be made and the Venturers shall make such Capital Contributions, provided such additional cash Capital Contributions shall be expended on items included in the annual Approved Budget, items in response to an Emergency if the Venture does not have sufficient cash reserves to fund such Emergency, or any other matter approved by the Board. No Venturer will be obligated to make such additional cash Capital Contributions not otherwise required under this Agreement without its consent.

3.3 Form of Capital Contributions. Except as specifically provided for herein, all amounts to be contributed or paid by a Venturer under this Article 3 shall be paid in cash in US dollars.

3.4 No Right to Interest or Return of Capital. Except as specifically provided for herein, no Venturer shall be entitled to any return of, or interest on, Capital Contributions to the Venture or any other amounts funded pursuant to this Article 3.

ARTICLE 4. BOOKS; ACCOUNTING; TAX ELECTIONS; REPORTS

4.1 Books and Records. BKV shall keep complete and accurate books and records of the Venture. The books of the Venture shall be kept in accordance with the accounting method utilized by the Venture for federal income tax purposes. The books of the Venture shall at all times be maintained or made available at the principal business office of the Venture.

4.2 Financial Statements; Reports. BKV shall prepare, or have prepared, and shall furnish to the Venturers the reports listed in Schedule 4.2 (the "Reporting Requirements") within the time periods set forth on Schedule 4.2. BKV shall cooperate and respond, using commercially reasonable efforts, to requests by the Venturers to reasonably expand or modify the format and content of the Reporting Requirements.

4.3 Insurance Program. BKV shall coordinate and implement an insurance program for the Venture that has been approved by the Board.

4.4 Approval of Budgets and Business Plans.

(a) The Board shall prepare, or have prepared, an annual Approved Budget and a Business Plan for Fiscal Year 2023 and each Fiscal Year thereafter no later than September 15th of each current Fiscal Year. The Venture shall implement in each Fiscal Year the Approved Budget and Business Plan. Provided, the GM is hereby authorized to make expenditures of up to $5,000,000 outside of the Approved Budget, per occurrence, and to take all other reasonable measures to protect the Venture and the Business in case of Emergencies. In the event the GM expends funds pursuant to the provisions of this Section 4.4, the GM shall notify the Board of such expenditures commencing as soon as possible following the first expenditure of such funds and keep the Board appraised of all follow up expenditures. If an expenditure over $5,000,000 is required to respond to an Emergency, either Venturer may call an emergency meeting of the Board to review and approve such expenditure. The Approved Budget for 2021 and 2022 agreed by the Venturers are attached hereto as Schedule 4.4.

(b) Except as otherwise contemplated in Section 4.4(a) above, any amendment to the Approved Budget and Business Plan shall require approval by the Board.

4.5 Filing of Returns. BKV shall prepare, or have prepared, all information and materials necessary to enable the tax return preparer to cause the preparation of all tax returns for the Venture. The Venture's income tax returns are subject to the Venturers' approval prior to filing. The final tax returns shall be provided to the Venturers promptly after approval of the draft tax returns and in any event, within ninety (90) days after the end of each Fiscal Year.

4.6 Partnership Representative.

(a) BKV shall be or designate the "Partnership Representative" of the Venture within the meaning of Section 6223 of the Code, or any corresponding or similar provisions under state, local or non-U.S. law and any successor Partnership Representative. The Partnership Representative shall serve as such at the expense of the Venture with all powers granted to a partnership representative under the Code (or any corresponding or similar provision of state, local or non-U.S. tax law). BKV shall have sole authority to designate any "Designated Individual" as described in Treasury Regulations Section 301.6223-1 (and any similar provisions of state and local law) and any successor Designated Individual.

(b) The Partnership Representative shall represent the Venture in any disputes, controversies, or proceedings with the IRS or with any state, local, or non-U.S. taxing authority. Except as otherwise provided in this Section 4.6, the Partnership Representative shall be entitled to take such actions on behalf of the Venture in any and all proceedings with the IRS and any other such taxing authority as it reasonably determines to be appropriate and any decision made by the Partnership Representative shall be binding on all Venturers, provided, the Partnership Representative receives approval of the Board with respect to its duties. The Venturers agree to cooperate in good faith to timely provide information reasonably requested by the Partnership Representative. Any cost or expense incurred by the Partnership Representative in connection with its duties as such, including the preparation for or pursuance of administrative or judicial proceedings, shall be paid by the Venture. Without limiting the foregoing, the Partnership Representative shall apply the provisions of subchapter C of charter 63 of the Code, or similar provisions of state, local or non-U.S. tax law, with respect to any audit imputed underpayment, other adjustment, or any such decision or action by the IRS (or other tax authority) with respect to the Venture or the Venturers for such taxable years, as determined by the Partnership Representative. No Venturer shall have any claim against the Venture, Partnership Representative, or the Board for any form of damages or liability as a result of actions taken or remedies pursued by or on behalf of the Venture in order to comply with the rules under subchapter C of charter 63 of the Code, or similar provisions of state, local or non-U.S. law.

(c) The Partnership Representative and/or the designated individual shall have no personal liability arising out of his, her or its good faith performance of his, her or its duties as the Partnership Representative and/or designated individual hereunder. Except with the permission of the Partnership Representative, no Venturer shall take a position on any tax return or other filing with any tax authority (or court) with respect to an item of income, gain, loss, deduction or credit attributable to the Venture that is inconsistent with the Venture's treatment of such item on its tax return or request an administrative adjustment under Section 6222(c) of the Code.

4.7 Fiscal and Taxable Year. The "Fiscal Year" of the Venture shall be the same as the taxable year and the taxable year of the Venture shall be the same as the taxable year of BKV, which taxable year currently ends on December 31.

4.8 Administrative Services Agreement. The Venturers will work in good faith to negotiate a mutually acceptable Administrative Services Agreement between the Venture and BKV or other administrative service providers, which shall be executed no later than forty-five (45) days following the date hereof and the consummation of the acquisition of the Company. The execution or termination of the Administrative Services Agreement or any other agreement between the Venture and BKV or other administrative service providers (as the case may be), or any material amendment of or waiver of material rights thereunder shall be acknowledged by the Board and approved by BPPUS in its sole and absolute discretion.

ARTICLE 5. CAPITAL ACCOUNTS; ALLOCATION OF INCOME AND LOSS

5.1 Capital Accounts. A separate capital account (each, a "Capital Account") shall be maintained for each Venturer in accordance with the rules of Treasury Regulations Section 1.704-1(b)(2)(iv), and this Section 5.1, and shall be interpreted and applied in a manner consistent therewith. Whenever the Venture would be permitted to adjust the Capital Accounts of the Venturers pursuant to Treasury Regulations Section 1.704-1(b)(2)(iv)(f) to reflect revaluations of Venture property, the Venture shall so adjust the Capital Accounts of the Venturers. In the event that the Capital Accounts of the Venturers are adjusted pursuant to Treasury Regulations Section 1.704-1(b)(2)(iv)(f) to reflect revaluations of Venture property, (i) the Capital Accounts of the Venturers shall be adjusted in accordance with Treasury Regulations Section 1.704-1(b)(2)(iv)(g) for allocations of depreciation, depletion, amortization and gain or loss, as computed for book purposes, with respect to such property, (ii) the Venturers' distributive shares of depreciation, depletion, amortization and gain or loss, as computed for tax purposes, with respect to such property shall be determined so as to take account of the variation between the adjusted tax basis and book value of such property in the same manner as under Code Section 704(c) and (iii) the amount of upward and/or downward adjustments to the book value of the Venture property shall be treated as income, gain, deduction and/or loss for purposes of applying the allocation provisions of Section 5.2. In the event that Code Section 704(c) applies to Venture property, the Capital Accounts of the Venturers shall be adjusted in accordance with Treasury Regulations Section 1.704-1(b)(2)(iv)(g) for allocations of depreciation, depletion, amortization and gain and loss, as computed for book purposes, with respect to such property in the manner contemplated by Section 5.7.

5.2 Allocation of Income and Loss. After application of Section 5.3 and Section 5.4, and subject to the other provisions of this Article 5, all remaining items of Venture income, gain, loss and deduction as determined for book purposes for the taxable year shall be allocated among the Capital Accounts of the Venturers in such a manner as shall cause the Capital Accounts of the Venturers (as adjusted through the end of such Fiscal Year or other period) to equal, as nearly as possible, in the same proportionate amounts as (a) the amount such Venturers would receive if all assets of the Venture on hand at the end of such Fiscal Year or other period were sold for cash equal to their book values, all liabilities of the Venture were satisfied in cash in accordance with their terms (limited in the case of non-recourse liabilities to the book value of the property securing such liabilities), and all remaining or resulting cash was distributed to the Venturers under Section 6.2 minus (b) such Venturer's share of Venture Minimum Gain (as defined below) and Venturer Nonrecourse Debt Minimum Gain (as defined below), computed immediately prior to the hypothetical sale of assets. Notwithstanding the foregoing, the Board may adjust the allocations made pursuant to this Agreement as long as such adjusted allocations are intended to be in accordance with the interests of the Venturers in the Venture and in accordance with section 704(c) of the Code and the Treasury Regulations thereunder.

5.3 Loss Limitation. Net loss allocated pursuant to Section 5.2 shall not exceed the maximum amount of net loss that can be allocated without causing or increasing a deficit balance in a Venturer's Adjusted Capital Account after application of the Qualified Income Offset described in Section 5.5. A Venturer's "Adjusted Capital Account" balance shall mean such Venturer's Capital Account balance increased by such Venturer's obligation to restore a deficit balance in its Capital Account, including any deemed obligation pursuant to the penultimate sentences of Treasury Regulations Sections 1.704-2(g)(1) and 1.704-2(i)(5), and decreased by the amounts described in Treasury Regulations Section 1.704-1(b)(2)(ii)(d)(4), (5) or (6).

5.4 Minimum Gain Chargebacks and Nonrecourse Deductions. Notwithstanding any other provision of this Agreement:

(a) Venture Minimum Gain Chargeback. In the event there is a net decrease in Venture Minimum Gain during a Fiscal Year (or if there was a net decrease in Venture Minimum Gain for a prior Fiscal Year and the Venture did not have sufficient amounts of income and gain during prior Fiscal Years to allocate among the Venturers under this Section 5.4(a)), the Venturers shall be allocated items of income and gain in accordance with Treasury Regulations Section 1.704-2(f). For purposes of this Agreement, the term "Venture Minimum Gain" shall have the meaning for partnership minimum gain set forth in Treasury Regulations Section 1.704-2(b)(2), and any Venturer's share of Venture Minimum Gain shall be determined in accordance with Treasury Regulations Section 1.704-2(g)(1). This Section 5.4(a) is intended to comply with the minimum gain chargeback requirement of Treasury Regulations Section 1.704-2(f) and shall be interpreted and applied in a manner consistent therewith.

(b) Nonrecourse Deductions. Nonrecourse Deductions shall be allocated to the Venturers pro rata in accordance with their Ownership Percentages. For purposes of this Agreement, the term "Nonrecourse Deductions" shall have the meaning set forth in Treasury Regulations Section 1.704-2(b)(1). This Section 5.4(b) is intended to comply with Treasury Regulations Section 1.704-2(e) and shall be interpreted and applied in a manner consistent therewith.

(c) Venturer Nonrecourse Debt. To the extent required by Treasury Regulations Section 1.704-2(i), any items of income, gain, loss or deduction of the Venture that are attributable to a nonrecourse debt of the Venture that constitutes Venturer Nonrecourse Debt (including chargebacks of Venturer Nonrecourse Debt Minimum Gain) shall be allocated in accordance with the provisions of Treasury Regulations Section 1.704-2(i). For purposes of this Agreement, the term "Venturer Nonrecourse Debt" shall have the meaning for partner nonrecourse debt set forth in Treasury Regulations Section 1.704-2(b)(4), and the term "Venturer Nonrecourse Debt Minimum Gain" shall have the meaning for partner nonrecourse debt minimum gain set forth in Treasury Regulations Section 1.704-2(i)(2). This Section 5.4(c) is intended to satisfy the requirements of Treasury Regulations Section 1.704-2(i)(4) (including the partner nonrecourse debt minimum gain chargeback requirement) and shall be interpreted and applied in a manner consistent therewith.

5.5 Qualified Income Offset. Any Venturer who unexpectedly receives an adjustment, allocation or distribution described in Treasury Regulations Section 1.704-1(b)(2)(ii)(d)(4), (5) or (6) that causes or increases a deficit balance in its Capital Account in excess of any obligation to restore a deficit balance in its Capital Account (including any deemed deficit restoration obligation pursuant to the penultimate sentences of Treasury Regulations Sections 1.704-2(g)(1) and (i)(5), and adjusted as provided in Treasury Regulations Section 1.704-1(b)(2)(ii)(d)) shall be allocated items of income and gain (consisting of a pro rata portion of each item of income, including gross income, and gain for the Fiscal Year) in an amount and a manner sufficient to eliminate, to the extent required by the Treasury Regulations, such deficit balance as quickly as possible. This Section 5.5 is intended to constitute a qualified income offset under Treasury Regulations Section 1.704-1(b)(2)(ii)(d) and shall be interpreted and applied in a manner consistent therewith.

5.6 Curative Allocations. The allocations set forth in Section 5.4 and Section 5.5 (the "Regulatory Allocations") are intended to comply with the requirements of Treasury Regulations Sections 1.704-1(b) and 1.704-2. Notwithstanding any other provisions of this Article 5 (other than the Regulatory Allocations), the Regulatory Allocations shall be taken into account as provided for in the following sentence. Income, gain, loss and deduction shall be reallocated to the extent that such reallocation causes the net aggregate amount of allocations of income, gain, deduction and loss to each Venturer to be equal to or more closely approximate the net aggregate amount of such items that would have been allocated to each such Venturer if the Regulatory Allocations had not occurred.

5.7 Tax Allocations. Allocations pursuant to this Section 5.7 are solely for purposes of federal, state, and local taxes and shall not affect, or in any way be taken not account in computing, any Venturer's Capital Account or share of income, gain, deduction or loss or other items or distributions pursuant to any provision of this Agreement. Except as otherwise required by the Code and Treasury Regulations, items of income, gain, deduction, loss or credit, as determined for tax purposes, shall be allocated to and among the Venturers in the same manner that the corresponding book items were allocated to the Venturers' Capital Accounts in accordance with this Article 5. In the event the book value of any asset of the Venture is adjusted pursuant to the other provisions of this Agreement (not including herein the initial booking of any asset contributed to the Venture), subsequent allocations of taxable income, gain, loss and deduction, as determined for tax purposes, with respect to such asset of the Venture shall be determined and allocated among the Venturers so as to account for any book-tax disparity arising from such adjustment in the same manner as would occur as to an asset contributed to the Venture under Code Section 704(c) and the Treasury Regulations thereunder. The Board shall determine the method of allocation from among the reasonable methods allowable by Code Section 704(c) and the Treasury Regulations thereunder.

5.8 Other Tax and Allocation Provisions. In the event it becomes necessary to make any elections or decisions relating to the allocations of Venture items of income, gain, loss, deduction or credit and/or with respect to any tax matters, BKV shall bring such elections or other decisions to the attention of the Board, and such elections or other decisions shall be made as directed by the Board in any manner that reasonably reflects the purpose and intention of this Agreement. Further, the Venture may, if the Board reasonably so elects, make an election pursuant to Code Section 754 and the Treasury Regulations thereunder (and a corresponding election under the applicable sections of state and local law).

ARTICLE 6. DISTRIBUTIONS

6.1 Reserves. The Venture shall maintain such reserves at the Venture level as the Board shall reasonably require in light of potential obligations of the Venture. This obligation shall be reflected in the Annual Budget.

6.2 Distributions. The Board shall determine the amount and timing of distributions of Operating Cash Flow, which shall be no less frequently than quarterly, if available, and Net Capital Proceeds, which shall be distributed to the Venturers within three (3) Business Days after the same become available for distribution. All distributions pursuant to this Section 6.2 shall be made on a pro-rata basis to the Venturers based on their respective Ownership Percentages.

6.3 No Deficit Restoration by Venturers. No Venturer shall be required to contribute capital to the Venture to restore a deficit balance in its Capital Account upon liquidation or otherwise, except as specifically required by law.

6.4 Withholding. If the Venture incurs a withholding tax obligation with respect to the share of income allocated to any Venturer or with respect to any other payments to a Venturer or their Affiliates with respect to any foreign, federal, state, or local tax or withholding liability arising as a result of such Venturer's interest in the Venture, the Venture shall be entitled to withhold such amount and (a) any amount which is (i) actually withheld from a distribution or payment that would otherwise have been made to such Venturer or its Affiliates and (ii) paid over in satisfaction of such withholding tax obligation to any government authority shall be treated for all purposes under this Agreement as if such amount had been distributed or paid to such Venturer as of the date of such withholding, and (b) any amount which is so paid over by the Venture, but which exceeds the amount, if any, actually withheld from a distribution or other payment which would otherwise have been made to such Venturer or its Affiliates, shall be treated as an interest-free advance to such Venturer (including with respect to amounts paid to any of its Affiliates). Amounts treated as advanced to any Venturer pursuant to this Section 6.4 shall be repaid by such Venturer to the Venture within 30 days after BKV gives notice to such Venturer making demand therefore.

ARTICLE 7. RIGHTS AND OBLIGATIONS OF VENTURERS

7.1 Limited Liability. Except as otherwise provided in the Act, no Venturer shall be obligated for any debt, obligation or liability of the Venture or of any other Venturer, whether arising in contract, tort or otherwise, solely by reason of being a Venturer.

7.2 Authority. Unless specifically authorized by the written approval of the Board, no Venturer shall be an agent of the Venture or have any right, power or authority to act for or to bind the Venture or to undertake or assume any obligation or responsibility of the Venture.

ARTICLE 8. MANAGEMENT AND CONTROL

8.1 Powers and Duties of the Board of Managers .

(a) The Board of Managers ("Board") shall be responsible for, and have the authority to control and operate, the business and affairs of the Venture and the interests of the Venturers collectively so as to maximize the Venture's equity value, without regard to the individual interests of any Venturer.

(b) Except for the Board Reserved Matters, the Board delegates certain authority to manage and administer the Business and affairs of the Venture to the GM in accordance with Sections 8.10 – 8.12.

8.2 Appointment of Board Members .

(a) The total number of the Board members shall be eight (8), or such other number as may be determined from time to time by the majority vote of the Board members present and entitled to vote at a duly convened meeting of the Board.

(b) For so long as BPPUS holds equity interests in the Venture, four (4) individuals nominated by BPPUS shall be elected as Board members.

(c) For so long as BKV holds equity interests in the Venture, four (4) individuals nominated by BKV shall be elected as Board members.

(d) The initial Board shall consist of the following members:

(i) As nominees of BPPUS: Mr. Voravudhi Linananda, Dr. Kirana Limpaphayom, Dr. Paul Didsayabutra, Mr. Dechapong Yuwaprecha

(ii) As nominees of BKV: Mr. Anon Sirisaengtaksin, Mr. Thiti Mekavichai, Mr. Christopher Kalnin and Mr. Daniel Androphy

(e) Each member of the Board shall serve a term of up to three (3) years as determined by the Board. A member whose term has expired may be nominated for re-election in accordance with this Section 8.2.

8.3 Removal of Board Members .

(a) A Board member may be removed by notice in writing to the Venture by the Venturer who nominated him/her.

(b) A Board member may be removed where such a Board member is formally charged by a Governmental Authority or regulatory body to have acted in material breach of the law or to have committed any serious criminal offense, or determined by the Board to have committed a breach of any fiduciary duty or material breach of other duty in relation to the Venture, by notice in writing to the Venture from any Venturers, and, in either such event, the Venturer that nominated such Board member shall promptly nominate another Board member in his/her place in accordance with Section 8.2.

8.4 Chairman.

(a) The Majority of the Board shall designate the Chairman of the Board, who shall serve a term of three (3) years.

(b) The Chairman shall chair all meetings of the Board at which he/she is present. The Chairman shall ensure that all relevant papers for any Board meeting are properly circulated in advance and that all such Board meetings are quorate.

(c) If the Chairman is not present at any Board meeting, the Board members present may select any member to act as Chairman for the purpose of such meeting.

(d) If the Chairman ceases to hold office as a Board member during his/her term, the Board shall nominate another of its nominated Board members to be elected as the Chairman for the remainder of the term of the Chairman who ceased to hold office.

8.5 Board Member Remuneration.

(a) The Venture shall cause each Board member promptly to be reimbursed for all reasonable and documented out-of-pocket costs and expenses incurred by him or her in connection with attending meetings of the Board and other meetings and events attended on behalf of the Venture as a member of the Board.

(b) The Board members will not receive remuneration for their services on the Board.

8.6 Board Meetings

(a) The Board shall decide how often Board meetings shall take place, provided that:

(i) they are held monthly on the third (3 rd) week of each month, unless at least a simple majority of the Board agrees otherwise; and

(ii) any Board member may propose to convene a Board meeting at any time.

(b) Participation.

(i) Any Board member shall be entitled to participate in a meeting of the Board of which he or she is a member, at which he or she is not physically present, using any technology, including telephone or video conference or similar electronic means. A meeting called and/or held by means of a telephone conference or a video conference or any similar communication equipment is deemed to be held at the place agreed upon by the Board members attending the meeting.

(c) Notice/Agenda.

(i) At least five (5) Business Days' prior written notice, by hand, email, courier or registered mail, shall be given to each of the Board members of all Board meetings, except where a Board meeting is adjourned under Section 8.7 or a shorter notice period has been agreed in writing by all of the Board members; provided, however, that attendance by a Board member at a Board meeting without receiving any notice shall constitute waiver by him or her of the notice required for such Board meeting under this Section 8.6(c)(i). Such notice shall contain a reasonably detailed agenda and shall be accompanied by any relevant papers.

(ii) Any Venturer or any Board member may propose an item for inclusion in the agenda together with a related resolution to be proposed at such Board meeting.

8.7 Quorum.

(a) Subject to the following provisions of this Section 8.7, the quorum at a Board meeting shall be at least a simple majority of the Board.

(b) If a quorum is not present within half an hour of the time appointed for the meeting or if a quorum ceases to be present during the course of the meeting, the Board members present shall adjourn the Board meeting to a specified place and time not less than three (3) Business Days after the date of such Board meeting where the same quorum shall be required.

(c) If such quorum set forth in Section 8.7(b) is still not present within half an hour of the time appointed for such adjourned Board meeting or if such quorum ceases to be present during the course of such adjourned Board meeting, the Board members present shall again adjourn the Board meeting to a specified place and time not less than three (3) Business Days after the date of such adjourned Board meeting, where the quorum shall be at least any simple majority of the Board.

(d) Notice of any adjourned Board meeting shall be given to all of the Board members.

8.8 Voting. Subject to only Section 8.9 and the Board Reserve Matters, at any Board meeting each Board member shall have one (1) vote and, except where unanimity is otherwise required, all decisions at Board meetings shall be taken by at least simple majority of the votes of the Board members present and entitled to vote. In case of a deadlock among the Board, two BKV directors and two BPPUS directors shall meet and attempt to reach agreement on the deadlock issue. In the event such directors are unable to reach unanimous agreement within fifteen (15) days after the first meeting then such deadlock matter shall go back to the Board and shall be determined by a majority vote of the Board. Provided, however, that if such deadlock could not be solved by the Board, the issue shall be referred to the Venturers for a final decision.

8.9 Unanimous Written Consent. Any decision or other action to be taken by the Board at any Board meeting may, in lieu of a Board meeting, be

taken with the unanimous written consent of all Board members with the same effect as if such decision or action was taken at a duly convened meeting of the Board.

8.10 GM.

(a) The GM may be an employee or officer of BKV or BPPUS.

(b) The Board shall endeavor to appoint a GM, with the approval of BPPUS, on or before twelve (12) months from the date of this Agreement. The Board, with the approval of BPPUS, may remove and replace the GM. The Board has designated Christopher Kalnin and Paul Didsayabutra as Managers of the Venture, each authorized to sign documents and exercise the duties of the GM in accordance with Sections 8.10 – 8.12 until a permanent GM is appointed by the Board.

8.11 Authority and Accountability of GM.

(a) Subject to the Board Reserved Matters and this Agreement, the GM shall have the power to manage and administer the business and affairs of the Venture in accordance with the Business Plan and Approved Budget, expenditures under the thresholds in the Board Reserved Matters, and as permitted pursuant to Section 4.4 regarding Emergencies.

(b) The GM shall be the focal point for, and shall be accountable to, the Board. Subject to Section 8.11(a), the GM shall have full authority to decide, agree, consent to, approve, perform, enter into, delegate or otherwise undertake any activity that does not violate applicable Law for and on behalf the Venture which does not fall within the scope of the Board Reserved Matters, unless it is legally required that such activity requires the prior approval of the Board.

(c) The taking of any action or decision by the GM that is a Board Reserve Matter without the prior approval of the Board will be considered a material breach under this Agreement.

8.12 Authority to Delegate.

(a) The GM shall have the right to execute an Administrative Service Agreement, which has been approved by BPPUS and acknowledged by the Board, to facilitate his duties under this Agreement.

(b) The GM shall have the right to engage, appoint, remove or dismiss consultants or advisors provided the remuneration for such parties is included in the Approved Budget.

8.13 Remuneration. The GM will not be remunerated for his services under this Agreement unless otherwise approved in the Approved Budget.

8.14 Board Reserved Matters. The following items will be Board Reserved Matters and require the unanimous consent of the Board, except as may be delegated by the Board with unanimous consent from time to time:

(a) Any merger, consolidation, amalgamation, conversion of the Venture or any subsidiary of the Venture into another form or entity or other business combination of any nature.

(b) Any winding up, dissolution or liquidation or any commencement of or any filing or petition for a voluntary bankruptcy, reorganization, debt arrangement or other case or proceeding involving the Venture or any subsidiary of the Venture under, or obtaining relief under, any federal or state bankruptcy or insolvency law or making a general assignment for the benefit of creditors of the Venture or any subsidiary of the Venture.

(c) Any plan to or initial sale of the Venture or other equity interests to the public pursuant to a registration under the Securities Act.

(d) Any amendment, restatement, or revocation of the certificate of incorporation, bylaws, operating agreements, limited liability agreement, management agreements, or other constitutional or organizational documents of the Venture or any subsidiary of the Venture.

(e) Any change to the Venture's or any subsidiary of the Venture's name, logo or trademark.

(f) Any material amendment or modification to existing technical review process.

(g) Any entering into any new business or expanding the business into a new country, or changing the Venture's business.

(h) Setting up a joint venture or a business entity, making an investment in any new subsidiary, or changing the ownership structure of the Venture.

(i) Unless specified otherwise in this Agreement, any transaction or contract with any Venturer, member of the Board or any entity, directly or indirectly, owned or controlled by any Venturer or any affiliate of such Venturer or by any member of the Board's family.

(j) Issuing any units or equity, or any increase or decrease of units or equity in the Venture or any subsidiary of the Venture.

(k) Investment in any new entity (including, without limitation, through any entities or vehicles formed in connection with the making of investment in view of the legal, tax, regulatory, business).

(l) Any acquisition or disposal by the Venture or any subsidiary of the Venture of any undertaking, business, company, or stocks or securities of a company.

(m) Any acquisition or disposal by the Venture or any subsidiary of the Venture of any non-operational assets in excess of $1,500,000 on an individual basis.

(n) (i) Any approval of the Business Plan and the Approved Budget (including operating, general and administrative and capital budgets), a long-term strategic direction and an overall management strategy, (ii) any amendments thereto, and (iii) any approval or ratification of any departure from the same; provided that BPPUS's approval shall also be required for any increase in any Approved Budget in any Fiscal Year over 5% of the Approved Budget in the immediately prior Fiscal Year.

(o) Conducting negotiations, supervising documentation or executing all agreements, instruments, documents and matters associated with, and any entry by the Venture or any subsidiary of the Venture into, any operational project which (i) exceed 3-year term, (ii) exceeds value of $2,000,000 per operational project, (iii) exceeds value of $10,000,000 in aggregate per Fiscal Year or (iv) accumulative exceeds the Approved Budget and Business Plan unless required for an Emergency.

(p) Any lease or disposal by the Venture of any operational assets or property not being undertaken in the ordinary course of business that exceeds the amount of $5,000,000 individually or $10,000,000 in aggregate per Fiscal Year.

(q) Procuring technology, big data and automation, which exceeds $200,000 individually or $500,000 in aggregate per Fiscal Year.

(r) Execution, amendment or termination of any Material Contract.

(s) Any creation, incurrence or assumption of any encumbrance over any assets or property of the Venture or any subsidiary of the Venture, outside the ordinary course of business, and any guarantee by the Venture or by any subsidiary of the Venture of any obligations of any person or provision of any credit support to the obligations of any person.

(t) Any suspension, cessation or abandonment of any day to day operational or non-material activity of the Venture or any subsidiary of the Venture, exceeding $500,000 individually or $1,000,000 in aggregate per Fiscal Year unless required for an Emergency as determined in good faith by the GM.

(u) The incurring of any capital expenditure and operating expenditure (including obligations under hire-purchase and leasing arrangements) of any item or project which is not provided for in an Approved Budget and/or an approved Business Plan, and exceeding $500,000 individually or $1,000,000 in aggregate in Fiscal Year unless required for an Emergency.

(v) Approval of the Venture's initial corporate organization structure, work rules and internal policies and regulations in relation to human resources management and any change from current practice or any change above market practice, except any change in compliance with the applicable laws.

(w) Any approval or modification of the compensation package of the GM, any approval or material modification of the compensation packages of the asset management, and any approval or material modification of the broad parameters of the framework for compensation for the Board and other employees.

(x) Any approval of budget for annual compensation increase of all employees.

(y) Any entry into, termination, amendment or otherwise of any arrangement or contract with the GM and the asset management, including as to remuneration or other benefits under such arrangement or contract shall be presented to the Board for acknowledgment, however BPPUS shall have ultimate approval over the entry, amendment and termination of any contract with the GM.

(z) Any adoption for all employees of any equity compensation plan, any bonus or profit-sharing scheme, incentive scheme, or any stocks, warrants or other convertible securities by the Venture, and any modification thereof.

(aa) Approval of the GM's work plan and the key performance indicators (KPIs) for the GM and the management, and appraisal of the GM and the management against the KPIs.

(bb) The making of any loan or advance to facilitate any hiring of or to incentivize or provide assistance to any employee.

(cc) Establishing or amending any sub-committee of the Board, including the audit committee and the compensation committee.

(dd) Any appointment or removal of the auditors.

(ee) Any adoption or material change to the accounting principles and/or the financial reporting standards.

(ff) Any change of the Fiscal Year.

(gg) Making any tax distribution, or any determination with respect to tax withholding matters or any tax filing, except for as required in accordance with applicable laws, exceeds $2,000,000 individually or $10,000,000 in aggregate per Fiscal Year.

(hh) Debt write-off in accordance with accounting standards (e.g. bad debt from counter parties due to bankruptcy in normal course of business).

(ii) Provision of impairment of assets (project in progress, fixed asset, other assets).

(jj) Provision of impairment of doubtful account.

(kk) The decision that additional funding from the Venturers shall be required, including the determination of the forms of funding required unless required for an Emergency.

(ll) The making of any loan or advance by the Venture or to any subsidiary of the Venture which exceeds value of $1,000,000 total outstanding during any Fiscal Year; or not in the ordinary course of business; or to be secured by any collateral of the Venture, any subsidiary of the Venture.

(mm) Any change or the creation or issue or the repurchase of any Units or of any other security of the Venture, or the grant of any option or rights to subscribe for or to convert any instrument into such securities.

(nn) Any declaration or payment of any dividend or distribution to the Venturers in any Fiscal Year.

(oo) Any amendment to or deviation from the dividend policy of the Venture or any subsidiary of the Venture.

(pp) Resolving any disputes, controversies or proceedings in relation to any tax matters with the IRS or entering into any binding agreement or settlement with the IRS on any material item in dispute with respect to any of the Venture's or any subsidiary of the Venture's federal income tax return.

(qq) Entering into by the Venture of any compromise or settlement in connection with any action, litigation, suit, arbitration or other proceedings, or any application by the Venture for an interim injunction or other application or action (including interim defense) in excess of $1,500,000.

(rr) Approval of policy, plan and target, and product program related to hedging.

(ss) Approval of any insurance program for the Venture or its subsidiaries.

ARTICLE 9. TRANSFERS OF VENTURE INTERESTS

9.1 Transfers. Subject to the provisions of Section 9.2, each Venturer shall be permitted to transfer or encumber such Venturer's interest in the Venture without the prior written approval of the other Venturer or the Board; provided, however, that no Venturer shall transfer all or any of its Ownership Percentage in the Venture (A) if such transfer would subject the Venture to the reporting requirements under the U.S. federal securities laws, (B) if such transfer would cause the Venture to lose its status as a partnership for federal income tax purposes or cause the Venture to be classified as a "publicly traded partnership" within the meaning of Code Section 7704, (C) if such transfer would violate, give rise to a default under or cause any payment to become due under, any credit agreement, guaranty, or similar credit document or any other material contract to which the Venture or any Affiliate is bound, or (D) at any time prior to the repayment by the Venture of all loans and other amounts outstanding under the Venturer Loan Agreement and the termination of the Venturer Loan Agreement.

9.2 Public Offering. Notwithstanding any provision of this Article 9, any Venturer may undertake a public offer of such Venturer without the approval of the Board or of the other Venturer, and such offering shall be free of any and all rights of the Board or of any other Venturers including, without limitation, any tag along rights.

ARTICLE 10. DEFAULTS; TERMINATION

10.1 Default. The occurrence of any of the events set forth below shall constitute an " Event of Default" on the part of BKV or BPPUS, as applicable.

(a) violation by or on behalf of BKV or BPPUS, as applicable, of the transfer restrictions set forth in Article 9;

(b) initiation by BKV or BPPUS, as applicable, of proceedings of any nature under the United States Bankruptcy Code, or any similar state or federal law for the relief of debtors;

(c) a general assignment by BKV or BPPUS, as applicable, for the benefit of creditors;

(d) the initiation against BKV or BPPUS, as applicable, of a proceeding under any section or chapter of the federal Bankruptcy Code, or any similar federal or state law for the relief of debtors, which proceeding is not dismissed or discharged within a period of sixty (60) days after the filing thereof;

(e) admission by BKV or BPPUS, as applicable, in writing of its inability to pay its debts as they mature or to perform its obligations under this Agreement;

(f) attachment or execution or other judicial seizure of all or any substantial part of BKV's or BPPUS's, as applicable, interest in the

Venture, or any part thereof, which remains undismissed or undischarged for a period of sixty (60) days after levy thereof.

10.2 Remedies.

(a) Upon the occurrence and during the continuance of any Event of Default, the non-defaulting Venturer shall be entitled to (i) sell the assets of the Venture and dissolve the Venture on reasonable terms deemed acceptable to the Board (ii) obtain specific performance of the non-defaulting Venturer's obligations under this Agreement and/or (iii) exercise any other right or remedy provided in law or in equity.

10.3 Dissolution. The Venture shall be dissolved upon the occurrence of any of the following events:

(a) election by the Board to dissolve the Venture following the occurrence of an Event of Default; or

(b) unanimous written consent by the Venturers to dissolve the Venture.

Dissolution of the Venture shall be effective on the day on which the event occurs giving rise to the dissolution, but the Venture shall not terminate until the assets of the Venture have been distributed as provided herein and a certificate of cancellation of the Venture has been filed with the Secretary of State of Delaware.

10.4 Application of Assets. In the event of dissolution, the Venture shall conduct only such activities as are necessary to wind up its affairs, including a sale of the assets of the Venture in an orderly manner, and the assets of the Venture shall be applied in the manner and in the priority set forth in Section 6.2.

ARTICLE 11. MISCELLANEOUS

11.1 Notices. Any and all notices, consents, approvals and other communications required or permitted under this Agreement shall be deemed adequately given only if in writing. Any and all notices, demands, consents, approvals, offers, elections and other communications required or permitted under this Agreement (collectively, "Notices") shall be deemed to have been properly given (i) upon delivery, if delivered in hand, (ii) one (1) Business Day after having been deposited for overnight delivery with any reputable overnight courier service with all freight charges prepaid, (iii) three (3) Business Days after having been deposited in any post office or mail depository regularly maintained by the U.S. Postal Service and sent by registered or certified mail, postage prepaid, return receipt requested or (iv) the date sent by electronic mail (with confirmation of transmission) if sent during normal business hours of the recipient, and on the next Business Day if sent after normal business hours of the recipient; provided, however, any notice of breach or default hereunder, or offer or acceptance with respect to the purchase or sale of the Property, may not be given by electronic mail and a copy of any notice delivered by electronic mail must simultaneously be sent by one of the delivery methods set forth in clauses (i), (ii) or (iii) above. Whenever under this Agreement a Notice is either received on a day which is not a Business Day or is required to be delivered on or before a specific day which is not a Business Day, the day of receipt or required delivery shall automatically be extended to the next Business Day. All such notices and other communications shall be addressed to the Venturers at their respective addresses set forth below or at such other addresses as any of them may from time to time designate by notice to the other Venturers.

Notices to BPPUS shall be addressed to:

Banpu Power US Corporation
1200 17th Street, Suite 2100
Denver, CO 80202
Attention: Mr. Pual Didsayabutra
Email: [***]

With copies via email to:

Attention: Mr, Dechaphong Yuwaprecha and Mr. Issara Niropas
Email: [***], [***]

Notices to BKV shall be addressed to:

BKV Corporation

11.2 Successors and Assigns. The agreements contained herein shall be binding upon and inure to the benefit of the permitted successors and assigns of the respective parties hereto.

11.3 Applicable Law. This Agreement shall be construed and enforced in accordance with the laws of the State of Delaware. In the event of any conflict between any provision of this Agreement and any non-mandatory provision of the Act, the provision of this Agreement shall control.

11.4 Severability. If for any reason any provision of this Agreement is determined to be invalid, or unenforceable in any circumstance, such invalidity or unenforceability shall not impair the effectiveness of the other provisions in this Agreement or, to the extent permissible, the effectiveness of such provision in other circumstances.

11.5 Entire Agreement. This Agreement, and the schedules and exhibits attached thereto constitute the entire agreement between the parties hereto with respect to the subject matter hereof and supersede all prior understandings, agreements or representations between the parties pertaining to the subject matter hereof, whether oral or written.

11.6 Titles. Titles of provisions of this Agreement are for descriptive purposes only and shall not control or alter the meanings of this Agreement as set forth in the text.

11.7 Further Assurances. The Venturers shall execute and deliver such further instruments and do such further acts and things as may be required to carry out the intent and purposes of this Agreement.

11.8 Consent to Jurisdiction. The Venturers hereby consent to the personal jurisdiction of the federal and state courts of the State of Delaware and agree that service of process may be (but need not be) made upon them by certified mail, return receipt requested, or by any manner permitted by law. The Venturers agree not to assert in any action brought in any such court that such action is brought in an inconvenient forum, or otherwise make any objection to venue or jurisdiction.

11.9 Amendments. Except as otherwise provided in this Agreement, no amendment or modification of this Agreement shall be effective unless reflected in a document executed and delivered by all of the Venturers.

11.10 Waiver of Jury Trial. Each of the parties hereto waives trial by jury in any litigation, suit or proceeding between them in any court with respect to, in connection with or arising out of this Agreement, or the validity, interpretation or enforcement thereof, or dealings with each other as Venturers of the Venture.

11.11 Prevailing Party. In any action or proceeding arising in connection with this Agreement, the costs and reasonable attorneys' fees of the prevailing party shall be paid by the other party.

11.12 Confidentiality. No party hereto shall issue any press release or otherwise make any public announcement naming the other party or any of its direct or indirect beneficial owners, advisors or other agents, or indicating any of their involvement with the Venture, without the consent of the other party. Each party hereto agrees to maintain the confidentiality of the terms and conditions of this Agreement and to maintain the confidentiality of (i) any information provided by one party to the other, and (ii) all financial information, Budgets, Business Plans, information contained in any books, records, computer discs and similar materials containing Venture information, invoices and other documents received or maintained by the Venture pursuant to this Agreement, other than information that is available from public sources (collectively, the "Confidential Information"). Notwithstanding the foregoing, each party shall be entitled to share such Confidential Information (a) to current and potential lenders and direct and indirect beneficial owners of the Venture, (b) if required by law (it being specifically understood and agreed that anything set forth in a registration statement or any other document filed pursuant to law will be deemed required by law), and (c) to its investors, attorneys and advisors who agree to maintain a similar confidence. Notwithstanding anything else in this Agreement and any other agreements among the parties, any party to this Agreement (and each employee, representative, or other agent of any party to this Agreement) may disclose to any and all persons, without limitation of any kind, the tax treatment and tax structure of the Venture and any other transactions contemplated by this Agreement and any other agreements between the parties and all materials of any kind (including opinions or other tax analyses) that are provided to it relating to such tax treatment and tax structure.

11.13 Counterparts. This Agreement may be executed in any number of counterparts, including by electronic transmission, with the same effect as if all signing parties had signed the same document. All counterparts shall be construed together and constitute the same instrument.

11.14 Independent Legal Advice. Each of the Venturers acknowledge that it has read and understands this Agreement, has consulted with legal counsel with respect to the terms and conditions hereof, is fully aware of its legal effect, has not acted in reliance upon any representations or promises made by the Company other than those contained in writing herein, and has entered into this Agreement freely based on its own judgment with the advice of legal counsel and other advisers as it has deemed necessary or advisable.

11.15 Equitable Relief. Each Venturer acknowledges and agrees that any breach of this Agreement by such Venturer or the Venture or any transferee or any legal representative thereof may cause irreparable injury to the Venture or the other Venturers for which monetary damages (or other remedy at law) are inadequate in view of (a) the complexities and uncertainties in measuring the actual damages that would be sustained by reason of the failure of a Venturer or the Venture to comply with such provisions and (b) the uniqueness of the Venture, the Venture's and each other Venturer's business. Each Venturer and the Venture consents to the issuance of an injunction or other enforcement of other equitable remedies against such Venturer or the Venture at the suit of an aggrieved party without the posting of any bond or other security, to compel specific performance of all the terms of this Agreement, and waives any defenses

thereto, including the defenses of: (i) failure of consideration, (ii) breach of any other provision of this Agreement and (iii) availability of relief in damages.

11.16 Creditors. Notwithstanding anything to the contrary, none of the provisions of this Agreement shall be for the benefit of, or shall be enforceable by, any creditor of the Venture (including any lender under the Venturer Loan Agreement, in its capacity as such) or its subsidiaries or any creditor of any Venturer, and for the avoidance of doubt, no Venturer, Board member or Affiliates Representatives shall be deemed to have any duties of any nature whatsoever to any such creditor by virtue of this Agreement or any interest it may have in ownership interests of the Venture or its subsidiaries.

[*Signatures appear on following page*.]

IN WITNESS WHEREOF the parties have executed this Agreement as of the date first set forth above.

BANPU POWER US CORPORATION,

a Delaware corporation

By: /s/ Kirana Limpaphayom
Name: Kirana Limpaphayom
Title: Director

BKV CORPORATION,

a Delaware corporation

By: /s/ Christopher P. Kalnin
Name: Christopher P. Kalnin
Title: CEO

Schedule 2.6
Venturers

	Ownership Percentage
BKV Corporation 1200 17th Street, Suite 2100, Denver, CO 80202	50%
Banpu Power US Corporation c/o Corporation Service Company, 251 Little Falls Drive, in the City of Wilmington, County of New Castle, Delaware 19808	50%

Schedule 2.7

1. Organization and Ownership. BKV is a corporation validly existing and in good standing under the laws of the State of Delaware, with full power and authority and legal right to enter into and perform its obligations under this Agreement and to carry on its business in the manner and in the locations in which such business has been and is now being conducted by it. BPPUS is a corporation validly existing and in good standing under the laws of the State of Delaware, with full power and authority and legal right to enter into and perform its obligation under this Agreement and to carry on its business in the manner and in the locations in which such business has been and is now being conducted by BPPUS.

2. Due Authorization and Execution. No consent, approval or waiver of any other third party is required for the execution and delivery by BKV and BPPUS of this Agreement. This Agreement is the legal, valid and binding obligation of the BKV and BPPUS, is enforceable against BKV and BPPUS in accordance with its terms, does not violate or conflict with and will not constitute a default under any provision of any agreement, organizational document, law or judicial or other governmental order to which the BKV or BPPUS are a party.

Schedule 4.2

Reporting Requirements

1. **FISCAL YEAR AND FINANCIAL STATEMENT PREPARATION BASIS**

1.1 Unless and until the Board shall otherwise determine in accordance with this Agreement, the following particulars shall remain unchanged:

1.1.1 the Venture's Fiscal Year shall end on 31 December in each year; and

1.1.2 the Venture's shall prepare and make available the International Financial Reporting Standard ("IFRS") consolidated balance sheets and profit and loss accounts on a consistent basis for the purpose of consolidation of the Venture and its subsidiaries at the Banpu Power group level and audited by appointed external auditor.

1.1.3 the Venture's shall prepare and make available the U.S. GAAP standards ("GAAP") consolidated balance sheets and profit and loss accounts on a consistent basis for the purpose of consolidation of the Venture and its subsidiaries at the BKV group level and audited by appointed external auditor.

2. **FINANCE FOR THE VENTURE**

The Venturers agree that the finance for the Business of the Venture and its subsidiaries (including the funding of approved Business Plan and Approved Budgets) shall be provided by equity contributions from the Venturers, Venturers' loans and/or loans and other credit facilities from licensed banks, financial institutions and other parties on such terms as the Board may agree in accordance with this Agreement.

3. **DIVIDEND POLICY**

Subject to any applicable laws and regulations, the Venturers hereby agree that the Venture shall declare and pay dividend amounting to at least 50% from its Net Income of the Venture for the six months ended June ("interim dividend") and for the year ended December. The payment of interim dividend shall be made within September, while the payment of the annual dividend shall be made within May of the following year following the date the dividend is declared.

No dividend shall be payable except out of profits and shall not carry interest as against the Venture.

All dividends shall be dispatched simultaneously to the Venturers entitled to the dividend. Any dividend payable may be paid by check sent through the mail or electronic funds transfer to an account with a bank nominated by the Venturer.

Except as otherwise provided by statute, all dividends unclaimed for one year after having been declared may be invested or otherwise made use of for the benefits of the Venture until claimed.

4. **THE INTERNATIONAL FINANCIAL REPORTING STANDARD ("IFRS") REPORTING SCHEDULE**

4.1 For so long as this Agreement is in effect, the Venture shall, and the Venturers shall exercise their rights as members in relation to the Venture (including but not limited to directing their respective nominees, if any, on the Board) so as to ensure that the Venture will, deliver to each of the Venturers:

4.1.1 on or before 15 September in each Fiscal Year, a detailed first draft of the Approved Budget and Business Plan for the Venture and its subsidiaries (including the Financial Projection and estimated major items of revenue and capital expenditure) for the following Fiscal Year, broken down on a monthly basis, and an accompanying cash-flow forecast together with a balance sheet showing the projected position of the Venture and its subsidiaries as at the end of the following Fiscal Year;

4.1.2 on or before 15 October in each Fiscal Year, a detailed final draft of the Approved Budget and Business Plan for the Venture and its subsidiaries (including the Financial Projection and estimated major items of revenue and capital expenditure) for the following Fiscal Year, broken down on a monthly basis, and an accompanying cash-flow forecast together with a balance sheet showing the projected position of the Venture and its subsidiaries as at the end of the following Fiscal Year;

4.1.3 following twelve (12) months after execution of this Agreement, within 10 days after the end of each calendar month in a Fiscal Year, unaudited management accounts in accordance with IFRS. Such accounts shall include a detailed profit and loss account, balance sheet, cash flow analysis, an analysis of profit and loss account against the corresponding budget, a trend analysis, financial outlook for the remaining months of the year, and an analysis of accounts receivable aging;

4.1.4 within twenty (25) days after the end of each of the fiscal quarters in a Fiscal Year (or when furnished to the Board, if earlier), the final version (after external auditor review with adjustment transaction) of consolidated balance sheet of the Venture and its subsidiaries as at the end of each such period and the related consolidated statements of income and cash flows of the Venture and its subsidiaries for such quarterly period and for the elapsed period in such Fiscal Year, all in reasonable detail and stating in comparative form the figures as at the end of and for the comparable periods of the preceding Fiscal Year. All such financial statements shall be in accordance with the agreed upon audit plan for the Venture.

4.1.5 statutory or audit report (signed by external audit) as available, within 90 days after the end of each Fiscal Year (or when furnished to the Board, if earlier) a copy of the consolidated balance sheet of the Venture and its subsidiaries as at the end of each Fiscal Year and the related consolidated statements of income, members' equity and cash flows of the Venture and its subsidiaries for each Fiscal Year, all in reasonable detail and stating in comparative form the figures as at the end of and for the previous Fiscal Year accompanied by an audit opinion.

Schedule 4.4
Approved Budget for year 2021 and 2022

Exhibit 10.26

BKV CORPORATION
NON-EMPLOYEE DIRECTOR COMPENSATION PROGRAM

Non-employee members of the board of directors (the "**Board**") of BKV Corporation (the "**Company**") shall receive compensation as set forth in this Director Compensation Program (this "**Program**"). The compensation described in this Program shall be paid or be made, as applicable, automatically and without further action of the Board to each member of the Board who is not an employee of the Company (each, a "**Non-Employee Director**"). Each Non-Employee Director may waive all or a portion of the compensation described in this Program and such waiver may be subsequently rescinded in writing; provided, however, that following any rescindment, no compensation shall be paid in respect of the period during which such Non-Employee Directors's compensation was waived. Each member of the Board who is also an employee of the Company shall not receive additional compensation for service as a member of the Board and shall not be eligible to participate in this Program.

This Program shall become effective on September 1, 2022 (the "**Effective Date**") and will remain in effect until it is revised or rescinded by further action of the Board. This Program may be amended, modified or terminated by the Board at any time, without advance notice, in its sole discretion.

1. Cash Compensation.

a. Board Member Annual Retainers. Each Non-Employee Director will receive an annual retainer of $75,000 (the "**Director Retainer**"). If a Non-Employee Director is also serving as the Chair of the Board as contemplated by the Company's Certificate of Incorporation, such Non-Employee Director will receive an additional annual retainer of $62,500 (which, together with the Director Retainer would be an aggregate annual retainer of $137,500) as compensation for the additional responsibilities associated with serving as the Chair of the Board (together with the Director Retainer, the "**Board Member Retainers**").

b. Committee Member Annual Retainers. Each Non-Employee Director who serves in one of the following roles will be paid the additional cash retainer set forth below (together with the Board Member Retainers, the "**Retainers**").

Committee Role	**Amount**
Chair of Audit Committee	$ 20,000
Chair of Compensation Committee	$ 15,000
Chair of Governance Committee	$ 15,000
Member of Audit Committee (other than the Chair)	$ 10,000
Member of Compensation Committee (other than the Chair)	$ 5,000
Member of Governance Committee Member (other than the Chair)	$ 5,000

c. Payment of Retainers. The Retainers shall be earned on a quarterly basis based on a calendar quarter and shall be paid in cash by the Company in arrears not later than the fifteenth (15th) day following the end of the calendar quarter. In the event a Non-Employee Director does not serve as a Non-Employee Director, Chair of the Board or such other position set forth in Section 1b, for an entire calendar quarter, the Retainer paid to such Non-Employee Director will be prorated for the portion of the calendar quarter actually served as a Non-Employee Director, Chair of the Board, or such other position set forth in Section 1b.

2. Equity Compensation.

a. General. Non-Employee Directors will be granted awards of Restricted Stock Units (as defined in the Company's 2022 Equity and Incentive Compensation Plan or any other applicable Company equity incentive plan then-maintained by the Company, in each case, which is approved, adopted and becomes effective after the date this Program becomes effective (the "**Equity Plan**")) described below (each, a "**Restricted Stock Unit Award**"), subject to the approval, adoption and effectiveness of the Equity Plan. The Restricted Stock Unit Awards will be granted under and subject to the terms of the Equity Plan and award agreements in substantially the form approved by the Board. All applicable terms of the Equity Plan apply to this Program as if fully set forth herein, and all Restricted Stock Unit Awards under this Program are subject in all respects to the terms of the Equity Plan and the award agreement pursuant to which it was granted.

b. Annual Awards. Non-Employee Directors who are re-elected to serve, or will continue to serve, as a Non-Employee Director immediately following any annual meeting of the Company's stockholders will, subject to the approval, adoption and effectiveness of the Equity Plan, automatically be granted, on the date of the Company's annual stockholder meeting, that number of Restricted Stock Units calculated by dividing (i)(y) $140,000 for Non-Employee Directors other than the Chair of the Board or (z) $202,500 for each Non-Employee Director who is the Chair of the Board, by (ii) the closing price of a share of the Company's common stock as of the date of such annual meeting of the Company's stockholders and rounding down to the nearest whole number (the "**Annual RSUs**"). The Annual RSUs will vest in accordance with and subject to the terms of the Equity Plan and the award agreement pursuant to which it was granted. If an Equity Plan is not effective as of an annual stockholder meeting occurring after the Effective Date, the dollar value that factors into the Annual RSUs that would have otherwise been granted at such annual meeting shall, instead, be considered part of the Retainers and shall be payable to the Non-Employee Directors together with the Retainers, as set forth in Section 1c.

3. Expense Reimbursements. The Company will reimburse each Non-Employee Director for all reasonable, documented, out-of-pocket travel and other business expenses incurred by such Non-Employee Director in the performance of his or her duties to the Company in accordance with the Company's applicable expense reimbursement policies and procedures as in effect from time to time.

Exhibit 10.27

Re: Uncommitted Specific Advance Facility

Ladies and Gentlemen:

We, Oversea-Chinese Banking Corporation Limited, Los Angeles Agency (together with our successors and assigns, " we" or the "Bank") are pleased to make available the uncommitted Specific Advance Facility as set out below (the "Facility") to BKV Corporation, a Delaware corporation (the " Borrower") subject to the following terms and conditions of: (i) this Facility Letter and each other Facility Document (as defined herein), (ii) the specific terms and conditions of each Notice of Drawing (as defined herein) or each Letter of Credit Request (as defined herein), as applicable, and (iii) the Bank's Standard Terms and Conditions Governing Banking Facilities (the "Standard Terms"), attached hereto and made a part hereof as **Exhibit B**. The Facility will be guaranteed by the subsidiaries of the Borrower as more particularly described herein, including, without limitation BKV Barnett LLC, BKV Operating, LLC, and BKV Chelsea, LLC, each, a Delaware limited liability company (each, a "Guarantor", and each Guarantor, together with the Borrower, a " Credit Party"). Certain terms used in this Facility Letter that are not defined elsewhere in this Facility Letter are defined in the Standard Terms. In the event of any inconsistency or conflict between the terms of this Facility Letter and the Standard Terms, the terms of this Facility Letter shall govern and control.

The Facility is made available hereunder on an uncommitted, discretionary, recallable on demand basis. The Bank has no obligation to issue, grant, continue, extend, or renew any Advance, letter of credit, or any other Utilization of the Facility. Each request by Borrower for a Utilization shall be reviewed by the Bank on a case by case basis and the decision to grant or continue any such Utilization shall be made by the Bank in its absolute and sole discretion and irrespective of whether or not the Credit Parties are in compliance with any of the terms of this Facility Letter or the other Facility Documents. The Bank also reserves the right to summarily refuse any request for a Utilization without any review as contemplated by the preceding sentence. As a "demand" facility, the Bank may demand repayment (or cash collateralization, as applicable, in form, substance and amount satisfactory to the Bank) of any outstanding Obligations at any time. By their execution and delivery hereof, the Credit Parties acknowledge and understand the foregoing.

1. FACILITY LIMIT

Notwithstanding the respective Facility limit set out in this Facility Letter, the Bank may, at its sole discretion, in consideration of a request of the Borrower from time to time, increase the Facility limit for a specified period of time subject to such conditions as the Bank may stipulate. Any such increase in the limits, and the entire Facility, may be cancelled immediately upon notice to Borrower by the Bank. The Bank may also, in its sole discretion, impose, decrease or cancel any Facility or sublimit or incorporate additional sublimits.

FACILITY	**Limit**
Specific Advance Facility ("SAF")	**Up to $55 million**

The maximum aggregate principal sum outstanding together with the aggregate stated amount of any letters of credit issued under this Facility at any one time shall not exceed $55,000,000 (FIFTY FIVE MILLION DOLLARS) (the "Maximum Amount").

The Bank, in its discretion, may agree to issue standby letters of credit (each, an " SBLC") from time to time for the account of the Borrower. The aggregate stated amount of all outstanding letters of credit issued under the Facility shall not exceed $25,000,000 (TWENTY FIVE MILLION DOLLARS) (the "SBLC Sublimit") unless otherwise agreed by the Bank in its sole discretion. Each issuance of an SBLC under the Facility shall reduce the aggregate amount available for Advances, other SBLCs, and any other available Utilizations on a dollar for dollar basis.

All Advances and SBLCs shall be in United States Dollars and shall be repaid in United States Dollars. SBLCs shall also be subject to the terms of a Letter of Credit Reimbursement Agreement between the Borrower and the Bank, dated as of the date hereof (as it may be amended, restated, supplement, modified or replaced, the "Letter of Credit Reimbursement Agreement "), a letter of credit application, and any other agreements, documents, or instruments required by the Bank as a condition to the issuance of such SBLC, or as a condition to any amendment, extension, or renewal of any SBLC. All references to "$" or "DOLLARS" hereunder shall refer to United States Dollars.

2. PURPOSE

The proceeds of Advances and any drawings of SBLCs shall be used to finance Borrower's working capital requirements in the ordinary course of its

business as presently conducted. Notwithstanding anything to the contrary in the Standard Terms, Utilizations shall only consist of Advances and SBLCs.

3. PRICING

Each Advance shall bear interest for each day during each Interest Period with respect thereto at a rate per annum equal to the Applicable Rate determined for such Interest Period, as set forth in Section 5.3(d) and the Standard Terms.

Each SBLC shall be subject to the LC Fee as described in Section 5.3(g) and the Standard Terms, and any other fees, charges and expenses set forth in the Letter of Credit Reimbursement Agreement.

Please refer to the Standard Terms, particularly Sections 2 and 3 thereof. As more particularly provided therein, the Bank reserves the right to change the Applicable Rate and the LC Fee in its sole discretion to any other interest rate plus applicable margin (or, for SBLCs, any other fee) it elects, including a rate or fee based on its Cost of Funds and you shall be required to make future interest and fee payments (and any other Obligations calculated according to the Applicable Rate) in accordance with the new Applicable Rate or new SBLC fee. With respect to any Utilizations where the Applicable Rate is calculated according to the LIBO Rate, the Standard Terms provide for such Applicable Rate to transition to a SOFR based rate under the circumstances described therein. Such provisions shall not, however, limit, waive, or restrict the Bank's overall discretion to change any Applicable Rate, which discretion the Bank reserves notwithstanding Sections 2 and 3 of the Standard Terms. The Bank may give prior written notice to the Borrower of any change in the Applicable Rate, but the failure of the Bank to give any such prior written notice shall not relieve the Borrower of its obligation to pay the amount due and owing to the Bank on account of any change in such Applicable Rate or otherwise prejudice, waive, or limit the Bank's rights or remedies in any respect.

4. FACILITY DOCUMENTS

4.1 The Facility, all Utilizations, and all other Obligations of the Credit Parties arising hereunder will be subject to the terms of the following documents in form and substance satisfactory to the Bank (each such document, a "Facility Document" and collectively, the "Facility Documents"):

(i) This Facility Letter;
(ii) Demand Promissory Note;
(iii) Letter of Credit Reimbursement Agreement;
(iv) Guaranty in favor of the Bank from the Guarantors;
(v) Each Notice of Drawing for each Advance or a Notice of Letter of Credit Request, each in the form of **Exhibit A-1** or **Exhibit A-2**, as applicable; and
(vi) Such other documentation as the Bank may request from time to time.

Above documentation and any other documentation, including any amendments, modifications, or restatements of the same, requested by the Bank from time to time shall be in form and substance satisfactory to the Bank and any Utilizations shall be subject to the terms of such documentation.

5. SAF AVAILABILITY/DRAWDOWN

5.1 Subject to the availability of funds to the Bank, Advances under the SAF will be available for drawdown by the Borrower, and the issuance of SBLCs will be available, from time to time on a revolving basis provided always that at any one time the aggregate outstanding principal amount of the Advances together with the undrawn aggregate stated amount of any SBLCs shall not exceed the Maximum Amount.

5.2 Each Advance shall be repaid in full on the earlier of sixty days after the date of such Advance or the Bank's written demand. Draws on SBLCs shall be payable in full on the earlier of Bank's written demand or as required under the Letter of Credit Reimbursement Agreement. Please be further advised that the Facility is subject to an annual renewal by the Bank on June 30 of each year (or if such day is not a Business Day, then on the next Business Day thereafter). In the event the Facility is not renewed as of such date (the "Renewal Determination Date"), the Bank shall terminate the Facility and demand repayment of all Obligations (and cash collateralization of any outstanding SBLCs in form, substance and amount satisfactory to the Bank) on the next Business Day following the Bank's decision not to renew the Facility. Failure of Bank to delay its annual renewal decision to any date after the Renewal Determination Date of any year, or to fail to deliver notice of termination and a demand for repayment and/or cash collateralization on the day immediately following any determination not to renew the Facility shall not prejudice or waive any rights or remedies of the Bank to terminate the Facility, demand repayment or cash collateral, or exercise any right or remedy. The Bank may elect not to renew or continue the Facility for any or no reason, in its sole discretion, whether or not an Event of Default has occurred or continues.

5.3 Subject to the Bank's absolute discretion to otherwise permit:

(a) Each Advance shall be of an amount of not less than $1,000,000 and in integral multiples of $1,000,000.

(b) The stated amount of each SBLC shall be an amount of not less than $1,000,000 and in integral multiples of $1,000,000. The aggregate outstanding undrawn stated amount of all SBLCs shall not exceed the SBLC Sublimit at any time. In the event that the aggregate outstanding undrawn stated amount, at any time, exceeds the SBLC Sublimit, the Bank may require the Borrower to cash collateralize the SBLCs, in form, substance and amount satisfactory to the Bank. If the Borrower does not timely comply with any cash collateral request, the Bank may, in its discretion, cause an Advance to be made under the Facility and the Bank may keep the proceeds of such Advance as cash collateral. Each SBLC issued (including any that are amended, extended, renewed or increased) after the date hereof shall terminate no later than 12 months after the date of issuance; *provided*, *however*, that if the letter of credit issued by the Bank in favor of Enterprise Texas Pipeline, LLC in the original stated amount of $20,640,000, is ever (in the sole discretion of the Bank and subject to the terms and conditions of the Facility Documents), deemed issued under this Facility or replaced by an SBLC issued under this Facility, the maximum tenor of such letter of credit or replacement allow for an expiry date of 31 August 2024.

(c) Each Interest Period shall be 1 or 2 months, subject to the availability of such Interest Period, as notified to the Bank in the Borrower's Notice of Drawing relating thereto or any continuation notice sent pursuant to Section 5.3(f) hereof. The Borrower shall select such Interest Periods as which shall enable the Borrower to comply with the Borrower's obligations under the Facility Documents. If the Borrower fails to select an Interest Period in the Notice of Drawing for an Advance, and the Bank elects to accept such Notice of Drawing in its sole discretion, the Interest Period for such Advance shall be one month.

(d) In order to request an Advance, Borrower shall send a Notice of Drawing, substantially in the form attached hereto as Exhibit A-1 to the Bank not later than 11:00 a.m., Los Angeles time, on the fifth Business Day prior to the intended date of Advance, and the other conditions precedent set forth in Section 8 hereof shall be satisfied as determined by the Bank in its sole discretion. The intended date of an Advance must be a Business Day. Each Notice of Drawing shall be irrevocable and binding on Borrower.

(e) In order to request the issuance, amendment, renewal or extension of an SBLC, Borrower shall send an SBLC Issuance Request, substantially in the form attached hereto as Exhibit A-2 to the Bank not later than 11:00 a.m., Los Angeles time, on the fifth Business Day prior to the intended date of such SBLC issuance, amendment, or extension, and the other conditions precedent set forth in Section 8 hereof shall be satisfied as determined by the Bank in its sole discretion. The intended issuance, amendment or extension date of an SBLC must be a Business Day. Each SBLC Issuance Request shall be irrevocable and binding on Borrower.

(f) The Borrower shall pay all accrued interest on each Advance at the Applicable Rate on the applicable Interest Payment Date for such Advance. The Applicable Rate shall be the LIBO Rate plus a margin of 2.00%, subject to the Bank's right to change the Applicable Rate pursuant to Section 2(a) of the Standard Terms. "Interest Payment Date" means (i) the last day of each Interest Period, (ii) any other date on which the Bank demands repayment of outstanding, accrued interest, and (iii) the Renewal Determination Date (if the Bank elects not to renew the Facility).

(g) Borrower shall pay a fee with respect to each SBLC equal to 1.50% per annum of the outstanding stated amount of such SBLC (the "LC Fee"). Each LC Fee will be payable (i) at issuance of such SBLC based on the stated amount of the SBLC on the day of issuance for the calendar quarter in which such SBLC is issued, and (ii) thereafter, on the first Business Day of each calendar quarter, in advance, based on the stated amount of the SBLC on the first Business Day of such quarter. If the stated amount of SBLC is increased, the Borrower shall pay a supplemental LC Fee on the date of such increase equal to the pro rata amount of the LC Fee as applied to such increased amount.

(h) The Borrower shall not voluntarily repay or prepay any Advance, in whole or in part, on any day other than the last day of the applicable Interest Period for such Advance and upon giving the Bank at least three (3) Business Days' prior written notice. In the event the Borrower does repay any Advance prior to the applicable Interest Period in a manner not permitted by the preceding sentence, the Borrower shall be liable for any breakage costs and other fees and expenses incurred by the Bank in connection with such repayment, as further provided in the Standard Terms. Any such voluntary prepayment shall be in a minimum amount of $1,000,000, and in integral multiples of $1,000,000 (unless the outstanding Advances and accrued interest are being prepaid in full).

(i) The Borrower may elect to continue any Advance upon the expiration of the then current Interest Period with respect thereto by giving irrevocable notice to, and in form and substance satisfactory to, the Bank, in accordance with the applicable provisions in the definition of the term "Interest Period," of the length of the next Interest Period to be applicable to such Advance; provided that, no Advance may be continued as such at the end of the applicable Interest Period (i) when any Event of Default has occurred and is continuing, (ii) if the Advance has been outstanding for sixty days, or (iii) after the date that is one month prior to the next Renewal Determination Date; and provided, further, that if the Borrower shall fail to give any required notice as described above in this paragraph or if such continuation is not permitted pursuant to the preceding proviso, such Advance shall be converted automatically to an Applicable Rate as selected by Bank in its discretion pursuant to Section 2(a) of the Standard Terms on the last day of such then expiring Interest Period.

6. FINANCIAL COVENANTS; FINANCIAL REPORTING; OTHER COVENANTS

6.1 Financial Covenants. The Borrower shall comply with the following financial covenants based on the Borrower's consolidated financial statements at all times.

(a) Tangible Net Worth of not less than $500 million at all times. "Tangible Net Worth" is defined as the sum of the paid-up capital and retained earnings of Borrower less intangible assets.

(b) Leverage Ratio of not more than 2.00 to 1.00. "Leverage Ratio" means, as of any date of determination, the ratio of the consolidated indebtedness of the Borrower, calculated according to GAAP, on such date to the consolidated EBITDA of the Borrower for the most recently completed for consecutive fiscal quarters of the Borrower prior to such date.

(c) Interest Coverage Ratio of not less than 2.00 to 1.00. "Interest Coverage Ratio" means, as of any date of determination, the ratio of the consolidated EBITDA of the Borrower, calculated according to GAAP, for the most recently completed for consecutive fiscal quarters of the Borrower prior to such date, to the consolidated interest expense of the Borrower (including, without limitation, that portion attributable to capital leases in accordance with GAAP and capitalized interest), premium payments, debt discount, fees, charges, and related expenses with respect to all outstanding indebtedness of the Borrower on a consolidated basis including all commissions, discounts, and other fees and charges owed with respect to letters of credit, bank guarantees, and bankers' acceptances, in each case whether or not paid in cash during such period.

6.2 Financial and Management Statements; Covenant Compliance.

(a) The Borrower shall deliver to the Bank the audited annual consolidated financial statements of the Borrower, and of Banpu Public Company Limited (the "Parent"), as soon as available but in any event within 120 days after the end of the fiscal year of each such entity all in reasonable detail and prepared in accordance with GAAP for the Borrower and IFRS for the Parent, each audited and accompanied by a report and unqualified opinion of a certified public accounting firm of recognized standing reasonably acceptable to the Bank, which report and opinion shall be prepared in accordance with GAAP or IFRS, as applicable, and shall not be subject to any "going concern" or like qualification or exception or any qualification or exception as to the scope of such audit.

(b) The Borrower shall deliver to the Bank quarterly unaudited consolidated financial statements of the Borrower, and of the Parent, within 60 days after the end of the first three fiscal quarters of the Borrower.

(c) Concurrently with the delivery of the quarterly financial statements referred to in clause "b" above, and with the annual financial statement referred to in clause "a" above, a certification from an authorized, knowledgeable officer of the Borrower stating, in form and substance satisfactory to the Bank, that the Borrower is in compliance with the financial covenants set forth in clauses "a" and "b" of Section 6.1 above as of the end of the period covered by such financial statements, that all of the representations and warranties made by the Credit Parties in the Facility Documents are true and correct in all material respects as of the date of such certificate, and that no Event of Default, or any event or circumstance which, with the giving of notice and/or the lapse of time and/or upon your making any necessary certification and/or determination under this Facility Letter might constitute an Event of Default.

7. SANCTIONS

The Borrower is advised that there are specific sanctions and regulations imposed by the U.S. and other Government Authorities against certain countries, entities and individuals. Under these measures, the Bank may be unable to process or engage in transactions that involve a breach of such sanctions, and Governmental Authorities may require disclosure of information. The Bank is not liable for rejecting any presentation of documents that may cause a breach of those sanctions, or for any disclosures of any information as a result of actual or apparent breach of such sanctions. This Section applies notwithstanding any inconsistency with the current edition of the International Chamber of Commerce Uniform Customs and Practice for Documentary Credits. The Credit Partis have made certain representations to the Bank and made certain covenants in favor of the Bank with regard to sanctions and prohibited transactions in the Standard Terms.

8. CONDITIONS PRECEDENT

8.1 Conditions Precedent to the Availability of the Facility.

Application by the Borrower to utilize the Facility will not be considered unless the Borrower has complied with all the conditions of this Facility Letter and such other provisions as the Bank may determine from time to time, and, including without limitation receipt of the following in form and substance acceptable to the Bank:

(a) Duly executed and delivered Facility Documents from all parties thereto containing such terms and conditions as the Bank may in its absolute discretion require duly executed and duly stamped (where applicable) and in registrable form (if applicable);

(b) The last annual financial statement and quarterly financial statements under Section 6.2;

(c) A certificate of each Credit Party, certified by a duly authorized, knowledgeable officer of the applicable Credit Party (an "Authorized Officer"), dated the date hereof, attaching:

(1) Such Credit Party's Certificate of Incorporation (or equivalent) certified by the relevant authority of the jurisdiction of organization of the Credit Party;

(2) Such Credit Party's by-laws, operating agreement, or partnership agreement, as applicable, as in effect on the date hereof;

(3) Resolutions of the governing body of such Credit Party approving each Facility Document to which it is or is to be a party, and of all documents evidencing other necessary corporate, partnership, or limited liability company action;

(4) a certification that the names, titles, and signatures of the officers of the applicable Credit Party, each authorized to sign each Facility Document to which it is or is to be a party and other documents to be delivered hereunder and thereunder are true and correct;

(5) a good standing certificate from the state of each Credit Party's incorporation or formation, as applicable and from each other jurisdiction where such Credit Party should be in good standing under the laws of such jurisdiction, unless failure to be so qualified could not result in a material adverse effect to the Borrower, any other Credit Party, or the Bank; and

(6) attesting to the accuracy of the conditions set forth in the following clause "d".

(d) (i) the representations and warranties of the Credit Parties in any Facility Document to which they are a party, or which are contained in any document furnished at any time under or in connection herewith or therewith, are true and correct in all material respects on the date hereof, except (1) to the extent that such representations and warranties specifically refer to an earlier date, in which case they shall be true and correct in all material respects as of such earlier date, and (2) in the case of any representation and warranty qualified by materiality, they shall be true and correct in all respects; (ii) both before and after giving effect to the closing of the Facility and any Advance made or SBLC issued hereunder on such date, no Event of Default, or any other event which would, with the giving of notice, passing of time, or occurrence of some other event constitute an Event of Default, has occurred and continues; and (iii) no material adverse change in such Credit Party or any of their respective affiliates financial condition, operating environment, management or any other conditions which, in the opinion of the Bank, materially affect any Credit Party's ability to perform its respective obligations under the Facility Documents to which it are a party or effect the enforceability of any of the material provisions of the Facility Documents or any right or remedy of the Bank thereunder or under applicable Law (a "Material Adverse Change").

(e) At least five Business Days prior to the date hereof, Borrower shall deliver a Beneficial Ownership Certification covering the Credit Parties;

(f) Bank shall have received, at least five business days prior to the date hereof, all documentation and other information required by regulatory authorities under applicable "know your customer" and anti-money laundering rules and regulations, including, without limitation, the PATRIOT Act.

(g) Legal opinion by Baker & Hostetler LLP, as outside counsel to the Bank, under the laws of the State of New York and the state of each Credit Party's incorporation or formation, as applicable.

(h) All other information which the Bank or its counsel reasonably request.

8.2 Conditions Precedent to Each Utilization. Notwithstanding the Bank's discretion to refrain from making any Advances or issuing (or amending or extending) any SBLC, or allowing any other Utilizations, the Borrower shall comply with the following conditions precedent before receiving an Advance, the issuance (amendment or extension) of any SBLC, or any other Utilization:

(i) With respect to: (1) a request for an Advance, the Bank shall have received a Notice of Drawing, and (2) a request for an SBLC, the Bank shall have received a Notice of Letter of Credit Request, each in accordance with Section 5.3(c) hereof;

(ii) the representations and warranties of each Credit Party in any Facility Document to which it is a party, or which are contained in any document furnished at any time under or in connection herewith or therewith, are true and correct in all material respects on the date hereof, except (1) to the extent that such representations and warranties specifically refer to an earlier date, in which case they shall be true and correct in all material respects as of such earlier date, and (2) in the case of any representation and warranty qualified by materiality, they shall be true and correct in all respects; (ii) both before and after giving effect to the closing of the Facility and any Advance made or SBLC issued (or amended or extended) hereunder on such date, no Event of Default, or any other event which would, with the giving of notice, passing of time, or occurrence of some other event constitute an Event of Default, has occurred and continues; and (iii) no Material Adverse Change has occurred; and

(iii) Borrower shall provide any other documents required by the Bank from time to time and adhere to and abide by all other conditions precedent as the Bank may in its absolute discretion require.

9. GUARANTORS. Each Credit Party acknowledges and agrees that BKV Barnett LLC, BKV Operating LLC, and BKV Chelsea LLC are required to be a Guarantor. Each Credit Party represents and warrants as of the date hereof and as of each other date on which any representations and warranties under the Facility Documents are made, that each of the aforementioned subsidiaries is a Guarantor.

10. ACKNOWLEDGMENT OF UNCOMMITTED, DISCRETIONARY NATURE.

By its execution and delivery of this Facility Letter, each Credit Party acknowledges and agrees that you have reviewed, understand, and accept the terms of this Facility Letter (including the Standard Terms attached hereto as **Exhibit B**) and the other Facility Documents to which it is a party, and have had the opportunity for legal counsel of your choice to review and advise you on such terms. Each Credit Party is aware that the Facility is provided on an uncommitted, discretionary, demand basis, and that, in consequence of such, the Bank may, as provided in the Standard Terms, change the Applicable Rate, the LC Fee, and any applicable margin in its sole discretion including but without limitation on the occurrence of any Benchmark Replacement for any Utilizations based on the LIBO Rate.

The terms and provisions of this Facility Letter and any of the other Facility Documents shall not create any right in any Person other than the Credit Parties and the Bank and no other Person shall have the right to enforce or benefit from the terms hereof or thereof.

The Credit Parties agree that the terms and provisions of this Facility Letter and the other Facility Documents are confidential and may not be disclosed by the Credit Parties to any other Person (except as required by Applicable Law) other than the Parent, and the Credit Party's (and Parent's) accountants, attorneys and other advisors and only in connection with the transactions contemplated by this Facility Letter and on a confidential basis unless specifically approved by the Bank.

We trust that the above terms and conditions are acceptable to the Credit Parties. The Credit Parties shall signify acceptance by having their respective duly authorized signatories to sign and return to the Bank an original counterpart of this Facility Letter.

If you have any queries, please do not hesitate to contact Edwin Chan at (213) 624-1189 x123 or EdwinChan@ocbc.com who shall be pleased to assist you.

We are pleased to be of service to you and look forward to hearing from you in due course.

Yours faithfully,

Oversea-Chinese Banking Corporation Limited, Los Angeles Agency

Facility Letter (Uncommitted) (United States of America)

February 7, 2022

CONFIDENTIAL

BKV Corporation
1200 17th Street, Suite 2100
Denver, CO 80202

Attn: John Jimenez | Chief Financial Officer

Ladies and Gentlemen,

Standard Chartered Bank (the "**Bank**") is pleased to offer you the Facilities subject to the terms and conditions set out in this facility letter (this " **Facility Letter**"), the Global Master Credit Terms (Uncommitted) (" **GMCT (Uncommitted)**"), the Global Master Trade Terms (" **GMTT**"), the RCS and other relevant documents provided to you and the relevant application forms (the foregoing, collectively, the "**Agreement**").

The Facility Letter will lapse by close of business on the date falling 30 Banking Days after the date of this Facility Letter (or such other date acceptable to the Bank in its absolute discretion) and will have no further effect unless it is countersigned by you and received by the Bank before that time at:

Alex Wang
Standard Chartered Bank
1095 Avenue of the Americas
New York, New York 10036
Email: alexzy.wang@sc.com

Terms not defined in this Facility Letter are defined in the Agreement.

This Facility Letter may be executed in any number of counterparts and this has the same effect as if the signatures on the counterparts were on a single copy of this Facility Letter. Any reference to "executed" or "signature" relating to this Facility Letter shall be deemed to include any execution or signing of this Facility Letter made or delivered by electronic mail or other electronic means, each of which shall have the same legal effect, validity or enforceability as a manually executed signature.

1. Borrower(s)

1.1 The entities listed in column (1) of the table below will be referred to as the "Borrowers" and each a "Borrower".

1.2 Each Borrower will enter or accede to the Agreement in a manner satisfactory to the Bank.

(1)	(2)	(3)
Name of company registration number	**Jurisdiction of incorporation**	**Registered Address**
BKV Corporation (**"Designated Borrower"**)	Delaware	251 Little Falls Drive, Wilmington, New Castle County, Delaware, 19808
BKV Chaffee Corners, LLC	Delaware	251 Little Falls Drive, Wilmington, New Castle County, Delaware, 19808
BKV Chelsea, LLC	Delaware	251 Little Falls Drive, Wilmington, New Castle County, Delaware, 19808
BKV Operating, LLC	Delaware	251 Little Falls Drive, Wilmington, New Castle County, Delaware, 19808
BKV Barnett, LLC	Delaware	919 N Market St, STE 725, Wilmington, New Castle County, Delaware, 19801

2. Facilities

2.1 General Banking Facilities

(a) Designated Facility Limits and Designated Sub-Limits

In addition to any Designated Facility Limit allocated for a Borrower, the Bank may also offer any Borrower a Facility which has a Designated Sub-Limit. The sum of the utilised portions of all Designated Sub-Limits shall not exceed the relevant Designated Facility Limit. The total amount all Borrowers may draw down under all Facilities shall not exceed the Total Facility Limit.

(1)	(2)	(3)
Type(s) of Facility	**Designated Facility Limit(s)**	**Borrower(s) and Designated Sub-Limit(s), if applicable**
1. Commercial Standby Letters of Credit	USD25,000,000	Designated Borrower
2. Revolving Term Loans	USD15,000,000	Designated Borrower and Borrowers
Total Facility Limits	USD25,000,000.00	

(b) Designated Combined Facility Limits

The total aggregate amount all Borrowers may draw down for each of the combined Facilities specified in Column (1) below in aggregate shall not exceed the corresponding Designated Combined Facility Limit in Column (2) below.

(1)	(2)
Type(s) of Facility	**Designated Combined Facility Limit**
Facility 1 and 2	USD 25,000,000.00

3. Pricing and Conditions

Any reference to a Borrower under this section is a reference to each Borrower of the relevant Facility specified in Clause 2 *(Facilities)* of this Facility Letter.

Type(s) of Facility	**Terms and Conditions**
Commercial Standby Letter of Credit	· Purpose: To issue commercial standby letter of credit · Only available for Designated Borrower · Tenor: 3 years, any single expiration date of any commercial standby letter of credit not to extend beyond August 31, 2024 · USD 2,500 transfer fees · 1.5% per annum flat charge per commercial standby letter of credit · Evergreen Not Allowed · Facility limit is revolving
Revolving Term Loans	• Purpose: For general corporate purposes and/or working capital requirements • Available for all Borrowers • Currency: USD • Interest Rate: The rate of interest shall be the rate to be determined by the Bank and agreed upon by the Borrower at the time of each drawdown for each drawdown amount and/or on the date of changing interest for the relevant loan • Max tenor: 1 year • Interest Period: Subject to the drawdown tenor agreed for the applicable drawdown. • Available interest period selection: 1, 3, 6, 12 months, and applicable interest rate per SCBs calculation after Libor retires • Auto-renewal allowed subject to Bank's annual review and approval • Payment in full at the end of tenor with 2 business days cooling period before Borrower is able to redraw • Multiple drawdowns allowed, subject to a minimum of $1mn for each drawdown

4. Fees

Fee:	As in above Pricing and Conditions

5. Contact Details

5.1 Contact details for the Bank

Name and Title	**Address** **Telephone No.** **Fax No.** **Email**
Alex Wang Relationship Manager Global Subsidiaries	Address: Standard Chartered Bank 1095 Avenue of the Americas New York, New York 10036 Tel: 862-317-7620 Email: alexzy.wang@sc.com

5.2 Contact details for the Designated Borrower

Name and Title	**Address** **Telephone No.** **Fax No.** **Email**
John Jimenez | Chief Financial Officer	Address: 1200 17th Street, Suite 2100 Denver, CO 80202 Telephone No.: 720-375-9680 Cell No.: 336-213-4918 Email: johnjimenez@bkvcorp.com

5.3 Service of Process

The Designated Borrower and each of the Borrowers irrevocably consents to process being served in any action by mailing a copy thereof by registered or certified mail, postage prepaid, return receipt requested, or by an internationally recognized courier service to its address specified in Clause 5.2 above or its registered address, to the attention of John Jimenez, Chief Financial Officer.

The Designated Borrower and each of the Borrowers irrevocably waives, to the fullest extent possible, a claim of error by reason of any such service and agree that said service (i) shall be deemed in every respect effective service of process upon it in any such action and (ii) shall be taken and held to be valid personal service upon and personal delivery to it.

The foregoing provisions shall not limit the Bank's right to serve process in any other manner permitted by law or limit the Bank's right to bring any such action or to obtain execution on any judgment rendered in any such action in any other appropriate jurisdiction or in any other matter.

6. Joint Liability

6.1 Where there is more than one Borrower specified in this Facility Letter (unless otherwise agreed by the Bank and each Borrower), the following shall apply:

(a) Each Borrower is jointly and severally liable with the other Borrowers for all sums payable or owing to the Bank under any Facility (whether incurred by that Borrower or not). Each Borrower further agrees that the Bank is not required to make any reference to the other Borrowers in relation to the utilisation of any Facility by any Borrower.

(b) Each Borrower's obligations and liabilities will not be affected by (i) any time or indulgence granted to or composition with any other Borrower or any other person; (ii) any change, variation or termination of any agreement or arrangement with any other Borrower or any other person; (iii) winding up, dissolution, administration or re-organisation of any Borrower or any change on the status, function, control or ownership of any Borrower; (iv) any release of, or any neglect to obtain, perfect or enforce, any rights or securities against any Borrower or any other person; or (v) any unenforceability or invalidity of any obligations of any Borrower or any other person.

7. Definitions

7.1 In the Agreement, unless the context otherwise requires:

"Compounding the Rate"	means the compounding daily value of the RFR calculated in arrears for the relevant Interest Period (or the Lookback if one applies).

"Compounding RFR Index Rate"	means the percentage change in the relevant RFR index between the first day and the last day of the Lookback.
"Compounding the Balance"	means the daily value of the RFR on the principal balance and accrued but unpaid interest in respect of the relevant Facility and calculated daily for the relevant Interest Period (or the Lookback if one applies).
"Financial Statements"	means for each Obligor other than the Parent, its audited financial statement for its annual financial year.
"Interest Payment Date"	means such interest payment date as may be specified against the applicable Facility in Clause 3 (*Pricing and Conditions*) of this Facility Letter.
"Interest Period"	means such interest period as may be specified against the applicable Facility in Clause 3 (*Pricing and Conditions*) of this Facility Letter.
"Lock-Out"	means the interest rate applicable for each day in the Interest Period falling after the Lock-Out Date shall be fixed at the daily value of the RFR on the Lock-Out Date.
"Lock-Out Date"	means the date falling on the number of RFR Banking Days prior to the Interest Payment Date as stated as Lock-Out in Clause 3 (*Pricing and Conditions*) in respect of the relevant Facility.
"Lookback"	means, in respect of an Interest Period, the period which commences on and includes "x" RFR Banking Days prior to the beginning of the relevant Interest Period and which ends on and includes "x" RFR Banking Days prior to the end date of such Interest Period, where "x" is the number of RFR Banking Days as stated as the Lookback in Clause 3 (*Pricing and Conditions*).
"Observation Shift"	means the applicable rate used for calculating Interest is calculated and weighted by reference to the Lookback rather than the Interest Period.
"Parent"	means Banpu Public Company Limited
"**RFR Banking Day**"	means a day (other than a Saturday or Sunday) on which banks are open for general business in the principal financial centre of the country of the RFR currency.
"RFR IRS Term Rate"	means for (i) any relevant currency and (ii) the applicable corresponding tenor, the market quoted interest rate swap or overnight index swap based on the relevant risk-free reference rate determined by the Bank.
"Simple Interest RFR Rate"	means the daily simple interest value of the RFR calculated in arrears for the relevant Interest Period (or the Lookback if one applies).

8. Additional Conditions

8.1 Additional Requirements
N/A

9. GMCT Country Supplement

9.1 Clauses to be added, deleted or amended in the GMCT (Uncommitted)

Existing definitions in Clause (*Definitions*) of GMCT (Uncommitted) shall be amended as follows, and new definitions which appear below shall be added to Clause (*Definitions*) of GMCT (Uncommitted):

DEFINITIONS

"**Banking Day**" means a day (other than a Saturday or Sunday) on which banks are open for general business in New York City.

"**Default Rate**" means 2% per annum higher than the rate of interest applicable to the amount payable which would have been applied to the amount had such amount not become due, or such rate as advised by the Bank to the Borrower from time to time.

"**Jurisdiction**" means the State of New York.

"**Spot Rate**" means at any date the Bank's spot rate of exchange for the purchase of the relevant currency in the New York foreign exchange market at around 11:00 am New York time using the Base Currency for the relevant Facility.

The following clauses shall be added to and form part of Clause (*Representations and warranties*) of the GMCT (Uncommitted):

Margin Regulations. No Borrower is engaged, whether directly or incidentally or as an important part of its activities, in the business of purchasing or carrying "margin stock" (as such term is defined in Regulation T, U or X of the Board of Governors of the Federal Reserve System), or of extending credit to others for such purpose and less than 25% of each Borrower's assets constitutes margin stock. No proceeds of any extension of credit will be used for the purpose, whether immediate, incidental or ultimate, of purchasing or carrying any such margin stock.

Investment Company Act. The Borrowers are not, and are not "controlled by", an "investment company" as defined in, or subject to regulation under, the Investment Company Act of 1940.

Clause (*Provision of other services*) of the GMCT (Uncommitted) shall be deleted in its entirety.

Clause (*Governing law and jurisdiction*) of GMCT (Uncommitted) shall be deleted and replaced with the following :

The Agreement and all non-contractual obligations arising in any way out of or in connection with the Agreement are governed by the laws of the Jurisdiction and each Borrower irrevocably submits to the non-exclusive jurisdiction of any New York State or federal court of the United States of America sitting in New York County and waives to the fullest extent permitted by law any objection or claim that such Borrower has or may have that the venue of that action or proceeding in any such court or that such action or proceeding was brought in an inconvenient court and agrees not to plead or claim this.

The following Clause shall be added to and form part of Clause (*Governing law and jurisdiction*) of the GMCT (Uncommitted):

Waiver of Trial by Jury

EACH PARTY TO THIS AGREEMENT HERETO HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY LEGAL PROCEEDING DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THIS AGREEMENT OR THE TRANSACTIONS CONTEMPLATED HEREBY (WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY). EACH PARTY TO THIS AGREEMENT HERETO (A) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PERSON HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PERSON WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER AND (B) ACKNOWLEDGES THAT IT AND THE OTHER PARTIES TO THIS AGREEMENT HERETO HAVE BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION.

The following clause shall be added to the GMCT (Uncommitted):

USA PATRIOT Act Notice. Pursuant to the requirements of the USA PATRIOT Act (Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001, the "Act"), the Bank is required to obtain, verify and record information that identifies each Borrower, which information includes such Borrower's name and address and other information that will allow the Bank to identify such Borrower in accordance with the Act.

10. GMTT Country Supplement

10.1 Clauses to be added, deleted or amended in the GMTT
None

Exhibit 10.29

Execution Version

FIRST AMENDMENT TO CREDIT AGREEMENT

THIS FIRST AMENDMENT TO CREDIT AGREEMENT (this "Amendment"), dated as of November 11, 2022, is entered into among BKV CORPORATION, a Delaware corporation (the "Borrower"), the LENDERS party hereto and BANGKOK BANK PUBLIC COMPANY LIMITED, NEW YORK BRANCH, as administrative agent (in such capacity, the "Administrative Agent").

RECITALS:

WHEREAS, reference is made to that certain Credit Agreement, dated as of June 16, 2022 among the Borrower, the Lenders, and the Administrative Agent (as in effect immediately prior to the execution hereof, the "Existing Credit Agreement", and as further amended, restated, supplemented or otherwise modified from time to time, including by this Amendment, the "Credit Agreement"), pursuant to which the Lenders have made loans to the Borrower;

WHEREAS, the Borrower has requested that the Lenders agree to amend certain provisions of the Existing Credit Agreement and, subject to the terms and conditions set forth in this Amendment, the Lenders have agreed to amend the Existing Credit Agreement as hereinafter set forth;

WHEREAS, pursuant to Section 9.02(b) of the Existing Credit Agreement, the Existing Credit Agreement may be amended or modified pursuant to an agreement in writing entered into by the Borrower, the Required Lenders (with a copy to the Administrative Agent), or the Borrower and the Administrative Agent with consent of the Required Lenders.

WHEREAS, capitalized terms not otherwise defined herein shall have the meanings set forth in the Existing Credit Agreement.

NOW THEREFORE, in consideration of the premises and the mutual covenants herein contained, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

SECTION 1. Amendment of the Existing Credit Agreement. Subject to the terms and conditions of this Amendment (including the satisfaction or waiver of the conditions precedent set forth in Section 2), the Existing Credit Agreement is hereby amended as follows:

(a) Section 1.01 of the Existing Credit Agreement is hereby amended by amending and restating, in its entirety, subsections (b), (c) and (e) of the definition of "Payment Conditions" as follows:

"(b) (i) any Restricted Payment or Restricted Debt Payment made during Fiscal Year 2022 shall be made on a date that is before November 1, 2022 and (ii) any Restricted Payment or Restricted Debt Payment made in any subsequent Fiscal Year shall be made on a date that is during a Specified Amount Payment Period;"

"(c) after giving pro forma effect to such Restricted Payment or Restricted Debt Payment, the aggregate amount of Available Cash of the Borrower and the Subsidiaries is greater than $100,000,000;"

"(e) at the time of such Restricted Payment or Restricted Debt Payment, the Adjusted Stockholders' Equity of the Borrower is not less than $800,000,000 (as reflected in the financial statements most recently delivered pursuant to Section 5.01(a) or 5.01(b)); and"

(b) Section 1.01 of the Existing Credit Agreement is hereby amended by amending and restating, in its entirety, subsection (c) of the definition of "Specified Amount" as follows:

"(c) the aggregate amount of Restricted Payments and Restricted Debt Payments made in reliance on Section 6.08(d) and Section 6.18(a)(ii), respectively, during the period starting on the first day of the Test Period most recently ended for which financial statements of the Borrower have been delivered pursuant to Section 5.01(a) or 5.01(b) and ending on such date."

(c) Section 1.01 of the Existing Credit Agreement is hereby amended by amending and restating, in its entirety, the definition of "Specified Amount Payment Period" as follows:

"" Specified Amount Payment Period" means (a) prior to the consummation of a Qualified IPO, each period beginning on the date that financial statements are delivered pursuant to Section 5.01(b) with respect to the Fiscal Quarter ending June 30 of any Fiscal Year and ending on the date that is 90 days after June 30 of such Fiscal Year and (b) after the consummation of a Qualified IPO, each period beginning on the date financial statements for any Fiscal Year or Fiscal Quarter are delivered under either Section 5.01(a) or 5.01(b), respectively (beginning on the first such date after the consummation of a Qualified IPO), and ending on the date that is forty-five (45) days after the date that the Annual Report on Form 10-K (in the case of financial statements delivered under Section 5.01(a)) or the Quarterly Report on Form 10-Q (in the case of financial statements delivered under Section 5.01(b)) of the Borrower for the applicable period covered by such financial statements is required to be filed under the rules and regulations of the SEC."

(d) Section 1.01 of the Existing Credit Agreement is hereby amended by deleting in its entirety the definition of "Specified Amount Utilization".

(e) Section 6.08(d) of the Existing Credit Agreement is hereby amended by inserting "declare and" immediately between the phrases "the Borrower may" and "make Restricted Payments".

(f) Section 6.18(a) of the Existing Credit Agreement is hereby amended by amending and restating in its entirety as follows:

"(a) The Borrower shall not, nor shall the Borrower permit any of its Subsidiaries to,

(x) prepay, redeem, purchase, defease or otherwise satisfy prior to the scheduled maturity thereof in any manner any Subordinated Shareholder Loan, (y) make any cash payment of interest on any Subordinated Shareholder Loans (clauses (x) and (y), each a "Restricted Debt Payment"), or (z) make any payment in violation of any subordination terms of any Subordinated Shareholder Loans, except:

(i) the refinancing thereof with the net proceeds of, or in exchange for, any Indebtedness permitted to be incurred pursuant to Section 6.01;

(ii) any Restricted Debt Payments in an amount not to exceed the Specified Amount so long as the Payment Conditions are met; and

(iii) within 15 days after the receipt by the Borrower of proceeds from a Qualified IPO, Restricted Debt Payments in an aggregate amount not to exceed the lesser of (A) 30% of the gross proceeds from such Qualified IPO and (B) $90,000,000, so long as the Payment Conditions (other than clause (b) and (d) thereof) are satisfied as of the date of such Restricted Debt Payments."

(g) Clause (x) of Section 9.02(b) of the Existing Credit Agreement is hereby amended by deleting the "," immediately after the parenthetical "(with a copy to the Administrative Agent)" and inserting an "or" immediately after such parenthetical.

SECTION 2. First Amendment Effective Date; Conditions Precedent. This Amendment shall become effective as of the date on which the following conditions have been satisfied or waived ("First Amendment Effective Date"):

(a) the Administrative Agent shall have received a counterpart of this Amendment executed by the Borrower, the Administrative Agent and the Required Lenders;

(b) the Administrative Agent shall have received all fees and other amounts due and payable on or prior to the First Amendment Effective Date;

(c) the Administrative Agent shall have received a certificate from the secretary or a Responsible Officer of the Borrower certifying that the conditions specified in Sections 2(d), (e) and (f) have been satisfied;

(d) the representations and warranties contained in Section 3 hereof shall be true and correct;

(e) at the time of and immediately after giving effect to this Amendment, no Default or Event of Default has occurred and is continuing; and

(f) since December 31, 2021, there has not occurred any event, development or circumstance that has had, or could reasonably be expected to have, a Material Adverse Effect.

SECTION 3. Representations and Warranties of the Borrower. As of the date hereof, the Borrower, for and on behalf of the Loan Parties, represents and warrants to the Administrative Agent and each Lender that, in each case, immediately after giving effect to this Amendment:

(a) the Borrower and each of the other Loan Parties are duly organized, validly existing and in good standing under the laws of the jurisdiction of its organization and the execution, delivery and performance by the Borrower and each of the other Loan Parties of this Amendment have been duly authorized by all necessary corporate, limited liability company or partnership action and do not and will not:

(i) violate any applicable law or regulation or the limited liability company agreements, charter, by-laws or other Organizational Documents of any Loan Party or any order of any Governmental Authority, which violation could reasonably be expected to have a Material Adverse Effect;

(ii) violate or result in a default under any indenture or other agreement regarding Material Indebtedness binding upon any Loan Party or any of their respective Properties, or give rise to a right thereunder to require any payment to be made by any Loan Party; or

(iii) result in the creation or imposition of any Lien on any Property of any Loan Party;

(b) the Borrower and each of the other Loan Parties have the power and authority to execute, deliver and perform its obligations under this Amendment, the Credit Agreement and the other Loan Documents;

(c) the representations and warranties of the Borrower and the other Loan Parties set forth in the Credit Agreement and the other Loan Documents are true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) on and as of the First Amendment Effective Date (although any representations and warranties which expressly relate to an earlier date shall be required only to be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) as of the specified earlier date).

SECTION 4. Effect of Amendment. From and after the First Amendment Effective Date, each reference in the Credit Agreement to "this Agreement", "hereof", or "hereunder" or words of like import, and all references to "the Credit Agreement" in the Loan Documents and any and all other agreements, instruments, documents, notes, certificates, guaranties and other writings of every kind and nature shall be deemed to mean the Credit Agreement as amended by this Amendment. This Amendment shall constitute a Loan Document for all purposes of the Credit Agreement and the other Loan Documents.

SECTION 5. Confirmation of Other Loan Documents. Except as expressly contemplated hereby, the terms, provisions, conditions and covenants of the Credit Agreement, as amended by this Amendment, and the other Loan Documents remain in full force and effect and are hereby ratified and confirmed, and the execution, delivery and performance of this Amendment shall not, except as expressly set forth in this Amendment, operate as a waiver of, consent to or amendment of any term, provision, condition or covenant thereof. Without limiting the generality of the foregoing, each Loan Party hereby (i) agrees that, except to the extent expressly provided in this Amendment, this Amendment and the transactions contemplated hereby shall not limit or diminish the obligations of the Loan Parties, as applicable, arising under or pursuant to the Loan Documents and (ii) confirms, ratifies and reaffirms all of the payment and performance obligations of each Loan Party, as applicable, contingent or otherwise, under the Loan Documents. Without limiting the generality of the foregoing, each Loan Party hereby confirms and agrees that except pursuant hereto or as expressly contemplated or amended hereby, nothing contained herein shall be deemed (a) to constitute a waiver of compliance or consent to noncompliance by the Loan Parties with respect to any term, provision, condition or covenant of the Credit Agreement or any other Loan Documents, including, without limitation, those made the subject hereof, (b) to prejudice any right or remedy that the Administrative Agent or any Lender may now have or may have in the future under or in connection with the Credit Agreement or any other Loan Documents or (c) to affect the right of the Administrative Agent or Lenders to demand strict compliance by the Loan Parties with all terms and conditions of the Credit Agreement (as amended hereby) and/or the other Loan Documents.

SECTION 6. Choice of Law. This Amendment and any dispute, claim or controversy arising out of or relating to this Amendment (whether arising in contract, tort or otherwise) shall be construed in accordance with and governed by the law of the State of New York.

SECTION 7. Severability. Any provision of this Amendment held to be invalid, illegal or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such invalidity, illegality or unenforceability without affecting the validity, legality and enforceability of the remaining provisions hereof; and the invalidity of a particular provision in a particular jurisdiction shall not invalidate such provision in any other jurisdiction.

SECTION 8. Counterparts; Integration; Effectiveness. The terms, provisions and conditions of Sections 9.09(b) through (d) and Section 9.10 of the Credit Agreement are hereby incorporated *mutatis mutandis*.

SECTION 9. Headings. Section headings in this Amendment used herein are for convenience of reference only, are not part of this Amendment and shall not affect the construction of, or be taken into consideration in interpreting, this Amendment.

[*Remainder of page intentionally left blank; signature pages follow*]

IN WITNESS WHEREOF, the parties hereto have duly executed this First Amendment to Credit Agreement to be effective as of the First Amendment Effective Date.

Execution Version

FIRST AMENDMENT TO REVOLVING CREDIT AGREEMENT

THIS FIRST AMENDMENT TO REVOLVING CREDIT AGREEMENT (this " Amendment"), dated as of November 11, 2022, is entered into among BKV CORPORATION, a Delaware corporation (the "Borrower"), the LENDERS party hereto and BANGKOK BANK PUBLIC COMPANY LIMITED, NEW YORK BRANCH, as administrative agent (in such capacity, the "Administrative Agent").

RECITALS:

WHEREAS, reference is made to that certain Revolving Credit Agreement, dated as of August 24, 2022 among the Borrower, the Lenders, and the Administrative Agent (as in effect immediately prior to the execution hereof, the "Existing Credit Agreement", and as further amended, restated, supplemented or otherwise modified from time to time, including by this Amendment, the "Credit Agreement"), pursuant to which the Lenders have made loans to the Borrower;

WHEREAS, the Borrower has requested that the Lenders agree to amend certain provisions of the Existing Credit Agreement and, subject to the terms and conditions set forth in this Amendment, the Lenders have agreed to amend the Existing Credit Agreement as hereinafter set forth;

WHEREAS, pursuant to Section 9.02(b) of the Existing Credit Agreement, the Existing Credit Agreement may be amended or modified pursuant to an agreement in writing entered into by the Borrower, the Required Lenders (with a copy to the Administrative Agent), or the Borrower and the Administrative Agent with consent of the Required Lenders.

WHEREAS, capitalized terms not otherwise defined herein shall have the meanings set forth in the Existing Credit Agreement.

NOW THEREFORE, in consideration of the premises and the mutual covenants herein contained, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

SECTION 1. Amendment of the Existing Credit Agreement. Subject to the terms and conditions of this Amendment (including the satisfaction or waiver of the conditions precedent set forth in Section 2), the Existing Credit Agreement is hereby amended as follows:

(a) Section 1.01 of the Existing Credit Agreement is hereby amended by amending and restating, in its entirety, subsections (b), (c) and (e) of the definition of "Payment Conditions" as follows:

"(b) (i) any Restricted Payment or Restricted Debt Payment made during Fiscal Year 2022 shall be made on a date that is before November 1, 2022 and (ii) any Restricted Payment or Restricted Debt Payment made in any subsequent Fiscal Year shall be made on a date that is during a Specified Amount Payment Period;"

"(c) after giving pro forma effect to such Restricted Payment or Restricted Debt Payment, the aggregate amount of Available Cash of the Borrower and the Subsidiaries is greater than $100,000,000;"

"(e) at the time of such Restricted Payment or Restricted Debt Payment, the Adjusted Stockholders' Equity of the Borrower is not less than $800,000,000 (as reflected in the financial statements most recently delivered pursuant to Section 5.01(a) or 5.01(b)); and"

(b) Section 1.01 of the Existing Credit Agreement is hereby amended by amending and restating, in its entirety, subsection (c) of the definition of "Specified Amount" as follows:

"(c) the aggregate amount of Restricted Payments and Restricted Debt Payments made in reliance on Section 6.08(d) and Section 6.18(a)(ii), respectively, during the period starting on the first day of the Test Period most recently ended for which financial statements of the Borrower have been delivered pursuant to Section 5.01(a) or 5.01(b) and ending on such date."

(c) Section 1.01 of the Existing Credit Agreement is hereby amended by amending and restating, in its entirety, the definition of "Specified Amount Payment Period" as follows:

"" Specified Amount Payment Period" means (a) prior to the consummation of a Qualified IPO, each period beginning on the date that financial statements are delivered pursuant to Section 5.01(b) with respect to the Fiscal Quarter ending June 30 of any Fiscal Year and ending on the date that is 90 days after June 30 of such Fiscal Year and (b) after the consummation of a Qualified IPO, each period beginning on the date financial statements for any Fiscal Year or Fiscal Quarter are delivered under either Section 5.01(a) or 5.01(b), respectively (beginning on the first such date after the consummation of a Qualified IPO), and ending on the date that is forty-five (45) days after the date that the Annual Report on Form 10-K (in the case of financial statements delivered under Section 5.01(a)) or the Quarterly Report on Form 10-Q (in the case of financial statements delivered under Section 5.01(b)) of the Borrower for the applicable period covered by such financial statements is required to be filed under the rules and regulations of the SEC."

(d) Section 1.01 of the Existing Credit Agreement is hereby amended by deleting in its entirety the definition of "Specified Amount Utilization".

(e) Section 6.08(d) of the Existing Credit Agreement is hereby amended by inserting "declare and" immediately between the phrases "the Borrower may" and "make Restricted Payments".

(f) Section 6.18(a) of the Existing Credit Agreement is hereby amended by amending and restating in its entirety as follows:

"(a) The Borrower shall not, nor shall the Borrower permit any of its Subsidiaries to, (x) prepay, redeem, purchase, defease or otherwise satisfy prior to the scheduled maturity thereof in any manner any Subordinated Shareholder Loan, (y) make any cash payment of interest on any Subordinated Shareholder Loans (clauses (x) and (y), each a "Restricted Debt Payment"), or (z) make any payment in violation of any subordination terms of any Subordinated Shareholder Loans, except:

(i) the refinancing thereof with the net proceeds of, or in exchange for, any Indebtedness permitted to be incurred pursuant to Section 6.01;

(ii) any Restricted Debt Payments in an amount not to exceed the Specified Amount so long as the Payment Conditions are met; and

(iii) within 15 days after the receipt by the Borrower of proceeds from a Qualified IPO, Restricted Debt Payments in an aggregate amount not to exceed the lesser of (A) 30% of the gross proceeds from such Qualified IPO and (B) $90,000,000, so long as the Payment Conditions (other than clause (b) and (d) thereof) are satisfied as of the date of such Restricted Debt Payments."

(g) Clause (x) of Section 9.02(b) of the Existing Credit Agreement is hereby amended by deleting the "," immediately after the parenthetical "(with a copy to the Administrative Agent)" and inserting an "or" immediately after such parenthetical.

SECTION 2. First Amendment Effective Date; Conditions Precedent. This Amendment shall become effective as of the date on which the following conditions have been satisfied or waived ("First Amendment Effective Date"):

(a) the Administrative Agent shall have received a counterpart of this Amendment executed by the Borrower, the Administrative Agent and the Lenders;

(b) the Administrative Agent shall have received all fees and other amounts due and payable on or prior to the First Amendment Effective Date;

(c) the Administrative Agent shall have received a certificate from the secretary or a Responsible Officer of the Borrower certifying that the conditions specified in Sections 2(d), (e) and (f) have been satisfied;

(d) the representations and warranties contained in Section 3 hereof shall be true and correct;

(e) at the time of and immediately after giving effect to this Amendment, no Default or Event of Default has occurred and is continuing; and

(f) since December 31, 2021, there has not occurred any event, development or circumstance that has had, or could reasonably be expected to have, a Material Adverse Effect.

SECTION 3. Representations and Warranties of the Borrower. As of the date hereof, the Borrower, for and on behalf of the Loan Parties, represents and warrants to the Administrative Agent and each Lender that, in each case, immediately after giving effect to this Amendment:

(a) the Borrower and each of the other Loan Parties are duly organized, validly existing and in good standing under the laws of the jurisdiction of its organization and the execution, delivery and performance by the Borrower and each of the other Loan Parties of this Amendment have been duly authorized by all necessary corporate, limited liability company or partnership action and do not and will not:

(i) violate any applicable law or regulation or the limited liability company agreements, charter, by-laws or other Organizational Documents of any Loan Party or any order of any Governmental Authority, which violation could reasonably be expected to have a Material Adverse Effect;

(ii) violate or result in a default under any indenture or other agreement regarding Material Indebtedness binding upon any Loan Party or any of their respective Properties, or give rise to a right thereunder to require any payment to be made by any Loan Party; or

(iii) result in the creation or imposition of any Lien on any Property of any Loan Party;

(b) the Borrower and each of the other Loan Parties have the power and authority to execute, deliver and perform its obligations under this Amendment, the Credit Agreement and the other Loan Documents;

(c) the representations and warranties of the Borrower and the other Loan Parties set forth in the Credit Agreement and the other Loan Documents are true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) on and as of the First Amendment Effective Date (although any representations and warranties which expressly relate to an earlier date shall be required only to be true and correct in all material respects (or, with respect to any representation or warranty qualified by materiality or a material adverse change or material adverse effect standard, in all respects) as of the specified earlier date).

SECTION 4. Effect of Amendment. From and after the First Amendment Effective Date, each reference in the Credit Agreement to "this Agreement", "hereof", or "hereunder" or words of like import, and all references to "the Credit Agreement" in the Loan Documents and any and all other agreements, instruments, documents, notes, certificates, guaranties and other writings of every kind and nature shall be deemed to mean the Credit Agreement as amended by this Amendment. This Amendment shall constitute a Loan Document for all purposes of the Credit Agreement and the other Loan Documents.

SECTION 5. Confirmation of Other Loan Documents. Except as expressly contemplated hereby, the terms, provisions, conditions and covenants of

the Credit Agreement, as amended by this Amendment, and the other Loan Documents remain in full force and effect and are hereby ratified and confirmed, and the execution, delivery and performance of this Amendment shall not, except as expressly set forth in this Amendment, operate as a waiver of, consent to or amendment of any term, provision, condition or covenant thereof. Without limiting the generality of the foregoing, each Loan Party hereby (i) agrees that, except to the extent expressly provided in this Amendment, this Amendment and the transactions contemplated hereby shall not limit or diminish the obligations of the Loan Parties, as applicable, arising under or pursuant to the Loan Documents and (ii) confirms, ratifies and reaffirms all of the payment and performance obligations of each Loan Party, as applicable, contingent or otherwise, under the Loan Documents. Without limiting the generality of the foregoing, each Loan Party hereby confirms and agrees that except pursuant hereto or as expressly contemplated or amended hereby, nothing contained herein shall be deemed (a) to constitute a waiver of compliance or consent to noncompliance by the Loan Parties with respect to any term, provision, condition or covenant of the Credit Agreement or any other Loan Documents, including, without limitation, those made the subject hereof, (b) to prejudice any right or remedy that the Administrative Agent or any Lender may now have or may have in the future under or in connection with the Credit Agreement or any other Loan Documents or (c) to affect the right of the Administrative Agent or Lenders to demand strict compliance by the Loan Parties with all terms and conditions of the Credit Agreement (as amended hereby) and/or the other Loan Documents.

SECTION 6. Choice of Law. This Amendment and any dispute, claim or controversy arising out of or relating to this Amendment (whether arising in contract, tort or otherwise) shall be construed in accordance with and governed by the law of the State of New York.

SECTION 7. Severability. Any provision of this Amendment held to be invalid, illegal or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such invalidity, illegality or unenforceability without affecting the validity, legality and enforceability of the remaining provisions hereof; and the invalidity of a particular provision in a particular jurisdiction shall not invalidate such provision in any other jurisdiction.

SECTION 8. Counterparts; Integration; Effectiveness. The terms, provisions and conditions of Sections 9.09(b) through (d) and Section 9.10 of the Credit Agreement are hereby incorporated *mutatis mutandis*.

SECTION 9. Headings. Section headings in this Amendment used herein are for convenience of reference only, are not part of this Amendment and shall not affect the construction of, or be taken into consideration in interpreting, this Amendment.

[*Remainder of page intentionally left blank; signature pages follow*]

IN WITNESS WHEREOF, the parties hereto have duly executed this First Amendment to Revolving Credit Agreement to be effective as of the First Amendment Effective Date.

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared a revised report presenting our results for the estimate of the proved reserves, future production, and income attributable to certain leasehold and royalty interests of Kalnin Ventures, LLC (Kalnin) referred to as the Barnett Assets as of December 31, 2020. This revised report supersedes our prior report dated January 19, 2021 as of December 31, 2020, in order to provide additional required public disclosures for filings made with the SEC. The reserves and income data, as well as the underlying assumptions, in this report are the same as those included in our prior report; however this report was prepared for public disclosure by BKV Corp. (BKV) in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations. The subject properties are located in the state of Texas. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations).

The properties referred to as the Barnett Assets evaluated by Ryder Scott account for a portion of Kalnin's total net proved reserves as of December 31, 2020. Based on information provided by Kalnin, the third party estimate conducted by Ryder Scott addresses 100 percent of the total proved developed net liquid hydrocarbon reserves and 78 percent of the total proved developed net gas reserves of Kalnin.

The estimated reserves and future net income amounts presented in this report, as of December 31, 2020 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold and Royalty Interests of
Kalnin Ventures, LLC
Barnett Assets
As of December 31, 2020

	Proved		
	Developed		Total
	Producing	Non-Producing[1]	Proved
Net Reserves			
Oil/Condensate – Mbbl	723	0	723
Plant Products – Mbbl	107,234	0	107,234
Gas – MMcf	1,480,707	0	1,480,707
Income Data ($M)			
Future Gross Revenue	$ 3,895,477	$ 0	$ 3,895,477
Deductions	2,927,668	3,214	2,930,882
Future Net Income (FNI)	$ 967,809	$ (3,214)	$ 964,595
Discounted FNI @ 10%	$ 464,232	$ (2,933)	$ 461,299

(1) Negative values for Future Net Income and Discounted FNI are due to abandonment liability.

Liquid hydrocarbons are expressed in standard 42 U.S. gallon barrels and shown herein as thousands of barrels (Mbbl). All gas volumes are expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas volumes are located. All gas reserves volumes are reported on an “as sold” basis. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of Kalnin. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes. The deductions incorporate the normal direct costs of operating the wells, ad valorem taxes, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for approximately 61 percent of the total future gross revenue from proved reserves and liquid hydrocarbon reserves account for the remaining 39 percent of total future gross revenue from the proved reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

Discount Rate Percent	Discounted Future Net Income ($M) As of December 31, 2020 Total Proved
6	$ 592,818
9	$ 488,931
12	$ 413,879
15	$ 357,828

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved reserves included herein conform to the definition as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The negative values of future net income and discounted FNI shown in the proved developed non-producing category comprise shut-in wells with only an abandonment liability.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At Kalnin's request, this report addresses only the proved reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are "those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward." The proved reserves included herein were estimated using deterministic methods. The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a "high degree of confidence that the quantities will be recovered."

Proved reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that "as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease." Moreover, estimates of proved reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

Kalnin's operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of proved reserves actually recovered and amounts of proved income actually received to differ significantly from the estimated quantities.

The estimates of proved reserves presented herein were based upon a detailed study of the properties in which Kalnin owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission's Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved reserves attributable to the producing wells and/or reservoirs included herein were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data available through August or October 2020, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data used in these analyses were furnished to Ryder Scott by Kalnin or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically recoverable proved oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Kalnin has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved production and income, we have relied upon data furnished by Kalnin with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, ad valorem and production taxes, abandonment costs after salvage, product prices based on the SEC regulations, and adjustments or differentials to product prices. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by Kalnin. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The future production rates from wells currently on production may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished the above mentioned average prices in effect on December 31, 2020. These initial SEC hydrocarbon prices were determined using the 12-month average first-day-of-the-month benchmark prices appropriate to the geographic area where the hydrocarbons are sold. These benchmark prices are prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark prices" and "price reference" used for the geographic area included in the report.

Product prices which were actually used for each property reflect adjustments for gravity, quality, local conditions, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by Kalnin and accepted as factual data.

In addition, the table below summarizes the net volume weighted benchmark prices adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in the report.

Geographic Area	Product	Price Reference	Average Benchmark Prices	Average Realized Prices
North America				
United States	Oil/Condensate	WTI Cushing	$39.57/bbl	$29.07/bbl
	NGLs	Mont Belvieu	$18.70/bbl	$14.39/bbl
	Gas	Henry Hub	$1.985/MMBTU	$1.64/Mcf

The effects of derivative instruments designated as price hedges of oil and gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by Kalnin and are based on the operating expense reports of Kalnin and include only those costs directly applicable to the leases or wells. Certain gathering and transportation costs are also included as operating costs. The operating costs furnished by Kalnin were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the operating cost data used by Kalnin. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by Kalnin were accepted without independent verification.

Current costs used by Kalnin were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists have received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to Kalnin. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analysis conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at www.ryderscott.com/Experience/Employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2020 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG and regulatory issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year, including one course in which he was the primary instructor, covering topics such as reserves evaluation methods and evaluation software, RTA/PTA, ethics, regulatory issues, greenhouse gas management, geothermal energy, and more.

Based on his educational background, professional training and more than 15 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of February 19, 2007.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

PROVED RESERVES (SEC DEFINITIONS) CONTINUED

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

October 21, 2022

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared a revised report presenting our results for the estimate of the proved reserves, future production, and income attributable to certain leasehold interests of Kalnin Ventures, LLC (Kalnin) referred to as the Chaffee Corners Assets as of December 31, 2020. This revised report supersedes our prior report dated January 19, 2021 as of December 31, 2020, in order to provide additional required public disclosures for filings made with the SEC. The reserves and income data, as well as the underlying assumptions, in this report are the same as those included in our prior report; however this report was prepared for public disclosure by BKV Corp. (BKV) in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations).

The properties referred to as the Chaffee Corners Assets evaluated by Ryder Scott account for a portion of Kalnin's total net proved reserves as of December 31, 2020. Based on information provided by Kalnin, the third party estimate conducted by Ryder Scott addresses 0 percent of the total proved developed net liquid hydrocarbon reserves, 3 percent of the total proved developed net gas reserves, 0 percent of the total proved undeveloped net liquid hydrocarbon reserves, and 10 percent of the total proved undeveloped net gas reserves of Kalnin.

The estimated reserves and future net income amounts presented in this report, as of December 31, 2020 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
Kalnin Ventures, LLC
Chaffee Corners Assets
As of December 31, 2020

	Proved		
	Developed Producing	Undeveloped	Total Proved
Net Reserves			
Gas – MMcf	61,380	9,044	70,424
Income Data ($M)			
Future Gross Revenue	$ 56,803	$ 8,364	$ 65,167
Deductions	27,905	4,989	32,894
Future Net Income (FNI)	$ 28,898	$ 3,375	$ 32,273
Discounted FNI @ 10%	$ 18,406	$ 144	$ 18,550

All gas volumes are reported on an “as sold basis” expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of Kalnin. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

Discount Rate Percent	Discounted Future Net Income As of December 31, 2020 ($M) Total Proved
6	$ 22,694
9	$ 19,460
12	$ 16,935
15	$ 14,931

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved reserves included herein conform to the definition as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At Kalnin's request, this report addresses only the proved reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are "those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward." The proved reserves included herein were estimated using deterministic methods. The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a "high degree of confidence that the quantities will be recovered."

Proved reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that "as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease." Moreover, estimates of proved reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

Kalnin's operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of proved reserves actually recovered and amounts of proved income actually received to differ significantly from the estimated quantities.

The estimates of proved reserves presented herein were based upon a detailed study of the properties in which Kalnin owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission's Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved reserves for the properties included herein were estimated by performance methods or analogy. In general, the producing reserves were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data available through October 2020 in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by Kalnin or obtained from public data sources and were considered sufficient for the purpose thereof. In certain producing cases where there were inadequate historical performance data to establish a definitive trend and where the use of production performance data as the sole basis for the reserves estimates was considered to be inappropriate, decline parameters were guided by analogy to other more established wells.

All of the proved undeveloped reserves included herein were estimated by analogy based on analogue data furnished to Ryder Scott by Kalnin or which we have obtained from public data sources that were available through October 2020. The data utilized from the analogues incorporated into our analysis were considered sufficient for the purpose thereof.

To estimate economically recoverable proved oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Kalnin has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved production and income, we have relied upon data furnished by Kalnin with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as gas gathering and handling fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by Kalnin. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on historical performance data. If no definitive production decline trend has been established, future production rates were based on analogy. If a decline trend has been established, this trend was used as the basis for estimating future production rates.

Analogy data were used to estimate the anticipated initial production rates for those locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by Kalnin. Locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the “as of date” of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished the above mentioned average prices in effect on December 31, 2020. These initial SEC hydrocarbon prices were determined using the 12-month average first-day-of-the-month benchmark prices appropriate to the geographic area where the hydrocarbons are sold. These benchmark prices are prior to the adjustments for differentials as described herein. The table below summarizes the “benchmark prices” and “price reference” used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, gathering and transportation fees, and/or distance from market, referred to herein as “differentials.” The differentials used in the preparation of this report were furnished to us by Kalnin. The differentials furnished to us were accepted as factual data and reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by Kalnin to determine these differentials.

In addition, the table below summarizes the net volume weighted benchmark price adjusted for differentials and referred to herein as the “average realized price.” The average realized price shown in the table below was determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in this report.

Geographic Area	Product	Price Reference	Average Benchmark Price	Average Proved Realized Price
North America				
United States	Gas	Henry Hub	$1.985/MMBTU	$0.93/Mcf

The effects of derivative instruments designated as price hedges of gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by Kalnin and are based on the operating expense reports of Kalnin and include only those costs directly applicable to the leases or wells. The operating costs include a portion of general and administrative costs allocated directly to the leases and wells. The operating costs furnished to us were reviewed by us for their reasonableness using information furnished by Kalnin for this purpose. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by Kalnin and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by Kalnin were reviewed by us for their reasonableness using information furnished by Kalnin for this purpose. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by Kalnin were accepted without independent verification.

The proved undeveloped reserves in this report have been incorporated herein in accordance with Kalnin's plans to develop these reserves as of December 31, 2020. The implementation of Kalnin's development plans as presented to us and incorporated herein is subject to the approval process adopted by Kalnin's management. As the result of our inquiries during the course of preparing this report, Kalnin has informed us that the development activities included herein have been subjected to and received the internal approvals required by Kalnin's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to Kalnin. Kalnin has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, Kalnin has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of December 31, 2020, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by Kalnin were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists have received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to Kalnin. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analysis conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at www.ryderscott.com/Experience/Employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2020 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG and regulatory issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year, including one course in which he was the primary instructor, covering topics such as reserves evaluation methods and evaluation software, RTA/PTA, ethics, regulatory issues, greenhouse gas management, geothermal energy, and more.

Based on his educational background, professional training and more than 15 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of February 19, 2007.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

PROVED RESERVES (SEC DEFINITIONS) CONTINUED

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

October 21, 2022

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared a revised report presenting our results for the estimate of the proved and probable reserves, future production, and income attributable to certain leasehold interests of Kalnin Ventures, LLC (Kalnin) referred to as the Chelsea Assets as of December 31, 2020. This revised report supersedes our prior report dated January 19, 2021 as of December 31, 2020, in order to provide additional required public disclosures for filings made with the SEC. The reserves and income data, as well as the underlying assumptions, in this report are the same as those included in our prior report; however this report was prepared for public disclosure by BKV Corp. (BKV) in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations).

The properties referred to as the Chelsea Assets evaluated by Ryder Scott account for a portion of Kalnin's total net proved and probable reserves as of December 31, 2020. Based on information provided by Kalnin, the third party estimate conducted by Ryder Scott addresses 0 percent of the total proved and 0 percent of the total probable developed net liquid hydrocarbon reserves, 10 percent of the total proved and 0 percent of the total probable developed net gas reserves, 0 percent of the total proved and 0 percent of the total probable undeveloped net liquid hydrocarbon reserves, and 24 percent of the total proved and 14 percent of the total probable undeveloped net gas reserves of Kalnin.

The estimated reserves and future net income amounts presented in this report, as of December 31, 2020 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
Kalnin Ventures, LLC
Chelsea Assets
As of December 31, 2020

	Proved			
	Developed			Total
	Producing	Non-Producing[1]	Undeveloped	Proved
Net Reserves				
Gas – MMcf	179,158	0	21,818	200,976
Income Data ($M)				
Future Gross Revenue	$ 139,084	$ 0	$ 18,719	$ 157,803
Deductions	89,577	579	11,412	101,568
Future Net Income (FNI)	$ 49,507	$ (579)	$ 7,307	$ 56,235
Discounted FNI @ 10%	$ 35,325	$ (528)	$ 2,371	$ 37,168

(1) Negative values for Future Net Income and Discounted FNI are due to abandonment liability.

	Total Probable Undeveloped
Net Reserves	
Gas – MMcf	8,809
Income Data ($M)	
Future Gross Revenue	$ 7,642
Deductions	5,276
Future Net Income (FNI)	$ 2,366
Discounted FNI @ 10%	$ 301

All gas volumes are reported on an “as sold basis” expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of Kalnin. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved and probable reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

Discount Rate Percent	Discounted Future Net Income ($M) As of December 31, 2020 Total Proved	Total Probable
6	$ 43,652	$ 735
9	$ 38,639	$ 383
12	$ 34,498	$ 173
15	$ 31,086	$ 47

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved and probable reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The negative values of future net income and discounted FNI shown in the proved developed non-producing category comprise shut-in wells with only an abandonment liability.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved and probable gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At Kalnin's request, this report addresses the proved and probable reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved and probable reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

Kalnin’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of proved and probable reserves actually recovered and amounts of proved and probable income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which Kalnin owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission’s Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the “quantities actually recovered are much more likely to be achieved than not.” The SEC states that “probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” The SEC states that “possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves.” All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved and probable reserves for the properties included herein were estimated by performance methods or analogy. In general, the producing reserves were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data available through October 2020 in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by Kalnin or obtained from public data sources and were considered sufficient for the purpose thereof. In certain producing cases where there were inadequate historical performance data to establish a definitive trend and where the use of production performance data as the sole basis for the reserves estimates was considered to be inappropriate, decline parameters were guided by analogy to other more established wells.

All of the proved and probable undeveloped reserves included herein were estimated by analogy based on analogue data furnished to Ryder Scott by Kalnin or which we have obtained from public data sources that were available through October 2020. The data utilized from the analogues incorporated into our analysis were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Kalnin has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved and probable production and income, we have relied upon data furnished by Kalnin with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as gas gathering and handling fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by Kalnin. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved and probable reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved and probable reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on historical performance data. If no definitive production decline trend has been established, future production rates were based on analogy. If a decline trend has been established, this trend was used as the basis for estimating future production rates.

Analogy data were used to estimate the anticipated initial production rates for those locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by Kalnin. Locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished the above mentioned average prices in effect on December 31, 2020. These initial SEC hydrocarbon prices were determined using the 12-month average first-day-of-the-month benchmark prices appropriate to the geographic area where the hydrocarbons are sold. These benchmark prices are prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark prices" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, gathering and transportation fees, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by Kalnin. The differentials furnished to us were accepted as factual data and reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by Kalnin to determine these differentials.

In addition, the table below summarizes the net volume weighted benchmark price adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in this report.

Geographic Area	Product	Price Reference	Average Benchmark Price	Average Proved Realized Price	Average Probable Realized Price
North America					
United States	Gas	Henry Hub	$1.985/MMBTU	$0.79/Mcf	$0.87/Mcf

The effects of derivative instruments designated as price hedges of gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by Kalnin and are based on the operating expense reports of Kalnin and include only those costs directly applicable to the leases or wells. The operating costs include a portion of general and administrative costs allocated directly to the leases and wells. The operating costs furnished to us were reviewed by us for their reasonableness using information furnished by Kalnin for this purpose. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by Kalnin and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by Kalnin were reviewed by us for their reasonableness using information furnished by Kalnin for this purpose. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by Kalnin were accepted without independent verification.

The proved and probable undeveloped reserves in this report have been incorporated herein in accordance with Kalnin's plans to develop these reserves as of December 31, 2020. The implementation of Kalnin's development plans as presented to us and incorporated herein is subject to the approval process adopted by Kalnin's management. As the result of our inquiries during the course of preparing this report, Kalnin has informed us that the development activities included herein have been subjected to and received the internal approvals required by Kalnin's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to Kalnin. Kalnin has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, Kalnin has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of December 31, 2020, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by Kalnin were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists have received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to Kalnin. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analysis conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

Stephen E. Gardner, P.E.
Colorado License No. 44720
Managing Senior Vice President

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at www.ryderscott.com/Experience/Employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2020 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG and regulatory issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year, including one course in which he was the primary instructor, covering topics such as reserves evaluation methods and evaluation software, RTA/PTA, ethics, regulatory issues, greenhouse gas management, geothermal energy, and more.

Based on his educational background, professional training and more than 15 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of February 19, 2007.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

PROVED RESERVES (SEC DEFINITIONS) CONTINUED

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.
Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

October 21, 2022

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared a revised report presenting our results for the estimate of the proved and probable reserves, future production, and income attributable to certain leasehold interests of Kalnin Ventures, LLC (Kalnin) referred to as the BKV Assets as of December 31, 2020. This revised report supersedes our prior report dated January 19, 2021 as of December 31, 2020, in order to provide additional required public disclosures for filings made with the SEC. The reserves and income data, as well as the underlying assumptions, in this report are the same as those included in our prior report; however this report was prepared for public disclosure by BKV Corp. (BKV) in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations).

The properties referred to as the BKV Assets evaluated by Ryder Scott account for a portion of Kalnin's total net proved and probable reserves as of December 31, 2020. Based on information provided by Kalnin, the third party estimate conducted by Ryder Scott addresses 0 percent of the total proved and 0 percent of the total probable developed net liquid hydrocarbon reserves, 9 percent of the total proved and 0 percent of the total probable developed net gas reserves, 0 percent of the total proved and 0 percent of the total probable undeveloped net liquid hydrocarbon reserves, and 66 percent of the total proved and 86 percent of the total probable undeveloped net gas reserves of Kalnin.

The estimated reserves and future net income amounts presented in this report, as of December 31, 2020 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
Kalnin Ventures, LLC
BKV Assets
As of December 31, 2020

	Proved			
	Developed			
	Producing	Non-Producing[1]	Undeveloped	Total Proved
Net Reserves				
Gas – MMcf	171,915	0	61,512	233,427
Income Data ($M)				
Future Gross Revenue	$ 143,136	$ 0	$ 52,709	$ 195,845
Deductions	89,026	395	32,786	122,207
Future Net Income (FNI)	$ 54,110	$ (395)	$ 19,923	$ 73,638
Discounted FNI @ 10%	$ 38,017	$ (361)	$ 6,284	$ 43,940

(1) Negative values for Future Net Income and Discounted FNI are due to abandonment liability.

	Total Probable Undeveloped
Net Reserves	
Gas – MMcf	53,076
Income Data ($M)	
Future Gross Revenue	$ 46,043
Deductions	29,705
Future Net Income (FNI)	$ 16,338
Discounted FNI @ 10%	$ 1,661

All gas volumes are reported on an “as sold basis” expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of Kalnin. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved and probable reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

Discount Rate Percent	Discounted Future Net Income ($M) As of December 31, 2020 Total Proved	Total Probable
6	$ 53,221	$ 4,529
9	$ 45,996	$ 2,192
12	$ 40,268	$ 849
15	$ 35,681	$ 72

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved and probable reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The negative values of future net income and discounted FNI shown in the proved developed non-producing category comprise shut-in wells with only an abandonment liability.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved and probable gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At Kalnin's request, this report addresses the proved and probable reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved and probable reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

Kalnin’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of proved and probable reserves actually recovered and amounts of proved and probable income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which Kalnin owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission’s Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved and probable reserves for the properties included herein were estimated by performance methods or analogy. In general, the producing reserves were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data available through October 2020 in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by Kalnin or obtained from public data sources and were considered sufficient for the purpose thereof. In certain producing cases where there were inadequate historical performance data to establish a definitive trend and where the use of production performance data as the sole basis for the reserves estimates was considered to be inappropriate, decline parameters were guided by analogy to other more established wells.

All of the proved and probable undeveloped reserves included herein were estimated by analogy based on analogue data furnished to Ryder Scott by Kalnin or which we have obtained from public data sources that were available through October 2020. The data utilized from the analogues incorporated into our analysis were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Kalnin has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved and probable production and income, we have relied upon data furnished by Kalnin with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as gas gathering and handling fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by Kalnin. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved and probable reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved and probable reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on historical performance data. If no definitive production decline trend has been established, future production rates were based on analogy. If a decline trend has been established, this trend was used as the basis for estimating future production rates.

Analogy data were used to estimate the anticipated initial production rates for those locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by Kalnin. Locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished the above mentioned average prices in effect on December 31, 2020. These initial SEC hydrocarbon prices were determined using the 12-month average first-day-of-the-month benchmark prices appropriate to the geographic area where the hydrocarbons are sold. These benchmark prices are prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark prices" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, gathering and transportation fees, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by Kalnin. The differentials furnished to us were accepted as factual data and reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by Kalnin to determine these differentials.

In addition, the table below summarizes the net volume weighted benchmark price adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in this report.

Geographic Area	Product	Price Reference	Average Benchmark Price	Average Proved Realized Price	Average Probable Realized Price
North America					
United States	Gas	Henry Hub	$1.985/MMBTU	$0.84/Mcf	$0.87/Mcf

The effects of derivative instruments designated as price hedges of gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by Kalnin and are based on the operating expense reports of Kalnin and include only those costs directly applicable to the leases or wells. The operating costs include a portion of general and administrative costs allocated directly to the leases and wells. The operating costs furnished to us were reviewed by us for their reasonableness using information furnished by Kalnin for this purpose. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by Kalnin and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by Kalnin were reviewed by us for their reasonableness using information furnished by Kalnin for this purpose. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by Kalnin were accepted without independent verification.

The proved and probable undeveloped reserves in this report have been incorporated herein in accordance with Kalnin's plans to develop these reserves as of December 31, 2020. The implementation of Kalnin's development plans as presented to us and incorporated herein is subject to the approval process adopted by Kalnin's management. As the result of our inquiries during the course of preparing this report, Kalnin has informed us that the development activities included herein have been subjected to and received the internal approvals required by Kalnin's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to Kalnin. Kalnin has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, Kalnin has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of December 31, 2020, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by Kalnin were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists have received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to Kalnin. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analysis conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at www.ryderscott.com/Experience/Employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2020 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG and regulatory issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year, including one course in which he was the primary instructor, covering topics such as reserves evaluation methods and evaluation software, RTA/PTA, ethics, regulatory issues, greenhouse gas management, geothermal energy, and more.

Based on his educational background, professional training and more than 15 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of February 19, 2007.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

PROVED RESERVES (SEC DEFINITIONS) CONTINUED

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.
Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared a revised report presenting our results for the estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold and royalty interests of BKV Corp. (BKV) referred to as the Barnett Assets as of December 31, 2021. This revised report supersedes our prior report dated December 13, 2021 as of December 31, 2021, in order to provide additional required public disclosures for filings made with the SEC. The reserves and income data, as well as the underlying assumptions, in this report are the same as those included in our prior report; however this report was prepared for public disclosure by BKV in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations. The subject properties are located in the state of Texas. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations).

The properties referred to as the Barnett Assets evaluated by Ryder Scott account for a portion of BKV's total net proved, probable and possible reserves as of December 31, 2021. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 100 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net liquid hydrocarbon reserves, 81 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net gas reserves, 100 percent of the total proved, 100 percent of the total probable and 100 percent of the total possible undeveloped net liquid hydrocarbon reserves, and 49 percent of the total proved, 62 percent of the total probable and 51 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of December 31, 2021 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold and Royalty Interests of
BKV Corp.
Barnett Assets
As of December 31, 2021

	Proved			
	Developed			Total
	Producing	Non-Producing	Undeveloped	Proved
Net Reserves				
Oil/Condensate – Mbbl	867	0	58	925
Plant Products – Mbbl	142,961	8,472	13,722	165,155
Gas – MMcf	1,882,781	148,214	468,762	2,499,757
Income Data ($M)				
Future Gross Revenue	$ 9,266,575	$ 668,814	$ 1,895,851	$ 11,831,240
Deductions	4,423,562	321,608	1,105,838	5,851,008
Future Net Income (FNI)	$ 4,843,013	$ 347,206	$ 790,013	$ 5,980,232
Discounted FNI @ 10%	$ 2,226,324	$ 106,070	$ 207,677	$ 2,540,071

	Total Probable Undeveloped	Total Possible Undeveloped
Net Reserves		
Oil/Condensate – Mbbl	486	1,841
Plant Products – Mbbl	31,227	32,047
Gas – MMcf	321,838	194,841
Income Data ($M)		
Future Gross Revenue	$ 1,843,920	$ 1,426,533
Deductions	962,484	801,286
Future Net Income (FNI)	$ 881,436	$ 625,247
Discounted FNI @ 10%	$ 167,944	$ 62,478

Liquid hydrocarbons are expressed in standard 42 U.S. gallon barrels and shown herein as thousands of barrels (Mbbl). All gas volumes are expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas volumes are located. All gas reserves volumes are reported on an “as sold” basis. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes. The deductions incorporate the normal direct costs of operating the wells, ad valorem taxes, development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for approximately 70 percent and liquid hydrocarbon reserves account for the remaining 30 percent of total future gross revenue from proved reserves. Gas reserves account for approximately 63 percent and liquid hydrocarbon reserves account for the remaining 37 percent of total future gross revenue from probable reserves. Gas reserves account for approximately 45 percent and liquid hydrocarbon reserves account for the remaining 55 percent of total future gross revenue from possible reserves.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

	Discounted Future Net Income ($M) As of December 31, 2021		
Discount Rate Percent	Total Proved	Total Probable	Total Possible
8	$ 2,889,213	$ 224,027	$ 96,193
12	$ 2,263,496	$ 127,473	$ 40,726
15	$ 1,943,207	$ 85,742	$ 21,311
20	$ 1,570,202	$ 45,515	$ 6,652

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The proved developed non-producing reserves included herein consist of the behind pipe status category.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

BKV’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of reserves actually recovered and amounts of income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission's Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between May and September 2021, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved developed non-producing as well as all of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, ad valorem and production taxes, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those wells or locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Wells or locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or wells or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished BKV with the above mentioned average prices in effect on December 31, 2021. These initial SEC hydrocarbon prices were determined using the 12-month average first-day-of-the-month benchmark prices appropriate to the geographic area where the hydrocarbons are sold. These benchmark prices are prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark prices" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, certain NGL fractionation and transportation fees, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the net volume weighted benchmark prices adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in the report.

Geographic Area	Product	Price Reference	Average Benchmark Prices	Average Proved Realized Prices	Average Probable Realized Prices	Average Possible Realized Prices
North America						
United States	Oil/Condensate	WTI Cushing	$66.56/Bbl	$58.94/Bbl	$58.94/Bbl	$58.94/Bbl
	NGLs	WTI Cushing	$66.56/Bbl	$22.01/Bbl	$22.01/Bbl	$22.01/Bbl
	Gas	Henry Hub	$3.598/MMBTU	$3.46/Mcf	$3.75/Mcf	$3.45/Mcf

The effects of derivative instruments designated as price hedges of oil and gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. Certain gas gathering and transportation costs were included as operating expenses. The operating costs furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished to us were accepted as factual data and reviewed by us for their reasonableness; however, we have not conducted an independent verification of these costs. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved developed non-producing and proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of December 31, 2021. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of December 31, 2021, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists have received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analysis conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

Stephen E. Gardner, P.E.
Colorado License No. 44720
Managing Senior Vice President

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at www.ryderscott.com/Experience/Employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2020 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG and regulatory issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year, including one course in which he was the primary instructor, covering topics such as reserves evaluation methods and evaluation software, RTA/PTA, ethics, regulatory issues, greenhouse gas management, geothermal energy, and more.

Based on his educational background, professional training and more than 15 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.
Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared a revised report presenting our results for the estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold interests of BKV Corp. (BKV) referred to as the Chaffee Corners Assets as of December 31, 2021. This revised report supersedes our prior report dated December 13, 2021 as of December 31, 2021, in order to provide additional required public disclosures for filings made with the SEC. The reserves and income data, as well as the underlying assumptions, in this report are the same as those included in our prior report; however this report was prepared for public disclosure by BKV in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations).

The properties referred to as the Chaffee Corners Assets evaluated by Ryder Scott account for a portion of BKV's total net proved, probable and possible reserves as of December 31, 2021. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net liquid hydrocarbon reserves, 3 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net gas reserves, 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible undeveloped net liquid hydrocarbon reserves, and 1 percent of the total proved, 6 percent of the total probable and less than 1 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of December 31, 2021 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
BKV Corp.
Chaffee Corners Assets
As of December 31, 2021

	Proved			
	Developed			Total
	Producing	Non-Producing[(1)]	Undeveloped	Proved
Net Reserves				
Gas – MMcf	64,993	0	6,499	71,492
Income Data ($M)				
Future Gross Revenue	$ 220,106	$ 0	$ 22,013	$ 242,119
Deductions	69,642	57	9,819	79,518
Future Net Income (FNI)	$ 150,464	$ (57)	$ 12,194	$ 162,601
Discounted FNI @ 10%	$ 75,049	$ (53)	$ 4,069	$ 79,065

(1) Negative values for Future Net Income and Discounted FNI are due to abandonment liability.

	Total Probable Undeveloped	Total Possible Undeveloped
Net Reserves		
Gas – MMcf	31,944	980
Income Data ($M)		
Future Gross Revenue	$ 108,184	$ 3,319
Deductions	64,391	2,379
Future Net Income (FNI)	$ 43,793	$ 940
Discounted FNI @ 10%	$ 6,227	$ 3

All gas volumes are reported on an “as sold basis” expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved, probable, and possible reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

Discount Rate Percent	Discounted Future Net Income ($M) As of December 31, 2021 Total Proved	Total Probable	Total Possible
8	$ 88,256	$ 9,482	$ 67
12	$ 71,663	$ 3,861	$ (37)
15	$ 62,948	$ 1,429	$ (70)
20	$ 52,574	$ (846)	$ (86)

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The negative values of future net income and discounted FNI shown in the proved developed non-producing category comprise shut-in wells with only an abandonment liability.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

BKV’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of proved reserves actually recovered and amounts of proved income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission’s Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between June and September 2021, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the “as of date” of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished BKV with the above mentioned average prices in effect on December 31, 2021. These initial SEC hydrocarbon prices were determined using the 12-month average first-day-of-the-month benchmark prices appropriate to the geographic area where the hydrocarbons are sold. These benchmark prices are prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark prices" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, gathering and transportation fees, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the net volume weighted benchmark price adjusted for differentials and referred to herein as the "average realized prices." The average realized price shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in the report.

Geographic Area	Product	Price Reference	Average Benchmark Price	Average Proved Realized Price	Average Probable Realized Price	Average Possible Realized Price
North America	Gas	Henry Hub	$3.598/MMBTU	$3.39/Mcf	$3.39/Mcf	$3.39/Mcf

The effects of derivative instruments designated as price hedges of gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. The operating costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of December 31, 2021. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of December 31, 2021, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists have received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analysis conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

Stephen E. Gardner, P.E.
Colorado License No. 44720
Managing Senior Vice President

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at www.ryderscott.com/Experience/Employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2020 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG and regulatory issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year, including one course in which he was the primary instructor, covering topics such as reserves evaluation methods and evaluation software, RTA/PTA, ethics, regulatory issues, greenhouse gas management, geothermal energy, and more.

Based on his educational background, professional training and more than 15 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.
Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

October 21, 2022

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared a revised report presenting our results for the estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold interests of BKV Corp. (BKV) referred to as the Chelsea Assets as of December 31, 2021. This revised report supersedes our prior report dated December 13, 2021 as of December 31, 2021, in order to provide additional required public disclosures for filings made with the SEC. The reserves and income data, as well as the underlying assumptions, in this report are the same as those included in our prior report; however this report was prepared for public disclosure by BKV in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations).

The properties referred to as the Chelsea Assets evaluated by Ryder Scott account for a portion of BKV's total net proved, probable and possible reserves as of December 31, 2021. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net liquid hydrocarbon reserves, 8 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net gas reserves, 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible undeveloped net liquid hydrocarbon reserves, and 18 percent of the total proved, 16 percent of the total probable and 29 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of December 31, 2021 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
BKV Corp.
Chelsea Assets
As of December 31, 2021

	Proved			
	Developed			Total
	Producing	Non-Producing[1]	Undeveloped	Proved
Net Reserves				
Gas – MMcf	198,498	0	174,139	372,637
Income Data ($M)				
Future Gross Revenue	$ 548,433	$ 0	$ 484,880	$ 1,033,313
Deductions	326,523	352	288,102	614,977
Future Net Income (FNI)	$ 221,910	$ (352)	$ 196,778	$ 418,336
Discounted FNI @ 10%	$ 130,841	$ (322)	$ 65,149	$ 195,668

(1) Negative values for Future Net Income and Discounted FNI are due to abandonment liability.

	Total Probable Undeveloped	Total Possible Undeveloped
Net Reserves		
Gas – MMcf	84,140	111,682
Income Data ($M)		
Future Gross Revenue	$ 233,015	$ 306,859
Deductions	164,371	232,123
Future Net Income (FNI)	$ 68,644	$ 74,736
Discounted FNI @ 10%	$ 12,921	$ 7,419

All gas volumes are reported on an “as sold basis” expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved, probable, and possible reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

	Discounted Future Net Income ($M) As of December 31, 2021		
Discount Rate Percent	Total Proved	Total Probable	Total Possible
8	$ 221,047	$ 17,962	$ 12,247
12	$ 175,026	$ 9,203	$ 4,216
15	$ 150,522	$ 5,314	$ 1,317
20	$ 121,204	$ 1,565	$ (808)

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The negative values of future net income and discounted FNI shown in the proved developed non-producing category comprise shut-in wells with only an abandonment liability.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

BKV’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of reserves actually recovered and amounts of income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission’s Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between June and September 2021, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the “as of date” of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished BKV with the above mentioned average prices in effect on December 31, 2021. These initial SEC hydrocarbon prices were determined using the 12-month average first-day-of-the-month benchmark prices appropriate to the geographic area where the hydrocarbons are sold. These benchmark prices are prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark prices" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, gathering and transportation fees, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the net volume weighted benchmark price adjusted for differentials and referred to herein as the "average realized prices." The average realized price shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in the report.

Geographic Area	Product	Price Reference	Average Benchmark Price	Average Proved Realized Price	Average Probable Realized Price	Average Possible Realized Price
North America	Gas	Henry Hub	$3.598/MMBTU	$2.77/Mcf	$2.77/Mcf	$2.75/Mcf

The effects of derivative instruments designated as price hedges of gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. The operating costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of December 31, 2021. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of December 31, 2021, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists have received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analysis conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at www.ryderscott.com/Experience/Employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2020 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG and regulatory issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year, including one course in which he was the primary instructor, covering topics such as reserves evaluation methods and evaluation software, RTA/PTA, ethics, regulatory issues, greenhouse gas management, geothermal energy, and more.

Based on his educational background, professional training and more than 15 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.
Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

October 21, 2022

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared a revised report presenting our results for the estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold interests of BKV Corp. (BKV) referred to as the BKV Assets as of December 31, 2021. This revised report supersedes our prior report dated December 13, 2021 as of December 31, 2021, in order to provide additional required public disclosures for filings made with the SEC. The reserves and income data, as well as the underlying assumptions, in this report are the same as those included in our prior report; however this report was prepared for public disclosure by BKV in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations).

The properties referred to as the BKV Assets evaluated by Ryder Scott account for a portion of BKV's total net proved, probable and possible reserves as of December 31, 2021. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net liquid hydrocarbon reserves, 8 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net gas reserves, 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible undeveloped net liquid hydrocarbon reserves, and 32 percent of the total proved, 16 percent of the total probable and 19 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of December 31, 2021 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
BKV Corp.
BKV Assets
As of December 31, 2021

	Proved			
	Developed			Total
	Producing	Non-Producing[1]	Undeveloped	Proved
Net Reserves				
Gas – MMcf	200,440	0	300,958	501,398
Income Data ($M)				
Future Gross Revenue	$ 558,998	$ 0	$ 848,149	$ 1,407,147
Deductions	333,748	518	497,081	831,347
Future Net Income (FNI)	$ 225,250	$ (518)	$ 351,068	$ 575,800
Discounted FNI @ 10%	$ 134,529	$ (474)	$ 125,610	$ 259,665

(1) Negative values for Future Net Income and Discounted FNI are due to abandonment liability.

	Total Probable Undeveloped	Total Possible Undeveloped
Net Reserves		
Gas – MMcf	84,520	74,438
Income Data ($M)		
Future Gross Revenue	$ 236,108	$ 204,528
Deductions	162,300	154,743
Future Net Income (FNI)	$ 73,808	$ 49,785
Discounted FNI @ 10%	$ 14,993	$ 4,937

All gas volumes are reported on an “as sold basis” expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved, probable, and possible reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

Discount Rate Percent	Discounted Future Net Income ($M) As of December 31, 2021 Total Proved	Total Probable	Total Possible
8	$ 295,171	$ 20,373	$ 8,153
12	$ 230,879	$ 10,993	$ 2,804
15	$ 196,806	$ 6,760	$ 873
20	$ 156,160	$ 2,586	$ (542)

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The negative values of future net income and discounted FNI shown in the proved developed non-producing category comprise shut-in wells with only an abandonment liability.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

BKV’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of reserves actually recovered and amounts of income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission’s Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between June and September 2021, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the “as of date” of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished BKV with the above mentioned average prices in effect on December 31, 2021. These initial SEC hydrocarbon prices were determined using the 12-month average first-day-of-the-month benchmark prices appropriate to the geographic area where the hydrocarbons are sold. These benchmark prices are prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark prices" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, gathering and transportation fees, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the net volume weighted benchmark price adjusted for differentials and referred to herein as the "average realized prices." The average realized price shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in the report.

Geographic Area	Product	Price Reference	Average Benchmark Price	Average Proved Realized Price	Average Probable Realized Price	Average Possible Realized Price
North America	Gas	Henry Hub	$3.598/MMBTU	$2.81/Mcf	$2.79/Mcf	$2.75/Mcf

The effects of derivative instruments designated as price hedges of gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. The operating costs furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of December 31, 2021. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of December 31, 2021, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists have received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analysis conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

PROFESSIONAL ENGINEER

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at www.ryderscott.com/Experience/Employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2020 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG and regulatory issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year, including one course in which he was the primary instructor, covering topics such as reserves evaluation methods and evaluation software, RTA/PTA, ethics, regulatory issues, greenhouse gas management, geothermal energy, and more.

Based on his educational background, professional training and more than 15 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion. Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

October 20, 2022

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared an estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold and royalty interests of BKV Corp. (BKV) referred to as the Barnett Assets as of September 30, 2022. The subject properties are located in the state of Texas. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations). This report is a mechanical roll-forward of our initial report that was evaluated as of June 30, 2022 and published on July 8, 2022. No additional production data or cost data were considered since our prior evaluation, and this report includes the same volume projections and cost assumptions as previously, except that the effective date here is shifted forward to September 30, 2022. BKV has not informed Ryder Scott, and we are not aware, of any significant changes that would materially alter our projections or reserve assignments. Our third party study, presented herein, was prepared for public disclosure by BKV in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations.

The properties referred to as the Barnett Assets evaluated by Ryder Scott account for a portion of BKV Corp's total net proved, probable and possible reserves as of September 30, 2022. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 89 percent of the total proved, 100 percent of the total probable and 100 percent of the total possible developed net liquid hydrocarbon reserves, 56 percent of the total proved, 98 percent of the total probable and 100 percent of the total possible developed net gas reserves, 90 percent of the total proved, 100 percent of the total probable and 100 percent of the total possible undeveloped net liquid hydrocarbon reserves, and 50 percent of the total proved, 71 percent of the total probable and 45 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of September 30, 2022 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold and Royalty Interests of
BKV Corp.
Barnett Assets
As of September 30, 2022

	Proved

Discounted FNI @ 10%	$ 394,488	$ 530,044	$ 924,532

	Possible		
	Developed		Total
	Non-Producing	Undeveloped	Possible
Net Reserves			
Oil/Condensate – Mbbl	0	1,364	1,364
Plant Products – Mbbl	9,999	25,122	35,121
Gas – MMcf	107,126	201,338	308,464
Income Data ($M)			
Future Gross Revenue	$ 899,209	$ 1,998,099	$ 2,897,308
Deductions	253,602	878,953	1,132,555
Future Net Income (FNI)	$ 645,607	$ 1,119,146	$ 1,764,753
Discounted FNI @ 10%	$ 96,085	$ 153,612	$ 249,697

Liquid hydrocarbons are expressed in standard 42 U.S. gallon barrels and shown herein as thousands of barrels (Mbbl). All gas volumes are expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas volumes are located. All gas reserves volumes are reported on an "as sold" basis. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes. The deductions incorporate the normal direct costs of operating the wells, ad valorem taxes, development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for approximately 71 percent and liquid hydrocarbon reserves account for the remaining 29 percent of total future gross revenue from proved reserves. Gas reserves account for approximately 66 percent and liquid hydrocarbon reserves account for the remaining 34 percent of total future gross revenue from probable reserves. Gas reserves account for approximately 59 percent and liquid hydrocarbon reserves account for the remaining 41 percent of total future gross revenue from possible reserves.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

	Discounted Future Net Income ($M) As of September 30, 2022		
Discount Rate Percent	Total Proved	Total Probable	Total Possible
8	$ 6,712,014	$ 1,189,888	$ 351,896
12	$ 5,272,748	$ 729,689	$ 179,909
15	$ 4,542,766	$ 523,635	$ 112,579
20	$ 3,694,302	$ 315,438	$ 53,944

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled “PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES” in this report. The proved, probable, and possible developed non-producing reserves included herein consist of the behind pipe status category.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are “estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations.” All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends primarily on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV’s request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

BKV's operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of reserves actually recovered and amounts of income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission's Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between March and June 2022, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved, probable, and possible developed non-producing as well as all of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, ad valorem and production taxes, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those wells or locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Wells or locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or wells or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished BKV with the above mentioned average prices in effect on September 30, 2022. These initial SEC hydrocarbon prices were determined using the 12-month average first-day-of-the-month benchmark prices appropriate to the geographic area where the hydrocarbons are sold. These benchmark prices are prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark prices" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, certain gas firm transportation fees, certain NGL fractionation and transportation fees, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the net volume weighted benchmark prices adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in the report.

Geographic Area	Product	Price Reference	Average Benchmark Prices	Average Proved Realized Prices	Average Probable Realized Prices	Average Possible Realized Prices
North America						
United States	Oil/Condensate	WTI Cushing	$91.71/bbl	$84.20/bbl	$84.20/bbl	$84.20/bbl
	NGLs	WTI Cushing	$91.71/bbl	$32.40/bbl	$32.40/bbl	$32.40/bbl
	Gas	Henry Hub	$6.127/MMBTU	$5.84/Mcf	$5.87/Mcf	$5.77/Mcf

The effects of derivative instruments designated as price hedges of oil and gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. Certain gas gathering and transportation costs were included as operating expenses. The operating costs furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished to us were accepted as factual data and reviewed by us for their reasonableness using information furnished by BKV for this purpose. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved developed non-producing and proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of September 30, 2022. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of September 30, 2022, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analyses conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

Stephen E. Gardner, P.E.
Colorado License No. 44720
Managing Senior Vice President

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at https://ryderscott.com/employees/denver-employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2021 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year covering topics such as reserves evaluation methods and evaluation software, ethics, regulatory issues, greenhouse gas management, and more.

Based on his educational background, professional training and more than 16 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.
Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared an estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold interests of BKV Corp. (BKV) referred to as the Chaffee Corners Assets as of September 30, 2022. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations). This report is a mechanical roll-forward of our initial report that was evaluated as of June 30, 2022 and published on July 8, 2022. No additional production data or cost data were considered since our prior evaluation, and this report includes the same volume projections and cost assumptions as previously, except that the effective date here is shifted forward to September 30, 2022. BKV has not informed Ryder Scott, and we are not aware, of any significant changes that would materially alter our projections or reserve assignments. Our third party study, presented herein, was prepared for public disclosure by BKV in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations.

The properties referred to as the Chaffee Corners Assets evaluated by Ryder Scott account for a portion of BKV Corp's total net proved, probable and possible reserves as of September 30, 2022. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net liquid hydrocarbon reserves, 2 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net gas reserves, 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible undeveloped net liquid hydrocarbon reserves, and 1 percent of the total proved, 5 percent of the total probable and 2 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of September 30, 2022 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
BKV Corp.
Chaffee Corners Assets
As of September 30, 2022

	Proved			
	Developed			Total
	Producing	Non-Producing[1]	Undeveloped	Proved
Net Reserves				
Gas – MMcf	71,515	0	11,972	83,487
Income Data ($M)				
Future Gross Revenue	$ 430,694	$ 0	$ 72,100	$ 502,794
Deductions	76,221	57	22,256	98,534
Future Net Income (FNI)	$ 354,473	$ (57)	$ 49,844	$ 404,260
Discounted FNI @ 10%	$ 169,269	$ (54)	$ 20,393	$ 189,608

(1) Negative values for Future Net Income and Discounted FNI are due to abandonment liability.

	Total Probable Undeveloped	Total Possible Undeveloped
Net Reserves		
Gas – MMcf	28,916	8,115
Income Data ($M)		
Future Gross Revenue	$ 174,142	$ 48,873
Deductions	51,861	21,013
Future Net Income (FNI)	$ 122,281	$ 27,860
Discounted FNI @ 10%	$ 40,458	$ 5,512

All gas volumes are reported on an “as sold basis” expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved, probable, and possible reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

	Discounted Future Net Income ($M) As of September 30, 2022		
Discount Rate Percent	Total Proved	Total Probable	Total Possible
8	$ 211,968	$ 48,454	$ 7,401
12	$ 171,734	$ 34,212	$ 4,139
15	$ 150,792	$ 27,104	$ 2,720
20	$ 125,920	$ 19,069	$ 1,360

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The negative values of future net income and discounted FNI shown in the proved developed non-producing category comprise shut-in wells with only an abandonment liability.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends primarily on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

BKV’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of proved reserves actually recovered and amounts of proved income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission’s Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between April and June 2022, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the “as of date” of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished BKV with the above mentioned average price in effect on September 30, 2022. The initial SEC hydrocarbon price was determined using the 12-month average first-day-of-the-month benchmark price appropriate to the geographic area where the hydrocarbons are sold. The benchmark price is prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark price" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark price for gravity, quality, local conditions, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the net volume weighted benchmark price adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in the report.

Geographic Area	Product	Price Reference	Average Benchmark Price	Average Proved Realized Price	Average Probable Realized Price	Average Possible Realized Price
North America	Gas	Henry Hub	$6.127/MMBTU	$6.02/Mcf	$6.02/Mcf	$6.02/Mcf

The effects of derivative instruments designated as price hedges of gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. Certain gathering and transportation fees are included as operating costs. The operating costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of September 30, 2022. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of September 30, 2022, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analyses conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at https://ryderscott.com/employees/denver-employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2021 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year covering topics such as reserves evaluation methods and evaluation software, ethics, regulatory issues, greenhouse gas management, and more.

Based on his educational background, professional training and more than 16 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion. Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

October 20, 2022

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared an estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold interests of BKV Corp. (BKV) referred to as the Chelsea Assets as of September 30, 2022. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations). This report is a mechanical roll-forward of our initial report that was evaluated as of June 30, 2022 and published on July 8, 2022. No additional production data or cost data were considered since our prior evaluation, and this report includes the same volume projections and cost assumptions as previously, except that the effective date here is shifted forward to September 30, 2022. BKV has not informed Ryder Scott, and we are not aware, of any significant changes that would materially alter our projections or reserve assignments. Our third party study, presented herein, was prepared for public disclosure by BKV in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations.

The properties referred to as the Chelsea Assets evaluated by Ryder Scott account for a portion of BKV Corp's total net proved, probable and possible reserves as of September 30, 2022. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net liquid hydrocarbon reserves, 6 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net gas reserves, 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible undeveloped net liquid hydrocarbon reserves, and 14 percent of the total proved, 14 percent of the total probable and 32 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of September 30, 2022 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
BKV Corp.
Chelsea Assets
As of September 30, 2022

	Proved			
	Developed			Total
	Producing	Non-Producing	Undeveloped	Proved
Net Reserves				
Gas – MMcf	214,790	5,922	165,103	385,815
Income Data ($M)				
Future Gross Revenue	$ 1,181,725	$ 32,879	$ 910,548	$ 2,125,152
Deductions	351,004	11,614	256,493	619,111
Future Net Income (FNI)	$ 830,721	$ 21,265	$ 654,055	$ 1,506,041
Discounted FNI @ 10%	$ 416,386	$ 10,405	$ 270,560	$ 697,351

	Total Probable Undeveloped	Total Possible Undeveloped
Net Reserves		
Gas – MMcf	82,468	142,650
Income Data ($M)		
Future Gross Revenue	$ 454,499	$ 782,806
Deductions	140,300	288,815
Future Net Income (FNI)	$ 314,199	$ 493,991
Discounted FNI @ 10%	$ 94,570	$ 106,953

All gas volumes are reported on an “as sold basis” expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved, probable, and possible reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

Discount Rate Percent	Discounted Future Net Income ($M) As of September 30, 2022 Total Proved	Total Probable	Total Possible
8	$ 782,903	$ 115,436	$ 139,633
12	$ 628,527	$ 78,455	$ 82,983
15	$ 547,360	$ 60,405	$ 57,845
20	$ 450,260	$ 40,582	$ 33,032

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The proved developed non-producing reserves included herein consist of the shut-in and behind pipe status categories.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends primarily on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

BKV’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of reserves actually recovered and amounts of income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission’s Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between April and June 2022, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those wells or locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Wells or locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or wells or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the “as of date” of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished BKV with the above mentioned average price in effect on September 30, 2022. The initial SEC hydrocarbon price was determined using the 12-month average first-day-of-the-month benchmark price appropriate to the geographic area where the hydrocarbons are sold. The benchmark price is prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark price" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark price for gravity, quality, local conditions, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the net volume weighted benchmark price adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in the report.

Geographic Area	Product	Price Reference	Average Benchmark Price	Average Proved Realized Price	Average Probable Realized Price	Average Possible Realized Price
North America	Gas	Henry Hub	$6.127/MMBTU	$5.51/Mcf	$5.51/Mcf	$5.49/Mcf

The effects of derivative instruments designated as price hedges of gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. Certain gathering and transportation fees are included as operating costs. The operating costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of September 30, 2022. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of September 30, 2022, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analyses conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at https://ryderscott.com/employees/denver-employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2021 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year covering topics such as reserves evaluation methods and evaluation software, ethics, regulatory issues, greenhouse gas management, and more.

Based on his educational background, professional training and more than 16 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.
Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared an estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold interests of BKV Corp. (BKV) referred to as the BKV Assets as of September 30, 2022. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations). This report is a mechanical roll-forward of our initial report that was evaluated as of June 30, 2022 and published on July 8, 2022. No additional production data or cost data were considered since our prior evaluation, and this report includes the same volume projections and cost assumptions as previously, except that the effective date here is shifted forward to September 30, 2022. BKV has not informed Ryder Scott, and we are not aware, of any significant changes that would materially alter our projections or reserve assignments. Our third party study, presented herein, was prepared for public disclosure by BKV in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations.

The properties referred to as the BKV Assets evaluated by Ryder Scott account for a portion of BKV Corp's total net proved, probable and possible reserves as of September 30, 2022. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net liquid hydrocarbon reserves, 7 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net gas reserves, 0 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible undeveloped net liquid hydrocarbon reserves, and 17 percent of the total proved, 10 percent of the total probable and 21 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of September 30, 2022 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
BKV Corp.
BKV Assets
As of September 30, 2022

	Proved			
	Developed			Total
	Producing	Non-Producing	Undeveloped	Proved
Net Reserves				
Gas – MMcf	247,934	15,858	192,008	455,800
Income Data ($M)				
Future Gross Revenue	$ 1,371,156	$ 88,039	$ 1,065,233	$ 2,524,428
Deductions	397,051	31,694	324,742	753,487
Future Net Income (FNI)	$ 974,105	$ 56,345	$ 740,491	$ 1,770,941
Discounted FNI @ 10%	$ 506,051	$ 27,506	$ 307,777	$ 841,334

	Total Probable Undeveloped	Total Possible Undeveloped
Net Reserves		
Gas – MMcf	56,630	93,339
Income Data ($M)		
Future Gross Revenue	$ 313,789	$ 512,059
Deductions	104,428	189,641
Future Net Income (FNI)	$ 209,361	$ 322,418
Discounted FNI @ 10%	$ 60,190	$ 69,668

All gas volumes are reported on an “as sold basis” expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. Certain gas processing costs are displayed in the cash flows as “Other” deductions. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved, probable, and possible reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

Discount Rate Percent	Discounted Future Net Income ($M) As of September 30, 2022 Total Proved	Total Probable	Total Possible
8	$ 940,110	$ 74,244	$ 90,995
12	$ 761,716	$ 49,384	$ 54,030
15	$ 667,605	$ 37,365	$ 37,637
20	$ 554,663	$ 24,337	$ 21,470

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The proved developed non-producing reserves included herein consist of the shut-in and behind pipe status categories.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends primarily on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

BKV’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of reserves actually recovered and amounts of income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission’s Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between April and June 2022, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those wells or locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Wells or locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or wells or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the “as of date” of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished BKV with the above mentioned average price in effect on September 30, 2022. The initial SEC hydrocarbon price was determined using the 12-month average first-day-of-the-month benchmark price appropriate to the geographic area where the hydrocarbons are sold. The benchmark price is prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark price" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the net volume weighted benchmark price adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in the report.

Geographic Area	Product	Price Reference	Average Benchmark Price	Average Proved Realized Price	Average Probable Realized Price	Average Possible Realized Price
North America	Gas	Henry Hub	$6.127/MMBTU	$5.54/Mcf	$5.54/Mcf	$5.49/Mcf

The effects of derivative instruments designated as price hedges of gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. Certain gathering and transportation fees are included as operating costs. The operating costs furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of September 30, 2022. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of September 30, 2022, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analyses conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

PROFESSIONAL ENGINEER

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at https://ryderscott.com/employees/denver-employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2021 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year covering topics such as reserves evaluation methods and evaluation software, ethics, regulatory issues, greenhouse gas management, and more.

Based on his educational background, professional training and more than 16 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.
Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

October 20, 2022

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared an estimate of the proved and probable reserves, future production and income attributable to certain leasehold and royalty interests of BKV Corp. (BKV) as of September 30, 2022. The subject properties were recently acquired from XTO Energy Inc. (XTO) and are located in the Barnett Shale play of Texas, referred to herein as Project Europa. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations). This report is a mechanical roll-forward of our initial report that was evaluated as of February 1, 2022 and published on May 18, 2022. No additional production data or cost data were considered since our prior evaluation, and this report includes the same volume projections and cost assumptions as previously, except that the effective date here is shifted forward to September 30, 2022. BKV has not informed Ryder Scott, and we are not aware, of any significant changes that would materially alter our projections or reserve assignments. Our third party study, presented herein, was prepared for public disclosure by BKV in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations.

The properties referred to as the Project Europa evaluated by Ryder Scott account for a portion of BKV Corp's total net proved, probable and possible reserves as of September 30, 2022. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 11 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible developed net liquid hydrocarbon reserves, 29 percent of the total proved, 2 percent of the total probable and 0 percent of the total possible developed net gas reserves, 10 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible undeveloped net liquid hydrocarbon reserves, and 18 percent of the total proved, 0 percent of the total probable and 0 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of September 30, 2022 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, as required by the SEC regulations. Actual future prices may vary considerably from the prices that were used in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized as follows.

SEC PRICE AND CONSTANT COST PARAMETERS
Estimated Net Reserves and Income Data
Certain Leasehold and Royalty Interests
BKV Corp.
As of September 30, 2022

	Proved			
	Developed			Total
	Producing	Non-Producing	Undeveloped	Proved
Net Reserves				
Oil/Condensate – Mbbl	197	0	60	257
Plant Products – Mbbl	19,376	0	4,159	23,535
Gas – MMcf	999,853	133,852	202,758	1,336,463
Income Data ($M)				
Future Gross Revenue	$ 5,422,217	$ 667,070	$ 1,125,468	$ 7,214,755
Deductions	1,667,662	167,951	297,587	2,133,200
Future Net Income (FNI)	$ 3,754,555	$ 499,119	$ 827,881	$ 5,081,555
Discounted FNI @ 10%	$ 1,717,404	$ 170,591	$ 295,216	$ 2,183,211

	Total Probable Non-Producing
Net Reserves	
Oil/Condensate – Mbbl	0
Plant Products – Mbbl	0
Gas – MMcf	6,164
Income Data ($M)	
Future Gross Revenue	$ 31,266
Deductions	7,908
Future Net Income (FNI)	$ 23,358
Discounted FNI @ 10%	$ 6,083

Liquid hydrocarbons are expressed in standard 42 U.S. gallon barrels and shown herein as thousands of barrels (Mbbl). All gas volumes are expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas volumes are located. All gas reserves volumes are reported on an “as sold” basis. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes. The deductions incorporate the normal direct costs of operating the wells, ad valorem taxes, recompletion and development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for approximately 91 percent and liquid hydrocarbon reserves account for the remaining 9 percent of total future gross revenue from proved reserves. Gas reserves account for 100 percent of total future gross revenue from probable reserves.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

	Discounted Future Net Income ($M) As of September 30, 2022	
Discount Rate Percent	Total Proved	Total Probable
8	$ 2,476,132	$ 7,584
12	$ 1,950,903	$ 4,947
15	$ 1,681,228	$ 3,701
20	$ 1,365,541	$ 2,371

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved and probable reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a). An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS and GUIDELINES" in this report. The developed proved and probable non-producing reserves included herein consist of the behind pipe status category.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved and probable gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends primarily on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved and probable reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of risk associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved and probable reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

BKV’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing, the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of reserves actually recovered and amounts of income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission's Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved and probable reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data available through December 2021 in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved and probable non-producing as well as all of the proved undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically recoverable proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on current costs and SEC pricing requirements, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined. While it may reasonably be anticipated that the future prices received for the sale of production and the operating costs and other costs relating to such production may increase or decrease from those under existing economic conditions, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved and probable production and income, we have relied upon data furnished by BKV with respect to property interests acquired, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, ad valorem and production taxes, recompletion and development costs, development plans, abandonment costs after salvage, product prices based on the SEC regulations, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved and probable reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved and probable reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those wells or locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Wells or locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or wells or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The hydrocarbon prices used herein are based on SEC price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period.

We furnished BKV with the above mentioned average prices in effect on September 30, 2022. These initial SEC hydrocarbon prices were determined using the 12-month average first-day-of-the-month benchmark prices appropriate to the geographic area where the hydrocarbons are sold. These benchmark prices are prior to the adjustments for differentials as described herein. The table below summarizes the "benchmark prices" and "price reference" used for the geographic area included in the report.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, gathering and transportation fees and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished to us were accepted as factual data and reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these differentials.

In addition, the table below summarizes the net volume weighted benchmark prices adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the total future gross revenue before production taxes and the total net reserves by reserves category for the geographic area and presented in accordance with SEC disclosure requirements for the geographic area included in the report.

Geographic Area	Product	Price Reference	Average Benchmark Prices	Average Proved Realized Prices	Average Probable Realized Prices
North America					
United States	Oil/Condensate	WTI Cushing	$91.71/bbl	$86.51/bbl	N/A
	NGLs	WTI Cushing	$91.71/bbl	$27.93/bbl	N/A
	Gas	Henry Hub	$6.127/MMBTU	$5.06/Mcf	$5.23/Mcf

The effects of derivative instruments designated as price hedges of oil and gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of XTO and include only those costs directly applicable to the leases or wells. The operating costs furnished to us were accepted as factual data and reviewed by us for their reasonableness; however, we have not conducted an independent verification of the operating cost data used by BKV. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved and probable developed non-producing and proved undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of September 30, 2022. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans. While these plans could change from those under existing economic conditions as of September 30, 2022, such changes were, in accordance with rules adopted by the SEC, omitted from consideration in making this evaluation.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists have received professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analyses conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

Stephen E. Gardner, P.E.
Colorado License No. 44720
Managing Senior Vice President

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at https://ryderscott.com/employees/denver-employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2021 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year covering topics such as reserves evaluation methods and evaluation software, ethics, regulatory issues, greenhouse gas management, and more.

Based on his educational background, professional training and more than 16 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.
Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves
Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared an estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold and royalty interests of BKV Corp. (BKV) referred to as the Barnett Assets as of September 30, 2022. The subject properties are located in the state of Texas. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations); except that they were based on varying price and constant cost assumptions provided by BKV. This pricing scenario is considered an "Alternate Pricing Scheme" in accordance with the above referenced Final Rule, Section II, Item B, Paragraph 3. Such forecasts were based on projected escalations or other forward-looking changes to current prices as noted. This report is a mechanical roll-forward of our initial report that was evaluated as of June 30, 2022 and published on August 16, 2022. No additional production data or cost data were considered since our prior evaluation, and this report includes the same volume projections and cost assumptions as previously, except that the effective date here is shifted forward to September 30, 2022. BKV has not informed Ryder Scott, and we are not aware, of any significant changes that would materially alter our projections or reserve assignments. Our third party study presented herein was prepared for public disclosure by BKV, as an alternate pricing scheme, in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations.

The properties referred to as the Barnett Assets evaluated by Ryder Scott account for a portion of BKV's total net proved, probable and possible reserves as of September 30, 2022. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 89 percent of the total proved, 100 percent of the total probable and 100 percent of the total possible developed net liquid hydrocarbon reserves, 56 percent of the total proved, 98 percent of the total probable and 100 percent of the total possible developed net gas reserves, 90 percent of the total proved, 100 percent of the total probable and 100 percent of the total possible undeveloped net liquid hydrocarbon reserves, and 50 percent of the total proved, 72 percent of the total probable and 42 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of September 30, 2022 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on varying NYMEX price assumptions as of September 30, 2022 provided by BKV and are explained in more detail later in this report. As a result of both economic and political forces, there is substantial uncertainty regarding the forecasting of future hydrocarbon prices. Consequently, actual future prices may vary considerably from the prices assumed in this report. The recoverable reserves

1100 LOUISIANA, SUITE 4600 HOUSTON, TEXAS 77002-5294 TEL (713) 651-9191 FAX (713) 651-0849
SUITE 2800, 350 7TH AVENUE, S.W. CALGARY, ALBERTA T2P 3N9 TEL (403) 262-2799

volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized below.

Discounted FNI @ 10%	$ 164,450	$ 161,417	$ 325,867

	Possible		
	Developed Non-Producing	Undeveloped	Total Possible
Net Reserves			
Oil/Condensate – Mbbl	0	1,128	1,128
Plant Products – Mbbl	9,999	20,700	30,699
Gas – MMcf	105,234	172,526	277,760
Income Data ($M)			
Future Gross Revenue	$ 575,411	$ 1,070,437	$ 1,645,848
Deductions	238,801	711,056	949,857
Future Net Income (FNI)	$ 336,610	$ 359,381	$ 695,991
Discounted FNI @ 10%	$ 43,617	$ 19,663	$ 63,280

Liquid hydrocarbons are expressed in standard 42 U.S. gallon barrels and shown herein as thousands of barrels (Mbbl). All gas volumes are reported on an “as sold basis” expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas volumes are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes. The deductions incorporate the normal direct costs of operating the wells, ad valorem taxes, development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for approximately 75 percent and liquid hydrocarbon reserves account for the remaining 25 percent of total future gross revenue from proved reserves. Gas reserves account for approximately 71 percent and liquid hydrocarbon reserves account for the remaining 29 percent of total future gross revenue from probable reserves. Gas reserves account for approximately 65 percent and liquid hydrocarbon reserves account for the remaining 35 percent of total future gross revenue from possible reserves.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

Discount Rate Percent	Discounted Future Net Income ($M) As of September 30, 2022 Total Proved	Total Probable	Total Possible
8	$ 3,818,217	$ 449,326	$ 100,474
12	$ 3,058,891	$ 238,453	$ 39,456
15	$ 2,668,448	$ 150,349	$ 18,447
20	$ 2,210,030	$ 68,505	$ 3,093

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a), except that they are based on price parameters which allow for future changes in current economic conditions as discussed in other sections of this report, whereas the definition approved by the SEC assumes constant price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, unless prices were defined by contractual arrangements. An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The proved, probable and possible developed non-producing reserves included herein consist of the behind pipe status category.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends primarily on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are "those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward." The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a "high degree of confidence that the quantities will be recovered." Probable reserves are "those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." Possible reserves are "those additional reserves which are less certain to be recovered than probable reserves" and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of uncertainty associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that "as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease." Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

It should be noted that the estimated quantities of reserves presented in this report, which were based on NYMEX pricing and constant cost parameters, may differ from the quantities of reserves which would be estimated using constant current price and cost parameters as prescribed by the SEC guidelines.

BKV's operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing**,** the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of reserves actually recovered and amounts of income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission's Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between March and June 2022, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved, probable, and possible developed non-producing as well as all of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically producible proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on costs and the pricing assumptions provided to us, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined; which for this report, as stated previously, are based on pricing and cost parameters provided by and requested to be used by BKV.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, ad valorem and production taxes, development costs, development plans, abandonment costs after salvage, product price assumptions based on NYMEX pricing, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations, except as noted previously.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those wells or locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Wells or locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or wells or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The future hydrocarbon price parameters used in this report, based on NYMEX Futures Strip prices, were specified by BKV and are noted below. Estimates of future price parameters have been revised in the past because of changes in governmental policies, changes in hydrocarbon supply and demand, and variations in general economic conditions. The price parameters used in this report may be revised in the future for similar reasons. Gas prices may be subject to seasonal variations and other factors and may lead to periodic curtailments by both buyers and sellers.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, certain NGL fractionation and transportation fees, and/or distance from market, referred to herein as “differentials.” The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the annual net volume weighted benchmark prices adjusted for differentials and referred to herein as the “average realized prices.” The average realized prices shown in the table below were determined from the annual total future gross revenue before production taxes and the total net reserves, by reserves category for these properties.

Geographic Area	AVERAGE BENCHMARK PRICES		AVERAGE REALIZED PRICES									
			Proved			Probable			Possible		
United States	WTI - Cushing	Henry Hub	Oil/Cond	Plant Products	Gas	Oil/Cond	Plant Products	Gas	Oil/Cond	Plant Products	Gas

2029	$ 55.22	$ 4.40	$ 47.71	$ 17.81	$ 4.08	$ 47.71	$ 17.81	$ 4.13	N/A	N/A	N/A
2030+	$ 55.41	$ 4.41	$ 47.90	$ 17.88	$ 4.08	$ 47.90	$ 17.88	$ 4.09	$ 47.90	$ 17.88	$ 4.04
Total Future Average Prices			$ 52.32	$ 19.11	$ 4.20	$ 47.96	$ 17.91	$ 4.10	$ 47.90	$ 17.88	$ 4.04

The effects of derivative instruments designated as price hedges of oil and gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. Certain gas gathering and transportation costs were included as operating expenses. The operating costs furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished to us were accepted as factual data and reviewed by us for their reasonableness using information furnished by BKV for this purpose. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved developed non-producing and proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of September 30, 2022. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists receive professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analyses conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV. This report was based on forward looking price and cost forecasts and may be filed as an additional pricing scenario to the SEC constant prices and costs case according to SEC guidelines.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at https://ryderscott.com/employees/denver-employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2021 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year covering topics such as reserves evaluation methods and evaluation software, ethics, regulatory issues, greenhouse gas management, and more.

Based on his educational background, professional training and more than 16 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be*

estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.

Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves

Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1)completion intervals that are open at the time of the estimate but which have not yet started producing;
(2)wells which were shut-in for market conditions or pipeline connections; or
(3)wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared an estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold interests of BKV Corp. (BKV) referred to as the Chaffee Corners Assets as of September 30, 2022. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations); except that they were based on varying price and constant cost assumptions provided by BKV. This pricing scenario is considered an "Alternate Pricing Scheme" in accordance with the above referenced Final Rule, Section II, Item B, Paragraph 3. Such forecasts were based on projected escalations or other forward-looking changes to current prices as noted. This report is a mechanical roll-forward of our initial report that was evaluated as of June 30, 2022 and published on August 16, 2022. No additional production data or cost data were considered since our prior evaluation, and this report includes the same volume projections and cost assumptions as previously, except that the effective date here is shifted forward to September 30, 2022. BKV has not informed Ryder Scott, and we are not aware, of any significant changes that would materially alter our projections or reserve assignments. Our third party study presented herein, was prepared for public disclosure by BKV, as an alternate pricing scheme, in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations.

The properties referred to as the Chaffee Corners Assets evaluated by Ryder Scott account for a portion of BKV's total net proved, probable and possible reserves as of September 30, 2022. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses zero percent of the total proved, zero percent of the total probable and zero percent of the total possible developed net liquid hydrocarbon reserves, 2 percent of the total proved, zero percent of the total probable and zero percent of the total possible developed net gas reserves, zero percent of the total proved, zero percent of the total probable and zero percent of the total possible undeveloped net liquid hydrocarbon reserves, and 1 percent of the total proved, 5 percent of the total probable and 2 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of September 30, 2022 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on varying NYMEX price assumptions as of September 30, 2022 provided by BKV and are explained in more detail later in this report. As a result of both economic and political forces, there is substantial uncertainty regarding the forecasting of future hydrocarbon prices. Consequently, actual future prices may vary considerably from the prices assumed in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized below.

SEC PARAMETERS (NYMEX Alternate Pricing Scheme)
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
BKV Corp.
Chaffee Corners Assets
As of September 30, 2022

	Proved			
	Developed			Total
	Producing	Non-Producing[1]	Undeveloped	Proved
Net Reserves				
Gas – MMcf	70,340	0	11,900	82,240
Income Data ($M)				
Future Gross Revenue	$ 311,024	$ 0	$ 52,604	$ 363,628
Deductions	70,406	57	21,912	92,375
Future Net Income (FNI)	$ 240,618	$ (57)	$ 30,692	$ 271,253

Discounted FNI @ 10%	$ 124,750	$ (54)	$ 11,867	$ 136,563

(1) Negative values for Future Net Income and Discounted FNI are due to abandonment liability.

	Total Probable Undeveloped	Total Possible Undeveloped
Net Reserves		
Gas – MMcf	28,848	8,012
Income Data ($M)		
Future Gross Revenue	$ 123,258	$ 34,078
Deductions	51,543	20,524
Future Net Income (FNI)	$ 71,715	$ 13,554
Discounted FNI @ 10%	$ 21,258	$ 1,696

All gas volumes are reported on an "as sold basis" expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved, probable, and possible reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

	Discounted Future Net Income ($M) As of September 30, 2022		
Discount Rate Percent	Total Proved	Total Probable	Total Possible
8	$ 151,282	$ 26,225	$ 2,654
12	$ 124,677	$ 17,403	$ 1,029
15	$ 110,613	$ 13,065	$ 383
20	$ 93,716	$ 8,260	$ (154)

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a), except that they are based on price parameters which allow for future changes in current economic conditions as discussed in other sections of this report, whereas the definition approved by the SEC assumes constant price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, unless prices were defined by contractual arrangements. An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The negative values of future net income and discounted FNI shown in the proved developed non-producing category comprise shut-in wells with only an abandonment liability.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are “estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations.” All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends primarily on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV’s request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are “those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward.” The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a “high degree of confidence that the quantities will be recovered.” Probable reserves are “those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” Possible reserves are “those additional reserves which are less certain to be recovered than probable reserves” and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of uncertainty associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that “as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease.” Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

It should be noted that the estimated quantities of reserves presented in this report, which were based on NYMEX pricing and constant cost parameters, may differ from the quantities of reserves which would be estimated using constant current price and cost parameters as prescribed by the SEC guidelines.

BKV’s operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing**,** the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of proved reserves actually recovered and amounts of proved income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission’s Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves

relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the “quantities actually recovered are much more likely to be achieved than not.” The SEC states that “probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.” The SEC states that “possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves.” All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between April and June 2022, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically producible proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on costs and the pricing assumptions provided to us, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined; which for this report, as stated previously, are based on pricing and cost parameters provided by and requested to be used by BKV.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product price assumptions based on NYMEX pricing, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations, except as noted previously.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or wells or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The future hydrocarbon price parameters used in this report, based on NYMEX Futures Strip prices, were specified by BKV and are noted below. Estimates of future price parameters have been revised in the past because of changes in governmental policies, changes in hydrocarbon supply and demand, and variations in general economic conditions. The price parameters used in this report may be revised in the future for similar reasons. Gas prices may be subject to seasonal variations and other factors and may lead to periodic curtailments by both buyers and sellers.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, and/or distance from market, referred to herein as “differentials.” The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the annual net volume weighted benchmark prices adjusted for differentials and referred to herein as the “average realized prices.” The average realized prices shown in the table below were determined from the annual total future gross revenue before production taxes and the total net reserves, by reserves category for these properties.

		AVERAGE REALIZED PRICES		
Geographic Area	AVERAGE BENCHMARK PRICES	Proved	Probable	Possible
United States	Henry Hub	Gas	Gas	Gas
Year	$/MMBtu	$/Mcf	$/Mcf	$/Mcf
2022 (3mos)	$ 6.83	$ 6.75	N/A	N/A
2023	$ 5.44	$ 5.31	$ 5.31	N/A
2024	$ 4.74	$ 4.59	$ 4.59	N/A
2025	$ 4.58	$ 4.43	$ 4.43	N/A
2026	$ 4.45	$ 4.30	$ 4.30	N/A
2027	$ 4.32	$ 4.16	$ 4.16	N/A
2028	$ 4.35	$ 4.19	$ 4.19	N/A
2029	$ 4.40	$ 4.24	$ 4.24	$ 4.24
2030+	$ 4.41	$ 4.25	$ 4.25	$ 4.25
	Total Future Average Prices	$ 4.42	$ 4.27	$ 4.25

The effects of derivative instruments designated as price hedges of oil and gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. Certain gathering and transportation fees are included as operating expenses. The operating costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV’s plans to develop

these reserves as of September 30, 2022. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists receive professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

RYDER SCOTT COMPANY PETROLEUM CONSULTANTS

The results of this study, presented herein, are based on technical analyses conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV. This report was based on forward looking price and cost forecasts and may be filed as an additional pricing scenario to the SEC constant prices and costs case according to SEC guidelines.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

Stephen E. Gardner, P.E.
Colorado License No. 44720

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at https://ryderscott.com/employees/denver-employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2021 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year covering topics such as reserves evaluation methods and evaluation software, ethics, regulatory issues, greenhouse gas management, and more.

Based on his educational background, professional training and more than 16 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.

Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may

be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves

Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

RYDER SCOTT COMPANY PETROLEUM CONSULTANTS

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1)completion intervals that are open at the time of the estimate but which have not yet started producing;

(2)wells which were shut-in for market conditions or pipeline connections; or

(3)wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared an estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold interests of BKV Corp. (BKV) referred to as the Chelsea Assets as of September 30, 2022. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations); except that they were based on varying price and constant cost assumptions provided by BKV. This pricing scenario is considered an "Alternate Pricing Scheme" in accordance with the above referenced Final Rule, Section II, Item B, Paragraph 3. Such forecasts were based on projected escalations or other forward-looking changes to current prices as noted. This report is a mechanical roll-forward of our initial report that was evaluated as of June 30, 2022 and published on August 16, 2022. No additional production data or cost data were considered since our prior evaluation, and this report includes the same volume projections and cost assumptions as previously, except that the effective date here is shifted forward to September 30, 2022. BKV has not informed Ryder Scott, and we are not aware, of any significant changes that would materially alter our projections or reserve assignments. Our third party study presented herein was prepared for public disclosure by BKV, as an alternate pricing scheme, in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations.

The properties referred to as the Chelsea Assets evaluated by Ryder Scott account for a portion of BKV's total net proved, probable and possible reserves as of September 30, 2022. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses zero percent of the total proved, zero percent of the total probable and zero percent of the total possible developed net liquid hydrocarbon reserves, 6 percent of the total proved, zero percent of the total probable and zero percent of the total possible developed net gas reserves, zero percent of the total proved, zero percent of the total probable and zero percent of the total possible undeveloped net liquid hydrocarbon reserves, and 14 percent of the total proved, 14 percent of the total probable and 34 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of September 30, 2022 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on varying NYMEX price assumptions as of September 30, 2022 provided by BKV and are explained in more detail later in this report. As a result of both economic and political forces, there is substantial uncertainty regarding the forecasting of future hydrocarbon prices. Consequently, actual future prices may vary considerably from the prices assumed in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized below.

SEC PARAMETERS (NYMEX Alternate Pricing Scheme)
Estimated Net Reserves and Income Data
Certain Leasehold Interests of
BKV Corp.
Chelsea Assets
As of September 30, 2022

	Proved			
	Developed			Total
	Producing	Non-Producing	Undeveloped	Proved
Net Reserves				
Gas – MMcf	206,717	5,796	165,002	377,515
Income Data ($M)				
Future Gross Revenue	$ 810,612	$ 22,767	$ 627,782	$ 1,461,161
Deductions	314,626	11,043	256,055	581,724
Future Net Income (FNI)	$ 495,986	$ 11,724	$ 371,727	$ 879,437
Discounted FNI @ 10%	$ 280,496	$ 5,887	$ 146,927	$ 433,310

	Total Probable Undeveloped	Total Possible Undeveloped
Net Reserves		
Gas – MMcf	81,808	142,517
Income Data ($M)		
Future Gross Revenue	$ 306,396	$ 530,983
Deductions	138,210	288,291
Future Net Income (FNI)	$ 168,186	$ 242,692
Discounted FNI @ 10%	$ 45,273	$ 45,069

All gas volumes are reported on an "as sold basis" expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved, probable, and possible reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

	Discounted Future Net Income ($M) As of September 30, 2022		
Discount Rate Percent	Total Proved	Total Probable	Total Possible
8	$ 482,620	$ 56,804	$ 61,187
12	$ 393,310	$ 36,475	$ 33,516
15	$ 345,794	$ 26,789	$ 21,780
20	$ 288,530	$ 16,462	$ 10,834

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a), except that they are based on price parameters which allow for future changes in current economic conditions as discussed in other sections of this report, whereas the definition approved by the SEC assumes constant price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, unless prices were defined by contractual arrangements. An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The proved developed non-producing reserves included herein consist of the shut-in and behind pipe status categories.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends primarily on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative

degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are "those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward." The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a "high degree of confidence that the quantities will be recovered." Probable reserves are "those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." Possible reserves are "those additional reserves which are less certain to be recovered than probable reserves" and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of uncertainty associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that "as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease." Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

It should be noted that the estimated quantities of reserves presented in this report, which were based on NYMEX pricing and constant cost parameters, may differ from the quantities of reserves which would be estimated using constant current price and cost parameters as prescribed by the SEC guidelines.

BKV's operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing**,** the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of proved reserves actually recovered and amounts of proved income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission's Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of

possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between April and June 2022, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically producible proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on costs and the pricing assumptions provided to us, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined; which for this report, as stated previously, are based on pricing and cost parameters provided by and requested to be used by BKV.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product price assumptions based on NYMEX pricing, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the "SEC Regulations." In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations, except as noted previously.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or wells or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The future hydrocarbon price parameters used in this report, based on NYMEX Futures Strip prices, were specified by BKV and are noted below. Estimates of future price parameters have been revised in the past because of changes in governmental policies, changes in hydrocarbon supply and demand, and variations in general economic conditions. The price parameters used in this report may be revised in the future for similar reasons. Gas prices may be subject to seasonal variations and other factors and may lead to periodic curtailments by both buyers and sellers.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the annual net volume weighted benchmark prices adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the annual total future gross revenue before production taxes and the total net reserves, by reserves category for these properties.

		AVERAGE REALIZED PRICES		
Geographic Area	AVERAGE BENCHMARK PRICES	Proved	Probable	Possible
United States	Henry Hub	Gas	Gas	Gas
Year	$/MMBtu	$/Mcf	$/Mcf	$/Mcf
2022 (3 mos)	$ 6.83	$ 6.23	N/A	N/A
2023	$ 5.44	$ 4.80	N/A	N/A
2024	$ 4.74	$ 4.08	$ 4.07	N/A
2025	$ 4.58	$ 3.92	$ 3.91	N/A
2026	$ 4.45	$ 3.79	$ 3.78	N/A
2027	$ 4.32	$ 3.66	$ 3.64	N/A
2028	$ 4.35	$ 3.69	$ 3.69	N/A
2029	$ 4.40	$ 3.74	$ 3.74	$ 3.72
2030+	$ 4.41	$ 3.75	$ 3.75	$ 3.73
	Total Future Average Prices	$ 3.87	$ 3.75	$ 3.73

The effects of derivative instruments designated as price hedges of oil and gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. Certain gathering and transportation fees are included as operating expenses. The operating costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by BKV were reviewed by us for their reasonableness; however, we have not conducted an independent verification of the data used by BKV to determine these costs. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of September 30, 2022. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists receive professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analyses conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV. This report was based on forward looking price and cost forecasts and may be filed as an additional pricing scenario to the SEC constant prices and costs case according to SEC guidelines.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

Stephen E. Gardner, P.E.
Colorado License No. 44720
Managing Senior Vice President

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at https://ryderscott.com/employees/denver-employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2021 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year covering topics such as reserves evaluation methods and evaluation software, ethics, regulatory issues, greenhouse gas management, and more.

Based on his educational background, professional training and more than 16 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples

of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.

Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves

Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;

(2) wells which were shut-in for market conditions or pipeline connections; or

(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion

before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i)Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii)Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared an estimate of the proved, probable and possible reserves, future production, and income attributable to certain leasehold interests of BKV Corp. (BKV) referred to as the BKV Assets as of September 30, 2022. The subject properties are located in the state of Pennsylvania. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations); except that they were based on varying price and constant cost assumptions provided by BKV. This pricing scenario is considered an "Alternate Pricing Scheme" in accordance with the above referenced Final Rule, Section II, Item B, Paragraph 3. Such forecasts were based on projected escalations or other forward-looking changes to current prices as noted. This report is a mechanical roll-forward of our initial report that was evaluated as of June 30, 2022 and published on August 16, 2022. No additional production data or cost data were considered since our prior evaluation, and this report includes the same volume projections and cost assumptions as previously, except that the effective date here is shifted forward to September 30, 2022. BKV has not informed Ryder Scott, and we are not aware, of any significant changes that would materially alter our projections or reserve assignments. Our third party study presented herein was prepared for public disclosure by BKV, as an alternate pricing scheme, in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations.

The properties referred to as the BKV Assets evaluated by Ryder Scott account for a portion of BKV's total net proved, probable and possible reserves as of September 30, 2022. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses zero percent of the total proved, zero percent of the total probable and zero percent of the total possible developed net liquid hydrocarbon reserves, 7 percent of the total proved, zero percent of the total probable and zero percent of the total possible developed net gas reserves, zero percent of the total proved, zero percent of the total probable and zero percent of the total possible undeveloped net liquid hydrocarbon reserves, and 17 percent of the total proved, 9 percent of the total probable and 22 percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of September 30, 2022 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on varying NYMEX price assumptions as of September 30, 2022 provided by BKV and are explained in more detail later in this report. As a result of both economic and political forces, there is substantial uncertainty regarding the forecasting of future hydrocarbon prices. Consequently, actual future prices may vary considerably from the prices assumed in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized below.

Estimated Net Reserves and Income Data
Certain Leasehold and Royalty Interests of
BKV Corp.
BKV Assets
As of September 30, 2022

	Proved			
	Developed			Total
	Producing	Non-Producing	Undeveloped	Proved
Net Reserves				
Gas – MMcf	240,249	15,491	191,504	447,244
Income Data ($M)				
Future Gross Revenue	$ 958,932	$ 60,973	$ 736,197	$ 1,756,102
Deductions	362,104	30,041	322,511	714,656
Future Net Income (FNI)	$ 596,828	$ 30,932	$ 413,686	$ 1,041,446
Discounted FNI @ 10%	$ 349,816	$ 15,611	$ 165,029	$ 530,456

	Total Probable Undeveloped	Total Possible Undeveloped
Net Reserves		
Gas – MMcf	53,344	93,254
Income Data ($M)		

Future Gross Revenue	$ 201,250	$ 347,305
Deductions	94,042	189,308
Future Net Income (FNI)	$ 107,208	$ 157,997
Discounted FNI @ 10%	$ 27,899	$ 29,279

All gas volumes are reported on an "as sold basis" expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas reserves are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes, but in the state of Pennsylvania, these taxes are zero. The deductions incorporate the normal direct costs of operating the wells, the Pennsylvania Impact Fee (presented herein as ad valorem taxes), development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for 100 percent of the total future gross revenue from the proved, probable, and possible reserves reported herein.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

	Discounted Future Net Income ($M) As of September 30, 2022		
Discount Rate Percent	Total Proved	Total Probable	Total Possible
8	$ 587,111	$ 35,201	$ 39,768
12	$ 484,433	$ 22,362	$ 21,766
15	$ 429,667	$ 16,314	$ 14,138
20	$ 363,489	$ 9,957	$ 7,030

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved, probable and possible reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations Part 210.4-10(a), except that they are based on price parameters which allow for future changes in current economic conditions as discussed in other sections of this report, whereas the definition approved by the SEC assumes constant price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, unless prices were defined by contractual arrangements. An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The proved developed non-producing reserves included herein consist of the shut-in and behind pipe status categories.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved, probable and possible gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty

depends primarily on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved, probable and possible reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are "those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward." The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a "high degree of confidence that the quantities will be recovered." Probable reserves are "those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." Possible reserves are "those additional reserves which are less certain to be recovered than probable reserves" and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of uncertainty associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that "as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease." Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved, probable and possible reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

It should be noted that the estimated quantities of reserves presented in this report, which were based on NYMEX pricing and constant cost parameters, may differ from the quantities of reserves which would be estimated using constant current price and cost parameters as prescribed by the SEC guidelines.

BKV's operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing**,** the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of reserves actually recovered and amounts of income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission's Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as

changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved, probable and possible reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data ending between April and June 2022, depending on the availability of data for a given case and in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved developed non-producing as well as all of the proved, probable, and possible undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically producible proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on costs and the pricing assumptions provided to us, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined; which for this report, as stated previously, are based on pricing and cost parameters provided by and requested to be used by BKV.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests owned, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, the Pennsylvania Impact Fee, development costs, development plans, abandonment costs after salvage, product price assumptions based on NYMEX pricing, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved, probable and possible reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the “SEC Regulations.” In our opinion, the proved, probable and possible reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations, except as noted previously.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those wells or locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Wells or locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

RYDER SCOTT COMPANY PETROLEUM CONSULTANTS

The future production rates from wells currently on production or wells or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The future hydrocarbon price parameters used in this report, based on NYMEX Futures Strip prices, were specified by BKV and are noted below. Estimates of future price parameters have been revised in the past because of changes in governmental policies, changes in hydrocarbon supply and demand, and variations in general economic conditions. The price parameters used in this report may be revised in the future for similar reasons. Gas prices may be subject to seasonal variations and other factors and may lead to periodic curtailments by both buyers and sellers.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, and/or distance from market, referred to herein as "differentials." The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the annual net volume weighted benchmark prices adjusted for differentials and referred to herein as the "average realized prices." The average realized prices shown in the table below were determined from the annual total future gross revenue before production taxes and the total net reserves, by reserves category for these properties.

		AVERAGE REALIZED PRICES		
Geographic Area	AVERAGE BENCHMARK PRICES	Proved	Probable	Possible
United States	Henry Hub	Gas	Gas	Gas
Year	$/MMBtu	$/Mcf	$/Mcf	$/Mcf
2022 (3 mos)	$ 6.83	$ 6.26	N/A	N/A
2023	$ 5.44	$ 4.84	N/A	N/A
2024	$ 4.74	$ 4.12	N/A	N/A
2025	$ 4.58	$ 3.95	N/A	N/A
2026	$ 4.45	$ 3.82	N/A	N/A
2027	$ 4.32	$ 3.69	N/A	N/A
2028	$ 4.35	$ 3.72	$ 3.73	N/A
2029	$ 4.40	$ 3.77	$ 3.77	$ 3.71
2030+	$ 4.41	$ 3.78	$ 3.78	$ 3.72
	Total Future Average Prices	$ 3.93	$ 3.77	$ 3.72

The effects of derivative instruments designated as price hedges of oil and gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of BKV and include only those costs directly applicable to the leases or wells. Certain gas gathering and transportation costs were included as operating expenses. The operating costs furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished to us were reviewed by us for their reasonableness using information furnished by BKV for this purpose. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved, probable, and possible undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of September 30, 2022. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists receive professional accreditation in the form

of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analyses conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV. This report was based on forward looking price and cost forecasts and may be filed as an additional pricing scenario to the SEC constant prices and costs case according to SEC guidelines.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

Stephen E. Gardner, P.E.
Colorado License No. 44720
Managing Senior Vice President

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at https://ryderscott.com/employees/denver-employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of

continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2021 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year covering topics such as reserves evaluation methods and evaluation software, ethics, regulatory issues, greenhouse gas management, and more.

Based on his educational background, professional training and more than 16 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to Regulation S-X and Regulation S-K, shall be referred to herein collectively as the "SEC regulations". The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

RYDER SCOTT COMPANY PETROLEUM CONSULTANTS

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and*

financing required to implement the project.

Note to paragraph (a)(26): *Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).*

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.

Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

POSSIBLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(17) defines possible oil and gas reserves as follows:

Possible reserves. *Possible reserves are those additional reserves that are less certain to be recovered than probable reserves.*

(i) When deterministic methods are used, the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves. When probabilistic methods are used, there should be at least a 10% probability that the total quantities ultimately recovered will equal or exceed the proved plus probable plus possible reserves estimates.

(ii) Possible reserves may be assigned to areas of a reservoir adjacent to probable reserves where data control and interpretations of available data are progressively less certain. Frequently, this will be in areas where geoscience and engineering data are unable to define clearly the area and vertical limits of commercial production from the reservoir by a defined project.

(iii) Possible reserves also include incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than the recovery quantities assumed for probable reserves.

(iv) The proved plus probable and proved plus probable plus possible reserves estimates must be based on reasonable alternative technical and commercial interpretations within the reservoir or subject project that are clearly documented, including comparisons to results in successful similar projects.

(v) Possible reserves may be assigned where geoscience and engineering data identify directly adjacent portions of a reservoir within the same accumulation that may be separated from proved areas by faults with displacement less than formation thickness or other geological discontinuities and that have not been penetrated by a wellbore, and the registrant believes that such adjacent portions are in communication with the known (proved) reservoir. Possible reserves may be assigned to areas that are structurally higher or lower than the proved area if these areas are in communication with the proved reservoir.

(vi) Pursuant to paragraph (a)(22)(iii) of this section, where direct observation has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves should be assigned in the structurally higher portions of the reservoir above the HKO only if the higher contact can be established with reasonable certainty through reliable technology. Portions of the reservoir that do not meet this reasonable certainty criterion may be assigned as probable and possible oil or gas based on reservoir fluid properties and pressure gradient interpretations.

RYDER SCOTT COMPANY PETROLEUM CONSULTANTS

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)
EUROPEAN ASSOCIATION OF GEOSCIENTISTS & ENGINEERS (EAGE)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves

Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

(1) completion intervals that are open at the time of the estimate but which have not yet started producing;
(2) wells which were shut-in for market conditions or pipeline connections; or
(3) wells not capable of production for mechanical reasons.

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.

BKV Corp.
1200 17th Street, Suite 1850
Denver, CO 80202

Ladies and Gentlemen:

At your request, Ryder Scott Company, L.P. (Ryder Scott) has prepared an estimate of the proved and probable reserves, future production, and income attributable to certain leasehold and royalty interests of BKV Corp. (BKV) as of September 30, 2022. The subject properties were recently acquired from XTO Energy Inc. (XTO) and are located in the Barnett Shale Play of Texas, referred to herein as Project Europa. The reserves and income data were estimated based on the definitions and disclosure guidelines of the United States Securities and Exchange Commission (SEC) contained in Title 17, Code of Federal Regulations, Modernization of Oil and Gas Reporting, Final Rule released January 14, 2009 in the Federal Register (SEC regulations); except that they were based on varying price and constant cost assumptions provided by BKV. This pricing scenario is considered an “Alternate Pricing Scheme” in accordance with the above referenced Final Rule, Section II, Item B, Paragraph 3. Such forecasts were based on projected escalations or other forward-looking changes to current prices as noted. This report is a mechanical roll-forward of our initial report that was evaluated as of February 1, 2022 and published on May 20, 2022. No additional production data or cost data were considered since our prior evaluation, and this report includes the same volume projections and cost assumptions as previously, except that the effective date here is shifted forward to September 30, 2022. BKV has not informed Ryder Scott, and we are not aware, of any significant changes that would materially alter our projections or reserve assignments. Our third party study presented herein was prepared for public disclosure by BKV, as an alternate pricing scheme, in filings made with the SEC in accordance with the disclosure requirements set forth in the SEC regulations.

The properties referred to as Project Europa evaluated by Ryder Scott account for a portion of BKV’s total net proved, probable and possible reserves as of September 30, 2022. Based on information provided by BKV, the third party estimate conducted by Ryder Scott addresses 11 percent of the total proved, zero percent of the total probable and zero percent of the total possible developed net liquid hydrocarbon reserves, 29 percent of the total proved, 2 percent of the total probable and zero percent of the total possible developed net gas reserves, 10 percent of the total proved, zero percent of the total probable and zero percent of the total possible undeveloped net liquid hydrocarbon reserves, and 18 percent of the total proved, zero percent of the total probable and zero percent of the total possible undeveloped net gas reserves of BKV.

The estimated reserves and future net income amounts presented in this report, as of September 30, 2022 are related to hydrocarbon prices. The hydrocarbon prices used in the preparation of this report are based on varying NYMEX price assumptions as of September 30, 2022 provided by BKV and are explained in more detail later in this report. As a result of both economic and political forces, there is substantial uncertainty regarding the forecasting of future hydrocarbon prices. Consequently, actual future prices may vary considerably from the prices assumed in this report. The recoverable reserves volumes and the income attributable thereto have a direct relationship to the hydrocarbon prices actually received; therefore, volumes of reserves actually recovered and the amounts of income actually received may differ significantly from the estimated quantities presented in this report. The results of this study are summarized below.

Net Reserves	
Oil/Condensate – Mbbl	0
Plant Products – Mbbl	0
Gas – MMcf	6,164
Income Data ($M)	
Future Gross Revenue	$ 20,708
Deductions	7,654
Future Net Income (FNI)	$ 13,054
Discounted FNI @ 10%	$ 2,626

Liquid hydrocarbons are expressed in standard 42 U.S. gallon barrels and shown herein as thousands of barrels (Mbbl). All gas volumes are reported on an "as sold basis" expressed in millions of cubic feet (MMcf) at the official temperature and pressure bases of the areas in which the gas volumes are located. In this report, the revenues, deductions, and income data are expressed as thousands of U.S. dollars ($M).

RYDER SCOTT COMPANY PETROLEUM CONSULTANTS

The estimates of the reserves, future production, and income attributable to properties in this report were prepared using the economic software package ARIES™ Petroleum Economics and Reserves Software, a copyrighted program of Halliburton. The program was used at the request of BKV. Ryder Scott has found this program to be generally acceptable, but notes that certain summaries and calculations may vary due to rounding and may not exactly match the sum of the properties being summarized. Furthermore, one line economic summaries may vary slightly from the more detailed cash flow projections of the same properties, also due to rounding. The rounding differences are not material.

The future gross revenue is after the deduction of production taxes. The deductions incorporate the normal direct costs of operating the wells, ad valorem taxes, recompletion and development costs, and certain abandonment costs net of salvage. The future net income is before the deduction of state and federal income taxes and general administrative overhead, and has not been adjusted for outstanding loans that may exist nor does it include any adjustment for cash on hand or undistributed income.

Gas reserves account for approximately 91 percent and liquid hydrocarbon reserves account for the remaining 9 percent of total future gross revenue from proved reserves. Gas reserves account for 100 percent of total future gross revenue from probable reserves.

The discounted future net income shown above was calculated using a discount rate of 10 percent per annum compounded monthly. Future net income was discounted at four other discount rates which were also compounded monthly. These results are shown in summary form as follows.

	Discounted Future Net Income ($M) As of September 30, 2022	
Discount Rate Percent	Total Proved	Total Probable
8	$ 1,474,945	$ 3,474
12	$ 1,180,737	$ 2,003
15	$ 1,027,552	$ 1,345
20	$ 846,659	$ 686

The results shown above are presented for your information and should not be construed as our estimate of fair market value.

Reserves Included in This Report

The proved and probable reserves included herein conform to the definitions as set forth in the Securities and Exchange Commission's Regulations

Part 210.4-10(a), except that they are based on price parameters which allow for future changes in current economic conditions as discussed in other sections of this report, whereas the definition approved by the SEC assumes constant price parameters using the average prices during the 12-month period prior to the "as of date" of this report, determined as the unweighted arithmetic averages of the prices in effect on the first-day-of-the-month for each month within such period, unless prices were defined by contractual arrangements. An abridged version of the SEC reserves definitions from 210.4-10(a) entitled "PETROLEUM RESERVES DEFINITIONS" is included as an attachment to this report.

The various reserves status categories are defined in the attachment entitled "PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES" in this report. The proved and probable developed non-producing reserves included herein consist of the behind pipe status category.

No attempt was made to quantify or otherwise account for any accumulated gas production imbalances that may exist. The proved and probable gas volumes presented herein do not include volumes of gas consumed in operations as reserves.

Reserves are "estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations." All reserves estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends primarily on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-categorized as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. At BKV's request, this report addresses the proved and probable reserves attributable to the properties evaluated herein.

Proved oil and gas reserves are "those quantities of oil and gas which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward." The SEC has defined reasonable certainty for proved reserves, when based on deterministic methods, as a "high degree of confidence that the quantities will be recovered." Probable reserves are "those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." Possible reserves are "those additional reserves which are less certain to be recovered than probable reserves" and thus the probability of achieving or exceeding the proved plus probable plus possible reserves is low.

The reserves included herein were estimated using deterministic methods and are presented as incremental quantities. Under the deterministic incremental approach, discrete quantities of reserves are estimated and assigned separately as proved, probable or possible based on their individual level of uncertainty. Because of the differences in uncertainty, caution should be exercised when aggregating quantities of oil and gas from different reserves categories. Furthermore, the reserves and income quantities attributable to the different reserves categories that are included herein have not been adjusted to reflect these varying degrees of uncertainty associated with them and thus are not comparable.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change. For proved reserves, the SEC states that "as changes due to increased availability of geoscience (geological, geophysical, and geochemical), engineering, and economic data are made to the estimated ultimate recovery (EUR) with time, reasonably certain EUR is much more likely to increase or remain constant than to decrease." Moreover, estimates of proved, probable and possible reserves may be revised as a result of future operations, effects of regulation by governmental agencies or geopolitical or economic risks. Therefore, the proved and probable reserves included in this report are estimates only and should not be construed as being exact quantities, and if recovered, the revenues therefrom, and the actual costs related thereto, could be more or less than the estimated amounts.

It should be noted that the estimated quantities of reserves presented in this report, which were based on NYMEX pricing and constant cost parameters, may differ from the quantities of reserves which would be estimated using constant current price and cost parameters as prescribed by the SEC guidelines.

BKV's operations may be subject to various levels of governmental controls and regulations. These controls and regulations may include, but may not be limited to, matters relating to land tenure and leasing**,** the legal rights to produce hydrocarbons, drilling and production practices, environmental protection, marketing and pricing policies, royalties, various taxes and levies including income tax and are subject to change from time to time. Such changes in governmental regulations and policies may cause volumes of reserves actually recovered and amounts of income actually received to differ significantly from the estimated quantities.

The estimates of reserves presented herein were based upon a detailed study of the properties in which BKV owns an interest; however, we have not made any field examination of the properties. No consideration was given in this report to potential environmental liabilities that may exist nor were any costs

included for potential liabilities to restore and clean up damages, if any, caused by past operating practices.

Estimates of Reserves

The estimation of reserves involves two distinct determinations. The first determination results in the estimation of the quantities of recoverable oil and gas and the second determination results in the estimation of the uncertainty associated with those estimated quantities in accordance with the definitions set forth by the Securities and Exchange Commission's Regulations Part 210.4-10(a). The process of estimating the quantities of recoverable oil and gas reserves relies on the use of certain generally accepted analytical procedures. These analytical procedures fall into three broad categories or methods: (1) performance-based methods, (2) volumetric-based methods and (3) analogy. These methods may be used individually or in combination by the reserves evaluator in the process of estimating the quantities of reserves. Reserves evaluators must select the method or combination of methods which in their professional judgment is most appropriate given the nature and amount of reliable geoscience and engineering data available at the time of the estimate, the established or anticipated performance characteristics of the reservoir being evaluated, and the stage of development or producing maturity of the property.

In many cases, the analysis of the available geoscience and engineering data and the subsequent interpretation of this data may indicate a range of possible outcomes in an estimate, irrespective of the method selected by the evaluator. When a range in the quantity of reserves is identified, the evaluator must determine the uncertainty associated with the incremental quantities of the reserves. If the reserves quantities are estimated using the deterministic incremental approach, the uncertainty for each discrete incremental quantity of the reserves is addressed by the reserves category assigned by the evaluator. Therefore, it is the categorization of reserves quantities as proved, probable and/or possible that addresses the inherent uncertainty in the estimated quantities reported. For proved reserves, uncertainty is defined by the SEC as reasonable certainty wherein the "quantities actually recovered are much more likely to be achieved than not." The SEC states that "probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered." The SEC states that "possible reserves are those additional reserves that are less certain to be recovered than probable reserves and the total quantities ultimately recovered from a project have a low probability of exceeding proved plus probable plus possible reserves." All quantities of reserves within the same reserves category must meet the SEC definitions as noted above.

Estimates of reserves quantities and their associated reserves categories may be revised in the future as additional geoscience or engineering data become available. Furthermore, estimates of reserves quantities and their associated reserves categories may also be revised due to other factors such as changes in economic conditions, results of future operations, effects of regulation by governmental agencies or geopolitical or economic risks as previously noted herein.

The proved and probable reserves for the properties included herein were estimated by performance methods or analogy. All of the proved reserves attributable to producing wells and/or reservoirs were estimated by decline curve analysis, a performance method which utilized extrapolations of historical production and pressure data available through December 2021 in those cases where such data were considered to be definitive. The data utilized in this analysis were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

All of the proved and probable developed non-producing as well as all of the proved undeveloped reserves included herein were estimated by analogy. The data utilized from the analogues were furnished to Ryder Scott by BKV or obtained from public data sources and were considered sufficient for the purpose thereof.

To estimate economically producible proved, probable and possible oil and gas reserves and related future net cash flows, we consider many factors and assumptions including, but not limited to, the use of reservoir parameters derived from geological, geophysical and engineering data which cannot be measured directly, economic criteria based on costs and the pricing assumptions provided to us, and forecasts of future production rates. Under the SEC regulations 210.4-10(a)(22)(v) and (26), proved, probable and possible reserves must be anticipated to be economically producible from a given date forward based on existing economic conditions including the prices and costs at which economic producibility from a reservoir is to be determined; which for this report, as stated previously, are based on pricing and cost parameters provided by and requested to be used by BKV.

BKV has informed us that they have furnished us all of the material accounts, records, geological and engineering data, and reports and other data required for this investigation. In preparing our forecast of future proved, probable and possible production and income, we have relied upon data furnished by BKV with respect to property interests acquired, production and well tests from examined wells, normal direct costs of operating the wells or leases, other costs such as transportation and/or processing fees, ad valorem and production taxes, recompletion and development costs, development plans, abandonment costs after salvage, product price assumptions based on NYMEX pricing, adjustments or differentials to product prices, and base maps. Ryder Scott reviewed such factual data for its reasonableness; however, we have not conducted an independent verification of the data furnished by BKV. We consider the factual data used in this report appropriate and sufficient for the purpose of preparing the estimates of reserves and future net revenues herein.

In summary, we consider the assumptions, data, methods and analytical procedures used in this report appropriate for the purpose hereof, and we have used all such methods and procedures that we consider necessary and appropriate to prepare the estimates of reserves herein. The proved and probable reserves included herein were determined in conformance with the United States Securities and Exchange Commission (SEC) Modernization of Oil and Gas Reporting; Final Rule, including all references to Regulation S-X and Regulation S-K, referred to herein collectively as the "SEC Regulations." In our opinion, the proved and probable reserves presented in this report comply with the definitions, guidelines and disclosure requirements as required by the SEC regulations, except as noted previously.

Future Production Rates

For the producing wells included herein, our forecasts of future production rates and decline trends are based on the historical performance data of

each well.

The initial performance of analogous wells was used to estimate the anticipated initial production rates for those wells or locations that are not currently producing. For reserves not yet on production, sales were estimated to commence at an anticipated date furnished by BKV. Wells or locations that are not currently producing may start producing earlier or later than anticipated in our estimates due to unforeseen factors causing a change in the timing to initiate production. Such factors may include delays due to weather, the availability of rigs, the sequence of drilling, well completions, and/or constraints set by regulatory bodies.

The future production rates from wells currently on production or wells or locations that are not currently producing may be more or less than estimated because of changes including, but not limited to, reservoir performance, operating conditions related to surface facilities, compression and artificial lift, pipeline capacity and/or operating conditions, producing market demand and/or allowables or other constraints set by regulatory bodies.

Hydrocarbon Prices

The future hydrocarbon price parameters used in this report, based on NYMEX Futures Strip prices, were specified by BKV and are noted below. Estimates of future price parameters have been revised in the past because of changes in governmental policies, changes in hydrocarbon supply and demand, and variations in general economic conditions. The price parameters used in this report may be revised in the future for similar reasons. Gas prices may be subject to seasonal variations and other factors and may lead to periodic curtailments by both buyers and sellers.

The product prices which were actually used to determine the future gross revenue for each property reflect adjustments to the benchmark prices for gravity, quality, local conditions, certain NGL fractionation and transportation fees, and/or distance from market, referred to herein as “differentials.” The differentials used in the preparation of this report were furnished to us by BKV. The differentials furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose.

In addition, the table below summarizes the annual net volume weighted benchmark prices adjusted for differentials and referred to herein as the “average realized prices.” The average realized prices shown in the table below were determined from the annual total future gross revenue before production taxes and the total net reserves, by reserves category for these properties.

Geographic Area	AVERAGE BENCHMARK PRICES		AVERAGE REALIZED PRICES					
			Proved			Probable		
United States Year	WTI - Cushing $/Bbl	Henry Hub $/MMBtu	Oil/Cond $/Bbl	Plant Products $/Bbl	Gas $/Mcf	Oil/Cond $/Bbl	Plant Products $/Bbl	Gas $/Mcf
2022 (3 mos)	$ 79.11	$ 6.83	$ 73.91	$ 24.09	$ 5.43	N/A	N/A	N/A
2023	$ 73.06	$ 5.44	$ 67.86	$ 22.25	$ 4.05	N/A	N/A	N/A
2024	$ 67.08	$ 4.74	$ 61.85	$ 20.43	$ 3.39	N/A	N/A	N/A
2025	$ 63.57	$ 4.58	$ 58.31	$ 19.36	$ 3.25	N/A	N/A	N/A
2026	$ 60.97	$ 4.45	$ 55.73	$ 18.57	$ 3.12	N/A	N/A	N/A
2027	$ 58.80	$ 4.32	$ 53.57	$ 17.91	$ 3.35	N/A	N/A	$ 3.39
2028	$ 56.85	$ 4.35	$ 51.63	$ 17.32	$ 3.37	N/A	N/A	$ 3.42
2029	$ 55.22	$ 4.40	$ 50.00	$ 16.82	$ 3.42	N/A	N/A	$ 3.47
2030+	$ 55.41	$ 4.41	$ 50.20	$ 16.88	$ 3.42	N/A	N/A	$ 3.48
Total Future Average Prices			$ 53.64	$ 17.85	$ 3.45	N/A	N/A	$ 3.46

The effects of derivative instruments designated as price hedges of oil and gas quantities are not reflected in our individual property evaluations.

Costs

Operating costs for the leases and wells in this report were furnished by BKV and are based on the operating expense reports of XTO and include only

those costs directly applicable to the leases or wells. The operating costs furnished to us were accepted as factual data and reviewed by us for their reasonableness; however, we have not conducted an independent verification of the operating cost data used by BKV. No deduction was made for loan repayments, interest expenses, or exploration and development prepayments that were not charged directly to the leases or wells.

Development costs were furnished to us by BKV and are based on authorizations for expenditure for the proposed work or actual costs for similar projects. The development costs furnished by BKV were reviewed by us for their reasonableness using information furnished by BKV for this purpose. The estimated net cost of abandonment after salvage was included for properties where abandonment costs net of salvage were material. The estimates of the net abandonment costs furnished by BKV were accepted without independent verification.

The proved and probable developed non-producing and proved undeveloped reserves in this report have been incorporated herein in accordance with BKV's plans to develop these reserves as of September 30, 2022. The implementation of BKV's development plans as presented to us and incorporated herein is subject to the approval process adopted by BKV's management. As the result of our inquiries during the course of preparing this report, BKV has informed us that the development activities included herein have been subjected to and received the internal approvals required by BKV's management at the appropriate local, regional and/or corporate level. In addition to the internal approvals as noted, certain development activities may still be subject to specific partner AFE processes, Joint Operating Agreement (JOA) requirements or other administrative approvals external to BKV. BKV has provided written documentation supporting their commitment to proceed with the development activities as presented to us. Additionally, BKV has informed us that they are not aware of any legal, regulatory, or political obstacles that would significantly alter their plans.

Current costs used by BKV were held constant throughout the life of the properties.

Standards of Independence and Professional Qualification

Ryder Scott is an independent petroleum engineering consulting firm that has been providing petroleum consulting services throughout the world since 1937. Ryder Scott is employee-owned and maintains offices in Houston, Texas; Denver, Colorado; and Calgary, Alberta, Canada. We have approximately eighty engineers and geoscientists on our permanent staff. By virtue of the size of our firm and the large number of clients for which we provide services, no single client or job represents a material portion of our annual revenue. We do not serve as officers or directors of any privately-owned or publicly-traded oil and gas company and are separate and independent from the operating and investment decision-making process of our clients. This allows us to bring the highest level of independence and objectivity to each engagement for our services.

Ryder Scott actively participates in industry-related professional societies and organizes an annual public forum focused on the subject of reserves evaluations and SEC regulations. Many of our staff have authored or co-authored technical papers on the subject of reserves related topics. We encourage our staff to maintain and enhance their professional skills by actively participating in ongoing continuing education.

Prior to becoming an officer of the Company, Ryder Scott requires that staff engineers and geoscientists receive professional accreditation in the form of a registered or certified professional engineer's license or a registered or certified professional geoscientist's license, or the equivalent thereof, from an appropriate governmental authority or a recognized self-regulating professional organization. Regulating agencies require that, in order to maintain active status, a certain amount of continuing education hours be completed annually, including an hour of ethics training. Ryder Scott fully supports this technical and ethics training with our internal requirement mentioned above.

We are independent petroleum engineers with respect to BKV. Neither we nor any of our employees have any financial interest in the subject properties and neither the employment to do this work nor the compensation is contingent on our estimates of reserves for the properties which were reviewed.

The results of this study, presented herein, are based on technical analyses conducted by teams of geoscientists and engineers from Ryder Scott. The professional qualifications of the undersigned, the technical person primarily responsible for overseeing the evaluation of the reserves information discussed in this report, are included as an attachment to this letter.

Terms of Usage

The results of our third party study, presented in report form herein, were prepared in accordance with the disclosure requirements set forth in the SEC regulations and intended for public disclosure as an exhibit in filings made with the SEC by BKV. This report was based on forward looking price and cost forecasts and may be filed as an additional pricing scenario to the SEC constant prices and costs case according to SEC guidelines.

For filings made with the SEC under the 1933 securities Act, we have provided our written consent for the references to our name as well as to the references to our third party report in the registration statement on Form S-1 by BKV. Our consent for such use is included as a separate exhibit to the filings made with the SEC by BKV.

We have provided BKV with a digital version of the original signed copy of this report letter. In the event there are any differences between the digital version included in filings made by BKV and the original signed report letter, the original signed report letter shall control and supersede the digital version.

The data and work papers used in the preparation of this report are available for examination by authorized parties in our offices. Please contact us if we can be of further service.

Very truly yours,

RYDER SCOTT COMPANY, L.P.
TBPELS Firm Registration No. F-1580

Stephen E. Gardner, P.E.
Colorado License No. 44720
Managing Senior Vice President

SEG (LPC)/pl

Professional Qualifications of Primary Technical Person

The conclusions presented in this report are the result of technical analysis conducted by teams of geoscientists and engineers from Ryder Scott Company, L.P. Mr. Stephen E. Gardner is the primary technical person responsible for the estimate of the reserves, future production and income.

Mr. Gardner, an employee of Ryder Scott Company, L.P. (Ryder Scott) since 2006, is a Managing Senior Vice President responsible for ongoing reservoir evaluation studies worldwide. Before joining Ryder Scott, Mr. Gardner served in a number of engineering positions with Exxon Mobil Corporation. For more information regarding Mr. Gardner's geographic and job specific experience, please refer to the Ryder Scott Company website at https://ryderscott.com/employees/denver-employees.

Mr. Gardner earned a Bachelor of Science degree in Mechanical Engineering from Brigham Young University in 2001 (summa cum laude). He is a licensed Professional Engineer in the States of Colorado and Texas. Mr. Gardner is a member of the Society of Petroleum Engineers and a former chairperson of the Society of Petroleum Evaluation Engineers for the Denver Chapter. He also currently serves on the latter organization's board of directors at the international level.

In addition to gaining experience and competency through prior work experience, the Texas Board of Professional Engineers requires a minimum of 15 hours of continuing education annually, including at least one hour in the area of professional ethics, which Mr. Gardner fulfills. As part of his 2021 continuing education hours, Mr. Gardner attended the annual Ryder Scott Reserves Conference, which covered a variety of reserves topics including analysis techniques for unconventional reservoirs, ESG issues, reserves definitions and guidelines, SEC comment letter trends, and others. In addition, Mr. Gardner participated in various SPE and SPEE technical seminars, and other internal company training courses throughout the year covering topics such as reserves evaluation methods and evaluation software, ethics, regulatory issues, greenhouse gas management, and more.

Based on his educational background, professional training and more than 16 years of practical experience in the estimation and evaluation of petroleum reserves, Mr. Gardner has attained the professional qualifications as a Reserves Estimator set forth in Article III of the "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserves Information" promulgated by the Society of Petroleum Engineers as of June 2019.

PETROLEUM RESERVES DEFINITIONS

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

PREAMBLE

On January 14, 2009, the United States Securities and Exchange Commission (SEC) published the "Modernization of Oil and Gas Reporting; Final Rule" in the Federal Register of National Archives and Records Administration (NARA). The "Modernization of Oil and Gas Reporting; Final Rule" includes revisions and additions to the definition section in Rule 4-10 of Regulation S-X, revisions and additions to the oil and gas reporting requirements in Regulation S-K, and amends and codifies Industry Guide 2 in Regulation S-K. The "Modernization of Oil and Gas Reporting; Final Rule", including all references to

Regulation S-X and Regulation S-K, shall be referred to herein collectively as the “SEC regulations”. The SEC regulations take effect for all filings made with the United States Securities and Exchange Commission as of December 31, 2009, or after January 1, 2010. Reference should be made to the full text under Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) for the complete definitions (direct passages excerpted in part or wholly from the aforementioned SEC document are denoted in italics herein).

Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. All reserve estimates involve an assessment of the uncertainty relating the likelihood that the actual remaining quantities recovered will be greater or less than the estimated quantities determined as of the date the estimate is made. The uncertainty depends chiefly on the amount of reliable geologic and engineering data available at the time of the estimate and the interpretation of these data. The relative degree of uncertainty may be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Unproved reserves are less certain to be recovered than proved reserves and may be further sub-classified as probable and possible reserves to denote progressively increasing uncertainty in their recoverability. Under the SEC regulations as of December 31, 2009, or after January 1, 2010, a company may optionally disclose estimated quantities of probable or possible oil and gas reserves in documents publicly filed with the SEC. The SEC regulations continue to prohibit disclosure of estimates of oil and gas resources other than reserves and any estimated values of such resources in any document publicly filed with the SEC unless such information is required to be disclosed in the document by foreign or state law as noted in §229.1202 Instruction to Item 1202.

Reserves estimates will generally be revised only as additional geologic or engineering data become available or as economic conditions change.

Reserves may be attributed to either natural energy or improved recovery methods. Improved recovery methods include all methods for supplementing natural energy or altering natural forces in the reservoir to increase ultimate recovery. Examples of such methods are pressure maintenance, natural gas cycling, waterflooding, thermal methods, chemical flooding, and the use of miscible and immiscible displacement fluids. Other improved recovery methods may be developed in the future as petroleum technology continues to evolve.

Reserves may be attributed to either conventional or unconventional petroleum accumulations. Petroleum accumulations are considered as either conventional or unconventional based on the nature of their in-place characteristics, extraction method applied, or degree of processing prior to sale. Examples of unconventional petroleum accumulations include coalbed or coalseam methane (CBM/CSM), basin-centered gas, shale gas, gas hydrates, natural bitumen and oil shale deposits. These unconventional accumulations may require specialized extraction technology and/or significant processing prior to sale.

Reserves do not include quantities of petroleum being held in inventory.

Because of the differences in uncertainty, caution should be exercised when aggregating quantities of petroleum from different reserves categories.

RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(26) defines reserves as follows:

Reserves. *Reserves are estimated remaining quantities of oil and gas and related substances anticipated to be economically producible, as of a given date, by application of development projects to known accumulations. In addition, there must exist, or there must be a reasonable expectation that there will exist, the legal right to produce or a revenue interest in the production, installed means of delivering oil and gas or related substances to market, and all permits and financing required to implement the project.*

Note to paragraph (a)(26): Reserves should not be assigned to adjacent reservoirs isolated by major, potentially sealing, faults until those reservoirs are penetrated and evaluated as economically producible. Reserves should not be assigned to areas that are clearly separated from a known accumulation by a non-productive reservoir (i.e., absence of reservoir, structurally low reservoir, or negative test results). Such areas may contain prospective resources (i.e., potentially recoverable resources from undiscovered accumulations).

PROVED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(22) defines proved oil and gas reserves as follows:

Proved oil and gas reserves. *Proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible—from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations—prior to the time at which contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonably certain that it will commence the project within a reasonable time.*

(i) The area of the reservoir considered as proved includes:

(A) The area identified by drilling and limited by fluid contacts, if any, and

(B) Adjacent undrilled portions of the reservoir that can, with reasonable certainty, be judged to be continuous with it and to contain economically producible oil or gas on the basis of available geoscience and engineering data.

(ii) In the absence of data on fluid contacts, proved quantities in a reservoir are limited by the lowest known hydrocarbons (LKH) as seen in a well penetration unless geoscience, engineering, or performance data and reliable technology establishes a lower contact with reasonable certainty.

(iii) Where direct observation from well penetrations has defined a highest known oil (HKO) elevation and the potential exists for an associated gas cap, proved oil reserves may be assigned in the structurally higher portions of the reservoir only if geoscience, engineering, or performance data and reliable technology establish the higher contact with reasonable certainty.

(iv) Reserves which can be produced economically through application of improved recovery techniques (including, but not limited to, fluid injection) are included in the proved classification when:

(A) Successful testing by a pilot project in an area of the reservoir with properties no more favorable than in the reservoir as a whole, the operation of an installed program in the reservoir or an analogous reservoir, or other evidence using reliable technology establishes the reasonable certainty of the engineering analysis on which the project or program was based; and

(B) The project has been approved for development by all necessary parties and entities, including governmental entities.

(v) Existing economic conditions include prices and costs at which economic producibility from a reservoir is to be determined. The price shall be the average price during the 12-month period prior to the ending date of the period covered by the report, determined as an unweighted arithmetic average of the first-day-of-the-month price for each month within such period, unless prices are defined by contractual arrangements, excluding escalations based upon future conditions.

PROBABLE RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(18) defines probable oil and gas reserves as follows:

Probable reserves. *Probable reserves are those additional reserves that are less certain to be recovered than proved reserves but which, together with proved reserves, are as likely as not to be recovered.*

(i) When deterministic methods are used, it is as likely as not that actual remaining quantities recovered will exceed the sum of estimated proved plus probable reserves. When probabilistic methods are used, there should be at least a 50% probability that the actual quantities recovered will equal or exceed the proved plus probable reserves estimates.

(ii) Probable reserves may be assigned to areas of a reservoir adjacent to proved reserves where data control or interpretations of available data are less certain, even if the interpreted reservoir continuity of structure or productivity does not meet the reasonable certainty criterion.
Probable reserves may be assigned to areas that are structurally higher than the proved area if these areas are in communication with the proved reservoir.

(iii) Probable reserves estimates also include potential incremental quantities associated with a greater percentage recovery of the hydrocarbons in place than assumed for proved reserves.

(iv) See also guidelines in paragraphs (a)(17)(iv) and (a)(17)(vi) of this section.

PETROLEUM RESERVES STATUS DEFINITIONS AND GUIDELINES

As Adapted From:
RULE 4-10(a) of REGULATION S-X PART 210
UNITED STATES SECURITIES AND EXCHANGE COMMISSION (SEC)

and

2018 PETROLEUM RESOURCES MANAGEMENT SYSTEM (SPE-PRMS)
Sponsored and Approved by:
SOCIETY OF PETROLEUM ENGINEERS (SPE)
WORLD PETROLEUM COUNCIL (WPC)
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS (AAPG)
SOCIETY OF PETROLEUM EVALUATION ENGINEERS (SPEE)
SOCIETY OF EXPLORATION GEOPHYSICISTS (SEG)
SOCIETY OF PETROPHYSICISTS AND WELL LOG ANALYSTS (SPWLA)

Reserves status categories define the development and producing status of wells and reservoirs. Reference should be made to Title 17, Code of Federal Regulations, Regulation S-X Part 210, Rule 4-10(a) and the SPE-PRMS as the following reserves status definitions are based on excerpts from the original documents (direct passages excerpted from the aforementioned SEC and SPE-PRMS documents are denoted in italics herein).

DEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(6) defines developed oil and gas reserves as follows:

Developed oil and gas reserves are reserves of any category that can be expected to be recovered:

(i) Through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared to the cost of a new well; and

(ii) Through installed extraction equipment and infrastructure operational at the time of the reserves estimate if the extraction is by means not involving a well.

Developed Producing (SPE-PRMS Definitions)

While not a requirement for disclosure under the SEC regulations, developed oil and gas reserves may be further sub-classified according to the guidance contained in the SPE-PRMS as Producing or Non-Producing.

Developed Producing Reserves

Developed Producing Reserves are expected quantities to be recovered from completion intervals that are open and producing at the effective date of the estimate.

Improved recovery reserves are considered producing only after the improved recovery project is in operation.

Developed Non-Producing

Developed Non-Producing Reserves include shut-in and behind-pipe Reserves.

Shut-In

Shut-in Reserves are expected to be recovered from:

1. *completion intervals that are open at the time of the estimate but which have not yet started producing;*
2. *wells which were shut-in for market conditions or pipeline connections; or*
3. *wells not capable of production for mechanical reasons.*

Behind-Pipe

Behind-pipe Reserves are expected to be recovered from zones in existing wells that will require additional completion work or future re-completion before start of production with minor cost to access these reserves.

In all cases, production can be initiated or restored with relatively low expenditure compared to the cost of drilling a new well.

UNDEVELOPED RESERVES (SEC DEFINITIONS)

Securities and Exchange Commission Regulation S-X §210.4-10(a)(31) defines undeveloped oil and gas reserves as follows:

Undeveloped oil and gas reserves are reserves of any category that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

(i) Reserves on undrilled acreage shall be limited to those directly offsetting development spacing areas that are reasonably certain of production when drilled, unless evidence using reliable technology exists that establishes reasonable certainty of economic producibility at greater distances.

(ii) Undrilled locations can be classified as having undeveloped reserves only if a development plan has been adopted indicating that they are scheduled to be drilled within five years, unless the specific circumstances, justify a longer time.

(iii) Under no circumstances shall estimates for undeveloped reserves be attributable to any acreage for which an application of fluid injection or

other improved recovery technique is contemplated, unless such techniques have been proved effective by actual projects in the same reservoir or an analogous reservoir, as defined in paragraph (a)(2) of this section, or by other evidence using reliable technology establishing reasonable certainty.
